ON ASSIGNMENT, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Financial Statement Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and the rules of the Securities and Exchange Commission (the "SEC"). Certain information and note disclosures normally included in annual financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to those rules and regulations. The December 31, 2015 condensed consolidated balance sheet was derived from audited financial statements. The financial statements include adjustments consisting of normal recurring items, which, in the opinion of management, are necessary for a fair presentation of the financial position of On Assignment, Inc. and its subsidiaries (the "Company") and its results of operations for the interim dates and periods set forth herein. The results for any of the interim periods are not necessarily indicative of the results to be expected for the full year or any other period. This Quarterly Report on Form 10-Q should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2015 ("2015 10-K").

2. Accounting Standards Update

In April 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-05, Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40). ASU No. 2015-05 provides guidance to customers about whether a cloud computing arrangement includes a software license. If a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. It is effective for annual periods (including interim periods) beginning after December 15, 2015, and early adoption is permitted. The Company prospectively adopted ASU 2015-05 as of January 1, 2016, with no impact to its consolidated financial statements.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which is intended to improve financial reporting about leasing transactions. This standard requires a lessee to record on the balance sheet the assets and liabilities for the rights and obligations created by lease terms of more than 12 months. It is effective for annual periods (including interim periods) beginning after December 15, 2018, and early adoption is permitted. The Company is currently evaluating the impact the provisions of ASU 2016-02 will have on its consolidated financial statements.

In March 2016, the FASB issued ASU No. 2016-09, Compensation - Stock Compensation (Topic 718), which is intended to simplify the accounting for the taxes related to stock-based compensation, including adjustments to how excess tax benefits and a company's payments for tax withholdings should be classified. It is effective for annual periods (including interim periods) beginning after December 15, 2016, and early adoption is permitted. The Company is currently evaluating the impact the provisions of ASU 2016-09 will have on its consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which outlines a comprehensive new revenue recognition model designed to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In March 2016, the FASB issued ASU No. 2016-08, Revenue from Contracts with Customers (Topic 606)-Principal versus Agent Considerations (Reporting Revenue Gross versus Net), which further clarifies the implementation guidance on principal versus agent considerations contained in ASU 2014-09. In

April 2016, the FASB issued ASU No. 2016-10, Revenue from Contracts with Customers (Topic 606)-Identifying Performance Obligations and Licensing, which further clarifies the implementation guidance relating to identifying performance obligations and the licensing implementation guidance. These standards, pursuant to ASU No. 2015-14, Revenue from Contracts with Customers-Deferral of the Effective Date (Topic 606) issued by the FASB in August 2015, will be effective for annual periods (including interim periods) beginning after December 15, 2017. The Company is currently evaluating the impact these provisions will have on its consolidated financial statements.

3. Acquisitions

On June 5, 2015, the Company acquired all of the outstanding shares of the holding company for Creative Circle, LLC ("Creative Circle"). Creative Circle, which is headquartered in Los Angeles, California, was purchased to expand the Company's technical and creative staffing services. The purchase price consisted of \$540.0 million cash, \$30.2 million of common stock (794,700 shares of the Company's common stock), and estimated future contingent consideration which was valued at \$13.8 million. Goodwill related to this acquisition totaled \$358.0 million, and is deductible for income tax purposes. Acquisition expenses of approximately \$5.7 million were expensed in 2015 and are included in selling, general and administrative expenses ("SG&A"). The results of operations for the acquisition have been combined with those of the Company from the acquisition date.

On April 14, 2015, the Company acquired all of the outstanding shares of LabResource B.V. ("LabResource") headquartered in Amsterdam, Netherlands for \$12.7 million. LabResource was purchased to expand the Company's life sciences staffing business in Europe. Goodwill associated with this acquisition is not deductible for tax purposes. Acquisition expenses of approximately \$0.4 million were expensed in 2015 and are included in SG&A. The results of operations for this acquisition have been combined with those of the Company from the acquisition date.

Assets and liabilities of the acquired companies were recorded at their estimated fair values at the dates of acquisition. The excess purchase price over the fair value of net tangible assets and identifiable intangible assets acquired has been allocated to goodwill. The fair value assigned to identifiable intangible assets was determined primarily by using a discounted cash flow method. The Company's allocation of the purchase price of Creative Circle and LabResource has been finalized and the following table summarizes the allocations (in thousands):

	Creative Circle	LabResource
Cash	\$4,840	\$ 187
Accounts receivable	34,386	1,643
Prepaid expenses and other current assets	4,462	—
Property and equipment	5,077	12

Other	—	1,882
Total liabilities assumed	12,254	3,364
Total purchase price ⁽¹⁾ ⁽²⁾	\$589,691	\$ 12,455

Excluding cash acquired and a \$0.9 million adjustment for net working capital in excess of the targeted amount (1)(thereby increasing the actual purchase price paid), the purchase price for Creative Circle was \$584.0 million as described in the discussion above.

