RARE Hospitality International, Inc.
Notes to Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

The consolidated financial statements of RARE Hospitality International, Inc. and subsidiaries (the Company) as of April 1, 2001 and December 31, 2000 and for the quarters ended April 1, 2001 and April 2, 2000 have been prepared by the Company pursuant to the rules and regulations of

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

the Securities and Exchange Commission. The information furnished herein reflects all adjustments (consisting of normal recurring accruals and adjustments), which are, in the opinion of management, necessary to fairly present the operating results for the respective periods. Certain information and footnote disclosures normally presented in annual financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2000.

The Company's fiscal year is a 52- or 53-week year ending on the last Sunday in each calendar year. Each of the four fiscal quarters is typically made up of 13 weeks; however, since fiscal 2000 was a 53-week period, the first quarter of 2000 contained 14 operating weeks compared to 13 operating weeks in the first quarter of 2001.

2. Shareholder Equity

In February 2001, the Company completed an offering of 2,300,000 shares of its no par value common stock at \$26.00 per share. Total net proceeds to the Company were approximately \$57.6 million. Of those proceeds, the Company used approximately \$56.5 million to repay amounts outstanding under its \$100 million revolving line of credit, and approximately \$1.1 million to pay a non-recurring pre-tax expense associated with amending its interest rate swap agreements to fix the interest rate on amounts expected to be outstanding under the Company's credit facility following application of these proceeds.

3. New Accounting Pronouncement

In June 1998, the Financial Accounting Standards Board issued SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. SFAS No. 133, as amended by SFAS Nos. 137 and 138, establishes accounting and reporting standards for derivative instruments and hedging activities. It requires an entity to recognize all derivatives as either assets or liabilities in the statement of financial position and to measure those instruments at fair value. The Company has historically used interest rate swap agreements to effectively fix the interest rate on variable rate borrowings under its \$100 million revolving credit facility. These interest rate swap agreements are classified as a hedge of a cash flow exposure under SFAS No. 133; and accordingly, the initial fair value and subsequent changes therein are reported as a component of other comprehensive loss and subsequently reclassified into earnings when the forecasted cash flows affect earnings. The Company adopted SFAS No. 133 beginning January 1, 2001. As a result of adopting this new accounting standard, the Company recorded a net transition adjustment of \$624 thousand (\$1,006,000 million transition adjustment loss net of related tax benefit of \$382 thousand) in accumulated other comprehensive loss at January 1, 2001. Concurrent with the completion of the February 2001 common stock offering, the Company amended its interest rate swap agreements to fix the interest rate on future amounts under the Company's credit facility. The Company paid approximately \$1.1 million resulting in an after-tax expense of \$682 thousand associated with amending the interest rate swap agreements to reduce the notional principal to amounts equal to the variable rate debt expected to be outstanding in the future under the Company's credit facility. The repayment of amounts outstanding under the credit agreement combined with the termination of the associated hedge created an ineffective hedge relationship, which is reported in earnings immediately; accordingly, the \$1.1 million payment to terminate a portion of the swap agreements is reported as a non-recurring expense in the first quarter.

4. Long-Term Debt

In connection with the Company's February 2001 common stock offering, the Company repaid approximately \$56.5 million of the amount outstanding under its \$100 million revolving line of credit, and used approximately \$1.1 million to pay a non-recurring pre-tax expense associated with amending its interest rate swap agreements to fix the interest rate on amounts expected to be outstanding under the Company's credit facility following its application of these proceeds. After amending the interest rate swap agreements, the Company had effectively fixed the interest rate at 6.52%, plus the applicable margin, on \$0 through June 2001; \$10.0 million from July 2001 through June 2002; \$15.0 million from July 2002 through March 2003; and \$17.5 million from April 2003 through August 2004. At April 1, 2001, \$5 million was outstanding under the Company's \$100 million revolving credit agreement at a weighted average interest rate of 6.8125%.

5. Income Taxes

Income tax expense for the three months ended April 1, 2001 has been provided for based on an estimated 33% effective tax rate expected to be applicable for the full 2001 fiscal year as adjusted for the tax benefit associated with the expense related to early termination of an interest rate swap agreement. The effective income tax rate on pretax earnings is lower than the statutory federal income tax rate of 35% primarily due to employee FICA tip tax credits and work opportunity tax credits (both reductions in income tax expense), partially offset by state income taxes.

