UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q
QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended March 29, 2015

Commission File Number 1-4949

CUMMINS INC.

(Exact name of registrant as specified in its charter)

Indiana

(State of Incorporation)

500 Jackson Street

Box 3005

Columbus, Indiana 47202-3005

(Address of principal executive offices)

35-0257090

(IRS Employer Identification No.)

Telephone (812) 377-5000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of March 29, 2015, there were 181,311,804 shares of common stock outstanding with a par value of \$2.50 per share.

Website Access to Company's Reports

Cummins maintains an internet website at www.cummins.com. Investors can obtain copies of our filings from this website free of charge as soon as reasonably practicable after they are electronically filed with, or furnished, to the Securities and Exchange Commission.

Table of Contents

CUMMINS INC. AND SUBSIDIARIES
 NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
 (Unaudited)

NOTE 1. NATURE OF OPERATIONS

Cummins Inc. (“Cummins,” “we,” “our” or “us”) was founded in 1919 as a corporation in Columbus, Indiana and as one of the first diesel engine manufacturers. We are a global power leader that designs, manufactures, distributes and services diesel and natural gas engines and engine-related component products, including filtration, aftertreatment, turbochargers, fuel systems, controls systems, air handling systems and electric power generation systems. We sell our products to original equipment manufacturers (OEMs), distributors and other customers worldwide. We serve our customers through a network of approximately 600 company-owned and independent distributor locations and approximately 7,200 dealer locations in more than 190 countries and territories.

NOTE 2. BASIS OF PRESENTATION

The unaudited Condensed Consolidated Financial Statements reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of operations, financial position and cash flows. All such adjustments are of a normal recurring nature. The Condensed Consolidated Financial Statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission and in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted as permitted by such rules and regulations. Certain reclassifications have been made to prior period amounts to conform to the presentation of the current period condensed financial statements.

Our reporting period usually ends on the Sunday closest to the last day of the quarterly calendar period. The first quarters of 2015 and 2014 ended on March 29 and March 30, respectively. Our fiscal year ends on December 31, regardless of the day of the week on which December 31 falls.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts in the Condensed Consolidated Financial Statements. Significant estimates and assumptions in these Condensed Consolidated Financial Statements require the exercise of judgment and are used for, but not limited to, allowance for doubtful accounts, estimates of future cash flows and other assumptions associated with goodwill and long-lived asset impairment tests, useful lives for depreciation and amortization, warranty programs, determination of discount and other rate assumptions for pension and other postretirement benefit expenses, income taxes and deferred tax valuation allowances, lease classifications and contingencies. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may be different from these estimates.

The weighted-average diluted common shares outstanding exclude the anti-dilutive effect of certain stock options since such options had an exercise price in excess of the monthly average market value of our common stock. The options excluded from diluted earnings per share for the three month periods ended March 29, 2015 and March 30, 2014, were as follows:

	Three months ended	
	March 29,	March 30,
	2015	2014
Options excluded	339,878	1,430

These interim condensed financial statements should be read in conjunction with the Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2014. Our interim period financial results for the three month interim periods presented are not necessarily indicative of results to be expected for any other interim period or for the entire year. The year-end Condensed Consolidated Balance Sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP.

Table of Contents

NOTE 3. PENSION AND OTHER POSTRETIREMENT BENEFITS

The components of net periodic pension and other postretirement benefit costs under our plans were as follows:

In millions	Pension		U.K. Plans		Other Postretirement Benefits	
	U.S. Plans					
	Three months ended					
	March 29, 2015	March 30, 2014	March 29, 2015	March 30, 2014	March 29, 2015	March 30, 2014
Service cost	\$20	\$17	\$7	\$6	\$—	\$—
Interest cost	25	26	14	16	4	4
Expected return on plan assets	(47) (44) (23) (22) —	—
Recognized net actuarial loss	11	8	9	7	1	—
Net periodic benefit cost	\$9	\$7	\$7	\$7	\$5	\$4

NOTE 4. EQUITY, ROYALTY AND INTEREST INCOME FROM INVESTEEES

Equity, royalty and interest income from investees included in our Condensed Consolidated Statements of Income for the interim reporting periods was as follows:

In millions	Three months ended		
	March 29, 2015	March 30, 2014	
Distribution Entities			
North American distributors	\$10	\$32	
Komatsu Cummins Chile, Ltda.	7	6	
All other distributors	1	1	
Manufacturing Entities			
Dongfeng Cummins Engine Company, Ltd.	14	14	
Chongqing Cummins Engine Company, Ltd.	12	11	
Beijing Foton Cummins Engine Co., Ltd. (Light-duty)	8	6	
Beijing Foton Cummins Engine Co., Ltd. (Heavy-duty)	(1) (6)
All other manufacturers	7	15	
Cummins share of net income	58	79	
Royalty and interest income	10	11	
Equity, royalty and interest income from investees	\$68	\$90	

NOTE 5. INCOME TAXES

Our effective tax rate for the year is expected to approximate 29.5 percent, excluding any one-time items that may arise. The expected tax rate does not include the benefits of the research tax credit, which expired December 31, 2014 and has not yet been renewed by Congress. If the research credit is reinstated during 2015, we would anticipate the 2015 effective tax rate to be reduced to 28.5 percent. Our tax rate is generally less than the 35 percent U.S. statutory income tax rate primarily due to lower tax rates on foreign income.

The effective tax rate for the three month period ended March 29, 2015, was 26.3 percent. This tax rate included an \$18 million discrete tax benefit to reflect the release of reserves for uncertain tax positions related to a favorable federal audit settlement.

Our effective tax rate for the three month period ended March 30, 2014, was 29.9 percent. This tax rate included a \$12 million discrete tax expense attributable primarily to state deferred tax adjustments, as well as a \$5 million discrete net tax benefit resulting from a \$70 million dividend paid from China earnings generated prior to 2012.

The decrease in the three month effective tax rate from 2014 to 2015 is primarily due to the 2015 favorable discrete tax item.

Table of Contents

NOTE 6. MARKETABLE SECURITIES

A summary of marketable securities, all of which are classified as current, was as follows:

In millions	March 29, 2015			December 31, 2014		
	Cost	Gross unrealized gains/(losses)	Estimated fair value	Cost	Gross unrealized gains/(losses)	Estimated fair value
Available-for-sale Level 2 ⁽¹⁾						
Debt mutual funds	\$90	\$—	\$90	\$75	\$1	\$76
Equity mutual funds	9	—	9	9	—	9
Bank debentures	14	—	14	6	—	6
Government debt securities	2	—	2	2	—	2
Total marketable securities	\$115	\$—	\$115	\$92	\$1	\$93

⁽¹⁾ The fair value of Level 2 securities is estimated primarily using actively quoted prices for similar instruments from brokers and observable inputs, including market transactions and third-party pricing services. We do not currently have any Level 3 securities, and there were no transfers between Level 2 or 3 during the first three months of 2015 and 2014.

The proceeds from sales and maturities of marketable securities and gross realized gains and losses from the sale of available-for-sale securities were as follows:

In millions	Three months ended	
	March 29, 2015	March 30, 2014
Proceeds from sales and maturities of marketable securities	\$71	\$108
Gross realized gains from the sale of available-for-sale securities	1	1

At March 29, 2015, the fair value of available-for-sale investments in debt securities that utilize a Level 2 fair value measure by contractual maturity was as follows:

Maturity date	Fair value (in millions)
1 year or less	\$91
1 - 5 years	6
5 - 10 years	9
Total	\$106

NOTE 7. INVENTORIES

Inventories are stated at the lower of cost or market. Inventories included the following:

In millions	March 29, 2015	December 31, 2014
Finished products	\$1,896	\$1,859
Work-in-process and raw materials	1,161	1,129
Inventories at FIFO cost	3,057	2,988
Excess of FIFO over LIFO	(121) (122
Total inventories	\$2,936	\$2,866

Table of Contents

NOTE 8. DEBT

A summary of long-term debt was as follows:

In millions	March 29, 2015	December 31, 2014	
Long-term debt			
Senior notes, 3.65%, due 2023	\$500	\$500	
Debentures, 6.75%, due 2027	58	58	
Debentures, 7.125%, due 2028	250	250	
Senior notes, 4.875%, due 2043	500	500	
Debentures, 5.65%, due 2098 (effective interest rate 7.48%)	165	165	
Credit facilities related to consolidated joint ventures	3	3	
Other debt	51	31	
Unamortized discount	(47) (47)
Fair value adjustments due to hedge on indebtedness	73	65	
Capital leases	82	87	
Total long-term debt	1,635	1,612	
Less: Current maturities of long-term debt	(33) (23)
Long-term debt	\$1,602	\$1,589	

Principal payments required on long-term debt during the next five years are as follows:

In millions	Required Principal Payments				
	2015	2016	2017	2018	2019
Principal payments	\$25	\$39	\$15	\$16	\$11

Fair Value of Debt

Based on borrowing rates currently available to us for bank loans with similar terms and average maturities, considering our risk premium, the fair value and carrying value of total debt, including current maturities, was as follows:

In millions	March 29, 2015	December 31, 2014
Fair value of total debt ⁽¹⁾	\$2,043	\$1,993
Carrying value of total debt	1,706	1,698

⁽¹⁾ The fair value of debt is derived from Level 2 inputs.

