NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Principles of Consolidation:

Farmers National Banc Corp. (“Company”) is a one-bank holding company registered under the Bank Holding Company Act of 1956, as amended. The Company provides full banking services through its nationally chartered subsidiary, The Farmers National Bank of Canfield (“Bank”). The Company acquired First National Bank of Orrville (“First National Bank”) a subsidiary of National Bancshares Corporation (“NBOH”) and National Community Bank (“FNCB”) a subsidiary of Tri-State Banc, Inc. (“Tri-State”) during 2015 and consolidated all activity of both acquisitions within the Bank. The consolidated financial statements also include the accounts of the Farmers National Bank of Canfield’s subsidiaries; Farmers National Insurance (“Insurance”) and Farmers of Canfield Investment Co. (“Investments”). The Company provides trust services through its subsidiary, Farmers Trust Company (“Trust”), retirement consulting services through National Associates, Inc. (“NAI”) and insurance services through the Bank’s subsidiary, Insurance. The consolidated financial statements include the accounts of the Company, the Bank and its subsidiaries, along with Trust and NAI. All significant intercompany balances and transactions have been eliminated in the consolidation.

Basis of Presentation:

The unaudited condensed consolidated financial statements have been prepared in conformity with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles (“U.S. GAAP”) for complete financial statements. The financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company’s 2015 Annual Report to Shareholders included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2015. The interim consolidated financial statements include all adjustments (consisting of only normal recurring items) that, in the opinion of management, are necessary for a fair presentation of the financial position and results of operations for the periods presented. The results of operations for the interim periods disclosed herein are not necessarily indicative of the results that may be expected for a full year. Certain items included in the prior period financial statements were reclassified to conform to the current period presentation. There was no effect on net income or total stockholders’ equity.

Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Segments:

The Company provides a broad range of financial services to individuals and companies in northeastern Ohio. Operations are managed and financial performance is primarily aggregated and reported in three lines of business, the Bank segment, the Trust segment and the Retirement Consulting segment.

Comprehensive Income:

Comprehensive income consists of net income and other comprehensive income. Other comprehensive income consists of unrealized gains and losses on securities available for sale and changes in the funded status of the post-retirement health plan, which are recognized as separate components of equity, net of tax effects. For all periods presented there was no change in the funded status of the post-retirement health plan.

New Accounting Standards:

In March 2016, FASB issued Accounting Standards Update (ASU) 2016-09 - Compensation - Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. The Board is issuing this Update as part of its initiative to reduce complexity in accounting standards. The areas for simplification in this Update involve several aspects of the accounting for employee share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. Some of the areas for simplification apply only to nonpublic entities. In addition, the amendments in this Update eliminate the guidance in Topic 718 that was indefinitely deferred shortly after the issuance of FASB Statement No. 123 (revised 2004), Share-Based Payment. This ASU is the final version of Proposed Accounting Standards Update—Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting, which has been deleted. Management is currently evaluating the impact of the adoption of this guidance on the Company's consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02 - Leases (Topic 842). The ASU will require all organizations that lease assets to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. Additional qualitative and quantitative disclosures will be required so that users can understand more about the nature of an entity's leasing activities. The amendments in this Update create Topic 842 Leases, and supersede the leases requirements in Topic 840 Leases. Topic 842 specifies the accounting for leases. The objective of Topic 842 is to establish the principles that lessees and lessors shall apply to report useful information to users of financial statements about the amount, timing, and uncertainty of cash flows arising from a lease. This ASU is the final version of Proposed Accounting Standards Update (Revised) 2013-270—Leases (Topic 842), which has been deleted. The new guidance is effective for annual reporting periods and interim reporting periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted. Management is currently evaluating the impact of the adoption of this guidance on the Company's consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01 - Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. The amendments in this Update require all equity investments to be measured at fair value with changes in the fair value recognized through net income (other than those accounted for under equity method of accounting or those that result in consolidation of the investee). The amendments in this Update also require an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. In addition the amendments in this Update eliminate the requirement to disclose the fair value of financial instruments measured at amortized cost for entities that are not public business entities and the requirement for to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet for public business entities. This Accounting Standards Update is the final version of Proposed Accounting Standards Update 2013-220—Financial Instruments—Overall (Subtopic 825-10) and Proposed Accounting Standards Update 2013-221—Financial Instruments—Overall (Subtopic 825-10). The new guidance is effective for annual reporting periods and interim reporting periods within those annual periods, beginning after December 15, 2017. Management is currently evaluating the impact of the adoption of this guidance on the Company's consolidated financial statements.

Business Acquisitions:

On October 1, 2015, the Company completed the acquisition of Tri-State, the parent company of FNCB. The transaction involved both cash and 1,296,517 shares of stock totaling \$14.3 million. Pursuant to the terms of the merger agreement, common shareholders of Tri-State received 1.747 common shares, without par value, of the Company or \$14.20 in cash, for each common share of Tri-State, subject to proration provisions specified in the merger agreement that provide for a targeted aggregate split of total consideration consisting of 75% shares of Farmers' common stock and 25% cash. Preferred shareholders of Tri-State received \$13.60 in cash for each share of Series A Preferred Stock, without par value, of Tri-State.

Goodwill of \$2.8 million, which is recorded on the balance sheet, arising from the acquisition consisted largely of synergies and the cost savings resulting from the combining of the companies. The goodwill was determined not to be deductible for income tax purposes. The fair value of other intangible assets of \$1.2 million is related to core deposits.

On June 19, 2015, the Company completed the acquisition of all outstanding stock of NBOH, the parent company of First National Bank of Orrville. The transaction involved both cash and 7,262,955 shares of stock totaling \$74.8 million. First National Bank of Orrville branches became branches of Farmers National Bank of Canfield. Pursuant to the Agreement, each shareholder of NBOH received either \$32.15 per share in cash or 4.034 shares of Farmers' common stock, subject to an overall limitation of 80% of the shares of NBOH being exchanged for stock and 20% for cash.

Goodwill of \$26.7 million, which is recorded on the balance sheet, arising from the acquisition consisted largely of synergies and the cost savings resulting from the combining of the companies. The goodwill was determined not to be deductible for income tax purposes. The fair value of other intangible assets of \$4.4 million is related to core deposits.

The acquisitions provide an attractive mix of additional loans and deposits and helps the Company achieve additional operating scale that will drive earnings per share growth. In addition to the financial benefits, the merger is a significant step in the Company's strategy to expand its footprint.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

The following table summarizes the consideration paid for Tri-State and NBOH and the amounts of the assets acquired and liabilities assumed on the closing date of each acquisition.

	(In Thousands of Dollars)	
	Tri-State	NBOH
Consideration		
Cash	\$3,607	\$15,732
Stock	10,733	59,048
Fair value of total consideration transferred	\$14,340	\$74,780
Fair value of assets acquired		
Cash and due from financial institutions	\$13,553	\$37,035
Securities available for sale	48,300	51,340
Loans, net	66,374	430,035
Premises and equipment	1,935	6,105
Bank owned life insurance	3,274	2,891
Core deposit intangible	1,173	4,409
Other assets	1,329	7,996
Total assets	135,938	539,811
Fair value of liabilities assumed		
Deposits	114,342	423,661
Short-term borrowings	0	65,537
Long-term borrowings	2,002	0
Accrued interest payable and other liabilities	8,072	2,514
Total liabilities	124,416	491,712
Net assets acquired	\$11,522	\$48,099
Goodwill created	2,818	26,681
Total net assets acquired	\$14,340	\$74,780

The fair value of net assets acquired includes fair value adjustments to certain receivables that were not considered impaired as of the acquisition date. The fair value adjustments were determined using discounted contractual cash flows. However, the Company believes that all contractual cash flows related to the financial instruments acquired from Tri-State will be collected. As such, these receivables were not considered impaired at the acquisition date and were not subject to the guidance relating to purchased credit impaired loans. Purchase credit impaired loans would have shown evidence of credit deterioration since origination.

The following table presents pro forma information as if both acquisitions that occurred during 2015 actually took place at the beginning of 2015. The pro forma information includes adjustments for merger related costs, amortization of intangibles arising from the transaction and the related income tax effects. The pro forma financial information is not necessarily indicative of the results of operations that would have occurred had the transactions been effective on the assumed date.

