CALCULATION OF REGISTRATION FEE

Title of Each Class of Securities Offered	Maximum Aggregate Offering Price	Amount of Registration Fee(1)
British Pound Principal Protected Notes	\$1,500,000	\$46.05

(1) Pursuant to Rule 457(p) under the Securities Act of 1933, filing fees of \$94,671.00 have already been paid with respect to unsold securities that were previously registered pursuant to a Registration Statement on Form F-3 (No. 333-89136) of ABN AMRO Bank N.V. (the "Prior Registration Statement"), which was initially filed on May 24, 2002 and for which a post-effective amendment was filed on September 17, 2003 and have been carried forward. The \$46.05 fee with respect to the \$1,500,000 Principal Protected Notes Linked to the Performance of the British Pound Relative to the U.S. Dollar due October 29, 2010 sold pursuant to this registration statement is offset against those filing fees, and \$38,880.90 remains available for future registration fees. No additional fee has been paid with respect to this offering.

 ENHANCED PARTICIPATION, PRINCIPAL PROTECTED NOTES DUE OCTOBER 29, 2010
 LINKED TO THE PERFORMANCE OF THE BRITISH POUND RELATIVE TO THE U.S. DOLLAR

As described below, each Security will entitle the holder to receive at maturity the principal amount of \$1,000 plus an amount, which we refer to as the supplemental redemption amount, based on the increase, if any, in the value of the U.S. Dollar relative to the British Pound as measured on the determination date compared to the initial exchange rate of 2.0506. The Securities do not pay interest. The return on the Securities is subject to the credit of ABN AMRO Bank, N.V. as the issuer of the Securities and ABN AMRO Holding N.V. as the guarantor of the issuer's obligations under the Securities.

SUMMARY

THE FOLLOWING SUMMARY ANSWERS SOME QUESTIONS THAT YOU MIGHT HAVE REGARDING

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

THE SECURITIES IN GENERAL TERMS ONLY. IT DOES NOT CONTAIN ALL THE INFORMATION THAT MAY BE IMPORTANT TO YOU. YOU SHOULD READ THE SUMMARY TOGETHER WITH THE MORE DETAILED INFORMATION THAT IS CONTAINED IN THE REST OF THIS PRICING SUPPLEMENT AND IN THE ACCOMPANYING PROSPECTUS AND PROSPECTUS SUPPLEMENT. YOU SHOULD CAREFULLY CONSIDER, AMONG OTHER THINGS, THE MATTERS SET FORTH IN "RISK FACTORS." IN ADDITION, WE URGE YOU TO CONSULT WITH YOUR INVESTMENT, LEGAL, ACCOUNTING, TAX AND OTHER ADVISORS WITH RESPECT TO ANY INVESTMENT IN THE SECURITIES.

WHAT ARE THE SECURITIES?

The Securities are senior notes issued by us, ABN AMRO Bank N.V., and are fully and unconditionally guaranteed by our parent company, ABN AMRO Holding N.V. The Securities have a maturity of three years. The payment at maturity on the Securities is based on the increase, if any, in the value of the U.S. dollar relative to the British pound, as reflected in the change in the Underlying Exchange Rate as measured on the determination date compared to the initial exchange rate, as described below. UNLIKE ORDINARY DEBT SECURITIES, THE SECURITIES DO NOT PAY INTEREST. IF THE BRITISH POUND STRENGTHENS AGAINST THE U.S. DOLLAR OVER THE TERM OF THE SECURITIES YOU WILL BE ENTITLED TO RECEIVE ONLY THE PRINCIPAL AMOUNT OF \$1,000 PER SECURITY. IN SUCH A CASE, YOU WILL RECEIVE NO RETURN ON YOUR INVESTMENT AND YOU WILL NOT BE COMPENSATED FOR ANY LOSS IN VALUE DUE TO INFLATION AND OTHER FACTORS RELATING TO THE VALUE OF MONEY OVER TIME.

WHAT WILL I RECEIVE AT MATURITY OF THE SECURITIES?

Subject to the credit of ABN AMRO Bank, N.V. as the issuer of the Securities and ABN AMRO Holding N.V. as the guarantor of the Bank's obligations under the Securities, at maturity you will receive, for each \$1,000 principal amount of Security, a cash payment equal to the sum of \$1,000 plus the supplemental redemption amount, if any.

HOW ARE THE SUPPLEMENTAL REDEMPTION AMOUNT, CURRENCY PARTICIPATION RATE AND CURRENCY RETURN CALCULATED?

