NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business

Communications Systems, Inc. (herein collectively called CSI or the Company) is a Minnesota corporation organized in 1969 that operates primarily as a holding company conducting its business through three business units having operations in the United States, Costa Rica, and the United Kingdom. Through its Suttle business unit, the Company is principally engaged in the manufacture and sale of copper and fiber connectivity systems, enclosure systems, and active technologies for voice, data and video communications. Through its Transition Networks business unit, the Company is engaged in the manufacture of network interface devices, media converters, network interface cards, Ethernet switches and other connectivity products that offer the ability to affordably integrate the benefits of fiber optics into any data network. Through its JDL Technologies business unit, the Company provides technology solutions including virtualization, managed services, wired and wireless network design and implementation, HIPAA-compliant IT services, and converged infrastructure configuration and deployment.

Financial Statement Presentation

The condensed consolidated balance sheets and condensed consolidated statement of changes in stockholders' equity as of September 30, 2014 and the related condensed consolidated statements of income and comprehensive income, and the condensed consolidated statements of cash flows for the periods ended September 30, 2014 and 2013 have been prepared by Company management. In the opinion of management, all adjustments (which include only normal recurring adjustments, except where noted) necessary to present fairly the financial position, results of operations, and cash flows at September 30, 2014 and 2013 and for the periods then ended have been made.

Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. We recommend these condensed consolidated financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2013 Annual Report to Shareholders on Form 10-K. The results of operations for the periods ended September 30, 2014 are not necessarily indicative of operating results for the entire year.

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the balance sheet date, and the reported amounts of revenues and expenses during the reporting period. The estimates and assumptions used in the accompanying condensed consolidated financial statements are based upon management's evaluation of the relevant facts and circumstances as of the time of the financial statements. Actual results could differ from those estimates.

Table of Contents

Except to the extent updated or described below, the significant accounting policies set forth in Note 1 to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2013, appropriately represent, in all material respects, the current status of accounting policies, and are incorporated herein by reference.

Recent Accounting Pronouncements

In May 2014, the FASB issued guidance for revenue recognition for contracts, superseding the previous revenue recognition requirements, along with most existing industry-specific guidance. The guidance requires an entity to review contracts in five steps: 1) identify the contract, 2) identify performance obligations, 3) determine the transaction price, 4) allocate the transaction price, and 5) recognize revenue. The new standard will result in enhanced disclosures regarding the nature, amount, timing and uncertainty of revenue arising from contracts with customers. The standard is effective for our reporting year beginning January 1, 2017 and early adoption is not permitted. We are currently evaluating the impact, if any, this new accounting pronouncement will have on our financial statements.

Accumulated Other Comprehensive Loss

The components of accumulated other comprehensive income, net of tax, are as follows:

	September 30 2014	December 31 2013
Foreign currency translation	\$ (2,180,000)	\$ (2,038,000)

The Company tests for other than temporary losses on a quarterly basis and has considered the unrealized losses indicated above to be temporary in nature. The Company intends to hold the investments until it can recover the full principal amount and has the ability to do so based on other sources of liquidity. The Company expects these recoveries to occur prior to the contractual maturities. All unrealized losses as of September 30, 2014 were in a continuous unrealized loss position for less than twelve months and are not deemed to be other than temporarily impaired as of September 30, 2014.

The following table summarizes the estimated fair value of our investments, designated as available-for-sale and classified by the contractual maturity date of the securities as of September 30, 2014:

	Amortized Cost	Estimated Market Value
Due within one year	\$ 4,617,044	\$ 4,624,757
Due after one year through five years	11,108,138	11,071,820
	\$ 15,725,182	\$ 15,696,577

The Company did not recognize any gross realized gains, and gross realized losses were immaterial, during the nine-month periods ending September 30, 2014 and 2013, respectively. If the Company had realized gains or losses, they would be included within investment and other income in the accompanying consolidated results of operations.

NOTE 3 - STOCK-BASED COMPENSATION

Employee Stock Purchase Plan

Under the Company's Employee Stock Purchase Plan ( ESPP ), employees are able to acquire shares of common stock at 90% of the price at the end of each current quarterly plan term. The most recent term ended September 30, 2014. The ESPP is considered compensatory under current Internal Revenue Service rules. At September 30, 2014, after giving effect to the shares issued as of that date, 25,741 shares remain available for purchase under the ESPP.

2011 Executive Incentive Compensation Plan

On March 28, 2011 the Board adopted and on May 19, 2011 the Company's shareholders approved the Company's 2011 Executive Incentive Compensation Plan ( 2011 Incentive Plan ). The 2011 Incentive Plan authorizes incentive awards to officers, key employees and non-employee directors in the form of options (incentive and non-qualified), stock appreciation rights, restricted stock, restricted stock units, performance stock units ( deferred stock ), performance cash units, and other awards in stock, cash, or a combination of stock and cash. Up to 1,000,000 shares of our common stock may be issued pursuant to awards under the 2011 Incentive Plan.

During 2014, stock options covering 317,722 shares were awarded to key executive employees and directors, which options expire seven years from the date of award and vest 25% each year beginning one year after the date of award. The Company also granted deferred stock awards of 43,824 shares to key employees during 2014 under the Company's long-term incentive plan that vest over three years with the first vesting period at March 28, 2015.

