**STOCK EXCHANGE CODE: TELMEX QUARTER: 4 YEAR: 2009**

**TELÉFONOS DE MÉXICO, S.A.B. DE C.V.**

**ANNEX 1**

**CHIEF EXECUTIVE OFFICER REPORT**

Consolidated

Final printing

**--Highlights**

**Fourth Quarter 2009**

- At year-end 2009 we had 15.882 million lines, including 703 thousand public telephony lines and 1.7 million social telephony lines. The year-end total for the first time excludes lines on which payments were behind by at least two months. That action reduced the number of lines by 1.2 million. The year-end 2008 total included 1.1 million lines on which payments were behind by at least two months.

- In the Mexican telecommunications market, including cellular telephony and services provided by other fixed-line operators, TELMEX has 15.8% of total lines and is the third operator in the market in terms of lines after Telcel and Telefónica. TELMEX has 80.6% of fixed lines, below the average of 85.3% for 35 countries worldwide included in the *Bank of America/ Merrill Lynch Global Wireline Matrix*.

- During the fourth quarter, we continued growth, but at a lower pace in broadband Infitum (ADSL) services, the fastest connection, with a gain of 221 thousand services, bringing the total to 6.5 million customers. Compared with December 2003, the speed of Internet services has multiplied 100 times from 56 Kbps to more than 5 Mbps. In that period the number of customers has increased more than 36 times and the price per kilobyte in packages has decreased 48 times.

- This growth has been driven by installment sales of more than 2.5 million computers since 1999. The lack of computers in Mexican homes is the main limitation for higher broadband growth, which also is slowed by the shortage of domestic applications and content on the Internet.

- Based on the last report from Teligen (November, 2009), the OECD's tariff consultant, Mexico continues to be one of the countries with the lowest telephony prices in all of the OECD, resulting from TELMEX's policy of supporting the country's and consumers' economic well-being by reducing its prices for the last 10 years in real terms.

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

- TELMEX has decided to reduce the prices of its packages that include Infinitum, Internet access through broadband and various voice services for discounted prices in spite of new taxes (a special telecommunications tax of 3% and a 1% increase in the value added tax).

- At TELMEX, one of our main commitments is to promote penetration and access to broadband services. The **TELMEX 2010 program –Driving Technological Innovation** positions Teléfonos de México as the main promoter of connectivity, education and digital culture and the development of information technologies in our country, supported by our world-class network along with the company's highly trained personnel. The program comprises the following:

- Increase connectivity in the country: TELMEX will contribute so the country reaches 12 million broadband accesses in the next three years, including all technologies and all providers, with the result that more than half of the population will be able to access the Internet. Additionally, this year, Infinitum's access speed will be increased while maintaining the quality, continuity and speed consistency that characterize this service. The number of sites with Infinitum Móvil will be doubled to reach 3,000 nationwide this year.

- Enhance Information Technologies: Start the operation of the **Instituto Tecnológico de Teléfonos de México en Tecnologías de la Información (Inttelmex IT)**, (TELMEX's Technological Institute of Information Technologies) to expand training (of 1,000 professionals) in the application of information technologies.

- Support Education and Digital Culture: Through the operation of 3,300 Bibliotecas Digitales TELMEX (TELMEX Digital Libraries) and 1,000 Aulas Digitales TELMEX (TELMEX Digital Classrooms) at year-end 2010.

- Revenues in the fourth quarter totaled 29.7 billion pesos, a decrease of 3.9% compared with the same period of the previous year. Revenues related to corporate networks services increased 43.1% and Internet access revenues increased 13.6%. Local, long distance and interconnection revenues decreased 8.5%, 20.8% and 16.4%, respectively.

- In the fourth quarter, EBITDA (1) totaled 12.2 billion pesos, producing a margin of 41.2%. Operating income totaled 7.8 billion pesos, with a margin of 26.1%.

- Net income from controlling interest in the quarter totaled 5.0 billion pesos, 67.7% higher than the fourth quarter of 2008. For the fourth quarter, earnings per share were 27 Mexican cents, 68.8% higher than the same year-earlier period, and earnings per ADR (2) were 41 US cents, an increase of 64.0% compared with the fourth quarter of 2008.

- At December 31, 2009, total debt was the equivalent of 7.878 billion dollars. Total net debt (3) was equivalent to 6.777 billion dollars, 678 million dollars less than December 31, 2008.