Equity securities	203	127	(32)	298
Totals	\$ 394,317	\$ 3,958	\$ (3,963)	\$ 394,312

Proceeds from the sale of portfolio securities were \$10 thousand during the three month period ended March 31, 2016. Gross gains of \$1 thousand and gross losses of \$1 thousand were realized on these sales during the three month period ended March 31, 2016. Proceeds from the sale of portfolio securities were \$40.9 million during the three month period ended March 31, 2015. Gross gains were \$73 thousand along with gross losses of \$63 thousand during the same three month period ended March 31, 2015.

The amortized cost and fair value of the debt securities portfolio are shown by expected maturity. Expected maturities may differ from contractual maturities if issuers have the right to call or prepay obligations with or without call or prepayment penalties. Securities not due at a single maturity date are shown separately.

Other-Than-Temporary-Impairment

Management evaluates securities for other-than-temporary impairment (“OTTI”) at least on a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. Investment securities are generally evaluated for OTTI under FASB Accounting Standards Codification (“ASC”) 320, Investments – Debt and Equity Securities. Consideration is given to the length of time and the extent to which the fair value has been less than cost, the financial condition and near-term prospects of the issuer, whether the market decline was affected by macroeconomic conditions and whether the Company has the intent to sell the debt security or more likely than not will be required to sell the debt security before its anticipated recovery. In analyzing an issuer’s financial condition, the Company may consider whether the securities are issued by the federal government or its agencies, or U.S. government sponsored enterprises, whether downgrades by bond rating agencies have occurred, and the results of reviews of the issuer’s financial condition. The assessment of whether an other-than-temporary decline exists involves a high degree of subjectivity and judgment and is based on the information available to management at a point in time.

When OTTI occurs, the amount of the OTTI recognized in earnings depends on whether an entity intends to sell the security or it is more likely than not it will be required to sell the security before recovery of its amortized cost basis. If an entity intends to sell or it is more likely than not it will be required to sell the security before recovery of its amortized cost basis, the OTTI shall be recognized in earnings equal to the entire difference between the investment's amortized cost basis and its fair value at the balance sheet date. The previous amortized cost basis less the OTTI recognized in earnings becomes the new amortized cost basis of the investment. For debt securities that do not meet the aforementioned criteria, the amount of impairment is split into two components as follows: 1) OTTI related to credit loss, which must be recognized in the income statement and 2) OTTI related to other factors, which is recognized in other comprehensive income or loss. The credit loss is defined as the difference between the present value of the cash flows expected to be collected and the amortized cost basis. For equity securities, the entire amount of impairment is recognized through earnings.

As of March 31, 2016, the Company's security portfolio consisted of 470 securities, 97 of which were in an unrealized loss position. The majority of the unrealized losses on the Company's securities are related to its holdings of mortgage-backed securities, collateralized mortgage obligations, state and political subdivision securities, and Small Business Administration securities as discussed below.

Unrealized losses on debt securities issued by state and political subdivisions have not been recognized into income. These securities have maintained their investment grade ratings and management does not have the intent and does not expect to be required to sell these securities before their anticipated recovery. The fair value is expected to recover as the securities approach their maturity date.

All of the Company's holdings of collateralized mortgage obligations and residential mortgage-backed securities were issued by U.S. government-sponsored entities. Unrealized losses on these securities have not been recognized into income. Because the decline in fair value is attributable to changes in interest rates and illiquidity, and not credit quality, the issues are guaranteed by the issuing entity which the U.S. government has affirmed its commitment to support, and because the Company does not have the intent to sell these residential mortgage-backed securities and it is likely that it will not be required to sell the securities before their anticipated recovery, the Company does not consider these securities to be OTTI.

Management does not believe any unrealized losses on Small Business Administration securities represent an other-than-temporary impairment. The securities are issued and backed by the full faith and credit of the U.S. government and the Company does not have the intent and does not anticipate that it will be required to sell these securities before their anticipated recovery. The fair value of these securities is expected to recover as they approach their maturity.

Loans:

Certain loan categories have been reclassified in the current presentation. The reclassifications had no effect on net income or stockholders' equity.

Purchased credit impaired loans

As part of the NBOH acquisition the Company acquired various loans that displayed evidence of deterioration of credit quality since origination and which was probable that all contractually required payments would not be collected. The carrying amounts and contractually required payments of these loans which are included in the loan balances above are summarized in the following tables:

	March 31,	December 31,
(In Thousands of Dollars)	2016	2015
Commercial real estate		
Owner occupied	\$696	\$ 986
Non-owner occupied	477	501
Commercial	1,273	1,576
Total outstanding balance	\$2,446	\$ 3,063
Carrying amount, net of allowance of \$14 in 2016 and \$31 in 2015	\$1,902	\$ 2,184

Accretable yield, or income expected to be collected, is shown in the table below:

	March 31,
(In Thousands of Dollars)	2016
Beginning balance	\$ 323
New loans purchased	0
Accretion of income	(18)
Ending balance	\$ 305

The key assumptions considered include probability of default and the amount of actual prepayments after the acquisition date. Prepayments affect the estimated life of the loans and could change the amount of interest income and principal expected to be collected. In reforecasting future estimated cash flows, credit loss expectations are adjusted as necessary. There were no adjustments to forecasted cash flows that impacted the allowance for loan losses for the three months ended March 31, 2016.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

The following tables present the activity in the allowance for loan losses by portfolio segment for the three month periods ended March 31, 2016 and 2015:

Troubled Debt Restructurings:

Total troubled debt restructurings were \$8.8 million and \$9.3 million at March 31, 2016 and December 31, 2015, respectively. The Company has allocated \$497 thousand and \$528 thousand of specific reserves to customers whose loan terms have been modified in troubled debt restructurings as of March 31, 2016 and December 31, 2015. There were no commitments to lend additional amounts to borrowers with loans that were classified as troubled debt restructurings at March 31, 2016 and at December 31, 2015.

During the three month periods ended March 31, 2016 and 2015, the terms of certain loans were modified as troubled debt restructurings. The modification of the terms of such loans included one or a combination of the following: a

reduction of the stated interest rate of the loan; an extension of the maturity date at a stated rate of interest lower than the current market rate for new debt with similar risk; or a legal concession. During 2016, the terms of such loans included a reduction of the stated interest rate of the loan by 1.24% and an extension of the maturity date by 120 months. During the same three month period in 2015, loans modified as trouble debt restructurings had loan maturity dates extended in the range of 9 to 120 months.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

The following table presents loans by class modified as troubled debt restructurings that occurred during the three month periods ended March 31, 2016 and 2015:

Indirect	8	77	77
Total originated loans	11	124	125
Acquired loans:			
Consumer	1	33	33
Total loans	12	\$ 157	\$ 158

Three Months Ended March 31, 2015 (In Thousands of Dollars)	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Troubled Debt Restructurings:			
Commercial	1	\$ 8	\$ 8
Residential real estate			
1-4 family residential	3	354	354
Home equity lines of credit	1	50	50
Indirect	2	36	36
Total	7	\$ 448	\$ 448

There were \$11 thousand in charge offs and a \$11 thousand increase to the provision for loan losses during the three month period ended March 31, 2016, as a result of troubled debt restructurings. There were \$35 thousand in charge offs and a \$33 thousand increase to the provision for loan losses during the three month period ended March 31, 2015, as a result of troubled debt restructurings.

There was one residential real estate loan and one home equity line of credit for which there was a payment default for both within twelve months following the modification of the troubled debt restructuring during the three month period ended March 31, 2016. These loans were past due at March 31, 2016. There was no provision recorded as a result of the defaults during 2016. A loan is considered to be in payment default once it is 30 days contractually past due under the modified terms.

There was one residential real estate loan modified as a troubled debt restructuring for which there was a payment default within the twelve months following the modification during the three month period ended March 31, 2015. This loan was past due at March 31, 2015. There was a \$23 thousand provision to the loan losses as a result of the default during 2015.

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company establishes a risk rating at origination for all commercial loan and commercial real estate relationships. For relationships over \$750 thousand, management monitors the loans on an ongoing basis for any changes in the borrower's ability to service their debt. Management also affirms the risk ratings for the loans and leases in their respective portfolios on an annual basis. The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date. Special mention assets are not adversely classified and do not expose an institution to sufficient risk to warrant adverse classification.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Substandard. Loans classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. Substandard loans are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans.