At September 30, 2014, 46,643 shares have been issued under the 2011 Incentive Plan, 692,972 shares are subject to currently outstanding options, deferred stock awards, and unvested restricted stock units, and 260,385 shares are eligible for grant under future awards.

Stock Option Plan for Directors

Shares of common stock are reserved for issuance to non-employee directors under options granted by the Company prior to 2011 under its Stock Option Plan for Non-Employee Directors (the Director Plan ). Under the Director Plan nonqualified stock options to acquire shares of common stock were automatically granted to each non-employee director concurrent with annual meetings of shareholders in 2010 and earlier years, with the exercise price of options granted being the fair market value of the common stock on the date of the respective shareholder meetings. Options granted under the Director Plan expire 10 years from date of grant.

No options were granted under the Director Plan in 2013 or 2014. The Director Plan was amended as of May 19, 2011 to prohibit option grants in 2011 and future years.

1992 Stock Plan

Under the Company's 1992 Stock Plan ( the Stock Plan ), shares of common stock may be issued pursuant to stock options, restricted stock or deferred stock grants to officers and key employees. Exercise prices of stock options under the Stock Plan cannot be less than fair market value of the stock on the date of grant. Rules and conditions governing awards of stock options, restricted stock and deferred stock are determined by the Compensation Committee of the Board of Directors, subject to certain limitations in the Stock Plan. When seeking approval of the 2011 Incentive Plan at the 2011 Annual Meeting of Shareholders, the Company committed to amending the Stock Plan to prohibit the issuance of future equity awards if such approval was given. Effective August 11, 2011, the amendment to prohibit future stock options or other equity awards was approved by the Board.

Table of Contents

At September 30, 2014, after reserving for stock options and deferred stock awards granted in prior years and adjusting for forfeitures and issuances during the year, there were 22,008 shares reserved for issuance under the Stock Plan. The Company has not awarded stock options or deferred stock under this plan in 2013 or 2014.

Changes in Stock Options Outstanding

The following table summarizes changes in the number of outstanding stock options under the 2011 Incentive Plan, the Director Plan and Stock Plan over the period December 31, 2013 to September 30, 2014:

Compensation Expense

Share-based compensation expense recognized for the nine-month period ended September 30, 2014 was \$519,000 before income taxes and \$337,000 after income taxes. Share-based compensation expense recognized for the nine-month period ended September 30, 2013 was \$8,000 before income taxes and \$5,000 after income taxes. Unrecognized compensation expense for the Company's plans was \$1,093,000 at September 30, 2014 and is expected to be recognized over a weighted-average period of 2.4 years. Excess tax benefits from the exercise of stock options and issuance of stock included in financing cash flows for the nine month periods ended September 30, 2014 and 2013 were \$67,000 and \$14,000, respectively. Share-based compensation expense is recorded as a part of selling, general and administrative expenses.

## NOTE 4 - INVENTORIES

Inventories summarized below are priced at the lower of first-in, first-out cost or market:

	September 30 2014	December 31 2013
Finished goods	\$ 18,620,400	\$ 18,733,636
Raw and processed materials	12,458,462	10,378,020
	\$ 31,078,862	\$ 29,111,656

## NOTE 5 GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill is required to be evaluated for impairment on an annual basis and between annual tests upon the occurrence of certain events or circumstances. A two-step process is performed to analyze whether or not goodwill has been impaired. Step one is to test for potential impairment, and requires that the fair value of the reporting unit be compared to its book value including goodwill. If the fair value is higher than the book value, no impairment is recognized. If the fair value is lower than the book value, a second step must be performed. The second step is to measure the amount of impairment loss, if any, and requires that a hypothetical purchase price allocation be done to determine the implied fair value of goodwill. This fair value is then compared to the carrying value of goodwill. If the implied fair value is lower than the carrying value, an impairment adjustment must be recorded.

Table of Contents

During the quarter ended September 30, 2013, due to the loss of key personnel and the continued decline in year-over-year revenues due primarily to continued slowdown in domestic government spending as well as a decline in sales of its legacy products, management concluded that these events and circumstances were indicators to require us to perform an interim goodwill impairment analysis of our Transition Networks reporting unit. This analysis included the determination of the reporting unit's fair value primarily using discounted cash flows modeling. Based on the step one and step two analysis, considering Transition Networks' reduced earnings and cash flow forecasts, the Company determined that Transition Networks' goodwill was fully impaired and recorded a goodwill impairment for this segment of \$5,850,000.

