NOTE 1 Disclosure of Fair Value Measurements

The Company uses the following methods and inputs to establish the fair value of its assets and liabilities. Use of particular methods and inputs may vary over time based on availability and relevance as market and economic conditions evolve.

Equity securities are generally valued at the official closing price of, or the last reported sale price on, the exchange or market on which such securities are traded, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available bid price. Prices for each security are taken from the principal exchange or market in which the security trades. Securities that are unlisted and fixed-income and convertible securities listed on a national securities exchange for which the over-the-counter market more accurately reflects the securities' value in the judgment of the Company's officers, are valued at the most recent bid price. However, most fixed income securities are generally valued at prices obtained from pricing vendors. Vendors value such securities based on one or more of the following inputs: transactions, bids, offers quotations from dealers and trading systems, and relationships observed in the markets among comparable securities. Short-term corporate notes with maturities of 60 days or less are valued at amortized cost, which approximates market value.

Securities for which representative market quotations are not readily available or are considered unreliable by the Investment Adviser are valued as determined in good faith by, or under the direction of, the Board of Directors. Various inputs may be reviewed in order to make a good faith determination of a security's value. These inputs include, but are not limited to, the type and cost of the security; contractual or legal restrictions on resale of the security; relevant financial or business developments of the issuer; actively traded similar or related securities; conversion or exchange rights on the security; related corporate actions; significant events occurring after the close of trading in the security; and changes in overall market conditions. Fair valuations and valuations of investments that are not actively trading involve judgment and may differ materially from valuations of investments that would have been used had greater market activity occurred.

The Company classifies its assets based on three valuation methodologies. Level 1 values are based on quoted market prices in active markets for identical assets. Level 2 values are based on significant observable market inputs, such as quoted prices for similar assets and quoted prices in inactive markets or other market observable inputs. Level 3 values are based on significant unobservable inputs that reflect the Company's determination of assumptions that market participants might reasonably use in valuing the assets. The valuation levels are not necessarily an indication of the risk associated with investing in those securities. The following table presents the valuation levels of the Company's investments as of March 31, 2011:

Investments*	Level 1	Level 2	Level 3	Total
Common Stocks	\$ 565,654,698		\$	565,654,698
Preferred Stocks	5,367,600			5,367,600
Convertible Bonds & Debentures		\$ 5,082,500		5,082,500
Non-Convertible Bonds & Debentures		15,452,666		15,452,666
Short-Term Investments		13,414,924		13,414,924
Total Investments	\$ 571,022,298	\$ 33,950,090	\$	604,972,388

* Transfers of investments between different levels of the fair value hierarchy are recorded at market value as of the end of the reporting period. There were no transfers between Levels 1, 2, or 3 during the three months ended March 31, 2011.

NOTE 2 Federal Income Tax

The aggregate cost of investment securities was \$368,198,557 for Federal income tax purposes. Net unrealized appreciation consists of:

Gross unrealized appreciation:	\$	223,895,737
Gross unrealized depreciation:		(536,830)
Net unrealized appreciation:	\$	223,358,907

ITEM 2. CONTROLS AND PROCEDURES.

(a) The principal executive officer and principal financial officer of the registrant have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940) are effective based on their evaluation of the disclosure controls and procedures as of a date within 90 days of the filing date of this report.

(b) There have been no significant changes in the registrant's internal controls over financial reporting (as defined in Rule 30a-3(d) under the Investment Company Act of 1940) that occurred during the registrant's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal controls over financial reporting.

ITEM 3. EXHIBITS.

(a) Separate certification for the registrant's principal executive officer and principal financial officer, as required by Rule 30a-2(a) under the Investment Company Act of 1940. Attached hereto.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
