Consolidated Financial Statements.

**Notes to Consolidated Financial Statements**

The accompanying consolidated financial statements have not been audited. The results of operations are not necessarily indicative of the results of operations for the full year or any other interim periods.

**Note 1. Basis of Presentation**

The consolidated financial statements include the accounts of Flag and its wholly owned subsidiaries, Flag Bank (Atlanta, Georgia) and Flag Financial Corporation Statutory Trust. All significant inter-company accounts and transactions have been eliminated in consolidation.

The consolidated financial information furnished herein represents all adjustments that are, in the opinion of management, necessary to present a fair statement of the results of operations, and financial position for the periods covered herein and are normal and recurring in nature. For further information, refer to the consolidated financial statements and footnotes included in Flag's annual report on Form 10-K for the year ended December 31, 2003.

**Note 2. Earnings Per Share**

Net earnings per common share are based on the weighted average number of common shares outstanding during each period. The calculation of basic and diluted earnings per share is as follows:

<i>(in thousands, except per share data)</i>	<b>Three Months Ended</b>		<b>Six Months Ended</b>	
	<b>June 30,</b>		<b>June 30,</b>	
	<b>2004</b>	<b>2003</b>	<b>2004</b>	<b>2003</b>
<b>Basic earnings per share:</b>

Effect of stock options and warrants	533,490	659,958	542,955	560,805
Diluted earnings per share	\$ 0.21	0.17	0.44	0.34

**Note 3. Stock-based Compensation**

Flag sponsors stock-based compensation plans. Flag accounts for these plans under the recognition and measurement principles of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations. No stock-based employee compensation cost is reflected in net earnings, as all options granted under those plans had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net earnings and earnings per share if Flag had applied the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation.

<i>(in thousands, except per share data)</i>	<b>Three months ended</b>		<b>Six months ended</b>

---

**Notes to Consolidated Financial Statements**

During the first six months of 2004, Flag issued 85,500 options with estimated value of \$3.55 each. The fair value of each option is estimated on the date of grant using the Black-Scholes options-pricing model with the following assumptions: dividend yield of 1.80%; volatility of .2941; risk free interest rate of 4.15%; and an expected life of five years.

**Note 4. Loans**

Flag engages in a full complement of lending activities, including real estate-related, commercial and financial loans and consumer installment loans. Flag generally concentrates lending efforts on real estate related loans. As of June 30, 2004, Flag's loan portfolio consisted of 85.7% real estate-related loans, 11.6% commercial and financial loans, and 2.7% consumer installment loans. While risk of loss is primarily tied to the credit quality of the various borrowers, risk of loss may also increase due to factors beyond the Flag's control, such as local, regional and/or national economic downturns. General conditions in the real estate market may also impact the relative risk in the real estate portfolio. Of the target areas of lending activities, commercial and financial loans are generally considered to have a greater risk of loss than real estate loans or consumer installment loans.

Loans are stated at unpaid balances, net of unearned income and deferred loan fees. Balances within the major loans receivable categories are represented in the following table:

<i>(in thousands)</i>	<b>June 30, 2004</b>	<b>December 31, 2003</b>	<b>June 30, 2003</b>
Commercial/financial/agricultural	\$ 61,429	\$ 50,435	\$ 56,956
Real estate Construction	130,609	100,108	77,927

<b>Total loans</b>	<b>\$ 530,338</b>	<b>\$ 483,780</b>	<b>\$ 393,515</b>
Less: Allowance for loan losses	7,489	6,685	6,441
<b>Total net loans</b>	<b>\$ 522,849</b>	<b>\$ 477,095</b>	<b>\$ 387,074</b>

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Overview

Flag ended the second quarter of 2004 with strong balance sheet growth. Total assets grew to approximately \$749.4 million, an increase of 20.2% from June 30, 2003. Loans outstanding (excluding loans held for sale) increased 34.8% to \$530.3 million at June 30, 2004 when compared to June 30, 2003. Total deposits grew to \$610.6 million, an increase of \$113.9 million or 22.9% from balances at June 30, 2003.