The Company's identifiable intangible assets with finite lives are being amortized over their estimated useful lives and were as follows:

	September 30, 2014			
	Gross Carrying Amount	Accumulated Amortization	Foreign Currency Translation	Net
Trademarks	81,785	(36,707)	(591)	44,487
Customer relationships	490,707	(154,302)	(3,543)	332,862
Technology	228,996	(143,891)	(1,653)	83,452
	801,488	(334,900)	(5,787)	460,801

	December 31, 2013			
	Gross Carrying Amount	Accumulated Amortization	Foreign Currency Translation	Net
Trademarks	81,785	(17,262)	(10,545)	53,978
Customer relationships	490,707	(72,500)	(43,105)	375,102
Technology	228,996	(67,667)	(42,066)	119,263
	801,488	(157,429)	(95,716)	548,343

Amortization expense on these identifiable intangible assets was \$81,000 and \$76,000 in 2014 and 2013, respectively. The amortization expense is included in selling, general and administrative expenses. At September 30, 2014, the estimated future amortization expense for definite-lived intangible assets for the remainder of 2014 and all of the following four fiscal years is as follows:

Year Ending December 31:

2014	\$ 27,000
2015	109,000
2016	89,000
2017	62,000
2018	57,000

**NOTE 6 WARRANTY**

We provide reserves for the estimated cost of product warranties at the time revenue is recognized. We estimate the costs of our warranty obligations based on our warranty policy or applicable contractual warranty, historical experience of known product failure rates, and use of materials and service delivery costs incurred in correcting product failures. Management reviews the estimated warranty liability on a quarterly basis to determine its adequacy. The actual warranty expense could differ from the estimates made by the Company based on product performance.

Table of Contents

The following table presents the changes in the Company's warranty liability for the nine-month periods ended September 30, 2014 and 2013, respectively, the majority of which relates to a five-year obligation to provide for potential future liabilities for network equipment sales.

	2014	2013
Beginning balance	\$ 564,000	\$ 590,000
Amounts charged to expense	9,000	185,000
Actual warranty costs paid	(97,000)	(191,000)
Ending balance	\$ 476,000	\$ 584,000

## NOTE 7 CONTINGENCIES

In the ordinary course of business, the Company is exposed to legal actions and claims and incurs costs to defend against these actions and claims. Company management is not aware of any outstanding or pending legal actions or claims that could materially affect the Company's financial position or results of operations.

## NOTE 8 INCOME TAXES

In the preparation of the Company's consolidated financial statements, management calculates income taxes based upon the estimated effective rate applicable to operating results for the full fiscal year. This includes estimating the current tax liability as well as assessing differences resulting from different treatment of items for tax and book accounting purposes. These differences result in deferred tax assets and liabilities, which are recorded on the balance sheet. These assets and liabilities are analyzed regularly and management assesses the likelihood that deferred tax assets will be recovered from future taxable income.

At September 30, 2014 there was \$239,000 of net uncertain tax benefit positions that would reduce the effective income tax rate if recognized. The Company records interest and penalties related to income taxes as income tax expense in the Condensed Consolidated Statements of Income.

The Company is subject to U.S. federal income tax as well as income tax of multiple state and foreign jurisdictions. The tax years 2011-2013 remain open to examination by the Internal Revenue Service and the years 2010-2013 remain open to examination by various state tax departments. During the second quarter, the IRS completed an examination of our 2011 federal income tax return. There were no material changes to the return as filed. The tax years from 2011-2013 remain open in Costa Rica.

The Company's effective income tax rate was 36.9% for the first nine months of 2014. The effective tax rate differs from the federal tax rate of 35% due to state income taxes, foreign losses not deductible for U.S. income tax purposes, provisions for interest charges for uncertain income tax positions, and settlement of uncertain tax positions. The foreign operating losses may ultimately be deductible in the countries in which they have occurred; however the Company has not recorded a deferred tax asset for these losses due to uncertainty regarding the eventual realization of the benefit. The effect of the foreign operations was an overall rate increase of approximately 2.7% for the nine months ended September 30, 2014. There were no additional uncertain tax positions identified in the first nine months of 2014. The Company's effective income tax rate for the nine months ended September 30, 2013 was 112.9%, and differed from the federal tax rate due to state income taxes, return to provision adjustments, foreign losses not deductible for U.S. income tax purposes, provisions for interest charges for uncertain income tax positions, the effect of operations conducted in lower foreign tax rate jurisdictions, the release of contingent consideration from the Company's 2011 acquisition and goodwill impairment not deductible for income tax purposes.

## NOTE 9 SEGMENT INFORMATION

Effective January 1, 2014, the Company realigned the financial reporting for its business units. As a result of this realignment, all corporate general and administrative expenses that were previously categorized as **Other** are now included within the three business units as fully allocated costs. The Company classifies its businesses into three segments as follows:

Suttle manufactures and markets copper and fiber connectivity systems, enclosure systems, xDSL filters and splitters, and active technologies for voice, data and video communications;

Transition Networks manufactures network interface devices (NIDs), media converters, network interface cards (NICs), Ethernet switches and other connectivity products that offer the ability to affordably integrate the benefits of fiber optics into any data network; and

JDL Technologies provides technology solutions including virtualization, managed services, wired and wireless network design and implementation, HIPAA-compliant IT services, and converged infrastructure configuration and deployment.

Management has chosen to organize the enterprise and disclose reportable segments based on our products and services. There are no material inter-segment revenues. In order to conform to the 2014 presentation, the Company has reclassified the previously non-allocated corporate expenses within the business segments.

