**PROXY STATEMENT
Annual Meeting of Stockholders
February 16, 2012**

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of proxies in the accompanying form. Shares will be voted in the manner directed by the stockholders; provided, however, that if a stockholder delivers a proxy without giving any direction, the shares will be voted as recommended by the Corporation's Board of Directors. A stockholder delivering a proxy may revoke it at any time before it is exercised by (i) giving written notice of revocation to the Office of the Secretary of the Corporation, (ii) delivering a duly executed proxy bearing a later date, or (iii) voting in person at the Annual Meeting.

Registered stockholders may vote in one of three ways: By completing and returning the enclosed proxy card via regular mail or by voting via the Internet or telephone, as permitted by Delaware law. Specific instructions for using these methods are set forth on the enclosed proxy card. The Internet and telephone procedures are designed to authenticate the stockholder's identity and to allow stockholders to vote their shares and confirm that their instructions have been properly recorded.

Proxies are being solicited by mail. In addition, directors, officers and employees of the Corporation may solicit proxies personally, by telephone or letter at no additional compensation to them. The Corporation will pay the expense of soliciting proxies and will reimburse brokerage firms and others for their expenses in forwarding proxy materials to beneficial owners of our common stock.

If a stockholder delivers a proxy and abstains from voting on any matter, the abstention will be counted for purposes of determining whether a quorum is present at the Annual Meeting of Stockholders for the transaction of business as well as shares entitled to vote on that matter. Under Section 216 of the Delaware General Corporation Law, on matters other than the election of directors, an action of the stockholders generally requires the affirmative vote of a majority of shares present in person or represented by proxy at the meeting and entitled to vote on the matter. Accordingly, an abstention on any matter other than the election of directors, which uses a plurality standard, will have the same effect as a vote against that matter.

A “street name” holder is the beneficial owner of shares held in a stock brokerage account or by a bank, trust or other nominee. Street name holders generally cannot vote their shares directly and must instead instruct the broker, bank, trust or other nominee how to vote their shares using the voting instruction form provided by it. If a street name holder does not provide timely instructions, the broker or other nominee may have the authority to vote on some proposals but not others. If the broker or other nominee votes on one proposal, but does not vote on another proposal because the nominee does not have discretionary voting power and has not received instructions from the beneficial owner, this results in a broker non-vote. Broker non-votes on a matter are counted as present for purposes of establishing a quorum for the meeting, but are not considered entitled to vote on that particular matter. Consequently, non-votes generally do not have the same effect as a negative vote on the matter.

Street name holders of shares held in broker accounts should be aware of changes in voting rules that will affect whether their shares will be voted in the election of directors and executive compensation. Under applicable New York Stock Exchange Rules relating to the discretionary voting of proxies by brokers, brokers are not permitted to vote shares with respect to the election of directors and executive compensation without instructions from the beneficial owner. However, brokers are permitted to vote shares held in brokerage accounts with respect to the approval of the independent registered public accounting firm, even if they do not receive instructions from the beneficial owner. Therefore, street name holders of shares held in broker accounts are advised that, if they do not timely provide instructions to their broker, their shares will not be voted in connection with Proposals 1 and 2.

PROPOSAL 1

Election of Directors

In accordance with the Corporation's By-Laws, we may have up to twelve directors, divided into three classes. Each class consists of four seats, with each director serving a term of three years. The Board of Directors has nominated Jack J. Allen for election and John S. Bode and Jeffrey H. Curler for re-election as Class II directors. Unless otherwise directed by the stockholders, it is intended that shares represented by proxy will be voted in favor of the election of the three nominees listed in Class II below, to hold office until the annual meeting in 2015 and until their successors are elected and qualify. If any of the nominees is unable or unwilling to stand for election, it is intended that shares represented by proxy will be voted for a substitute nominee recommended by the Board of Directors, unless the stockholder otherwise directs. The Board is not aware that any of the nominees is unable or unwilling to stand for election.

CORPORATE GOVERNANCE

General

We are committed to good corporate governance practices. These practices provide a framework in which our Board of Directors and management can pursue the strategic objectives of Valspar and ensure the long-term success of the Corporation for the benefit of our stockholders.

The cornerstone of our corporate governance practices is an independent and qualified Board of Directors. All standing Board committees are composed entirely of independent directors. Each of the Nominating and Governance, Audit and Compensation Committees operate under a charter in order to focus the work of the committee and to ensure that the Board of Directors as a whole is addressing key functions. Each committee reviews its charter on an annual basis.

Structure of Board

In accordance with our By-Laws, the Corporation may have up to twelve directors, divided into three classes of four directors each. There are currently eleven directors serving on the Board of Directors. Each director serves a term of three years under our staggered board structure. The directors believe that the staggered structure of the Board facilitates long-term strategic planning and succession, allowing directors to oversee risks and opportunities for the long-term success of the Corporation and the benefit of our stockholders.

Board Standards and Objectives

The Board of Directors carefully evaluates each incoming director candidate based on selection criteria and overall priorities for Board composition that are re-examined periodically by the Nominating and Governance Committee with input from the rest of the directors. As our directors' commitments or responsibilities change, the Board re-evaluates their situations to ensure they can continue to serve in the best interests of the Corporation and its stockholders. We also require high standards of ethics from our directors and management as described in our Code of Ethics and Business Conduct. In carrying out their duties and responsibilities, directors are guided by the following performance objectives, which are stated in the Corporation's Principles of Corporate Governance:

- Follow the Corporation's Code of Ethics and Business Conduct
- Represent the interests of stockholders and other stakeholders
- Demonstrate good knowledge of the Corporation and its business and exercise good judgment in representing the interests of stockholders and other stakeholders

- Participate in Board processes and activities in a meaningful way
- Communicate openly and freely with other Board members and management
- Provide expertise based on the director's relevant experience
- Provide vision and leadership for the Corporation
- Maintain a good reputation and standing in the business and professional communities in which the director operates

Public Availability of Governance Documents and Public Reports

Our Principles of Corporate Governance, and the charters of the Nominating and Governance, Audit and Compensation Committees are available on the "Investors – Corporate Governance" section of the Corporation's website at www.valsparcorporate.com.

The Corporation's Code of Ethics and Business Conduct is available on the "Investors – Corporate Governance" section of our website at www.valsparcorporate.com. Our Code of Ethics and Business Conduct applies to all of our employees, including our Chief Executive Officer, Chief Financial Officer and Principal Accounting Officer, and to our directors. If our Board of Directors grants any waivers of or amendments to, the Code of Ethics and Business Conduct to any of our directors or executive officers, we will disclose the matter through our website.

The Corporation's annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments thereto, are available on the "Investors – Financial Information" section of the Corporation's website at www.valsparcorporate.com the same day the reports are filed with the Securities and Exchange Commission ("SEC").

Director Independence

The Board believes that a majority of its members, and all members of each standing committee, should be independent, non-employee directors. The Board has established standards consistent with the current listing standards of the New York Stock Exchange for determining director independence.

The Board annually reviews all relationships that directors have with the Corporation to determine whether the directors are independent. Directors are considered “independent” as long as they do not accept any consulting, advisory or other compensatory fee (other than director fees) from the Corporation, are not an affiliated person of the Corporation or its subsidiaries and are independent within the meaning of applicable laws, regulations and the NYSE listing requirements. The independent members of the Board meet regularly without any members of management present. In accordance with our Corporate Governance Guidelines, Mr. Curler, as Governance Chair and Lead Director, presides at executive sessions. Only independent directors serve on our Audit, Compensation and Nominating and Governance (“Governance”) Committees.

The Board has determined that all members of the Board are “independent” under applicable NYSE listing standards, except for Mr. Hendrickson, our CEO, and Mr. Mansfield, our Chairman. The members of the Board deemed independent are Jack J. Allen, John S. Bode, William M. Cook, Jeffrey H. Curler, Ian R. Friendly, Janel S. Haugarth, Mae C. Jemison, Stephen D. Newlin and Gregory R. Palen. Mr. Newlin is the Chairman, President and Chief Executive Officer of PolyOne Corporation, and Mr. Cook is the Chairman, Chief Executive Officer and President of Donaldson Company, Inc., each of which supplies certain products to the Corporation. The Corporation’s purchases from Donaldson Company, Inc. were below the disclosure threshold for related transactions. Mr. Allen is the President, North American Truck Group, of Navistar, Inc., which purchases certain products from the Corporation. See “Certain Relationships and Related Transactions” below. The Board considered these relationships in determining that Mr. Newlin, Mr. Cook and Mr. Allen are each independent.

