\* Non-income producing security.

Securities were purchased under Rule 144A of the Securities Act of 1933, as amended, or are otherwise restricted and, unless registered under the Securities Act of 1933 or exempted from registration, may only be sold to

(a) qualified institutional investors or may have other restrictions on resale. At January 31, 2019, these securities amounted to approximately \$7,063,000, which represents 10.3% of net assets applicable to common stockholders of the Fund. Securities denoted with (a) but without (b) have been deemed by the investment manager to be liquid.

(b) Illiquid security.

(c) Variable rate demand obligation where the stated interest rate is not based on a published reference rate and spread. Rather, the interest rate generally resets daily or weekly and is determined by the remarketing agent. The

rate shown represents the rate in effect at January 31, 2019.

- (d) Defaulted security.
- (e) Value determined using significant unobservable inputs.
- (f) This security has been deemed by the investment manager to be illiquid, and is subject to restrictions on resale.

At January 31, 2019, this security amounted to approximately \$1,755,000, which represents 2.6% of net assets applicable to common stockholders of the Fund.

Notes to Schedule of Investments (Unaudited)

In accordance with Accounting Standards Codification 820 "Fair Value Measurement" ("ASC 820"), all investments held by each of Neuberger Berman California Municipal Fund Inc., Neuberger Berman Municipal Fund Inc. and Neuberger Berman New York Municipal Fund Inc., (each individually a "Fund," and collectively, the "Funds") are carried at the value that Neuberger Berman Investment Advisers LLC ("Management") believes a Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment under current market conditions. Various inputs, including the volume and level of activity for the asset or liability in the market, are considered in valuing the Funds' investments, some of which are discussed below. Significant Management judgment may be necessary to value investments in accordance with ASC 820.

ASC 820 established a three-tier hierarchy of inputs to create a classification of value measurements for disclosure purposes. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

Level 1 – quoted prices in active markets for identical investments

Level 2 – other observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, amortized cost, etc.)

Level 3 – unobservable inputs (including a Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing an investment are not necessarily an indication of the risk associated with investing in those securities.

The value of the Funds' investments in municipal notes and liquidating trust - real estate is determined by Management primarily by obtaining valuations from independent pricing services based on readily available bid quotations, or if quotations are not available, by methods which include various considerations such as yields or prices of securities of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions (generally Level 2 inputs). Other Level 2 and 3 inputs used by independent pricing services to value municipal notes and liquidating trust - real estate include current trades, bid-wanted lists (which inform the market that a holder is interested in selling a position and that offers will be considered), offerings, general information on market movement, direction, trends, appraisals, bid offers and specific data on specialty issues.

Management has developed a process to periodically review information provided by independent pricing services for all types of securities.

If a valuation is not available from an independent pricing service, or if Management has reason to believe that the valuation received does not represent the amount a Fund might reasonably expect to receive on a current sale in an orderly transaction, Management seeks to obtain quotations from brokers or dealers (generally considered Level 2 or Level 3 inputs depending on the number of quotes available). If such quotations are not readily available, the security is valued using methods the Funds' Board of Directors has approved in the good-faith belief that the resulting valuation will reflect the fair value of the security. Numerous factors may be considered when determining the fair value of a security based on Level 2 or Level 3 inputs, including available analyst, media or other reports, securities within the same industry with recent highly correlated performance, trading in futures or American Depositary Receipts and whether the issuer of the security being fair valued has other securities outstanding.

Fair value prices are necessarily estimates, and there is no assurance that such a price will be at or close to the price at which the security is next quoted or next trades.

In August 2018, FASB issued Accounting Standards Update No. 2018-13, “Fair Value Measurement (Topic 820: Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement)” (“ASU 2018-13”). ASU 2018-13 eliminates the requirement to disclose the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, the timing of transfers between levels of the fair value hierarchy and the valuation processes for Level 3 fair value measurements. ASU 2018-13 will require the need to disclose the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements and the changes in unrealized gains and losses for recurring Level 3 fair value measurements. ASU 2018-13 will also require that information is provided about the measurement uncertainty of Level 3 fair value measurements as of the reporting date. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019 and allows for early adoption of either the entire standard or only the provisions that eliminate or modify the requirements. Management has elected to adopt early the provisions that eliminate the disclosure requirements. Management is still currently evaluating the impact of applying the rest of the guidance.

Item 2. Controls and Procedures.

Based on an evaluation of the disclosure controls and procedures (as defined in Rule 30a-3(c) under the 1940 Act), as of a date within 90 days of the filing date of this report, the Chief Executive Officer and President and the Treasurer and Principal Financial and Accounting Officer of the Registrant have concluded that such disclosure controls and procedures are effectively designed to ensure that information required to be disclosed by the Registrant on Form N-Q is accumulated and communicated to the Registrant's management to allow timely decisions regarding required disclosure.

(a) There were no significant changes in the Registrant's internal controls over financial reporting (as defined in Rule (b)30a-3(d) under the 1940 Act) that occurred during the Registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 3. Exhibits.

The certifications required by Rule 30a-2(a) of the 1940 Act are filed herewith.