Information concerning the Company's continuing operations in the various segments for the three and nine-month periods ended September 30, 2014 and 2013 is as follows:

## NOTE 10 PENSIONS

The Company's U.K. based subsidiary Austin Taylor maintains defined benefit pension plans. The Company does not provide any other post-retirement benefits to its employees. Components of net periodic benefit cost of the pension plans for the three-months and nine-months ended September 30, 2014 and 2013 were:

	Three Months Ended September 30		Nine Months Ended September 30	
	2014	2013	2014	2013

## NOTE 11 NET INCOME PER SHARE

Basic net income per common share is based on the weighted average number of common shares outstanding during each year. Diluted net income per common share takes into effect the dilutive effect of potential common shares outstanding. The Company's only potential common shares outstanding are stock options and shares associated with the long-term incentive compensation plans, which resulted in a dilutive effect of 21,289 and 22,150 shares for the three and nine-months ended 2014, respectively. The dilutive effect of stock options for the three and nine-month periods ended September 30, 2013 was 2,664 shares and 6,972 shares, respectively. The Company calculates the dilutive effect of outstanding options using the treasury stock method. Options totaling 198,703 and 391,926 were excluded from the calculation of diluted earnings per share for the three and nine months ended September 30, 2014 because the exercise price was greater than the average market price of common stock during the period and deferred stock awards totaling 171,544 shares were not included for the three and nine month period ended September 30, 2014 because of unmet performance conditions. Options totaling 155,014 were excluded from the calculation of diluted earnings per share for the nine-months ended September 30, 2013 because the exercise price was greater than the average market price of common stock during the period and deferred stock awards totaling 241,623 shares were not included for the nine-months ended September 30, 2013 because of unmet performance conditions.

## NOTE 12 FAIR VALUE MEASUREMENTS

The accounting guidance establishes a valuation hierarchy for disclosure of the inputs to valuation used to measure fair value. This hierarchy prioritizes the inputs into three broad levels as follows:

Level 1 Observable inputs that reflect unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access at the measurement date.

Level 2 Observable inputs such as quoted prices for similar instruments and quoted prices in markets that are not active, and inputs that are directly observable or can be corroborated by observable market data. The types of assets and liabilities included in Level 2 are typically either comparable to actively traded securities or contracts, such as treasury securities with pricing interpolated from recent trades of similar securities, or priced with models using highly observable inputs, such as commodity options priced using observable forward prices and volatilities.

Level 3 Significant inputs to pricing that have little or no observability as of the reporting date. The types of assets and liabilities included in Level 3 are those with inputs requiring significant management judgment or estimation, such as the complex and subjective models and forecasts used to determine the fair value of financial instruments.

Table of Contents

The change in the estimated contingent consideration during the nine months was due to \$565,647 in payments and \$6,846 in foreign currency gains.

We record transfers between levels of the fair value hierarchy, if necessary, at the end of the reporting period. There were no transfers between levels during the nine months ended September 30, 2014.

NOTE 13 RESTRUCTURING CHARGES

During the nine months ended September 30, 2014, the Company recorded \$238,000 in restructuring expense. This consisted of severance and related benefits costs due to the restructuring within the Transition Networks business segment, including ongoing costs related to the closure of the China facility. The facility was completely closed in the second quarter of 2014. The Company paid \$724,000 in restructuring charges during the first nine months of 2014 related to accruals at the end of 2013 as well as new charges in 2014 and had \$0 in restructuring accruals recorded in accrued compensation and benefits at September 30, 2014.

NOTE 14 SUBSEQUENT EVENTS

The Company has evaluated subsequent events through the date of this filing. We do not believe there are any material subsequent events that would require further disclosure.

Forward-looking statements

In this report and, from time to time, in reports filed with the Securities and Exchange Commission, in press releases, and in other communications to shareholders or the investing public, the Company may make forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 concerning possible or anticipated future financial performance, business activities, plans, pending claims, investigations or litigation which are typically preceded by the words believes, expects, anticipates, intends or similar expressions. For these forward-looking statements, the Company claims the protection of the safe harbor for forward-looking statements contained in federal securities laws. Shareholders and the investing public should understand that these forward-looking statements are subject to risks and uncertainties that could cause actual performance, activities, anticipated results, outcomes or plans to differ significantly from those indicated in the forward-looking statements. These risks and uncertainties include, but are not limited to:

**General Risks and Uncertainties;**

- The success of the holding company restructuring plan that we implemented in September 2013;
- the ability of the CSI parent to oversee the Company's three operating units function in an efficient and cost-effective manner;
- the ability of our three business operating units to operate profitably; and
- the impact of changing economic circumstances on government expenditures in our markets.

**Subtle Risks and Uncertainties:**

- Subtle's dependence upon its sales to major communication service providers and their continued investment and deployment into building out their networks;
- Subtle's ability to continue to introduce and sell new G.hn products and FTTx (fiber-to-the-home or node) products; and
- the continued recovery of the housing market in the United States.

**Transition Networks Risks and Uncertainties:**

- The ability of Transition Networks to develop and introduce new products into new and existing markets at a level adequate to counter the decline from its traditional products and markets; and
- Transition Networks' ability to profitably penetrate certain international markets.

**JDL Technologies Risks and Uncertainties:**

- JDL's ability to continue to obtain business from its traditional South Florida school districts;
  - JDL's ability to profitably expand outside its South Florida education market to small and medium sized commercial businesses; and
  - JDL's ability to establish and maintain a productive and efficient workforce in light of revenues that have fluctuated significantly from period to period, in part due to the uncertainty and timing of federal government funding of school initiatives.
- In addition, the Company will discuss other factors from time to time in its filings with the Securities and Exchange Commission, including risk factors presented under Item 1A of the Company's most recently filed annual report on Form 10-K or quarterly reports on Form 10-Q.