Certain Relationships and Related Transactions

The Board has adopted a written Related Person Transaction Policy. This policy is intended to supplement, and not to replace or supersede, the provisions of any other corporate policy, including but not limited to the Corporation’s Principles of Corporate Governance and Code of Ethics and Business Conduct. The Related Person Transaction Policy is available on the “Investors – Corporate Governance” section of our website [at www.valsparcorporate.com](http://www.valsparcorporate.com), as Exhibit 11 to the Principles of Corporate Governance. The Audit Committee is responsible for reviewing and approving all related person transactions and has also adopted standing pre-approvals for certain categories of transactions with related persons:

- *Certain transactions with other companies.* Any transaction with another company in which a related person’s only relationship is as an employee, director or beneficial owner of less than 10% of that company’s shares, if the aggregate amount involved does not exceed the greater of \$500,000 or 1% of that company’s or the Corporation’s

total annual revenues.

Transactions where all stockholders receive proportional benefits. Any transaction where the related person's

- interest arises solely from the ownership of the Corporation's common stock, and all holders of the Corporation's common stock received the same benefit on a pro rata basis (e.g. dividends).
- *Transactions not exceeding \$100,000.* Any transaction in the ordinary course of business in which the aggregate amount involved will not exceed \$100,000, when aggregated with all similar transactions.

Stephen D. Newlin, a member of the Board of Directors of the Corporation, is the Chairman, President and Chief Executive Officer of PolyOne Corporation ("PolyOne"), which supplies certain products to the Corporation. In fiscal 2011, PolyOne sold products to the Corporation with an aggregate purchase price of approximately \$9.5 million. The Board of Directors reviewed these transactions, which were entered into in the ordinary course of business, and determined that they did not affect Mr. Newlin's independence.

Jack J. Allen, a member of the Board of Directors of the Corporation, is President, North American Truck Group of Navistar, Inc. ("Navistar"), which purchases certain products from the Corporation. In fiscal 2011, Navistar purchased approximately \$250,000 of products from the Corporation. The Board of Directors reviewed these transactions, which were entered into in the ordinary course of business, and determined that they did not affect Mr. Allen's independence.

Director Nomination Process

The Corporation's Board of Directors has adopted a formal process by which individuals are reviewed for possible nomination to the Corporation's Board of Directors. Under this process, the Governance Committee will consider nominees for Board membership submitted by stockholders. Any stockholder recommendation should be submitted in writing to the Corporation in care of the Corporate Secretary at P.O. Box 1461, Minneapolis, Minnesota 55440, along with the written consent of such nominee to serve as a director if so elected. Any such recommendation by a stockholder shall be referred to the Governance Committee, and the Governance Committee, in consultation with the Corporation's General Counsel, will review the nomination in accordance with the Corporation's Board Candidate Review and Nomination Process, certificate of incorporation, by-laws and applicable laws and regulations. The Governance Committee considers general business experience, industry experience, track record as a director of other companies, probable tenure if elected and other factors as relevant in evaluating Board nominees. The Governance Committee (or a subcommittee designated by the Governance Committee) will normally consider all of the following: (a) the candidate's skills, experience and other relevant biographical information, (b) the candidate's general interest in serving a public corporation, (c) the candidate's ability to attend Board and committee meetings, and (d) any potential concerns regarding independence or conflicts of interest.

Following the initial screening, if the Governance Committee approves a candidate for further review, the Governance Committee will establish an interview process for the candidate. It is expected that at least a majority of the members of the Governance Committee, along with the Corporation's Chief Executive Officer, would interview each candidate. At the same time, the Governance Committee, assisted by the Corporation's General Counsel, will conduct a comprehensive conflict-of-interest assessment for the candidate. The Governance Committee will then consider reports of the interviews and the conflicts-of-interest assessment and determine whether to recommend the candidate to the full Board of Directors. A subcommittee of the Governance Committee, management representatives designated by the Governance Committee and a search firm selected by the Governance Committee may assist with the process. Any nominee recommended by a stockholder would be subject to the same process.

When the full Board considers an individual for possible nomination to the Board, the Governance Committee, in consultation with the Corporation's Chief Executive Officer, will prepare a profile of a candidate expected to provide the most meaningful contribution to the Board as a whole. The Board of Directors has not adopted a specific policy with regard to diversity, but the Board views and seeks diversity in its broadest sense, which includes independence, integrity, judgment, experience, financial acumen, education, gender, ethnicity and leadership qualities.

Upon recommendation to the full Board by the Governance Committee, Mr. Allen was elected in December 2011 after following the process described above. A third party recruiting firm engaged by the Governance Committee to assist in the director search interviewed Mr. Allen during the nomination process, and the Corporation paid a fee to the recruiting firm for its services.

Board Leadership

The Chairman of the Board leads the Board and oversees Board meetings and the delivery of information necessary for the Board's informed decision-making. The Chairman also serves as the principal liaison between the Board and our management.

The Board does not have a policy as to whether the Chairman should be an independent director or a member of management. Instead, the Board selects the Corporation's Chairman based on what it determines to be in the best interests of the Corporation's stockholders. At this time, William L. Mansfield serves as Chairman of the Corporation and Gary E. Hendrickson serves as President and Chief Executive Officer. The Board believes that Mr. Mansfield's long service, experience and background serve the best interests of the Corporation and its stockholders and that he is well qualified to lead the Corporation and its Board of Directors. When the Chairman is not independent, the Chair of the Governance Committee, an independent director, also serves as Lead Director. Jeffrey H. Curler currently serves as Lead Director. As the Chair of the Governance Committee, he is responsible for performing the duties specified in the Corporation's Principles of Corporate Governance, including facilitating communications between the Board and the Chief Executive Officer, and such other duties as are determined by the independent directors.

Board Role in Risk Management

The Board believes that effective enterprise risk management must be an integral part of Board and committee deliberations and activities throughout the year.

- The Audit Committee reviews annually the Corporation's enterprise risk management process and a comprehensive assessment of key financial, operational and strategy risks identified by management, as well as mitigating practices. The Audit Committee reports on this process and its conclusions to the full Board of Directors.
- The full Board of Directors discusses risks related to the Corporation's annual financial plan and budget each fiscal year and risks related to the Corporation's strategy at meetings where the strategy is presented and reviewed. The Board of Directors also encourages management to promote a corporate culture that integrates risk management into the Corporation's strategy and day-to-day business operations in a way that is consistent with the Corporation's targeted risk profile.

Through these processes, the Board oversees a system to identify, assess and address material risks to the Corporation on a timely basis.

Board Committees and Functions

The standing committees of the Board of Directors for fiscal 2011 were as follows:

Name of Committee	Membership
Executive Committee	Jeffrey H. Curler, Gary E. Hendrickson, William L. Mansfield – Chair and Gregory R. Palen
Audit Committee	John S. Bode – Chair, Ian R. Friendly, Janel S. Haugarth and Mae C. Jemison
Compensation Committee	William M. Cook, Jeffrey H. Curler, Stephen D. Newlin and Gregory R. Palen – Chair
Nominating and Governance Committee	John S. Bode, Jeffrey H. Curler – Chair, Stephen D. Newlin and Gregory R. Palen

The Board of Directors met five times during fiscal 2011.

The Executive Committee, in accordance with the Principles of Corporate Governance, generally meets or acts only in emergencies or when requested by the full Board. The Executive Committee did not meet or act during the fiscal year.

The Audit Committee held four meetings during the fiscal year. The Audit Committee Chair also held four meetings with management and the Independent Auditors prior to quarterly earnings releases. The duties and activities of the Audit Committee are described in the Audit Committee Report beginning on page 32. All members of the Audit Committee are “independent” under the applicable listing standards of the New York Stock Exchange (“NYSE”) and the requirements for audit committee independence under Rule 10A-3 under the Securities Exchange Act of 1934. The Board has determined that each Audit Committee member is financially literate and has determined that at least one member of the Audit Committee, John S. Bode, is an “audit committee financial expert” who is independent of management as defined in Item 401(h)(2) of Regulation S-K.

The Compensation Committee held three meetings and one conference call during the fiscal year. The Compensation Committee Chair also met with management prior to each meeting. The Compensation Committee is responsible for all matters relating to compensation of senior management and directors and for adoption and administration of employee compensation and benefit plans. All members of the Compensation Committee are independent under the applicable listing standards of the NYSE. During the year, the Compensation Committee reviewed and approved the compensation plans, arrangements and equity awards for officers, employees and directors.

The Compensation Committee may not delegate its responsibility of overseeing executive officer and director compensation, but may, and has, delegated to management certain administrative aspects of the Corporation’s compensation plans which do not involve setting compensation levels for executive officers and directors. Additional information on the role of management and compensation consultants in our compensation process is contained in the Compensation Discussion and Analysis beginning on page 10.

The Governance Committee held four meetings during the fiscal year at which it conducted Chief Executive Officer performance evaluations, reviewed succession plans, considered nominations for Board membership and considered other matters related to corporate governance. All members of the Governance Committee are independent under the applicable listing standards of the NYSE.