Excluding cash acquired and a \$0.4 million adjustment for net working capital that was less than the targeted (2)amount (thereby reducing the actual purchase price paid), the purchase price for LabResource was \$12.7 million as described in the discussion above.

The following table summarizes (in thousands) the allocation of the purchase price among the identifiable intangible assets for the acquisitions:

		Identifiable Intangible Asset Value	
	Useful life	Creative Circle	LabResource
Contractor relationships	2 - 4 years	\$29,500	\$ 947
Customer relationships	2 - 10 years	90,700	5,421

Favorable contracts	5 years	900	—
Trademarks	indefinite	66,100	1,140
Total identifiable intangible assets acquired		\$194,500	\$ 7,528

The summary below (in thousands, except for per share data) presents pro forma unaudited consolidated results of operations for the three months ended March 31, 2015 as if the acquisitions of Creative Circle and LabResource occurred on January 1, 2014. The pro forma financial information gives effect to certain adjustments, including amortization of intangible assets, interest expense on acquisition-related debt, provision for income taxes, and increased number of common shares as a result of the acquisitions. Acquisition-related costs are assumed to have occurred at the beginning of the year prior to acquisition. The pro forma financial information is not necessarily indicative of the operating results that would have occurred if the acquisitions had been consummated as of the date indicated, nor are they necessarily indicative of future operating results.

4. Discontinued Operations

On February 1, 2015, the Company completed the sale of its Physician Segment for \$123.0 million including \$6.0 million that was held in escrow and was released in March 2016. The gain on the sale was \$25.7 million (net of income taxes of \$14.4 million). The operating results of this segment are presented as discontinued operations in the condensed consolidated statements of operations and comprehensive income for all periods presented.

Cash flows from discontinued operations are included in the condensed consolidated statements of cash flows for the three months ended March 31, 2016 and 2015. The cash flows that are attributable to the Physician Segment are as follows (in thousands):

2018	28,928
2019	22,016
2020	14,515
Thereafter	34,310
	\$162,338

Goodwill and other intangible assets having an indefinite useful life are not amortized for financial statement purposes. These assets are reviewed for impairment on an annual basis as of October 31 and whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. There were no triggering events that required an interim impairment analysis during the current period.

6. Long-Term Debt

Long-term debt consisted of the following (in thousands):

	March 31, 2016	December 31, 2015
\$150 million revolving credit facility, due June 2020	\$34,000	\$ 50,000
\$825 million Term B loan facility, due June 2022	707,000	724,000
	741,000	774,000
Unamortized deferred loan costs	(17,781)	(18,492)
	\$723,219	\$ 755,508

On June 5, 2015, the Company entered into a new \$975.0 million credit facility. The funds were used to repay the old credit facility and to fund the cash portion of the purchase of Creative Circle (see "Note 3. Acquisitions"). The new facility consists of (i) an \$825.0 million seven-year term B loan facility and (ii) a \$150.0 million five-year revolving loan facility. Under terms of the new facility, the Company has the ability to increase the principal amount of the loan facilities.

Borrowings under the term B loan bear interest at LIBOR (floor of 75 basis points), plus 3.0 percent and borrowings under the revolving credit facility bear interest at LIBOR (or the bank's base rate) plus 0.75 to 2.5 percent depending on leverage levels. A commitment fee of 0.25 to 0.40 percent is payable on the undrawn portion of the revolving credit facility. At March 31, 2016, the weighted average interest rate was 3.7 percent.

Under terms of the credit facility, the Company was required to make minimum quarterly payments of \$2.1 million. Through March 31, 2016, the Company repaid \$134.0 million, and as a result, the next required payments will be on the maturity dates. The Company is also required to make mandatory prepayments, subject to specified exceptions, from excess cash flow and with the proceeds of asset sales, debt issuances and specified other events.

The Company's obligations under the credit facility are guaranteed by substantially all of its direct and indirect domestic subsidiaries and are secured by a lien on substantially all of the Company's tangible and intangible property and by a pledge of all of the equity interests in its direct and indirect domestic subsidiaries.