6. Earnings Per Share

The Company effected a three-for-two stock split in the form of a 50% stock dividend paid on September 5, 2000 to shareholders of record on August 15, 2000. All references to the number of common shares and common share amounts have been restated to give retroactive effect to the stock split for all periods presented.

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

Basic earnings per common share equals net earnings divided by the weighted average number of common shares outstanding and does not include the dilutive effect of stock options or restricted stock. Diluted earnings per common share equals net earnings divided by the weighted average number of common shares outstanding, after giving effect to dilutive stock options and restricted stock. A reconciliation between basic and diluted weighted average shares outstanding and the related earnings per share calculation is presented below (in thousands, except per share amounts):

	13 Weeks Ended April 1, 2001 ----	14 E Apr 2 -
Net earnings	\$8,551 =====	\$6 ==
Basic weighted average shares outstanding	20,042	18

Diluted weighted average shares outstanding	----- 21,616 =====	----- 18 ==
Basic earnings per common share	\$ 0.43 =====	\$ ==
Diluted earnings per common share	\$ 0.40 =====	\$ ==

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Quarter ended April 1, 2001 compared to quarter ended April 2, 2000

Revenues

The Company currently derives all of its revenues from restaurant sales and franchise revenues. Total revenues increased 12.0% to \$135.0 million for the first quarter of 2001 compared to \$120.6 million for the first quarter of 2000.

The Company's fiscal year is a 52- or 53-week year ending on the last Sunday in each calendar year. Each of the four quarters is typically made up of 13 weeks; however, since fiscal 2000 was a 53-week period, the first quarter of 2000 contained 14 weeks, compared to the 13 weeks in the first quarter of 2001. This additional week had an unfavorable effect on the Company's revenue comparisons and operating results for the first quarter of 2001 compared to the prior year.

Same store sales comparisons for each of the Company's restaurant concepts for the quarter ended April 1, 2001, consist of sales at restaurants opened prior to June 28, 1999.

LongHorn Steakhouse:

Sales in the LongHorn Steakhouse restaurants for the quarter increased 13.3% to \$96.6 million for the first quarter of 2001 compared to \$85.2 million for the first quarter of the prior year. The increases reflect a 7.6% increase in restaurant operating weeks in the first quarter of 2001 as compared to the prior year, resulting from an increase in the restaurant base from 124 LongHorn Steakhouse restaurants at the end of the first quarter of 2000 to 146 at the end of the first quarter of 2001. The restaurant operating week increase was negatively impacted by the effect of comparing the 2001 thirteen-week quarter to a fourteen-week quarter in 2000. Excluding this additional week in 2000, total restaurant operating weeks would have increased by 16.1% in the first quarter of 2001 as compared to the same period in 2000. Average weekly sales for all LongHorn Steakhouse restaurants in the first quarter of 2001 was \$52,869, a 5.4% increase over the comparable period in 2000. Same store sales for the comparable LongHorn Steakhouse restaurants increased 6.3% in the first quarter of 2001 as compared to the same period in 2000. The increase in same store sales resulted from an increase in average check per guest combined with an increase in customer counts.

The Capital Grille:

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

Sales in The Capital Grille restaurants increased 14.5% to \$19.4 million for the first quarter of 2001, compared to \$16.9 million for the same period in 2000. The increase reflects an 8.4% increase in restaurant weeks in the first quarter of 2001, as compared to the prior year, resulting from an increase in the restaurant base from 11 The Capital Grille restaurants at the end of the first quarter 2000 to 13 at the end of the first quarter of 2001. Excluding the additional week in the first quarter of 2000, total restaurant operating weeks would have increased by 16.8% in the first quarter of 2001 as compared to the same period in 2000. Average weekly sales for all The Capital Grille restaurants in the first quarter of 2001 were \$115,964, a 5.6% increase from the comparable period in 2000. Same store sales for the comparable The Capital Grille restaurants increased 6.6% in the first quarter of 2001. The increase in same store sales resulted from an increase in average check per guest combined with an increase in customer counts.

