#### Item 8.01 Other Events

On November 12, 2015, Victory Energy Corporation (the "Company" or "Victory") issued a press release announcing its entry into a letter of intent relating to the proposed acquisition of 181 net barrels of oil equivalent per day (the "Acquisition"). The purchase price for the acquired interests is expected to be approximately \$7.8 million, of which approximately \$6.9 million is expected to be paid in cash, subject to customary adjustments. The remaining approximately \$900,000 of the purchase price is expected to be paid in shares of Victory common stock at a price per share equal to the twenty-day volume-weighted average price (VWAP) per share prior to the closing. The number of Victory shares issued is subject to upward adjustment at six and twelve months following closing if, and to the extent that, the VWAP of Victory shares prior to those two "reset" dates is below the VWAP at which the Victory shares were issued at closing. The letter of intent also contemplates that Victory will repurchase one-half of the dollar value of the Victory shares issued at closing (approximately \$450,000) during the period between six months and twelve months following the closing of the transaction at a price per share equal to the closing issuance price of the shares. The letter of intent provides that Victory may, at its option, accelerate the repurchase of the shares. The closing date targeted by the letter of intent is January 15, 2016, with an effective date of November 1, 2015.

The consummation of the Acquisition is subject to, among other things, the completion of a due diligence review of the properties, including a review of record title, and the negotiation and entry into definitive acquisition agreements. The acquisition is additionally subject to approval from certain third parties, including among others, Navitus Energy Group and Victory's other banking and financial relationships and to approval and execution by the Company and the seller of definitive documentation.

The press release is attached hereto as Exhibit 99.1 and is incorporated herein by reference.
