WILD OATS MARKETS, INC.

Notes to Consolidated Financial Statements

(unaudited)

1. Basis of Presentation and Summary of Significant Accounting Policies

The accompanying unaudited consolidated financial statements have been prepared by the Company in accordance with United States generally accepted accounting principles for interim financial information and pursuant to instructions to Form 10-Q and Article 10 of Regulation S-X. Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with United States generally accepted accounting principles have been condensed or omitted pursuant to Securities and Exchange Commission's ("SEC") rules and regulations. In the opinion of the Company, all adjustments necessary to present fairly the financial position at April 1, 2006 and results of operations and cash flows for all periods presented have been made. The consolidated balance sheet at December 31, 2005 has been derived from the audited financial statements at that date.

These consolidated financial statements should be read in conjunction with the Company's audited financial statements and notes thereto included in the Company's 2005 Annual Report on Form 10-K as filed with the SEC. The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, expenses and related disclosures of contingent assets and liabilities. Examples include accounting for self-insurance reserves, stock-based compensation, restructuring charges and store closing costs, asset impairment charges, goodwill, inventory valuation, and contingencies. Actual results may differ from these estimates. The results of operations for the three months ended April 1, 2006 are not necessarily indicative of the operating results to be expected for any subsequent quarter or for the entire fiscal year ending December 30, 2006.

The unaudited information included in the consolidated financial statements for the three months ended April 1, 2006 and April 2, 2005 include the results of operations of the Company for the 13 weeks then ended.

Principles of consolidation. The Company's consolidated financial statements include the amounts of the Company and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated.

Inventories. Store inventories are valued principally at the lower of cost or market, with cost primarily determined under the retail method on a first in first out ("FIFO") basis. FIFO cost is determined using the retail method for approximately 80% of inventories and using the item cost method for highly perishable products representing approximately 20% of inventories. Under the retail inventory method, the valuation of inventories at cost and the resulting gross margins are determined by applying a cost-to-retail ratio for various categories of similar items to the retail value of inventories. Inherent in the retail inventory method calculations are certain management judgments and estimates, including shrinkage, which could impact the ending inventory valuation at cost as well as the resulting gross margins. Certain other highly perishable inventories are valued primarily at the lower of cost or market on a specific item basis, with cost determined on a FIFO basis.

Reclassifications. Certain prior period information has been reclassified to conform to the current year presentation. This includes a reclassification of the Company's 2005 results of operations to more accurately reflect Selling, General and Administrative expenses and Direct Store expenses. For the quarter ended April 2, 2005, approximately \$5.0 million was reclassified from Selling, General and Administrative expenses to Direct Store expenses in order to reflect regional store support services more appropriately.

## 2. Short-Term Investments

The amortized cost of debt securities in this category is adjusted for amortization of premiums and accretion of discounts to maturity computed under the effective interest method. Such amortization and accretion is included in interest income. Realized gains and losses and declines in value judged to be other than temporary on available-for-sale securities are included in interest income. The cost of securities sold is based on the specific identification method. Realized income and dividends on securities classified as available-for-sale are included in interest income. Investments classified as available-for-sale are marked to market each reporting period with the unrealized gain or loss reflected as a component of other comprehensive income (loss).

### 3. Stock-Based Compensation

Effective January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards ("SFAS") No. 123 (revised 2004), *Share-Based Payment* ("SFAS No. 123R") and related interpretations, using the Black-Scholes valuation model and the modified prospective application. Accordingly, the financial statements for periods prior to January 1, 2006, will not include compensation cost calculated under the fair value method of SFAS No. 123R. SFAS No. 123R requires companies to recognize the cost of employee services received in exchange for awards of equity instruments based upon the grant-date fair value of those awards.

Stock-based compensation expense recognized under SFAS No. 123R in the Consolidated Statement of Operations for the three months ended April 1, 2006 was \$778,000. For the period ended April 1, 2006, there was no income tax benefit recognized in the Consolidated Statement of Operations for stock-based compensation arrangements. The estimated fair value of the Company's stock-based awards, less estimated forfeitures, is amortized over the awards expected life on a straight-line basis. The stock-based compensation expense for the three months ended April 1, 2006 included \$103,000 related to restricted stock units ("RSUs") that were issued as Board of Directors' compensation that would have been included in the Company's Consolidated Statements of Operations under the provisions of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations.

The Employee Stock Purchase Plan ("ESPP") was modified in response to the adoption of SFAS No. 123R. Beginning in the first quarter of 2006, the discount on the price of the shares was reduced to 5% and will be applied to the price of shares on the date in which the buy period closes each quarter.

The following table illustrates the effect on net income and earnings per share as if the Company had applied the fair value recognition provisions of SFAS No. 123R to its stock option plans for the three months ended April 2, 2005:

THREE  
MONTHS  
ENDED

April 2, 2005

Net loss, as reported	\$ (1,151)
Add: Stock-based employee compensation expense included in reported net income (loss), net of tax*	76

Pro forma diluted loss per share

\$ (0.07)

\* Amounts are net of a pro-forma tax rate which is not necessarily indicative of our effective tax rate for the respective periods.

At April 1, 2006, the Company had five stock-based compensation plans: the 1996 Equity Incentive Plan ("1996 Plan"), the 2001 Non-Officer/Non-Director Equity Incentive Plan ("2001 Plan"), and three individual nonqualified stock option plans. The 1996 Plan provides for grant of incentive stock option to employees (including officers and employee-directors) and nonqualified stock options, restricted stock and restricted stock units ("RSUs") and stock bonuses to employees, directors and consultants. The 2001 Plan provides for the grant of nonqualified stock options to employees of the Company who are not officers or directors. The individual stock option plans were created during 2001, 2005 and 2006 as inducements to certain executives to accept offers of employment with the Company. For all five stock-based compensation plans, the exercise price of the options is determined by the Board of Directors, provided that the exercise price for an incentive stock option cannot be less than 100% of the fair market value of the common stock on the grant date and the exercise price for a nonqualified stock option cannot be less than 85% of the fair market value of the common stock on the grant date. The outstanding options for all five plans generally vest over a period of four years and generally expire 10 years from the grant date.

For all of the Company's stock-based compensation plans, the fair value of each grant was estimated at the date of grant using the Black-Scholes option pricing model. Black-Scholes utilizes assumptions related to volatility, the risk-free interest rate, the dividend yield and expected life. Expected volatilities utilized in the model are based on the historical volatility of the Company's stock price. The risk-free interest rate is derived from the U.S. Treasury yield curve in effect at the time of grant. The model incorporates exercise and post-vesting forfeiture assumptions based on an analysis of historical data. The expected life of the fiscal 2006 grants is derived from historical information and other factors. The following summary presents the weighted-average assumptions used for grants issued in fiscal 2006 and fiscal 2005:

THREE MONTHS ENDED

	April 1, 2006	April 2, 2005
Estimated dividends	None	None
Expected volatility	56%	73%

Edgar Filing: WILD OATS MARKETS INC - Form 10-Q

Risk-free interest rate	4.34% - 4.63%	4.09%
Expected life (years)	4.0	3.9
Weighted-average fair value per share	\$5.31	\$3.52

The following summary presents information regarding outstanding stock options as of April 1, 2006 and changes during the three months then ended with regard to options under the Plans:

	Number of Options	Weighted-Average Exercise Price	Weighted- Average Remaining Contractual Life	Aggregate Intrinsic Value
			(in years)	(in thousands)
Outstanding as of December 31, 2005	2,570,199	\$ 10.19		
Granted	108,000	\$ 12.61		
Cancellations and expirations	(35,326)	\$ 10.54		
Exercised	(428,684)	\$ 8.98		
Outstanding as of April 1, 2006	2,214,189	\$ 10.54	5.48	\$ 21,895

Edgar Filing: WILD OATS MARKETS INC - Form 10-Q

	_____	_____	_____	_____
<b>Exercisable as of April 1, 2006</b>	1,756,265	\$ 10.73	5.53	\$ 17,078
	_____	_____	_____	_____

The aggregate intrinsic value in the table above represents the total pretax intrinsic value, based on the Company's closing stock price of \$20.33 at March 31, 2006, which would have been received by award holders had all award holders exercised their options that were in-the-money as of that date. The total number of in-the-money options exercisable as of March 31, 2006 was approximately 1.7 million. The aggregate intrinsic value of awards exercised during the three months ended April 1, 2006 was \$3.9 million.

In February 2006, the Company granted restricted stock awards under the 1996 Plan. The restricted stock awards granted under the 1996 Plan vest on the passage of time. The Company records compensation expense ratably over the vesting period equal to the number of shares multiplied by the closing price of the Company's common stock on the date of grant less an estimated forfeiture rate. The Compensation Committee and the Board of Directors approved this grant of restricted stock awards in February 2006. The Company recorded compensation expense related to these restricted stock awards totaling \$545,000 during the first quarter, 2006.