During the first six months of 2004, Flag has increased total assets by \$45.5 million from \$703.9 million at December 31, 2003. Loans outstanding and total deposits have increased \$46.6 million and \$40.1 million, respectively, over the same period. These increases in significant sections of the balance sheet come despite the first quarter 2004 divestiture of Flag's Thomaston, Georgia branch that included total assets, loans outstanding and total deposits of \$38 million, \$17 million and \$36 million, respectively.

Return on average equity for the three months ended June 30, 2004 was 11.59% on average shareholders' equity of \$66.3 million. This compares to 9.65% on average equity of \$62.8 million for the same period in 2003. Return on average assets for the three months ended June 30, 2004 was 1.07%. This compares to 0.97% for the same period in 2003.

For the six month periods ended June 30, 2004 and 2003, Flag's return on average shareholders' equity was 12.14% and 9.73%, respectively. Flag's return on average assets for the same periods was 1.13% and 0.96%, respectively.

### Forward-Looking Statements

The following discussion and comments contain "forward-looking statements" relating to, without limitation, future economic performance, plans and objectives of management for future operations, and projections of revenues and other financial items that are based on the beliefs of our management, as well as assumptions made by and information currently available to our management. The words "expect", "estimate", "anticipate", and "believe", as well as similar expressions, are intended to identify forward-looking statements. Our actual results may differ materially from the results discussed in the forward-looking statements, and our operating performance each quarter is subject to various risks and uncertainties. Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to, (i) the strength of the U.S. economy as well as the strength of the local economies in which operations are conducted; (ii) the effects of changing interest rates which could lower margins; (iii) inflation, interest rate, market and monetary fluctuations; (iv) unanticipated regulatory proceedings or legal actions, or changes in accounting policies and practices as adopted by the Financial Accounting Standards Board; (v) issues involved in the integration of any acquisitions; and (vi) the timely development of products and services that position Flag to succeed in an increasingly competitive industry. If we are unsuccessful in managing the risks relating to these factors, together with other risks incident to the operation of our business, our financial condition, results of operations and cash flows could be adversely affected. Forward-looking statements speak only as of the date on which they are made. We undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made to reflect the occurrence of unanticipated events.

### Critical Accounting Policies

The accounting principles we follow and our methods of applying these principles conform with accounting principles generally accepted in the United States and with general practices within the banking industry. In connection with the application of those principles, we have made judgments, estimates and assumptions which, in the case of the determining our allowance for loan losses (ALL), have been critical to the determination of our financial position and results of operations. Management assesses the adequacy of the ALL regularly during the year, and formally prior to the end of each calendar quarter. This assessment includes procedures to estimate the allowance and test the adequacy and appropriateness of the resulting balance.

This estimation process can affect our estimated loan loss expense for a given period. Generally, the allowance for loan losses increases as the outstanding balance of loans or the level of classified or impaired loans increases. Loans or portions of loans that are deemed uncollectible are charged against and reduce the allowance. The allowance is replenished by means of a provision for loan losses that is charged as an expense against income. As a result, our estimate of the allowance for loan losses affects our earnings directly.

The ALL consists of two portions (1) allocated amounts representing the potential exposures on specifically identified credits and other exposures readily predictable by historical or comparative experience; and (2) an unallocated amount representative of inherent loss which is not readily identifiable. Even though the ALL is composed of two components, the entire ALL is available to absorb any credit losses. Allocated amounts are used on loans where management has determined that there is an increased probability or severity of loss than on the loan portfolio as a whole. We base the allocation for these unique loans primarily on risk rating grades assigned to each of these loans as a result of our loan management and review processes. We then assign each risk-rating grade a loss ratio, which is determined based on the experience of management, discussions with banking regulators and our independent loan review process. We estimate losses on impaired loans based on estimated cash flows discounted at the loan's original effective interest rate or based on the underlying collateral value. To the extent that management does not believe that a certain loan's risk is appropriately represented by the risk rating grades, a specific review of the credit is performed which would result in a less subjective allocation for that particular loan.

