HAVERTY FURNITURE COMPANIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE A – Business and Reporting Policies

Haverty Furniture Companies, Inc. ("Havertys," "the Company," "we," "our," or "us") is a retailer of a broad line of residential furniture in the middle to upper-middle price ranges. We operate all of our stores using the Havertys brand and do not franchise our concept. We operate in one reportable segment, home furnishings retailing. The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and, therefore, do not include all information and footnotes required by U.S. generally accepted accounting principles ("U.S. GAAP") for complete financial statements. The financial statements include the accounts of the Company and its wholly-owned subsidiary. All significant intercompany accounts and transactions have been eliminated in consolidation. We believe all adjustments, normal and recurring in nature, considered necessary for a fair presentation have been included.

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities, and reported amounts of revenue and expenses. Actual results could differ from those estimates.

The Company is subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. We believe that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on our financial condition, results of operations or cash flows.

Changes to U.S. GAAP are established by the Financial Accounting Standards Board (FASB) in the form of accounting standards updates (ASU's) to the FASB's Accounting Standards Codification. The Company considers the applicability and impact of all ASU's. Newly effective ASU's not noted herein were assessed and determined to be either not applicable or are expected to have minimal impact on our consolidated financial position or results of operations.

In the first quarter of 2013, we recorded an out-of-period adjustment related to our historical accrual process for certain vendors' pricing allowances. The non-cash adjustment increased gross profit by \$0.8 million or \$0.02 per diluted share after tax for the six months ended June 30, 2013. After evaluating the quantitative and qualitative aspects of this correction, management determined that our previously issued quarterly and annual consolidated financial statements were not materially misstated and that the out-of-period adjustment is immaterial to our full year 2013 results.

For further information, refer to the consolidated financial statements and footnotes thereto included in Havertys' Annual Report on Form 10-K for the year ended December 31, 2013.

NOTE B – Restricted Cash and Cash Equivalents

Our insurance carrier requires us to collateralize a portion of our workers' compensation obligations. These escrowed funds are shown as restricted cash and cash equivalents on our consolidated balance sheet and are investments in money market funds held by an agent. The annual agreement with our carrier governing these funds expires on December 31, 2014.

NOTE C – Accounts Receivable

Amounts financed under our in-house credit programs were, as a percent of net sales, approximately 3.4% and 4.0% during the first six months of 2014 and 2013, respectively. The in-house credit program selected most often by our

customers is "12 months no interest with equal monthly payments." The terms of the other programs vary as to payment terms (30 days to three years) and interest rates (0% to 21%). The receivables are collateralized by the merchandise sold.

HAVERTY FURNITURE COMPANIES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

Accounts receivable balances resulting from certain credit promotions have scheduled payment amounts which extend beyond one year. These receivable balances have been historically collected earlier than the scheduled dates. The amounts due per the scheduled payment dates approximate as follows: \$6.7 million in one year, \$0.9 million in two years, and \$0.2 million beyond two years for receivables outstanding at June 30, 2014.

Accounts receivable are shown net of the allowance for doubtful accounts of \$0.4 million at June 30, 2014 and December 31, 2013. We provide an allowance utilizing a methodology which considers the balances in problem and delinquent categories of accounts, historical write-offs, existing economic conditions and management judgment. Interest assessments are continued on past-due accounts but no "interest on interest" is recorded. Delinquent accounts are generally written off automatically after the passage of nine months without receiving a full scheduled monthly payment. Accounts are written off sooner in the event of a discharged bankruptcy or other circumstances that make further collections unlikely.

We believe that the carrying value of existing customer receivables, net of allowances, approximates fair value because of their short average maturity. Concentrations of credit risk with respect to customer receivables are limited due to the large number of customers comprising our account base and their dispersion across 16 states.

NOTE D – Interim LIFO Calculations

An actual valuation of inventory under the LIFO method can be made only at the end of each year based on actual inventory levels. Accordingly, interim LIFO calculations must necessarily be based on management's estimates. Since these estimates may be affected by factors beyond management's control, interim results are subject to change based upon the final year-end LIFO inventory valuations.

NOTE E – Income Taxes

Our tax provision for interim periods is determined using an estimate of our annual effective tax rate, adjusted for discrete items, if any, that are taken into account in the relevant period. Each quarter we update our estimate of the annual effective tax rate, and if our estimated tax rate changes, we make a year to date adjustment.

