FIRST FINANCIAL BANKSHARES ANNOUNCES
FIRST QUARTER EARNINGS RESULTS

ABILENE, Texas, April 20, 2006 - First Financial Bankshares, Inc. today reported earnings for the first quarter of 2006 of \$11.47 million, compared with \$12.08 million in the same quarter last year. Basic earnings per share were \$0.55 compared with \$0.58 in the same period last year. The 2005 results included a \$3.0 million special distribution of proceeds to the Company from the merger of PULSE EFT Association and Discover Financial Services, Inc. Excluding these special proceeds, the Company's net income in the first quarter of 2006 would have increased 13.10 percent and its basic earnings per share 12.24 percent.

Net interest income for the first quarter increased 12.22 percent to \$25.65 million compared with \$22.86 million in the same quarter last year, primarily due to an increase in interest-earning assets from the acquisition in December 2005 of The First National Bank of Bridgeport. The net interest margin, on a taxable equivalent basis, was 4.41 percent for the first quarter of 2006 compared with 4.52 percent in the same period a year ago. This decrease in the net interest margin was due primarily to the flattening yield curve between short and long-term interest rates, which has put pressure on margins in recent quarters. The provision for loan losses was \$333,000 in the first quarter of 2006, down from \$410,000 in the same quarter last year.

Noninterest income in the first quarter was \$11.48 million compared with \$13.35 million in the same quarter a year earlier. However, excluding the proceeds from the PULSE/Discover transaction described above, noninterest income in the first quarter of 2005 would have been \$10.37 million, a 10.68 percent increase. Trust fees increased 7.70 percent to \$1.85 million compared with \$1.72 million in the first quarter last year. Revenue from service fees increased 5.38 percent to \$5.29 million compared with \$5.02 million a year ago. The net gain on the sale of student loans was \$1.41 million versus \$1.31 million in the same quarter last year, based on the sale of \$47 million compared to \$44 million in the first

Edgar Filing: FIRST FINANCIAL BANKSHARES INC - Form 8-K

quarter of 2005.

Noninterest expense increased 10.62 percent in the first quarter of 2006 to \$20.51 million from \$18.54 million in the same quarter last year. The increase was due primarily to additional salary, employee benefits and facilities expenses resulting from the acquisition of the Bridgeport bank and from the opening of new bank branches in Midlothian, Granbury and two in Abilene. The Company's efficiency ratio in the first quarter stood at 53.54 percent compared with 49.54 percent in the same quarter a year ago. Without the PULSE/Discover proceeds described above, the first quarter 2005 efficiency ratio was 53.82 percent. First Financial expects to realize better efficiencies as the Company brings its newly acquired banks into its template and as newly opened branches become profitable.

"We are pleased to begin the year with solid first quarter results," said F. Scott Dueser, President and Chief Executive Officer. "These came despite the continuing flat yield curve, which has put pressure on our net interest margin, and the highly competitive banking environment in Texas."

As of March 31, 2006, consolidated assets for the Company totaled \$2.76 billion compared with \$2.41 billion a year ago. Loans increased 4.66 percent to \$1.25 billion at quarter end, compared with loans of \$1.20 billion at the end of the 2005 first quarter. Total deposits rose 14.01 percent as of March 31, 2006 to \$2.37 billion from \$2.08 billion a year earlier. The acquisition of The First National Bank of Bridgeport accounted for \$65.9 million of the loan growth and \$132.0 million of the deposit growth. Shareholders' equity rose to \$280.6 million as of March 31, 2006, compared with \$266.6 million the prior year.
