VOYAGER ENTERTAINMENT INTERNATIONAL, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

Note 1. Basis of Presentation and Organization and Significant Accounting Policies

Basis of Presentation and Organization

The accompanying Condensed Consolidated Financial Statements of Voyager Entertainment International, Inc. (the "Company") should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2009. Significant accounting policies disclosed therein have not changed except as noted below.

Voyager Entertainment International, Inc., a North Dakota corporation, formerly known as Dakota Imaging, Inc. and incorporated on January 31, 1991, is in the entertainment development business with plans to develop the world's tallest Observation Wheel on the Las Vegas strip area. During April 2002, the Company changed its name from Dakota Imaging, Inc. to Voyager Entertainment International, Inc. and adopted a new fiscal year. On June 11, 2003, the Company became a Nevada Corporation.

As used in these Notes to the consolidated financial statements, the terms the "Company", "we", "us", "our" and similar terms refer to Voyager Entertainment International, Inc. and, unless the context indicates otherwise, its consolidated subsidiaries. As of September 30, 2010, the Company's wholly-owned subsidiaries include Voyager Entertainment Holdings, Inc. ("VEHI"), a Nevada corporation and Voyager Viridian LLC ("Viridian"), a Nevada limited liability corporation. Voyager Entertainment Holdings, Inc. has been a dormant company and was discontinued as of June 30, 2010.

These condensed consolidated financial statements include all accounts of the Company and its subsidiaries. All significant intercompany transactions and accounts have been eliminated in consolidation.

Basis of Financial Statement Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in accordance with such rules and regulations. The information furnished in the interim condensed consolidated financial statements includes normal recurring adjustments and reflects all adjustments, which, in the opinion of management, are necessary for a fair presentation of such financial statements. Although management believes the disclosures and information presented are adequate to make the information not misleading, these interim condensed consolidated financial statements should be read in conjunction with the Company's most recent audited financial statements and notes thereto included in its December 31, 2009 Annual Report on Form 10-K. Operating results for the period ended September 30, 2010 are not necessarily indicative of the results that may be expected for the year ending December 31, 2010.

Going Concern

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate continuation of the Company as a going concern. The Company has not begun generating revenue, is considered a development stage company, has experienced recurring net operating losses, had a net loss of \$482,181 and \$390,219 and \$934,466 and \$993,706 for the three and nine months ended September 30, 2010 and 2009, respectively,

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

accumulated deficit of \$20,025,380 and a working capital deficiency of \$7,359,697 at September 30, 2010. These factors raise substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might result from this uncertainty.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Website Development Costs

Costs incurred in developing and maintaining a website are charged to expense when incurred for the planning, content population, and administration or maintenance of the website. All development costs for the application, infrastructure, and graphics development are capitalized and subsequently reported at the lower of unamortized cost or net realizable value. Capitalized costs are amortized using straight-line basis over a three year estimated economic life of the product.

8

RECENTLY ADOPTED AND RECENTLY ISSUED ACCOUNTING GUIDANCE

Adopted

In June 2009, the Financial Accounting Standards Board ("FASB") issued authoritative guidance for "Accounting for Transfers of Financial Assets," which eliminates the concept of a "qualifying special-purpose entity," changes the requirements for derecognizing financial assets, and requires additional disclosures in order to enhance information reported to users of financial statements by providing greater transparency about transfers of financial assets, including securitization transactions, and an entity's continuing involvement in and exposure to the risks related to transferred financial assets. This guidance is effective for fiscal years beginning after November 15, 2009. The Company adopted this guidance for the period ended March 31, 2010. It does not have a material impact on the consolidated financial statements.

In June 2009, the FASB issued authoritative guidance amending existing guidance. The amendments include: (1) the elimination of the exemption for qualifying special purpose entities, (2) a new approach for determining who should consolidate a variable-interest entity, and (3) changes to when it is necessary to reassess who should consolidate a variable-interest entity. This guidance is effective for the first annual reporting period beginning after November 15, 2009 and for interim periods within that first annual reporting period. The Company adopted this guidance for the period ended March 31, 2010. It does not have a material impact on the consolidated financial statements.