Our effective tax rates for the six months ended June 30, 2014 and 2013 were 38.3% and 38.6%, respectively. The primary difference in the effective rate and the statutory rate is due to state income taxes.

NOTE F – Fair Value of Financial Instruments

The fair values of our cash and cash equivalents, restricted cash and cash equivalents, accounts receivable, accounts payable and customer deposits approximate their carrying values due to their short-term nature. The assets related to our self-directed, non-qualified deferred compensation plans for certain executives and employees are valued using quoted market prices multiplied by the number of shares held, a Level 1 valuation technique. The assets related to our deferred compensation plans totaled approximately \$2.6 million at June 30, 2014 and \$2.1 million at December 31, 2013 and are included in other assets. The related liability of the same amount is included in other liabilities.

NOTE G – Pension Plans

We have a defined benefit pension plan covering substantially all employees hired on or before December 31, 2005. The pension plan was closed to any employee hired after that date. The benefits are based on years of service and the employee's final average compensation. Effective January 1, 2007, no new benefits are earned under this plan for

additional years of service after December 31, 2006.

6

HAVERTY FURNITURE COMPANIES, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

On May 13, 2014 this plan was terminated effective July 20, 2014. The termination process is expected to take 12 to 18 months with the settlement of most of the plan's obligations by the end of 2014.

We also have a non-qualified, non-contributory supplemental executive retirement plan (SERP) for employees whose retirement benefits are reduced due to their annual compensation levels. The SERP limits the total amount of annual retirement benefits that may be paid to a participant in the SERP from all sources (Retirement Plan, Social Security and the SERP) to \$125,000. The SERP is not funded so we pay benefits directly to participants.

Net pension costs included the following components (in thousands):

NOTE H – Stock Based Compensation Plan

As more fully discussed in Note 11 of the notes to the consolidated financial statements in our 2013 Annual Report on Form 10-K, we have awards outstanding for Common Stock under stock-based employee compensation plans.

The following table summarizes our award activity during the six months ended June 30, 2014:

	Restricted Stock Awards		Stock-Settled Appreciation Rights	
	Shares or Units	Weighted-Average Award Price	Rights	Weighted-Average Award Price
Outstanding at December 31, 2013	437,000	\$ 14.46	149,700	\$ 15.78

Exercisable at June 30, 2014	—	—	53,825	\$ 12.75

Grants of equity awards are made to certain officers and key employees under the 2004 and 2014 LTIP Plans. The restrictions on most of the awards generally lapse annually, primarily over four year periods. During 2014, the Company granted 39,890 awards for which the shares ultimately issued will be based upon the achievement of various performance measures. The restricted units earned under most of these awards vest after three years. The compensation is being charged to selling, general and administrative expense over the respective grants' vesting periods, primarily on a straight-line basis. Stock based compensation expense for the six months ended June 30, 2014 was approximately \$1.8 million and \$2.0 million in 2013. The aggregate intrinsic value of outstanding restricted common stock grants was \$8.3 million at June 30, 2014. The aggregate intrinsic value of vested and outstanding

stock-settled appreciation rights at June 30, 2014 was approximately \$0.7 million and \$1.2 million, respectively.

7

 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

As of June 30, 2014, the remaining unamortized compensation cost related to unvested equity awards was approximately \$6.1 million and scheduled to be recognized over a weighted-average period of 2.5 years.

NOTE I – Earnings Per Share

We report our earnings per share using the two-class method. The income per share for each class of common stock is calculated assuming 100% of our earnings are distributed as dividends to each class of common stock based on their contractual rights.

The Common Stock of the Company has a preferential dividend rate of at least 105% of the dividend paid on the Class A Common Stock. The Class A Common Stock, which has ten votes per share as opposed to one vote per share for the Common Stock (on all matters other than the election of directors), may be converted at any time on a one-for-one basis into Common Stock at the option of the holder of the Class A Common Stock.

The following is a reconciliation of the earnings and number of shares used in calculating the diluted earnings per share for Common Stock and Class A Common Stock (in thousands):

Net Sales

Our sales are generated by customer purchases of home furnishings. Revenue is recognized upon delivery to the customer.