## Edgar Filing: FLAG FINANCIAL CORP - Form 10-Q

Unallocated amounts are particularly subjective and do not lend themselves to exact mathematical calculation. The unallocated amount represents estimated inherent credit losses which may exist, but have not yet been identified, as of the balance sheet date. In estimating the unallocated amount, such matters as changes in the local or national economy, the depth or experience in the lending staff, any concentrations of credit in any particular industry group, and new banking laws or regulations. After we assess applicable factors, we evaluate the aggregate unallocated amount based on our management's experience. We then estimate the resulting ALL balance by comparing the balance in the ALL to historical trends and peer information. Our management then evaluates the result of the procedures performed, including the result of our testing, and concludes on the appropriateness of the balance of the ALL in its entirety.

The audit committee of our board of directors reviews the assessment prior to the filing of quarterly and annual financial information. In assessing the adequacy of the ALL, we also rely on an ongoing independent loan review process. We undertake this process both to ascertain whether there are loans in the portfolio whose credit quality has weakened over time and to assist in our overall evaluation of the risk characteristics of the entire loan portfolio. Our loan review process includes the judgment of management, the input from our independent loan reviewer, and reviews that may have been conducted by bank regulatory agencies as part of their usual examination process.

### Summary Financial Data

The following table presents summary financial data for the previous five quarters.

(in thousands, except per share data)

<i>(unaudited)</i>	<u>Second Quarter 2004</u>	<u>First Quarter 2004</u>	<u>Fourth Quarter 2003</u>	<u>Third Quarter 2003</u>	<u>Second Quarter 2003</u>
<b>INCOME SUMMARY</b>					
Interest income	\$ 10,071	9,674	9,461	9,267	8,726

## **Management's Discussion and Analysis of Financial Condition and Results of Operations**

### **Overview of Financial Condition**

Total assets were \$749.4 million at June 30, 2004, an increase of \$45.5 million or 6.5% from December 31, 2003. Earning assets totaled \$693.6 million or 92.6% of total assets at June 30, 2004 compared to \$647.5 million or 92.0% of total assets at December 31, 2003. Stockholders' equity increased \$1.3 million or 2.0% to \$64.4 million at June 30, 2004. Much of the growth discussed in this filing stems from Flag's Metro Atlanta expansion strategy. This initiative has focused on developing or hiring highly qualified teams of lenders, private bankers and treasury sales officers and has resulted in a very healthy pace of loan and demand deposit growth.

### **Loans**

Gross loans outstanding (excluding mortgage loans held for sale) at June 30, 2004 totaled \$530.3 million, an increase of \$46.6 million over December 31, 2003 balances. Mortgage loans held-for-sale increased from \$4.2 million at December 31, 2003 to \$6.0 million at June 30, 2004. Loans in the Metro Atlanta region grew to \$345.2 million at June 30, 2004 compared to \$283.6 million at December 31, 2003. Construction loans in Flag's Johns Creek production office grew during the period in question from \$66.5 million to \$80.3 million while loans in the Company's correspondent lending division grew slightly from \$104.2 million to \$108.4 million. Loan balances in the Company's traditional markets in Middle Georgia grew slightly during the six month period ending June 30, 2004.

### **Investment Securities**

Investment securities at June 30, 2004 totaled \$111.2 million, a decrease of \$26.3 million or 19.1% from December 31, 2003. During the second quarter of 2004, Flag had approximately \$20.2 million of expected calls on investment securities purchased during 2003. These securities and others in the portfolio were part of Flag's investment strategy that keeps the expected principal cash flow within two years and whenever possible would coincide with periods of strong loan growth. Most of the proceeds from these calls and maturities were held in federal funds sold at the end of the period as Flag expects the pace of loan growth to remain strong through the third quarter of 2004. Investment securities comprised 16.0% and 21.2% of earning assets at June 30, 2004 and December 31, 2003, respectively.