As of March 31, 2016 and December 31, 2015, and based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

	Pass	Special Mention	Sub standard	Doubtful	Total

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

The Company considers the performance of the loan portfolio and its impact on the allowance for loan losses. For residential, consumer indirect and direct loan classes, the Company also evaluates credit quality based on the aging status of the loan, which was previously presented, and by payment activity. In the 1-4 family residential real estate portfolio at March 31, 2016 there were \$430 thousand of other real estate owned properties and \$791 thousand of properties in foreclosure. Other real estate owned and foreclosure properties were \$328 thousand and \$857 thousand at December 31, 2015, respectively.

The following table presents the recorded investment in residential, consumer indirect and direct auto loans based on payment activity as of March 31, 2016 and December 31, 2015. Nonperforming loans are loans past due 90 days or more and still accruing interest and nonaccrual loans.

Interest-Rate Swaps:

The Company uses a program that utilizes interest-rate swaps as part of its asset/liability management strategy. The interest-rate swaps are used to help manage the Company's interest rate risk position and not as derivatives for trading purposes. The notional amount of the interest-rate swaps does not represent amounts exchanged by the parties. The amount exchanged is determined by reference to the notional amount and the other terms of the individual interest-rate swap agreements.

The objective of the interest-rate swaps is to protect the related fixed rate commercial real estate loans from changes in fair value due to changes in interest rates. The Company has a program whereby it lends to its borrowers at a fixed rate with the loan agreement containing a two-way yield maintenance provision, which will be invoked in the event of prepayment of the loan, and is expected to exactly offset the fair value of unwinding the swap. The yield maintenance provision represents an embedded derivative which is bifurcated from the host loan contract and, as such, the swaps and embedded derivatives are not designated as hedges. Accordingly, both instruments are carried at fair value and changes in fair value are reported in current period earnings.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Summary information about these interest-rate swaps at periods ended March 31, 2016 and December 31, 2015 is as follows:

	March	
	31, 2016	December 31, 2015
Notional amounts (In thousands)	\$35,299	\$ 30,763
Weighted average pay rate on interest-rate swaps	4.26 %	4.25 %
Weighted average receive rate on interest-rate swaps	2.81 %	2.70 %
Weighted average maturity (years)	4.0	4.1
Fair value of combined interest-rate swaps (In thousands)	\$1,563	\$ 789

The fair value of the yield maintenance provisions and interest-rate swaps is recorded in other assets and other liabilities, respectively, in the consolidated balance sheets. Changes in the fair value of the yield maintenance provisions and interest-rate swaps are reported in earnings, as other noninterest income in the consolidated statements of income. For the three month periods ended March 31, 2016 and 2015 there were no net gains or losses recognized in earnings.

Earnings Per Share:

The computation of basic and diluted earnings per share is shown in the following table:

	Three Months Ended	
	March, 31, 2016	2015
Basic EPS		
Net income (In thousands)	\$4,798	\$2,211
Weighted average shares outstanding	27,047,168	18,427,901
Basic earnings per share	\$0.18	\$0.12
Diluted EPS		
Net income (In thousands)	\$4,798	\$2,211
Weighted average shares outstanding for basic earnings per share	27,047,168	18,427,901
Dilutive effect of restricted stock awards	10,670	1,408
Weighted average shares for diluted earnings per share	27,057,838	18,429,309
Diluted earnings per share	\$0.18	\$0.12

There were no restricted stock awards that were considered anti-dilutive for the three month periods ended March 31, 2016 and 2015.

Stock Based Compensation:

During 2012, the Company, with the approval of shareholders, created the 2012 Equity Incentive Plan (the “Plan”). The Plan permits the award of up to 500 thousand shares to the Company’s directors and employees to promote the Company’s long-term financial success by motivating performance through long-term incentive compensation and to better align the interests of its employees with those of its shareholders. There were 62,242 additional shares granted under the Plan during the three month period ended March 31, 2016. Expense recognized for the Plan was \$201 thousand for the three month period ended March 31, 2016. As of March 31, 2016, there was \$2.0 million of total unrecognized compensation expense related to the nonvested shares granted under the Plan. The remaining cost is expected to be recognized over 2.8 years. There were 80,918 shares granted and \$58 thousand of expense recognized for the Plan for the three month period ended March 31, 2015.

Granted shares are earned upon meeting certain target performance metrics that are measured using extensive performance review scorecards. The main metrics used include earnings per share, return on average assets and the efficiency ratio. The shares have forfeitable dividend rights; as such the shares do not meet the definition of participating shares.

23

The following is the activity under the Plan during the three months ended March 31, 2016:

	Restricted Stock Units	
	Units	Weighted Average
		Grant Date Fair
	Units	Value
Nonvested at January 1, 2016	320,980	\$ 7.88
Granted	62,242	8.98
Vested	0	0.00
Forfeited	0	0.00
Nonvested at March 31, 2016	383,222	\$ 8.06

Other Comprehensive Income:

The following table represents the detail of other comprehensive income for the three month periods ended March 31, 2016 and 2015.

(In Thousands of Dollars)	Three Months Ended March 31, 2016		
	Pre-tax	Tax	After-Tax
Unrealized holding gains on available-for-sale securities during the period	\$3,357	\$(1,175)	\$ 2,182
Reclassification adjustment for (gains) losses included in net income (1)	0	0	0
Net unrealized gains on available-for-sale securities	\$3,357	\$(1,175)	\$ 2,182

(In Thousands of Dollars)	Three Months Ended March 31, 2015		
	Pre-tax	Tax	After-Tax
Unrealized holding gains on available-for-sale securities during the period	\$2,310	\$(808)	\$ 1,502
Reclassification adjustment for (gains) losses included in net income (1)	(10)	2	(8)
Net unrealized gains on available-for-sale securities	\$2,300	\$(806)	\$ 1,494

(1) Pre-tax reclassification adjustments relating to available-for-sale securities are reported in security gains and the tax impact is included in income tax expense on the consolidated statements of income.

Regulatory Capital Matters

Banks and bank holding companies are subject to various regulatory capital requirements administered by the federal banking agencies. Capital adequacy guidelines and, additionally for banks, prompt corrective action regulations, involve quantitative measures of assets, liabilities, and certain off-balance sheet items calculated under regulatory accounting practices. The new minimum capital requirements associated with the Basel Committee on capital and liquidity regulation (Basel III) are being phased in and began on

January 1, 2015 and will continue through January 1, 2019. Capital amounts and classifications are also subject to qualitative judgments by regulators. Failure to meet capital requirements can initiate regulatory action by regulators that, if undertaken, could have a direct material effect on the financial statements. Management believes as of March 31, 2016, the Company and Bank meet all capital adequacy requirements to which they are subject.

The FDIC and other federal banking regulators revised the risk-based capital requirements applicable to bank holding companies and insured depository institutions, including the Company and the Bank, to make them consistent with agreements that were reached by the Basel Committee on Banking Supervision (“Basel III”).

The common equity tier 1 capital, tier 1 capital and total capital ratios are calculated by dividing the respective capital amounts by risk-weighted assets. The leverage ratio is calculated by dividing tier 1 capital by adjusted average total assets.

Basel III limits capital distributions and certain discretionary bonus payments if the banking organization does not hold a “capital conservation buffer” consisting of 2.5% of common equity tier 1 capital, tier 1 capital and total capital to risk-weighted assets in addition to the amount necessary to meet minimum risk-based capital requirements. The capital conservation buffer will be phased in beginning January 1, 2016 and increasing each year until fully implemented at 2.5% on January 1, 2019. Currently Basel III requires the Company and Bank to maintain (i) a minimum ratio of common equity tier 1 capital to risk-weighted assets of at least 4.5%, (ii) a minimum ratio of tier 1 capital to risk-weighted assets of at least 6.0%, (iii) a minimum ratio of total capital to risk-weighted assets of at least 8.0% and (iv) a minimum leverage ratio of at least 4.0%.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If only adequately capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as is asset growth and expansion, and capital restoration plans are required. At March 31, 2016 and December 31, 2015, the most recent regulatory notifications categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. There are no conditions or events since that notification that management believes have changed the institution's category.