- In the fourth quarter, capital expenditures (Capex) were the equivalent of 124 million dollars and for the twelve months, Capex was the equivalent of 661 million dollars. From October to December, the company used 1.045 billion pesos to repurchase 91 million 969 thousand of its own shares.

(1) EBITDA: defined as operating income plus depreciation and amortization. Go to [www.telmex.com](http://www.telmex.com) in the Investor Relations section where you will find the reconciliation of EBITDA to operating income.

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

(2) One ADR represents 20 shares.

(3) Net debt is defined as total debt less cash and cash equivalents and marketable securities.

### Relevant Event

#### TELMEX Shareholders' Meeting Resolutions

On December 1, 2009, TELMEX's Ordinary Shareholders' Meeting approved the payment of a special cash dividend of 0.40 Mexican pesos per outstanding share in a single payment made in Mexico on or after December 17, 2009, resulting from unappropriated earnings. For holders of American Depositary Shares, the payment date was December 24, 2009.

### Operating Results

#### Lines and local traffic

At year-end 2009 we had 15.882 million lines, including 703 thousand public telephony lines and 1.7 million social telephony lines. The year-end total for the first time excludes lines on which payments were behind by at least two months. That action reduced the number of lines by 1.2 million. The year-end 2008 total included 1.1 million lines on which payments were behind by at least two months.

In the Mexican telecommunications market, including cellular telephony and services provided by other fixed-line operators, TELMEX has 15.8% of total lines and is the third operator in the market in terms of lines after Telcel and Telefónica. TELMEX has 80.6% of fixed lines, below the average of 85.3% for 35 countries worldwide included in the *Bank of America/ Merrill Lynch Global Wireline Matrix*.

During the fourth quarter, local calls decreased 7.7% compared with the same period of 2008, totaling 5 billion local calls. Local traffic volume continues to be affected mainly by the increase in cellular telephony services, which is changing our customers' consumption habits, by the reduction in the number of lines and by competition from other operators.

#### Long distance

In the fourth quarter, domestic long distance (DLD) traffic decreased 2.3% compared with the previous year's fourth quarter, totaling 4.810 billion minutes, in spite of the fact that there was growth of multi-service package offerings that include DLD minutes and an increase in termination traffic from other long distance operators. These positive contributions were offset by the decrease in termination traffic with cellular telephony operators.

In the quarter, outgoing international long distance (ILD) traffic decreased 26.8% compared with the year-earlier fourth quarter, totaling 307 million minutes. The decline reflected a decrease in traffic from mobile operators and the slowdown of economic activity in the country. Incoming international long distance traffic decreased 0.7% compared with the same period of the previous year, totaling 1.760 billion minutes. The incoming-outgoing ratio was 5.7x.

#### Interconnection

In the fourth quarter, interconnection traffic totaled 10.678 billion minutes, 6.8% lower than the same quarter of 2008, mainly due to the decrease of 13.0% in calling party pays traffic. Interconnection traffic with local, long distance and cellular telephony operators decreased 4.9%.

#### Internet access

During the fourth quarter, we continued growth, but at a lower pace in broadband Inifinitum (ADSL) services, the fastest connection, with a gain of 221 thousand services, bringing the total to 6.5 million customers. Compared with December 2003, the speed of Internet services has multiplied 100 times from 56 Kbps to more than 5 Mbps. In that period the number of customers has increased more than 36 times and the price per kilobyte in packages has decreased 48 times.

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

This growth has been driven by installment sales of more than 2.5 million computers since 1999. The lack of computers in Mexican homes is the main limitation for higher broadband growth, which also is slowed by the shortage of domestic applications and content on the Internet.

TELMEX has decided to reduce the prices of its packages that include Infinitum, Internet access through broadband and various voice services for discounted prices in spite of new taxes (a special telecommunications tax of 3% and a 1% increase in the value added tax).

### Financial Results

The following financial information for 2009 and 2008 is presented in nominal pesos, according to Mexican Financial Reporting Standards.

**Revenues** In the fourth quarter revenues totaled 29.7 billion pesos, a decrease of 3.9% compared with the same period of the previous year. Revenues related to corporate networks services increased 43.1% and Internet access revenues increased 13.6%. Local, long distance and interconnection revenues decreased 8.5%, 20.8% and 16.4%, respectively.