NOTE 9. PRODUCT WARRANTY LIABILITY

A tabular reconciliation of the product warranty liability, including the deferred revenue related to our extended warranty coverage and accrued recall programs was as follows:

In millions	March 29, 2015	March 30, 2014	
Balance, beginning of year	\$1,283	\$1,129	
Provision for warranties issued	109	84	
Deferred revenue on extended warranty contracts sold	56	53	
Payments	(94) (102)
Amortization of deferred revenue on extended warranty contracts	(43) (34)
Changes in estimates for pre-existing warranties	15	2	
Foreign currency translation	(6) 1	

Balance, end of period	\$1,320	\$1,133
------------------------	---------	---------

11

Table of Contents

Warranty related deferred revenue, supplier recovery receivables and the long-term portion of the warranty liability on our March 29, 2015, balance sheet were as follows:

In millions	March 29, 2015	Balance Sheet Location
Deferred revenue related to extended coverage programs		
Current portion	\$ 173	Deferred revenue
Long-term portion	447	Other liabilities and deferred revenue
Total	\$ 620	
Receivables related to estimated supplier recoveries		
Current portion	\$ 8	Trade and other receivables
Long-term portion	4	Other assets
Total	\$ 12	
Long-term portion of warranty liability	\$ 321	Other liabilities and deferred revenue

NOTE 10. COMMITMENTS AND CONTINGENCIES

We are subject to numerous lawsuits and claims arising out of the ordinary course of our business, including actions related to product liability; personal injury; the use and performance of our products; warranty matters; patent, trademark or other intellectual property infringement; contractual liability; the conduct of our business; tax reporting in foreign jurisdictions; distributor termination; workplace safety; and environmental matters. We also have been identified as a potentially responsible party at multiple waste disposal sites under U.S. federal and related state environmental statutes and regulations and may have joint and several liability for any investigation and remediation costs incurred with respect to such sites. We have denied liability with respect to many of these lawsuits, claims and proceedings and are vigorously defending such lawsuits, claims and proceedings. We carry various forms of commercial, property and casualty, product liability and other forms of insurance; however, such insurance may not be applicable or adequate to cover the costs associated with a judgment against us with respect to these lawsuits, claims and proceedings. We do not believe that these lawsuits are material individually or in the aggregate. While we believe we have also established adequate accruals for our expected future liability with respect to pending lawsuits, claims and proceedings, where the nature and extent of any such liability can be reasonably estimated based upon then presently available information, there can be no assurance that the final resolution of any existing or future lawsuits, claims or proceedings will not have a material adverse effect on our business, results of operations, financial condition or cash flows.

We conduct significant business operations in Brazil that are subject to the Brazilian federal, state and local labor, social security, tax and customs laws. While we believe we comply with such laws, they are complex, subject to varying interpretations and we are often engaged in litigation regarding the application of these laws to particular circumstances.

U.S. Distributor Commitments

Our distribution agreements with independent and partially-owned distributors generally have a renewable three-year term and are restricted to specified territories. Our distributors develop and maintain a network of dealers with which we have no direct relationship. Our distributors are permitted to sell other, noncompetitive products only with our consent. We license all of our distributors to use our name and logo in connection with the sale and service of our products, with no right to assign or sublicense the trademarks, except to authorized dealers, without our consent. Products are sold to the distributors at standard domestic or international distributor net prices, as applicable. Net prices are wholesale prices we establish to permit our distributors an adequate margin on their sales. Subject to local

laws, we can generally refuse to renew these agreements upon expiration or terminate them upon written notice for inadequate sales, change in principal ownership and certain other reasons. Distributors also have the right to terminate the agreements upon 60-day notice without cause, or 30-day notice for cause. Upon termination or failure to renew, we are required to purchase the distributor's current inventory, signage and special tools and may, at our option purchase other assets of the distributor, but are under no obligation to do so.

Table of Contents

Other Guarantees and Commitments

In addition to the matters discussed above, from time to time we enter into other guarantee arrangements, including guarantees of non-U.S. distributor financings, residual value guarantees on equipment under operating leases and other miscellaneous guarantees of third-party obligations. As of March 29, 2015, the maximum potential loss related to these other guarantees was \$5 million.

We have arrangements with certain suppliers that require us to purchase minimum volumes or be subject to monetary penalties. The penalty amounts are less than our purchase commitments and essentially allow the supplier to recover their tooling costs in most instances. As of March 29, 2015, if we were to stop purchasing from each of these suppliers, the aggregate amount of the penalty would be approximately \$70 million, of which \$36 million relates to a contract with an engine parts supplier that extends to 2016. These arrangements enable us to secure critical components. We do not currently anticipate paying any penalties under these contracts.

During 2014, we began entering into physical forward contracts with suppliers of platinum and palladium to purchase minimum volumes of the commodities at contractually stated prices for various periods, not to exceed two years. As of March 29, 2015, the total commitments under these contracts were \$55 million. These arrangements enable us to fix the prices of these commodities, which otherwise are subject to market volatility.

We have guarantees with certain customers that require us to satisfactorily honor contractual or regulatory obligations, or compensate for monetary losses related to nonperformance. These performance bonds and other performance-related guarantees were \$73 million at March 29, 2015 and \$76 million at December 31, 2014.

Indemnifications

Periodically, we enter into various contractual arrangements where we agree to indemnify a third-party against certain types of losses. Common types of indemnities include:

- product liability and license, patent or trademark indemnifications;
- asset sale agreements where we agree to indemnify the purchaser against future environmental exposures related to the asset sold; and
- any contractual agreement where we agree to indemnify the counter-party for losses suffered as a result of a misrepresentation in the contract.

We regularly evaluate the probability of having to incur costs associated with these indemnities and accrue for expected losses that are probable. Because the indemnifications are not related to specified known liabilities and due to their uncertain nature, we are unable to estimate the maximum amount of the potential loss associated with these indemnifications.

(2) See reclassifications out of accumulated other comprehensive income (loss) disclosure below for further details.

Table of Contents

Following are the items reclassified out of accumulated other comprehensive income (loss) and the related tax effects:

In millions	Three months ended		
(Gain)/Loss Components	March 29, 2015	March 30, 2014	Statement of Income Location
Change in pension and other postretirement defined benefit plans			
Recognized actuarial loss	\$22	\$15	(1)
Total before taxes	22	15	
Tax effect	(7) (5) Income tax expense
Net change in pensions and other postretirement defined benefit plans	\$15	\$10	
Realized (gain) loss on marketable securities			
Realized (gain) loss on marketable securities	\$(1) \$(1) Other income (expense), net
Tax effect	(1) —	Income tax expense
Net realized (gain) loss on marketable securities	\$(2) \$(1)
Realized (gain) loss on derivatives			
Foreign currency forward contracts	\$—	\$(2) Net sales
Commodity swap contracts	—	2	Cost of sales
Total before taxes	—	—	
Tax effect	—	—	Income tax expense
Net realized (gain) loss on derivatives	\$—	\$—	
Total reclassifications for the period	\$13	\$9	

(1) These accumulated other comprehensive income components are included in the computation of net periodic pension cost (see Note 3, "PENSION AND OTHER POSTRETIREMENT BENEFITS").

NOTE 12. OPERATING SEGMENTS

Operating segments under GAAP are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision-maker, or decision-making group, in deciding how to allocate resources and in assessing performance. Cummins' chief operating decision-maker (CODM) is the Chief Executive Officer.

Our reportable operating segments consist of the following: Engine, Distribution, Components and Power Generation. This reporting structure is organized according to the products and markets each segment serves. The Engine segment produces engines and parts for sale to customers in on-highway and various industrial markets. Our engines are used in trucks of all sizes, buses and recreational vehicles, as well as in various industrial applications, including construction, mining, agriculture, marine, oil and gas, rail and military equipment. The Distribution segment includes wholly-owned and partially-owned distributorships engaged in wholesaling engines, generator sets and service parts, as well as performing service and repair activities on our products and maintaining relationships with various OEMs throughout the world. The Components segment sells filtration products, aftertreatment systems, turbochargers and fuel systems. The Power Generation segment is an integrated provider of power systems, which sells engines, generator sets and alternators.

We use segment EBIT (defined as earnings before interest expense, taxes and noncontrolling interests) as a primary basis for the CODM to evaluate the performance of each of our operating segments. Segment amounts exclude certain

expenses not specifically identifiable to segments.

The accounting policies of our operating segments are the same as those applied in our Condensed Consolidated Financial Statements. We prepared the financial results of our operating segments on a basis that is consistent with the manner in which we internally disaggregate financial information to assist in making internal operating decisions. We have allocated certain common costs and expenses, primarily corporate functions, among segments differently than we would for stand-alone financial information prepared in accordance with GAAP. These include certain costs and expenses of shared services, such as information technology, human resources, legal and finance. We also do not allocate debt-related items, actuarial gains or losses,

15

Table of Contents

prior service costs or credits, changes in cash surrender value of corporate owned life insurance or income taxes to individual segments. Segment EBIT may not be consistent with measures used by other companies.

