Letter To Shareholders

November 1, 2001

Dear Fellow Shareholder:

We cannot begin this review to you without acknowledging a debt. Building over the last 18 years of my professional career, this debt consists of the stellar research, true grit and integrity of a number of brokerage firms. Chief among them were Sandler O'Neill and Keefe, Bruyette and Woods. The professionals of these firms are financial service industry specialists who know their craft like none before them. They are, in short, world class. That so many of them perished on September 11th is the kind of loss that is beyond comprehension--beyond my understanding, that is--a loss we suffer for a long time and in bits because the whole of it is too much today. That so many are so missed is consolation, even inspiration--a charge to cherish our lives and one another a little more.

Financially, we enjoyed a fine six-month period. This was not so for

Edgar Filing: FIRST FINANCIAL FUND INC - Form N-30D

the stock market in general. Our basic bet, namely, more interest rate risk and limited credit risk paid off. The yield curve has steepened dramatically as the Federal Reserve fought to revive a slowing economy, which probably entered the beginning of a recession in the second week of September. At this point, all eyes are on consumers to see whether they will save or spend the tax cuts and the added cash from mortgage refinancing. Though the stock market of late suggests otherwise, we feel the risk is for a more protracted slowdown and reliquefaction process. We would still eschew credit risk and favor the beneficiaries of a steep yield curve. However, as we are nearer to an inflection point, we prefer to stay more liquid and keep our concentration levels down. This will allow greater flexibility as events unfold. Flexibility may be our and our companies' most valuable asset over the next several quarters.

1

We continue to owe you, our shareholders, a debt of gratitude as well. These are not easy days to be an investor in equities. For our part, we see a multitude of opportunities in such volatile markets. If ever there was a time to run a small and flexible portfolio within a large firm with substantial resources, this is it. We thank you for being there with us.

Thank you for your trust in us.

Nicholas C. Adams

Notes to Financial Statements (Unaudited)

FIRST FINANCIAL FUND, INC.

First Financial Fund, Inc. (the 'Fund') was incorporated in Maryland on March 3, 1986, as a closed-end, diversified investment company. The Fund's primary investment objective is to achieve long-term capital appreciation with the secondary objective of current income by investing in securities issued by savings and banking institutions, mortgage banking institutions and their holding companies. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic developments in a specific industry or region.

Note 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Securities Valuation: Securities for which market quotations are readily available--including securities listed on national securities exchanges and

## Edgar Filing: FIRST FINANCIAL FUND INC - Form N-30D

those traded over-the-counter--are valued at the last quoted sales price on the valuation date on which the security is traded. If such securities were not traded on the valuation date, but market quotations are readily available, they are valued at the most recently quoted bid price provided by an independent pricing service or by principal market makers. Securities for which market quotations are not readily available will be valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund. Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost.

All securities are valued as of 4:15 p.m., New York time.

**Repurchase Agreement:** In connection with repurchase agreement transactions with financial institutions, it is the Fund's policy that its custodian take possession of the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transactions, including accrued interest. To the extent that any repurchase transaction exceed one business day, the value of the collateral is marked-to-market on a daily basis to ensure the adequacy of collateral. If the seller defaults, and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

**Securities Transactions and Net Investment Income:** Securities transactions are recorded on the trade date. Realized gains or losses on sales of securities are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date; interest income is recorded on the accrual basis. Expenses are recorded on the accrual basis, which may require the use of certain estimates by management.

**Federal Income Taxes:** It is the Fund's policy to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to shareholders. Therefore, no federal income tax provision is required.

**Dividends and Distributions:** The Fund expects to declare and pay dividends from net investment income and any net capital gains, if any, annually. Dividends and distributions are recorded on the ex-dividend date.

Income distributions and capital gain distributions are determined in accordance with income tax regulations which may differ from generally accepted accounting principles.

-----  
**Note 2. Agreements**

The Fund has agreements with Wellington Management Company, LLP (the 'Investment Adviser') and with Prudential Investments LLC (the 'Administrator'), formerly Prudential Investments Fund Management LLC. The Investment Adviser makes investment decisions on behalf of the Fund; the Administrator provides occupancy and certain clerical and accounting services to the Fund. The Fund bears all other costs and expenses.

The investment advisory agreement provides for the Investment Adviser to receive a fee, computed monthly and payable quarterly, at the following annual rates: .75% of the Fund's average month-end net assets up to and including \$50 million, and .625% of such assets in excess of \$50 million. The administration agreement provides for the Administrator to receive a fee, computed monthly and payable quarterly, at the annual rate of .15% of the Fund's average month-end net assets.

The Fund has entered into a credit agreement with an unaffiliated lender. The maximum commitment under the agreement is \$45 million. Interest on any such borrowings will be at market rates. The Fund also pays a variable commitment fee

Edgar Filing: FIRST FINANCIAL FUND INC - Form N-30D

on the unused portion of the credit facility. The commitment fee is accrued daily and paid quarterly. The expiration date of the credit agreement is April 29, 2002. The Fund did not borrow any amounts pursuant to the credit agreement during the period ended September 30, 2001.

-----  
 Note 3. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the six months ended September 30, 2001 were \$173,584,391 and \$165,900,154, respectively.

Other Information

FIRST FINANCIAL FUND, INC.

Dividend Reinvestment Plan. Shareholders may elect to have all distributions of dividends and capital gains automatically reinvested in Fund shares (Shares) pursuant to the Fund's Dividend Reinvestment Plan (the Plan.) Shareholders who do not participate in the Plan will normally receive all distributions in cash paid by check in United States dollars mailed directly to the shareholders of record (or if the shares are held in streetname or other nominee name, then to the nominee) by the custodian, as dividend disbursing agent, unless the Fund declares a distribution payable in shares, absent a shareholder's specific election to receive cash. Shareholders who wish to participate in the Plan should contact the Fund at (800) 451-6788.

State Street Bank and Trust Co. (the Plan Agent) serves as agent for the shareholders in administering the Plan. After the Fund declares a dividend or a capital gains distribution, if (1) the market price is lower than net asset value, the participants in the Plan will receive the equivalent in Shares valued at the market price determined as of the time of purchase (generally, following the payment date of the dividend or distribution); or if (2) the market price of Shares on the payment date of the dividend or distribution is equal to or exceeds their net asset value, participants will be issued Shares at the higher of net asset value or 95% of the market price. If the Fund declares a dividend or other distribution payable only in cash and the net asset value exceeds the market price of Shares on the valuation date, the Plan Agent will, as agent for the participants, receive the cash payment and use it to buy Shares in the open market. If, before the Plan Agent has completed its purchases, the market price exceeds the net asset value per share, the Plan Agent will halt open-market purchases of the Fund's shares for this purpose, and will request that the Fund pay the remainder, if any, in the form of newly-issued shares. The Fund will not issue Shares under the Plan below net asset value.

There is no charge to participants for reinvesting dividends or capital gain distributions, except for certain brokerage commissions, as described below. The Plan Agent's fees for the handling of the reinvestment of dividends and distributions will be paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of dividends and distributions. The automatic reinvestment of dividends and distributions will not relieve participants of any federal income tax that may be payable on such dividends or distributions.

The Fund reserves the right to amend or terminate the Plan upon 90 days' written notice to shareholders of the Fund.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent or by telephone in accordance with specific procedures and will receive certificates for whole Shares and cash for fractional Shares. All correspondence concerning the Plan should be directed to the Plan Agent, State Street Bank & Trust Company, P.O. Box 8200, Boston, MA 02266-8200.