During fiscal 2011, each director attended 75% or more of the meetings of the Board and of the committees on which the director served.

Communications with Certain Directors

The Chair of the Governance Committee, currently Mr. Curler, presides at regularly scheduled executive sessions of the non-management directors. Stockholders and other interested parties wishing to contact the presiding director or the non-management directors as a group may do so by writing to the Chairman of the Governance Committee in care of the Corporate Secretary at the Corporation's headquarters address.

Compensation Risk Analysis

The design of our compensation policies and practices, including those applicable to our executive officers, does not encourage taking unnecessary or excessive risks that could harm the Corporation's long-term value. Features of our compensation policies and practices include, among other things:

- A balanced mix of short-term and long-term performance awards and cash and equity awards;
- Long-term incentives consisting of stock options, performance-based restricted stock and restricted stock units which utilize a balanced mix of performance measures;
- Ranges of performance that ultimately determine incentive compensation payouts, rather than a single performance target providing an "all or nothing" basis for incentive compensation;
- Caps on our executive incentive compensation programs that limit payments;
- Incentive compensation payouts for the officers of the Corporation are subject to Compensation Committee approval; and
- Guidelines specifying stock ownership levels for officers.

In addition, Meridian Compensation Partners, LLC, an outside compensation consulting firm retained by the Compensation Committee, periodically benchmarks our executive compensation program and award opportunities against those of peer group companies. Meridian and the Compensation Committee have concluded that our compensation program and award opportunities, and our historical payouts, have been and remain competitive, but not excessive, and are in line with companies of similar size and industry.

Compensation Discussion and Analysis

Executive Summary of Fiscal 2011 Financial Performance and Compensation Actions

Valspar delivered strong financial performance in fiscal 2011, despite significantly higher raw material costs and softer demand that emerged in the latter half of the year. In fiscal 2011, net sales increased to \$3.95 billion, a 22.5% increase over fiscal 2010. We also achieved adjusted net income of \$257.4 million, a 14.7% increase over fiscal 2010, and adjusted pre-tax return on capital of 15.1%, an 80 basis point increase over fiscal 2010. The adjusted net income and adjusted pre-tax return on capital results exclude \$396.0 million in adjustments consisting of a non-cash impairment charge for goodwill and intangibles, restructuring charges and acquisition related charges.

Over our last five fiscal years, Valspar has delivered total shareholder return of 51%, or 8.6% on an annualized basis. Over the same period, the S&P 500 increased 3.8%, or 0.8% on an annualized basis. The Corporation generated \$292 million of operating cash flow in fiscal 2011, compared to \$266 million in fiscal year 2010, and we increased our dividend for the 33rd straight year, to \$0.72 per share.

We reported a net loss of \$138.6 million for fiscal 2011, which included an after-tax non-cash impairment charge of \$363.4 million, after-tax restructuring charges of \$23.2 million, and after-tax WattyI and Isocoat acquisition related charges of \$9.4 million. We exclude these items from the performance goals so as not to penalize employees for taking actions in the long-term best interests of the Corporation and its stockholders. Excluding these items: Net income was 14.7% higher than the entry point for fiscal 2011 performance goals; 2011 pre-tax return on capital was 15.1% which was 80 basis points higher than the entry point for fiscal 2011 performance goals; and our reported net sales were \$3.95 billion, 22.5% higher than the previous year, which was the entry point for fiscal 2011 performance goals. The base salaries of the named executives were increased in 2011, and the bonus earned for corporate performance averaged 90.8% of salary (ranging from 67.2% to 122.9% of base salary for the named executives). As a result of our fiscal 2011 performance with respect to net income, net sales and pre-tax return on capital (excluding the above non-cash impairment charge for goodwill and intangibles, restructuring charges, and acquisition impacts) against the 2011 performance goals, the annual incentive bonus, restricted stock awards and RSUs for each of the named executives were lower for 2011 than for 2010.

The Compensation Committee believes that the Corporation's executive compensation programs have been effective in driving superior results for stockholders by offering competitive pay for financial performance, aligning the interests of executives and stockholders and enabling the Corporation to attract and retain qualified and experienced executives. Last year, more than 89% of the votes cast in the Corporation's Say-on-Pay vote were cast in favor of approving the Corporation's compensation for its named executive officers. Under **Proposal 2** in this Proxy Statement, we are recommending that stockholders cast their advisory vote in favor of approving the Corporation's compensation for its

named executive officers as disclosed in the Proxy Statement (“Say-on-Pay” vote).

Compensation Program Objectives

This discussion and analysis describes our compensation objectives and the elements of our compensation program for executive officers for the fiscal year ended October 28, 2011. The broad objectives of our executive compensation program are to:

- 1 *Offer competitive pay for financial performance*
- 2 *Align the interests of executives and stockholders*
- 3 *Attract and retain qualified, experienced executives*

We seek to achieve these objectives by providing an executive compensation program with a mix of short and long term compensation elements, including a competitive base salary, stock option grants, a performance-based annual cash bonus and performance-based restricted stock and restricted stock units (RSUs).

Competitive Pay for Financial Performance. A significant portion of the compensation for each executive is based on performance against financial objectives established by the Committee. Key elements of compensation that depend on performance include:

- *Annual Cash Bonus* — earned based on performance against goals for financial measures (such as growth in net income, net sales and pre-tax return on capital) established in the first quarter of the fiscal year.

- Restricted Stock and Restricted Stock Units (RSUs)* — awarded based on performance against the same goals for
- financial measures established for the annual incentive bonus; the value to the executive is then subject to the long-term performance of our common stock over the vesting period, typically three to five years.

We use the same financial measures and goals for the annual cash bonus, restricted stock and RSUs to focus the executives on those measures considered most critical to achieving superior results for stockholders.

Alignment with Stockholder Interests. We expect our executives to have a significant personal financial stake in the Corporation. Annual cash incentive bonuses, restricted stock and RSU awards to named executives are earned based on achievement of financial performance measures (such as growth in net income, net sales and pre-tax return on capital). We believe that superior performance on these measures increases stockholder value over the long term. Stock options, restricted stock and RSUs align directly the interests of our executives and stockholders, as the value of these incentives to executives is directly correlated to our stock price.

To more closely align the interests of the named executives with those of stockholders, we have established stock ownership guidelines for our officers, including the named executives, as follows: For the CEO, the guidelines specify stock ownership representing five times base salary within five years after becoming CEO; and for the other named executives, the guidelines specify stock ownership representing three times base salary within five years after becoming an executive officer. All of our named executives are in compliance with these guidelines.

We have agreements with the four current executives identified in the 2011 Summary Compensation Table beginning on page 18 (all individuals named in the table are referred to as our “named executives”) that would provide for their continued employment for, or compensation in the event their employment is terminated during the two-year period after a change in control (“double-trigger”), such as an acquisition or merger in which Valspar is not the surviving company. In addition, outstanding stock options, restricted stock awards and RSUs vest immediately upon a change in control. These agreements are described in more detail under “Termination of Employment and Change in Control Agreements” on page 26. These agreements reduce the likelihood of an executive leaving the Corporation due to uncertainty surrounding an acquisition, which could serve to reduce management disruption and increase the value of the Corporation to a potential acquirer. These agreements also help the named executives stay focused on maximizing stockholder value, without the distraction caused by the prospect of losing their compensation upon a change in control.

Attract and Retain Management. Our compensation program is intended to attract qualified executives and to promote retention of our experienced management team. The named executives who are currently executive officers have a combined total of more than 50 years of service with Valspar, during which they have held different positions and have been promoted to increasing levels of responsibility. Our succession planning, retention and internal development of strong executives have resulted in the internal promotion of two consecutive Chief Executive Officers.

The Committee performs periodic assessments of the competitive nature of the different elements of our compensation program. We use benchmark studies to help determine whether the total compensation of our executive officers is competitive with compensation offered by comparable companies. In addition to compensation opportunities, we believe that our change in control agreements help us hire and retain qualified executives.

The vesting features of our long-term incentives encourage executives to remain employed by the Corporation. Generally, stock options, restricted stock and restricted stock unit awards fully vest over three or more years.

Edgar Filing: VALSPAR CORP - Form DEF 14A

The chart below indicates how each element of our fiscal 2011 executive compensation program was intended to achieve our stated compensation objectives of competitive pay for financial performance, aligning the interests of executives and stockholders and attracting and retaining qualified, experienced executives.