Summarized financial information regarding our reportable operating segments for the three month periods is shown in the table below:

In millions	Engine	Distribution	Components	Power Generation	Non-segment Items ⁽¹⁾	Total
Three months ended March 29, 2015						
External sales	\$1,889	\$1,469	\$931	\$420	\$ —	\$4,709
Intersegment sales	707	7	368	260	(1,342)	—
Total sales	2,596	1,476	1,299	680	(1,342)	4,709
Depreciation and amortization ⁽²⁾	58	27	26	16	—	127
Research, development and engineering expenses	114	3	61	17	—	195
Equity, royalty and interest income from investees	30	20	9	9	—	68
Interest income	2	1	1	1	—	5
Segment EBIT	253	88	195	49	(23)	562
Three months ended March 30, 2014						
External sales	\$2,090	\$942	\$922	\$452	\$ —	\$4,406
Intersegment sales	473	8	308	187	(976)	—
Total sales	2,563	950	1,230	639	(976)	4,406
Depreciation and amortization ⁽²⁾	51	16	26	12	—	105
Research, development and engineering expenses	116	2	53	19	—	190
Equity, royalty and interest income from investees	32	41	9	8	—	90
Interest income	2	1	1	1	—	5
Segment EBIT	269	76	⁽³⁾ 167	25	(9)	528

⁽¹⁾ Includes intersegment sales and profit in inventory eliminations and unallocated corporate expenses. There were no significant unallocated corporate expenses for the three months ended March 29, 2015 and March 30, 2014.

⁽²⁾ Depreciation and amortization as shown on a segment basis excludes the amortization of debt discount and deferred costs included in the Condensed Consolidated Statements of Income as "Interest expense." The amortization of debt discount and deferred costs were \$1 million and less than \$1 million for the three months ended March 29, 2015 and March 30, 2014, respectively.

⁽³⁾ Distribution segment EBIT included a gain of \$6 million on the fair value adjustment resulting from the acquisition of a controlling interest in a North American distributor for the three months ended March 30, 2014.

A reconciliation of our segment information to the corresponding amounts in the Condensed Consolidated Statements of Income is shown in the table below:

In millions	Three months ended March 29, 2015	March 30, 2014
Total EBIT	\$562	\$528
Less: Interest expense	14	17
Income before income taxes	\$548	\$511

NOTE 13. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In February 2015, the Financial Accounting Standards Board (FASB) amended its standards related to the consolidation of certain legal entities. The amendment will change the method of analysis that we must perform to determine whether certain types of legal entities should be consolidated, primarily limited partnerships and similar structures. The amendment will eliminate three of the original six conditions for evaluating whether a fee paid to a decision-maker or a service provider represents a variable interest in a variable interest entity (VIE). The new rules will become effective for annual and interim periods beginning December 15, 2015. Early adoption is permitted. We do not believe that this amendment will have a significant effect on our Consolidated Financial Statements.

Table of Contents

In May 2014, the FASB amended its standards related to revenue recognition. This amendment replaces all existing revenue recognition guidance and provides a single, comprehensive revenue recognition model for all contracts with customers. The standard contains principles that we will apply to determine the measurement of revenue and timing of when it is recognized. The underlying principle is that we will recognize revenue in a manner that depicts the transfer of goods or services to customers at an amount that we expect to be entitled to in exchange for those goods or services. The standard allows either full or modified retrospective adoption. Early adoption is not permitted. The guidance provides a five-step analysis of transactions to determine when and how revenue is recognized. Other major provisions include capitalization of certain contract costs, consideration of time value of money in the transaction price and allowing estimates of variable consideration to be recognized before contingencies are resolved in certain circumstances. The amendment also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to fulfill a contract. The new rules will become effective for annual and interim periods beginning January 1, 2017. In April 2015, the FASB proposed a one year delay of the effective date of the standard to provide adequate time for implementation. It is important to note that the FASB's proposed deferral is not a final decision. We are in the process of evaluating the impact the amendment will have on our Consolidated Financial Statements, and we are further considering the impact of each method of adoption.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Cummins Inc. and its consolidated subsidiaries are hereinafter sometimes referred to as "Cummins," "we," "our" or "us."

CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING INFORMATION

Certain parts of this quarterly report contain forward-looking statements intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. Forward-looking statements include those that are based on current expectations, estimates and projections about the industries in which we operate and management's beliefs and assumptions. Forward-looking statements are generally accompanied by words such as "anticipates," "expects," "forecasts," "intends," "plans," "believes," "seeks," "estimates," "could," "should" or words of similar meaning. These statements are not guarantees of future performance and involve certain risks, uncertainties and assumptions, which we refer to as "future factors," which are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements. Some future factors that could cause our results to differ materially from the results discussed in such forward-looking statements are discussed below and shareholders, potential investors and other readers are urged to consider these future factors carefully in evaluating forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date hereof. Future factors that could affect the outcome of forward-looking statements include the following:

- a sustained slowdown or significant downturn in our markets;
- slowdown in infrastructure development;
- unpredictability in the adoption, implementation and enforcement of emission standards around the world;
- the actions of, and income from, joint ventures and other investees that we do not directly control;
- changes in the engine outsourcing practices of significant customers;
- downturn in the North American truck industry or financial distress of a major truck customer;

- a major customer experiencing financial distress;
- any significant problems in our new engine platforms;
- supply shortages and supplier financial risk, particularly from any of our single-sourced suppliers;
- variability in material and commodity costs;
- product recalls;
- competitor pricing activity;

Table of Contents

- increasing competition, including increased global competition among our customers in emerging markets;
- exposure to information technology security threats and sophisticated "cyber attacks;"
- political, economic and other risks from operations in numerous countries;
- changes in taxation;
- global legal and ethical compliance costs and risks;
- aligning our capacity and production with our demand;
- product liability claims;
- the development of new technologies;
- obtaining additional customers for our new light-duty diesel engine platform and avoiding any related write-down in our investments in such platform;
- increasingly stringent environmental laws and regulations;
- foreign currency exchange rate changes;
- the price and availability of energy;
- the performance of our pension plan assets;
- labor relations;
- changes in accounting standards;
- our sales mix of products;
- protection and validity of our patent and other intellectual property rights;
- technological implementation and cost/financial risks in our increasing use of large, multi-year contracts;
- the cyclical nature of some of our markets;
- the outcome of pending and future litigation and governmental proceedings;
- continued availability of financing, financial instruments and financial resources in the amounts, at the times and on the terms required to support our future business;
- the consummation and integration of the planned acquisitions of our partially-owned United States and Canadian distributors; and
- other risk factors described in our Form 10-K, Part I, Item 1A under the caption "Risk Factors."

Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are made only as of the date of this quarterly report and we undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

ORGANIZATION OF INFORMATION

The following Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) was prepared to provide the reader with a view and perspective of our business through the eyes of management and should be read in conjunction with our Management's Discussion and Analysis of Financial Condition and Results of Operations section of our 2014 Form 10-K. Our MD&A is presented in the following sections:

- Executive Summary and Financial Highlights
- Outlook
- Results of Operations
- Operating Segment Results
- Liquidity and Capital Resources
- Application of Critical Accounting Estimates
- Recently Issued Accounting Pronouncements

Table of Contents

EXECUTIVE SUMMARY AND FINANCIAL HIGHLIGHTS

We are a global power leader that designs, manufactures, distributes and services diesel and natural gas engines and engine-related component products, including filtration, aftertreatment, turbochargers, fuel systems, controls systems, air handling systems and electric power generation systems. We sell our products to original equipment manufacturers (OEMs), distributors and other customers worldwide. We have long-standing relationships with many of the leading manufacturers in the markets we serve, including PACCAR Inc, Daimler Trucks North America, Chrysler Group, LLC (Chrysler), Volvo AB, Komatsu, Navistar International Corporation, Aggreko plc, Ford Motor Company and MAN Nutzfahrzeuge AG. We serve our customers through a network of approximately 600 company-owned and independent distributor locations and approximately 7,200 dealer locations in more than 190 countries and territories. Our reportable operating segments consist of the following: Engine, Distribution, Components and Power Generation. This reporting structure is organized according to the products and markets each segment serves. The Engine segment produces engines and parts for sale to customers in on-highway and various industrial markets. Our engines are used in trucks of all sizes, buses and recreational vehicles, as well as in various industrial applications, including construction, mining, agriculture, marine, oil and gas, rail and military equipment. The Distribution segment includes wholly-owned and partially-owned distributorships engaged in wholesaling engines, generator sets and service parts, as well as performing service and repair activities on our products and maintaining relationships with various OEMs throughout the world. The Components segment sells filtration products, aftertreatment systems, turbochargers and fuel systems. The Power Generation segment is an integrated provider of power systems, which sells engines, generator sets and alternators.

Our financial performance depends, in large part, on varying conditions in the markets we serve, particularly the on-highway, construction and general industrial markets. Demand in these markets tends to fluctuate in response to overall economic conditions. Our sales may also be impacted by OEM inventory levels and production schedules and stoppages. Economic downturns in markets we serve generally result in reduced sales of our products and can result in price reductions in certain products and/or markets. As a worldwide business, our operations are also affected by currency, political, economic and regulatory matters, including adoption and enforcement of environmental and emission standards, in the countries we serve. As part of our growth strategy, we invest in businesses in certain countries that carry high levels of these risks such as China, Brazil, India, Mexico, Russia and countries in the Middle East and Africa. At the same time, our geographic diversity and broad product and service offerings have helped limit the impact from a drop in demand in any one industry or customer or the economy of any single country on our consolidated results.

