PRESS RELEASE

**Agreement reached for the sale
of Veolia Environnement's stake in *Berlinwasser***

Paris, September 10, 2013. Veolia Environnement announces the signature of an agreement with the Federal State of Berlin authorities to sell its 24.95% stake in *Berlinwasser* for €590 million, supplemented by €12 million for miscellaneous items and the share of dividends and interests due in respect of financial year 2013. This divestment would be a direct contribution to the Group's 2-year €6 billion asset divestment program, now almost achieved.

This sale is subject to approval by the Senate and Parliament of Berlin, as well as EU antitrust authorities, and is expected to be finalized by the end of the year.

Veolia's commitment in Berlinwasser dates back to the partial privatization of the municipal water and wastewater company in 1999. Since the sale by RWE of its shares in Berlinwasser in 2012, the State of Berlin has retained control over the company with a 75.05% share and has agreed with Veolia to achieve full control. This fruitful partnership has succeeded in a substantial modernization of the company, which has improved efficiency while securing the highest ecological and social standards and continuous infrastructure investment.

Veolia Environnement will remain active in Germany and continue to grow its water and waste management operations for municipal and industrial clients, in line with the strategic priorities of development and profitable growth as defined and implemented for the past 18 months by Antoine Frérot, Chairman and Chief Executive Officer.

Antoine Frérot indicated: *“The decision to end this partnership has been taken in mutual agreement with the State of Berlin. For Veolia, Germany otherwise remains one of the most important countries with an excellent potential for future development.”*