- **Local:** Local service revenues totaled 10.799 billion pesos in the fourth quarter, a decrease of 8.5% compared with the same quarter of 2008, due to decreases of 6.2% in revenue per local billed call and 7.7% in local traffic volume.
- **DLD:** In the quarter, DLD revenues totaled 3.298 billion pesos, 7.6% lower than the fourth quarter of 2008, because of the 2.3% decrease in traffic and the 5.5% decline in average revenue per minute, reflecting increased penetration of multi-service packages that include long distance service.
- **ILD:** ILD revenues totaled 1.436 billion pesos in the quarter, a decrease of 40.3% compared with the same period of the previous year. Contributing factors included the 26.8% decrease in outgoing traffic reflecting, among other things, the decrease in the country's economic activity as well as the 2.7% decrease in average revenue per minute. Incoming international long distance traffic revenues totaled 534 million pesos, a decrease of 53.2% compared with the fourth quarter of the previous year, due to the decline of 52.9% in average revenue per minute and the decrease of 0.7% in incoming traffic.
- **Interconnection:** In the quarter, interconnection revenues decreased 16.4% to 3.974 billion pesos compared with the fourth quarter of 2008, due to the 13.0% decline in calling party pays services and the decrease of 6.1% in average revenue of these services, as well as the 7.5% decrease in interconnection traffic with local and long distance operators.
- **Internet access:** Revenues from Internet access in the fourth quarter totaled 4.175 billion pesos, 13.6% higher than the prior year's fourth quarter due to the increase of 27.5% in Internet access services, offset by lower average unit revenue for broadband Infinitum services.
- **Corporate networks:** Due to the increase in services from VPN (Virtual Private Networks) and the integration of value-added services into our portfolio of products and services for the corporate market, the corresponding revenues increased 43.1% compared with the same period of the previous year, totaling 4.641 billion pesos.

**Costs and expenses:** In the fourth quarter, total costs and expenses were 21.971 billion pesos, 1.2% higher than the same period of the previous year, mainly due to higher costs of equipment for customer sales and to the increase in the reserve for uncollectables, partially offset by lower interconnection costs resulting from the decrease of 9.9% in the amount paid to cellular telephony operators for calling party pays services and by initiatives to optimize resource use.

- **Cost of sales and services:** In the fourth quarter, cost of sales and services increased 7.5% compared with the same period of 2008, totaling 9.290 billion pesos, due to higher costs related to services for corporate customers and computer sales at Tiendas TELMEX (TELMEX Stores).
- **Commercial, administrative and general:** In the fourth quarter, commercial, administrative and general expenses totaled 5.333 billion pesos, 2.0% higher than the year-ago fourth quarter, mainly due to an increase in the reserve for uncollectables primarily from bad accounts from some telecommunications operators.
- **Interconnection:** Interconnection costs totaled 2.883 billion pesos, a decrease of 14.2% compared with the fourth quarter of 2008 due to the 9.9% decrease in the amount paid to cellular telephony operators for calling party pays services and the decrease in calling party pays traffic.
- **Depreciation and amortization:** In the fourth quarter, depreciation and amortization decreased 0.4% compared with the same period of 2008, to 4.465 billion pesos.

**EBITDA (1) and operating income:** EBITDA (1) totaled 12.241 billion pesos in the fourth quarter, a decrease of 10.9% compared with the same period of the previous year. The EBITDA margin was 41.2%. Operating income totaled 7.776 billion pesos in the fourth quarter and the operating margin was 26.1%.

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

**Financing cost:** In the fourth quarter, financing cost produced a charge of 1.221 billion pesos. This resulted from: i) a net interest charge of 1.276 billion pesos, which includes the recognition of the market value of interest rate swaps, partially offset by the decrease in interest paid due to lower debt and ii) a net exchange gain of 55 million pesos from the fourth-quarter exchange rate appreciation of 0.4455 pesos per dollar and 4.423 billion dollars in dollar-peso hedges at year-end 2009.

**Net income from controlling interest:** In the fourth quarter, net income from controlling interest totaled 4.995 billion pesos, 67.7% higher than the same period of the previous year. Earnings per share were 27 Mexican cents, 68.8% higher than the same quarter of 2008, and earnings per ADR (2) were 41 US cents, an increase of 64.0% compared with the same period of the prior year.