Three Months Ended September 30, 2013

Consolidated sales decreased 25% in 2014 to \$33,434,000 compared to \$44,617,000 in 2013. Consolidated operating income in 2014 increased to \$2,658,000 compared to an operating loss of \$1,696,000 in the third quarter of 2013. Net income in 2014 increased to \$1,695,000 or \$0.20 per share compared to a net loss of \$2,036,000 or \$ (0.24) per share in the third quarter of 2013.

**Method of Presentation**

Effective January 1, 2014, the Company realigned the financial reporting for its business units to reflect its move to a holding company business structure that supports self-sustaining business units and to provide increased focus on opportunities to cut indirect corporate charges. As a result of this realignment, all corporate general and administrative expenses that were previously categorized as "Other" in Company financial statements are now included within the business unit level as fully allocated costs in this Form 10-Q. The Company has reclassified its 2013 results to conform to this new format.

**Suttle Results**

Suttle sales increased 34% in the third quarter of 2014 to \$19,938,000 compared to \$14,838,000 in the same period of 2013 due largely to revenue generated from new FTTx (fiber to the home or node) product platforms. Sales by customer groups in the third quarter of 2014 and 2013 were:

	<b>Suttle Sales by Customer Group</b>	
	<b>2014</b>	<b>2013</b>
Communication service providers	\$ 17,446,000	\$ 12,422,000
Distributors	1,578,000	1,417,000
International	873,000	922,000
Other	41,000	77,000
	<b>\$ 19,938,000</b>	<b>\$ 14,838,000</b>

Suttle s sales by product groups in third quarter of 2014 and 2013 were:

	<b>Suttle Sales by Product Group</b>	
	<b>2014</b>	<b>2013</b>
Modular connecting products	\$ 3,586,000	\$ 4,012,000
Structured cabling products	9,047,000	7,647,000
DSL products	1,431,000	1,829,000
FTTx products	5,828,000	1,212,000
Other products	46,000	138,000
	<b>\$ 19,938,000</b>	<b>\$ 14,838,000</b>

Sales to the major communication service providers increased 40% in 2014 due to growth in core high-speed copper connectivity products and success in securing new business in multiple FTTx domains. Sales to major communication service providers accounted for 88% of Suttle s sales in the third quarter of 2014 compared to 84% of sales in 2013. Sales to distributors increased 11% in 2014 due to growth in high speed copper connectivity products. This customer segment accounted for 8% and 10% of sales in the third quarters of 2014 and 2013, respectively. International sales decreased 5% and accounted for 4% of Suttle s third quarter 2014 sales, due to a reduction in revenue from Austin Taylor legacy products, in part due to the Company s termination of a non-profitable OEM contract.

Table of Contents

Sales of structured cabling products increased 18%. Sales of DSL products decreased 22% and modular connecting products sales decreased 11% due to shifts in technology.

Suttle's gross margin increased 30% in the third quarter of 2014 to \$6,467,000 compared to \$4,977,000 in the same period of 2013. Gross margin as a percentage of sales decreased to 32% from 34% in the same period of 2013 due to increased investment into production capabilities to support new FTTx product platforms. Selling, general and administrative expenses increased 11% to \$3,644,000, or 18.3% of sales, in the third quarter of 2014 compared to \$3,289,000, or 22.2% of sales, in the same period in 2013 due to investment and recruitment of expertise in sales, operations, technology, product management, and engineering. Suttle's operating income was \$2,824,000 in the third quarter of 2014 compared to \$1,688,000 in 2013.

**Transition Networks Results**

Transition Networks sales increased 4% to \$11,272,000 in the third quarter of 2014 compared to \$10,882,000 in 2013 due to increased activity in the North American and Rest of World markets. Transition Networks organizes its sales force by channel to market and segments its customers geographically. Third quarter sales by region are presented in the following table:

	Transition Networks Sales by Region	
	2014	2013
North America	\$ 8,354,000	\$ 7,753,000
Europe, Middle East, Africa ( EMEA )	1,002,000	1,275,000
Rest of World	1,916,000	1,854,000
	\$ 11,272,000	\$ 10,882,000

The following table summarizes Transition Networks' 2014 and 2013 third quarter sales by its major product groups:

	Transition Networks Sales by Product Group	
	2014	2013
Media converters	\$ 7,478,000	\$ 7,993,000
Ethernet switches	1,214,000	851,000
Ethernet adapters	1,298,000	647,000
Other products	1,282,000	1,391,000
	\$ 11,272,000	\$ 10,882,000

Sales in North America increased 8% or \$601,000 due to improving conditions at key customers. International sales decreased \$211,000, or 7%, mainly due to lower circuit emulation and service contract sales out of the United Kingdom site. Sales of media converters decreased 6% or \$515,000, due to a decline in domestic sales resulting from competitive pricing pressures and a slowdown of projects sold from the United Kingdom site.