Actual and required capital amounts and ratios are presented below at March 31, 2016 and December 31, 2015:

	Actual		Requirement For Capital		To be Well Capitalized

Fair Value:

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

Investment Securities: The Company uses a third party service to estimate fair value on available for sale securities on a monthly basis. This service provider is considered a leading evaluation pricing service for U.S. domestic fixed income securities. They subscribe to multiple third-party pricing vendors, and supplement that information with matrix pricing methods. The fair values for investment securities are determined by quoted market prices in active markets, if available (Level 1). For securities where quoted prices are not available, fair values are calculated based on quoted prices for similar assets in active markets, quoted prices for similar assets in markets that are not active or inputs other than quoted prices, which provide a reasonable basis for fair value determination. Such inputs may include interest rates and yield curves, volatilities, prepayment speeds, credit risks and default rates. Inputs used are derived principally from observable market data (Level 2). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3). The fair values of Level 3 investment securities are determined by using unobservable inputs to measure fair value of assets for which there is little, if any market activity at the measurement date, using reasonable inputs and assumptions based on the best information at the time, to the extent that inputs are available without undue cost and effort. For the period ended March 31, 2016 and for the year ended December 31, 2015, the fair value of Level 3 investment securities was immaterial.

Derivative Instruments: The fair values of derivative instruments are based on valuation models using observable market data as of the measurement date (Level 2).

Impaired Loans: At the time loans are considered impaired, collateral dependent impaired loans are valued at the lower of cost or fair value and non-collateral dependent loans are valued based on discounted cash flows. Impaired loans carried at fair value generally receive specific allocations of the allowance for loan losses. For collateral dependent loans fair value is commonly based on recent real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Non-real estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly.

Other Real Estate Owned: Assets acquired through or instead of loan foreclosure are initially recorded at fair value less costs to sell when acquired, establishing a new cost basis. These assets are subsequently accounted for at lower of cost or fair value less estimated costs to sell. Fair values are commonly based on recent real estate appraisals. These appraisals may use a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value.

Appraisals for both collateral-dependent impaired loans and other real estate owned are performed by certified general appraisers (for commercial and commercial real estate properties) or certified residential appraisers (for residential properties) whose qualifications and licenses have been reviewed and verified by the Company. Once received, a member of the Appraisal Department reviews the assumptions and approaches utilized in the appraisal as well as the overall resulting fair value in comparison with independent data sources such as recent market data or industry-wide statistics. On an annual basis, the Company compares the actual selling price of collateral that has been sold to the most recent appraised value to determine what adjustments should be made to appraisals to arrive at fair value.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Assets measured at fair value on a recurring basis are summarized below:

(In Thousands of Dollars)	Fair Value Measurements at March 31, 2016 Using:

Impaired loans that are measured for impairment using the fair value of the collateral for collateral dependent loans, had a principal balance of \$2.1 million with a valuation allowance of \$348 thousand at March 31, 2016, resulting in no additional provision for loan losses for the three month period. At December 31, 2015, impaired loans had a principal balance of \$3.4 million, with a valuation allowance of \$383 thousand. Loans measured at fair value at March 31, 2015 resulted in an additional provision for loan losses of \$215 thousand during the three month period ended March 31, 2015. Excluded from the fair value of impaired loans, at March 31, 2016 and December 31, 2015, discussed above are \$2.9 million of loans classified as troubled debt restructurings and measured using the present value of cash flows, which are not carried at fair value.

Impaired commercial real estate loans, both owner-occupied and non-owner occupied are valued by independent external appraisals. These external appraisals are prepared using the sales comparison approach and income approach valuation techniques. Management makes subsequent unobservable adjustments to the impaired loan appraisals. Impaired loans other than commercial real estate and other real estate owned are not considered material.

The following table presents quantitative information about Level 3 fair value measurements for financial instruments measured at fair value on a non-recurring basis at the periods ended March 31, 2016 and December 31, 2015:

March 31, 2016	Fair value	Valuation Technique(s)	Unobservable Input(s)	Range (Weighted Average)
Impaired loans				
Commercial real estate	\$31	Sales Comparison	Adjustment for differences between comparable sales	(24.02%)
Commercial real estate	1,417	Quoted price for loan relationship	Offer Price	1% - 15% 8.40%
Commercial	252	Quoted price for loan relationship	Offer Price	(3.01%)
Residential				(13.49%) - 15.90%
	42	Sales comparison	Adjustment for differences between comparable sales	(10.65%)

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Fair December 31, 2015 value	Valuation Technique(s)	Unobservable Input(s)	Range (Weighted Average)
Impaired loans

The methods and assumptions used to estimate fair value, not previously described, are described as follows:

Cash and Cash Equivalents: The carrying amounts of cash and short-term instruments approximate fair values and are classified as either Level 1 or Level 2. The Company has determined that cash on hand and non-interest bearing due from bank accounts are Level 1 whereas interest bearing federal funds sold and other are Level 2.

Restricted Stock: It is not practical to determine the fair value of restricted stock due to restrictions placed on its transferability.

Loans: Fair values of loans, excluding loans held for sale, are estimated as follows: For variable rate loans that repriced frequently and with no significant change in credit risk, fair values are based on carrying values resulting in a Level 3 classification. Fair values for other loans are estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality resulting in a Level 3 classification. Impaired loans are valued at the lower of cost or fair value as described previously. The methods utilized to estimate the fair value of loans do not necessarily represent an exit price.

Loans held for sale: The fair value of loans held for sale is estimated based upon binding contracts and quotes from third party investors resulting in a Level 2 classification.

Accrued Interest Receivable/Payable: The carrying amounts of accrued interest receivable and payable approximate fair value resulting in a Level 1, Level 2 or Level 3 classification. The classification is the result of the association with securities, loans and deposits.

Deposits: The fair values disclosed for demand deposits – interest and non-interest checking, passbook savings, and money market accounts – are, by definition, equal to the amount payable on demand at the reporting date resulting in a Level 1 classification. The carrying amounts of variable rate certificates of deposit approximate their fair values at the reporting date resulting in a Level 2 classification. Fair value for fixed rate certificates of deposit are estimated using a discounted cash flows calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities on time deposits resulting in a Level 2 classification.

Short-term Borrowings: The carrying amounts of federal funds purchased, borrowings under repurchase agreements, and other short-term borrowings, generally maturing within ninety days, approximate their fair values resulting in a Level 2 classification.

Long-term Borrowings: The fair values of the Company's long-term borrowings are estimated using discounted cash flow analyses based on the current borrowing rates for similar types of borrowing arrangements resulting in a Level 2 classification.

Off-balance Sheet Instruments: The fair value of commitments is not considered material.

Segment Information:

The reportable segments are determined by the products and services offered, primarily distinguished between banking, trust and retirement consulting operations. They are also distinguished by the level of information provided to the chief operating decision makers in the Company, who use such information to review performance of various components of the business, which are then aggregated. Loans, investments, and deposits provide the revenues in the banking operation. All operations are domestic.

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Income taxes	138	609	27	(157)	617
Net Income	\$ 268	\$ 2,198	\$ 51	\$ (306)	\$ 2,211

The Bank segment includes Farmers National Insurance and Farmers of Canfield Investment Co.

Goodwill and Intangible Assets:

Goodwill associated with the Company's purchase of NBOH in June 2015, Tri-State in October 2015, NAI in July of 2013 and Trust in 2009 totaled \$35.1 million at March 31, 2016 and December 31, 2015. The NBOH, Tri-State, and NAI acquisitions are more fully described in the Business Acquisitions footnote. Impairment exists when a reporting unit's carrying value of goodwill exceeds its fair value, which is determined through a two-step impairment test. Management performs goodwill impairment testing on an annual basis as of September 30. The fair value of the reporting unit is determined based on a discounted cash flow model.

Acquired Intangible Assets

Acquired intangible assets were as follows:

	March 31, 2016		December 31, 2015	
	Gross Carrying	Accumulated Amortization	Gross Carrying	Accumulated Amortization
(In Thousands of Dollars)	Amount	Amount	Amount	Amount
Amortized intangible assets:				
Customer relationship intangibles	\$5,970	\$ (3,731)	\$5,970	\$ (3,585)
Non-compete contracts	370	(333)	370	(325)
Trade name	190	(70)	190	(65)
Core deposit intangible	5,582	(494)	5,582	(316)
Total	\$12,112	\$ (4,628)	\$12,112	\$ (4,291)

Aggregate amortization expense was \$337 thousand for the three month period ended March 31, 2016. Amortization expense was \$167 thousand for the three months ended March 31, 2015.

Estimated amortization expense for each of the next five periods and thereafter:

2016 (Nine months)	\$956
2017	1,207
2018	1,123
2019	1,048
2020	973
Thereafter	2,177
TOTAL	\$7,484

Short-term borrowings:

There were \$80 million in short-term Federal Home Loan Bank Advances at March 31, 2016 with a weighted average interest rate of 0.47%. In addition, the Company had \$5.5 million in fed funds purchased and a \$1.4 million balance on business lines of credit with two lending institutions at March 31, 2016.