The credit facility includes various restrictive covenants including the maximum ratio of consolidated funded debt to consolidated EBITDA (4.25 to 1.00 as of March 31, 2016 decreasing to 3.25 to 1.00 on March 31, 2018). The credit facility also contains certain customary limitations including, among other terms and conditions, the Company's

ability to incur additional indebtedness, engage in mergers and acquisitions, and declare dividends. At March 31, 2016 the Company had a ratio of consolidated funded debt to consolidated EBITDA of 2.80 to 1.00.

At March 31, 2016 the Company was in compliance with all of its debt covenants and had \$112.5 million of borrowing available under the revolving credit facility.

7. Commitments and Contingencies

The Company has entered into various non-cancelable operating leases, primarily related to its facilities and certain office equipment used in the ordinary course of business. The Company leases two properties owned by related parties. Rent expense for these two properties was \$0.3 million for the three months ended March 31, 2016 and 2015.

The Company carries large retention policies for its workers' compensation liability exposures. The workers' compensation loss reserves are based upon an actuarial report obtained from a third party and determined based on claims filed and claims incurred but not reported. The Company accounts for claims incurred but not yet reported based on estimates derived from historical claims experience and current trends of industry data. Changes in estimates, differences in estimates, and actual payments for claims, are recognized in the period that the estimates

changed or the payments were made. The workers' compensation loss reserves were approximately \$1.6 million and \$1.8 million, net of anticipated insurance and indemnification recoveries of \$13.3 million and \$13.2 million, at March 31, 2016 and December 31, 2015, respectively. The Company has unused stand-by letters of credit outstanding to secure obligations for workers' compensation claims with various insurance carriers. The unused stand-by letters of credit at March 31, 2016 and December 31, 2015 were \$3.5 million.

The Company is subject to contingent consideration agreements entered into in connection with certain of its acquisitions. If the acquired businesses meet predetermined targets, the Company is obligated to make additional cash payments in accordance with the terms of such contingent consideration agreements, see note "8. Fair Value Measurements."

Certain employees participate in the Company's Change in Control Severance Plan, or have separate agreements that provide for certain benefits in the event of termination at the Company's convenience or following a change in control, as defined by the plan or agreement. Generally, these benefits are based on the employee's length of service and position with the Company and include, severance, continuation of health insurance and in certain cases acceleration of vesting of option or stock awards.

Legal Proceedings

The Company is involved in various legal proceedings, claims and litigation arising in the ordinary course of business. Based on the facts currently available, the Company does not believe that the disposition of matters that are pending or asserted will have a material effect on its consolidated financial statements.

8. Fair Value Measurements

The recorded values of cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate their fair value based on their short-term nature. Long-term debt recorded in the Company's condensed consolidated balance sheet at March 31, 2016 was \$723.2 million (net of \$17.8 million of unamortized deferred loan costs, see "Note 6. Long-Term Debt"). The fair value of the long-term debt at that same date was \$744.5 million as determined using the quoted price technique, based on Level 2 inputs (significant observable inputs other than quoted prices for identical assets in active markets) from the fair value hierarchy, and included the yields of comparable companies with similar credit characteristics.

Related to its acquisitions, at March 31, 2016, the Company had obligations to pay contingent consideration in cash if certain performance targets were met. The fair value of this contingent consideration was determined using an expected present value technique. Expected cash flows were determined using the probability-weighted average of possible outcomes that would occur should certain financial metrics be reached. There is no market data available to use in valuing the contingent consideration, therefore, the Company developed its own assumptions related to the future financial performance of the businesses to evaluate the fair value of these liabilities. As such, the contingent consideration is classified within Level 3 inputs (unobservable inputs) from the fair value hierarchy. The fair value of the liability for contingent consideration is established at the time of the acquisition and finalized by the end of the measurement period. Its fair value is then remeasured on a recurring basis with changes due to the accretion of the present value discount, recorded in interest expense and changes related to new developments in expected performance, recorded in SG&A. At March 31, 2016, the contingent consideration was determined to be \$21.6 million and is included in other current liabilities. The Company expects to make the contingent consideration payments within the next three months. At December 31, 2015, contingent consideration was \$21.0 million and was included in other current liabilities. The performance period for these contingent consideration arrangements ended on December 31, 2015.

The following table summarizes the balance of the contingent consideration and changes for the periods presented (in thousands):

	Three Months Ended March 31,	
	2016	2015
Balance at beginning of period	\$(20,981)	\$(3,000)
Additions for acquisitions	—	—
Payments on contingent consideration	—	—
Fair value adjustment	(613)	—
Foreign currency translation adjustment	—	—
Balance at end of period	\$(21,594)	\$(3,000)

Certain assets and liabilities, such as goodwill, are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (e.g., when there is evidence of impairment). For the three months ended March 31, 2016 and 2015, no fair value adjustments were required for non-financial assets or liabilities.

