Other Information Relating to Directors

During the fiscal year ended January 31, 2002, the Board of Directors held three formal meetings and six meetings by telephone conference. The Board has an Audit Committee consisting of Mr. Robertson (Chairman), Dr. Viets and Mr. Hopkins, whose primary duties and responsibilities include recommending an accounting firm to be engaged as the Company's independent accountants and meeting with the Company's independent accountants to review the annual audit scope, the audit of financial statements, the adequacy of internal controls and other relevant matters. The Audit Committee held one formal committee meeting and one meeting by telephone conference during the fiscal year ended January 31, 2002. The Board has a Compensation Committee comprised of Dr. Viets (Chairman), Mr. Robertson and Mr. Hopkins, which reviews and approves recommendations on executive compensation and administers the Company's stock option plans. The Compensation Committee held two formal meetings during the fiscal year ended January 31, 2002. Messrs. Robertson, Hopkins and Viets have been paid an annual retainer fee of \$3,500 plus \$500 for each Board meeting attended.

Those directors who are not also officers and employees of the Company receive options to purchase common stock under the Company's Non-Employee Director Stock Option Plan (the "Director Plan") as compensation for their services to the Company. Under the Director Plan, each non-employee director received an initial non-qualified option to purchase 1,000 shares of common stock on May 21, 1996, the date the Company's shareholders approved the Director Plan. Non-employee directors who are elected after May 21, 1996 will receive an initial non-qualified option to purchase 1,000 shares of common stock on the date of the director's initial election to the Board of Directors. Beginning in 1997, each non-employee director (other than a director first elected after June 30 of the prior year) receives an annual non-qualified option to purchase 1,000 shares of common stock as of the first business day of January of each year. All options have an exercise price

Edgar Filing: ASTRO MED INC /NEW/ - Form DEF 14A

equal to the market price of the common stock on the day of the grant and are exercisable for a term of ten years. Options vest six months after the grant date, unless automatically accelerated in the event of death, disability, or a change of control. A total of 30,000 shares have been reserved for issuance under the Director Plan. Messrs. Hopkins, Robertson and Viets each received options to acquire 1,000 shares at \$3.75 per share on January 2, 2002. Options for an aggregate of 21,000 shares, with an exercise price ranging from \$3.75 to \$9.25 per share were outstanding at January 31, 2002.

Directors who are also officers and employees of the Company are not entitled to receive any compensation in addition to their compensation for services as officers or employees.

The law firm of Hinckley Allen & Snyder LLP, of which Mr. Hopkins is a retired partner, provides legal services to the Company.

Other than as described under "Indebtedness of Management", no officer, director or nominee for director of the Company or any associate of any of the foregoing had during the fiscal year ended January 31, 2002 any material interest, direct or indirect, in any material transaction or any material proposed transaction to which the Company was or is to be a party.

Report On Executive Compensation

The Board of Directors has delegated to the Compensation Committee the authority to fix compensation (including stock options) for the Company's key employees. The Compensation Committee is comprised of the Company's three non-employee directors, Dr. Viets (Chairman), Mr. Robertson and Mr. Hopkins. Mr. Ondis meets with the Compensation Committee to review the compensation program and make recommendations for senior executive officers. Compensation consists of three principal elements (salary, bonus and stock options).

Executive Compensation Philosophy. Compensation of the Company's executive officers should link management initiatives with the actual financial performance of the Company. Similarly, the compensation should attract, retain and motivate highly qualified individuals to achieve the Company's business goals and link their interests with shareholder interests.

Salary. Base salaries for executive officers were established a number of years ago after reviewing compensation for competitive positions at manufacturing companies of comparable size and profitability operating in a similar industry. Base salaries have since been increased at annual rates which approximate the general rates of increase of compensation for all employees of the Company and for generally publicized competitive positions elsewhere in industry.

4

Bonus. The Company maintains a bonus pool for the purpose of providing incentives in the form of a quarterly cash bonus to employees of the Company. Awards are intended to reflect Company profitability, achievement of overall Company objectives and individual performances, considered both in terms of effort and results. The size of the bonus pool and of individual awards may vary, up or down, from year to year. Bonuses paid or accrued during fiscal years 2000 and 2001 amounted to \$369,488 (\$158,000 to executives) and \$225,000 (\$28,500 to executives), respectively. No bonus payments were made in fiscal year 2002.