In January 2010, the FASB issued guidance to amend the disclosure requirements related to recurring and nonrecurring fair value measurements. The guidance requires new disclosures on the transfers of assets and liabilities between Level 1 (quoted prices in active market for identical assets or liabilities) and Level 2 (significant other observable inputs) of the fair value measurement hierarchy, including the reasons and the timing of the transfers. The guidance became effective for the Company beginning January 1, 2010. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

In February 2010, the FASB issued amended guidance on subsequent events to alleviate potential conflicts between FASB guidance and SEC requirements. Under

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

this amended guidance, SEC filers are no longer required to disclose the date through which subsequent events have been evaluated in originally issued and revised financial statements. This guidance was effective immediately and we adopted these new requirements for the period ended March 31, 2010. The adoption of this guidance did not have a material impact on our financial statements.

Issued

In October 2009, the FASB issued changes to revenue recognition for multiple-deliverable arrangements. These changes require separation of consideration received in such arrangements by establishing a selling price hierarchy (not the same as fair value) for determining the selling price of a deliverable, which will be based on available information in the following order: vendor-specific objective evidence, third-party evidence, or estimated selling price; eliminate the residual method of allocation and require that the consideration be allocated at the inception of the arrangement to all deliverables using the relative selling price method, which allocates any discount in the arrangement to each deliverable on the basis of each deliverable's selling price; require that a vendor determine its best estimate of selling price in a manner that is consistent with that used to determine the price to sell the deliverable on a standalone basis; and expand the disclosures related to multiple-deliverable revenue arrangements. These changes become effective on January 1, 2011. The Company has determined that the adoption of these changes will not have an impact on the consolidated financial statements, as the Company does not currently have any such arrangements with its customers. In January 2010, the FASB issued guidance to amend the disclosure requirements related to recurring and nonrecurring fair value measurements. The guidance requires a roll forward of activities on purchases, sales, issuance, and settlements of the assets and liabilities measured using significant unobservable inputs (Level 3 fair value measurements). The guidance will become effective for the Company with the reporting period beginning July 1, 2011. The adoption of this guidance will not have a material impact on the Company's consolidated financial statements.

Other recent accounting pronouncements issued by the FASB (including its Emerging Issues Task Force), the AICPA, and the SEC did not, or are not believed by management to, have a material impact on the Company's present or future consolidated financial statements.

9

Note 2. Advances - Related Party

In 2006, the Company entered into a note with Diversified Lending, see Note 6. From the proceeds of the debt facility we issued \$500,000 to Western Architectural Services, LLC ("Western") and recorded an Advance - Related Party on our balance sheet. Our Chief Operating Officer is also the Chief Executive Officer of Western. The repayment of this advance is contingent upon the production of the project. We have analyzed the collectability of this note as of September 30, 2010 and concluded that, with current economic conditions, it is unknown whether production can be secured within the next twelve months. The Company has recognized an allowance of \$500,000 and \$250,000, as of September 30, 2010 and December 31, 2009, respectively. In the event that the Company secures a project site and sufficient project funding, the allowance against the advance will be reversed in reevaluation for realizable collectability.

Note 3. Fixed Assets

Fixed assets of \$40,770 that were no longer in use, and their related accumulated depreciation of \$40,219 have been removed from the accounting

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

records as of September 30, 2010. A loss on disposal of fixed assets of \$551 has been recognized for the disposition of assets that have not been fully depreciated as of September 30, 2010. The disposed of assets consist of outdated computer equipment which have not been replaced as of September 30, 2010.

Note 4. Website Development Costs

Costs of \$40,594 relating to the application, infrastructure, and graphics development of the Company's website have been capitalized during 2010. These costs are being amortized over a three year period upon the launch of the website on April 21, 2010. As of September 30, 2010, amortization of \$6,006 has been recognized.

Note 5. Stockholders' Deficit

The authorized common stock of the Company consists of 200,000,000 shares of common stock with par value of \$0.001 and 50,000,000 shares of preferred stock. For our preferred stock, we have designated two series: 1,500,000 shares of Series A Preferred Stock and 10,000,000 shares of Series B Preferred Stock both with a par value of \$0.001.

On February 21, 2010, the Company issued 1,500,000 shares of common stock that were purchased for \$30,000 on December 17, 2009.