**Investments and other uses of cash:** In the fourth quarter, capital expenditures (Capex) were the equivalent of 124 million dollars and for the twelve months, Capex was the equivalent of 661 million dollars, of which 67.4% was used for projects in the data and connectivity platform and transmission networks, and the rest for operational support projects.

**Debt:** Total debt at December 31, 2009, was the equivalent of 7.878 billion dollars, of which 80.8% is long-term, 49.6% has fixed rates considering interest rate swaps, and 67.7% is in foreign currency, equivalent to 5.336 billion dollars. To minimize risks from variations in the exchange rate, at the end of December we had dollar-peso hedges for 4.423 billion dollars.

Total net debt (3) decreased during the last twelve months the equivalent of 678 million dollars, bringing the total to 6.777 billion dollars.

**Repurchase of shares:** During the fourth quarter, the company used 1.045 billion pesos to repurchase 91 million 969 thousand of its own shares.

### Mexico Local and Long Distance Accounting Separation

**Based on Condition 7-5 of the Amendments of the Concession Title of Teléfonos de México, the commitment to present the accounting separation of the local and long distance services is presented below for the fourth quarter of 2009 and 2008.**

(Figures in thousands of Mexican pesos)

**RECOGNITION OF THE EFFECTS OF INFLATION**

From January 1, 2008, Mexican FRS B-10 "Effects of Inflation", replaced Mexican accounting Bulletin B-10 "Accounting Recognition of the Effects of Inflation on Financial Information". Based on Mexican FRS B-10, the economic environments in Mexico in 2009 and 2008 have been qualified as non-inflationary, due to inflation in the preceding three fiscal years was 15.01% and 11.56%, respectively. Therefore, during 2009 and 2008 the effects of inflation on financial information of this period were not recognized, keeping the effects of inflation recognized up to December 31, 2007.

**BALANCE SHEET**

**S 23 AND S 28 BANK LOANS**

Internet access

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

In this item are included the bank credits related to purchase programs to suppliers that have been traditionally reported in the suppliers' credits item of the Balance Sheet because long-term caption to suppliers does not exist in EMISNET.

TELMEX entered into a syndicated loan agreement in 2004, which was restructured in 2005 and 2006 to improve the credit conditions and increase the total loan amount to 3 billion dollars divided in three tranches, the first one for 1.3 billion dollars with a three-year maturity, the second one for 1 billion dollars with a five-year maturity years and the third one for 700 million dollars with a seven- year maturity. In August 2009, TELMEX prepaid the total amount of the first tranche, which original maturity was scheduled for October 2009.

On June 30, 2006 Telmex entered into a syndicated loan agreement in the amount for 500 million dollars divided into two tranches of 250 million dollars each, with a four-year and six-year maturity, respectively.

### **S 24 AND S 29 SENIOR NOTES**

On November 19, 2003, TELMEX issued a bond for U.S.\$ 1.0 billion due November 2008, with an annual interest of 4.5%. Interests were payable semiannually. In November 2008, the Company repaid the outstanding balance of this bond.

On January 27, 2005 and with a reopening on February 22, 2005, TELMEX placed senior notes in the total amount of U.S.\$1.75 billions divided into two issuances of U.S.\$ 950 million and U.S.\$ 800 million, respectively, the first one maturing in 2010 and bearing interest at 4.75% annual and the second one maturing in 2015 and bearing interest at 5.50% annual. Interests are payable semiannually.

On January 26, 2006, TELMEX placed abroad a senior note in the amount of Ps. 4,500,000 (nominal value), maturing in 2016 and bearing interest at 8.75% annual. Interests are payable semiannually.

On November 12, 2009, TELMEX issued a bond for U.S.\$500 million due 2019 with an annual interest of 5.5%, interests are payable semiannually.

On September 30, 2005, TELMEX obtained approval for a long-term domestic senior notes program in the amount of Ps.10,000,000 (nominal value). As of April 30, 2007, domestic senior notes had been issued for the total amount authorized under this program.

In December 2007, TELMEX obtained approval for a long-term domestic senior notes program in the amount of Ps.10,000,000 (nominal value). In April 2008, domestic senior notes were placed in the amount of Ps.1,600,000. On July 8, 2009, two issuances of domestic senior notes were made under this program for a total amount of Ps.8,000,000.

In September 2009, TELMEX obtained approval for a dual program to issue short and long-term domestic senior notes in the total amount of P. 15,000,000 (nominal amount). On November 3, 2009, two issuances of domestic senior notes were made under this program for a total amount of Ps.6,000,000.