### **Federal Funds Sold and Interest Bearing Deposits**

Short term investments (federal funds sold and interest bearing deposits) totaled \$46.1 million at June 30, 2004, an increase of \$24.2 million from December 31, 2003. Historically, Flag has maintained lower levels of short term investments, choosing instead to invest more heavily in loans and investment securities. Our level of short term investments at the end of the second quarter was high as Flag expects strong loan growth to continue in the third quarter of 2004 from all lending segments of the company. Short term investments amounted to 6.6% of earning assets at June 30, 2004 and 3.4% of earning assets at December 31, 2003.

### **Premises and Equipment**

Premises and equipment at June 30, 2004 totaled \$14.1 million compared to \$16.5 million at December 31, 2003. The primary reason for the decrease in premises and equipment was the sale of approximately \$1.8 million of premises and equipment related to the Thomaston, Georgia branch.

### **Deposits and Other Funding**

Total deposits at June 30, 2004 were \$610.6 million, an increase of \$40.0 million or 7.0% over December 31, 2003. Included in the change since December 31, 2003 is the divestiture of approximately \$36 million in deposits related to the sale of Flag's Thomaston, Georgia branch in the first quarter. Interest-bearing demand deposits (money market and NOW accounts) have increased 12.8% or \$36.0 million over this period, due largely to sales efforts focused in the Atlanta deposit market. Total deposits in the Company's Metro Atlanta region were \$299.3 million at the end of June 30, 2004 compared to \$204.4 million at December 31, 2003. Demand deposits in the same region increased significantly as well, from \$132.6 million at the end of 2003 to \$188.5 million at June 30, 2004.

### **Advances from the Federal Home Loan Bank**

Advances from the Federal Home Loan Bank (FHLB) amounted to \$53 million at June 30, 2004 compared to \$58 million at December 31, 2003. This decrease related to one advance totaling \$5 million that was repaid during the first quarter of 2004.

## Management's Discussion and Analysis of Financial Condition and Results of Operations

### Liquidity

Liquidity management involves Flag's ability to maintain adequate short-term assets to meet the cash flow expectations of depositors and other lending institutions and to provide funds for the growth in earning assets. Liquidity is managed daily by understanding the cash flow expectations of depositors and other lending institutions and maintaining enough liquid assets to meet these expectations. As of June 30, 2004, Flag had \$382.7 million of deposits due on demand and \$168.2 million of time deposits and other borrowings due within one year. Potential liquidity needs of these liabilities are met with liquid assets (assets that can be easily converted to cash). Liquid assets at June 30, 2004 totaled \$180.2 million and included cash and due from banks, federal funds sold and interest bearing deposits with other banks, unpledged investment securities available-for-sale, marketable other investments and mortgage loans held-for-sale. In addition to using liquid assets to meet potential liquidity needs, Flag maintains available lines of credit with other financial institutions. These include federal funds and other lines of credit totaling \$46 million, a line of credit with the Federal Home Loan Bank totaling \$95 million, and a line of credit with the Federal Reserve Bank of Atlanta totaling \$125 million. At June 30, 2004, unadvanced portions of these lines amounted to \$213 million.

### Market Rate Sensitivity

Market rate sensitivity is the tendency for changes in the interest rate environment to be reflected in Flag's net interest income and results of operations. Flag seeks to balance maturities and rates on earning assets and the corresponding funding such that interest rate fluctuations have a minimal impact on earnings and the value of Flag's equity.

Historically, the average term to maturity or repricing (rate changes) of assets (primarily loans and investment securities) has exceeded the average repricing period of liabilities (primarily deposits and borrowings). Flag's liabilities over the past year have shifted from mostly time deposits with longer maturities to demand deposits, which reprice daily. This shift in funding results from sales and pricing disciplines that in the long run will prove profitable, but currently shows Flag with more liabilities repricing in the early months of a rate change than do earning assets. The Company measures the impact of this mismatch using an interest rate simulation model that monitors and evaluates the impact of changing interest rates on net interest income and the market value of its investment portfolio. As of June 30, 2004, Flag's simulation model shows that changing interest rates (rising or falling) will have minimal impacts on the Company's net interest margin or net income. The market value of the Company's investment portfolio shows more sensitivity to rising interest rates but is within tolerance specified by the Company's ALCO policy.