2011 Compensation Element	Attract and Retain	Pay for Financial Performance	Aligned Interests	Comments
Base Salary				Salary is based on experience and responsibilities, with market review compared to peer group to maintain salary at competitive levels.
Annual Cash Bonus				Corporate financial performance can affect the timing and amount of adjustments. Earned based on objective financial performance against measures such as growth in net income, net sales and pre-tax return on capital measures considered to enhance stockholder value.
Stock Options				Future option value is based on share appreciation, which aligns with stockholder interests. Three-year vesting promotes retention. Direct ownership of stock creates immediate alignment with stockholder interests, and three-year vesting of restricted stock and RSUs has retention value.
Restricted Stock and RSUs				Earned based on performance against objective financial measures.
Change in Control				The special grant of an RSU to the Chief Executive Officer, including five-year cliff vesting and payout after retirement, is intended to further enhance alignment and retention. Provides alignment in change of control situation by removing job loss concern and has retention value. Perquisites and other compensation are at competitive levels to attract and retain talented executives.
Other Compensation				Contributions to the retirement and savings plan are based in large part on financial performance.

Arrangements with New Chief Executive Officer

On February 17, 2011, we entered into an agreement with Mr. Hendrickson, formerly our Chief Operating Officer, to become our President and Chief Executive Officer, effective June 1, 2011. As CEO, Mr. Hendrickson's compensation package includes the following: A base salary of \$800,000 per year with a cash bonus target equal to 110% of base earnings and a long-term incentive target opportunity valued at \$3,000,000.

To reflect his promotion with seven months of fiscal 2011 complete, Mr. Hendrickson retained his incentive target opportunities which had previously been approved for fiscal 2011 and the following additional incentive opportunities were provided reflecting five months of CEO compensation package: Additional cash bonus target opportunity of \$131,250 (combined total of \$696,250) and an additional restricted award target opportunity of \$500,000 (combined total target of \$1,400,000).

To provide further alignment with stockholder interests and an incentive for Mr. Hendrickson to remain with the Corporation through his retirement at or after age 60, we granted to Mr. Hendrickson on June 1, 2011 a one-time cash-settled RSU award of 104,172 shares of common stock valued at \$4,000,000. The entire RSU award will vest on September 13, 2016, which is the date on which Mr. Hendrickson will reach age 60, or earlier in the event of his death with his spouse surviving, disability, a change in control of the Corporation or termination without cause. The RSU award is payable to Mr. Hendrickson six months after his retirement or other

separation from the Corporation after the vesting date, but is subject to forfeiture if Mr. Hendrickson is terminated for cause. Cause is defined as willful and continued failure of Mr. Hendrickson to perform substantially his duties, after a written demand specifying the failure is delivered by the Board of Directors, or willful engagement in illegal conduct or gross misconduct that is materially and demonstrably injurious to the Corporation. Mr. Hendrickson also receives dividend equivalent amounts on the RSU award, credited quarterly in the form of additional share units under the RSU award, payable upon a qualifying event on the same terms as the underlying RSUs.

Pursuant to the agreement with Mr. Hendrickson, the Corporation will continue to provide certain other benefits, including continued participation in all applicable benefit plans; payment of reasonable business expenses including club membership, medical examinations and financial planning services. Mr. Hendrickson's existing change in control agreement was not affected by his new compensation arrangements. In connection with these arrangements, Mr. Hendrickson has agreed not to compete with the Corporation or solicit any of the Corporation's employees for three years following termination of his employment.

The agreement with Mr. Hendrickson was the result of arm's-length negotiation between representatives of Mr. Hendrickson and members of the Board, which received advice and input from counsel and the independent consultant to the Committee. The Board believed that the salary, bonus, long-term incentives and other aspects of compensation provided under the agreement were competitive with the compensation packages provided to CEOs in comparable companies. The Board also believed that the one-time RSU award greatly enhances Mr. Hendrickson's alignment with stockholder interests, as no portion of the award will vest for five years, it is not paid out until retirement, and the ultimate value of the payout will depend on the performance of the Corporation's common stock over a long period of time. In addition, the Board believed that Mr. Hendrickson's overall compensation package is very favorable to the Corporation relative to the compensation that would have been required for recruiting a new CEO externally.

Compensation Program Elements Awarded in Fiscal 2011

Consistent with our overall compensation objectives, we seek to provide a market-competitive mix of annual bonus and long-term incentive opportunities and to ensure that program participants, including our executives, understand the drivers of incentive opportunities available to them. The elements of this program are set forth in the Key Employee Annual Bonus Plan (the "Key Employee Plan"). The program places a significant portion of compensation at risk each fiscal year, rewards strong performance and long-term value creation and aligns executive and stockholder interests by promoting significant ownership of the Corporation's stock.

Base Salary. Salary adjustments for executive officers are generally considered annually. As described on page 16 under "Competitive Assessments," in setting each named executive's base salary, the Committee reviews compensation studies periodically provided by an independent compensation consultant to help determine whether the compensation of our executive officers is competitive with compensation offered by comparable companies to individuals in comparable positions. The Committee also considers each executive's experience, job responsibilities, internal pay equity and the financial performance of the Corporation. In June 2010, the Committee considered the results of a

compensation study conducted by an independent compensation consultant and approved an increase in the base salaries of the named executives. The base salary of the named executives increased by an average of 7.7% from fiscal 2010 to fiscal 2011, which includes the promotion of Mr. Hendrickson to Chief Executive Officer.

Annual Cash Bonus. The Committee establishes annual cash incentive bonus targets for each officer, expressed as a percentage of his or her base salary earned during the fiscal year. In establishing the incentive bonus targets, the Committee considers annual bonus targets assessed periodically for corresponding positions at peer group companies, last evaluated in 2010, and internal pay equity among Valspar executives. The annual incentive bonus for each of the executive officers for 2011 was based upon (1) an incentive bonus target established for the executive expressed as a percentage of base salary earned, and (2) our actual corporate performance with respect to the financial performance goals established by the Committee.

Before the start of fiscal 2011, as part of an annual review of total compensation, the Committee established each executive's incentive bonus target as a percentage of base salary based on position, ranging from 60.0% to 110.0% of base salary for the named executives. In establishing the target percentages, the Committee considers several factors including the scope and responsibilities of each position, market bonus target percentages for similar roles at peer group companies and relative internal equity.

In the first quarter, the Committee established specific performance goals for the named executives. The performance goals for executives are based on financial measures (such as net income, gross or net sales, expenses as a percentage of net sales, inventory turns, return on average equity and cash flow), either on an

absolute basis or a comparative basis with other fiscal years. Payouts for fiscal 2011 were based on corporate financial performance relative to the following financial measures – growth in net income, pre-tax return on capital and growth in net sales. At the end of the fiscal year, if the executive remained employed by us, the executive was entitled to receive a cash bonus based on achievement of each of the performance goals. Potential payouts range from zero for performance less than the entry point (prior year’s results) to 200% of the incentive bonus target for exceptional performance, adjusted for the cost of restructuring, changes in accounting standards, policies and procedures that impact reported results and non-recurring gains or charges from acquisitions and divestitures. We make these adjustments to the performance goals so as not to penalize employees for taking actions in the long-term best interests of the Corporation and its stockholders.

The Committee established fiscal 2011 performance goals for the named executives in two tiers:

- Basic performance goals based on three financial measures: net income growth (weighted 60% as a component of the bonus), growth in pre-tax return on capital (weighted 20%) and net sales growth (weighted 20%), with a payout of up to 100% of the named executive’s incentive bonus target for performance equal to these basic goals; and
- Additional incentive performance goals for exceptional corporate performance based on two financial measures: net income growth (weighted 50%) and growth in pre-tax return on capital (weighted 50%), with an additional payout of up to 100% of the named executive’s incentive bonus target for performance equal to these additional goals. Payout for additional goals would only apply if performance on one or both of these measures exceeded the 100% payout level against the basic performance goals. These two measures were used to establish the additional incentive performance goals due to their relative importance to stockholders and potential impact on the Corporation’s stock price.

In the first quarter of fiscal 2011, the Committee established the following performance goals for each of the financial performance measures:

Basic Performance Goals — 100% Potential Maximum Payout

USD (000s)	Entry Point: 0% Payout	Basic Goal: 100% Payout	Weighting
Net Income	\$224,495	\$248,666	60%
Pre-Tax Return on Capital	14.3	% 15.8	% 20%
Net Sales	\$3,226,687	\$3,841,358	20%

Additional Incentive Performance Goals — 100% Potential Additional Payout

USD (000s)	Weighting
------------	-----------

	Entry Point: 0%	Basic Goal: 100%		
	Payout	Payout		
Net Income	\$248,666	\$269,394	50%	
Pre-Tax Return on Capital	15.8 %	16.8 %	50%	

The basic performance goals were established so that achievement of the 100% payout would represent strong performance in each of the financial measures, based on prior year performance and general economic conditions, and be difficult, but achievable. The additional incentive performance goals were established to incent and reward exceptional performance in net income and pre-tax return on capital. As an indication of the difficulty of achieving our performance goals, the average payout for achievement of corporate performance goals (including payouts for achievement of the additional incentive performance goals where applicable) for the past five years has ranged from 10.1% to 195.8% of the total targeted incentive bonus levels.