A summary of the status of the Company's nonvested options to buy shares as of April 1, 2006, and changes during the quarter then ended is presented below:

	Number of shares	Weighted-Average Grant-Date Fair Value
	_____	_____
Nonvested at December 31, 2006	406,086	\$ 4.30
Granted	108,000	\$ 5.95
Vested	(34,935)	\$ 3.34
Forfeited	(21,227)	\$ 5.01

	<hr/>	
Nonvested at April 1, 2006	457,924	\$ 4.73
	<hr/>	

As of April 1, 2006, the total unrecorded deferred stock-based compensation balance for unvested shares, net of expected forfeitures, was \$1.6 million which is expected to be amortized over a weighted-average period of 1.4 years.

Cash received from option exercises was \$3.9 million and \$162,000 for the three months ended April 1, 2006 and April 2, 2005, respectively. For periods subsequent to the adoption of SFAS No. 123R, the Company presents excess tax benefits from the exercise of stock options, if any, in the Consolidated Statement of Cash Flows as a financing cash inflow and as a corresponding reduction in operating cash flow.

#### 4. Property and Equipment

Property, plant and equipment are recorded at cost and consist of the following (*in thousands*):

	April 1, 2006	December 31, 2005
	<hr/>	<hr/>
Machinery and equipment	\$ 141,553	\$ 140,171
Buildings and leasehold improvements	168,320	167,265
Construction in progress	13,613	10,784
	<hr/>	<hr/>
	323,486	318,220
Less: accumulated depreciation	(145,567)	(139,353)

	_____	_____
Property and equipment, net	\$ 177,919	\$ 178,867
	_____	_____

Depreciation expense was \$6.6 million for both three month periods ended April 1, 2006 and April 2, 2005.

## 5. Debt

Contingent convertible senior debentures. In June 2004, the Company issued \$115.0 million aggregate principal amount of its 3.25% Convertible Senior Debentures due May 15, 2034 in a private placement. The debentures bear regular interest at the annual rate of 3.25%, payable semiannually on May 15 and November 15 of each year until May 15, 2011, after which date, no regular interest will be due. Commencing May 20, 2011 and ending November 14, 2011, and for any six-month period thereafter, contingent interest will be due and payable in the amount of 0.25% of the average trading price of the debentures during a specified period, if the average trading price of the debentures equals or exceeds 125% of the principal amount of the debentures. Refer to *Note 7 Earnings per Share* for the potentially dilutive impact of the convertible debentures on future periods.

During the second quarter of 2005, the Company made an irrevocable election to pay the principal amount of debentures in cash upon conversion, however, the Company retains the ability to satisfy the remainder of any conversion payment, exceeding the debenture defined principal, in cash or any combination of cash and common stock. According to their terms, the debentures are callable and convertible into the Company's common stock prior to maturity at the option of the holders under the following circumstances: (1) during any calendar quarter commencing after June 30, 2004 and before March 31, 2029, if the last reported sale price of the Company's common stock is greater than or equal to 130% of the conversion price of \$17.70 per share for at least 20 trading days in the period of 30 consecutive trading days ending on the last trading day of the proceeding calendar quarter; (2) at any time on or after April 1, 2029 if the last reported sale price of the Company's common stock on any date on or after March 31, 2029 is greater than or equal to 130% of the conversion price; (3) subject to certain limitations, during the five business-day period after any five consecutive trading-day period in which the trading price per debenture for each day of that period was less than 98% of the product of the conversion rate and the last reported sale price of the Company's common stock; (4) if the Company calls the debentures for redemption; (5) upon the occurrence of certain corporate transactions; or (6) if the Company requests a credit rating for the debentures, at any time when the credit ratings assigned to the debentures are below specified levels. While a credit rating has been issued for the debentures, the rating was not requested by the Company, but initiated by the rating agency. Therefore, a change in the current rating will not trigger a call provision. The debentures are initially convertible into 56.5099 shares of the Company's common stock per \$1,000 principal amount, which is equivalent to approximately \$17.70 per share, for total initial underlying shares of 6,498,639. The conversion rate will be subject to adjustment upon the occurrence of specified events. Pursuant to the underwriting agreement and within 90 days of issuance, the Company filed a shelf registration statement covering resales of the debentures and the common stock issuable upon conversion thereof. The registration

statement was declared effective August 26, 2005.

On or after May 20, 2011, the Company may redeem for cash some or all of the debentures at any time and from time to time, for a price equal to 100% of the principal amount of the debentures plus accrued and unpaid contingent interest, if any. Holders have the right to require the Company to repurchase any or all debentures for cash, at a repurchase price equal to 100% of the principal amount of the debentures, plus accrued and unpaid interest on: (1) May 15, 2011, May 15, 2014, and May 15, 2024; and (2) upon the occurrence of a fundamental change (as defined in the debenture indenture). In the case of a fundamental change in which all of the consideration for the common stock in the transaction or transactions constituting the fundamental change consists of cash, the Company also will pay to the holders a make-whole premium (as defined in the debenture indenture), the amount of which could be significant but would not be determinable unless and until there were to be a public announcement of such a fundamental change. Any make-whole premium would be payable to all holders regardless of whether the holder elects to require the Company to repurchase the debentures or elects to surrender the debentures for conversion.

The debentures are unsecured and unsubordinated obligations, and rank equal in priority with all of the Company's existing and future unsecured and unsubordinated indebtedness and senior in right of payment to all of its subordinated indebtedness. The debentures will effectively rank junior to any of the Company's secured indebtedness and any of its indebtedness that is guaranteed by its subsidiaries. Payment of principal and interest on the debentures will be structurally subordinated to the liabilities of the Company's subsidiaries.

There are no financial covenants within the debenture indenture, however, the Company paid penalty interest of 0.25% for the first 90 days of 2005 and paid 0.50% thereafter until the debentures were publicly registered on August 26, 2005. In 2005, the Company paid \$305,102 in additional interest to debenture holders due to not having an effective registration statement within the specified timeframe.

In 2004, total proceeds from the issuance of the debentures were \$115.2 million. The Company used \$25.0 million of the net proceeds to repurchase 1,977,800 outstanding shares of its common stock, \$31.2 million to pay the outstanding balance on its credit facility, and approximately \$3.7 million to pay related debt issuance costs.

Credit facility. On March 31, 2005, the Company entered into a five-year revolving secured credit facility with Bank of America, N.A. (the "B of A Facility"). Concurrent with the execution of the B of A Facility, the Company terminated its existing \$95.0 million credit facility (the "Wells Facility") with Wells Fargo Bank N.A. as administrative agent. The B of A Facility allows borrowings and letters of credit up to a maximum of \$40.0 million, with an option to increase borrowings up to \$100.0 million, subject to a borrowing base determined by the value of certain inventory, credit card receivables, invested cash and, at the Company's discretion, mortgaged leaseholds. The B of A Facility is secured by certain assets including, but not limited to, cash, inventory and fixed assets. Borrowings under the B of A Facility bear interest, at the Company's election, at the prime rate or at London Interbank Offering Rate ("LIBOR") plus a margin ranging from 1.00% to 1.50%, depending on the excess borrowing availability over amounts borrowed. Interest rates are determined quarterly. The Company is charged a commitment fee on the unused

portion of the B of A Facility. There are no financial covenants, other than the obligation to maintain a certain percentage of minimum excess availability (as defined in the agreement) at all times. The B of A Facility requires compliance on a monthly basis with certain non-financial covenants, including limitations on incurring additional indebtedness and making investments, the use and disposition of collateral, changes of control, as well as cash management provisions. In conjunction with the debt refinancing, the Company wrote off approximately \$559,000 related to the remaining unamortized debt issuance cost from the Wells Facility and capitalized debt issuance costs of approximately \$331,000 through December 31, 2005 to be amortized over the life of the agreement using the effective interest method. No additional issuance costs have been capitalized in 2006. As of April 1, 2006, the Company had letters of credit outstanding totaling \$14.5 million which reduce our availability to approximately \$25.5 million.

#### 6. Derivatives and Hedging Activities

The Company does not have any derivative financial instruments as of April 1, 2006 that meet the criteria of SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*.

#### 7. Earnings Per Share

Earnings per share are calculated in accordance with the provisions of SFAS No. 128, *Earnings Per Share* ("SFAS No. 128"). SFAS No. 128 requires the Company to report both basic earnings per share, which is based on the weighted-average number of common shares outstanding, and diluted earnings per share, which is based on the weighted-average number of common shares outstanding and all dilutive potential common shares outstanding, except where the effect of their inclusion would be anti-dilutive. Anti-dilutive stock options of 423,806 and 2,382,570 for the three months ended April 1, 2006 and April 2, 2005, respectively, were not included in the diluted earnings per share calculations.