9. Accumulated Other Comprehensive Loss

The accumulated other comprehensive loss balance at March 31, 2016 and December 31, 2015, and the activity during the three months ended March 31, 2016, consists of foreign currency translation adjustments.

10. Stock-based Compensation

On March 31, 2016, the Company issued 128,518 shares of common stock under its Employee Stock Purchase Plan, as amended (the "ESPP").

Stock-based compensation expense, including the ESPP, was \$6.9 million and \$4.0 million for the three months ended March 31, 2016 and 2015, respectively, which was included in SG&A expense.

11. Earnings Per Share

The following is a reconciliation of the shares used to compute basic and diluted earnings per share (in thousands):

	Three Months Ended March 31,	
	2016	2015
Weighted average number of common shares outstanding used to compute basic earnings per share	53,147	51,519
Dilutive effect of stock-based awards	497	690
Number of shares used to compute diluted earnings per share	53,644	52,209

There were 473,000 share equivalents outstanding during the three months ended March 31, 2016 that were excluded from the computation of diluted earnings per share because the exercise price for these options was greater than the average market price of the Company's shares of common stock and became anti-dilutive when applying the treasury stock method. During the three months ended March 31, 2015 there were no significant share equivalents outstanding that were excluded from the computation of diluted earnings per share because they became anti-dilutive when applying the treasury stock method.

12. Income Taxes

For interim reporting periods, the Company estimates its full-year income and the related income tax expense for each jurisdiction in which the Company operates. Changes in the geographical mix, permanent differences or estimated level of annual pre-tax income can impact the Company's actual effective rate.

13. Segment Reporting

On Assignment provides services through two operating segments, the Apex Segment and the Oxford Segment, with each addressing different sectors of the professional staffing market with distinct business models attuned to those sectors. Businesses in the Apex Segment predominately serve markets with a large and local talent pool, and provide a full range of skills through a network of local offices where clients most value relationship, speed, reliability and price. The Apex Segment provides a broad spectrum of technical, scientific and creative professionals for contract, contract-to-hire and permanent placement positions to Fortune 1000 and mid-market clients across the United States. Our businesses in this segment include Apex Systems, Lab Support and Creative Circle. Businesses in the Oxford Segment predominately serve markets with higher-end, specialized skills through a combination of national recruiting centers and local offices where clients most value the unique skill of the candidate and speed of response. The Oxford Segment provides specialized, niche staffing and consulting services in select skill and geographic markets. Our businesses in this segment include Oxford, CyberCoders and Life Sciences Europe.

Effective January 1, 2016, there were two changes to the Company's segment configuration: 1) the Apex Segment now includes a small clinical research business which was previously included in the Oxford Segment, and 2) costs

associated with personnel located at our Corporate office that have shared services roles and support certain of our businesses, primarily within the Oxford Segment, are now presented in the segments they support whereas previously they were presented within Corporate. For comparability purposes, prior periods have been adjusted to reflect these changes.

The Company's management evaluates the performance of each segment primarily based on revenues, gross profit and operating income. The information in the following tables is derived directly from the segments' internal financial reporting used for corporate management purposes. The Company's management does not evaluate, manage or measure performance of segments using asset information, and such information is not readily available. Accordingly, assets by reportable segment are not disclosed.

The following tables present revenues, gross profit, operating income and amortization by reportable segment (in thousands):

Operating income	22,896	12,713	(10,538)	25,071
Amortization	3,522	1,347	—	4,869

Corporate expenses primarily consist of consolidated stock-based compensation expense, compensation for (1) corporate employees, acquisition, integration and strategic planning expenses, public company expenses, and depreciation expense for corporate assets.

During the quarter ended June 30, 2015, due to management changes, the Company realigned its former Life Sciences Europe Segment to be included in the Oxford Segment. Prior periods have been adjusted to reflect this change.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