The supplemental redemption amount for each \$1,000 principal amount of Securities is an amount calculated by the calculation agent as the greater of (i) zero and (ii) a cash amount equal to the currency participation rate times the currency return.

The currency participation rate is fixed at 1.50 or 150%. This allows you to receive an enhanced return on the Securities if the U.S. dollar has strengthened relative to the British pound.

The currency return is calculated according to the following formula:

$$\text{\$1,000} \times \left(1 - \frac{\text{Final Exchange Rate}}{\text{Initial Exchange Rate}}\right)$$

WHERE,

- the initial exchange rate is 2.0506; and
- the final exchange rate is the underlying exchange rate on the determination date.

The supplemental redemption amount will be greater than zero when the final exchange rate is an amount smaller than the initial exchange rate, which means that the U.S. dollar has strengthened relative to the British pound.

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

The supplemental redemption amount will be equal to zero if the final exchange rate is an amount equal to or greater than the initial exchange rate.

WILL I RECEIVE INTEREST PAYMENTS ON THE SECURITIES?

No. You will not receive any interest payments on the Securities.

WILL I GET MY PRINCIPAL BACK AT MATURITY?

Subject to the credit of ABN AMRO Bank, N.V. as the issuer of the Securities and ABN AMRO Holding N.V. as the guarantor of the Bank's obligations under the Securities, you will receive your principal back at maturity of the Securities. However, if you sell the Securities prior to maturity, you will receive the market price for the Securities, which may or may not include the return of your full principal amount. There may be little or no secondary market for the Securities. Accordingly, you should be willing to hold your Securities until maturity.

PS-3

CAN YOU GIVE ME HYPOTHETICAL EXAMPLES OF THE PAYMENT I WILL RECEIVE AT MATURITY DEPENDING ON THE CHANGE IN THE UNDERLYING EXCHANGE RATE?

EXAMPLE 1: If, for example, the initial exchange rate is 2.0506 and the final exchange rate is 1.8010, the currency return would be calculated as:

$$\begin{array}{r} 1.8010 \\ \$1,000 \times (1 - \frac{\text{-----}}{2.0506}) = \$121.72 \end{array}$$

Consequently, the supplemental redemption amount would be calculated as:

the greater of zero and $\$121.72 \times 1.50 = \182.58

Since the supplemental redemption amount in this hypothetical example is \$182.58, at maturity you would receive amount in cash per Security equal to the sum of \$1,000 and the supplemental redemption amount of \$182.58, or \$1,182.58 per Security.

In this example, the U.S. dollar would have strengthened in value relative to the value of the British pound during the term of the Securities by 12.17% and you would have received a 18.26% return on your investment.

EXAMPLE 2: If, for example, the initial exchange rate is 2.0506 and the final exchange rate is 2.5010, the currency return would be calculated as:

$$\begin{array}{r} 2.5010 \\ \$1,000 \times (1 - \frac{\text{-----}}{2.0506}) = \$219.64 \end{array}$$

Consequently, the supplemental redemption amount would be calculated as:

the greater of zero and $-\$219.64 \times 1.50 = -\329.46

Since the supplemental redemption amount in this hypothetical example is zero, at maturity you would receive an amount in cash per Security equal to

Edgar Filing: ABN AMRO HOLDING N V - Form 424B2

only the principal amount of \$1,000 per Security. THIS MEANS YOU WOULD HAVE RECEIVED NO RETURN ON YOUR INVESTMENT AND YOU WOULD NOT BE COMPENSATED FOR ANY LOSS IN VALUE DUE TO INFLATION AND OTHER FACTORS RELATING TO THE VALUE OF MONEY OVER TIME.

In this example, the U.S. dollar would have weakened in value relative to the value of the British pound during the term of the Securities by -21.96% and you would have received a return on your investment of zero.

THESE EXAMPLES ARE FOR ILLUSTRATIVE PURPOSES ONLY. IT IS NOT POSSIBLE TO PREDICT THE VALUE OF THE UNDERLYING EXCHANGE RATE ON THE DETERMINATION DATE OR AT ANY TIME DURING THE TERM OF THE SECURITIES.

In this Pricing Supplement, we have provided under the heading "Hypothetical Return Analysis of the Securities at Maturity" the total return of owning the Securities through maturity for various hypothetical values of the exchange rate.

