FORWARD-LOOKING STATEMENTS

The matters discussed in this Quarterly Report on Form 10-Q, in the Company's press releases and in the Company's website-accessible conference calls with analysts and investor presentations include "forward-looking statements" about the plans, strategies, objectives, goals or expectations of SpartanNash Company and subsidiaries ("SpartanNash" or the "Company"). These forward-looking statements are identifiable by words or phrases indicating that SpartanNash or management "expects," "anticipates," "plans," "believes," or "estimates," or that a particular occurrence or event "will," "may, "could," "should," or "will likely" result, occur or be pursued or "continue" in the future, that the "outlook" or "trend" is towar particular result or occurrence, that a development is an "opportunity," "priority," "strategy," "focus," that the Company is "positioned" for a particular result, or similarly stated expectations. Accounting estimates, such as those described under the heading "Critical Accounting Policies" in Part I, Item 2 of this Form 10-Q, are inherently forward-looking. The Company's asset impairment, restructuring cost provisions and fair value measurements are estimates and actual costs may be more or less than these estimates and differences may be material. You should not place undue reliance on these forward-looking statements, which speak only as of the date of the Quarterly Report, other report, release, presentation, or statement.

In addition to other risks and uncertainties described in connection with the forward-looking statements contained in this Quarterly Report on Form 10-Q, SpartanNash's Annual Report on Form 10-K for the fiscal year ended January 3, 2015 (in particular, you should refer to the discussion of "Risk Factors" in Item 1A of the Company's Annual Report on Form 10-K) and other periodic reports filed with the Securities and Exchange Commission, there are many important factors that could cause actual results to differ materially.

The Company's ability to achieve sales and earnings expectations; improve operating results; realize benefits of the merger with Nash-Finch Company (including realization of synergies); maintain or strengthen retail-store performance; assimilate acquired distribution centers and stores; maintain or grow sales; respond successfully to competitors including remodels and new openings; maintain or improve gross margin; effectively address food cost or price inflation or deflation; maintain or improve customer and supplier relationships; realize expected synergies from other acquisition activity; realize expected benefits of restructuring; realize growth opportunities; maintain or expand customer base; reduce operating costs; sell on favorable terms assets held for sale; generate cash; continue to meet the terms of the Company's debt covenants; continue to pay dividends; and successfully implement and realize the expected benefits of the other programs, initiatives, systems, plans, priorities, strategies, objectives, goals or expectations described in this Quarterly Report, the Company's other reports, press releases and public comments will be affected by changes in economic conditions generally or in the markets and geographic areas that the Company serves, adverse effects of the changing food and distribution industries, adverse changes in government funded consumer assistance programs, possible changes in the military commissary system, including those stemming from the redeployment of forces, congressional action, changes in funding levels, or the effects of mandated reductions in or sequestration of government expenditures, and other factors.

This section is intended to provide meaningful cautionary statements. This should not be construed as a complete list of all economic, competitive, governmental, technological and other factors that could adversely affect the Company's expected consolidated financial position, results of operations or liquidity. Additional risks and uncertainties not currently known to SpartanNash or that SpartanNash currently believes are immaterial also may impair its business, operations, liquidity, financial condition and prospects. The Company undertakes no obligation to update or revise its forward-looking statements to reflect developments that occur or information obtained after the date of this Quarterly Report.

SPARTANNASH COMPANY AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1 Summary of Significant Accounting Policies and Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements (the "financial statements") include the accounts of SpartanNash Company and its subsidiaries ("SpartanNash" or the "Company"). All significant intercompany accounts and transactions have been eliminated. For further information, refer to the consolidated financial statements and footnotes included in the Annual Report on Form 10-K for the year ended January 3, 2015.

In the opinion of management, the accompanying financial statements, taken as a whole, contain all adjustments, which are of a normal recurring nature, necessary to present fairly the financial position of SpartanNash as of October 10, 2015, and the results of its operations and cash flows for the interim periods presented. Interim results are not necessarily indicative of results for a full year.

Note 2 Recently Issued Accounting Standards

In September 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-16, "Business Combinations: Simplifying the Accounting for Measurement-Period Adjustments." ASU 2015-16 requires that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the same reporting period in which the adjustments are determined. The Company adopted ASU 2015-16 in the third quarter of fiscal 2015. Adoption of this standard did not have a material impact on the financial statements as the Company has not recorded any significant measurement-period adjustments in fiscal 2015.

In April 2015, the FASB issued ASU 2015-03, "Interest - Imputation of Interest: Simplifying the Presentation of Debt Issuance Costs." ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The new guidance is effective on a retrospective basis for fiscal years beginning after December 15, 2015, and interim periods within those years. Adoption of this standard in fiscal 2016 will retroactively decrease Other long-term assets and Long-term debt. As of October 10, 2015, such amount was approximately \$9.2 million.

In April 2014, the FASB issued ASU 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity." ASU 2014-08 changed the criteria for reporting discontinued operations and modified related disclosure requirements. The Company adopted ASU 2014-08 in the first quarter of fiscal 2015. Adoption of this standard did not have a material impact on the financial statements.

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which provides guidance for revenue recognition. The new guidance contained in the ASU affects any reporting organization that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. In August 2015, the FASB issued ASU 2015-14, "Deferral of the Effective Date," which results in the guidance being effective for the Company in the first quarter of its fiscal year ending December 29, 2018. Adoption is allowed by either the full retrospective or modified retrospective approach. The Company is currently in the process of evaluating the impact of adoption of this standard on its financial statements.

Note 3 Acquisitions

On June 16, 2015, SpartanNash acquired certain assets and assumed certain liabilities of Dan's Super Market, Inc. ("Dan's") for a total purchase price of \$32.6 million, which included inventory of \$3.7 million. The results of operations of the Dan's acquisition are included in the accompanying financial statements from the date of acquisition. Dan's is a six-store chain serving Bismarck and Mandan, North Dakota, and was not a customer of the SpartanNash Food Distribution segment prior to the acquisition. SpartanNash acquired the Dan's stores to strengthen its offering in this region from both a retail and distribution perspective. The purchased assets include inventory, equipment, trade name, favorable lease, non-compete agreements, and goodwill. The acquired assets and assumed liabilities were recorded at their estimated fair values as of the acquisition date and were based on preliminary estimates that may be subject to further adjustments within the measurement period. Goodwill of \$24.6 million and \$1.0 million was preliminarily assigned to the Retail and Food Distribution segments, respectively.

Note 4 Goodwill

Changes in the carrying amount of goodwill were as follows:

Note 5 Restructuring and Asset Impairment

The following table provides the activity of restructuring costs for the 40 weeks ended October 10, 2015. Accrued restructuring costs recorded in the Condensed Consolidated Balance Sheets are included in "Other accrued expenses" in Current liabilities and "Other long-term liabilities" in Long-term liabilities based on when the obligations are expected to be paid.

Balance at October 10, 2015	\$ 14,564	\$		\$	5 14,564

(a) The provision for lease and related ancillary costs represents the estimated costs to be incurred for store closings in the Retail segment.

(b) The provision for severance relates to distribution center closings in the Food Distribution and Military segments.

- (c) The changes in estimates relate to revised estimates of lease and ancillary costs, sublease income, and severance associated with previously closed stores.
- (d) The lease termination adjustment represents the benefit recognized in connection with lease buyouts on two previously closed stores. The lease liabilities were formerly included in the Company's restructuring cost liability based on initial estimates.

Included in the liability are lease obligations recorded at the present value of future minimum lease payments, calculated using a risk-free interest rate, and related ancillary costs from the date of closure to the end of the remaining lease term, net of estimated sublease income.