### **S 29 SENIOR NOTES (LONG-TERM)**

As of December 31, 2009 and 2008, this item rose to \$ 47,355,416 and \$ 40,070,364, respectively, and is comprised as follows:

	2009	2008
Domestic Senior Notes	Ps. 25,900,000	Ps. 11,900,000
Bonds	16,955,416	23,670,364
Global peso Senior Notes	Ps 4,500,000	4,500,000

### **S 42 RETAINED EARNINGS AND CAPITAL RESERVES**

On March 3, 2009 the Annual Ordinary Shareholders' Meeting approved to increase in Ps. 10,000,000 (nominal value), the funds authorized to repurchase its own shares, bringing the total maximum amount to Ps. \$ 10,340,868 (nominal value).

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

From January through December 2009, the Company acquired 361.2 million L shares for Ps. 4,073,625 and 1.9 million A shares for Ps. 21,695.

From January through December 2008, the Company acquired 796.7 million L shares for Ps. 12,764,130 and 8.6 million A shares for Ps. 107,712.

The Company's repurchased shares are applied to unappropriated retained earnings, in the amount exceeding the portion of the capital stock, corresponding to the repurchased shares.

### **S 104 EMPLOYEES BENEFITS**

This item includes the projected net assets as of December 31, 2009 and 2008 pursuant to Mexican FRS D-3 "Employees Benefits".

### **S 87 OTHERS**

In this item there are included the inventories for telephone plant operation, which are valued by the average cost method and up to December 31, 2007 were updated based on the specific index method which is similar to its replacement value, without exceeding their market value.

### **S 58 OTHER CURRENT LIABILITIES**

As of December 31, 2009 and 2008, this item rose to Ps. 8,932,547 and Ps. 10,899,412 respectively and is comprised as follows:

	2009	2008
Accounts payable	Ps. 6,024,730	Ps. 8,407,821
Other accrued liabilities	1,803,642	711,476
Deferred credits	1,104,175	1,780,115

### **S 91 EMPLOYEE BENEFITS**

This item includes liabilities for deferred employee profit sharing and actuarial obligations for labor termination as of December 2009 and 2008, pursuant to Mexican FRS D-3 and Bulletin D-3, respectively.

### **RATIOS**

#### **P 08 INVENTORY TURNOVER RATE-COST**

EMISNET automatically calculates the inventory turnover rate by dividing the cost of sales and services (Ref. R 02) by the inventories for sale (Ref. S 06), affecting the actual inventory turnover rate.

### **RECLASIFICATIONS**

Certain 2008 financial statements have been reclassified to conform with the presentation used for the year 2009.

**Notes:****A.- Interest rates:**

The credits breakdown is presented with an integrated rate as follows:

- (1) 6 months USD Libor rate plus margin
- (2) 3 months USD Libor rate plus margin
- (3) Fixed Rate
- (4) 28 days TIIE rate plus margin
- (5) 91 days TIIE rate plus margin
- (6) 3 months JPY LIBOR plus margin

B.- The following rates were considered:

- Libor at 6 months in US dollars is equivalent to 0.4297 at December 31, 2009
- Libor at 3 months in US dollars is equivalent to 0.2506 at December 31, 2009
- TIIE at 28 days is equivalent to 4.9150 at December 31, 2009
- TIIE at 91 days is equivalent to 5.0750 at December 31, 2009
- Libor at 3 months in JPY is equivalent to 0.2775 at December 31, 2009

C.- The suppliers' Credits are reclassified to Bank Loans because in this document, Emisnet, Long-Term opening to Suppliers' does not exist.

D.- Liabilities in foreign currency were exchanged at the prevailing exchange rate at the end of the reporting period, which at December 31, 2009 were as follows:

CURRENCY	AMOUNT	E.R.
DOLLAR (USD)	5,103,362	13.06
EURO (EUR)	12,722	18.74
JAPANESE YEN (JPY)	19,891,200	0.14

**RESTRICTIONS**

Part of the long-term debt is subject to certain restrictive covenants with respect to maintaining certain financial ratios and the sale of assets, among others.