Bugaboo Creek:

Sales in the Bugaboo Creek restaurants increased 4.2% to \$17.3 million for the first quarter of 2001, compared to \$16.6 million for the same period in 2000. The increase reflects a 2.0% decrease in restaurant weeks in the first quarter, as compared to the same period of the prior year, resulting from an increase in the restaurant base from 18 Bugaboo Creek restaurants at the end of the first quarter of 2000 to 19 restaurants at the end of the first quarter of 2001, more than offset by the additional week in the first quarter 2000, which was a fourteen-week operating period. Excluding the additional week in the first quarter of 2000, total restaurant operating weeks would have increased by 5.6% in the first quarter of 2001 as compared to the same period in 2000. Average weekly sales for all Bugaboo Creek restaurants in the first quarter of 2001 were \$70,226, a 6.3% increase from the comparable period for 2000. Same store sales for the comparable Bugaboo Creek restaurants in the first quarter of 2001 increased 6.1% as compared to the same period in 2000. The increase in same store sales resulted from an increase in average check per guest combined with an increase in customer counts.

Franchise Revenue:

Franchise revenues decreased to \$90 thousand for the first quarter of 2001, from \$94 thousand for the same period in 2000. This decrease was due to the negative impact of comparing the 2001 thirteen-week quarter to the fourteen-week first quarter in 2000.

Costs and Expenses

Cost of restaurant sales as a percentage of restaurant sales decreased to 35.5% for the first quarter of 2001 from 35.7% for the same period of 2000. Menu price increases and favorable contract pricing on non-meat products, such as seafood and bakery items, more than offset slightly higher meat costs during the first quarter of 2001. The Company is currently under fixed price contracts with respect to all of its beef and pork products and, for a majority of these products, these contracts are in effect for the remainder of 2001.

Restaurant operating expense as a percentage of restaurant sales decreased to 42.9% for the first quarter of 2001 as compared to 43.2% for the same period of 2000. This reduction as a percentage of restaurant sales was due to greater leverage (provided by higher sales levels) of fixed and semi-fixed expenses such as rent, insurance and advertising, partially offset by an increase in utility costs. Restaurant depreciation increased to \$4.9 million from \$4.3 million in the corresponding period of the prior year, primarily due to the depreciation associated with construction of new restaurants.

Pre-opening expense for the first quarter of 2001 was \$1.8 million, an increase from \$1.1 million in the same period of the prior year. This increase related to the thirteen restaurants opened during the 2001 first quarter as compared to 6 restaurants opened in the same period of the prior year.

General and administrative expenses as a percentage of total revenues decreased to 5.8% for the first quarter of 2001, as compared to 6.7% for the corresponding period of the prior year. This decrease was principally due to greater leverage of fixed and semi-fixed general and administrative expenses and training, recruiting, and relocation expenses, which ran lower as a percentage of total revenue than expected due to improvements in restaurant management retention.

As a result of the relationships between revenues and expenses discussed above, the Company's operating income increased to \$14.7 million for the first quarter of 2001 from \$12.0 million for the corresponding period of the prior year.

Interest expense, net decreased to \$673 thousand in the first quarter of 2001, from \$1.0 million in the same period of the prior year. Due to the timing of the Company's February 2001 common stock offering, management believes the interest reductions, as compared to the prior year, will be more pronounced for the remaining quarters of 2001.

Concurrent with the completion of the February 2001 common stock offering, the Company amended its interest rate swap agreements to fix the interest rate on future amounts under the Company's credit facility. The Company paid approximately \$1.1 million resulting in an after-tax expense of \$682 thousand associated with amending the interest rate swap agreements to reduce the notional principal to amounts equal to the variable rate debt expected to be outstanding in the future under the Company's credit facility. The repayment of amounts outstanding under the

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

credit agreement, combined with the termination of the associated hedging instrument, created an ineffective hedge relationship, which is reported in earnings in the first quarter of 2001.

Minority interest expense decreased to \$245 thousand for the first quarter of 2001 from \$653 thousand for the same period of the prior year primarily due to the full effect of the Company's acquisition of nineteen LongHorn Steakhouse restaurants from two joint venture partners in July 2000.

Income tax expense for the first quarter of 2001 was 32.6% of earnings before income taxes, which reflects an effective income tax rate of 33% reduced by the tax benefit associated with the early termination of an interest rate swap agreement. This compares to 33.0% of earnings before income taxes for the first quarter of 2000. The Company's effective income tax rate differs from applying the statutory federal income tax rate of 35% to pre-tax income, primarily due to employee FICA tip tax credits and work opportunity tax credits (both reductions in income tax expense), partially offset by state income taxes.

