EXHIBIT 99

IONICS REPORTS RESULTS FOR THE FIRST QUARTER OF 2004

Watertown, MA, May 10, 2004 . . . Ionics, Incorporated (NYSE-ION) today reported results for the three-month period ended March 31, 2004. First quarter revenues were \$107.4 million compared to \$82.6 million for the first quarter of 2003. The net loss of \$4.0 million, or (\$0.19) per share, in Q1 2004 compared to net income of \$0.6 million, or \$0.03 per share, for Q1 2003. For continuing operations, the loss per share of (\$0.06) in Q1 2004 compares to earnings per share of \$0.05 in Q1 2003. Excluding amortization of intangibles, loss per share for continuing operations of (\$0.03) compares to earnings per share of \$0.06 in the first quarter of 2003.

The results for the first quarter include a \$3.3 million charge related to Carmel Desalination Limited (CDL), an Israeli project company in which Ionics holds a 33 1/3% ownership interest. Other items included in the results were \$0.6 million of restructuring charges and \$0.6 million in systems development charges.

Also included are the consolidated results of the Ecolochem Group (acquired on February 13, 2004), and Desalcott (Desalination Company of Trinidad and Tobago Ltd.), the Company's 40% owned joint venture in Trinidad. Desalcott's results were included in the consolidated results of the Company in accordance with the provisions of FIN46. Ecolochem revenues from February 14 through the end of the quarter were \$11.9 million, and Desalcott revenues for the full quarter were \$6.9 million.

Edgar Filing: IONICS INC - Form 8-K

The CDL charge was taken as a result of the Israel Water Desalination Agency's ("WDA") notification of its intent to terminate the concession agreement with CDL. As a result, the Company recorded a charge including all assets and liabilities related to this project. The majority of the charge (\$2.5 million) relates to the Company's pro rata portion of CDL's performance bond, upon which the WDA has made a demand. Commenting on the dispute between CDL and the WDA, Douglas Brown, Ionics' CEO stated, "In our view, the failure of the CDL project was due to the failure of the Israeli government to fulfill its obligations. Among other things, the water project included a power plant which the WDA approved with our original contract award. Subsequently, the government declined the permit for the power plant, thereby substantially damaging the project's economics. Therefore, CDL has made a claim against the government, which, if successful, would allow Ionics to recover the charge we have taken this quarter. Ionics and our Israeli partners in CDL intend to vigorously pursue the recovery of these funds." The dispute between CDL and the WDA has been submitted to binding arbitration in Israel, with final resolution anticipated in the third quarter of 2004.

Backlog at the end of the first quarter was \$464.1 million and included the backlog of Ecolochem of \$52.5 million, and the net backlog of Desalcott of \$93.7 million.

Management believes that the diluted (loss) earnings per share from continuing operations excluding the amortization of intangibles is a key performance indicator, because the amortization charge is non cash and relates essentially to the Ecolochem transaction.