Table of Contents

Gross margin on third quarter Transition Networks sales decreased 3% to \$4,989,000 in 2014 from \$5,165,000 in 2013. Gross margin as a percentage of sales decreased to 44% in 2014 from 47% in 2013 due to unfavorable product mix and pricing pressure. Selling, general and administrative expenses decreased 3% to \$5,032,000, or 44.6% of sales, in 2014 compared to \$5,165,000, or 47.5% of sales, in 2013 due to the closing of our China facility earlier in 2014. Operating loss was \$43,000 in 2014 compared to a loss of \$5,850,000 in 2013, due to a goodwill impairment loss of \$5,850,000 in the third quarter of 2013.

**JDL Technologies, Inc. Results**

JDL Technologies, Inc. sales decreased 88% to \$2,224,000 in the third quarter of 2014 compared to \$18,897,000 in 2013.

JDL's revenues by customer group were as follows:

	<b>JDL Revenue by Customer Group</b>	
	<b>2014</b>	<b>2013</b>
Broward County FL schools	\$ 1,800,000	\$ 3,393,000
Miami Dade County FL schools	19,000	14,553,000
All other	405,000	951,000
	\$ 2,224,000	\$ 18,897,000

Revenues earned from Broward County Public Schools, Florida decreased \$1,593,000 or 47% in the third quarter of 2014 as compared to the 2013 third quarter due to the Federal government's decision to withhold all priority two E-Rate funding for the current fiscal year, which required the district to find alternate funding sources for planned projects. Revenues earned from Miami-Dade County Public Schools in the third quarter of 2013 are related to the district's Bringing Wireless to the Classroom initiative for which the district received federal funding under the E-Rate program to expand wireless connectivity for students and staff. This was completed in the first quarter of 2014. Revenue from JDL Technologies sales to small and medium-sized commercial businesses (SMBs) decreased by 57% to \$405,000 as there were fewer large infrastructure transactions completed in the third quarter due to a combination of market trends and JDL's continued focus on higher margined managed service growth.

Gross margin decreased 84% to \$556,000 in the third quarter of 2014 compared to \$3,481,000 in the same period in 2013. Gross margin as a percentage of sales increased to 25% in 2014 from 18% in 2013 due to a change in the mix of revenue, as the sales into Miami-Dade County Public Schools had lower margins in 2013. Selling, general and administrative expenses decreased 33% in 2014 to \$679,000, or 30.5% of sales, compared to \$1,015,000, or 5.4% of sales, in 2013 due to a decrease in internal costs associated with the higher revenue achieved in the previous year's E-Rate driven business. Selling, general and administrative expenses as a percentage of sales were much higher in the 2014 period as JDL's non-variable general and administrative expenses constituted a much higher percentage of the lower 2014 sales. JDL Technologies reported an operating loss of \$123,000 in the third quarter of 2014 compared to operating income of \$2,467,000 in the same period of 2013.

**Other**

The Company's income before income taxes increased to \$2,734,000 in 2014 compared to a loss of \$1,756,000 in 2013. The Company's effective income tax rate was 38.0% in 2014 and (16.0%) in 2013. This effective tax rate for 2014 differs from the federal tax rate of 35% due to state income taxes, foreign losses not deductible for U.S. income tax purposes, provisions for interest charges for uncertain income tax positions, and settlement of uncertain tax positions.

Sales to the major communication service providers increased 36% in 2014 due to growth in core high-speed copper connectivity products and success in securing new business in multiple FTTx domains. Sales to major communication service providers accounted for 85% of Suttle s sales in the first nine months of 2014 compared to 79% of sales in 2013. Sales to distributors remained flat in 2014. This customer segment accounted for 9% and 11% of sales in the first nine months of 2014 and 2013, respectively. International sales decreased 24% and accounted for 6% of Suttle s first nine months 2014 sales, due to a reduction in revenue from Austin Taylor legacy products, in part due to the Company s termination of a non-profitable OEM contract.

Sales of structured cabling products increased 26%. Sales of DSL products decreased 30% and modular connecting products sales decreased 9% due to shifts in technology.

Suttle's gross margin increased 34% in the first nine months of 2014 to \$16,233,000 compared to \$12,155,000 in the same period of 2013. Gross margin as a percentage of sales increased to 31% from 30% in 2013 due to introduction of new FTTx products, focused value engineering and cost optimization efforts, and economies of scale. Selling, general and administrative expenses increased 17% to \$10,139,000, or 19.6% of sales, in the first nine months of 2014 compared to \$8,644,000, or 21.0% of sales, in the same period in 2013 due to investment and recruitment of expertise in sales, operations, technology, product management, and engineering. Suttle's operating income was \$6,093,000 in the first nine months of 2014 compared to \$3,510,000 in 2013.

## Transition Networks Results

Transition Networks sales increased slightly to \$32,589,000 in the first nine months of 2014 compared to \$32,156,000 in 2013. Transition Networks organizes its sales force by channel to market and segments its customers geographically. First nine months sales by region are presented in the following table:

	Transition Networks Sales by Region	
	2014	2013
North America	\$ 23,467,000	\$ 21,784,000

Other products	4,943,000	4,996,000
	\$ 32,589,000	\$ 32,156,000

Sales in North America increased 8% or \$1,683,000 due to increased sales into the Federal government channel. International sales decreased \$1,250,000, or 12%, due mainly to a weaker first quarter of this year compared to last year. Sales of media converters decreased 4% or \$783,000 due to continued competitive pressures and delays in new product introduction.