Worldwide revenues increased 7 percent in the three months ended March 29, 2015, as compared to the same period in 2014, primarily due to the consolidation of partially-owned North American distributors since December 31, 2013. Revenue in the U.S. and Canada improved by 17 percent primarily due to improved Distribution segment sales related to the consolidation of North American distributors and higher demand in the North American on-highway markets, partially offset by lower demand in off-highway mining and construction markets. Continued international economic uncertainty in the first quarter of 2015, negatively impacted our international revenues (excluding the U.S. and Canada) which declined by 6 percent with sales down or relatively flat in many of our markets, especially Europe and Brazil. The decline in international revenue was led by lower demand in the Engine segment, especially the on-highway markets in Brazil and Korea, declines in international construction and commercial marine demand and unfavorable currency impacts of 3 percent (primarily in Europe, Brazil, Australia and the U.K.). These decreases were partially offset by increased international demand for power generation products.

The following table contains sales and earnings before interest expense, income taxes and noncontrolling interests (EBIT) results by operating segment for the three month periods ended March 29, 2015 and March 30, 2014. Refer to the section titled "Operating Segment Results" for a more detailed discussion of net sales and EBIT by operating segment, including the reconciliation of segment EBIT to income before taxes.

Table of Contents

Operating Segments	Three months ended						Percent change 2015 vs. 2014				
	March 29, 2015			March 30, 2014							
In millions	Sales	Percent of Total		EBIT	Sales	Percent of Total		EBIT	Sales	EBIT	
Engine	\$2,596	55	%	\$253	\$2,563	58	%	\$269	1	%	(6)%
Distribution	1,476	31	%	88	950	22	%	76	55	%	16%
Components	1,299	28	%	195	1,230	28	%	167	6	%	17%
Power Generation	680	14	%	49	639	14	%	25	6	%	96%
Intersegment eliminations	(1,342)	(28))%	—	(976)	(22))%	—	38	%	—
Non-segment	—	—		(23)	—	—		(9)	—		NM
Total	\$4,709	100	%	\$562	\$4,406	100	%	\$528	7	%	6%

"NM" - not meaningful information

Net income attributable to Cummins was \$387 million, or \$2.14 per diluted share, on sales of \$4.7 billion for the three months ended March 29, 2015, versus the comparable prior year period with net income attributable to Cummins of \$338 million, or \$1.83 per diluted share, on sales of \$4.4 billion. The increase in net income and earnings per share was driven by improved gross margin, partially offset by higher selling, general and administrative expenses and lower equity, royalty and interest income from investees. The increase in gross margin was primarily due to improved Distribution segment sales related to the consolidation of partially-owned North American distributors since December 31, 2013, higher volumes and lower material and commodity costs, partially offset by higher warranty costs and unfavorable foreign currency fluctuations. Diluted earnings per share for the three months ended March 29, 2015, benefited \$0.01 from lower shares outstanding due to 2015 purchases under the stock repurchase program.

We generated \$173 million of operating cash flows for the three months ended March 29, 2015, compared to \$263 million for the same period in 2014. Refer to the section titled "Cash Flows" in the "Liquidity and Capital Resources" section for a discussion of items impacting cash flows.

In September 2013, we announced our intention to acquire the equity that we do not already own in most of our partially-owned U.S. and Canadian distributors over a three to five year period. We plan to spend an additional \$160 million to \$200 million on North American distributor acquisitions and the related debt retirements in the second half of 2015.

We repurchased \$137 million of stock under the 2012 Board of Directors Authorized Plan (2012 Plan) during the first three months of 2015.

Our debt to capital ratio (total capital defined as debt plus equity) at March 29, 2015, was 17.5 percent, compared to 17.3 percent at December 31, 2014. We have \$2.1 billion in cash and marketable securities on hand and access to our credit facilities, if necessary, to meet currently anticipated investment and funding needs. As of the date of filing this Quarterly Report on Form 10-Q, our credit ratings were as follows:

Credit Rating Agency	Senior L-T Debt Rating	Outlook	Last Updated
Standard & Poor's Rating Services	A+	Stable	August 2014
Fitch Ratings	A	Stable	October 2014
Moody's Investors Service, Inc.	A2	Stable	December 2014

Our global pension plans, including our unfunded and non-qualified plans, were 108 percent funded at December 31, 2014. Our U.S. qualified plan, which represents approximately 56 percent of the worldwide pension obligation, was 119 percent funded and our U.K. plan was 113 percent funded. We expect to contribute \$175 million to our global pension plans in 2015. We anticipate pension and other postretirement benefit cost in 2015 to increase by approximately \$8 million pre-tax, or approximately \$0.03 per diluted share, when compared to 2014 due to lower discount rates and unfavorable demographics mostly offset by favorable expected return on asset performance. Refer to Note 3, "PENSION AND OTHER POSTRETIREMENT BENEFITS" for additional information regarding our

pension plans.

We expect our effective tax rate for the full year of 2015 to approximate 29.5 percent, excluding any one-time tax items.

21

Table of Contents

OUTLOOK

Near-Term

Our outlook reflects the following positive trends for the remainder of 2015:

• We expect continued growth in the North American heavy-duty and medium-duty on-highway markets compared to 2014.

• We expect North American light-duty demand to remain strong.

• We expect the new ISG engine, which began production in the second quarter of 2014 with our Beijing Foton Cummins Engine Co., Ltd. joint venture, to continue to gain market share in China in its first full year of production. We plan to acquire two more unconsolidated North American distributors in the second half of the year, which will increase our Distribution segment revenues and acquire the remaining equity in a consolidated North American distributor.

• Demand in India is expected to improve in some end markets as the economy improves throughout the year.

Our outlook reflects the following challenges to our business that may reduce our earnings potential for the remainder of 2015:

• Power generation markets are expected to remain weak.

• Weak economic growth in Brazil will continue to negatively impact our on-highway business.

• We do not anticipate end markets in China to improve.

• Demand in certain European markets could remain weak due to continued political and economic uncertainty.

• Growth in emerging markets could be negatively impacted if emission regulations are not strictly enforced.

• Foreign currency volatility could continue to put pressure on revenue and earnings.

• We expect market demand to decline in the oil and gas markets as the result of low crude oil prices.

• Domestic and international mining markets could continue to deteriorate if commodity prices continue to weaken.

Long-Term

We believe that, over the longer term, there will be economic improvements in most of our current markets and that our opportunities for long-term profitable growth will continue as the result of the following four macroeconomic trends that should benefit our businesses:

• tightening emissions controls across the world;

• infrastructure needs in emerging markets;

• energy availability and cost issues; and

• globalization of industries like ours.

Table of Contents

RESULTS OF OPERATIONS

	March 29, 2015	March 30, 2014	Percentage Points	
Gross margin	25.4	% 24.9	%	0.5
Selling, general and administrative expenses	11.0	% 11.0	%	—
Research, development and engineering expenses	4.1	% 4.3	%	0.2

Net Sales

Net sales for the three months ended March 29, 2015, increased versus the comparable period in 2014 primarily due to increased sales of 55 percent in the Distribution segment primarily related to the acquisitions of North American distributors since December 31, 2013 and strength in North American on-highway markets.

The increase in sales was partially offset by the following:

External Engine segment sales decreased by 10 percent due to the significant increase in intersegment sales as a percentage of total sales primarily due to the newly consolidated North American distributors, partially offset by higher demand in North American on-highway markets.

Foreign currency fluctuations unfavorably impacted sales by approximately 3 percent (primarily in Europe, Brazil, Australia, Canada and the U.K.).

Sales to international markets, based on location of customers, for the three months ended March 29, 2015, were 39 percent of total net sales compared with 44 percent of total net sales for the comparable period in 2014.

A more detailed discussion of sales by segment is presented in the "OPERATING SEGMENT RESULTS" section.

Gross Margin

Gross margin increased for the three months ended March 29, 2015, versus the comparable period in 2014, and increased as a percentage of sales by 0.5 percentage points primarily due to improved Distribution segment sales related to the consolidation of partially-owned North American distributors since December 31, 2013, higher volumes

and lower material and commodity costs, partially offset by higher warranty costs and unfavorable foreign currency fluctuations (primarily in Australia, Canada and Brazil).

Table of Contents

The provision for base warranties issued as a percent of sales for the three months ended March 29, 2015, was 2.0 percent compared to 1.8 percent for the comparable period in 2014. A more detailed discussion of margin by segment is presented in the “OPERATING SEGMENT RESULTS” section.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the three months ended March 29, 2015, increased versus the comparable period in 2014, primarily due to higher compensation and related expenses of \$35 million, partially offset by lower consulting expenses of \$11 million. Compensation and related expenses include salaries, fringe benefits and variable compensation. Overall, selling, general and administrative expenses, as a percentage of sales, remained flat at 11.0 percent in the first three months of 2015 versus the comparable period in 2014.

Research, Development and Engineering Expenses

Research, development and engineering expenses for the three months ended March 29, 2015, increased versus the comparable period in 2014, primarily due to higher compensation and related expenses of \$8 million, partially offset by decreased consulting expenses of \$2 million. Compensation and related expenses include salaries, fringe benefits and variable compensation. Overall, research, development and engineering expenses, as a percentage of sales, decreased to 4.1 percent in the first three months of 2015 from 4.3 percent in the comparable period in 2014. Research activities continue to focus on development of new products to meet future emission standards around the world and improvements in fuel economy performance.