Management carefully measures and monitors market rate sensitivity and believes that its operating strategies offer protection against interest rate risk. As required by various regulatory authorities, Flag's Board of Directors established an interest rate risk policy, which sets specific limits on interest rate risk exposure. Adherence to this policy is reviewed by Flag's executive committee and presented at least annually to the Board of Directors.

Flag's management from time to time uses certain derivative instruments in an effort to add stability to the Company's net interest income and manage exposure to changing interest rates. Guidance for using these instruments is found in SFAS No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities. Under the terms of this statement, all derivatives are classified as either fair value hedges (those designed to hedge the fair market value of asset or liabilities affected by changing interest rates) or cash flow hedges (those designed to mitigate exposure to variability in expected future cash flows due to changing interest rates).

At June 30, 2004, the Company had three derivative instruments designated as cash flow hedges. No fair value hedges were outstanding. The following table summarizes the outstanding derivative instruments.

Type	Transaction Date	Term Date	Notional	Receive Rate	Pay Rate	Current Spread
Receive Fixed, Pay LIBOR Swap	June 2004	Dec 2005	5,000,000	2.68%	1.32%	1.36%
Receive Fixed, Pay LIBOR Swap	June 2004	June 2006	15,000,000	3.00%	1.32%	1.68%
Receive Fixed, Pay LIBOR Swap	June 2004	Dec 2006	5,000,000	3.27%	1.32%	1.95%
Total Received Fixed Swaps			25,000,000	2.99%	1.32%	1.66%

### Capital

At June 30, 2004, the capital ratios of Flag and Flag Bank (the Bank) were adequate compared to the minimum regulatory capital requirements. Minimum regulatory capital levels for banks and holding companies require Tier one capital (core capital accounts less intangible assets) to risk-weighted assets of at least 4%, total capital (tier one capital plus a portion of the allowance for loan losses) to risk-weighted assets of 8%,

## Edgar Filing: FLAG FINANCIAL CORP - Form 10-Q

and tier one capital to average assets of at least 4%. The following table reflects Flag's capital position with respect to the regulatory minimums as of June 30, 2004:

Flag's subordinated debt is supported by \$14,000,000 of trust preferred securities, which were issued on April 15, 2004 in a private pooled transaction through an off balance sheet trust: Flag Financial Corporation Statutory Trust. The subordinated debt and associated trust preferred securities carry a variable rate and were initially priced at LIBOR plus 3.89%. Interest payments and the resetting of rates both occur on a quarterly basis. The debt is scheduled to mature in April 2034 and cannot be redeemed by the trust for a minimum of five years after issuance. Flag intends to use the proceeds as capital for continued growth in metro Atlanta, for the stock repurchase program, and for other general operating purposes.

In March 2004, Flag's board of directors authorized a stock repurchase program covering an amount equal to 10% of outstanding shares. Through June 30, 2004 the Company had purchased approximately 230,000 shares at an average price of \$12.88.

	<b>Actual Amount</b>	<b>%</b>	<b>Required Amount</b>	<b>%</b>	<b>Excess Amount</b>	<b>%</b>
Total Capital (to Risk Weighted Assets)	\$ 72,726	12.87%	\$ 56,240	8.00%	\$ 16,486	4.87%
Tier 1 Capital (to Risk Weighted Assets)	\$ 65,618	11.61%	\$ 28,120	4.00%	\$ 37,498	7.61%
Tier 1 Capital (to Average Assets)	\$ 65,618	9.33%	\$ 22,600	4.00%	\$ 43,018	5.33%

## Management's Discussion and Analysis of Financial Condition and Results of Operations

### Provision and Allowance for Possible Loan and Lease Losses

The following table presents an analysis of the allowance for loan losses for the six-month periods ended June 30, 2004 and 2003:

