

**Item 1.02 Termination of a Material Definitive Agreement and Item 2.04 Triggering Events That Accelerate or Increase a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement**

On March 26, 2007, Horizon Bancorp (“Horizon”), through Horizon Statutory Trust I (“HSTI”), redeemed \$12 million of its Floating Rate Capital Securities (“Preferred Securities”) and Horizon redeemed all of the related Floating Rate Junior Subordinated Deferrable Interest Debentures due 2032 (the “Debentures”). The intent to make this redemption was initially announced in an 8-K filing on December 21, 2006.

The redemption price for the Debentures was 100% of the aggregate \$12,372,000 outstanding principal amount of the Debentures, plus \$277,306.94 of accrued interest thereon. The Debenture redemption proceeds were used by HSTI to redeem all of its \$12 million outstanding Preferred Securities and \$372 thousand in Common Securities and to pay the accrued interest on those securities.

The redemption of the Debentures, Preferred Securities and Common Securities will result in (i) the dissolution of HSTI upon the filing of a certificate of cancellation with the Secretary of State of Connecticut by the institutional trustee of the Trust (the “Trustee”) in accordance with the Amended and Restated Declaration of Trust dated as of March 26, 2002 (the “Declaration of Trust”), and (ii) the termination of the Declaration of Trust, the Indenture between Horizon and the Trustee, dated as of March 26, 2002 (the “Indenture”), and the Guarantee Agreement between the Company and the Trustee, dated as of March 26, 2002 (the “Guarantee”), each in accordance with the terms thereof.

The redemption was funded with the proceeds from the issuance of \$12 million in new floating rate trust preferred securities issued on December 15, 2006. Tier 1 regulatory capital for Horizon will not be negatively affected by these transactions, and Horizon estimates that the combined effect of the redemption and new issuance of these trust preferred securities will reduce interest expense by \$180 thousand in 2007 and by \$234 thousand each year thereafter through 2011.