Gross margin on first nine months Transition Networks' sales decreased 9% to \$15,081,000 in 2014 from \$16,561,000 in 2013. Gross margin as a percentage of sales decreased to 46% in 2014 from 52% in 2013 due to unfavorable product mix and competitive prices. Selling, general and administrative expenses decreased 6% to \$15,821,000, or 48.5% of sales, in the first nine months of 2014 compared to \$16,782,000, or 52.2% of sales, in 2013 due to restructuring of certain go-to-market functions in the last three quarters of 2013, higher ERP related expenses in the same period and the closure of the China facility in 2014. Operating loss decreased to \$977,000 in 2014 compared to an operating loss of \$6,071,000 in 2013, primarily due a goodwill impairment charge of \$5,850,000 in the third quarter of 2013.

Table of Contents**JDL Technologies, Inc. Results**

JDL Technologies, Inc. sales decreased 76% to \$7,426,000 in the first nine months of 2014 compared to \$30,747,000 in 2013.

Revenues by customer group were as follows:

	<b>JDL Revenue by Customer Group</b>	
	<b>2014</b>	<b>2013</b>
Broward County FL schools	\$ 5,755,000	\$ 7,294,000
Miami Dade County FL schools	119,000	21,691,000
All other	1,552,000	1,762,000
	\$ 7,426,000	\$ 30,747,000

Revenues earned through sales to Broward County Public Schools, decreased \$1,539,000 in the first nine months of 2014 as compared to the 2013 first nine months due to the Federal government's decision to withhold all priority two E-Rate funding for the current fiscal year, which required the district to find alternate funding sources for planned projects. Revenues earned through sales to Miami-Dade County Public Schools in the first nine months of both 2014 and 2013 are related to the district's Bringing Wireless to the Classroom initiative for which the district received federal funding under the E-Rate program to expand wireless connectivity for students and staff. This was completed in the first quarter of 2014. Revenue from JDL Technologies' sales to small and medium sized commercial businesses (SMBs) decreased by 12% or \$210,000 as there were fewer large infrastructure transactions completed in the third quarter due to a combination of market trends and JDL's continued focus on higher margin managed service growth.

Gross margin decreased 71% to \$1,781,000 in the first nine months of 2014 compared to \$6,212,000 in the same period in 2013. Gross margin as a percentage of sales increased to 24% in 2014 from 20% in 2013 reflecting the fact that a significant portion of its 2013 revenue was hardware-based, rather than the more traditional value-added service. Selling, general and administrative expenses decreased in 2014 to \$2,085,000, or 28.1% of sales, compared to \$2,410,000, or 7.8% of sales, in 2013 due to a decrease in internal costs associated with the higher revenue achieved in the previous year's E-Rate driven business. Selling, general and administrative expenses as a percentage of sales were much higher in the 2014 period as JDL's non-variable general and administrative expenses constituted a much higher percentage of the lower 2014 sales. JDL Technologies reported an operating loss of \$304,000 in the first nine months of 2014 compared to operating income of \$3,803,000 in the same period of 2013.

Because federal and local funding for investments in IT infrastructure and services for K-12 schools varies substantially from year to year, JDL Technologies has experienced large swings in quarterly and annual revenues. We expect this volatility in revenues to continue in the balance of 2014 and future years. Based on recent indications from the federal government, we anticipate that the E-Rate program will be insufficiently funded to enable the Miami-Dade and Broward school districts to complete all the IT projects slated for 2014. If additional federal government funding does not materialize in 2014 and 2015, we may experience delay or cancellation of present or future wireless infrastructure projects in the districts. As previously reported, our 2013 results included approximately \$23.0 million in revenue from a wireless connectivity project for the Miami- Dade County Public School district.

To reduce dependence on government funding, JDL Technologies continues to aggressively pursue opportunities to provide managed services, migration to the cloud, virtualization HIPAA-compliant IT services, and other network services to SMBs with a focus on healthcare, legal and financial services and logistics markets. As part of this initiative, JDL Technologies has adopted HIPAA standards that enable it to serve healthcare providers as a compliant Business Associate.

The Company's income before income taxes increased to \$4,744,000 in 2014 compared to \$1,204,000 in 2013. The Company's effective income tax rate was 36.9% in 2014 and 112.9% in 2013. This effective tax rate for 2014 differs from the federal tax rate of 35% due to state income taxes, foreign losses not deductible for U.S. income tax purposes, provisions for interest charges for uncertain income tax positions, and settlement of uncertain tax positions. The effect of the foreign operations is an overall rate increase of approximately 2.7% in the first nine months of 2014. The Company's effective income tax rate for the nine months ended September 30, 2013 differed from the federal tax rate due to state income taxes, return to provision adjustments, foreign losses not deductible for U.S. income tax purposes, provisions for interest charges for uncertain income tax positions, the effect of operations conducted in lower foreign tax rate jurisdictions, the release of contingent consideration from the Company's 2011 acquisition and goodwill impairment not deductible for income tax purposes.