In fiscal 2011, we achieved adjusted net income of \$257.4 million, adjusted pre-tax return on capital of 15.1% and net sales of \$3.95 billion (excluding a non-cash impairment charge, restructuring charges and acquisition related charges, as noted below). The Committee excluded \$363.4 million for an after-tax non-cash impairment charge for goodwill and intangibles associated with our wood and gelcoat product lines and after-tax restructuring charges of \$23.2 million. In addition, the Committee excluded an after-tax charge of \$9.4 million for Wattyl and Isocoat acquisition related charges. These charges were excluded from the performance goals so as not to penalize employees for taking actions in the long-term best interests of Valspar and its stockholders. Based on our 2011 financial performance, the Corporation achieved the basic goals and achieved the additional incentive goal for net income (both exclude the above non-cash impairment charge for goodwill and intangibles, restructuring charges and acquisition impacts). Therefore, the incentive bonus payouts represented 111.7% to 112.0% of the incentive bonus target, with the resulting bonuses representing a range of 67.2% to 122.9% of base salary for the named executives.

Stock Options, Restricted Stock and RSUs (Long-Term Incentives). Long-term incentive opportunities are provided in the form of stock options, performance-based restricted stock and performance-based RSU awards.

Valspar's annual stock option awards are granted in October of each year and typically vest in three to five years. The Corporation does not time its annual grants to coordinate with the release of material non-public information and does not coordinate or time the release of corporate information with grant dates. On occasion, the Corporation grants options outside of the annual grant cycle for new hires, promotions or other reasons deemed appropriate by the Committee. Grants to executive officers are approved by the Committee with effective dates on or after the date of such approval.

Under our executive compensation program, the Committee establishes a Long-Term Incentive Target Value ("LTI Target") for each participant annually. In setting the individual LTI Targets, the Committee considers the long-term incentive levels for like positions at peer group companies, job responsibilities and relative internal pay equity. Half of the LTI Target for each year is granted in the form of a stock option. The other half of the LTI Target is the target value of restricted stock and RSU awards that can be earned, contingent on achievement of financial performance goals for the fiscal year.

The actual value of the restricted stock and RSU awards will range from zero to 125% of the target level, depending on performance during the fiscal year against the goals set by the Committee. For 2011, the performance goals for restricted stock and RSU awards are the same as the performance goals established for the basic component of the annual incentive bonus, as described above. We use the same financial measures and goals for the annual cash bonus, restricted stock and RSUs to focus the executives on those measures considered most critical to achieving superior results for stockholders.

Restricted stock and RSU awards are made after the end of the fiscal year based on achievement against the performance goals established in the first quarter of the year. To promote executive retention, the restricted stock and RSU awards are subject to forfeiture for three years from the date of grant if the participant's employment with Valspar terminates for any reason other than death, disability, retirement or a change in control of Valspar.

The future value of these stock options, restricted stock and RSU awards depends on the value of Valspar's common stock, thus aligning the interests of the named executives with stockholder interests. By providing incentive and total compensation opportunities that compare favorably with opportunities provided to executives at competitive companies, the program assists Valspar to attract and retain talented executives. Further, the amount of restricted stock and RSU awards is designed to reward for exceptional performance based on objective financial measures, which are considered by the Committee to enhance stockholder value.

No Employment Agreements. We do not have employment agreements with any of the named executives. Our named executives serve at the will of the Board of Directors, and their employment may be terminated at any time. However,

we have entered into change in control agreements as described below. Also, the Committee has adopted a policy of making severance payments generally equal to one year's salary and certain other benefits, to executive officers whose employment is terminated without cause as described in more detail under "Severance Policy for Officers" on page 25. This policy is intended to assist in establishing standardized benefits for termination without cause and to induce any terminated officer to enter into a three-year non-compete agreement with Valspar.

No Pension. None of the named executives is eligible for a Valspar pension. We previously established an unfunded executive retirement plan for Mr. Mansfield as described below under "SERP for Former Chief Executive Officer."

Change in Control Agreements. We have entered into agreements with the named executives, providing for the continued employment or compensation, and for the payment of other benefits, after a change in control of Valspar. The Key Employee Plan, the 1991 Stock Option Plan, the 2001 Stock Incentive Plan and the 2009 Omnibus Equity Plan provide that stock options and restricted stock granted under such plans shall vest immediately upon a change in control of Valspar. The change in control agreements for the named executives provide for a two-year employment term with the Corporation after the change in control, and a lump sum payment equal to three times an executive's annual base salary and target annual bonus (plus three years of continued benefits) if such employment is terminated by the Corporation without cause or by the executive for good reason during the two-year employment term ("double trigger"). Further, the Corporation is required to reimburse the executive for excise taxes that might be payable by the executive with respect to these payments, as well as any excise or income taxes that may be payable with respect to the reimbursement. We believe these agreements are consistent with those offered by peer companies and reduce the likelihood of an executive leaving

the Corporation due to uncertainty surrounding an acquisition, which could serve to reduce management disruption and increase the value of the Corporation to a potential acquirer. These agreements also help the named executives stay focused on maximizing stockholder value, without the distraction caused by the prospect of losing their compensation upon a change in control.

Retirement. Stock options, restricted stock and RSUs granted to the named executives under the 2009 Omnibus Equity Plan will vest upon retirement after age 55 with an executed non-compete agreement. However, stock options and restricted stock granted to the named executives prior to the adoption of the 2009 Omnibus Equity Plan vest immediately upon retirement after age 60, or upon early retirement after age 55 with an executed non-compete agreement.

SERP for Former Chief Executive Officer. We established an unfunded supplemental executive retirement plan (a “SERP”) for Mr. Mansfield in connection with his promotion to Chief Executive Officer in 2005, at age 56. We adopted a restated SERP for Mr. Mansfield in December 2008 to comply with Section 409A of the Internal Revenue Code and changes to Minnesota income tax laws. In December 2011, Mr. Mansfield received a distribution under the SERP relating to his retirement. See “SERP for Former Chief Executive Officer” on page 24. None of the other named executives is entitled to receive a SERP.

Other Compensation. We provide perquisites and other benefits, as reflected in the table titled “2011 Components of All Other Compensation,” on page 19, to our named executives. The perquisites may include physical examinations, a car allowance, financial counseling and tax preparation services, club dues, or other items. We believe these benefits help the Corporation attract and retain qualified executives and are reasonable in amount. Other benefits include dividends paid on restricted stock grants that are subject to a risk of forfeiture, an annual contribution by the Corporation to The Valspar Savings and Retirement Plan and a cash payment in lieu of retirement contributions that the named executives do not receive due to plan limitations.

Tying Fiscal 2011 Compensation Programs and Elements to Compensation Objectives

We rely on common sense and good judgment in making compensation decisions, based on our overall performance and the performance and responsibilities of the named executives. We try to achieve a balance among our objectives of pay for performance, alignment with stockholders and management attraction and retention by offering a variety of compensation elements, each with specific goals or emphasis. We work to achieve an appropriate mix of short and long-term compensation, as well as equity and cash compensation, to meet our objectives. We establish objective financial goals at the beginning of each year as a basis for the annual incentive opportunities. We maintain sufficient flexibility to allow us to retain and motivate our named executives to deliver long-term performance and value to stockholders and to align their interests with stockholder interests.

2011 Performance. We reported a net loss of \$138.6 million, including an after-tax non-cash impairment charge of \$363.4 million, after-tax restructuring charges of \$23.2 million, and after-tax charges for Watty1 and Isocoat acquisition related charges of \$9.4 million. As noted above, we exclude these non-recurring items from the performance goals so as not to penalize employees for taking actions in the long-term best interests of the Corporation and its stockholders. Excluding these items: Net income was 14.7% higher than the entry point for fiscal 2011 performance goals; 2011 pre-tax return on capital was 15.1% which was 80 basis points higher than the entry point for fiscal 2011 performance goals; and our reported net sales were \$3.95 billion, 22.5% higher than the previous year, which was the entry point for fiscal 2011 performance goals. The base salaries of the named executives were increased in 2011, and the bonus earned for corporate performance averaged 90.8% of salary (ranging from 67.2% to 122.9% of base salary for the named executives). As a result of our fiscal 2011 performance with respect to net income, net sales and pre-tax return on capital (excluding the above non-cash impairment charge for goodwill and intangibles, restructuring charges, and acquisition impacts) against the 2011 performance goals, the annual incentive bonus, restricted stock awards and RSUs for each of the named executives were lower for 2011 than for 2010.