The Emerging Issues Task Force ("the Task Force") of the FASB concluded in Issue No. 04-8, *The Effect of Contingently Convertible Debt on Diluted Earnings per Share* that contingently convertible debt should be included in diluted earnings per share computations using the if-converted method regardless of whether any of the conversion contingencies have been met. During the second quarter of 2005, the Company irrevocably elected to satisfy 100% of the principal amount of the debentures in cash to be converted on or after July 1, 2005. The Company maintains the right to satisfy the remainder of the conversion obligation to the extent it exceeds the principal amount in cash or common stock or any combination of cash and common stock. In calculating diluted earnings per share for the three months ending April 1, 2006, no shares related to the debentures conversion have been included as the effect would have been anti-dilutive.

## 8. Goodwill and Intangible Assets

During the first quarter of fiscal 2006, the Company concluded goodwill was not impaired and no other changes in the carrying amount of goodwill were recorded. During the first quarter of fiscal 2005, \$960,000 goodwill, net of accumulated amortization, was written off resulting in an ending net balance of \$105.1 million. See *Note 9 Restructuring and Asset Impairment Charges* for further details.

Other intangible assets consist of the following (*in thousands*):

	April 1, 2006	December 31, 2005
	_____	_____
Leasehold interests	\$ 8,374	\$ 8,374
Less accumulated amortization	(2,665)	(2,576)
	_____	_____
Leasehold interests, net	5,709	5,798
Liquor licenses (indefinite lived)	307	324
	_____	_____
	\$ 6,016	\$ 6,122
	_____	_____

Amortization expense related to finite lived intangible assets was \$90,000 and \$103,000 for the three months ended April 1, 2006 and April 2, 2005, respectively. The estimated amortization of finite lived intangible assets for the remainder of 2006 and each of the fiscal years through 2011 is as follows (*in thousands*):

FISCAL YEAR	AMORTIZATION EXPENSE
<hr/>	<hr/>
Remainder of 2006	\$ 268
2007	358
2008	358
2009	358
2010	358
2011	352

9. Restructuring and Asset Impairment Charges

During the first quarter of fiscal 2006, the Company recorded net restructuring charges of \$1.7 million consisting of the following components (*in thousands*):

Change in estimate related to lease-related liabilities for sites previously identified for closure	\$ 66
Lease-related liability for sites closed during the quarter	1,362
Severance for employees terminated during the first quarter of fiscal 2006	114
Accretion expense on lease-related liabilities	128
	<hr/>
Total restructuring expense	\$ 1,670
	<hr/>

Details of the significant components are as follows:

- *Changes in estimate related to lease-related liabilities for sites previously identified for closure (\$66,000 of restructuring expense)*

- During the first quarter of fiscal 2006, the Company accrued additional amounts for closed locations in Florida, Tennessee, and California. Based on these changes in facts and circumstances and the related change in estimate, the Company adjusted remaining lease-related liabilities previously recorded for these locations and recognized the additional restructuring expense during the first quarter of fiscal 2006.

- *Lease-related liability for sites closed during the first quarter (\$1.4 million of restructuring expense)*

- During the first quarter of 2006, the Company closed one store in Portland, Oregon and one store in Fort Lauderdale, Florida.

- *Severance for employees notified of termination in the first quarter of fiscal 2006 (\$114,000 of restructuring expense)*

- During the first quarter of 2006, 70 employees were notified of their involuntary termination in connection with the closure of two stores; one store in Portland, Oregon, and one store in Fort Lauderdale, Florida. As of April 1, 2006, \$105,000 in benefits had been paid to terminated employees.

- *Accretion expense on lease-related liabilities (\$128,000 of restructuring expense)*

- During the first quarter, the Company accrued accretion expense on reserves for lease-related liabilities that were calculated using the net present value of the minimum lease payments (net of sublease income).

During the first quarter of 2006, there were no asset impairment charges in accordance with the provisions of SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. In determining whether an impairment exists, the Company estimates the store's future cash flows on an undiscounted basis, and if the cash flows are not sufficient to recover the carrying value, then the Company uses a discounted cash flow based on a risk-adjusted discount rate, to adjust its carrying value of the assets, and records a provision for impairment as appropriate. The Company continually re-evaluates its stores' performance to monitor the carrying value of its long-lived assets in comparison to projected cash flows.

The Company incurred charges for accelerated depreciation related to planned store closures of \$52,000 and \$393,000 for the three months ended April 1, 2006 and April 2, 2005, respectively. These costs are included in the "Cost of

goods sold and occupancy costs" line of the Consolidated Statements of Operations.

The following table summarizes accruals related to the Company's restructuring charges (*in thousands*):

EXIT PLANS	2002 and Prior	2003	2004	2005	1 <sup>st</sup> Qtr 2006	Total

	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
Balance at						
<b>April 1, 2006:</b>	\$ 5,379 <sup>(1)</sup>	\$ 397 <sup>(1)</sup>	\$ 287 <sup>(2)</sup>	\$ 1,015 <sup>(1)</sup>	\$ 1,332 <sup>(3)</sup>	\$ 8,410

Note:

1. The restructuring accrual balance consists of lease-related liabilities.
2. The restructuring accrual balance consists of lease-related liabilities and \$6 for employee termination.
3. The restructuring accrual balance consists of lease-related liabilities and \$9 for employee termination.

As of April 1, 2006, the Company's restructuring balances consist of \$2.5 million in accrued liabilities and other long-term obligations of \$5.9 million.

#### 10. Income Taxes

For the three months ended April 1, 2006, the Company recorded \$205,000 of income tax expense, as a result of income before income taxes of \$3.1 million during the period. The tax expense relates to income generated by the Company's Canadian operations. The Company has a \$64,000 net deferred tax asset, which was generated primarily as a result of temporary differences related to its Canadian operations. The Company performs assessments of the realization of its net deferred tax assets according to SFAS No. 109, *Accounting for Income Taxes*. As a result of these assessments, the Company concluded at January 1, 2005, that it should place a full valuation allowance against its US net deferred tax asset. The Company has assessed its valuation allowance during the current quarter and continues to record a full valuation allowance against its US net deferred tax asset.

#### 11. Related Party Transactions

Perry D. Odak. In May 2002, the Company's Board of Directors amended the employment agreement of Perry D. Odak, the Company's CEO and President. The amendment extended through December 2002, the period during which the issuance by the Company of additional securities as part of an equity financing would entitle Mr. Odak to receive up to 300,000 stock options exercisable for the Company's common stock. In March 2002, Mr. Odak was issued options to purchase 5,856 shares of common stock under a provision of his employment agreement that provided for the maintenance of his 5% equity position in the event of a capital-raising transaction, based upon the issuance of

111,269 shares of common stock, the resale of which was registered on Form S-3, filed in April 2002. In August 2002, the Company's Board of Directors approved a third amendment to Mr. Odak's employment agreement, pursuant to which up to 70,000 of the stock options to which Mr. Odak would be entitled under his employment agreement as a result of the closing of a capital-raising transaction could be granted to other employees of the Company designated by Mr. Odak. The options would only be granted upon the closing of the capital-raising transaction, have a 10-year term, vest over four years and have an exercise price equal to the closing price of the Company's stock on the date the capital-raising transaction was concluded. An equal number of options would be granted simultaneously to Mr. Odak, provided that the options granted to Mr. Odak would only be exercisable as the options granted to other employees terminated (as opposed to expired) without exercise.

As a result of the completion of an equity offering of 4.45 million shares of the Company's common stock in September 2002, the Company issued options exercisable for 164,211 shares of the Company's stock to Mr. Odak pursuant to the terms of his employment agreement. An additional 70,000 options, to which Mr. Odak would have been entitled under his employment agreement, were issued to executives of the Company designated by Mr. Odak. The Company also issued an additional 70,000 options to Mr. Odak, provided that the options granted to Mr. Odak are only exercisable as the options granted to the designated executives under the third amendment to Mr. Odak's employment agreement terminate (as opposed to expire) without exercise. The Company also made a matching grant of 70,000 additional options from the Company's 1996 Equity Incentive Plan to the same executives. The Company may incur quarterly compensation expense, based on any increase in the then-current stock price over the exercise price, as a result of the issuance of the initial 70,000 options (as opposed to the Company's matching grant of 70,000 additional options) to the designated executives and Mr. Odak.