The following outlines our sales and comp-store sales increases and decreases for the periods indicated (dollars in millions, amounts and percentages may not always add to totals due to rounding):

Stores are non-comparable if open for less than one year or if the selling square footage has been changed significantly during the past 12 full months. Large clearance sales events from warehouse or temporary locations are excluded from comparable store sales as are periods when stores are closed.

Sales for the second quarter showed growth in all product categories except case goods. Supplier order fulfillment of wood products continued to challenge sales in this important category. We expect lead times to stabilize over the remainder of the year. Our sales for the first half of 2014 were virtually flat against 2013 and were hampered by the severe winter weather during the first quarter of 2014 which impacted approximately 75% of our locations.

Our average written ticket continues to grow and rose 3.6% for the second quarter and 4.4% for the first half of the year. This growth was driven by product mix and our in-home design program. The custom order segment of our upholstery continued to show strength as written business increased 12.8% in the second quarter of 2014 and 11.8% for the first half.

Gross Profit

Gross profit for the second quarter of 2014 was 53.8%, up 40 basis points compared to the prior year period. Gross profit for the six months ended June 30, 2014 was 53.8%. In the second quarter of 2013 gross profit was 53.4%, excluding the 20 basis point positive impact of an \$0.8 million or \$0.02 per share out-of-period adjustment recorded in the first quarter.

Factors in generating the improvement in gross profit were: our expansion of upper-middle price point products in our assortment, our focus on pricing discipline, and continued favorable trends for inbound ocean freight costs.

We plan to remain competitive, but not overly aggressive with our pricing structure. We expect our gross profit for the 2014 year will be 53.8% barring the effect of LIFO accounting for any future changes in landed merchandise costs.

Substantially all of our occupancy and home delivery costs are included in selling, general and administrative expenses as are a portion of our warehousing expenses. Accordingly, our gross profit may not be comparable to those entities that include these costs in cost of goods sold.

9

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses are comprised of five categories: selling; occupancy; delivery and certain warehousing costs; advertising and marketing; and administrative.

Total SG&A expenses as a percent of sales for the three months ended June 30, 2014 increased 70 basis points to 49.3% from 48.6% in the prior year period. Total SG&A dollars for the second quarter of 2014 increased \$3.1 million compared to the prior year period. Our warehouse and delivery expenses increased \$1.5 million due to increased wages and benefits and insurance costs. Selling expenses rose in line with sales and increased \$0.9 million. Our planned advertising costs were \$0.8 million higher in the current year and store expansion and improvement increased depreciation expense \$0.5 million. The reductions in incentive compensation and other personnel costs were partly offset by greater technology expense as administrative costs declined \$0.8 million.

SG&A costs for the first half of 2014 increased 110 basis points to 48.7% as a percent of sales from 47.6%. Total SG&A dollars for the six months ended June 30, 2014 rose \$4.1 million compared to the prior year period. We had higher planned expenditures for advertising and marketing in 2014 compared to 2013 and ran fewer vendor supported events in 2014 resulting in a \$1.5 million increase in expense in the first half. Our warehouse and delivery expenses rose \$2.4 million in the current year period as personnel and insurance costs increases together with some disruptions from winter storms were not offset by reductions from slightly fewer deliveries. Our administrative expenses declined \$1.3 million as decreased incentive compensation expense and related costs and benefits were offset by increases in technology and travel expenses.

Our expectations for SG&A costs for 2014 are substantially unchanged from that described in our annual report on Form 10-K filed on March 7, 2014. Our normal fixed and discretionary type expenses within SG&A costs for the full year 2014 are expected to be approximately \$232 million to \$233 million versus the \$224 million for the same costs in 2013. Approximately \$112 million of these expenses were incurred in the first half of 2014. The variable type costs within SG&A for the full year of 2014 are anticipated to be approximately 17.2% as a percent of sales, with such expenses having run at a 17.4% rate in the first half.

Liquidity and Capital Resources

Our primary cash requirements include working capital needs, contractual obligations, benefit plan contributions, income tax obligations and capital expenditures. We have funded these requirements primarily through cash generated from operations. We have no funded debt and our lease obligations are primarily due to arrangements that are not considered capital leases but must be recorded on our balance sheets. We believe funds generated from our expected results of operations and available cash and cash equivalents will be sufficient to fund our primary obligations, dividends, stock repurchases and complete capital projects that we have underway or currently contemplate.