Equity, Royalty and Interest Income From Investees

Equity, royalty and interest income from investees decreased for the three months ended March 29, 2015, versus the comparable period in 2014. The primary drivers were as follows:

In millions	Increase/(Decrease) March 29, 2015 vs. March 30, 2014 Three months ended	
North American distributors	\$(22)
Beijing Foton Cummins Engine Co., Ltd. (Heavy-duty)	5)
Other equity income	(4)
Cummins share of net income	(21)
Royalty and interest income	(1)
Equity, royalty and interest income from investees	\$(22)

The decrease for the three months ended March 29, 2015, was primarily due to the consolidation of the partially-owned North American distributors since December 31, 2013. As we continue executing our plan to acquire partially-owned distributors, we expect equity earnings for our North American distributors to continue to decrease as the earnings will be included in our consolidated results.

Other Operating Income (Expense), net

Other operating income (expense) was as follows:

In millions	Three months ended	
	March 29, 2015	March 30, 2014
Royalty income, net	\$5	\$2
Amortization of intangible assets	(6) (3
Other, net	(2) —
Total other operating income (expense), net	\$(3) \$(1

Table of Contents

Interest Income

Interest income for the three months ended March 29, 2015, remained flat versus the comparable period in 2014.

Interest Expense

Interest expense for the three months ended March 29, 2015, decreased versus the comparable period in 2014, primarily due to the positive impact of the interest rate swap.

Other Income (Expense), net

Other income (expense) was as follows:

In millions	Three months ended	
	March 29, 2015	March 30, 2014
Change in cash surrender value of corporate owned life insurance	\$10	\$7
Gain on marketable securities, net	1	1
Dividend income	1	1
Gain on fair value adjustment for consolidated investee	—	6
Bank charges	(2)	(2)
Foreign currency loss, net	(2)	(5)
Other, net	1	2
Total other income (expense), net	\$9	\$10
Income Tax Expense		

Our effective tax rate for the year is expected to approximate 29.5 percent, excluding any one-time items that may arise. The expected tax rate does not include the benefits of the research tax credit, which expired December 31, 2014 and has not yet been renewed by Congress. If the research credit is reinstated during 2015, we would anticipate the 2015 effective tax rate to be reduced to 28.5 percent. Our tax rate is generally less than the 35 percent U.S. statutory income tax rate primarily due to lower tax rates on foreign income.

The effective tax rate for the three month period ended March 29, 2015, was 26.3 percent. This tax rate included an \$18 million discrete tax benefit to reflect the release of reserves for uncertain tax positions related to a favorable federal audit settlement.

Our effective tax rate for the three month period ended March 30, 2014, was 29.9 percent. This tax rate included a \$12 million discrete tax expense attributable primarily to state deferred tax adjustments, as well as a \$5 million discrete net tax benefit resulting from a \$70 million dividend paid from China earnings generated prior to 2012.

The decrease in the three month effective tax rate from 2014 to 2015 is primarily due to the 2015 favorable discrete tax item.

Noncontrolling Interests

Noncontrolling interests eliminate the income or loss attributable to non-Cummins ownership interests in our consolidated entities. Noncontrolling interests in income of consolidated subsidiaries decreased primarily due to lower earnings at Wuxi Cummins Turbo Technologies Co. Ltd. and a decline from the acquisition of the remaining interest in previously consolidated North American distributors since December 31, 2013, partially offset by higher earnings at Cummins India Ltd.

Net Income Attributable to Cummins Inc. and Diluted Earnings Per Share Attributable to Cummins Inc.

Net income and diluted earnings per share attributable to Cummins Inc. for the three months ended March 29, 2015, increased versus the comparable period in 2014, primarily due to higher gross margin, partially offset by higher selling, general and administrative expenses and lower equity, royalty and interest income from investees. Diluted earnings per share for the three months ended March 29, 2015, benefited \$0.01 from lower shares outstanding due to 2015 purchases under the stock repurchase program.

Table of Contents

OPERATING SEGMENT RESULTS

Our reportable operating segments consist of the following: Engine, Distribution, Components and Power Generation. This reporting structure is organized according to the products and markets each segment serves. We use segment EBIT as the primary basis for the chief operating decision-maker to evaluate the performance of each operating segment.

Following is a discussion of results for each of our operating segments.

Engine Segment Results

Financial data for the Engine segment was as follows:

In millions	Three months ended		Favorable/ (Unfavorable)		
	March 29, 2015	March 30, 2014	Amount	Percent	
External sales	\$1,889	\$2,090	\$(201) ⁽¹⁾	(10)%	
Intersegment sales	707	473	234 ⁽¹⁾	49 %	
Total sales	2,596	2,563	33	1 %	
Depreciation and amortization	58	51	(7)	(14)%	
Research, development and engineering expenses	114	116	2	2 %	
Equity, royalty and interest income from investees	30	32	(2)	(6)%	
Interest income	2	2	—	— %	
Segment EBIT	253	269	(16)	(6)%	
					Percentage Points
Segment EBIT as a percentage of total sales	9.7	% 10.5	%	(0.8)	

⁽¹⁾ Due to the acquisitions of North American distributors, sales previously recognized as external sales are now considered intersegment sales.

In the first quarter of 2015, our Engine segment reorganized its reporting structure to include the following markets:

Heavy-duty truck - We manufacture diesel engines that range from 310 to 600 horsepower serving global heavy-duty truck customers worldwide and fire trucks, primarily in North America.

Medium-duty truck and bus - We manufacture medium-duty diesel engines ranging from 200 to 450 horsepower serving medium-duty and inter-city delivery truck customers worldwide, with key markets including North America, Latin America, Europe and Mexico. We also provide diesel or natural gas engines for school buses, transit buses and shuttle buses worldwide, with key markets including North America, Europe, Latin America and Asia. We also provide diesel engines for Class A motor homes (RVs), primarily in North America.

Light-duty automotive (Pickup and Light Commercial Vehicle (LCV)) - We manufacture 320 to 385 horsepower diesel engines for Chrysler Group, LLC's (Chrysler) heavy-duty chassis cab and pickup trucks. We also manufacture 105 to 300 horsepower diesel engines for LCV's worldwide, with key markets in Europe, Latin America and Asia.

Industrial - We provide mid-range, heavy-duty and high-horsepower engines that range from 49 to 5,100 horsepower for a wide variety of equipment in the construction, agricultural, mining, rail, government, oil and gas, and commercial and recreational marine applications throughout the world. Across these markets we have major customers in North America, Europe, Middle East, Africa, China, Korea, Japan, Latin America, India, Russia,

Southeast Asia, South Pacific and Mexico.

Stationary power - We provide mid-range, heavy-duty and high-horsepower engines, that range from 60 to 4,300 horsepower, to our power generation business for standby, mobile and distributed power generation solutions throughout the world.

26

Table of Contents

Engine segment net sales by market (including 2014 reorganized balances) were as follows:

In millions	Three months ended		Favorable/ (Unfavorable)		
	March 29, 2015	March 30, 2014	Amount	Percent	
Heavy-duty truck	\$757	\$718	\$39	5	%
Medium-duty truck and bus	608	575	33	6	%
Light-duty automotive	381	391	(10) (3)%
Total on-highway	1,746	1,684	62	4	%
Industrial	616	669	(53) (8)%
Stationary power	234	210	24	11	%
Total sales	\$2,596	\$2,563	\$33	1	%

Unit shipments by engine classification (including unit shipments to Power Generation) were as follows:

	Three months ended		Favorable/ (Unfavorable)		
	March 29, 2015	March 30, 2014	Amount	Percent	
Midrange	112,400	118,900	(6,500) (5)%
Heavy-duty	28,700	28,800	(100) —	%
High-horsepower	3,500	3,400	100	3	%
Total unit shipments	144,600	151,100	(6,500) (4)%

Sales

Engine segment sales for the three months ended March 29, 2015, increased versus the comparable period in 2014. The following were the primary drivers by market:

• Heavy-duty truck engine sales increased due to improved demand in the North American heavy-duty truck market with increased engine shipments of 8 percent, partially offset by weaker demand in China and Korea.

• Medium-duty truck and bus sales increased due to higher demand in the North American medium-duty truck market with increased engine shipments of 14 percent, primarily due to market share gains and higher international bus demand with improved engine shipments of 20 percent. These increases were partially offset by weaker medium-duty truck demand in Brazil.

• Stationary power engine sales increased due to favorable mix of products sold to the Power Generation business, partially offset by decreased volumes.

The increases above were partially offset by the following:

• Industrial engine sales decreased due to lower international demand in construction markets with decreased engine shipments of 30 percent, primarily in Korea and China, as well as reduced demand in international commercial marine markets with decreased engine shipments of 9 percent.

• Foreign currency fluctuations unfavorably impacted sales results (primarily in Brazil and Europe).

Total on-highway-related sales for the three months ended March 29, 2015, were 67 percent of total engine segment sales, compared to 66 percent for the comparable period in 2014.