The Odak Agreement, as amended, provides for the payment of the existing \$9.2 million supplemental bonus in the event of Mr. Odak's death or disability, as defined in the Odak Agreement, while employed by the Company, and for payment of a bonus of approximately \$1.6 million: (i) in the event Mr. Odak terminates his employment for "good reason", as defined in the Odak Agreement, or (ii) in the event Mr. Odak is terminated without "Cause", as defined in the Odak Agreement. The Company has acquired an insurance policy for the benefit of the Company to cover Mr. Odak's death or disability in the approximate amount of the supplemental bonus.

In March 2001, Mr. Odak purchased 1,332,649 shares of Common Stock for \$6.969 per share for an aggregate purchase price of \$9.3 million. Mr. Odak paid \$13,326 in cash and executed a full recourse, five-year promissory note for the balance of \$9,273,905 to the Company, with interest accruing at 5.5% per annum, compounding semiannually. On February 19, 2006, pursuant to the termination of the five-year promissory note, Mr. Odak sold 678,530 shares of Common Stock for \$17.89 per share to the Company. The Company repurchased the shares for \$12,138,902, effectively relieving all debt owed by Mr. Odak and reducing the number of shares outstanding by 678,530. The repurchased shares are reflected as treasury shares in the Company's consolidated balance sheet.

#### Other.

Mark A. Retzliff is a current member of the Company's Board of Directors, and sits on its Real Estate Committee. Mr. Retzliff is Chief Organic Officer of Aurora Organic Dairy, which derives 6% of its total revenues from sales of organic milk to the Company under the Company's private label brand. Stacey J. Bell, a current member of the Company's Board of Directors, is an indirect employee of Ideasphere, Inc., which sells vitamins and supplements to the Company. Total purchases from these vendors were \$1.0 million for both three month periods ended April 1, 2006 and April 2, 2005. A majority of these purchases are made primarily through the Company's primary distributor, UNFI and therefore are

indirect in nature. These costs are all for inventory and the related cost of goods sold. As of the fiscal quarters ending April 1, 2006 and April 2, 2005, amounts owed to these vendors were \$53,000 and \$106,000, respectively.

## 12. Contingencies

-

Tim Auchterlonie, individually and on behalf of all others similarly situated and the general public, and Roes 1 to 1000 vs. Wild Oats Markets, Inc. and Does 1 through 100, is a purported class action suit brought in August 2004 in the Superior Court, County of Los Angeles, for payment of overtime and damages relating to alleged violations of the California Business and Professions Code by a former store director claiming that he should have been classified as an employee paid on an hourly basis, together with other related claims. In mid-2005, five additional named plaintiffs were added to the suit, and the trials of the original plaintiff and the new plaintiffs were bifurcated. The Company believes that all of the named plaintiffs were correctly classified as exempt employee based upon their job duties. The Company has settled with the original plaintiff for an immaterial amount, and the trial date has been vacated. A trial for the remaining plaintiffs has been set for third quarter 2006.

In June 2002 an administrative law judge ("ALJ") found against us in Wild Oats Markets, Inc. and Local 371, United Food & Commercial Workers, in certain unfair labor practice charges brought in connection with the opening of our store in Westport, Connecticut. The Company appealed the ALJ's decision to the National Labor Relations Board ("NLRB"). In May 2005, the NLRB denied the appeal and issued a Decision and Order, setting forth certain equitable, injunctive and monetary remedies to be undertaken by the Company, including payment of backpay less interim earnings, and offers of employment to certain former employees of a store that the Company previously sold in 2000 (the "Sold Store"). The Company agreed to reinstate one former employee and paid an immaterial amount to settle the claims of ten named individuals in the ruling. The NLRB has indicated that there may be liability to other employees from the Sold Store for certain periods that such individuals were unemployed. The Company is currently evaluating whether to appeal the remainder of the Decision.

The Company also is named as defendant in various actions and proceedings arising in the normal course of business. In all of these cases, the Company is denying the allegations and is vigorously defending against them and, in some cases, has filed counterclaims. Although the eventual outcome of the various lawsuits cannot be predicted, it is management's opinion that these lawsuits will not result in liabilities that would materially affect the Company's consolidated results of operations, financial position, or cash flows.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This report on Form 10-Q contains certain forward-looking statements regarding our future results of operations and performance. Important factors that could cause differences in results of operations include, but are not limited to, the timing, execution and performance of new store openings, relocations and remodels; the timing and liability resulting

from store closures; the amount of time before new stores become profitable; the timing and impact of merchandising programs and promotional and advertising campaigns; the impact of competition; changes in merchandising strategies, product supply or suppliers; changes in management information needs; changes in customer needs and expectations; governmental and regulatory actions; general industry or business trends or events; changes in economic or business conditions in general or affecting the natural foods industry in particular; and competition for and the availability of sites for new stores and potential acquisition candidates. See *Management's Discussion and Analysis of Financial Condition and Results of Operations - Cautionary Statement Regarding Forward-Looking Statements*.

## Executive Summary

This Executive Summary section of *Management's Discussion and Analysis of Financial Condition and Results of Operations* provides a broad summary of the more specific and detailed information disclosed in other sections of this report. The context that it provides should be viewed as a supplement to, and read in conjunction with, the details contained elsewhere in this report.

Wild Oats Markets, Inc. is one of the largest natural foods supermarket chains in North America. As of the date of this report, we operated 113 natural foods stores in 24 states and British Columbia, Canada. We operate in the retail grocery industry with two store formats: the natural foods supermarket format, under the Wild Oats Natural Marketplace

<sup>(R)</sup> name nationwide and the Capers Community Market<sup>(R)</sup> name in Canada; and the farmers market format, under the Henry's Farmers Market<sup>(R)</sup> name in southern California and Phoenix, Arizona, and the Sun Harvest name in Texas. Both formats emphasize natural and organic products with a wide selection of products in a full-service environment. The formats share a core demographic customer profile. We manage support services provided to the stores centrally from our Boulder, Colorado headquarters. All of our stores in the United States, regardless of format, purchase from the same primary distributor based on centralized negotiations, merchandising and marketing strategies. Our Riverside, California distribution center ("DC") supplies produce, private label groceries, and selected other items for the majority of our stores west of the Mississippi River. We continue to identify additional procurement opportunities to maximize efficiencies of the DC.

In 2006, we continued to improve our gross margins over last quarter attributable to the continued success of our marketing and merchandising initiatives. Through the date of this report, our two new store openings set records for the strongest grand opening sales in the Company's history by their respective format. We have also closed two smaller, older, under-performing stores.

As of the end of the first quarter of fiscal 2006, we had 112 stores located in 24 states and Canada, as compared to 110 stores located in 24 states and Canada at the end of the first quarter of fiscal 2005.

TOTAL STORE COUNT

THREE MONTHS ENDED

	April 1, 2006	April 2, 2005
Store count at beginning of period	113	108
Stores opened	1	4
Stores closed	(2)	(2)
Store count at end of period	112	110

In the first quarter of fiscal 2006, we opened one new Henry's Farmers Market store in Carlsbad, California. As of the date of this report, we have also opened a new Wild Oats Natural Marketplace store in Tampa, Florida.

### Results of Operations

Our net income for the first quarter of fiscal 2006 was \$2.9 million or \$0.10 per diluted share, compared with a net loss of \$1.2 million or \$0.04 per diluted share, in the same period in fiscal 2005. The following table sets forth, for the periods indicated, certain selected income statement data expressed as a percentage of sales and in dollars (*in thousands percentages may not add due to rounding*):

Net income (loss)	\$ 2,885	1.0 %	\$ (1,151)	(0.4)%
	<hr/>	<hr/>	<hr/>	<hr/>

First Quarter of 2006 vs. First Quarter of 2005

Sales

	April 1, 2006	April 2, 2005	% Change 2005 to 2006
	<hr/>	<hr/>	<hr/>
For the three months ended ( <i>in thousands</i> ):	\$298,357	\$278,079	7.3%

Sales for the three months ended April 1, 2006 increased 7.3% as compared to the same period in fiscal 2005. This increase was primarily driven by positive comparable sales and a greater number of stores in our store base compared to 2005. Total square feet of open stores increased 2.4% over the first quarter of 2005, as the first fiscal quarter 2006 ended with 2.56 million total square feet as compared to 2.50 million total square feet in the first fiscal quarter of 2005. Comparable store sales increased 4.1% for the first quarter of 2006 as compared to a 0.4% decrease in the same period last year due to the continued success of our promotional plans and marketing and merchandising initiatives implemented during 2005. We also experienced a shift in Easter holiday sales, which occurred in the first quarter of last year compared to the second quarter of this year.