<i>(in thousands)</i>	<u>2004</u>	<u>2003</u>
Balance of allowance for loan losses at beginning of period	\$ 6,685	6,888
Provision charged to operating expense	1,095	571
Charge offs:		
Commercial	12	155
Real estate - mortgage	17	32
Real estate - other	376	945
Consumer	147	121
	<u>552</u>	<u>1,253</u>
Total charge-offs	552	1,253
Recoveries:		
Commercial	137	57
Construction	-	-
Real estate - mortgage	12	12
Real estate - other	56	82
Consumer	56	84
	<u>261</u>	<u>235</u>
Total recoveries	261	235
Net charge-offs	291	1,018
	<u>291</u>	<u>1,018</u>
Balance of allowance for loan losses at end of period	\$ 7,489	6,441
	<u>7,489</u>	<u>6,441</u>

See "Critical Accounting Policies" for an explanation of our methodology for determining the appropriate level for the allowance and its effect on our results of operations.

### Non-Performing Assets

Non-performing assets (nonaccrual loans, real estate owned and repossessions) totaled approximately \$5.9 million at June 30, 2004, compared to \$7.4 million at December 31, 2003. These levels as a percentage of total assets represented 0.78% and 1.06% respectively.

Flag has a loan review function that continually monitors selected accruing loans for which general economic conditions or changes within a particular industry could cause the borrowers financial difficulties. The loan review function also identifies loans with high degrees of credit or other risks. The focus of loan review is to maintain a low level of non-performing assets and to return current non-performing assets to earning status.

<i>(in thousands)</i>	<u>June 30,</u> <u>2004</u>	<u>December 31,</u> <u>2003</u>	<u>June 30,</u> <u>2003</u>
Non-performing assets			
Loans on nonaccrual	\$ 3,415	4,685	6,808

Total non-performing assets as a percentage of total assets		0.78%	1.06%	1.50%

---

**Management's Discussion and Analysis of  
Financial Condition and Results of Operations**

**Results of Operations for the Three Month Periods Ended June 30, 2004 and 2003**

**Net income** Net income for the quarter ended June 30, 2004 was \$1.9 million or \$0.21 per diluted share, compared to \$1.5 million or \$0.17 per diluted share for the quarter ended June 30, 2003. Flag's return on average assets was 1.07% and 0.97% for the second quarter of 2004 and 2003, respectively, while return on equity was 11.59% and 9.65% on average equity of \$66.3 and \$62.8 for the same quarters.

**Interest income** - Interest income for the quarter ended June 30, 2004 was \$10.1 million, an increase of \$1.3 million or 15.4% compared to the same quarter in 2003. Interest income and fees on loans in the current quarter increased \$1.5 million, or 20.2%, to \$8.7 million compared to the same quarter in 2003. Average loans for the period increased \$121.9 million or 32.0% while the average yield decreased to 6.9% from 7.6% during the second quarter of 2003. Interest income on investment securities declined by \$33,000 during the quarter compared to the second quarter of 2003 as the average balance of investment securities increased from \$121.8 million in 2003 to \$127.2 million in the current period. Although average balances of investment securities increased, Flag saw declining investment income due to lower interest rate yields on these investments. Interest on federal funds sold and interest bearing deposits in other banks decreased by 45.0% during the second quarter of 2004 to \$99,000 as Flag's strong loan demand allowed the Company to maintain lower levels of liquidity than in the same period in 2003. Average balances for federal funds sold and interest-bearing deposits as of June 30, 2004 and June 30, 2003 were \$25.1 million and \$42.6 million, respectively, reflecting a 41.1% decrease over the periods in question.

Yields on earning assets during the quarter ended June 30, 2004 were virtually unchanged when compared to the second quarter of 2003. Yields on earning assets for the current quarter were 6.11% compared to 6.13% for the same period in 2003.

**Interest expense** Interest expense for the second quarter of 2004 was \$2.7 million, an increase of \$106,000 over the same quarter in 2003. Most of this 4.1% increase in interest expense was due to a 22.8% increase in total funding, from \$554.6 million at June 30, 2003 to \$679.9 million at June 30, 2004. Demand deposits (interest-bearing and non-interest bearing) comprised 56.3% of total funding at June 30, 2004 compared to 51.0% at June 30, 2003. This improvement in funding along with lower renewal rates on time deposits helped reduce Flag's cost of funds to 1.70% for the second quarter of 2004 compared to 1.85% in the second quarter of 2003.