HOW DOES ANY CHANGE IN THE UNDERLYING EXCHANGE RATE DURING THE LIFE OF THE SECURITIES AFFECT ME?

If the Underlying Exchange Rate decreases that means the U.S. dollar has appreciated or strengthened in value relative to British pounds because each U.S. dollar buys more British pounds. If the U.S. dollar has appreciated in value relative to the British pound between the date the Securities were priced and the determination date, at maturity you will receive a cash payment equal to the supplemental redemption amount in addition to the principal amount of the Securities.

If the Underlying Exchange Rate increases that means the U.S. dollar has depreciated or weakened in value relative to British pounds because each U.S. dollar buys fewer British pounds. If the U.S. dollar has depreciated in value relative to the British pound between the date the Securities were priced and the determination date, at maturity you will not receive any supplemental redemption amount and you will receive only a return of your initial principal investment in the Securities. THIS MEANS YOU WILL RECEIVE NO RETURN ON YOUR INVESTMENT AND YOU WILL NOT BE COMPENSATED FOR ANY LOSS IN VALUE DUE TO INFLATION AND OTHER FACTORS RELATING TO THE VALUE OF MONEY OVER TIME.

IS THERE A LIMIT ON HOW MUCH I CAN EARN OVER THE TERM OF THE SECURITIES?

No. If the Securities are held to maturity, the total amount payable at maturity per Security is not capped. The supplemental redemption amount is based on the performance of the Underlying Exchange Rate from the pricing date to the determination date.

WHAT IS THE MINIMUM REQUIRED PURCHASE?

You can purchase Securities in \$1,000 denominations or in integral multiples thereof.

PS-4

IS THERE A SECONDARY MARKET FOR THE SECURITIES?

We do not intend to list the Securities on any securities exchange. Accordingly, there may be little or no secondary market for the Securities and, as such, information regarding independent market pricing for the Securities may be limited. You should be willing to hold your Securities until the

maturity date.

Although it is not required to do so, we have been informed by our affiliate that when this offering is complete, it intends to make purchases and sales of the Securities from time to time in off-exchange transactions. If our affiliate does make such a market in the Securities, it may stop doing so at any time.

In connection with any secondary market activity in the Securities, our affiliate may post indicative prices for the Securities on a designated website or via Bloomberg. However, our affiliate is not required to post such indicative prices and may stop doing so at any time. INVESTORS ARE ADVISED THAT ANY PRICES SHOWN ON ANY WEBSITE OR BLOOMBERG PAGE ARE INDICATIVE PRICES ONLY AND, AS SUCH, THERE CAN BE NO ASSURANCE THAT ANY TRADE COULD BE EXECUTED AT SUCH PRICES. Investors should contact their brokerage firm for further information.

In addition, the issue price of the Securities includes the selling agents' commissions paid with respect to the Securities and the cost of hedging our obligations under the Securities. The cost of hedging includes the profit component that our affiliate has charged in consideration for assuming the risks inherent in managing the hedging transactions. The fact that the issue price of the Securities includes these commissions and hedging costs is expected to adversely affect the secondary market prices of the Securities. See "Risk Factors--The Inclusion of Commissions and Cost of Hedging in the Issue Price is Likely to Adversely Affect Secondary Market Prices" and "Use of Proceeds."

WHAT ARE THE TAX CONSEQUENCES OF OWNING THE SECURITIES?

YOU SHOULD REVIEW THE SECTION IN THIS PRICING SUPPLEMENT ENTITLED "TAXATION." ADDITIONALLY, YOU ARE URGED TO CONSULT YOUR TAX ADVISOR REGARDING THE TAX TREATMENT OF THE SECURITIES AND WHETHER A PURCHASE OF THE SECURITIES IS ADVISABLE IN LIGHT OF THE TAX TREATMENT AND YOUR PARTICULAR SITUATION.

WHAT IS THE UNDERLYING EXCHANGE RATE AND HOW HAS IT PERFORMED HISTORICALLY?

The Underlying Exchange Rate is the rate for conversion of the British pound into U.S. dollars, expressed as the number of U.S. dollars per one British pound. The Underlying Exchange Rate increases as the value of the U.S. dollar decreases relative to the British pound and decreases as the value of the U.S. dollar increases relative to the British pound. The Underlying Exchange Rate will be determined by the calculation agent by reference to the spot exchange rate for U.S. dollars per British pound as determined by the Federal Reserve Bank of New York, which appears on page TNFXGB