On March 2, 2010, 3,000,000 shares of common stock, valued at \$75,000, were returned to treasury by a vendor of the Company. The vendor has chosen to accept \$75,000 cash, for services that were performed in 2009, at a later date when funding becomes available.

On May 6, 2010, the Company issued 2,100,000 shares of common stock, valued at \$8,400, or \$0.004 per share, for services performed.

On June 7, 2010, the Company issued 2,425,000 shares of common stock, valued at \$48,500, or \$0.02 per share, for website development costs. \$40,594 has been capitalized (see Note 4).

On July 29, 2010, the Company issued 200,000 shares of common stock, valued at \$640, or \$0.003 per share, for services performed.

On August 26, 2010, the Company issued 5,000,000 shares of common stock, valued at \$16,000, or \$0.003 per share, for services. As of September 30, 2010, approximately 10% of the contracted services have been performed. The Company has recognized a prepaid expense for the remaining \$14,400 worth of shares issued.

Loan Collateral

On September 5, 2006, the Company entered into a note payable with Diversified Lending Group, Inc. for \$1,250,000. To collateralize the loan, the Company issued 7,500,000 shares of its common stock valued at \$750,000, or \$0.10 per share. As of September 30, 2010, we have marked these shares to market using the period end closing price of our stock. The change in valuation was applied to additional-paid in capital.

10

Common Stock Payable

At September 30, 2010, common stock payable, net consists of:

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

- o 500,000 shares payable to an Officer of the Company, valued at \$4,500, relating to the 2008 Western Acquisition Rescission. We have marked these shares to market using the period end closing price of our stock. The change in valuation was applied to additional-paid in capital.
- o \$20,000 payable relating to a 2008 private purchase agreement. The investor has not completed investment paperwork so that management can release the shares.

Note 6. Related Party Transactions

Synthetic Systems

During the three and nine months ended September 30, 2010 and 2009, the Company incurred consulting fees of approximately \$37,000 per month to Synthetic Systems, LLC for a total of \$111,000 and \$333,000 for each respective period. The Company leased furniture and equipment from Synthetic Systems for a total of \$1,150 per month for the three and nine months ending September 30, 2010 and 2009. The Company also paid on behalf of Synthetic Systems, LLC office rent expenses of \$9,109 and \$8,623 and \$26,942 and \$25,499, for the three and nine months ended September 30, 2010 and 2009, respectively. Synthetic Systems is jointly owned by our Chief Executive Officer and Secretary.

Western Architectural

As previously disclosed in our 2009 Form 10-K, filed on March 30, 2010, the Company executed a Contractor Agreement with Western Architectural Services, LLC ("Western") where Western would provide to the Company certain architectural services for the Las Vegas Observation Wheel Project in exchange for which the Company issued 2,812,500 shares of restricted common stock to Western. Although he was not an affiliate of the Company upon execution of the Contractor Agreement, Western's Chief Executive Officer is currently an executive officer, director and significant stockholder of the Company. We have accounted for these shares as Deferred Construction Costs in these financial statements.

Western plans to sell the 2,812,500 shares of common stock at the time before and during the contract to purchase supplies and to pay subcontractor fees for the construction of a wheel. At the time the contract was issued the shares of the Company were trading at \$6.50 per share, our current stock price is trading significantly below that amount. If at the time Western performs the services contracted and the share price is below \$6.50 per share, the Company will be required to issue additional shares to Western in order for the contract to be fulfilled. Western's Chief Executive Officer is currently an affiliate of the Company which will also limit the amount of shares that can be sold based on the trading volume and shares outstanding in accordance with Rule 144 of the Securities Act of 1933. As of September 30, 2010, we have marked these shares to market using the period end closing price of our stock. The change in valuation was applied to additional-paid in capital due to the deferred construction cost nature of these shares.

In 2006, the Company entered into a note with Diversified Lending. From the proceeds of the debt facility we issued \$500,000 to Western and recorded an Advance - Related Party on our balance sheet. Our Chief Operating Officer is also the Chief Executive Officer of Western. The repayment of this advance is contingent upon the production of the project. We have analyzed the collectability of this note as of September 30, 2010 and concluded that, with current economic conditions, it is unknown whether production can be secured within the next twelve months. The Company has fully allowed for the receivable as of September 30, 2010. In the event that the Company secures a project site and sufficient project funding, the allowance against the advance will be reversed in reevaluation for realizable collectability.