The information in this discussion contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Such statements are based upon current expectations that involve risks and uncertainties. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements or opinions. For example, the words "believes," "anticipates," "plans," "expects," "intends," and similar expressions are intended to identify forward-looking statements. Forward-looking statements include statements regarding our anticipated financial and operating performance for future periods. Our actual results could differ materially from those discussed herein. Factors that could cause or contribute to such differences include, but are not limited to, the following: (1) actual demand for our services; (2) the general political and economic environment; (3) our ability to attract, train and retain qualified staffing consultants; (4) our ability to remain competitive in obtaining and retaining staffing clients; (5) the availability of qualified contract professionals; (6) our ability to manage our growth efficiently and effectively; (7) continued performance and improvement of our enterprise-wide information systems; (8) our ability to manage potential or actual litigation matters; (9) the successful integration of our recently acquired subsidiaries; (10) the successful implementation of our five-year strategic plan; and (11) other risks detailed from time to time in our reports filed with the SEC, including in our 2015 10-K under the section "Risk Factors." Other factors also may contribute to the differences between our forward-looking statements and our actual results. In addition, as a result of these and other factors, our past financial performance should not be relied on as an indication of future performance. All forward-looking statements in this document are based on information available to us as of the date we file this Quarterly Report on Form 10-Q, and we assume no obligation to update any forward-looking statement or opinion, or the reasons why our actual results may differ.

OVERVIEW

On Assignment, Inc., is a leading global provider of highly skilled, hard-to-find professionals in the growing technology, life sciences, and creative sectors, where quality people are the key to success. We go beyond matching résumés with job descriptions to match people we know into positions we understand, for contract, contract-to-hire and direct hire assignments.

On Assignment provides services through two operating segments, the Apex Segment and the Oxford Segment, with each addressing different sectors of the professional staffing market with distinct business models attuned to those sectors. Businesses in the Apex Segment predominately serve markets with a large and local talent pool, and provide a full range of skills through a network of local offices where clients most value relationship, speed, reliability and price. Results of Operations

CHANGES IN RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2016 COMPARED WITH THE THREE MONTHS ENDED MARCH 31, 2015

The tables and discussion below include pro forma and constant currency data. Pro forma assumes the acquisitions of Creative Circle and LabResource, which were acquired in the second quarter of 2015 (the "Acquisitions"), occurred at the beginning of 2014. Operating results of Creative Circle are included in the Apex Segment, and the operating results of LabResource are included in the Oxford Segment. Constant currency data (a non-GAAP measure) shown below are on a pro forma basis and were calculated using the foreign exchange rates from the same period in the prior year.

Effective January 1, 2016, there was a change to our segment configuration whereby the Apex Segment now includes a small clinical research business, which was previously included in the Oxford Segment. For comparability purposes, prior periods have been adjusted to reflect these changes. In the tables below, as reported year-over-year growth rates (revenues table) and change (gross profit table), compares current quarter reported results with the quarter ended March 31, 2015, as adjusted for our new segment configuration.

	100.0	% 100.0	% 100.0	%				

Revenues on an as reported basis increased \$152.0 million, or 35.3 percent year-over-year as a result of (i) the contribution of \$79.3 million in revenues from the Acquisitions and (ii) year-over-year revenue growth of 16.9 percent excluding the contribution from the Acquisitions. On a pro forma basis, revenues were up \$87.3 million, or 17.7 percent, year-over-year. Assignment revenues were \$549.5 million, up 35.3 percent year-over-year on an as reported basis and 18.1 percent on a pro forma basis. Permanent placement revenues, comprised of direct hire and conversion fees, were \$32.5 million, up 35.9 percent year-over-year on an as reported basis and 11.3 percent on pro forma basis. Permanent placement revenues accounted for 5.6 percent of total revenues down from 5.9 percent for the first quarter of last year on a pro forma basis.

The Apex Segment accounted for 74.4 percent of consolidated revenues in the first quarter of 2016, up from 72.5 percent in the same period of last year on a pro forma basis. Its revenues on an as reported basis were \$433.1 million, up 46.4 percent year-over-year. This increase was a result of (i) the contribution of \$76.3 million in revenues from Creative Circle and (ii) year-over-year revenue growth of 20.6 percent excluding the contribution from Creative Circle. On a pro forma basis, revenues were up 20.8 percent. This resulted mainly from high growth rate of Apex Systems (which accounted for 73.6 percent of the segment's revenues and had a year-over-year revenue growth rate of 21.5 percent), and continued high growth from Creative Circle. The revenue growth of Apex Systems reflected,

among other things, higher demand in our end markets and improved productivity from our sales consultants.

The Oxford Segment accounted for 25.6 percent of consolidated revenues in the first quarter of 2016. Its revenues on an as reported basis were \$148.9 million, up 11.0 percent year-over-year. This increase was the result of (i) year-over year revenue growth of 8.8 percent excluding the contribution from LabResource, and (ii) the contribution of \$3.0 million in revenues from LabResource. On a pro forma basis, revenues were up 9.3 percent.