Competitive Assessments. The Committee engages outside compensation consultants from time to time to advise on compensation matters, including competitive benchmarking. For the last several years, the Committee has engaged Meridian Compensation Partners, LLC (“Meridian”) as its independent advisor. Other than services requested by the Committee, Meridian does not provide any services to Valspar. We use compensation studies provided by Meridian as a benchmark to help determine whether the compensation of our named executives is competitive with compensation offered to executive officers at comparable companies. To attract and retain experienced, qualified executives, we target compensation at the 50th percentile of our peer group for base salary and the 50th to 75th percentile for total compensation, contingent on achievement of our financial performance goals.

In 2011, based on current market compensation trends, Meridian updated the comprehensive benchmarking study it provided to the Committee in 2010, which evaluated the effectiveness and competitiveness of our executive and director compensation programs and policies. That study compared the compensation of our executives to those of a peer group consisting of 42 manufacturing, specialty chemical and consumer product companies with sales generally in the range of \$1 billion to \$8 billion. For comparative purposes, pay data for peer group companies used to estimate the competitive market values for our executives was size adjusted (regressed) by Meridian to ensure correlation to their individual revenue responsibilities.

The companies included in the peer group are listed below.

Eighteen executive positions at Valspar were included in this benchmark study comparing base salary, annual incentives and long-term incentives with the peer group. This study concluded that in aggregate our total compensation opportunities were within a competitive range of total compensation at peer group companies. In addition to comparing compensation levels of our executives with compensation levels of executives in comparable positions at peer group companies, the Committee also considers internal pay equity among Valspar executives.

Based on its 2011 review, Meridian advised that competitive market base salaries increased approximately 3% over 2010 levels, annual bonus opportunities (as a percentage of base salary) were unchanged and long-term incentive target opportunities increased modestly.

Roles of Compensation Committee and CEO

The Compensation Committee of our Board of Directors is responsible for all matters relating to compensation of senior management, including the named executives, adoption and administration of compensation and benefit plans and programs and determination and approval of compensation for the named executives, including the CEO.

The Committee has the authority to retain, manage and dismiss compensation consultants or other professionals, as it deems necessary or appropriate. The Committee directs the work of such consultants and professionals, and decisions regarding compensation of our named executives are ultimately made by the Committee and, in the case of our Chairman and Chief Executive Officer, by the Board of Directors. The Committee retained Meridian Compensation Partners, LLC during fiscal 2011 as a compensation consultant to assist the Committee with its evaluation and assessment of executive compensation. Meridian did not provide any services to the Corporation, other than for the Committee, during fiscal 2011. The Committee has not adopted a policy regarding any other services to be provided by Meridian. If Meridian, or any other compensation consultant or professional that provides services to the Committee, would provide any other services to the Corporation, the Committee would establish a policy to limit such other services so as to avoid potential conflicts of interest on the part of such compensation consultant or professional.

To assist the Committee, the CEO and Senior Vice President, Human Resources, provide information and recommendations about compensation, programs and policies when requested by the Committee or its Chair. The other named executives have no related involvement with the Committee.

As requested by the Committee or its Chair, the CEO and other management personnel attend Committee meetings, but are excused at such times as the Committee deems appropriate.

Deductibility of Compensation

Section 162(m) of the Internal Revenue Code generally limits to \$1 million the tax deductibility of compensation paid by a public company to its chief executive and four other most highly compensated executive officers. Certain performance-based compensation is not subject to the limitation. The Compensation Committee considers the deductibility of compensation arrangements as one factor in executive compensation decisions for the named executives. However, deductibility is not the sole factor used to determine appropriate levels or types of compensation. The provisions of our equity and annual incentive bonus plans are intended to permit tax deductibility of compensation income of the named executives received under those plans. Since corporate objectives may not always be consistent with the requirements for full deductibility, it is conceivable that we may enter into compensation arrangements under which compensation in excess of \$1 million is not deductible under Section 162(m).

- (1) The terms of the Supplemental Executive Retirement Plan (SERP) for Mr. Mansfield are described below under “Potential Payments Upon Termination or Change in Control.”

- (2) This amount reflects the present value of accumulated benefits of Mr. Mansfield’s SERP, which was established in June 2005. See “SERP for Former Chief Executive Officer.” The following assumptions were applied to obtain the present value of accumulated benefit: Lump-Sum Discount Rate – 3.424%; and Retirement Date – October 28, 2011 as well as the provisions found in “Potential Payments Upon Termination or Change in Control – SERP for Former Chief Executive Officer,” on page 24. Mr. Mansfield received a final payout of \$7,691,800 under the SERP in December 2011.

Potential Payments Upon Termination or Change in Control

Termination Other Than Upon Change in Control

Upon a termination of employment (other than upon a change in control), the executive officers are entitled to payments and other benefits under a variety of Valspar plans and programs. We believe these agreements help the company hire and retain qualified executives. Benefits and payments are maintained if termination is due to retirement, death or disability, but benefits and payments are limited or forfeited if termination is voluntary or for cause.

Stock Options

Stock options granted under the 1991 Stock Option Plan and under the 2009 Omnibus Equity Plan have the following attributes:

1991 Stock Option Plan:

Edgar Filing: VALSPAR CORP - Form DEF 14A

- Death and Disability — outstanding restricted stock unit grants vest immediately.
- Termination — forfeit of all outstanding restricted stock unit grants.
- Termination for cause — forfeit of all outstanding restricted stock unit grants.

Officer Retiree Medical Program

- Retirement after age 55 — the officer is entitled to receive retiree medical if he or she has served three consecutive years as an officer and is not in competition with Valspar at any time after termination of employment.

- Included dependents — the spouse and any eligible dependents of the retiree who, immediately prior to the retiree's termination of employment, are covered under the retiree medical plan are eligible for coverage.

- Coverage — the eligible persons are covered from the date of termination, at the same coverage available to an active employee for the retiree's and spouse's life. Eligible dependents are covered until the dependent ceases to be eligible under the plan. The coverage becomes secondary to Medicare coverage.

- Premiums — the company charges the retiree (or his or her spouse) for the full cost of the coverage premiums, but the company reimburses the retiree for that portion of the coverage premiums that the company would have paid if the retiree were an active employee, and also provides a gross-up payment for taxes that relate to the medical benefit.

SERP for Former Chief Executive Officer

Effective June 22, 2005, Valspar established an unfunded supplemental executive retirement plan (the "SERP") for William L. Mansfield, then Valspar's President and Chief Executive Officer. The SERP was amended and restated effective December 31, 2008, to comply with Section 409A of the Internal Revenue Code and changes to Minnesota income tax laws.

- The SERP was designed to provide additional benefits upon retirement of Mr. Mansfield at or after age 60, tied to a fixed percentage of his average base salary and annual cash incentive bonus over the five highest compensation years out of the most recent ten-year period of employment prior to termination.

- Mr. Mansfield was entitled to receive the benefits under the SERP for termination due to death, disability, change in control of Valspar, normal retirement at or after age 60 or involuntary termination by Valspar other than for cause. On June 1, 2011, Mr. Mansfield resigned as an officer of the Corporation, thereby initiating the "separation of service" date as defined in the SERP.

- Valspar's obligation to pay the SERP benefit was unfunded and unsecured.

- The SERP benefit consists of a lump sum payment following termination of employment, equal to the actuarial equivalent of a monthly annuity for Mr. Mansfield's life expectancy based on percentages of the average of Mr. Mansfield's highest five years of compensation over the ten years prior to termination, with such percentages described below. Mr. Mansfield received a lump sum cash payment of \$7,691,800 in December 2011.

- Determination of SERP Benefit:

- The payment is equal to the "target pension" (described below), less an offset for benefits received under The Valspar Savings and Retirement Plan and the Lost ERISA plan.

The target pension level is determined 90 days prior to the payment of the SERP benefit, and the benefit offset is determined on the date of separation, death or disability.

•Target Pension:

Age at Separation of Service*	Percentage of Average Monthly Compensation
60	25%
61	28%
62	31%
63	34%
64	37%
65	40%

* Mr. Mansfield is currently 63 years old.

Severance Policy for Officers

The Compensation Committee has approved a severance policy for officers, providing for certain severance benefits in the event of termination without cause, but only if the officer signs a three-year non-compete agreement:

- One year's base pay
- Immediate vesting of all stock options
- Retiree medical benefits if the officer has reached age 55

Hypothetical Termination Payments

The following tables provides information on the potential payments that would have been payable to each of the named executives (other than Mr. Mansfield) under existing contracts, agreements, plans or arrangements, for various scenarios involving termination of employment (other than a change in control) if the triggering events for the payments had each occurred on October 28, 2011. The tables use the closing price of our common stock of \$35.83 as of October 28, 2011. These benefits are in addition to benefits available prior to the occurrence of any termination of employment to all salaried employees, such as distributions under The Valspar Savings and Retirement Plan and equity awards that are currently vested.