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

As of September 30, 2010, we have received advances in the amounts of \$799,000 from Western Architectural Services, LLC. The advances are unsecured, carry no interest and are due upon demand. As of September 30 2010, no payments have been made to Western.

Note 7. Fair Value

As required by the Fair Value Measurements and Disclosures Topic of the FASB ASC, fair value is measured based on a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows: (Level 1) observable inputs such as quoted prices in active markets; (Level 2) inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and (Level 3) unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

11

The three levels of the fair value hierarchy are described below:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

- Level 2 Quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability;

- Level 3 Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity).

In accordance with authoritative guidance, the table below sets forth the Company's financial assets and liabilities measured at fair value by level within the fair value hierarchy. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

	Fair Value at September 30, 2010			
	Total	Level 1	Level 2	Level 3
Assets:				
Deferred construction costs	\$ 25,312	\$ 25,312	\$ --	\$ --
Loan collateral costs	67,500	67,500	\$ --	\$ --
Common stock payable	4,500	4,500	\$ --	\$ --
	\$ 97,312	\$ 97,312	\$ --	\$ --
Liabilities:				
None	\$ --	\$ --	\$ --	\$ --

The valuation of these assets and liabilities are expected to fluctuate in accordance with the market rate of the Company's common stock.

Note 8. Subsequent Events

On October 26, the Company issued 1,000,000 shares of common stock, valued at \$10,000 or \$0.01 per share, for services performed.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION.

The following discussion and analysis ("MD&A") of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes included elsewhere in this report. References in this section to "Voyager Entertainment International, Inc.," the "Company," "we," "us," and "our" refer to Voyager Entertainment International, Inc. and our direct and indirect subsidiaries on a consolidated basis unless the context indicates otherwise.

This interim report contains forward looking statements relating to our Company's future economic performance, plans and objectives of management for future operations, projections of revenue mix and other financial items that are based on the beliefs of, as well as assumptions made by and information currently known to, our management. The words "expects, intends, believes, anticipates, may, could, should" and similar expressions and variations thereof are intended to identify forward-looking statements. The cautionary statements set forth in this section are intended to emphasize that actual results may differ materially from those contained in any forward looking statement.

EXECUTIVE SUMMARY AND OVERVIEW

During the next 12 months, we are continuing our efforts on the development of the Observation Wheel in Las Vegas, Nevada; however, actual production will not commence until we have sufficient capital for construction and marketing. As of the year ending December 31, 2009, the Company did not have enough cash on hand to continue operations through the next year. However, from time-to-time the officers of the Company loan funds to provide for operations. There can be no guarantees that the Company's officers and directors will continue to loan funds to the Company on an ongoing basis. We will continue to seek alternative funding sources, however if we do not receive a substantial amount of funding it will be unlikely we can continue operations.

We have been successful in the past in selling our common stock in private transactions to provide for minimal operations. We plan to seek additional funding through debt transactions and the sale of our common stock either privately or publicly. There can be no guarantees we will continue to be successful in completing those transactions. Significant expenses for the Company consist of consulting fees that are primarily paid by the issuance of our common stock and the costs of being a public company and remaining current with our periodic filings.

We are not the traditional Company that has the standard research and development expenses. As a result, most of our research and development expenses consist of presentation materials and architectural designs. Upon funding of the project the initial expense will be engineering and architectural.

Our primary costs consist mainly of professional and consulting, legal and accounting fees along with those fees paid to related parties, rent expenses and printing expenses. As the project is being developed we are incurring additional architectural and travel related fees. If this project is successful there will be a significant increase in expenses for all aspects of the construction process to include an additional office set up, additional employees and continual travel.

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

We plan to focus primarily on the development of the Observation Wheel in Las Vegas over the next 12 months although we may entertain discussions with any interested party in other locations. Other than presentation materials, if a suitable site is acquired and selected, the primary focus will be on completing engineering and starting the construction of an Observation Wheel.