The following table provides a disaggregation of the obligation by the class of collateral pledged for short-term financing obtained through the sales of repurchase agreements:

(In Thousands of Dollars)	March 31, 2016	December 31, 2015
Overnight and continuous repurchase agreements		
U.S. Treasury and U.S. government sponsored entities	\$9,425	\$ 5,276
State and political subdivisions	2,697	2,640
Mortgage-backed securities - residential	67,635	60,391
Collateralized mortgage obligations - residential	9,010	7,175
Total repurchase agreements	\$88,767	\$ 75,482

Management believes the risks associated with the agreements are minimal and in the case of collateral decline the company has additional investment securities available to adequately pledge as guarantees for the repurchase agreements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations
Forward Looking Statements

Discussions in this report that are not statements of historical fact (including statements that include terms such as "will," "may," "should," "believe," "expect," "anticipate," "estimate," "project," "intend," and "plan") are forward-looking statements and involve risks and uncertainties. Any forward-looking statement is not a guarantee of future performance and actual future results could differ materially from those contained in forward-looking information. Factors that could cause or contribute to such differences include, without limitation, risks and uncertainties detailed from time to time in the Company's filings with the Securities and Exchange Commission (the "Commission"), including without limitation, the risk factors disclosed in Item 1A, "Risk Factors," in the Company's Annual Report on Form 10-K for the year ended December 31, 2015.

Many of these factors are beyond the Company's ability to control or predict, and readers are cautioned not to put undue reliance on those forward-looking statements. The following list, which is not intended to be an all-encompassing list of risks and uncertainties affecting the Company, summarizes several factors that could cause the Company's actual results to differ materially from those anticipated or expected in these forward-looking statements:

- general economic conditions in market areas where we conduct business, which could materially impact credit quality trends;
- business conditions in the banking industry;
- the regulatory environment;
- fluctuations in interest rates;
- demand for loans in the market areas where we conduct business;
- rapidly changing technology and evolving banking industry standards;
- competitive factors, including increased competition with regional and national financial institutions;
- new service and product offerings by competitors and price pressures; and other like items.

Other factors not currently anticipated may also materially and adversely affect the Company's results of operations, cash flows and financial position. There can be no assurance that future results will meet expectations. While the Company believes that the forward-looking statements in this report are reasonable, the reader should not place undue reliance on any forward-looking statement. In addition, these statements speak only as of the date made. The Company does not undertake, and expressly disclaims, any obligation to update or alter any statements whether as a result of new information, future events or otherwise, except as may be required by applicable law.

Overview

On June 19, 2015, Farmers completed the merger of NBOH, the holding company for the First National Bank of Orrville. Immediately following the merger, First National Bank was merged into the Bank. This transaction resulted in the addition of \$540 million in assets and 14 branch locations in Wayne, Medina and Stark counties in Ohio. On October 1, 2015, Farmers completed the acquisition of Tri-State and the merger of Tri-State's wholly-owned subsidiary, First National Community Bank, which operates 5 banking locations in Columbiana County in Ohio and Western Pennsylvania into the Bank. At closing, Tri-State had \$136 million in assets. They also had \$54.3 million of demand deposits with an overall cost of deposits of 0.19%. Both acquisitions provide the Company the opportunity to expand into new markets and develop efficiencies of scale to drive future profits.

Net income for the three months ended March 31, 2016 was \$4.8 million, or \$0.18 per diluted share, which compares to \$2.2 million, or \$0.12 per diluted share, for the three month period ended March 31, 2015. The increase in net income can be attributed to the two acquisitions that took place after the first quarter of 2015 and the ability of management to execute on planned cost savings resulting from the mergers and their successful integration. Adjusted for the after tax expenses related to acquisition activities, net income would have been \$5.0 million or \$0.19 per diluted share for the quarter ended March 31, 2016.

Annualized return on average assets and return on average equity were 1.03% and 9.41%, respectively, for the three month period ending March 31, 2016, which compares favorably to the same three month period in 2015 where the return on average assets was 0.79% and the return on average equity was 7.14%.

33

Total loans were \$1.32 billion at March 31, 2016, compared to \$673.8 million at March 31, 2015. Organic loan growth of 22% over the past twelve months supplemented the increase from the two acquisitions, which amounted to \$496 million. The organic increase in loans is a direct result of Farmers' focus on loan growth utilizing a talented lending and credit team, while adhering to a sound underwriting discipline. Most of the increase in loans has occurred in the commercial real estate, commercial and industrial and residential real estate loan portfolios. Loans now comprise 75.3% of the Bank's average earning assets in 2016, an improvement compared to 62.5% in 2015. This improvement along with the growth in earning assets, organically and through merger activity, has resulted in a 97.3% increase in tax equated loan income from the first quarter of 2016 to the same quarter in 2015.

Non-performing assets to total assets remain at nominal levels, currently at 0.55%. Early stage delinquencies also continue to remain at low levels, at \$10.1 million, or 0.77% of total loans, at March 31, 2016. Net charge-offs for the current quarter were \$368 thousand, which compares to \$359 thousand in the same quarter last year.

The net interest margin for the three months ended March 31, 2016 was 4.07%, a 43 basis point increase from the quarter ended March 31, 2015. The increased margin is partially due to the additional accretion of the discount on the 2015 acquired loan portfolios and the higher mix of loans to assets on the balance sheet. Excluding the amortization of premium on time deposits and FHLB advances along with the accretion of the loan portfolio discount, the net interest margin would have been 9 basis points lower or 3.98% for the quarter ended March 31, 2016. In comparing the first three months of 2016 to the same period in 2015, asset yields increased 29 basis points, while the cost of interest-bearing liabilities decreased 20 basis points due mainly to maturing time deposits with higher interest rates being moved to products with lower interest rates or leaving the bank.

Noninterest income increased 22.5% to \$4.9 million for the quarter ended March 31, 2016 compared to \$4.0 million in 2015. Gains on the sale of mortgage loans increased \$279 thousand, or 227% and deposit account income increased \$332 thousand, or 55%, in the current year's quarter compared to the same quarter in 2015.

Farmers has remained committed to managing the level of noninterest expenses. Total noninterest expenses for the first quarter of 2016 were \$14.4 million. Excluding expenses related to acquisition activities of \$289 thousand, noninterest expenses were \$14.2 million. Annualized noninterest expense, excluding merger costs, measured as a percentage of quarterly average assets decreased from 3.34% in the first quarter of 2015 to 3.01% in the first quarter of 2016.

The efficiency ratio for the quarter ended March 31, 2016 improved to 62.7% compared to 70.7% for the same quarter in 2015. The main factors leading to the improvement in the efficiency ratio was the increase in net interest income and noninterest income, along with the stabilized level of noninterest expenses relative to average assets as explained in the preceding paragraphs.

Results of Operations

The following is a comparison of selected financial ratios and other results at or for the three month periods ended March 31, 2016 and 2015:

	At or for the Three Months	
	Ended March 31,	
(In Thousands, except Per Share Data)	2016	2015
Total Assets	\$ 1,860,307	\$ 1,133,651
Net Income	\$ 4,798	\$ 2,211

Basic and Diluted Earnings Per Share	\$0.18		\$0.12	
Return on Average Assets (Annualized)	1.03	%	0.79	%
Return on Average Equity (Annualized)	9.41	%	7.14	%
Efficiency Ratio (tax equivalent basis)	62.65	%	70.71	%
Equity to Asset Ratio	10.96	%	11.18	%
Tangible Common Equity Ratio *	8.88	%	10.50	%
Dividends to Net Income	22.45	%	24.97	%
Net Loans to Assets	70.21	%	58.75	%
Loans to Deposits	90.98	%	74.09	%

*The tangible common equity ratio is calculated by dividing total common stockholders' equity by total assets, after reducing both amounts by intangible assets. The tangible common equity ratio is not required by U.S. GAAP or by applicable bank regulatory requirements, but is a metric used by management to evaluate the adequacy of the Company's capital levels. Since there is no authoritative requirement to calculate the tangible common equity ratio, the Company's tangible common equity ratio is not necessarily comparable to similar capital measures disclosed or used by other companies in the financial services industry. Tangible common equity and tangible assets are non-U.S. GAAP financial measures and should be considered in addition to,

