ITEM 2.02. Results of Operations and Financial Conditions.

On March 15, 2006, ION Networks Incorporated (the Company) issued a press release in which it announced its financial results for the year ended December 31, 2005.

The Company's net sales for the year ended December 31, 2005 were \$4,558,000 compared to \$3,616,000 for the previous year. The Company posted net income of \$182,000 or \$0.01 per share for 2005 compared to a net loss of \$250,000 or a loss of \$0.01 per share for 2004.

Gross margin grew from \$2,199,000 in 2004 to \$3,015,000 in 2005. This 37% increase in gross margin was due to several factors including increased revenues due to volume gains, lower costs related to new products, operating efficiencies and reduced amortization of capitalized software costs offset in part by reduction in selling prices. Operating expenses including selling, general & administrative expenses, research & development and depreciation expenses increased from \$2,970,000 in 2004 to \$3,187,000 in 2005, a \$217,000 increase. This 7% increase was due primarily to higher salary-related expenses with increased commissions and incentive compensation based on higher net sales, offset in part by reduced professional services and insurance expenses. The Company's benefit from restructuring activities declined to \$60,000 for the year ended December 31, 2005 from \$181,000 for the year ended December 31, 2004, while the benefit from sale of income tax benefits declined from \$323,000 in 2004 to \$299,000 in 2005.

A copy of the press release issued by the Company is included as an Exhibit to this Current Report on Form 8-K.