Segment EBIT

Engine segment EBIT for the three months ended March 29, 2015, decreased versus the comparable period in 2014 primarily due to lower gross margin, higher selling, general and administrative expenses and lower equity, royalty and interest income from investees, partially offset by lower research, development and engineering expenses. Major components of EBIT and related changes to segment EBIT and EBIT as a percentage of sales were as follows:

Table of Contents

In millions	Three months ended March 29, 2015 vs. March 30, 2014 Favorable/(Unfavorable) Change			Percentage point change as a percent of total sales
	Amount	Percent		
Gross margin	\$(7) (1)%	(0.6
Selling, general and administrative expenses	(3) (1)%	—
Research, development and engineering expenses	2	2	%	0.1
Equity, royalty and interest income from investees	(2) (6)%	—

The decrease in gross margin for the three months ended March 29, 2015, versus the comparable period in 2014, was primarily due to increased warranty costs, partially offset by lower material and commodity costs. The increase in selling, general and administrative expenses was primarily due to higher compensation expenses, partially offset by lower consulting expenses. The decrease in research, development and engineering expenses was primarily due to higher expense recovery and lower consulting expenses, partially offset by higher compensation expenses. Equity earnings included a charge of approximately \$12 million recorded by an equity investee. The charge writes down the investee's underlying assets to estimated fair value as the result of an impairment review triggered by the start-up investee's volumes not growing as anticipated from the inception of the venture.

Distribution Segment Results

Financial data for the Distribution segment was as follows:

In millions	Three months ended		Favorable/ (Unfavorable)		
	March 29, 2015	March 30, 2014	Amount	Percent	
External sales	\$1,469	\$942	\$527	56	%
Intersegment sales	7	8	(1) (13)%
Total sales	1,476	950	526	55	%
Depreciation and amortization	27	16	(11) (69)%
Research, development and engineering expenses	3	2	(1) (50)%
Equity, royalty and interest income from investees	20	41	(21) (51)%
Interest income	1	1	—	—	%
Segment EBIT ⁽¹⁾	88	76	12	16	%
Segment EBIT as a percentage of total sales	6.0	% ⁽²⁾ 8.0	%	(2.0)

(1) Segment EBIT for the three months ended March 30, 2014, included a \$6 million gain on the fair value adjustment resulting from the acquisition of the remaining interest in a North American distributor.

(2) Prior North American distributor acquisitions increased distribution segment EBIT, however it is dilutive to EBIT as a percentage of sales.

Table of Contents

Sales for our Distribution segment by region were as follows:

In millions	Three months ended		Favorable/ (Unfavorable)		
	March 29, 2015	March 30, 2014	Amount	Percent	
North & Central America	\$979	\$444	\$535	NM	
Asia Pacific	177	162	15	9	%
Europe, CIS and China	156	194	(38) (20)%
Africa	50	41	9	22	%
Middle East	44	41	3	7	%
India	37	34	3	9	%
South America	33	34	(1) (3)%
Total sales	\$1,476	\$950	\$526	55	%

"NM" - not meaningful information

Sales for our Distribution segment by product were as follows:

In millions	Three months ended		Favorable/ (Unfavorable)		
	March 29, 2015	March 30, 2014	Amount	Percent	
Parts and filtration	\$573	\$382	\$191	50	%
Engines	321	174	147	84	%
Power generation	298	193	105	54	%
Service	284	201	83	41	%
Total sales	\$1,476	\$950	\$526	55	%

Sales

Distribution segment sales for the three months ended March 29, 2015, increased versus the comparable period in 2014 primarily due to \$538 million of segment sales related to the consolidation of partially-owned North American distributors since December 31, 2013, \$10 million of segment sales related to the acquisition of international distributors and \$45 million of organic sales growth primarily in Asia Pacific, North America and Africa, partially offset by decreased sales in China and Western Europe and unfavorable foreign currency fluctuations (primarily in Australia, Canada and Europe).

Segment EBIT

Distribution segment EBIT for the three months ended March 29, 2015, increased versus the comparable period in 2014, primarily due to acquisitions of North American distributors, partially offset by higher selling, general and administrative expenses, lower equity, royalty and interest income from investees and unfavorable foreign currency fluctuations (primarily in Australia and Canada) and increased amortization of intangible assets related to the acquisitions. We expect a reduction in equity, royalty and interest income from investees to continue as a result of these acquisitions. EBIT as a percentage of sales for the three months ended March 29, 2015, was 6.0 percent compared to 8.0 percent for the comparable period in 2014. The decrease was due to the dilutive effect of the 2014 acquisitions. Major components of EBIT and related changes to segment EBIT and EBIT as a percentage of sales were as follows:

In millions	Three months ended March 29, 2015 vs. March 30, 2014 Favorable/(Unfavorable) Change			Percentage point change as a percent of total sales
	Amount	Percent		
Gross margin	\$67	40	% (1.8)

Edgar Filing: CUMMINS INC - Form 10-Q

Selling, general and administrative expenses	(28)	(21)%	3.1	
Equity, royalty and interest income from investees	(21)	(51)%	(2.9)

Components Segment Results

Financial data for the Components segment was as follows:

In millions	Three months ended		Favorable/ (Unfavorable)		
	March 29, 2015	March 30, 2014	Amount	Percent	
External sales	\$931	\$922	\$9	(1)	1 %
Intersegment sales	368	308	60	(1)	19 %
Total sales	1,299	1,230	69		6 %
Depreciation and amortization	26	26	—	—	— %
Research, development and engineering expenses	61	53	(8)	(15)	(15) %
Equity, royalty and interest income from investees	9	9	—	—	— %
Interest income	1	1	—	—	— %
Segment EBIT	195	167	28		17 %
					Percentage Points
Segment EBIT as a percentage of total sales	15.0	% 13.6	%		1.4

(1) Due to the acquisitions of North American distributors, sales previously recognized as external sales are now considered intersegment sales.

Sales for our Components segment by business were as follows:

In millions	Three months ended		Favorable/ (Unfavorable)		
	March 29, 2015	March 30, 2014	Amount	Percent	
Emission solutions	\$613	\$543	\$70	13	13 %
Turbo technologies	301	313	(12)	(4)	(4) %
Filtration	255	265	(10)	(4)	(4) %
Fuel systems	130	109	21	19	19 %
Total sales	\$1,299	\$1,230	\$69	6	6 %
Sales					

Components segment sales for the three months ended March 29, 2015, increased versus the comparable period in 2014. The following were the primary drivers by business:

Emission solutions sales increased primarily due to improved demand in the North American on-highway markets and increased demand for our products in China to continue to meet emission requirements. The increases were partially offset by lower demand in Brazil and Western Europe.

Fuel systems sales increased due to improved demand in North American on-highway markets, the new Beijing Foton ISG engine that entered production in the second quarter of 2014 in China and increased aftermarket demand.

The increases above were partially offset by the following:

Turbo technologies sales decreased as a result of lower demand in China, Western Europe and Russia and decreased aftermarket demand, partially offset by higher demand in North American on-highway markets.

Filtration sales decreased primarily due to lower demand in Eastern Europe and Russia and decreased aftermarket demand, partially offset by higher demand in North American on-highway markets.

Foreign currency fluctuations unfavorably impacted sales results (primarily in Europe, Brazil and the U.K.).

Segment EBIT

Components segment EBIT for the three months ended March 29, 2015, increased versus the comparable period in 2014, primarily due to higher gross margin, partially offset by higher research, development and engineering expenses and higher selling, general and administrative expenses. Major components of EBIT and related changes to segment

EBIT and EBIT as a percentage of sales were as follows:

30

Table of Contents

In millions	Three months ended March 29, 2015 vs. March 30, 2014 Favorable/(Unfavorable) Change		
	Amount	Percent	Percentage point change as a percent of total sales
Gross margin	\$36	13	% 1.6
Selling, general and administrative expenses	(2)) (3)% 0.2
Research, development and engineering expenses	(8) (15)% (0.4
Equity, royalty and interest income from investees	—	—	% —

The increase in gross margin for the three months ended March 29, 2015, versus the comparable period in 2014, was primarily due to higher volumes, mainly in the emission solutions business and lower material costs, partially offset by unfavorable pricing and unfavorable foreign currency fluctuations (primarily in Europe and Brazil). The increase in selling, general and administrative expenses was primarily due to higher compensation expenses, partially offset by lower consulting expenses. The increase in research, development and engineering expenses was primarily due to higher compensation expenses, higher consulting expenses and lower expense recovery.

Power Generation Segment Results

Financial data for the Power Generation segment was as follows:

In millions	Three months ended		Favorable/ (Unfavorable)	
	March 29, 2015	March 30, 2014	Amount	Percent
External sales	\$420	\$452	\$(32)	(7)% ⁽¹⁾
Intersegment sales	260	187	73	(1) 39%
Total sales	680	639	41	6%
Depreciation and amortization	16	12	(4)	(33)%
Research, development and engineering expenses	17	19	2	11%
Equity, royalty and interest income from investees	9	8	1	13%
Interest income	1	1	—	—%
Segment EBIT	49	25	24	96%
Segment EBIT as a percentage of total sales	7.2	% 3.9	%	Percentage Points 3.3

⁽¹⁾ Due to the acquisitions of North American distributors, sales previously recognized as external sales are now considered intersegment sales.

In the first quarter of 2015, our Power Generation segment reorganized its reporting structure to include the following businesses:

Power systems - We manufacture generators for commercial and consumer applications ranging from 2 kilowatts to 3.5 megawatts, as well as paralleling systems and transfer switches for applications such as data centers, health care facilities and waste water treatment plants.