34

not as a substitute for or superior to, financial measures determined in accordance with U.S. GAAP. With respect to the calculation of the actual unaudited tangible common equity ratio as of March 31, 2016 and 2015, reconciliations of tangible common equity to U.S. GAAP total common stockholders' equity and tangible assets to U.S. GAAP total assets are set forth below:

(In Thousands of Dollars)	March 31, 2016	December 31, 2015	March 31, 2015
Reconciliation of Common Stockholders' Equity to Tangible Common Equity			
Stockholders' Equity	\$203,982	\$198,047	\$126,771
Less Goodwill and Other Intangibles	42,574	42,911	8,646
Tangible Common Equity	\$161,408	\$155,136	\$118,125

(In Thousands of Dollars)	March 31, 2016	December 31, 2015	March 31, 2015
Reconciliation of Total Assets to Tangible Assets			
Total Assets	\$1,860,307	\$1,869,902	\$1,133,651
Less Goodwill and Other Intangibles	42,574	42,911	8,646
Tangible Assets	\$1,817,733	\$1,826,991	\$1,125,005

Edgar Filing: FARMERS NATIONAL BANC CORP /OH/ - Form 10-Q

Net Interest Income. The following schedule details the various components of net interest income for the periods indicated. All asset yields are calculated on a tax-equivalent basis where applicable. Security yields are based on amortized cost.

Net interest income and interest rate spread	\$ 17,374	4.01 %	\$ 9,451	3.52 %
Net interest margin		4.07 %		3.64 %

- (1) Rates are calculated on an annualized basis.
- (2) Equity securities include restricted stock, which is included in other assets on the consolidated balance sheets.
- (3) Non-accrual loans and overdraft deposits are included in other assets.
- (4) Includes unamortized discounts and premiums. Average balance and yield are computed using the average historical amortized cost.
- (5) Interest on loans includes fee income of \$875 thousand and \$533 thousand for 2016 and 2015, respectively, and is reduced by amortization of \$593 thousand and \$536 thousand for 2016 and 2015, respectively.
- (6) For 2016, adjustments of \$160 thousand and \$467 thousand, respectively, are made to tax equate income on tax exempt loans and tax exempt securities. For 2015, adjustments of \$135 thousand and \$324 thousand, respectively, are made to tax equate income on tax exempt loans and tax exempt securities. These adjustments are based on a marginal federal income tax rate of 35%, less disallowances.

36

Net Interest Income. Tax equivalent net interest income was \$18.4 million for the first quarter of 2016 compared to \$10.5 million for the same period in 2015. The net interest margin to average earning assets on a fully taxable equivalent basis increased 43 basis points to 4.07% for the three months ended March 31, 2016, compared to 3.64% for the same three month period in the prior year. In comparing the quarters ended March 31, 2016 and 2015, yields on earning assets increased 29 basis points, while the cost of interest bearing liabilities decreased 20 basis points. The increased margin is partially due to the additional accretion of the discount on the 2015 acquired loan portfolios, the higher mix of loans to assets on the balance sheet and maturing time deposits with higher interest rates being moved to products with lower interest rates or leaving the bank. Excluding the amortization of premium on time deposits and FHLB advances along with the accretion of the loan portfolio discount, the net interest margin would have been 9 basis points lower or 3.98% for the quarter ended March 31, 2016. In comparing the first three months of 2016 to the same period in 2015, asset yields increased 29 basis points, while the cost of interest-bearing liabilities decreased 20 basis points.

Noninterest Income. Noninterest income increased 22.5% to \$4.9 million for the quarter ended March 31, 2016 compared to \$4.0 million in 2015. Gains on the sale of mortgage loans increased \$279 thousand or 227% and deposit account income increased \$332 thousand or 55.1% in comparing the same two quarters. The increased fees are mainly the result of additional volume provided by the two acquisitions during 2015.

In addition, other operating income also supplied a boost in the first quarter of 2016 compared to the same time period in 2015, increasing 82.9%. Credit and debit card fees and swap fee income were the main drivers of this increase.

Noninterest Expense. Noninterest expense totaled \$14.4 million for the three month period ended March 31, 2016, which was \$4.7 million or 48.1% more than the \$9.8 million during the same quarter in 2015. The increase is primarily the result of increased levels of expenses due to the increased size of the Company after the 2015 acquisitions of NBOH and Tri-State. Although the costs to operate the larger entity were spread over most expense categories, salaries and employee benefits increased 36.3%, or \$2.0 million, during the current quarter compared to the same quarter in 2015 as a result of the additional employees. Annualized salaries and employee benefits as a percent of average assets actually decreased from 1.95% to 1.61%, comparing the first quarters of 2016 to 2015. At March 31, 2015, before the acquisitions, the Full Time Equivalents were 326. Post acquisitions at March 31, 2016 there were 424 Full Time Equivalents. Management was able to make an additional reduction of 5 Full Time Equivalents at the end of the first quarter of 2016 which will help reduce noninterest expense going forward.

The Company's tax equivalent efficiency ratio for the three month period ended March 31, 2016 was 62.7% compared to 70.7% for the same period in 2015. The positive change in the efficiency ratio was the result of cost efficiencies being realized with the increased size of the Company, supplemented by improvements to net interest income and noninterest income.

Income Taxes. Income tax expense totaled \$1.7 million for the quarter ended March 31, 2016 and \$617 thousand for the quarter ended March 31, 2015. As discussed in previous paragraphs the increased volume of the larger company impacted net income therefore increasing the overall tax expense for the period. The effective tax rate for the three month period ended March 31, 2016 was 25.8% which compared to the effective tax rate of 21.9% for the same period in 2015. The increase in the current period's rate is a result of the percentage of tax exempt income, compared to the all income, being smaller and some merger related expenses not being fully tax deductible.

Other Comprehensive Income. For the quarter ended March 31, 2016, the change in net unrealized gains or losses on securities, net of reclassifications, resulted in an unrealized gain, net of tax, of \$2.2 million, compared to an unrealized gain of \$1.5 million for the same period in 2015. The increase in fair value of securities for the three month period ended March 31, 2016 compared to 2015 is the result of normal market interest rate fluctuations.

Financial Condition

Cash and Cash Equivalents. Cash and cash equivalents decreased \$21.4 million during the first three months of 2016. Cash was used to help fund the strong lending activity of the company. The Company expects these levels to remain steady over the next few months.

Securities. Securities available-for-sale decreased by \$7.2 million since December 31, 2015. The Company used proceeds from repayments and maturities of the securities portfolio to help fund the loan portfolio growth during the first three months of 2016.

37

Loans. Gross loans increased \$18.6 million since December 31, 2015. Most of the increase in loans has occurred in the commercial real estate, commercial and industrial and residential real estate loan portfolios. The Bank utilized a talented lending and credit team while adhering to a sound underwriting discipline to increase the loan portfolio. The increase in loan balances was enough to overcome the continued low interest rate environment and help the current quarter's tax equated loan income to improve by \$7.6 million compared to the same quarter in 2015. The average tax equivalent interest rate on the loan portfolio was 4.80% for the three month period ended March 31, 2016 compared to 4.82% for the same period in 2015. On a fully tax equivalent basis, loans contributed \$15.4 million of total interest income during the three month period ended March 31, 2016 compared to \$7.8 million for the same period in 2015.

Allowance for Loan Losses. The following table indicates key asset quality ratios that management evaluates on an ongoing basis. The unpaid principal balance of non-performing loans and non-performing assets was used in the calculation of amounts and ratios on the table below for quarters prior to the current quarter ended March 31, 2016. For the current quarter, recorded investment amounts were used in the calculations.