Gross profit

	April 1, 2006	April 2, 2005	% Change 2005 to 2006
	<hr/>	<hr/>	<hr/>

Edgar Filing: WILD OATS MARKETS INC - Form 10-Q

For the three months ended ( <i>in thousands</i> ):	\$91,372	\$80,256	13.9%
As a percent of sales:	30.6%	28.9%	1.7%

Gross profit consists of sales less cost of goods sold and store occupancy costs. Occupancy costs include store related depreciation, rent and utilities. As a percentage of sales, gross profit increased to 30.6% in the first quarter of fiscal 2006 from 28.9% in the same period in fiscal 2005. Approximately 80 basis points of this improvement was due to opening only one new store during the first quarter of 2006 compared to four new stores in the first quarter of 2005. Traditionally, the gross margins of new stores are lower due to higher shrink and heavy promotional activity. The remaining increase was due to a shift in the overall product sales mix to departments with higher gross margin rates.

Direct store expenses

	April 1, 2006	April 2, 2005	% Change 2005 to 2006
	_____	_____	_____
For the three months ended ( <i>in thousands</i> ):	\$69,833	\$65,368	6.8 %
As a percent of sales:	23.4%	23.5%	(0.1)%

Direct store expenses include the following: payroll, payroll taxes and benefits, marketing and advertising, regional store support services, store supplies and maintenance, and other store-specific costs. As a percentage of sales, direct store expenses decreased to 23.4% in the fiscal quarter ended April 1, 2006, from 23.5% in the same period last year. The improvement is due to leveraging payroll and the related taxes.

Selling, general and administrative expenses

	April 1, 2006	April 2, 2005	% Change 2005 to
--	------------------	------------------	---------------------

			2006
	_____	_____	_____
For the three months ended ( <i>in thousands</i> ):	\$13,965	\$10,043	39.1%
As a percent of sales:	4.7%	3.6%	1.1%

Selling, general and administrative expenses include corporate administrative support services and purchasing. Selling, general and administrative expenses for the quarter ended April 1, 2006 increased 1.1% as a percentage of sales compared to the same period in fiscal 2005. Selling, general and administrative expenses in the first quarter of 2006 were higher as a percentage of sales compared to the same period in 2005 primarily due to an increase in accrued corporate and regional level bonuses, legal and professional fees, and the impact of expensing stock compensation resulting from the implementation of Statement of Financial Accounting Standards ("SFAS") No. 123 (revised 2004), *Share-Based Payment* ("SFAS No. 123R").

#### Pre-opening expenses

	April 1, 2006	April 2, 2005	% Change 2005 to 2006
	_____	_____	_____
For the three months ended ( <i>in thousands</i> ):	\$1,459	\$1,917	(23.9)%
As a percent of sales:	0.5%	0.7%	(0.2)%

Pre-opening expenses include labor, rent, advertising, utilities, training, supplies and certain other costs incurred prior to a store's opening. Pre-opening expenses for the first quarter of fiscal 2006 decreased to \$1.5 million compared to \$1.9 million during the same period in fiscal 2005, due to the timing of the opening of new stores, in addition to the costs related to future planned store openings.

Restructuring and asset impairment charges, net

During the first quarter of fiscal 2006, the Company recorded net restructuring charges of \$1.7 million consisting of the following components (*in thousands*):

Change in estimate related to lease-related liabilities for sites previously identified for closure	\$ 66
Lease-related liability for sites closed during the quarter	1,362
Severance for employees terminated during the first quarter of fiscal 2006	114
Accretion expense on lease-related liabilities	128
	<hr/>
Total restructuring expense	\$ 1,670
	<hr/>

Details of the significant components are as follows:

- *Changes in estimate related to lease-related liabilities for sites previously identified for closure (\$66,000 of restructuring expense)*

- During the first quarter of fiscal 2006, the Company accrued additional amounts for closed stores in Florida, Tennessee and California. Based on these changes in facts and circumstances and the related change in estimate, the Company adjusted remaining lease-related liabilities previously recorded for these locations and recognized the additional restructuring expense during the first quarter of fiscal 2006.

- *Lease-related liability for sites closed during the first quarter (\$1.4 million of restructuring expense)*

- During the first quarter of 2006, the Company closed one store in Portland, Oregon and one store in Fort Lauderdale, Florida.

- *Severance for employees notified of termination in the first quarter of fiscal 2006 (\$114,000 of restructuring expense)*

- During the first quarter of 2006, 70 employees were notified of their involuntary termination in connection with the closure of two stores; one store in Portland, Oregon, and one store in Fort Lauderdale, Florida. As of April 1, 2006, \$105,000 in benefits had been paid to terminated employees.

- *Accretion expense on lease-related liabilities (\$128,000 of restructuring expense)*

- During the first quarter, the Company accrued accretion expense on reserves for lease-related liabilities that were calculated using the net present value of the minimum lease payments (net of sublease income).

During the first quarter of 2006, there were no asset impairment charges in accordance with the provisions of SFAS No.144, *Accounting for the Impairment or Disposal of Long-Lived Assets*. In determining whether an impairment exists, the Company estimates the store's future cash flows on an undiscounted basis, and if the cash flows are not sufficient to recover the carrying value, then the Company uses a discounted cash flow based on a risk-adjusted discount rate, to adjust its carrying value of the assets, and records a provision for impairment as appropriate. The Company continually re-evaluates its stores' performance to monitor the carrying value of its long-lived assets in comparison to projected cash flows.

Interest income

	April 1, 2006	April 2, 2005	% Change 2005 to 2006
	_____	_____	_____
For the three months ended ( <i>in thousands</i> ):	\$589	\$324	81.8%
As a percent of sales:	0.2%	0.1%	0.1%

Interest income was \$589,000 for the first quarter ended April 1, 2006 compared to \$324,000 for the fiscal quarter ended April 2, 2005. This is due to a combination of an increase in the average balance of cash invested and the increase in our rate of return on our invested cash.

## Interest expense

	April 1, 2006	April 2, 2005	% Change 2005 to 2006
	—————	—————	—————
For the three months ended ( <i>in thousands</i> ):	\$1,854	\$2,167	(14.4)%
As a percent of sales:	0.6%	0.8%	(0.2)%

Interest expense for the fiscal quarter ended April 1, 2006 decreased to \$1.9 million from \$2.2 million in the same period in fiscal 2005. The decrease is attributable to elimination of penalty interest on our debentures in 2006 as compared to 2005 due to the effective filing of our registration statement in August 2005. In addition, we have lower fees and interest rates as a result of a change in our bank credit facility.

## Income tax expense

	April 1, 2006	April 2, 2005	% Change 2005 to 2006
	—————	—————	—————
For the three months ended ( <i>in thousands</i> ):	\$205	\$135	51.9%
As a percent of sales:	0.0%	0.0%	0.0%
Effective tax rate for the three months ended:	6.6%	(13.3%)	19.9%

For the quarter ended April 1, 2006, we recorded \$205,000 of income tax expense, as a result of taxable foreign income during the period. The tax benefit resulting from the loss in previous years on domestic operations has been fully offset by the tax valuation allowance that was established at fiscal 2004 year end. The Company has determined

that any expected federal or state income tax expense for the current quarter and fiscal year, except as described above, will be expected to be fully offset by deferred tax assets that are currently subject to a 100% valuation allowance.

Earnings before interest, taxes, depreciation and amortization, loss on early extinguishment of debt, loss (gain) on asset disposals, net, restructuring and asset impairment charges (income), net, and stock-based compensation expense, as adjusted ("EBITDA, as adjusted")

	April 1, 2006	April 2, 2005	% Change 2005 to 2006
	_____	_____	_____
For the three months ended ( <i>in thousands</i> ):	\$13,580	\$9,767	39.0%
As a percent of sales:	4.6%	3.5%	1.1%

We believe that the reconciliation of earnings before interest, taxes, depreciation and amortization ("EBITDA") and EBITDA, as adjusted, provides meaningful non GAAP financial measures to help management and investors understand and compare business trends among different reporting periods on a consistent basis, independently of regularly reported non-cash charges and infrequent or unusual events as determined by management. Readers are cautioned not to view EBITDA or EBITDA, as adjusted, as an alternative to GAAP results or as being comparable to results reported or forecasted by other companies, and should refer to the reconciliation of GAAP net income (loss) results to EBITDA and EBITDA, as adjusted, for the first three months of 2006 and 2005, respectively. For an explanation and reconciliation of EBITDA, and EBITDA, as adjusted, see *Non GAAP Financial Information*.

## Liquidity and Capital Resources

Our primary sources of capital have been cash flow from operations (which includes trade payables), bank indebtedness, and the sale of equity securities. In addition to these, we have also raised an additional \$112.3 million, net of sales commissions, in capital through the issuance of contingent convertible senior debentures in a private placement in June 2004, as discussed below. Primary uses of cash have been the financing of new store development, new store openings, relocations, remodels and acquisitions, repurchase of common stock and repayment of debt.