Retirement of Former Chief Executive Officer

William L. Mansfield retired as the Corporation's Chief Executive Officer on June 1, 2011 and as an employee on October 31, 2011 but continues as Valspar's non-executive Chairman of the Board. On April 13, 2011, the Corporation entered into a Transition Agreement and Release ("Agreement") with Mr. Mansfield that provides for various payments and other considerations in respect of Mr. Mansfield's retirement. In connection with the Agreement, Mr. Mansfield has agreed not to compete with the Corporation or solicit any of the Corporation's employees for three years following his resignation as a director of Valspar, to maintain the confidentiality of information of the Corporation to which he had access during his employment and to provide a release of employment and other claims in favor of the Corporation.

Mr. Mansfield received a cash bonus of \$1,167,550 in December 2011 related to fiscal 2011 performance. He also received a \$953,100 cash payment in lieu of a restricted stock grant and a \$953,100 cash payment in lieu of a restricted stock unit award earned under the Key Employee Annual Bonus Plan for fiscal 2011. Effective as of October 31, 2011, and under the terms of the Corporation's 1991 Stock Option Plan, 2009 Omnibus Equity Plan and the Agreement, Mr. Mansfield became 100% vested in all unvested stock option grants, with a fair market value of \$1,358,039 at October 28, 2011, and in all unvested restricted stock awards, with a fair market value of \$5,148,986 at October 28, 2011. Under the Mansfield SERP, Mr. Mansfield elected to receive a lump sum payment of \$7,691,800 in December 2011, which date is more than six months after his resignation as an officer of the Corporation. Mr. Mansfield's eligibility for the Corporation's medical, dental and life insurance terminated on October 31, 2011, but he is eligible to continue medical coverage after this date for his lifetime and his spouse's lifetime according to the terms and conditions of the Corporation's Officer Retiree Medical Plan, at a net present cost to the Corporation of \$113,000.

Termination of Employment and Change in Control Arrangements

Valspar has entered into agreements with the named executives providing for the continued employment of such executives for a period of up to two years following a change in control of Valspar. During such two-year period, executives would continue to be employed and compensated commensurate with their positions and compensation prior to the change in control. The change in control agreements each have a two-year term, subject to an annual evergreen extension for an additional two years. The Corporation is permitted to terminate the agreement by providing the executive with written notice of termination at least 60 days prior to the next annual renewal date. The employment and severance compensation provisions of the agreement do not, however, take effect until a Change in Control (defined below) has occurred during the term of the agreement.

Under the change in control agreements, an executive becomes entitled to a lump sum payment and the continuation of certain benefits upon any termination of the executive's employment with Valspar (or an applicable subsidiary), after a change in control, for any reason other than: (a) by the executive without good reason; (b) by Valspar as a result of the disability of the executive or for cause; or (c) as a result of the death of the executive. Severance

payments required under each agreement include a lump sum amount equal to three times the named executive's annual base salary and target annual bonus (plus three years of continued benefits). For this purpose, the "annual base salary" is defined as the 12 times the highest monthly base salary paid (or payable) to the executive in the one-year period preceding the month in which a Change in Control Period (as defined below) begins; and the "target annual bonus" is defined as the targeted annual cash bonus payment for the fiscal year during which a Change in Control Period begins. The Corporation will also be obligated to provide the executive (and his or her family) with health care and life insurance benefits at least equal to, and at the same after-tax cost, as those which would have been provided absent a termination (subject to alteration in the event that such benefits are later increased to peer executives at the Corporation).

Under the change in control agreements, Valspar will at its sole expense provide a terminated executive with outplacement services substantially similar to those available to the executive immediately prior to the change in control. In addition, Valspar will pay all legal fees and expenses that an executive reasonably incurs as a result of any contest (regardless of the outcome thereof) respecting the validity or enforceability of, or liability under, any provision of the executive's change in control agreement or any guarantee of performance thereof (including as a result of any contest by the executive about the amount of any payment pursuant to the change in control agreement), plus interest. Finally, Valspar will also pay any excise taxes that the executive may incur as a result of such payments, and any income and excise taxes on such excise tax payments.

Definitions

“Change in Control” means any of the following:

any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Securities Exchange Act of 1934 (the “Exchange Act”) (a “Person”) becoming the beneficial owner (within the meaning of Rule 13d-3 promulgated under the Exchange Act) of 20% or more of either (A) the then-outstanding shares of common stock of the Corporation or (B) the combined voting power of the then-outstanding voting securities of the Corporation entitled to vote generally in the election of directors provided, however, that (i) any acquisition directly from the Corporation, (ii) any acquisition by the Corporation and (iii) any acquisition by any employee benefit plan (or related trust) sponsored or maintained by the Corporation or any affiliated company do not constitute a Change in Control;

individuals who, as of the date of the agreement, constitute the Board of Directors (the “Incumbent Board”), together with any individuals becoming a director after the date of the agreement whose election, or nomination for election by the Corporation’s stockholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board, ceasing for any reason to constitute at least a majority of the Board of Directors;

subject to certain limited exceptions, any consummation of a reorganization, merger, statutory share exchange or consolidation or similar transaction involving the Corporation or any of its subsidiaries, a sale or other disposition of all or substantially all of the assets of the Corporation, or the acquisition of assets or stock of another entity by the Corporation or any of its subsidiaries (each, a “Business Combination”); or

•approval by our stockholders of a complete liquidation or dissolution of Valspar.

“Change in Control Period” means the period commencing on the date of the agreement and ending on the second anniversary of that date; provided, however, that, commencing on each anniversary date of a change in control agreement (such date, the “Renewal Date”), unless previously terminated, the Change in Control Period shall be automatically extended so as to terminate two years from such Renewal Date, unless, at least 60 days prior to the Renewal Date, the Corporation shall give notice to the executive that the Change in Control Period shall not be so extended.

“Good Reason” means:

•the assignment to the executive of any duties inconsistent in any respect with the executive’s position (including status, offices, titles and reporting requirements), authority, duties or responsibilities as contemplated by the agreement, or any action by the Corporation that results in a diminution in such position, authority, duties or responsibilities (whether or not occurring solely as a result of the Corporation’s ceasing to be a publicly traded

entity), excluding for this purpose an isolated, insubstantial and inadvertent action not taken in bad faith and that is remedied by the Corporation promptly after receipt of notice thereof given by the executive;

any failure by the Corporation to comply with any of the compensation-related provisions of the change in control agreement, other than an isolated, insubstantial and inadvertent failure not occurring in bad faith and that is remedied by the Corporation promptly after receipt of notice thereof given by the executive;

requiring the executive to be based at (i) any office or location other than as determined under the change in control agreement and that increases the distance or duration of the executive's commute, (ii) a location other than the principal executive offices of the Corporation if the executive was employed at such location immediately prior to any change in control or (iii) any location that increases the distance or duration of the executive's commute;

any purported termination by the Corporation of the executive's employment otherwise than as expressly permitted by the change in control agreement; or

any other action or inaction that constitutes a material breach by the Corporation of the change in control agreement.

For the above purposes, any good faith determination of Good Reason made by the executive shall be conclusive. The executive's mental or physical incapacity following the occurrence of an event constituting Good Reason shall not affect the executive's ability to terminate employment for Good Reason, and the executive's death following delivery of a notice of termination for Good Reason shall not affect the entitlement of the executive's estate to severance payments benefits provided hereunder upon a termination of employment for Good Reason.

“Cause” means (1) the willful and continued failure of an executive to perform substantially the executive’s duties (other than any failure resulting from incapacity due to physical or mental illness or following the executive’s delivery of a notice of termination for Good Reason), after a written demand for substantial performance is delivered to the executive by the Board of Directors that specifically identifies the manner in which the Board believes that the executive has not substantially performed the executive’s duties, or (2) the willful engaging by the executive in illegal conduct or gross misconduct that is materially and demonstrably injurious to the Corporation. For these purposes, no act, or failure to act, on the part of an executive is considered “willful” unless it is done, or omitted to be done, by the executive in bad faith or without reasonable belief that the executive’s action or omission was in the best interests of the Corporation. In this regard, any act, or failure to act, based upon (A) authority given pursuant to a resolution duly adopted by the Board of Directors (or the board of directors of an applicable subsidiary), or (B) the advice of counsel for the Corporation shall be conclusively presumed to be done, or omitted to be done, by the executive in good faith and in the best interests of the Corporation.

In addition to the change in control agreements, Valspar’s equity and non-equity compensation plans also contain provisions regarding changes in control. Under the equity plans, including the 2009 Omnibus Equity Plan, and under individual award agreements, any unvested stock options, restricted stock and RSUs vest immediately upon a change in control of Valspar and stock options are exercisable for the remainder of their term.