Asset Quality History

(In Thousands of Dollars)

	3/31/2016	12/31/2015	9/30/2015	6/30/2015	3/31/2015
Nonperforming loans	\$ 9,710	\$ 10,445	\$ 9,620	\$ 7,984	\$ 7,939
Nonperforming loans as a % of total loans	0.74 %	0.81 %	0.81 %	0.70 %	1.18 %
Loans delinquent 30-89 days	\$ 10,072	\$ 9,129	\$ 6,974	\$ 7,146	\$ 4,344
Loans delinquent 30-89 days as a % of total loans	0.77 %	0.70 %	0.59 %	0.63 %	0.64 %
Allowance for loan losses	\$ 9,390	\$ 8,978	\$ 8,294	\$ 7,286	\$ 7,723
Allowance for loan losses as a % of loans	0.71 %	0.69 %	0.70 %	0.64 %	1.15 %
Allowance for loan losses as a % of non-acquired loans	1.08 %	1.08 %	1.08 %	1.03 %	1.15 %
Allowance for loan losses as a % of nonperforming loans	96.70 %	85.96 %	86.22 %	91.26 %	97.28 %
Annualized net charge-offs to average net loans outstanding	0.11 %	0.09 %	0.10 %	0.71 %	0.22 %
Non-performing assets	\$ 10,265	\$ 11,387	\$ 10,672	\$ 9,112	\$ 8,083
Non-performing assets as a % of total assets	0.55 %	0.61 %	0.62 %	0.54 %	0.71 %
Net charge-offs for the quarter	\$ 368	\$ 296	\$ 211	\$ 1,292	\$ 359

For the three months ended March 31, 2016, management recorded a \$780 thousand provision for loan losses, compared to providing \$450 thousand over the same three month period in the prior year. The larger provision recorded for the three month period ended March 31, 2016 was primarily a result of the loan portfolio's 22% organic growth. The increase in the allowance for loan losses was consistent with the balance of loans for the three month period ended March 31, 2016 as compared to the same period in 2015. The ratio of allowance for loan losses to gross loans decreased to .71% compared to 1.15% at March 31, 2015. The decrease is the result of the additional loan portfolios acquired at fair market value without an associated allowance for loan losses. When the acquired loans are excluded the ratio is 1.08% and compares similarly with the periods presented in the above table. Non-performing loans as a percentage of total loans decreased from 1.18% at March 31, 2015 to .74% at March 31, 2016. Even with

the reduction in the percentage of non-performing loans to total loans as compared to March 31, 2015 the percentage of the allowance for loan losses to non-performing loans decreased slightly from 97.3% at March 31, 2015 to 96.7% at March 31, 2016.

Based on the evaluation of the adequacy of the allowance for loan losses, management believes that the allowance for loan losses at March 31, 2016 is adequate and reflects probable incurred losses in the portfolio. The provision for loan losses is based on management's judgment after taking into consideration all factors connected with the collectability of the existing loan portfolio. Management evaluates the loan portfolio in light of economic conditions, changes in the nature and volume of the loan portfolio, industry standards and other relevant factors. Specific factors considered by management in determining the amounts charged to operating expenses include previous credit loss experience, the status of past due interest and principal payments, the quality of financial information supplied by loan customers and the general condition of the industries in the community to which loans have been made.

Deposits. Total deposits increased \$36.8 million from December 31, 2015 to March 31, 2016, for a balance of \$1.4 billion. The increase in deposits is the result of cyclical activity and may be considered normal during the first three months of 2016. Non-interest bearing demand deposits increased by \$19.7 million, or 6.3%, between December 31, 2015 and March 31, 2016. Money market index accounts also increased, at December 31, 2015 the balance was \$288.1 million and at March 31, 2016 it increased to \$314.5 million an increase of 9.1%. The Company's strategy is to grow deposit balances, to help supply the needs of the growing loan portfolio, while pricing deposit rates to remain competitive within the market. At March 31, 2016, core deposits, which include, savings and money market accounts, time deposits less than \$250 thousand, demand deposits and interest bearing demand deposits represented approximately 97.3% of total deposits.

Borrowings. Total borrowings decreased \$50.4 million, or 20.3%, since December 31, 2015. During the three month period ended March 31, 2016 the Company repaid \$55.7 million in short-term FHLB advances and added \$5.5 million in fed funds purchased. The decrease in borrowings is a direct result of the growth in deposits over that same period.

Capital Resources. Total stockholders' equity increased \$5.9 million, or 3.0%, during the three month period ended March 31, 2016. The increase is due to the quarterly net income addition to retained earnings less dividends paid. Also contributing to the overall equity increase is an increase of \$2.2 million in accumulated other comprehensive income which is the result a change in the mark to market adjustment to the securities available for sale portfolio, due to normal market fluctuations. Shareholders received \$0.04 per share in cash dividends during the current quarter which is a 33% increase over the \$0.03 paid during each quarter in 2015. Book value per share increased from \$7.35 per share at December 31, 2015 to \$7.58 per share at March 31, 2016. The Company's tangible book value per share also increased, from \$5.77 per share at December 31, 2015 to \$5.99 per share at March 31, 2016. The increases in book value and tangible book value per share were also the result of the mark to market adjustments to the securities available for sale portfolio and the increase to retained earnings from profit retention.

The capital management function is a regular process that consists of providing capital for both the current financial position and the anticipated future growth of the Company. New minimum capital requirements associated with the Basel Committee on capital and liquidity regulation (Basel III) and are being phased in beginning on January 1, 2015 through January 1, 2019. At March 31, 2016 the Company is required to maintain 4.5% common equity tier 1 to risk weighted assets. As of March 31, 2016 the Company's common equity tier 1 to risk weighted assets was 11.82%, total risk-based capital ratio stood at 12.63%, and the Tier I risk-based capital ratio and Tier I leverage ratio were at 11.97% and 9.34%, respectively. Management believes that the Company and the Bank meet all capital adequacy requirements to which they are subject, as of March 31, 2016.

Critical Accounting Policies

The Company follows financial accounting and reporting policies that are in accordance with U.S. GAAP. These policies are presented in Note 1 of the consolidated audited financial statements in the Company's Annual Report to Shareholders included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015. Critical accounting policies are those policies that require management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. The Company has identified two accounting policies that are critical accounting policies and an understanding of these policies is necessary to understand the Company's financial statements. These policies relate to determining the adequacy of the allowance for loan losses and other-than-temporary impairment of securities. Additional information regarding these policies is included in the notes to the aforementioned 2015 consolidated financial statements, Note 1 (Summary of Significant Accounting Policies), Note 3 (Securities), Note 4 (Loans), and the sections captioned "Investment Securities" and "Loan Portfolio."

Management believes that the accounting for goodwill and other intangible assets also involves a higher degree of judgment than most other significant accounting policies. U.S. GAAP establishes standards for the amortization of acquired intangible assets and the impairment assessment of goodwill. Goodwill arising from business combinations represents the value attributable to unidentifiable intangible assets in the business acquired. The Company's goodwill relates to the value inherent in the banking industry and that value is dependent upon the ability of the Company's subsidiaries to provide quality, cost-effective services in a competitive marketplace. The goodwill value is supported by revenue that is in part driven by the volume of business transacted. A decrease in earnings resulting from a decline in the customer base or the inability to deliver cost-effective services over sustained periods can lead to impairment of goodwill that could adversely impact earnings in future periods. U.S. GAAP requires an annual evaluation of goodwill for impairment, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The fair value of the goodwill is estimated by reviewing the past and projected operating results for the subsidiaries and comparable industry information.

Liquidity

The Company maintains, in the opinion of management, liquidity sufficient to satisfy depositors' requirements and meet the credit needs of customers. The Company depends on its ability to maintain its market share of deposits as well as acquiring new funds. The Company's ability to attract deposits and borrow funds depends in large measure on its profitability, capitalization and overall financial condition. The Company's objective in liquidity management is to maintain the ability to meet loan commitments, purchase securities or to repay deposits and other liabilities in accordance with their terms without an adverse impact on current or future earnings. Principal sources of liquidity for the Company include assets considered relatively liquid, such as federal funds sold, cash and due from banks, as well as cash flows from maturities and repayments of loans, and securities.

Along with its liquid assets, the Bank has additional sources of liquidity available which help to ensure that adequate funds are available as needed. These other sources include, but are not limited to, loan repayments, the ability to obtain deposits through the adjustment of interest rates and the purchasing of federal funds and borrowings on approved lines of credit at major domestic banks. At March 31, 2016, these lines of credit totaled \$25 million of which the Bank had borrowed \$5.5 million against these lines. In addition, the Company has two revolving lines of credit with correspondent banks totaling \$6.5 million. The outstanding balance at March 31, 2016 was \$1.4 million. Management feels that its liquidity position is adequate and continues to monitor the position on a monthly basis. As of March 31, 2016, the Bank had outstanding balances with the Federal Home Loan Bank of Cincinnati ("FHLB") of \$99.8 million with additional borrowing capacity of approximately \$161.7 million with the FHLB, as well as access to the Federal Reserve Discount Window, which provides an additional source of funds. The Bank views its membership in the FHLB as a solid source of liquidity.