Gross Profit and Gross Margins

	Three Months Ended March 31,			Year-Over-Year Change	
	As Reported	As Adjusted	Pro Forma	As Reported	Pro Forma
	2016	2015	2015		
	(Dollars in millions)				
Gross profit:					
Apex	\$126.2	\$80.2	\$106.6	57.4 %	18.3 %
Oxford	61.6	55.7	56.5	10.6 %	9.1 %
Consolidated	\$187.8	\$135.9	\$163.1	38.2 %	15.1 %
Gross margin ⁽¹⁾ :					
Apex	29.1 %	27.1 %	29.7 %	2.0 %	(0.6) %
Oxford	41.4 %	41.6 %	41.5 %	(0.2) %	(0.1) %
Consolidated	32.3 %	31.6 %	33.0 %	0.7 %	(0.7) %

(1) The year-over-year change in gross margin is the percentage point differential.

Gross profit is comprised of revenues less costs of services which consist primarily of compensation for our contract professionals and assignment related expenses. Gross profit for the current quarter was \$187.8 million, up 38.2 percent year-over-year. Gross margin was 32.3 percent, an expansion of 70 basis points year-over-year on an as reported basis. This expansion related to the inclusion of Creative Circle, which has a higher assignment gross margin than our other divisions. On a pro forma basis, our consolidated gross margin had a compression of 70 basis points year-over-year, which was primarily revenue mix driven related to the higher growth of Apex Systems relative to our other divisions in the aggregate. While Apex Systems generally has a lower gross margin than our other divisions, it has a higher conversion of gross profit into operating income due to its scale and operating efficiency.

The Apex Segment accounted for 67.2 percent of consolidated gross profit in the current quarter. Its gross profit was \$126.2 million, up 57.4 percent, as a result of (i) contribution of \$31.8 million from Creative Circle and (ii) year-over-year revenue growth of 20.6 percent excluding the contribution from Creative Circle. Gross margin for the segment was 29.1 percent, an expansion of two percentage points year-over-year on an as reported basis due to (i) the inclusion of Creative Circle, which has a higher assignment gross margin than the other operating units of the Apex Segment, and (ii) a higher mix of permanent placement revenues. On a pro forma basis, gross margin for the segment was approximately 60 basis points lower than the first quarter of 2015. This compression was mix driven related to (i) the high relative growth of Apex Systems, which as mentioned above has a lower gross margin than the other operating units comprising the segment and (ii) higher mix of revenues from Apex Systems top accounts, which carry a lower gross margin than its other accounts.

The Oxford Segment accounted for 32.8 percent of consolidated gross profit in 2016. Its gross profit was \$61.6 million, up 10.6 percent year-over-year as a result of (i) year-over-year revenue growth of 8.8 percent excluding the contributions from LabResource, and (ii) contribution of \$1.1 million from LabResource. Its gross margin was 41.4 percent, a compression of 20 basis points year-over-year primarily due to changes in business mix.

Selling, General and Administrative Expenses

Selling, general and administrative ("SG&A") expenses consist primarily of compensation for our field operations and corporate staff, rent, information systems, marketing, telecommunications, public company expenses and other

general and administrative expenses. SG&A expenses for the quarter were \$139.9 million (24.0 percent of revenues), up from \$105.9 million (24.6 percent of revenues) in the same period last year. The increase in SG&A expenses was due to (i) \$16.6 million from the operations of the Acquisitions, (ii) \$1.0 million higher acquisition, integration and strategic planning expenses related to the integration of certain operating units of the Oxford Segment, (iii) \$3.0 million higher stock-based compensation expense, (iv) higher incentive bonus accruals as operating performance in the current quarter, which was in line with or above our incentive performance targets (whereas operating performance for the same period last year was generally below our targets), and (v) additional costs related to investments in new practice areas. Excluding (i) acquisition, integration and strategic planning expenses, (ii) stock-based compensation expense and (iii) depreciation expense, SG&A expenses as a percentage of revenues were 21.5 percent in the current quarter, or 1.1 percentage points lower than the same period last year as a result of improved operating efficiency.

Amortization of Intangible Assets

Amortization of intangible assets for the quarter was \$10.1 million, compared with \$4.9 million in the same period last year. The increase related to amortization from the Acquisitions.

Interest Expense, Net

Interest expense (net of interest income) for the quarter was \$9.0 million, compared with \$3.1 million in the same period last year. The increase in interest expense was due to higher debt levels related to the acquisition of Creative Circle, which was funded primarily from proceeds from

borrowings. Interest expense for the quarter was comprised of (i) interest on the credit facility of \$7.2 million, (ii) amortization of deferred loan costs of \$0.9 million, and (iii) accretion of discount of \$0.9 million on the contingent consideration liability related to acquisitions.