Liquidity and Capital Resources

As of September 30, 2014, the Company had approximately \$32,028,000 in cash, cash equivalents and investments. Of this amount, \$6,003,000 was invested in short-term money market funds that are not considered to be bank deposits and are not insured or guaranteed by the FDIC or other government agency. These money market funds seek to preserve the value of the investment at \$1.00 per share; however, it is possible to lose money investing in these funds. The remainder in cash and cash equivalents is operating cash and certificates of deposit that are fully insured through the FDIC. The Company also had \$15,697,000 in investments consisting of certificates of deposit and corporate notes and bonds that are traded on the open market and are classified as available-for-sale at September 30, 2014.

The Company had working capital of \$60,731,000, consisting of current assets of approximately \$73,730,000 and current liabilities of \$12,999,000 at September 30, 2014 compared to working capital of \$70,599,000, consisting of current assets of \$83,672,000 and current liabilities of \$13,073,000 at December 31, 2013. The Company's working capital at September 30, 2014 decreased from year-end as the Company increased its ownership of long-term investments to \$11,072,000 from \$3,921,000.

Cash flow provided by operating activities was approximately \$11,170,000 in the first nine months of 2014 compared to \$11,832,000 used in the same period of 2013. Significant working capital changes from December 31, 2013 to September 30, 2014 included a decrease in receivables of \$6,280,000 due to the receipt of outstanding receivables at JDL Technologies related to the Miami Dade project primarily completed in 2013, partially offset by an increase in sales at Suttle during the quarter and an increase in Suttle-related inventory and related accounts payable.

Net cash used in investing activities was \$10,019,000 in the first nine months of 2014 compared to \$5,048,000 provided in the same period of 2013. The Company continued to make capital investments and purchases of certificates of deposit and other marketable securities, moving more of its capital into longer term investments.

## Table of Contents

Net cash used by financing activities was \$4,845,000 in the first nine months of 2014 compared to \$2,971,000 in the same period of 2013. The Company made \$566,000 in contingent consideration payments related to the Patapsco acquisition in 2011. There are no future contingent consideration payments related to this acquisition. Cash dividends paid on common stock increased to \$4,187,000 in 2014 (\$0.48 per common share) from \$2,730,000 in 2013 due to an accelerated payment of the dividend declared and paid in December 2012. Proceeds from common stock issuances, principally shares sold to the Company's Employee Stock Ownership Plan and issued under the Company's Employee Stock Purchase Plan, totaled approximately \$221,000 in 2014 and \$247,000 in 2013. The Company did not repurchase any shares in 2014 or 2013 under the Board authorized program. At September 30, 2014, Board of Director authority to purchase approximately 411,910 additional shares remained in effect. The Company acquired \$17,000 and \$0 in 2014 and 2013, respectively, of Company stock from employees in order to satisfy withholding tax obligations related to share-based compensation, pursuant to terms of Board and shareholder-approved compensation plans.

The Company has a \$10,000,000 line of credit from Wells Fargo Bank. Interest on borrowings on the credit line is at LIBOR plus 1.1% (1.3% at September 30, 2014). There were no borrowings on the line of credit during the first nine months of 2014 or 2013. The credit agreement expires October 31, 2016 and is secured by assets of the Company.

In the opinion of management, based on the Company's current financial and operating position and projected future expenditures, sufficient funds are available to meet the Company's anticipated operating and capital expenditure needs.

## **Enterprise Resource Planning**

On April 4, 2013, our Transition Networks business unit and the parent Communications Systems, Inc. went live on a new Enterprise Resource Planning (ERP) system. Due to the restructuring of the Company into a holding company structure with greater focus on our three operating business units, we are moving more deliberately to implement the new ERP system in the rest of the Company. We expect Suttle to adopt the new ERP system in 2015.

## Critical Accounting Policies

Our critical accounting policies, including the assumptions and judgments underlying them, are discussed in our 2013 Form 10-K in Note 1 Summary of Significant Accounting Policies included in our Consolidated Financial Statements. There were no significant changes to our critical accounting policies during the nine months ended September 30, 2014.

The Company's accounting policies have been consistently applied in all material respects and disclose such matters as allowance for doubtful accounts, sales returns, inventory valuation, warranty expense, income taxes, revenue recognition, asset impairment recognition and foreign currency translation. On an ongoing basis, we evaluate our estimates based on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the result of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Results may differ from these estimates due to actual outcomes being different from those on which we based our assumptions. Management reviews these estimates and judgments on an ongoing basis.

Recently Issued Accounting Pronouncements

We do not believe there are any recently issued accounting standards that have not yet been adopted that will have a material impact on the Company's financial statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

The Company has no freestanding or embedded derivatives. The Company's policy is to not use freestanding derivatives and to not enter into contracts with terms that cannot be designated as normal purchases or sales.

The vast majority of our transactions are denominated in U.S. dollars; as such, fluctuations in foreign currency exchange rates have historically not been material to the Company. At September 30, 2014 our bank line of credit carried a variable interest rate based on LIBOR plus 1.1%.

Based on the Company's operations, in the opinion of management, no material future losses or exposure exist relative to market risk.

Item 4. Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of its management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in the Exchange Act Rule 13a-15(e)) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective.

There was no change in the Company's internal control over financial reporting that occurred during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