Net cash generated by operating activities increased by \$4.6 million to \$13.2 million during the first three months of fiscal 2006, as compared to \$8.5 million during the same period in fiscal 2005. This increase is due primarily to an increase in net income of \$4.0 million and a non-cash increase in stock-based compensation expense of \$674,000 due to the implementation of SFAS No. 123R.

Net cash used in investing activities was \$12.6 million during the first three months of fiscal 2006 as compared to \$3.5 million of cash provided by investing activities during the same period in fiscal 2005. The \$16.1 million reduction is mainly due to the net purchase of short-term investments during the first quarter of 2006 versus the sale of short-term investments in the first quarter of 2005.

Net cash provided by financing activities of \$3.3 million during the first three months of 2006 was \$4.8 million more than the \$1.5 million of cash used in financing activities during the same period in fiscal 2005. The change in cash flows from financing activities is the result of an increase of \$3.6 million in proceeds from the issuances of common stock due to option exercises and a \$1.2 million decrease in book overdraft.

EBITDA. EBITDA was \$11.0 million for the three month period ended April 1, 2006, as compared to \$7.6 million for the three months ended April 2, 2005. The increase in EBITDA is primarily attributable to the increase in gross margin as well as the Company's ability to leverage higher sales against expenses. For an explanation and reconciliation of EBITDA, see *Non GAAP Financial Information*.

Contingent convertible senior debentures. In June 2004, we issued \$115.0 million aggregate principal amount of our 3.25% Convertible Senior Debentures due May 15, 2034 in a private placement. The debentures bear regular interest at the annual rate of 3.25%, payable semiannually on May 15 and November 15 of each year until May 15, 2011, after which date, no regular interest will be due. Commencing May 20, 2011 and ending November 14, 2011, and for any six-month period thereafter, contingent interest will be due and payable in the amount of 0.25% of the average trading price of the debentures during a specified period, if the average trading price of the debentures equals or exceeds 125% of the principal amount of the debentures.

During the second quarter of 2005, we made an irrevocable election to pay the principal amount of debentures in cash upon conversion; however, the Company retains the ability to satisfy the remainder of any conversion payment, exceeding the debenture defined principal, in cash or any combination of cash and common stock. According to their terms, the debentures are callable and convertible into our common stock prior to maturity at the option of the holders under the following circumstances: (1) during any calendar quarter commencing after June 30, 2004 and before March 31, 2029, if the last reported sale price of our common stock is greater than or equal to 130% of the conversion price of \$17.70 per share for at least 20 trading days in the period of 30 consecutive trading days ending on the last trading day of the proceeding calendar quarter; (2) at any time on or after April 1, 2029 if the last reported sale price of our common stock on any date on or after March 31, 2029 is greater than or equal to 130% of the conversion price; (3)

subject to certain limitations, during the five business-day period after any five consecutive trading-day period in which the trading price per debenture for each day of that period was less than 98% of the product of the conversion rate and the last reported sale price of our common stock; (4) if we call the debentures for redemption; (5) upon the occurrence of certain corporate transactions; or (6) if we request a credit rating for the debentures, at any time when the credit ratings assigned to the debentures are below specified levels. While a credit rating has been issued for the debentures, the rating was not requested by us, but initiated by the ratings agency. Therefore, a change in the current rating will not trigger a call provision. The debentures are initially convertible into 56.5099 shares of our common stock per \$1,000 principal amount, which is equivalent to approximately \$17.70 per share, for total initial underlying shares of 6,498,639. The conversion rate will be subject to adjustment upon the occurrence of specified events. Pursuant to the underwriting agreement and within 90 days of issuance, we filed a shelf registration statement covering resales of the debentures and the common stock issuable upon conversion thereof. The registration statement was declared effective August 26, 2005.

On or after May 20, 2011, we may redeem for cash some or all of the debentures at any time and from time to time, for a price equal to 100% of the principal amount of the debentures plus accrued and unpaid contingent interest, if any. Holders have the right to require us to repurchase any or all debentures for cash, at a repurchase price equal to 100% of the principal amount of the debentures, plus accrued and unpaid interest on: (1) May 15, 2011, May 15, 2014, and May 15, 2024; and (2) upon the occurrence of a fundamental change (as defined in the debenture indenture). In the case of a fundamental change in which all of the consideration for the common stock in the transaction or transactions constituting the fundamental change consists of cash, we also will pay to the holders a make-whole premium (as defined in the debenture indenture), the amount of which could be significant but would not be determinable unless and until there were to be a public announcement of such a fundamental change. Any make-whole premium would be payable to all holders regardless of whether the holder elects to require us to repurchase the debentures or elects to surrender the debentures for conversion.

The debentures are unsecured and unsubordinated obligations, and rank equal in priority with all of our existing and future unsecured and unsubordinated indebtedness and senior in right of payment to all of our subordinated indebtedness. The debentures will effectively rank junior to any of our secured indebtedness and any of its indebtedness that is guaranteed by our subsidiaries. Payment of principal and interest on the debentures will be structurally subordinated to the liabilities of our subsidiaries.

There are no financial covenants within the debenture indenture, however, we paid penalty interest of 0.25% for the first 90 days of 2005 and paid 0.50% thereafter until the debentures were publicly registered on August 26, 2005. During 2005, the Company paid \$305,102 in additional interest to debenture holders due to not having an effective registration statement within the specified timeframe.

In 2004, total proceeds from the issuance of the debentures were \$115.2 million. We used \$25.0 million of the net proceeds to repurchase 1,977,800 outstanding shares of its common stock, \$31.2 million to pay the outstanding balance on its credit facility, and approximately \$3.7 million to pay related debt issuance costs.

Credit facility. On March 31, 2005, we entered into a five-year revolving secured credit facility with Bank of America, N.A. ("B of A Facility"). Concurrent with the execution of the B of A Facility, we terminated our existing \$95 million credit facility with Wells Fargo Bank N.A. as administrative agent. The B of A Facility allows borrowings and letters of credit up to a maximum of \$40.0 million, with an option to increase borrowings up to \$100.0 million, subject to a borrowing base determined by the value of certain inventory, credit card receivables, invested cash and, at our discretion, mortgaged leaseholds. The B of A Facility is secured by certain of our assets including, but not limited to, cash, inventory and fixed assets. Borrowings under the B of A Facility bear interest, at our election, at the prime rate or at London Interbank Offering Rate ("LIBOR") plus a margin ranging from 1.00% to 1.50%, depending on the excess borrowing availability over amounts borrowed. Interest rates are determined quarterly. We are charged a commitment fee on the unused portion of the B of A Facility. There are no financial covenants, other than the obligation to maintain a certain percentage of minimum excess availability (as defined in the agreement) at all times. The B of A Facility requires compliance on a monthly basis with certain non-financial covenants, including limitations on incurring additional indebtedness and making investments, the use and disposition of collateral, changes of control, as well as cash management provisions. We expect that we will be in compliance with all covenants. We further expect that our cash requirements will be generated from operations and borrowings under the new credit facility. As of April 1, 2006, the Company had letters of credit outstanding totaling \$14.5 million, which reduces availability to approximately \$25.5 million.

As of April 1, 2006, we had no off-balance sheet arrangements, unconsolidated subsidiaries, commitments or guarantees, except as disclosed in the notes to the consolidated financial statements. As of April 1, 2006, we had a working capital deficit of \$1.1 million, a decrease of \$9.5 million over the quarter ended April 2, 2005.

Capital expenditures. We spent approximately \$5.8 million during the three months ended April 1, 2006 for new store construction, remodels and other capital expenditures. Our average capital expenditures to open a leased store, including leasehold improvements, equipment and fixtures, has ranged from approximately \$2.0 million to \$5.0 million historically, excluding inventory costs and initial operating losses. We anticipate that the average capital expenditures to open a natural foods supermarket format store will be \$2.5 million to \$3.5 million in the future, on a turnkey lease basis. Under turnkey leases, the landlord constructs the building to our specifications, up to a cost cap per foot, and installs equipment we purchase. Average capital expenditures for non turnkey leases are expected between \$5.0 million and \$6.5 million. Our average capital expenditures to open a farmers market format store are estimated at \$2.0 million to \$2.5 million in the future. Delays in opening new stores may result in increased capital expenditures and increased pre-opening costs for the site, as well as lower than planned sales for the Company.

Based upon the current level of operations, we believe that cash flows from operations and other sources available such as cash from our debentures and available line of credit will be adequate to meet anticipated requirements for working capital, capital expenditures, interest payments and future debenture payments in the foreseeable future. However, there can be no assurance that the business will continue to generate cash flows from operations at current levels or that we will be able to maintain our ability to borrow under the line of credit.