For an additional detailed discussion regarding the Company's business and business trends affecting the Company and certain risks inherent in the Company's business, see "Item 7: Management's Discussion and Analysis of Financial Condition and Results of Operation" in the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

DEVELOPMENT OF OUR BUSINESS

Voyager Entertainment International, Inc., formerly named Dakota Imaging, Inc., was incorporated in North Dakota on January 31, 1991. Effective February 8, 2002, the Company completed a reverse triangular merger between Dakota Subsidiary Corp. ("DSC"), a wholly-owned subsidiary of the Company, and Voyager Ventures, Inc., a Nevada Corporation ("Ventures"), whereby the Company issued 3,660,000 shares of its Series A preferred stock in exchange for 100% of Ventures' outstanding common stock. Pursuant to the terms of the merger, DSC merged with and into Ventures and ceased to exist, and Ventures became a wholly-owned subsidiary of the Company.

On April 2, 2002, we amended our Certificate of Incorporation to change our name from Dakota Imaging, Inc. to Voyager Entertainment International, Inc.

13

In June 2003, the Company reincorporated in the State of Nevada. The reincorporation became effective in the states of North Dakota and Nevada on June 23, 2003, the date the Certificate of Merger was issued by the Secretary of State of North Dakota.

Voyager Ventures, Inc. and Outland Development, LLC have been dormant companies since 2002 and were discontinued as of December 31, 2007 and June 30, 2009, respectively. Voyager Entertainment Holdings, Inc. and Voyager Viridian LLC, wholly-owned subsidiaries, were formed on May 2, 2002 and August 3, 2009, respectively. Voyager Entertainment Holdings, Inc. has been a dormant company and has been discontinued as of June 30, 2010.

CRITICAL ACCOUNTING POLICIES

The methods, estimates and judgments we use in applying our accounting policies have a significant impact on the results we report in our financial statements, which we discuss under the heading "Results of Operations" following this section of our MD&A. Some of our accounting policies require us to make difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Our most critical accounting estimates include the assessment of value of our deferred construction costs.

We believe the following critical accounting policy reflects our most significant estimates and assumptions used in the preparation of our consolidated financial statements:

Stock Based Compensation

Stock based compensation is accounted for using the Equity-Based Payments to Non-Employees Topic of the FASB ASC, which establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

liabilities in exchange for goods or services that are based on the fair value of the entity's equity instruments or that may be settled by the issuance of those equity instruments. We determine the value of stock issued at the date of grant. We also determine at the date of grant the value of stock at fair market value or the value of services rendered (based on contract or otherwise) whichever is more readily determinable.

Shares issued to employees are expensed upon issuance.

Stock based compensation for employees is accounted for using the Stock Based Compensation Topic of the FASB ASC. We use the fair value method for equity instruments granted to employees and will use the Black Scholes model for measuring the fair value of options, if issued. Stock based compensation fair value is determined as of the date of the grant or the date at which the performance of the services is completed (measurement date) and is recognized over the vesting periods.

We do not have any of the following:

- * Off-balance sheet arrangements.
- * Certain trading activities that include non-exchange traded contracts accounted for at fair value.
- * Relationships and transactions with persons or entities that derive benefits from any non-independent relationships other than related party transactions discussed herein.

RESULTS OF OPERATIONS

As of September 30, 2010, we have not constructed an Observation Wheel and therefore have not generated revenues.

Three Month Comparison

Results of operations for the three months ended September 30, 2010 compared to the three months ended September 30, 2009 consist of the following:

Three Months Ended	September 30, 2010	September 30, 2009	\$ Change	% Change
Revenue	\$ --	\$ --	\$ --	-- %
Professional and consulting fees	133,775	237,978	(104,203)	(44) %
Project costs	1,833	1,968	(135)	(7) %
General and administrative expenses	277,006	32,720	244,286	747 %
Operating loss	\$(412,614)	\$(272,666)	\$(139,948)	51 %

We had operating expenses of \$412,614 for the quarter ended September 30, 2010 compared to operating expenses of \$272,666 for the quarter ended September 30, 2009; September 30, 2010 expenses primarily consisted of professional and consulting fees of \$133,775 and bad debt expense of \$250,000. The 51% increase in operating expenses for the three months ended September 30, 2010 as compared to the three months ended September 30, 2009 is due to a \$250,000 allowance of our related party advances which was offset by a decrease in professional and consulting fees of \$104,203. This decrease is a result of consultants engaged in 2009 to assist us in analyzing possible business prospects inside and outside of the Las Vegas area. No comparable engagements have been entered into for the

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

three months ending September 30, 2010.

