REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors
Community Bancorp and Designated Subsidiaries Retirement Savings Plan

We have audited the accompanying statements of net assets available for benefits of Community Bancorp and Designated Subsidiaries Retirement Savings Plan (the Plan) as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Community Bancorp and Designated Subsidiaries Retirement Savings Plan as of December 31, 2009 and 2008 and the changes in net assets available for benefits for the year ended December 31, 2009 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplementary information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

SUBSIDIARIES RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2009 and 2008

Note 1. Description of Plan

The following description of the Community Bancorp and Designated Subsidiaries Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Community National Bank (the Bank), a subsidiary of Community Bancorp. (the Company), who have attained age 21 and have completed one year of service. Effective January 1, 2008, the Plan recognized years of service with LyndonBank and affiliated employers for purposes of eligibility and computing vesting. Under the provisions of the Plan, investment activity is directed by individual participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to the maximum amount allowed by the Internal Revenue Code (IRC). The Bank makes matching contributions equal to 50% of the participant's contributions up to five percent of annual eligible compensation. The Bank may also make additional discretionary contributions. Contributions are subject to certain limitations. After tax or ROTH contributions are accepted by the Plan.

Forfeiture Accounts

There were no unallocated forfeitures as of December 31, 2009 and 2008. Forfeitures may be used by the Bank to reduce future employer contributions. During 2009, \$6,596 of forfeitures were used to reduce the Bank's contribution.

Note 2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

As described in "Reporting on Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans", investments held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to the fully benefit responsive group annuity contract because contract value is the amount

participants would receive if they were to initiate permitted transactions under the terms of the Plan. The custodian indicates fair value approximates contract value and therefore would not be material to the financial statements.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Notes to Financial Statements

December 31, 2009 and 2008

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

All reasonable expenses of administration may be paid out of Plan assets unless paid by the Company.

Note 3. Investments

Investments that represent 5% or more of the Plan's net assets are as follows:

	2009	2008
Community Bancorp. Common Stock	\$ 3,293,334	\$ 3,300,750
Growth Fund of America, Inc.	1,320,388	961,681
American Balanced Fund	723,370	748,334
Vanguard Total Stock Market Index Fund	1,447,559	1,189,866
EuroPacific Growth Fund	1,017,735	680,170
Royce Premier Investment Fund	540,470	359,993

During 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

Mutual funds	\$1,238,674
Marketable equity securities	(185,622)
	\$1,053,052

Note 4. Fair Value Measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using level 1 inputs because they generally provide the most reliable evidence of fair value. No level 2 inputs were available to the Plan, and level 3 inputs were only used when level 1 or level 2 inputs were not available.

Level 1 Fair Value Measurements

Money market assets are valued at the net asset value of shares held by the Plan at year end. The fair value of the common/collective trust is based on the securities underlying the security backed contracts held by the trust. The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of

marketable equity securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements

Participant loans are not actively traded and significant other observable inputs are not available. Thus, the fair value of participant loans approximates the amortized cost of the loans because the loans are secured by each respective participant's account balance.

Notes to Financial Statements

December 31, 2009 and 2008

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

December 31, 2009 and 2008

The following table provides further details of the level 3 fair value measurements.

	Participant Loans	
	2009	2008
Balance, beginning of year	\$ 318,887	\$ 336,061
Issuances and settlements (net)	(47,992)	(17,174)
Balance, end of year	\$ 270,895	\$ 318,887

Note 5. Tax Status

The Plan obtained its latest determination letter dated August 23, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Note 6. Plan Termination

Although it has not expressed any intention to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 7. Party-In-Interest Transactions

Community Financial Services Group is the Plan's custodian. Community Financial Services Group is an affiliate of Community National Bank, the plan sponsor, through common ownership.

The Plan allows for participant contributions to be invested in common stock of the parent of the plan sponsor, Community Bancorp. At December 31, 2009 and 2008, the Plan held 387,541 and 366,750 shares, respectively, valued at \$3,293,334 and \$3,300,750, respectively.

There were no party-in-interest transactions which are prohibited by ERISA Section 406 and for which there is no statutory or administrative exemption.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Subsequent Events

For purposes of accrual or disclosure in these financial statements, the Company has evaluated subsequent events through the date of issuance of these financial statements.