Potential Payments Upon Change in Control

The following table provides information on the potential payments that would have been payable to each of the named executives under existing contracts, agreements, plans or arrangements (with the exception of William L. Mansfield, former Chief Executive Officer), for a change in control if the change in control and any other triggering event for the payments had each occurred on October 28, 2011.

Director Compensation

Fees Payable in Cash or Stock. In fiscal 2011, non-employee directors received an annual cash retainer of \$82,500, except that the Chairs of the Audit and Compensation Committees received an annual cash retainer of \$97,500 and the Lead Director, Mr. Curler, received an annual cash retainer of \$117,500. At a director's option, the annual retainer may be paid in cash or by Valspar purchasing shares of its common stock in the open market quarterly on behalf of the director. Any costs of such purchases are paid by Valspar. No meeting fees are paid to directors.

Non-employee directors appointed to any subcommittee of the standing committees of the Board of Directors receive an additional cash retainer of \$5,000.

Mr. Mansfield, as the non-executive Chairman of the Board, will receive a cash retainer of \$950,000 for fiscal 2012.

Annual Stock Award. Each non-employee director is granted a stock award every year under the 2009 Omnibus Equity Plan. For grants in respect of service in fiscal year 2011, each non-employee director serving as a member of the Board of Directors on the date of the October Board meeting was granted on the date of such meeting a stock award with a value equal to \$82,500. The non-employee directors received a stock award on October 5, 2011: Mr. Bode, 2,551 shares; Mr. Cook, 2,551 shares; Mr. Curler, 2,551 shares; Mr. Friendly, 2,551 shares; Ms. Haugarth, 2,551 shares; Dr. Jemison, 2,551 shares; Mr. Newlin, 2,551 shares; and Mr. Palen, 2,551 shares.

New Director Restricted Stock Award. New non-employee directors of Valspar receive a stock award, intended to attract new directors of high caliber and qualifications and recognize their immediate contributions to Valspar. The stock award is equal to his or her current annual retainer. The stock award is restricted for five years, and the director must be serving as a member of the Board on the date the restrictions lapse to receive the award. In December 2011, a stock award was made to Mr. Allen under the 2009 Omnibus Equity Plan upon joining the Board on December 7, 2011. The stock award was for 2,266 shares with the number of shares determined by dividing \$82,500 by the closing price of Valspar stock on date of grant.

Board Retirement. Option grants in October 2007, and subsequent grants, are exercisable for their full remaining term following a non-employee director's retirement. Options granted prior to October 2007 are exercisable for a period of three years after the date the non-employee director retires, not to exceed the grant's original expiration date. Annual stock awards for a director who retires from the Board during the year will be prorated to reflect the partial year, and awarded at the same time as other director awards.

Reimbursement of Out-of-Pocket Expense. Directors are entitled to reimbursement for reasonable out-of-pocket expenses incurred in connection with travel to and from meetings of the Board of Directors or its committees and for related activities, including director education courses.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Officers, directors and greater than 10% stockholders are required by SEC regulations to furnish the Corporation with copies of all Section 16(a) forms that they file.

Based solely on its review of the copies of such reports received by it, and/or written representations from certain reporting persons that no Form 5's were required for such persons, the Corporation believes that, during the year ended October 28, 2011, the reporting persons have complied with all filing requirements of Section 16(a) of the 1934 Act.

PROPOSAL 2

Advisory Vote on Executive Compensation (“Say-on-Pay” vote)

Background

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Dodd-Frank Act”) was signed into law on July 21, 2010. The Dodd-Frank Act requires U.S. public corporations to propose an advisory (non-binding) vote on executive compensation. The Board of Directors is committed to excellence in governance and is aware of the significant interest in executive compensation matters by investors and the general public.

The Corporation has designed its executive compensation program to attract, motivate, reward and retain the senior management talent required to achieve our corporate objectives and to increase long-term stockholder value. We believe that our compensation policies and practices are centered on a pay-for-performance philosophy and are strongly aligned with the long-term interests of our stockholders. See “Executive and Director Compensation – Compensation Discussion and Analysis,” beginning on page 10 for additional information on our executive compensation programs.

Proposal

The Corporation is presenting this proposal, which gives you as a stockholder the opportunity to express your view on our executive compensation by voting for or against the following resolution:

“**RESOLVED**, that the stockholders approve, on an advisory basis, the compensation of The Valspar Corporation’s named executive officers, as disclosed in the Compensation Discussion and Analysis, the compensation tables and the related disclosures contained in the Corporation’s 2012 Proxy Statement.”

Position of Board of Directors

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT STOCKHOLDERS APPROVE THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS BY VOTING “FOR” THE ABOVE RESOLUTION AND THIS PROPOSAL.

As discussed in the Compensation Discussion and Analysis contained in this proxy statement, the Compensation Committee of the Board of Directors believes that the executive compensation for fiscal 2011 is reasonable and appropriate, is justified by the performance of the Corporation and is the result of a carefully considered approach.

In deciding how to vote on this proposal, the Board urges you to consider the following factors, many of which are more fully discussed in the Compensation Discussion and Analysis beginning on page 10:

- The Corporation has performed well against its peers by relevant industry measures.
- Our Compensation Committee has designed the compensation packages for our named executives to depend on the achievement of objective performance goals that the Committee believes drive long-term shareholder value.
- As disclosed under Compensation Risk Analysis on page 9, our pay practices do not encourage management to take excessive risk.
- We recognize the need to fairly compensate and retain a senior management team that has produced excellent operating results over the past several years.

Effect of Vote

Because your vote is advisory, it will not be binding upon the Corporation, the Compensation Committee or the Board of Directors. However, we value stockholders’ opinions, and we will consider the outcome of the Say-on-Pay vote when determining future executive compensation arrangements. Last year, more than 89% of the votes cast in the Corporation’s Say-on-Pay vote were cast in favor of approving the Corporation’s compensation for its named executive officers.

PROPOSAL 3

Appointment of Auditors

The Board of Directors has appointed Ernst & Young LLP to examine the Corporation's consolidated financial statements for the fiscal year ending October 26, 2012. Ernst & Young LLP acted as the Corporation's auditors for the fiscal year ended October 28, 2011. A representative of Ernst & Young LLP is expected to be present at the 2012 annual meeting and will be given an opportunity to make a statement if so desired and to respond to appropriate questions.

Tax Fees

Fees for tax services, including tax compliance, tax advice and tax planning totaled \$290,524 in 2011 and \$200,077 in 2010.

All Other Fees

The Corporation did not incur fees except as indicated in the above categories.

Pre-Approval of Services by Independent Auditors

As permitted under applicable law, the Audit Committee may pre-approve from time to time certain types of services, including tax services, to be provided by the Independent Auditors. As provided in the Charter of the Audit Committee, and in order to maintain control and oversight over the services provided by the Independent Auditors, it is the policy of the Audit Committee to pre-approve all audit and non-audit services to be provided by the Independent Auditors and not to engage the Independent Auditors to provide any non-audit services prohibited by law or regulation. For administrative convenience, the Audit Committee may delegate pre-approval authority to the Audit Committee Chair, but any decision by the Committee Chair on pre-approval must be presented to the full Audit Committee at its next scheduled meeting.

AUDIT COMMITTEE REPORT

The primary purpose of the Audit Committee is to assist the Board of Directors in fulfilling its oversight responsibilities relating to accounting, reporting practices and the quality and integrity of the financial reports and other publicly disseminated financial information of the Corporation. In this context, the Audit Committee has met with management (including the Chief Executive Officer, Chief Financial Officer, General Counsel, Controller and Director of Internal Audit) and Ernst & Young LLP, the Corporation's independent registered public accounting firm ("Independent Auditors").

The Audit Committee held meetings with the Corporation's internal auditors and Independent Auditors, both in the presence of management and privately, to discuss the overall scope and plans for their respective audits, the results of their examinations, the evaluations of the Corporation's internal controls, the overall quality of the Corporation's financial reports, the reasonableness of significant judgments and the clarity of disclosures in the financial statements.

The Audit Committee has reviewed and discussed the audited consolidated financial statements with management and the Independent Auditors. The Audit Committee also discussed with the Independent Auditors the matters required by Statement on Auditing Standards No. 61 (The Auditor's Communication With Those Charged with Governance), other standards of the Public Company Accounting Oversight Board (United States), rules of the SEC and other applicable regulations.

With respect to independence, the Audit Committee has received the written disclosures from the Independent Auditors required under Rule 3526 of the Public Company Accounting Oversight Board (Communications with Audit Committees Concerning Independence) and has discussed with the Independent Auditors their independence.

Based upon the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, (i) the selection of the Independent Auditors for the 2012 fiscal year and (ii) that the audited financial statements be included in the Corporation's Annual Report on Form 10-K for the year ended October 28, 2011 for filing with the SEC.