**Net interest income** Net interest income for the quarter ended June 30, 2004 was \$7.4 million, an increase of 20.3% from the quarter ended June 30, 2003. Flag's net interest margin (net interest income divided by average earning assets) increased from 4.35% to 4.46% on average earning assets of \$564.5 million and \$663.3 million for the quarters ended June 30, 2003 and June 30, 2004, respectively.

**Provision for loan losses** Flag's provision for loan losses for the second quarter of 2004 was \$375,000 as compared to \$315,000 for the same quarter a year ago. Although loans have increased substantially during the past year, Flag's overall credit quality has improved significantly as well, as discussed in the credit quality sections titled "Provision and Allowance for Possible Loan and Lease Losses" and "Non-Performing Assets."

**Non-interest income** Non-interest income for the quarter ended June 30, 2004 totaled \$2.6 million, a decrease of 26.7% compared to the quarter ended June 30, 2003. Flag's income from mortgage banking activities declined from \$1.5 million in the second quarter of 2003 to \$600,000 in the second quarter of 2004 as mortgage interest rates in the current period were not as favorable as in 2003. Gains on the sale of real estate contributed to strong non-interest income in 2003 as Flag sold or divested several pieces of real estate that produced a non-recurring gain of \$922,000. Non-interest income comprised 20.5% of total revenue during the second quarter of 2004 compared to 28.8% in the second quarter of 2003.

**Non-interest expense** - Non-interest expense for the second quarter of 2004 totaled \$6.7 million compared to \$7.1 million in the same quarter of 2003. Salaries and benefits decreased from \$4.3 million in 2003 to \$4.1 million in 2004, a decrease of 4.5%. This decrease was due largely to decreased mortgage commissions related to the reduction in Flag's mortgage operation. Occupancy expense decreased 6.0% to \$863,000 for the second quarter of 2004 as compared to the second quarter of 2003. Included in occupancy expense for the second quarter of 2003 was a non-recurring charge of \$115,000 related to Flag's decision to exit its operation center in south Atlanta which was under lease until December 31, 2004. Increases in professional fees of \$118,000 during the current quarter were offset by decreases in communications and data expense of \$162,000.

Excluding one time charges in the second quarter of 2003, Flag's operating expenses decreased 3.36% during the quarter ended June 30, 2004. Flag's efforts on stabilizing or reducing operating expenses while growing the balance sheet and its Metro Atlanta presence are seen in other areas as well. Total assets per employee improved to \$3.2 million at June 30, 2004, an increase of 25.2% over the \$2.5 million at June 30, 2003. Total deposits per branch location improved as well from \$27.6 million at June 30, 2003 to \$40.7 million at June 30, 2004, an increase of 47.4%.

Edgar Filing: FLAG FINANCIAL CORP - Form 10-Q

**Income taxes** Income tax expense for the quarter ended June 30, 2004 totaled \$920,000 compared to \$736,000 for the same quarter of 2003. Flag's effective tax rate was 32.4% and 32.6% for the second quarters of 2004 and 2003, respectively.

---

**Management's Discussion and Analysis of  
Financial Condition and Results of Operations**

**Results of Operations for the Six Month Periods Ended June 30, 2004 and 2003**

**Net income** - Net income for the six month period ended June 30, 2004 was \$4.0 million or \$0.44 per diluted share compared to net income of \$3.0 million or \$0.34 per diluted share for the same period in 2003.

**Interest Income** - Total interest income for the six month period ending June 30, 2004 increased by 10.9% to \$19.7 million. Interest and fees on loans increased from \$14.4 million during the first six months of 2004 to \$16.8 million for the same period in 2003, an increase of 16.3%, which accounted for most of the increase. Average earning assets for the first six months of 2004 were \$657.8 million compared to \$571.3 million for the first six months of 2003. Loans (including loans held for sale) averaged 75.7% of average earnings assets for 2004 compared to 68.8% for 2003. Offsetting the overall increase in average earning assets was compression in the yield on average earning assets. Yields on average earning assets decreased from 6.29% through June 30, 2003 to 6.04% through June 30, 2004.