Nine Month Comparison

Results of operations for the nine months ended September 30, 2010 compared to the nine months ended September 30, 2009 consist of the following:

Nine Months Ended	September 30, 2010	September 30, 2009	\$ Change	% Change
Revenue	\$ --	\$ --	\$ --	-- %
Professional and consulting fees	398,141	501,732	(103,591)	(21) %
Project costs	6,352	134,535	(128,183)	(95) %
General and administrative expenses	329,546	109,841	219,705	200 %
Operating loss	\$(734,039)	\$(746,108)	\$ 12,069	(2) %

We had operating expenses of \$734,039 for the nine months ended September 30, 2010 compared to operating expenses of \$746,108 for the nine months ended September 30, 2009; September 30, 2010 expenses primarily consisted of professional and consulting fees of \$398,141 and bad debt expense of \$250,000. The 21% decrease in professional and consulting fees and the 95% decrease in project costs for the nine months ended September 30, 2010 as compared to the nine months ended September 30, 2009 is due to costs incurred in 2009 for the execution of our project and for the assessment of alternative projects outside of the Las Vegas area. As of September 30, 2010, no such costs were incurred and we have not settled on any additional Observation Wheel projects. We are continuing to focus on the L.V. Project for the remainder of 2010. The 200% increase in general and administrative expenses is due to a \$250,000 allowance of our related party advances.

In general, we are reducing costs where able in an attempt to prolong our cash reserves. If the Company receives funding for the L.V. Project, we expect our expenses to increase substantially, including support for employees that will be required and other operating expenses related to the construction of the project. Additionally, we anticipate issuing bonuses to management for services rendered at a time when the Company is more fiscally able.

LIQUIDITY

We plan to focus primarily on the development of the Observation Wheel in Las Vegas during the next twelve months although we may entertain discussions with any interested party in other locations.

	September 30, 2010	September 30, 2009	\$ Change	% Cha
Cash	\$ 2,771	\$ 7,488	\$ (4,717)	(6)
Accounts payable and accrued expenses	1,839,563	1,638,121	201,442	1
Due to related parties	2,808,000	2,354,000	454,000	1
Total current liabilities	7,380,802	6,725,360	655,442	1
Cash proceeds from the sale of common stock	--	90,000	(90,000)	(10)

We have financed our operations during the year primarily through the use of cash on hand, issuance of stock for services, and aging of our payables.

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

Cash on hand decreased \$4,717, or 63%, as of September 30, 2010 compared to December 31, 2009. The decrease is a result of the payment of payables during the year.

As of September 30, 2010, we had total current liabilities of \$7,380,802 compared to \$6,725,360 as of December 31, 2009. These items increased \$655,442 as a result of the aging of our payables and related party borrowings. We anticipate that our current lack of cash will result in an increase in aging of payables and need for additional cash infusion.

15

Accounts Payable and Accrued Expenses

Our accounts payable and accrued interest increased by approximately 12%, as of September 30, 2010 compared to December 31, 2009 primarily due to cash payments towards our vendors, offset by the aging of more recent expenditures and the accrual of interest on our loans. Until the payment of our loans and their corresponding interest can be made upon our initial project financing, it is likely that our interest expense will continue to accumulate steadily throughout 2010.

For the remainder of the year ending 2010, we anticipate to incur recurring expenses of approximately \$150,000 as a result of related party consulting, furniture and equipment leases, utilities, accounting fees, health insurance and rent expense.

Due to Related Parties

	September 30, 2010	December 31, 2009	\$ Change	% Change
Accrued Expenses - Related Party	\$2,009,000	\$1,778,000	\$ 231,000	13%
Due To - Related Party	799,000	576,000	223,000	39%
Total Related Party	\$2,808,000	\$2,354,000	\$ 454,000	19%

The total amount Due to Related Parties increased \$454,000, or 19%, as of September 30, 2010 compared to December 31, 2009 as a result of unpaid consulting services and cash advances. These items increased as our lack of cash has resulted in an increase in aging of payables to our related parties and the need for additional cash infusion from our related parties.