Provision for Income Taxes

The provision for income taxes was \$11.4 million for the quarter, compared with \$9.0 million in the same period last year. The effective tax rate for the quarter was 39.6 percent, a decrease from the 41.4 percent for the full year 2015. This lower effective tax rate was due a lower mix of non-deductible expenses.

Income from Continuing Operations

Income from continuing operations was \$17.3 million for the quarter, compared with \$13.0 million in the same period last year.

Discontinued Operations

Income from discontinued operations, net of income taxes was \$0.1 million for the quarter, compared with \$0.4 million in the same period last year.

Net Income

Net income was \$17.4 million for the quarter, compared with \$39.1 million in the same period last year.

Liquidity and Capital Resources

Our working capital (current assets less current liabilities) as of March 31, 2016 was \$256.4 million and our cash and cash equivalents were \$28.4 million, of which \$10.3 million was held in foreign countries, which is not available to fund domestic operations unless repatriated. We do not intend to repatriate cash held in foreign countries. Our operating cash flows and borrowings under our credit facilities have been our primary source of liquidity and have been sufficient to fund our working capital and capital expenditure needs. Our working capital requirements are primarily driven by the overall growth in our business and debt service requirements. We believe that our working capital as of March 31, 2016, availability under our revolving credit facility, and expected operating cash flows will be sufficient to meet our obligations, working capital requirements and capital expenditures for the next 12 months.

Net cash provided by operating activities was \$37.3 million for the quarter, compared with \$19.9 million for the same period last year. Net cash provided by operating activities for the quarter was comprised of net income of \$17.4 million and non-cash items of \$26.3 million (e.g., depreciation, amortization, stock-based compensation, etc.), reduced by an increase of \$6.4 million in net operating assets related to the higher year-over-year growth rate of our business relative to the first quarter of last year. Net cash provided by operating activities in the same period last year was comprised of net income of \$39.1 million and non-cash items of \$13.5 million, reduced by the \$25.7 million gain from the sale of the Physician Segment and \$7.0 million change in net operating assets.

Net cash used in investing activities was \$1.1 million for the quarter, compared with \$106.9 million cash provided by investing activities for the same period last year. Net cash used in investing activities for the quarter was comprised of \$6.0 million in proceeds from the sale of our Physician Segment offset by \$7.3 million in cash used to purchase property and equipment. Net cash provided by investing activities in the same period last year consisted primarily of \$114.9 million net proceeds from the sale of the Physician Segment, partially offset by \$8.0 million cash used to purchase property and equipment.

Net cash used in financing activities was \$31.7 million for the quarter, compared with \$81.5 million for the same period last year. Net cash used in financing activities for the quarter consisted primarily of \$33.0 million in principal payments of long-term debt. Net cash used in financing activities in the same period last year consisted primarily of \$80.6 million in principal payments of long-term debt.

On June 5, 2015, the Company entered into a new \$975.0 million credit facility. The funds were used to repay the old credit facility and to fund the cash portion of the purchase of Creative Circle (see "Note 3. Acquisitions"). This facility consists of (i) an \$825.0 million seven-year term B loan facility and (ii) a \$150.0 million five-year revolving loan facility. Under terms of the credit facility, we were required to make minimum quarterly payments of \$2.1 million. However, through March 31, 2016 we have repaid \$134.0 million, and as a result, the next required payments will be on the maturity dates. We are also required to make mandatory prepayments, subject to specified exceptions, from excess cash flow and with the proceeds of asset sales, debt issuances and specified other events. The outstanding balance on the facility at March 31, 2016 was \$741.0 million (see "Note 6. Long-Term Debt"). The maximum ratio of consolidated funded debt to consolidated EBITDA steps down at regular intervals from 4.25 to 1.00 as of March 31, 2016, to 3.25 to 1.00 as of March 31, 2018 and thereafter. As of March 31, 2016, the leverage ratio was 2.80 to 1.00. Additionally, the credit facility, which is secured by substantially all of our assets, provides for certain limitations on our ability to, among other things, incur additional debt, offer loans, and declare dividends. As of March 31, 2016, we had \$112.5 million of borrowings available under our revolving credit facility.