Stock Options. Total executive compensation includes long-term incentives afforded by stock options. Stock option grants are made by the Compensation

Edgar Filing: ASTRO MED INC /NEW/ - Form DEF 14A

Committee upon consideration of recommendations made by senior management. The objectives of option grants are to align the long-term interests of executives and key employees with shareholder interest, by creating a strong and direct link between compensation and total shareholder return. In this connection, grants are intended to enable recipients to develop and maintain significant long-term stock ownership in the Company. Stock options are the principal vehicle for the payment of long-term compensation. Grants of stock options reflect subjective consideration of such matters as other compensation and the employee's position in the Company and contributions to the Company.

Compensation of Chief Executive Officer. Mr. Ondis is eligible to participate in the same executive compensation plans available to other senior executives. Effective in August 2001, his base salary was increased from \$247,200 to \$255,000, representing a 3% increase, deemed consistent with salary increases among executives in comparable positions in similar industries. Effective in November 2001, his base salary was decreased from \$255,000 to \$229,500, a 10% decrease, as part of a general cost reduction program. Non-qualified option grants for 62,000 common shares at an exercise price of \$4.31 were made to Mr. Ondis during fiscal year 2002.

Deductibility of Compensation. Section 162(m) of the Internal Revenue Code limits the deductibility of compensation paid to a public company's five highest paid executive officers to the extent any such officer's annual compensation exceeds \$1,000,000, subject to certain exceptions. The Board of Directors has deferred adopting a policy on this issue as it does not expect the compensation of these individuals to reach relevant levels in the near future.

Conclusion. Through the program described above, the Compensation Committee firmly believes a direct link has been established between the Company's financial performance, executive compensation and resultant stock price performance.

Set forth below is a line graph comparing the cumulative total return on the Company's common stock against the cumulative total return of a NASDAQ market index and a peer index for the period of five fiscal years ended January 31, 2002. The University of Chicago's Center for Research in Security Prices (CRSP) total return index for the NASDAQ Stock Market is calculated using all companies which trade on the NASDAQ National Market System (NMS) or on the NASDAQ supplemental listing. Audit Committee Report

The Audit Committee of the Board is responsible for providing independent, objective oversight of the Company's accounting functions and internal controls. The Audit Committee is composed of three directors, each of whom is independent as defined by the National Association of Securities Dealers' listing standards. The Audit Committee operates under a written charter approved by the Board of Directors.

Management is responsible for the Company's internal controls and financial reporting process. The independent accountants are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon. The Audit Committee's responsibility is to monitor and oversee these processes.

The Audit Committee's responsibilities focus on two primary areas: (1) the adequacy of the Company's internal controls and financial reporting process and the reliability of the Company's financial statements; and (2) the independence and performance of the Company's independent accountants.

The Audit Committee has met with management and the Company's independent accountants, Arthur Andersen LLP, to review and discuss the January 31, 2002 financial statements. Management represented to the Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and the independent accountants. The Audit Committee also discussed with the Arthur Andersen LLP the matters required by Statement on Auditing Standards No.61 (Communication with Audit Committees). The Audit Committee also received from Arthur Andersen LLP written disclosures and the letter regarding independence as required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committee) and has discussed with Arthur Andersen LLP that firm's independence.

The Audit Committee received the following information concerning the fees of Arthur Andersen LLP for the year ended January 31, 2002, and has considered whether the provision of these services is compatible with maintaining the independence of the independent accountants:

..	Audit Fees (including review of interim financial statements included in Form 10-Qs).....	\$	119,000
..	Financial Information Systems Design and Implementation Fees.....	\$	0
..	All Other Fees.....	\$	27,000

The Audit Committee has determined that the provision of non-audit services by Arthur Andersen LLP is compatible with maintaining that firm's independence.

Based upon the review and discussions referred to above, we recommended that the Board of Director's include the audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended January 31, 2002, to be filed with the Securities and Exchange Commission.