We also have a \$50.0 million revolving credit facility. Availability fluctuates under a borrowing base calculation and is reduced by outstanding letters of credit. The borrowing base was \$50.0 million and there were no outstanding letters of credit at June 30, 2014. Amounts available are based on the lesser of the borrowing base of \$49.6 million or the \$50.0 million line amount and reduced by \$6.2 million since a fixed charge coverage ratio test was not met for the immediately preceding twelve months, resulting in a net availability of \$43.4 million. There were no borrowed amounts outstanding under the facility at June 30, 2014.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued)

Summary of Cash Activities

Our cash flows provided by operating activities totaled \$23.1 million in the first half of 2014 compared to \$13.0 million for the same period of 2013. This increase was primarily due to an increase in customer deposits and a decrease in accrued liabilities partially offset by increased inventories and lower earnings in 2014. For additional information about the changes in our assets and liabilities refer to our Balance Sheet Changes discussion.

Our cash flows used in investing activities totaled \$12.3 million in the first six months of 2014 versus \$10.2 million for the same period of 2013. This increase was primarily due to increased funds held in an escrow account as collateral for our insurance coverages.

Financing activities used cash of \$6.1 million in the first six months of 2014 compared to \$4.0 million for the same period of 2013. The increase was due to the doubling of the dividend per share paid.

Balance Sheet Changes for the Six Months Ended June 30, 2014

Our balance sheet as of June 30, 2014, as compared to our balance sheet as of December 31, 2013, changed as follows:

- increase in inventories of \$3.3 million as December 31 inventory levels were low and vendor delays continue;
- increase in property and equipment of \$14.4 million primarily due to five additional leased properties recorded on our balance sheet;
- increase in customer deposits of \$8.3 million as special order and undelivered sales increased;
- decrease in accrued liabilities of \$5.6 million primarily due to timing of payments; and
- increase in lease obligations of \$13.7 million for five additional properties recorded on our balance sheet.

Store Plans and Capital Expenditures

Planned capital expenditures for 2014 are \$35.0 million. We expect to open six new locations in existing markets and complete one major expansion during the year. Three of the new stores are relocations and we plan to close two additional stores at the end of their lease term. These changes will increase selling square footage approximately 2.0% and increase our store count to 120 assuming the store changes occur as scheduled.

Our current plans for 2015 include opening five stores each in a new market within our distribution network.

Off-Balance Sheet Arrangements

As of June 30, 2014 we had no off-balance sheet arrangements or obligations.

Critical Accounting Estimates

Critical accounting estimates are those that we believe are both significant and that require us to make difficult, subjective or complex judgments, often because we need to estimate the effect of inherently uncertain matters. We base our estimates and judgments on historical experiences and various other factors that we believe to be appropriate under the circumstances. Actual results may differ from these estimates, and we might obtain different estimates if we used different assumptions or conditions. Our critical accounting estimates are identified and described in our annual report on Form 10-K for the year ended December 31, 2013. We had no significant changes in those critical accounting estimates since our last annual report.

Forward-Looking Information

Certain of the statements in this Form 10-Q, particularly those anticipating future performance, business prospects, growth and operating strategies and similar matters, and those that include the words "believes," "anticipates," "estimates" or similar expressions constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. For those statements, Havertys claims the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. There can be no assurance that the forward-looking statements will be accurate because they are based on many assumptions, which involve risks and uncertainties. The following important factors could cause future results to differ: changes in the economic environment; changes in the housing market; changes in industry conditions; competition; merchandise costs; energy costs; timing and level of capital expenditures; introduction of new products; rationalization of operations; and other risks identified in Havertys' SEC reports and public announcements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes with respect to our financial instruments and their related market risks since the date of the Company's most recent annual report.

Item 4. Controls and Procedures

As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of our management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, our management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report to provide reasonable assurance that information required to be disclosed in the reports the Company files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including the CEO and CFO, as appropriate, to allow timely decisions regarding disclosure.

There were no changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2013, which could materially affect our business, financial condition or future results. The risks described in this report and in our Annual Report on Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or future results.