Recent Accounting Pronouncements

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-02, Leases (Topic 842), which is intended to improve financial reporting about leasing transactions. This standard requires a lessee to record on the balance sheet the assets and liabilities for the rights and obligations created by lease terms of more than 12 months. It is effective for annual periods (including interim periods) beginning after December 15, 2018, and early adoption is permitted. We are currently evaluating the impact the provisions of ASU 2016-02 will have on our consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, Compensation - Stock Compensation (Topic 718), which simplifies the accounting for the taxes related to stock-based compensation, including adjustments to how excess tax benefits and a company's payments for tax withholdings should be classified. It is effective for annual periods (including interim periods) beginning after December 15, 2016, and early adoption is permitted. We are currently evaluating the impact the provisions of ASU 2016-09 will have on our consolidated financial statements.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606), which outlines a comprehensive new revenue recognition model designed to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In March 2016, the FASB issued ASU No. 2016-08, Revenue from Contracts with Customers (Topic 606)-Principal versus Agent Considerations (Reporting Revenue Gross versus Net), which further clarifies the implementation guidance on principal versus agent considerations contained in ASU 2014-09. In April 2016, the FASB issued ASU No. 2016-10, Revenue from Contracts with Customers (Topic 606)-Identifying Performance Obligations and Licensing, which further clarifies the implementation guidance relating to identifying performance obligations and the licensing implementation guidance. These standards, pursuant to ASU No. 2015-14, Revenue from Contracts with Customers-Deferral of the Effective Date (Topic 606) issued by the FASB in August 2015, will be effective for annual periods (including interim periods) beginning after December 15, 2017. We are currently evaluating the impact these provisions will have on our consolidated financial statements.

Critical Accounting Policies

There have been no significant changes to our critical accounting policies and estimates during the three months ended March 31, 2016 compared with those disclosed in Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations of our 2015 10-K.

Commitments

In connection with certain acquisitions, we are subject to contingent consideration agreements. If the acquired businesses meet predetermined targets, we are obligated to make additional cash payments in accordance with the terms of such contingent consideration agreements. As of March 31, 2016, the contingent consideration was determined to be \$21.6 million. The performance period for these contingent consideration arrangements ended on December 31, 2015 and we expect to pay these within the next three months. These payments will be included in cash used in investing activities.

Other than those described above, we have not entered into any significant commitments or contractual obligations that have not been previously disclosed in our 2015 10-K.

Item 3 - Quantitative and Qualitative Disclosures about Market Risks

With respect to our quantitative and qualitative disclosures about market risks, there have been no material changes to the information included in our 2015 10-K.

We are exposed to certain market risks arising from transactions in the normal course of business, principally risks associated with foreign currency fluctuations and interest rates.

Foreign Currency Fluctuations. Our exposure to fluctuations in foreign currency exchange rates relates primarily to our foreign subsidiaries. Exchange rates impact the U.S. dollar value of our reported earnings, investments in our foreign subsidiaries, and intercompany transactions with our foreign subsidiaries. Fluctuations in currency exchange rates impact the U.S. dollar amount of our stockholders' equity. The assets and liabilities of our non-U.S. subsidiaries are translated into U.S. dollars at the exchange rates in effect at period end. The resulting translation adjustments are recorded in stockholders' equity as a component of accumulated other comprehensive income. Based on the relative size and nature of our foreign operations, we do not believe that a 10 percent change in the value of foreign currencies relative to the U.S. dollar would have a material impact on our financial statements.

Interest Rate Risk. Our exposure to interest rate risk is associated with our debt instruments. See the "Note 6. Long-Term Debt" in the condensed consolidated financial statements for further description of our debt instruments. A hypothetical 100 basis point change in interest rates on variable rate debt would have resulted in interest expense fluctuating approximately \$7.4 million based on \$741.0 million of debt outstanding for any 12-month period. We have not entered into any market risk sensitive instruments for hedging or trading purposes.

Item 4 - Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Principal Financial and Accounting Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act). Based on this evaluation, our Chief Executive Officer and Principal Financial and Accounting Officer have concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report. The term “disclosure controls and procedures” means controls and other procedures of the Company that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within required time periods. We have established disclosure controls and procedures to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Principal Financial and Accounting Officer, as appropriate, to allow timely decisions regarding required disclosure.

There have been no changes in our internal control over financial reporting that occurred during the three months ended March 31, 2016 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1 – Legal Proceedings

We are involved in various legal proceedings, claims and litigation arising in the ordinary course of business. However, based on the facts currently available, we do not believe that the disposition of matters that are pending or asserted will have a material effect on our financial position, results of operations or cash flows.

Item 1A – Risk Factors

Information regarding risk factors affecting our business is discussed in our 2015 10-K.