Critical Accounting Policies and Estimates

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

On an ongoing basis, we evaluate the continued appropriateness of our accounting policies and resulting estimates, including those related to:

- ◆ Goodwill valuation,
- ◆ Asset impairment charges,
- ◆ Restructuring charges and store closing costs,
- ◆ Inventory valuation and reserves,
- ◆ Self-insurance reserves, and
- ◆ Tax valuation allowances
- ◆ Stock-based compensation expense

We believe the following critical accounting policies affect our most significant judgments and estimates used in the preparation of our consolidated financial statements. Due to the implementation of SFAS 123R, we identified a new critical accounting policy related to stock-based compensation, which is listed below. There have been no changes in the application of the Company's other critical accounting policies and estimates in 2006:

**Goodwill.** Goodwill consists of the excess cost of acquired companies over the sum of the fair market value of their underlying assets acquired and liabilities assumed. In accordance with SFAS No. 142, "Goodwill and Other Intangible Assets", goodwill is reviewed for impairment annually at the end of the second quarter at a reporting unit level, or more frequently, if certain indicators of impairment exist. We have one reporting unit at the enterprise level to which goodwill is allocated. We estimate fair value utilizing a combination of three different methods, consisting of market capitalization, discounted future cash flows, and earnings before interest, taxes, depreciation, amortization ("EBITDA") multiples, and compare it to the carrying value of the enterprise for purposes of identifying potential impairment.

The annual review for impairment relies heavily on our ability to accurately project future cash flows, which in itself, requires the extensive use of accounting judgment and financial assumptions and estimates. These projections can be affected by many items that are interdependent on one another and are outside of our control and ability to predict except at the time of evaluation, such as changes in the economy, trends affecting the natural and organic food industry, and changing competitive pressures.

Two of the most significant assumptions underlying the determination of the fair value of goodwill and other intangible assets are the EBITDA multiples and the growth rate on our free cash flow projections. In connection with our annual goodwill impairment measurement, we determined that a 33% reduction in our estimated EBITDA multiple would have decreased the valuation by \$71.9 million. A 25% reduction in our estimated free cash flow projection percentage would have resulted in a decrease of \$100.7 million. Despite these calculated decreases, our lowest valuation still exceeds book value, and therefore, no impairment would be recognized.

Impairment of long-lived assets. We monitor the carrying value of our long-lived assets, including finite-lived intangible assets, for potential impairment whenever changes in circumstance indicate a potential for impairment may exist. The triggering events for evaluations of finite lived intangible assets include a significant decrease in the market value of an asset, acquisition and construction costs in excess of budget, or current store operating losses combined with a history of losses or a projection of continuing losses. If impairment is identified, based on undiscounted future cash flows, management compares the asset's future cash flows, discounted to present value using a risk-adjusted discount rate, to its current carrying value and records a provision for impairment as appropriate. With respect to equipment and leasehold improvements associated with closed stores, the value of these assets is adjusted to reflect recoverable values estimated based on our previous efforts to dispose of similar assets, with consideration for current economic conditions.

Our review for impairment relies heavily on our ability to accurately project future cash flows related to our stores and support facilities. Our cash flow projections look several years into the future and include assumptions about sales growth and cost trends that could be significantly impacted by changes in the local and national economy, trends in the natural and organic food industry, local competitive pressures, as well as the effectiveness of various operational initiatives underway in our stores.

A 2.0% increase in our sales growth assumption utilized in the cash flow projection would have resulted in no stores identified for impairment and no related asset impairment charges. A 2.0% decrease in our sales growth assumption would have resulted in the impairment of two stores held for use and approximately \$2.7 million of additional asset impairment charges.

Restructuring and store closure costs. We reserve for the present value of lease related costs associated with store and support facility closures, relocations, and sales when the store or facility is closed. The calculation of the lease related

liabilities involves applying a discount rate to the estimation of our remaining lease obligations, taxes and common area maintenance, net of future estimated subtenant income. The lease liabilities usually are paid over the lease terms associated with the closed stores, which have had remaining terms ranging from one month to 25 years. Store closing liabilities are reviewed each reporting period to ensure that the amounts recorded reasonably reflect our future obligations associated with closed stores and facilities based on the most current information available. Adjustments to existing lease related liabilities are primarily a result of changes in the expected timing or amount of subtenant income, and are made in the period in which the change in facts and circumstances, as well as their related impacts, become known and estimable. Lease related closure costs and associated severance costs are made in accordance with SFAS No. 146 "Accounting for Costs Associated with Exit of Disposal Activities." Severance costs incurred in connection with store closings are recorded when the employees have been identified and notified of the termination benefits to be made to the employees.

In evaluating the reserves for lease related liabilities, management considers a number of variables that would affect the marketability of the space such as recent demand for similar space in the market area, the number of potential subtenants expressing interest, specific characteristics of the property, any limitations in the use of the space imposed by the landlord, as well as the creditworthiness of actual subtenants. The above factors are continuously reevaluated and have a significant impact on management's assumptions used in estimating the timing and amount of any subtenant income, and thus the amount of required reserves.

In calculating the lease related liabilities, we apply a discount rate to the estimation of our remaining lease obligations. By decreasing the discount rate by 2.0%, we determined that our first quarter lease related restructuring expense would have increased by approximately \$52,000. An increase of 2.0% in the discount rate would have decreased the first quarter lease related restructuring expense by \$48,000.

Inventory. Our inventory is stated at the lower of cost or market on a first-in, first-out basis using the retail method of accounting to determine cost of sales and inventory for approximately 80% of inventories and using the item cost method for highly perishable products representing approximately 20% of inventories in our stores. Under the retail inventory method, the valuation of inventories at cost and the resulting gross margins are determined by applying a cost-to-retail ratio for various categories of similar items to the retail value of inventories. Inherent in the retail inventory method calculations are certain management judgments and estimates, including shrinkage, which could significantly impact the ending inventory valuation at cost as well as the resulting gross margins. Physical inventory counts are taken at each location to ensure that the amounts reflected in the consolidated financial statements are properly stated as of the end of each reporting period.

We maintain allowances for excess or unsaleable inventory as a percentage of its gross inventory balance based on historical experience and assumptions about market conditions. If actual market conditions are less favorable than those projected by management, or if we expand our forward buying of inventory, which will increase our inventory levels, then additional inventory write-downs may be required.

Relative to the above, a hypothetical increase of 1.0% to our cost-to-retail ratio would result in a decrease of approximately \$887,000 to our inventory valuation. Conversely, a hypothetical decrease of 1.0% would result in an increase of approximately \$887,000 to our inventory balance as of the end of first quarter, 2006. With regards to our allowance for inventory, an increase or decrease of 1.0% would cause our allowance to fluctuate by about \$667,000.

**Self-insurance.** We use a combination of stop-loss insurance and are self-insured for losses relating to worker's compensation claims, general liability and employee medical and dental benefits. We have purchased stop-loss coverage in order to limit exposure to any significant claim or levels of claims that would be catastrophic to our Company. Self-insured losses are accrued based upon estimates of the aggregate uninsured claims incurred using certain actuarial assumptions followed in the insurance industry which are based on our industry's experience as well as our historical claims experience. While we believe that the assumptions and methodology used are appropriate, the estimated accruals for these liabilities could be significantly affected if actual loss development and payment patterns vary significantly from the assumptions and historical trends utilized.

**Tax valuation allowances.** We utilize the concepts and guidance of SFAS No. 109, "Accounting for Income Taxes" in assessing the ability to realize our deferred tax assets. The Company establishes valuation allowances based on historical taxable income, projected future income, the expected timing of the reversals of existing temporary differences and the implementation of tax planning strategies. Based on our analysis in 2004, we established a full valuation allowance against our net deferred tax assets as it was not more likely than not that the assets would be realized under SFAS No. 109 *Accounting for Income Taxes*.

When we are able to show a profitable trend and have generated cumulative income for a reasonable period, we will re-evaluate the need for a valuation allowance using all factors available to us at that time.

**Stock-based compensation expense.** Effective January 1, 2006, we adopted the provisions of SFAS No. 123R and related interpretations, using the Black-Scholes valuation model and the modified prospective application. Under the fair value recognition provisions of this statement, stock-based compensation cost is measured at the grant date based on the value of the award and is recognized as expense on a straight-line basis over the award's vesting period. Determining the fair value of stock-based awards at grant date requires judgment, including estimating the amount of stock-based awards expected to be forfeited. If actual results differ significantly from these estimates, our results of operations could be materially impacted. These estimates are outlined in *Note 3 - Stock-Based Compensation*.