Additionally, loans due to related parties increased \$223,000, or 39%, as of September 30, 2010 compared to December 31, 2009 as a result of borrowing capital from related parties. The receipt of funds allowed us to pay our vendors so that we could continue our operating efforts. Future borrowings may be deemed necessary to sustain our operations until alternative funding can be received.

As of September 30, 2010, we owe \$799,000 in related party loans and \$2,009,000 for professional fees and unpaid bonuses. No bonuses were issued for the fiscal years ending December 31, 2009 or 2008.

These related party trends are likely to continue throughout 2010 and until fiscal stability can be reached, either by project funding or through the generation of operating revenues.

CAPITAL RESOURCES

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

Cash decreased by \$4,717, or 63%, as of September 30, 2010 due to the payment of some of our payables throughout the year. Additionally, we received no cash for the purchase of common stock, for the nine months ended September 30, 2010 compared to \$90,000 for the year ended December 31, 2009. Until we can launch our project, it is more likely than not that the issuance of shares for cash will be minimal during the next twelve months as a result of the apprehension shareholders have towards the volatility of the stock market. The issuance of common stock for cash assists us in continuing our operating efforts. Should we be unable to issue common stock for cash sufficient enough to sustain our operations, either alternative capital raising efforts will proceed or operations will halt until the proper funding can be obtained.

We had \$2,771 cash on hand as of September 30, 2010 compared to \$7,488 as of December 31, 2009. We will continue to need additional cash during the following twelve months and these needs will coincide with the cash demands resulting from our general operations and implementing our business plan. It is possible that an agreement finalizing the security of a project site and the corresponding construction of an observation wheel may begin in the next twelve months. Assuming no such occurrences, our remaining anticipated minimum cash payments for 2010 will be approximately \$150,000.

There is no assurance we will be able to obtain additional capital as required, or obtain the capital on acceptable terms and conditions. Our failure to obtain sufficient funding may result in our need to halt operations until such funding can be obtained. A halt in operations could significantly setback the progress we have made in negotiating a project site and the related financing. Additionally, during this time, a stronger competitor may prevail with a similar project.

A critical component of our operating plan impacting our continued existence is the ability to obtain additional capital through additional equity and/or debt financing. We do not anticipate enough positive internal operating cash flow until such time as we can generate substantial revenues, which may take the next few years to fully realize. In the event we cannot obtain the necessary capital to pursue our strategic plan, we may have to cease or significantly curtail our operations. This would materially impact our ability to continue operations.

16

Our near term cash requirements are anticipated to be offset through the receipt of funds from private placement offerings and loans obtained through private sources. Since inception, we have financed cash flow requirements through debt financing and issuance of common stock for cash and services. The acquisition of sufficient funding presents a challenge in the current economy that we may be unable to overcome. As we initiate operational activities, we may continue to experience net negative cash flows from operations, pending receipt of servicing or licensing fees, and will be required to obtain additional financing to fund operations through stock offerings and bank borrowings to the extent necessary to provide working capital.

Over the next twelve months, we believe that existing capital and anticipated funds from operations will not be sufficient to sustain operations and planned development. Consequently, we will be required to seek additional capital in the future to fund growth and expansion through additional equity or debt financing or credit facilities. No assurance can be made that such financing would be available, and if available it may take either the form of debt or equity. In either case, the financing could have a negative impact on our financial condition and our stockholders.

We anticipate incurring operating losses over the next twelve months. Our lack of operating history makes predictions of future operating results difficult to

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

ascertain. Our prospects must be considered in light of the risks, expenses and difficulties frequently encountered by companies in their early stage of development, particularly companies in new and rapidly evolving markets such as development related companies. Such risks include, but are not limited to, an evolving and unpredictable business model and the management of growth. To address these risks we must, among other things, implement and successfully execute our business and marketing strategy, continue to develop and upgrade technology and products, respond to competitive developments, and attract, retain and motivate qualified personnel. There can be no assurance that we will be successful in addressing such risks, and the failure to do so can have a material adverse effect on our business prospects, financial condition, results of operations and cash flows.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable to smaller reporting companies.