**Interest Expense** - Interest expense decreased \$196,000 from June 30, 2003 to \$5.3 million at June 30, 2004, a decrease of 3.6%. This decrease comes despite an increase in total funding of \$126.4 million to \$679.9 million at June 30, 2004. Flag's total cost of funding for the six month period ending June 30, 2004 was 1.66% compared to 1.95% for the same period in 2003.

**Net interest income** - Net interest income for the six month period ended June 30, 2004 totaled \$14.5 million, an increase of 17.3% over the same period in 2003.

**Provision for loan losses** - Flag's provision for loan losses in the first six months of 2004 amounted to \$1,095,000, compared to \$571,000 for the same period in 2003. Flag's larger provision for the six month period is due mostly to a faster pace of loan growth than experienced in previous years and to a special charge for specific credits taken in the first quarter of 2004. See *Critical Accounting Policies* and *Allowance for Possible Loan and Lease Losses*.

**Non-interest income** - Non-interest income totaled \$7.3 million for the six month period ending June 30, 2004. This increase of \$1.3 million or 21.6% relates primarily to the \$3.0 million gain recognized on the sale of Flag's Thomaston, Georgia branch during the first quarter of 2004. Service charges on deposit accounts improved to \$1.9 million in the first six months of 2004, an increase of 7.5%. Revenues from mortgage banking activities during the quarter were \$1.1 million, a decrease from \$2.3 million during the same period in 2003. Flag anticipated a decline in this income as interest rates during most of 2003 were very favorable and provided many homeowners with refinance opportunities. Flag's other income decreased by \$1.2 million in the first six months of 2004 as compared to the same period in 2003, due primarily to the sale and leaseback of Flag's Dunwoody, Georgia branch facility during the first half of 2003, which resulted in a one-time gain of \$922,000.

**Non-interest expense** - Non-interest expense for the six month period ending June 30, 2004 totaled \$14.7 million, an increase of \$1.3 million from the same period in 2003. Included in the \$14.7 million for 2004 are expenses totaling \$635,000 directly related to the sale of Flag's Thomaston, Georgia branch and \$376,000 of benefit plan expense that related to director and officer plans under a recent accounting interpretation by various regulatory agencies. On a recurring basis, Flag's operating expenses for the six month period ended June 30, 2004 represent an increase of only 2.15% over the same period in 2003, despite the depth created in various lending and deposit sales functions throughout the Bank.

**Provision for income taxes** - Flag's provision for income taxes during the first six months of 2004 amounted to \$1.9 million for an effective tax rate of 32.6%. During the first six months of 2003, Flag recorded an income tax expense of approximately \$1.4 million for an effective rate of 31.2%. Flag's increasing effective tax rate is due to a higher level of profitability with relatively fewer deductions and credits.

**Management's Discussion and Analysis of  
Financial Condition and Results of Operations**

**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

As of June 30, 2004, there were no substantial changes in the composition of Flag's market-sensitive assets and liabilities or their related market values from that reported as of December 31, 2003. The foregoing disclosures related to the market risk of Flag should be read in conjunction with Flag's audited consolidated financial statements, related notes and management's discussion and analysis of financial condition and results of operations for the year ended December 31, 2003 included in Flag's 2003 Annual Report on Form 10-K.

**Item 4. Controls and Procedures**

As of the end of the period covered by this report, Flag carried out an evaluation, under the supervision and with the participation of Flag's management, including Flag's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Flag's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, Flag's Chief Executive Officer and Chief Financial Officer concluded that Flag's disclosure controls and procedures are effective in timely alerting them to material information relating to Flag (including its consolidated subsidiaries) that is required to be included in Flag's periodic filings with the Securities and Exchange Commission. There have been no significant changes in Flag's internal controls or, to Flag's knowledge, in other factors that could significantly affect those internal controls subsequent to the date Flag carried out its evaluation, and there have been no corrective actions with respect to significant deficiencies or material weaknesses.