Net earnings increased to \$8.6 million for the first quarter of 2001 from net earnings of \$6.2 million for the first quarter of 2000, reflecting the net effect of the items discussed above.

Liquidity and Capital Resources:

The Company requires capital primarily for the development of new restaurants, selected acquisitions and the remodeling of existing restaurants. During the first quarter of 2001 the Company's principal sources of working capital were proceeds from the issuance of common stock in a registered public offering (\$57.6 million), cash provided by operating activities (\$6.4 million) and proceeds from the exercise of employee stock options (\$2.1 million). For the first quarter of 2001 the principal uses of working capital were repayment of amounts outstanding under the Company's revolving credit facility (\$46.0 million) and capital expenditures (\$12.3 million) for new and improved facilities. As of April 1, 2001 the Company had \$5.0 million outstanding under the Company's \$100 million revolving credit facility.

The Company intends to open 18 to 21 Company-owned LongHorn Steakhouse restaurants, three The Capital Grille restaurant and one Bugaboo Creek restaurant in fiscal year 2001. The Company estimates that its capital expenditures for fiscal year 2001 will be approximately \$60-65 million. During the first three months of 2001, the Company opened 11 LongHorn Steakhouse restaurants and two The Capital Grille restaurants. Five to eight additional LongHorn Steakhouse restaurants, one The Capital Grille restaurant and one Bugaboo Creek restaurant are expected to be opened by the end of 2001. Management believes that available cash, cash provided by operations, and available borrowings under the Company's \$100 million revolving credit facility will provide sufficient funds to finance the Company's expansion plans through the year 2004.

Since substantially all sales in the Company's restaurants are for cash, and accounts payable are generally due in seven to 30 days, the Company operates with little or negative working capital.

Forward-Looking Statements

Statements contained in this Report concerning future results, performance or expectations are forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. All forward-looking statements in this Report are based upon information available to the Company on the date of this Report. All forward-looking statements involve risks and uncertainties that could cause actual results, performance or developments to differ materially from those expressed or implied by those forward-looking statements, such as: the Company's ability to open the anticipated number of new restaurants on time and within budget; the Company's ability to continue to increase same-store sales at anticipated rates; a recession or other negative effect on business dining patterns, or some other negative effect on the economy in general; unexpected increases in cost of sales or other expenses; the Company's ability to acquire products at reasonable prices; and the impact of any negative publicity or public attitudes related to the consumption of beef. Other risks and uncertainties include fluctuations in quarterly operating results, seasonality, guest trends, competition and risks associated with the development and management of new restaurant sites. More information about factors that potentially may affect the Company's results, performance or development is included in the Company's other filings with the Securities and Exchange Commission, including its annual report on Form 10-K for the year ended December 31, 2000, its current reports on Form 8-K filed during the first quarter of 2001, and the Company's press releases and other communications.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Interest Rate Risk

As of May 8, 2001, \$6.0 million was outstanding under the Company's \$100 million revolving credit facility. Amounts outstanding under such credit facility bear interest at LIBOR plus a margin of 1.25% to 2.0% (depending on the Company's leverage ratio), or the administrative agent's prime rate of interest plus a margin of 0% to 0.75% (depending on the Company's leverage ratio) at the Company's option. Accordingly, the Company is exposed to the impact of interest rate fluctuations. To achieve the Company's objective of managing its exposure to interest rate

Edgar Filing: RARE HOSPITALITY INTERNATIONAL INC - Form 10-Q

changes, the Company from time to time uses interest rate swaps.

The Company has interest rate swap agreements with a commercial bank, which effectively fix the interest rate at 6.52%, plus the margin, on \$0 through June 2001; \$10.0 million from July 2001 through June 2002; \$15.0 million from July 2002 through March 2003; and \$17.5 million from April 2003 through August 2004. The Company is exposed to credit losses on this interest rate swap in the event of counterparty non-performance, but does not anticipate any such losses.

While changes in LIBOR and the administrative agent's prime rate of interest could affect the cost of borrowings under the credit facility in excess of amounts covered by the interest rate swap agreement in the future, the Company does not consider its current exposure to changes in such rates to be material, and the Company believes that the effect, if any, of reasonably possible near-term changes in interest rates on the Company's financial condition, results of operations or cash flows would not be material.

Investment Portfolio

The Company invests portions of its excess cash, if any, in highly liquid investments. At April 1, 2001, the Company had \$7.9 million invested in high-grade overnight repurchase agreements.