ITEM 4. CONTROLS AND PROCEDURES.

(a) Disclosure Controls and Procedures

Based on the management's evaluation (with the participation of our President and Principal Financial Officer), our President and Principal Financial Officer has concluded that as of September 30, 2010, our disclosure controls and procedures (as defined in Rules 13a - 15(e) and 15d-15(e) under the Securities Exchange of 1934 (the "Exchange Act") are effective to provide reasonable assurance that the information required to be disclosed in this quarterly report on Form 10-Q is recorded, processed, summarized and reported within the time period specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to the Company's management, including the Chief Executive Officer and Principal Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure.

(b) Internal control over financial reporting

Management's quarterly report on internal control over financial reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a- 15(f) and 15d-15(f) under the Exchange Act. Our internal control over financial reporting is intended to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with U.S. GAAP. Our internal control over financial reporting should include those policies and procedures that:

- o pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- o provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with applicable GAAP, and that receipts and expenditures are being made only in accordance with authorizations of management and the Board of Directors; and
- o provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Under the supervision and with the participation of our management, our Chief Executive Officer and Principal Financial Officer, we have evaluated the effectiveness of our internal control over financial reporting and preparation of our quarterly financial statements as of September 30, 2010 and believe they

are effective. While we believe the present control design and procedures are effective, future events affecting our business may cause the Company to modify its controls and procedures.

Attestation report of the registered public accounting firm

This quarterly report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this quarterly report.

Changes in internal control over financial reporting

Based on the evaluation as of September 30, 2010, our Chief Executive Officer and Principal Financial Officer has concluded that there were no significant changes in our internal controls over financial reporting or in any other areas that could significantly affect our internal controls subsequent to the date of this most recent evaluation and there were no corrective actions during the quarter with regard to significant deficiencies or material weaknesses.

PART II

OTHER INFORMATION

ITEM 1 - LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

There have been no material changes from the Risk Factors described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

ITEM 2 - UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On February 21, 2010, the Company issued 1,500,000 shares of common stock that were purchased for \$30,000 on December 17, 2009.

On March 2, 2010, 3,000,000 shares of common stock, valued at \$75,000, were returned to treasury by a vendor of the Company. The vendor has chosen to accept \$75,000 cash, for services that were performed in 2009, at a later date when

Edgar Filing: VOYAGER ENTERTAINMENT INTERNATIONAL INC - Form 10-Q

funding becomes available.

On May 6, 2010, the Company issued 2,100,000 shares of common stock, valued at \$8,400, or \$0.004 per share, for services performed.

On June 7, 2010, the Company issued 2,425,000 shares of common stock, valued at \$48,500, or \$0.02 per share, for website development costs.

On July 29, 2010, the Company issued 200,000 shares of common stock, valued at \$640, or \$0.003 per share, for services performed.

On August 26, 2010, the Company issued 5,000,000 shares of common stock, valued at \$16,000, or \$0.003 per share, for services.

ITEM 3 - DEFAULTS UPON SENIOR SECURITIES

There have been no changes from the Defaults Upon Senior Securities described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

ITEM 4 - [REMOVED AND RESERVED]

ITEM 5 - OTHER INFORMATION

(1) Committees and financial reviews.

The board of directors has not established an audit committee. In addition, we do not have any other compensation or executive or similar committees. We will not, in all likelihood, establish an audit committee until such time as we increase our revenues, of which there can be no assurance. We recognize that an audit committee, when established, will play a critical role in our financial reporting system by overseeing and monitoring management's and the independent auditor's participation in the financial reporting process.

Until such time as an audit committee has been established, the board of directors will undertake those tasks normally associated with an audit committee to include, but not by way of limitation, the (i) review and discussion of the audited financial statements with management, and (ii) discussions with the independent auditors with respect to the matters required to be discussed by the Statement On Auditing Standards No. 61, "Communications with Audit Committees", as may be modified or supplemented.

19

ITEM 6 - EXHIBITS

(a) The following exhibits are filed with this report.

- 31.1 Rule 13a-14(a)/15d-14(a) Certifications.
- 32.1 Section 1350 Certifications.