A portion of the debt is also subject to early maturity or repurchase at the option of the holders in the event of change of control of the Company, as defined in the related instruments. The definition of change of control varies from instrument to instrument; however, no change in control shall be considered to have occurred as long as Carso Global Telecom, S.A.B. de C.V. (TELMEX's controlling company) or its current stockholders continue to hold the majority of the Company's voting shares.

**CURRENT SITUATION**

At December 31, 2009, the Company has complied with such restrictive covenants.

## TRANSACTIONS IN FOREIGN CURRENCY AND EXCHANGE OF FINANCIAL STATEMENTS FROM FOREIGN OPERATIONS

Consolidated

---

**Exchange rate variations**

Transactions in foreign currencies are recorded at the exchange rate applicable at the time of its occurrence. The assets and liabilities in foreign currencies are valued at the exchange rate of the balance sheet date. The exchange rate differences between the execution date and the payment date, as well as those arising from the conversion of balances denominated in foreign currencies at the date of the financial statements, are applied to results.

**Translation of financial statements of foreign companies**

The financial statements of subsidiaries and associated companies located abroad are consolidated or the method of participation is recognized, as appropriate, after the financial statements are translated into the Mexican financial reporting standards in the relevant local currency, and conversion to the report currency. The conversion of monetary assets and liabilities in the financial statements of our associate and subsidiary, were translated into Mexican pesos at the exchange rate prevailing at year-end, stockholders' equity accounts at the exchange rate prevailing on the date the capital contributions were made and profits were generated; revenues, costs and expenses to the historical exchange rate and the difference resulting from the conversion process is recognized in the "Effect of conversion of foreign entities" which is included in the stockholders' equity, "other items of income earned" section.

**Derivative Instruments**

As of December 31, 2009, Teléfonos de México, S.A.B. de C.V. (the "Company") had cross currency swap agreements in the equivalent of U.S.\$ 4,178 million, which have hedged the exchange rate and interest rate risks related to the bonds with maturity in 2010 and 2015 for a total amount of U.S.\$ 1,495 million and bank loans with maturity from 2010 to 2018 for a total amount of U.S.\$ 2,683 million. These hedges allowed us to fix the exchange rate of our debt on a weighted average exchange rate of \$ 10.5892 Mexican pesos per US dollar, as well as to partially set a fixed rate with a range between 7.52% for bonds maturing in 2010 and 8.57% for bonds maturing in 2015 and for other cases, an average interest rate of 28-day TIIE less 26 basis points. During this quarter we did not have any early termination on cross currency swaps agreements.

At the end of the fourth quarter, the Company had forward agreements for U.S.\$ 245 million at a weighted average exchange rate of \$ 13.2812 Mexican pesos per dollar. These agreements hedged partially a U.S.\$ 950 million bond with maturity on January 2010.

Additionally, the Company had interest rate swaps in Mexican pesos for Ps.\$23,752 million to hedge the floating rate risk in local currency fixing it at an average of 8.19%.

These transactions have been carried out based on the Company's policies, strategies and guidelines that are explained below.

I. Qualitative and quantitative Information

**i. Policies for using derivative instruments**

**Objective to enter into derivative transactions and selected instruments**

With the purpose of reducing the risks related to the variations of exchange rate and interest rate, the Company uses derivative instruments connecting the hedges to the contracted debt. The derivative instruments that have been selected are mainly:

- (a) instruments for purchasing US dollars at a specified future time (forwards);
- (b) instruments that involve the exchange of principal and interest from one currency to another (cross currency swaps); and
- (c) instruments to fix the floating interest rates of the debt (interest rate swaps).

**Hedge strategies**

When the market conditions are favorable, the Company's Management determines the amounts and objective parameters considered in the hedging agreements. This strategy seeks to reduce the risk exposure of abnormal fluctuations in the market of the main variables that affect our debt, including exchange rate and interest rate, to maintain a solid and healthy financial structure.

These strategies of hedging financial risks are included in the Corporate Governance Guidelines adopted by the Company, and its application is authorized by the Audit Committee.

**Trading markets and eligible counterparts**

The financial institutions and counterparts with which the Company enters into such derivative instruments are considered to have a proven reputation and solvency in the market, which allows us to balance our risk positions with such counterparts. Also, the Company only uses derivative instruments that are of common use in the markets, and therefore, can be quoted by two or more financial institutions to assure the best conditions in the negotiation.