This Report on Form 10-K contains "forward-looking statements," within the meaning of the Private Securities Litigation Reform Act of 1995, which involve known and unknown risks. Such forward-looking statements include statements as to the number of stores we plan to open or relocate in future periods and the anticipated performance of such stores; the impact of competition; the sufficiency of funds to satisfy our cash requirements through the remainder of fiscal 2006; the impact of changes resulting from our merchandising and marketing programs; our ability to benefit from past supply chain modifications; expected pre-opening expenses and capital expenditures; and other statements containing words such as "believes," "anticipates," "estimates," "expects," "may," "intends" and words of similar import or statements of management's opinion. These forward-looking statements and assumptions involve known and unknown risks, uncertainties and other factors that may cause our actual results, market performance or achievements to differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. Important factors that could cause differences in results of operations include, but are not limited to, the timing and execution of new store openings, relocations, remodels and closures; new competitive impacts; changes in product supply or suppliers and supplier performance levels; changes in management information needs; changes in customer needs and expectations; changes in government regulations applicable to our business; changes in economic or business conditions in general or affecting the natural foods industry in particular; cost and stability of fuel and power sources; and competition for and the availability of sites for new stores. We undertake no obligation to update any forward-looking statements in order to reflect events or circumstances that may arise after the date of this Report.

#### Non GAAP Financial Information

The following is a reconciliation of EBITDA and EBITDA, as adjusted, to net income (*in thousands*):

	THREE MONTHS ENDED	
	April 1, 2006	April 2, 2005
Net income (loss)	\$ 2,885	\$ (1,151)
Interest expense, net of interest income	1,265	1,843
Income tax expense (benefit)	205	135
Depreciation and amortization	6,687	6,735

EBITDA	11,042	7,562
Loss on early extinguishment of debt	-	559
Loss (gain) on asset disposals, net	90	(9)
Stock-based compensation expense	778	104
Restructuring and asset impairment charges, net	1,670	1,551
EBITDA, as adjusted	\$ 13,580	\$ 9,767
EBITDA, as a percentage of sales	3.7%	2.7%
EBITDA, as adjusted, as a percentage of sales	4.6%	3.5%

EBITDA and EBITDA, as adjusted, are measures used by management to measure operating performance. EBITDA is defined as net income plus interest, taxes, depreciation, and amortization. EBITDA, as adjusted, excludes certain non-cash charges and other items that management does not utilize in assessing operating performance or for purposes of corporate and regional level bonuses. The items included in the reconciliation from EBITDA to EBITDA, as adjusted, are either (a) non-cash items (e.g. asset impairments and stock-based compensation expense) or (b) items that management does not consider to be relevant to assessing operating performance (e.g. restructuring, gain/loss on sale of assets, net). Due to the implementation of SFAS 123R during the first quarter of 2006 using the modified prospective application, the financial statements for periods prior to January 1, 2006, will not include compensation cost calculated under the fair value method. Regarding the non-cash items, management believes that investors can better assess operating performance if the measures are presented without such items. In the case of the items that management does not consider relevant to assessing operating performance, management believes that investors can better assess ongoing operating performance if the measures are presented without these items because their financial impact has no continuing relevance to our ongoing business. The above table reconciles net income to EBITDA and EBITDA, as adjusted. Management believes that EBITDA and EBITDA, as adjusted, are useful to investors because securities analysts, lenders and other interested parties frequently utilize them to evaluate our peer companies and us. Neither EBITDA nor EBITDA, as adjusted, are recognized terms under GAAP and do not purport to be an alternative to net income as an indicator of operating performance or any other GAAP measure. Not all companies utilize identical calculations, therefore, the presentation of EBITDA and EBITDA, as adjusted, may not be comparable to other identically titled measures of other companies. In addition, EBITDA and EBITDA, as adjusted, are not intended to be measures of free cash flow for management's discretionary use since they do not consider certain cash

requirements, such as interest payments, tax payments and capital expenditures.

Comparable stores sales. We deem sales of a new or acquired stores comparable commencing in the thirteenth full month of operations.

### Item 3. Quantitative and Qualitative Disclosures about Market Risk

In the normal course of business, the Company is exposed to fluctuations in fossil fuel commodity prices, interest rates and the value of foreign currency. Fossil fuels commodity prices directly impact the costs the Company pays for utilities and distribution, and are subject to fluctuation due to availability and other natural causes. The Company attempts to balance retail price increases against lost profits without losing customer loyalty. The Company will employ various financial instruments to manage certain exposures to foreign currency and interest rate risk when considered practical.

The Company is exposed to foreign currency exchange risk. The Company owns and operates three natural foods supermarkets and a commissary kitchen in British Columbia, Canada. The commissary supports the three Canadian stores and does not independently generate sales revenue. Sales made from the Canadian stores are made in exchange for Canadian dollars. To the extent that those revenues are repatriated to the United States, the amounts repatriated are subject to the exchange rate fluctuations between the two currencies. The Company does not hedge against this risk because of the small amounts of funds at risk.

Should we begin drawing on the B of A Facility for additional capital, our exposure to interest rate changes would be primarily related to our variable rate debt issued under the B of A Facility. The total commitment available is \$40.0 million under a revolving line of credit, with a five-year term expiring March 31, 2010. The interest rate on the credit facility is prime or LIBOR plus 1.25%, at our election, and the rates modify depending on the excess borrowings availability over amounts borrowed. Because the interest rate on the facility is variable, based upon the prime rate or LIBOR, the Company's interest expense and net income would be affected by interest rate fluctuations.

### Item 4. Controls and Procedures

Disclosure Controls and Procedures. The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of April 1, 2006. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of April 1, 2006, the Company's disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act and are effective in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Internal Control Over Financial Reporting. There have not been any changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter ended April 1, 2006 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## Part II. OTHER INFORMATION

### Item 1. Legal Proceedings

-

Tim Auchterlonie, individually and on behalf of all others similarly situated and the general public, and Roes 1 to 1000 vs. Wild Oats Markets, Inc. and Does 1 through 100, is a suit brought in August 2004 in the Superior Court, County of Los Angeles, for payment of overtime and damages relating to alleged violations of the California Business and Professions Code by a former store director claiming that he should have been classified as an employee paid on an hourly basis, together with other related claims. In mid-2005, five additional named plaintiffs were added to the suit, and the trials of the original plaintiff and the new plaintiffs were bifurcated. We believe that all of the named plaintiffs were correctly classified as exempt employees based upon their job duties. We have settled with the original plaintiff, and the trial date has been vacated. A trial for the remaining plaintiffs has been set for third quarter 2006.

In June 2002 an administrative law judge ("ALJ") found against us in Wild Oats Markets, Inc. and Local 371, United Food & Commercial Workers, in certain unfair labor practice charges brought in connection with the opening of our store in Westport, Connecticut. We appealed the ALJ's decision to the National Labor Relations Board ("NLRB"). In May 2005, the NLRB denied the appeal and issued a Decision and Order, setting forth certain equitable, injunctive

and monetary remedies to be undertaken by us, including payment of backpay less interim earnings, and offers of employment to certain former employees of a store that we sold in 2000 (the "Sold Store"). We agreed to reinstate one former employee and paid an immaterial amount to settle the claims of ten named individuals in the ruling. The NLRB has indicated that there may be liability to other employees from the Sold Store for certain periods that such individuals were unemployed. We are currently evaluating whether to appeal the remainder of the Decision.

We also are named as defendant in various actions and proceedings arising in the normal course of business. In all of these cases, we are denying the allegations and are vigorously defending against them and, in some cases, have filed counterclaims. Although the eventual outcome of the various lawsuits cannot be predicted, it is management's opinion that these lawsuits will not result in liabilities that would materially affect our consolidated results of operations, financial position, or cash flows.

#### Item 1A. Risk Factors

There have not been any material changes from the risk factors previously disclosed in our Form 10-K for the fiscal year ended December 31, 2005.

#### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

The following table presents receipt by the Company of its common stock for the quarter ended April 1, 2006:

Period	(a) Total Number of Shares (or Units) Purchased	(b) Average Price Paid per Share (or Units)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs
02/19/06	678,530	\$17.89	None	Not Applicable
	(1)	(2)	(3)	(3)

(1) Shares of registered Common Stock received by the Company in accordance with the terms of and in full satisfaction of the principal and accrued interest on a promissory note ("Note") from Perry Odak, the Company's President and Chief Executive Officer.

(2) The terms of the Note provided for the acceptance of shares in payment of amounts due under

the Note, with the number of shares required for payment determined by the closing price per share on NASDAQ National Market.

- (3) The Company did not purchase the shares through a publicly announced plan or program.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

None.

Item 6. Exhibits
