D'Avella, Krstajic, Schaepe, Solomon and Stevens are eligible to receive options out of the Directors' Plan. Options granted under the Directors' Plan are intended by us to qualify as incentive stock options under the Internal Revenue Code (the Code). Options granted under the Directors' Plan generally are non-transferable, however, an optionee may designate a beneficiary who may exercise the option following the optionee's death. In the event of certain changes in control, all outstanding awards under the Directors' Plan will either be assumed or substituted by the surviving entity. If the surviving entity determines not to assume or substitute such awards, the vesting and exercise period shall be accelerated prior to such event. The accelerated options will terminate if not exercised and at or prior to such change in control event. If an optionee's service relationship with us or any affiliate (whether as a Non-Employee Director or subsequently as an employee, director, or consultant of ours or an affiliate) ceases for any reason, the optionee or his or her beneficiary, if applicable, may exercise his or her vested options within the term provided in the option agreement (3 months generally, 12 months in the event of disability and 18 months in the event of death). In the fiscal year ended December 31, 2000, our Compensation Committee which consisted of Messrs. Schaepe and Stevens, who are not our officers or employees, and Dr. Zaki Rakib, our Chief Executive Officer and Secretary, met once. The Compensation Committee together with the Board of Directors was responsible for establishing our compensation programs for all employees, including executives, and for administering our stock purchase and stock option plans. For executive officers, the Board of Directors evaluated performance and determined compensation policies and levels. The Board of Directors consists of Messrs. D'Avella, Krstajic, Schaepe, Solomon and Stevens, who are not our officers or employees, Dr. Zaki Rakib, our Chief Executive Officer and Secretary, and Mr. Shlomo Rakib, our President and Chief Technical Officer. Our entire Board of Directors participated in all compensation decisions, except that Dr. Rakib and Mr. Rakib did not participate in decisions

1 The material in this report is not "soliciting material," is not deemed "filed" with the SEC and is not to be incorporated by reference into any filing of the Company under the 1933 Act or 1934 Act, whether made before or after the date hereof and irrespective of any general incorporation language contained in such filing.

relating to their respective compensation. The Non-Officer Option Committee, which is comprised of Dr. Rakib, acted after the hiring of each new employee or consultant or consultant to grant option to such employee or consultant and the Compensation Committee set option grant guidelines for certain new hires.

Compensation Philosophy

The goals of our compensation program are to align compensation with business objectives and performance and to enable us to attract, retain and reward executive officers and other key employees who contribute to our long-term success and to motivate them to enhance long-term stockholder value. Key elements of our philosophy are:

- . We pay competitively compared to leading technology companies with whom we compete for talent. To ensure that pay is competitive, we regularly compare our pay practices with these companies and establish our pay parameters based upon this review.
- . We maintain annual incentive opportunities sufficient to provide motivation to achieve specific operating goals and to generate rewards that bring total compensation to competitive levels.
- . We provide significant equity-based incentives for our executives and other key employees to ensure that they are motivated over the long term to respond to our business challenges and opportunities as owners and not just as employees.

Philosophy Regarding Section 162(m) of the Internal Revenue Code. Section 162(m) of the Code limits our deduction for federal income tax purposes to no more than \$1 million of compensation paid to our executive officers in a taxable year. Compensation above \$1 million may be deducted if it is "performance-based compensation" within the meaning of the Code.

Edgar Filing: TERAYON COMMUNICATION SYSTEMS - Form 10-K/A

Our Board of Directors has determined that stock options granted under our 1997 Plan and 1999 Plan with an exercise price at least equal to the fair market value of our common stock on the date of grant shall be treated as "performance-based compensation."

Base Salary. Our Board of Directors or the Compensation Committee annually reviews each executive officer's base salary. When reviewing base salaries, our Board of Directors or our Compensation Committee considers individual and corporate performance, levels of responsibility, prior experience, breadth of knowledge and competitive pay practices.

Long-Term Incentives. Our long-term incentive program consists of the 1995 Stock Option Plan, the 1997 Equity Incentive Plan and the 1999 Non-Officer's Plan. These option programs utilize vesting periods (generally four or five year periods) to encourage key employees to continue in our employ. Through option grants, executives receive significant equity incentives to build long-term stockholder value. Grants are made at 100% of fair market value on the date of grant. Executives receive value from these grants only if the value of our common stock appreciates over the long-term. The size of our option grants are determined based on competitive practices at leading companies in the technology industry and our philosophy of significantly linking executive compensation with stockholder interests. In the fiscal year ended December 31, 2000, the Board of Directors granted stock options to certain executives that will vest over a four-year or a five-year period. These grants were intended to provide incentive to maximize stockholder value over the next several years. Our Board of Directors believes this approach creates an appropriate focus on longer term objectives and promotes executive retention.

Chief Executive Officer Compensation

Dr. Rakib's base salary as Chief Executive Officer at the beginning of 2000 was \$232,500. In April 2000, following a Board of Directors' review of compensation paid by leading technology companies, the Board of Directors set Dr. Rakib's base annual salary through 2000 at \$450,000. In setting this amount, the Board of Directors took into account (i) its belief that Dr. Rakib is the Chief Executive Officer of a leading technology company with significant and broad-based experience in the broadband equipment industry, (ii) the scope of

Dr. Rakib's responsibility and (iii) the Board of Directors' confidence in Dr. Rakib to lead our continued development.

Other Executive Officers' Compensation

In April 2000, our Board of Directors established the base salary for Mr. Rakib and in June 2000, our Board of Directors established the base salary ranges for other executive officers. These base salary ranges were based on data regarding executive compensation of our competitors, including published survey information, each executive officer's base salary for prior years, past performance, the scope of such officer's responsibility and other information available to our Board of Directors. In June 2000, our Board of Directors established bonus compensation formulas for each level of upper management based on individual and company-wide performance criteria. Our Board of Directors also awarded stock options to certain executive officers to provide additional incentives.

In January 1999, the Compensation Committee created a Non-Officer Stock Option Committee of the Board of Directors, which consists of Dr. Zaki Rakib. The function of the Non-Officer Stock Option Committee is to grant options to purchase shares of common stock to eligible persons who are non-officer employees subject to Section 16 of the 1934 Act.

During the fiscal year ended December 31, 2000, Shaw purchased equipment and services from us which accounted for approximately \$56,844,350 worth of our revenues. In April 1998, we issued to Shaw a warrant (Anti-dilution Warrant) to purchase 36,159 shares of common stock for a price of \$1.00 per share. The Anti-dilution Warrant is exercisable from time to time when we issue certain new equity securities until the date upon which Shaw ceases to own shares of our common stock. Michael D'Avella, one of our directors, is the Senior Vice President for Shaw.

During the fiscal year ended December 31, 2000, Rogers purchased equipment and services from us which accounted for approximately \$57,933,654 worth of our revenues. Mr. Krstajic, one of our directors, is the Senior Vice President of Interactive Services, Sales and Product Development for Rogers.

We believe that the terms of the transactions described above were no less favorable to us than would have been obtained from an unaffiliated third party. Any future transactions between us and any of our officers, directors or principal stockholders will be on terms no less favorable to us than could be obtained from unaffiliated third parties and will be approved by a majority of the independent and disinterested members of our Board of Directors.