**Policies for the appointment of calculation and valuation agents**

Given that the Company uses derivative instruments of common use in the market, it appoints a third party that is responsible to provide the market price of such instruments. These prices are compared by the Company with the ones provided by the financial intermediaries; and, in certain transactions, the counterpart is able to act as valuation agent under the applicable documentation if it is a financial institution with a proven reputation.

**Main terms and conditions of the agreements**

It is a policy of the Company that the amount, date and interest rate conditions of the debt to be hedged, if possible, have to coincide with the terms of the hedges, that is usual for this type of transactions in the different markets where it operates. All the transactions with derivative instruments are made under the ISDA Master Agreement (International Swap Dealers Association) standardized and duly executed by the legal representatives of the Company and the financial institutions, and in the case of counterparts in México, pursuant to the uses and practices of the market in our country.

**Margin policies, collaterals and lines of credit**

In some cases, the Company has entered into an accessory agreement to the ISDA Master Agreement with the financial institutions, the Credit Support Annex, which sets forth an obligation to grant collaterals for margin calls in case the mark-to market value exceeds certain established credit limits (threshold amount). The Company has the policy to keep a close watch of the volume of the transactions entered with each financial institution in order to avoid, if possible, any margin call.

## Edgar Filing: TELEFONOS DE MEXICO S A B DE C V - Form 6-K

### Processes of levels of authorization required by type of negotiation

The strategy for hedging financial risks is discussed and approved by the Audit Committee. Subsequently, the Board of Directors is informed for its knowledge and ratification. The Treasury is in charge of its implementation and is supervised by the Company's Chief Financial Officer.

### Existence of an independent third party that reviews such processes

Both, the fulfillment of the Corporate Governance Guidelines and the measurement of effectiveness of the derivative instruments, to comply with the financial reporting standards, are discussed with the external auditors that validate the correct accounting application of the effect of such instruments in the income statement and the balance sheet.

### ii. Generic description of the valuation techniques

As previously stated, derivative instruments are carried out by the Company only for hedging purposes. The measurement of the effectiveness of the hedges is made in a prospective and retrospective manner. For the prospective valuation, we use statistic techniques that allow us to measure in what proportion the change in the value of the hedged debt (primary position) is compensated by the change in the value of the derivative instrument. The retrospective valuation is made by comparing the historic results of the debt flows with the flows of the respective hedges.

### iii. Internal and external liquidity sources to meet the requirements related to derivative instruments

It is estimated that the Company's cash generation has been enough to service debt and the established derivative instruments to hedge the risks associated with such debt.

### iv. Changes in the exposure to the main identified risks and its management

The identified risks are those related to the variations of the exchange rate and interest rate. Given the direct relationship between the hedged debt and the derivative instruments and that they do not have any variables that could affect or terminate the hedge in advance, the Company does not foresee any risk that such hedges could differ from the original purpose for which the hedges were established.

In the fourth quarter of 2009, it was recognized in the statements of income a net charge of Ps. 2,276 million and an accrued net charge at the end of December of Ps. 2,135 million for exchange rate hedges. Furthermore, it was recognized in the statements of income a net charge of Ps. 421 million and an accrued net charge at the end of December of Ps. 2,057 million for interest rate hedges.

During the fourth quarter, there have not been any margin calls.

To date, there has not been any breach in the terms and conditions of the respective agreements.

### v. Quantitative information

See TABLE 1 attached.

## II. SENSITIVITY ANALYSIS

In the case of the Company, the sensitivity analysis does not apply for the derivative instruments, since they are only carried out for hedging purposes.

\*) Of our hedge agreements, 65% of the total hedge amount include margin calls when the market value exceeds the amounts of the lines of credit that we have for the amount of USD \$ 290 million.

(1) These swaps, hedge the debt position in US dollars, with the obligation of paying floating rate in Mexican pesos at an average of TIIE less 26 basic points and with an average life of 3 years.

(2) This forward position mainly hedges debt position in US dollars with maturity in January 2010.

(3) This swap, hedge debt position in Yens with the obligation of paying in Mexican pesos \$ 2,000 million (equivalent to USD \$ 214 million) at a floating rate and mature on February 2014.

(4) These swaps hedge the interest payment of debt in US dollars, with the obligation of paying floating rate in Mexican pesos at an average of TIIE less a margin and with maturities up to 2010.

(5) These agreements hedge debt position in Mexican pesos at a floating rate, fixing it at an average of 8.19% and with an average life of 5 years.