The primary investing activities of the Company are originating loans and purchasing securities. During the first three months of 2016, net cash used by investing activities amounted to \$9.1 million, compared to \$12.7 million provided in the same period in 2015. Loan originations were robust and used \$19.2 million during the first three months of 2016 compared to the \$10.4 million used during the same period in 2015. The cash used by lending activities during this period can be attributed to the positive activity in the consumer real estate and commercial loan portfolios. Proceeds from the sale of securities available for sale were down to \$10 thousand from \$40.9 million during the first three months of 2015. Conversely, purchases of securities available for sale amounted to \$2.0 million used during the first three months of 2016 compared to \$23.2 million used during the same period in 2015. The Company also used \$6.0 million to purchase additional bank owned life insurance in the first quarter of 2015 and none in 2016.

The primary financing activities of the Company are obtaining deposits, repurchase agreements and other borrowings. Net cash used by financing activities amounted to \$14.8 million for the period ended March 31, 2016, compared to \$14.0 million used in financing activities for the same period in 2015. There were large swings in activity during the three month period ended March 31, 2016 compared to the same period last year. Deposits provided \$36.8 million compared to \$6.3 million used during the three month periods ended March 31, 2016 and 2015, respectively. Short and long term net borrowing changes used \$7.2 million in the three month period ended March 31, 2015 compared to using a net \$50.4 million during the three month period ended March 31, 2016.

Off-Balance Sheet Arrangements

In the normal course of business, to meet the financial needs of our customers, we are a party to financial instruments with off-balance sheet risk. These financial instruments generally include commitments to originate mortgage, commercial and consumer loans, and involve to varying degrees, elements of credit and interest rate risk in excess of amounts recognized in the Consolidated Balance Sheets. The Bank's maximum exposure to credit loss in the event of nonperformance by the borrower is represented by the contractual amount of those instruments. Because some commitments may expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The same credit policies are used in making commitments as are used for on-balance sheet instruments. Collateral is required in instances where deemed necessary. Undisbursed balances of loans closed include funds not disbursed but committed for construction projects. Unused lines of credit include funds not disbursed, but committed for, home equity, commercial and consumer lines of credit. Financial standby letters of credit are conditional commitments issued to guarantee the performance of a customer to a third party. Those guarantees are primarily used to support public and private borrowing arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. Total unused commitments were \$272.1 million at March 31, 2016 and \$274.2 at December 31, 2015. Additionally, the Company has committed up to a \$5 million subscription in Small Business Investment Company funds (SBIC). At March 31, 2016 the Company had invested \$2.7 million in these funds.

Recent Market and Regulatory Developments

Various legislation affecting financial institutions and the financial industry will likely continue to be introduced in Congress, and such legislation may further change banking statutes and the operating environment of the Company in substantial and unpredictable ways, and could increase or decrease the cost of doing business, limit or expand permissible activities or affect the competitive balance depending upon whether any of this potential legislation will be enacted, and if enacted, the effect that it or any implementing regulations, would have on the financial condition or results of operations of the Company or any of its subsidiaries. With the enactment of the Dodd-Frank Act, the nature and extent of future legislative and regulatory changes affecting financial institutions remains very unpredictable at this time.

Also, such statutes, regulations and policies are continually under review by Congress and state legislatures and federal and state regulatory agencies and are subject to change at any time, particularly in the current economic and regulatory environment. Any such change in statutes, regulations or regulatory policies applicable to the Company could have a material effect on the business of the Company.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's ability to maximize net income is dependent, in part, on management's ability to plan and control net interest income through management of the pricing and mix of assets and liabilities. Because a large portion of assets and liabilities of the Company are monetary in nature, changes in interest rates and monetary or fiscal policy affect its financial condition and can have significant impact on the net income of the Company. Additionally, the Company's balance sheet is currently liability sensitive and in the low interest rate environment that exists today, the Company's net interest margin should maintain current levels throughout the near future.

The Company considers the primary market exposure to be interest rate risk. Simulation analysis is used to monitor the Company's exposure to changes in interest rates, and the effect of the change to net interest income. The following table shows the effect on net interest income and the net present value of equity in the event of a sudden and sustained 300 basis point increase or 100 basis decrease in market interest rates:

Changes In Interest Rate (basis points)	March 31,		December 31,		ALCO	
	2016	2015	2016	2015	Guidelines	
Net Interest Income Change	Result	Result				
+300	0.3 %	-1.3 %	%	15	%	
+200	0.2 %	-0.6 %	%	10	%	
+100	0.1 %	-0.2 %	%	5	%	
-100	-3.0 %	-2.8 %	%	5	%	
Net Present Value Of Equity Change						
+300	-3.9 %	-8.4 %	%	20	%	
+200	-1.5 %	-4.5 %	%	15	%	
+100	-0.1 %	-1.3 %	%	10	%	
-100	-6.6 %	-3.5 %	%	10	%	

The results of the simulation indicate that in an environment where interest rates rise 100, 200 and 300 basis points or fall 100 basis points over a 12 month period, using March 31, 2016 amounts as a base case, and considering the increase in deposit liabilities, and the volatile financial markets. The results of this analysis comply with internal limits established by the Company. A report on interest rate risk is presented to the Board of Directors and the Asset/Liability Committee on a quarterly basis. The Company has no market risk sensitive instruments held for trading purposes, nor does it hold derivative financial instruments, and does not plan to purchase these instruments in the near future.

Item 4. Controls and Procedures

Based on their evaluation, as of the end of the period covered by this Quarterly Report on Form 10-Q, the Company's Chief Executive Officer and Chief Financial Officer have concluded the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934) are effective. There were no changes in the Company's internal controls over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the fiscal quarter ended March 31, 2016, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

In the opinion of management there are no outstanding legal actions that will have a material adverse effect on the Company's financial condition or results of operations.

Item 1A. Risk Factors

There have been no material changes to the Company's risk factors from those disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of equity securities by the issuer.

On September 28, 2012, the Company announced that its Board of Directors approved a stock repurchase program that authorizes the repurchase of up to 920,000 shares of its outstanding common stock in the open market or in privately negotiated transactions.

The following table summarizes the treasury stock activity under the program during the three month period ended March 31, 2016.

	Total Number of Shares Purchased	Average Price Paid per Share	as Part of Publicly Announced Program	Maximum Number of Shares that May Yet be Purchased
Period	Shares Purchased	Paid per Share	Announced Program	Under the Program
Beginning balance				265,766
January 1-31	4,700	\$ 8.00	4,700	261,066
February 1-29	4,100	\$ 8.25	4,100	256,966
March 1-31	11,100	\$ 8.65	11,100	245,866
Ending balance	19,900	\$ 8.41	19,900	245,866

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Not applicable.

Item 6. Exhibits

The following exhibits are filed or incorporated by reference as part of this report:

- 3.1 Articles of Incorporation of Farmers National Banc Corp., as amended (incorporated by reference from Exhibit 4.1 to the Company's Registration Statement on Form S-3 filed with the Commission on October 3, 2001 (File No. 333-70806)).
- 3.2 Amendment to Articles of Incorporation of Farmers National Banc Corp., as amended (incorporated by reference from Exhibit 3.1 to the Company's Current Report on Form 8-K filed with the Commission on May 1, 2013).
- 3.3 Amended Code of Regulations of Farmers National Banc Corp. (incorporated by reference from Exhibit 3.2 to the Company's Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2011 filed with the Commission on August 9, 2011).
- 31.1 Rule 13a-14(a)/15d-14(a) Certification of Kevin J. Helmick, President and Chief Executive Officer of the Company (filed herewith).
- 31.2 Rule 13a-14(a)/15d-14(a) Certification of Carl D. Culp, Executive Vice President, Chief Financial Officer and Treasurer of the Company (filed herewith).
- 32.1 Certification pursuant to 18 U.S.C. Section 1350 of Kevin J. Helmick, President and Chief Executive Officer of the Company (filed herewith).
- 32.2 Certification pursuant to 18 U.S.C. Section 1350 of Carl D. Culp, Executive Vice President, Chief Financial Officer and Treasurer of the Company (filed herewith).
- 101 The following materials from the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2016, formatted in XBRL (Extensible Business Reporting Language): (i) the Consolidated Balance Sheets; (ii) the Consolidated Statements of Income; (iii) the Consolidated Statements of Comprehensive Income; (iv) the Consolidated Statements of Cash Flows; and (v) Notes to Unaudited Consolidated Financial Statements, tagged as blocks of text.