Alternators - We design, manufacture, sell and service A/C generator/alternator products internally as well as to other generator set assemblers. Our products are sold under the Stamford, AVK and Markon brands and range in output from 3 kilovolt-amperes (kVA) to 12,000 kVA.

Power solutions - We provide natural gas fuel-based turnkey solutions for distributed generation and energy management applications using natural or bio gas as a fuel. The business also serves a global rental account for diesel and gas generator sets.

Table of Contents

Sales for our Power Generation segment by business (including 2014 reorganized balances) were as follows:

In millions	Three months ended		Favorable/ (Unfavorable)		
	March 29, 2015	March 30, 2014	Amount	Percent	
Power systems	543	510	33	6	%
Alternators	98	105	(7)	(7))%
Power solutions	39	24	15	63	%
Total sales	\$680	\$639	\$41	6	%

Sales

Power Generation segment sales for the three months ended March 29, 2015, increased versus the comparable period in 2014. The following were the primary drivers by business:

• Power systems sales increased primarily due to higher demand in China and Asia, partially offset by lower demand in Russia.

• Power solutions sales increased primarily due to higher demand in the U.K., partially offset by lower demand in North America.

The increases above were partially offset by the following:

• Alternator sales decreased primarily due to lower demand in Europe, partially offset by higher demand in China.

• Foreign currency fluctuations unfavorably impacted sales results (primarily in Europe and Brazil).

Segment EBIT

Power Generation segment EBIT for the three months ended March 29, 2015, increased versus the comparable period in 2014 primarily due to higher gross margin and lower research, development and engineering expenses. Major components of EBIT and related changes to segment EBIT and EBIT as a percentage of sales were as follows:

In millions	Three months ended March 29, 2015 vs. March 30, 2014		
	Amount	Percent	Percentage point change as a percent of total sales
Gross margin	\$17	15	% 1.4
Selling, general and administrative expenses	1	1	% 0.9
Research, development and engineering expenses	2	11	% 0.5
Equity, royalty and interest income from investees	1	13	% —

The increase in gross margin for the three months ended March 29, 2015, versus the comparable period in 2014, was primarily due to higher volumes. The decrease in selling general and administrative expenses was primarily due to lower consulting expenses and lower compensation expenses as the result of operating actions taken in December of 2014, partially offset by lower expense recovery. The decrease in research, development and engineering expenses was primarily due to lower compensation expenses as the result of operating actions taken in December of 2014, and lower consulting expenses.

Table of Contents

Reconciliation of Segment EBIT to Income Before Income Taxes

The table below reconciles the segment information to the corresponding amounts in the Condensed Consolidated Statements of Income:

In millions	Three months ended	
	March 29, 2015	March 30, 2014
Total segment EBIT	\$585	\$537
Non-segment EBIT ⁽¹⁾	(23) (9
Total EBIT	562	528
Less: Interest expense	14	17
Income before income taxes	\$548	\$511

⁽¹⁾ Includes intersegment sales and profit in inventory eliminations and unallocated corporate expenses. There were no significant unallocated corporate expenses for the three months ended March 29, 2015 and March 30, 2014.

Table of Contents

LIQUIDITY AND CAPITAL RESOURCES

Key Working Capital and Balance Sheet Data

We fund our working capital with cash from operations and short-term borrowings when necessary. Various assets and liabilities, including short-term debt, can fluctuate significantly from month to month depending on short-term liquidity needs. As a result, working capital is a prime focus of management attention. Working capital and balance sheet measures are provided in the following table:

In millions	March 29, 2015	December 31, 2014	
Working capital ⁽¹⁾	\$4,943	\$5,034	
Current ratio	2.22	2.25	
Accounts and notes receivable, net	\$3,240	\$2,946	
Days' sales in receivables	60	53	
Inventories	\$2,936	\$2,866	
Inventory turnover	4.9	5.3	
Accounts payable (principally trade)	\$2,013	\$1,881	
Days' payable outstanding	47	44	
Total debt	\$1,706	\$1,698	
Total debt as a percent of total capital ⁽²⁾	17.5	% 17.3	%

⁽¹⁾ Working capital includes cash and cash equivalents.

⁽²⁾ Total capital is defined as total debt plus equity.

Cash Flows

Cash and cash equivalents decreased \$304 million during the three months ended March 29, 2015, compared to a \$521 million decrease in cash and cash equivalents during the comparable period in 2014. Cash and cash equivalents were impacted as follows:

In millions	Three months ended		
	March 29, 2015	March 30, 2014	Change
Net cash provided by operating activities	\$173	\$263	\$(90)
Net cash used in investing activities	(125)	(187)) 62
Net cash used in financing activities	(296)	(602)) 306
Effect of exchange rate changes on cash and cash equivalents	(56)) 5	(61)
Net decrease in cash and cash equivalents	\$(304)) \$(521)) \$217

Net cash provided by operating activities decreased for the three months ended March 29, 2015, versus the comparable period in 2014, primarily due to unfavorable working capital fluctuations, partially offset by higher consolidated net income. During the first three months of 2015, the higher working capital requirements resulted in a cash outflow of \$242 million compared to a cash outflow of \$158 million in the comparable period in 2014.

Net cash used in investing activities decreased for the three months ended March 29, 2015, versus the comparable period in 2014, primarily due to lower cash investment for the acquisitions of businesses in 2015 and lower investments in and advances to equity investees, partially offset by higher net investments in marketable securities. Net cash used in financing activities decreased for the three months ended March 29, 2015, versus the comparable period in 2014, primarily due to lower repurchases of common stock of \$282 million.

Sources of Liquidity

We generate significant ongoing cash flow, which has been used, in part, to fund working capital, common stock repurchases, capital expenditures, dividends on our common stock, acquisitions, projected pension obligations and debt service. Cash provided by operations is our principal source of liquidity with \$173 million provided by

operations for the three months ended March 29, 2015.

34

Table of Contents

As of March 29, 2015, our other sources of liquidity include:

• cash and cash equivalents of \$2.0 billion, of which approximately 42 percent is located in the U.S. and 58 percent is located outside the U.S., primarily in the U.K., China and Singapore,
 • a revolving credit facility with \$1.7 billion available, net of letters of credit,
 • international and other domestic credit facilities with \$260 million available and
 • marketable securities of \$115 million, of which 64 percent is located in India, 24 percent is located in the U.S. and 12 percent is located in Brazil, the majority of which could be liquidated into cash within a few days.

Cash, Cash Equivalents and Marketable Securities

A significant portion of our cash flows is generated outside the U.S. As of March 29, 2015, the total of cash, cash equivalents and marketable securities held by foreign subsidiaries was \$1.2 billion, the majority of which was located in the U.K., China, Singapore and India. The geographic location of our cash and marketable securities aligns well with our business growth strategy. We manage our worldwide cash requirements considering available funds among the many subsidiaries through which we conduct our business and the cost effectiveness with which those funds can be accessed. As a result, we do not anticipate any local liquidity restrictions to preclude us from funding our targeted expansion or operating needs with local resources.

If we distribute our foreign cash balances to the U.S. or to other foreign subsidiaries, we could be required to accrue and pay U.S. taxes. For example, we would be required to accrue and pay additional U.S. taxes if we repatriated cash from certain foreign subsidiaries whose earnings we have asserted are permanently reinvested outside of the U.S. Foreign earnings for which we assert permanent reinvestment outside the U.S. consist primarily of earnings of our China and U.K. domiciled subsidiaries. At present, we do not foresee a need to repatriate any earnings from these subsidiaries for which we have asserted permanent reinvestment. However, to help fund cash needs of the U.S. or other international subsidiaries as they arise, we repatriate available cash from certain foreign subsidiaries whose earnings are not permanently reinvested when it is cost effective to do so. Earnings generated after 2011 from our China operations are considered permanently reinvested, while earnings generated prior to 2012, for which U.S. deferred tax liabilities have been recorded, are expected to be repatriated in future years.

Debt Facilities and Other Sources of Liquidity

We have a \$1.7 billion revolving credit facility, the proceeds of which can be used for general corporate purposes. This facility expires on November 9, 2018.

We have a current shelf registration filed with the Securities and Exchange Commission under which we may offer, from time to time, debt securities, common stock, preferred and preference stock, depositary shares, warrants, stock purchase contracts and stock purchase units.

The maturity schedule of our existing long-term debt does not require significant cash outflows in the intermediate term. Required annual principal payments range from \$11 million to \$39 million over the next five years.

Uses of Cash**Capital Expenditures**

Capital expenditures for the three months ended March 29, 2015, were \$100 million compared to \$107 million in the comparable period in 2014. Despite the challenging international economies, we continue to invest in new product lines and targeted capacity expansions. We plan to spend between \$750 million and \$850 million in 2015 as we continue with product launches and facility improvements. Approximately 50 percent of our capital expenditures are expected to be invested outside of the U.S. in 2015.

Share Repurchases

Purchases under the 2012 Plan were as follows:

In millions (except per share amounts) For each quarter ended	Shares Purchased	Average Cost Per Share	Total Cost of Repurchases	Remaining Authorized Capacity ⁽¹⁾
March 29	1.0	\$138.15	\$137	\$37

Table of Contents

⁽¹⁾ The remaining authorized capacity under the 2012 Plan was calculated based on the cost to purchase the shares, but excludes commission expenses in accordance with the 2012 Plan.

In July 2014, our Board of Directors authorized the acquisition of up to \$1 billion of additional common stock upon the completion of the 2012 Plan. We may continue to repurchase outstanding shares from time to time during 2015 to offset the dilutive impact of employee stock based compensation plans and to enhance shareholder value.

Dividends

In July 2014, the Board of Directors authorized a dividend increase of approximately 25 percent from \$0.625 per share to \$0.78 per share on a quarterly basis. We paid dividends of \$140 million during the three months ended March 29, 2015.

Acquisitions

In September 2013, we announced our intention to acquire the equity that we do not already own in most of our partially-owned U.S. and Canadian distributors over a three to five year period. We plan to spend an additional \$160 million to \$200 million on North American distributor acquisitions and the related debt retirements in the second half of 2015.

Pensions

The funded status of our pension plans is dependent upon a variety of variables and assumptions including return on invested assets, market interest rates and levels of voluntary contributions to the plans. In the first three months of 2015, the investment return on our U.S. pension trust was 2.6 percent while our U.K. pension trust return was 4.2 percent. Approximately 79 percent of our pension plan assets are held in highly liquid investments such as fixed income and equity securities. The remaining 21 percent of our plan assets are held in less liquid, but market valued investments, including real estate, private equity and insurance contracts.

We sponsor funded and unfunded domestic and foreign defined benefit pension and other postretirement plans.

Contributions to these plans were as follows:

In millions	Three months ended	
	March 29, 2015	March 30, 2014
Defined benefit pension and other postretirement plans		
Voluntary contribution	\$36	\$39
Mandatory contribution	76	75
Defined benefit pension contributions	112	114
Other postretirement plans	13	12
Total defined benefit plans	\$125	\$126
Defined contribution pension plans	\$25	\$26

We anticipate making additional defined benefit pension contributions and other postretirement benefit payments during the remainder of 2015 of \$63 million and \$27 million, respectively. The \$175 million of pension contributions for the full year include voluntary contributions of approximately \$82 million. These contributions and payments may be made from trusts or company funds either to increase pension assets or to make direct benefit payments to plan participants. Claims and premiums for other postretirement benefits are expected to approximate \$40 million in 2015. We expect our 2015 net periodic pension cost to approximate \$63 million.

Credit Ratings

Our ratings and outlook from each of the credit rating agencies as of the date of filing are shown in the table below.

Credit Rating Agency ⁽¹⁾	Senior L-T Debt Rating	Outlook	Last Updated
Standard & Poor's Rating Services	A+	Stable	August 2014
Fitch Ratings	A	Stable	October 2014
Moody's Investors Service, Inc.	A2	Stable	December 2014

⁽¹⁾ Credit ratings are not recommendations to buy, are subject to change and each rating should be evaluated independently of any other rating. In addition, we undertake no obligation to update disclosures concerning our credit ratings, whether as a result of new information, future events or otherwise.

Management's Assessment of Liquidity

Our financial condition and liquidity remain strong. Our solid balance sheet and credit ratings enable ready access to credit and the capital markets. We assess our liquidity in terms of our ability to generate adequate cash to fund our operating, investing and financing activities. We believe our liquidity provides us with the financial flexibility needed to fund working capital, capital expenditures, common stock repurchases, dividend payments, acquisitions of our North American distributors, projected pension obligations and debt service obligations. We continue to generate cash from operations in the U.S. and maintain access to \$1.7 billion of our revolver as noted above.

Table of Contents

APPLICATION OF CRITICAL ACCOUNTING ESTIMATES

A summary of our significant accounting policies is included in Note 1, "SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES," of the Notes to the Consolidated Financial Statements of our 2014 Form 10-K which discusses accounting policies that we have selected from acceptable alternatives.

Our Condensed Consolidated Financial Statements are prepared in accordance with generally accepted accounting principles that often require management to make judgments, estimates and assumptions regarding uncertainties that affect the reported amounts presented and disclosed in the financial statements. Management reviews these estimates and assumptions based on historical experience, changes in business conditions and other relevant factors they believe to be reasonable under the circumstances. In any given reporting period, our actual results may differ from the estimates and assumptions used in preparing our Condensed Consolidated Financial Statements.

Critical accounting estimates are defined as follows: the estimate requires management to make assumptions about matters that were highly uncertain at the time the estimate was made; different estimates reasonably could have been used; or if changes in the estimate are reasonably likely to occur from period to period and the change would have a material impact on our financial condition or results of operations. Our senior management has discussed the development and selection of our accounting policies, related accounting estimates and the disclosures set forth below with the Audit Committee of our Board of Directors. We believe our critical accounting estimates include those addressing the estimation of liabilities for warranty programs, accounting for income taxes and pension benefits.

A discussion of our critical accounting estimates may be found in the "Management's Discussion and Analysis" section of our 2014 Form 10-K under the caption "APPLICATION OF CRITICAL ACCOUNTING ESTIMATES." Within the context of these critical accounting estimates, we are not currently aware of any reasonably likely events or circumstances that would result in different policies or estimates being reported in the first three months of 2015.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

See Note 13, "RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS," in the Notes to Condensed Consolidated Financial Statements.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

A discussion of quantitative and qualitative disclosures about market risk may be found in Item 7A of our 2014 Form 10-K. There have been no material changes in this information since the filing of our 2014 Form 10-K.

ITEM 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Quarterly Report on Form 10-Q, we carried out an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Exchange Act Rules 13a-15(e) and 15d-15(e). Based upon that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were effective to ensure that the information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934 is (1) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (2) accumulated and communicated to management, including our Chief Executive Officer and Chief Financial

Officer, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting during the quarter ended March 29, 2015, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

We are subject to numerous lawsuits and claims arising out of the ordinary course of our business, including actions related to product liability; personal injury; the use and performance of our products; warranty matters; patent, trademark or other intellectual property infringement; contractual liability; the conduct of our business; tax reporting in foreign jurisdictions; distributor termination; workplace safety; and environmental matters. We also have been identified as a potentially responsible party at multiple waste disposal sites under U.S. federal and related state environmental statutes and regulations and may have joint and several liability for any investigation and remediation costs incurred with respect to such sites. We have denied liability with respect to many of these lawsuits, claims and proceedings and are vigorously defending such lawsuits, claims and proceedings. We carry various forms of commercial, property and casualty, product liability and other forms of insurance; however, such insurance may not be applicable or adequate to cover the costs associated with a judgment against us with respect to these lawsuits, claims and proceedings. We do not believe that these lawsuits are material individually or in the aggregate. While we believe we have also established adequate accruals for our expected future liability with respect to pending lawsuits, claims and proceedings, where the nature and extent of any such liability can be reasonably estimated based upon then presently available information, there can be no assurance that the final resolution of any existing or future lawsuits, claims or proceedings will not have a material adverse effect on our business, results of operations, financial condition or cash flows.

We conduct significant business operations in Brazil that are subject to the Brazilian federal, state and local labor, social security, tax and customs laws. While we believe we comply with such laws, they are complex, subject to varying interpretations and we are often engaged in litigation regarding the application of these laws to particular circumstances.

ITEM 1A. Risk Factors

In addition to other information set forth in this report, you should consider other risk factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2014, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K or the "CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING INFORMATION" in this Quarterly report are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently judge to be immaterial also may materially adversely affect our business, financial condition or operating results.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following information is provided pursuant to Item 703 of Regulation S-K:

Period	Issuer Purchases of Equity Securities			
	(a) Total Number of Shares Purchased ⁽¹⁾	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
January 1 - February 1, 2015	269,400	\$142.63	269,400	87,627
February 2 - March 1, 2015	727,970	136.52	725,712	87,855
March 2 - March 29, 2015	1,505	140.96	—	87,425
Total	998,875	138.18	995,112	

(1) Shares purchased represent shares under our Key Employee Stock Investment Plan established in 1969 (there is no maximum repurchase limitation in this plan) and the 2012 Board of Directors authorized \$1 billion share repurchase program.

(2) These values reflect the sum of shares held in loan status under our Key Employee Stock Investment Plan. The repurchase program authorized by the Board of Directors does not limit the number of shares that may be purchased and was excluded from this column.

We repurchased \$137 million of stock under the 2012 Board of Directors Authorized Plan during the first three months of 2015. In July 2014, our Board of Directors authorized the acquisition of up to \$1 billion of additional common stock upon the completion of the 2012 Plan.

Table of Contents

During the three months ended March 29, 2015, we repurchased 3,763 shares from employees in connection with the Key Employee Stock Investment Plan which allows certain employees, other than officers, to purchase shares of common stock on an installment basis up to an established credit limit. Loans are issued for five-year terms at a fixed interest rate established at the date of purchase and may be refinanced after its initial five-year period for an additional five-year period. Participants must hold shares for a minimum of six months from date of purchase and after shares are sold must wait six months before another share purchase may be made. We hold participants' shares as security for the loans and would, in effect repurchase shares if the participant defaulted in repayment of the loan. There is no maximum amount of shares that we may purchase under this plan.

ITEM 3. Defaults Upon Senior Securities

Not applicable.

ITEM 4. Mine Safety Disclosures

Not applicable.

ITEM 5. Other Information

Not applicable.

ITEM 6. Exhibits

See Exhibit Index at the end of this Quarterly Report on Form 10-Q.
