(Mark One)

(Amendment No. 2)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2008

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 000-50140

ACL Semiconductors Inc.

(Exact name of Registrant as specified in its charter)

Delaware

16-1642709

State or other jurisdiction of incorporation or organization

(I.R.S. Employer Identification Number)

Room 1701, 17/F., Tower 1, Enterprise Square, 9 Sheung Yuet Road, Kowloon Bay, Kowloon, Hong Kong.

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number including area code: **011-852-2799-1996**

Securities registered pursuant to Section 12(b) of the Act:

Title of each class
Common Stock, \$0.001 par value

Name of each exchange on which registered
Over-the-Counter Bulletin Board

Securities registered pursuant to Section 12(g) of the Act:

NONE

(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files.)

Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K, or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-5 of the Act).

Yes No

The aggregate market value of the voting common equity held by non-affiliates of the registrant as of June 30, 2008 was approximately \$1,427,985 based upon the closing price of \$0.24 of the registrant's common stock on the OTC Bulletin Board. (For purposes of determining this amount, only directors, executive officers, and 10% or greater stockholders have been deemed affiliates).

The number of shares of Registrant's Common Stock outstanding as of April 13, 2009 was 28,729,936.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

EXPLANATORY NOTE

This Amendment No. 2 to ACL Semiconductors, Inc.'s (the Company) Annual Report on Form 10-K/A for the year ended December 31, 2008 is being made principally as a result of the Company's recent determination on March 23, 2010 that Aristo Technologies Limited (Aristo), a related company solely owned by Mr. Chung-Lun Yang, is a variable interest entity under FASB ASC 810-10-25 and is subject to consolidation with the Company.

This Form 10-K/A amends and restates Item 1 of Part I, Item 1A of Part I, Item 7 of Part II, Item 9AT of Part II, Item 10 of Part II, Item 11 of Part II, Item 13 of Part III, Report of Independent Registered Public Accounting Firm, Consolidated Financial Statements and the Notes to Consolidated Financial Statements of Part IV. This amendment also adds a restatement footnote as Note 15 of the Notes to Consolidated Financial Statements of Part IV. No other information included in the original Form 10-K is amended hereby.

For convenience and ease of reference, the Company is filing the Annual Report in its entirety with applicable changes. Unless otherwise stated, all information contained in this amendment is as of April 14, 2009, the filing date of the original Annual Report. Except as stated herein, this Form 10-K/A does not reflect events or transactions occurring after such filing date or modify or update those disclosures in the Annual Report that may have been affected by events or transactions occurring subsequent to such filing date. No information in the Annual Report other than as set forth above is amended hereby. Currently-dated certifications from our Chief Executive Officer and our Chief Financial Officer have been included as exhibits to this amendment.

FORWARD LOOKING STATEMENTS

This Annual Report on Form 10-K and the documents incorporated herein contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. When used in this Annual Report, statements that are not statements of current or historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words plan, intend, may, will, expect, believe, could, anticipate, estimate, or continue or similar expressions or other variations or comparable terminology are intended to identify such forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Except as required by law, the Company undertakes no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

Any reference to ACL, the Company, we, us, our or the Registrant means ACL Semiconductors Inc. and its subsidiaries.

PART I

Item 1. Business
General

ACL Semiconductors Inc. (the Company) was incorporated under the laws of the State of Delaware on September 17, 2002. Our predecessor, Print Data Corp. (Historic Print Data) was incorporated under the laws of the State of Delaware on August 15, 1984 as a business forms distributor and supplier of office and computer environment supply needs.

On September 8, 2003, the Company entered into a Share Exchange and Reorganization Agreement (the Exchange Agreement) with Atlantic Components Limited, a Hong Kong corporation (Atlantic), and Mr. Chung-Lun Yang, the sole beneficial stockholder of Atlantic (Mr. Yang), which set forth the terms and conditions of the exchange by Mr. Yang of his common shares of Atlantic, representing all of the issued and outstanding capital stock of Atlantic, in exchange for the issuance by the Company to Mr. Yang and certain financial advisors of an aggregate of twenty five million (25,000,000) shares of common stock, par value \$0.001 per share (the Common Stock), of the Company (the Transaction). Pursuant to the Exchange Agreement, the Company and Atlantic agreed, inter alia, to elect Mr. Yang and Mr. Ben Wong to the board of directors (Board of Directors) of the Company upon the closing of the Transaction (the Closing), effective as of that date (the Closing Date), at which time, all of the Company's existing directors resigned.

The Closing occurred on September 30, 2003, upon the satisfaction or waiver of the conditions to the Closing set forth in the Exchange Agreement, as a result of which (i) Atlantic became a wholly-owned subsidiary of the Company, (ii) Mr. Yang received an aggregate of 22,380,000 shares of Common Stock, (iii) the Company's existing directors resigned and Mr. Yang and Mr. Wong were appointed to fill their vacancies and became the only members of the Board of Directors, and (iv) certain financial advisors to Atlantic became entitled to receive an aggregate of 2,620,000 shares of Common Stock. Giving effect to the Closing (including required issuances to financial advisors), Mr. Yang held approximately 80.4% of the outstanding Common Stock immediately following the Closing.

On December 16, 2003, the Company filed a Certificate of Amendment with the Secretary of State of the State of Delaware changing its name from Print Data Corp. to ACL Semiconductors Inc.

On March 23, 2010, the Company concluded that Aristo Technologies Limited (Aristo), a related company solely owned by Mr. Yang, is a variable interest entity under FASB ASC 810-10-25 and is therefore subject to consolidation with the Company beginning fiscal year 2007 under the guidance applicable to variable interest entities.

Business

Atlantic is one of the authorized distributors in the Hong Kong and southern region of the People's Republic of China (Southern China) markets of memory products of Samsung Electronics Hong Kong Co., Ltd. (Samsung), a wholly-owned subsidiary of Samsung Electronics Co., Ltd., the world's largest producer of memory chips and a global producer of memory products, pursuant to a distributorship agreement with Samsung (the Distribution Agreement) since 1993. Atlantic was established as a Hong Kong corporation in May 1991 by Mr. Yang as a regional distributor of memory products of various manufacturers. In 1993, Samsung appointed Atlantic as its authorized distributor and marketer of Samsung's memory products in Hong Kong and overseas markets. In 2001, Atlantic established a representative office in Shenzhen, China and began concentrating its distribution and marketing efforts in Southern China.

Since 1993, Atlantic has diversified its product portfolio to include all of Samsung's memory products marketed under the Samsung brand name which comprise Dynamic Random Access Memory (DRAM), Double Data Rate RAM (DDR), Graphic Random Access Memory

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

(Graphic RAM), NAND Flash, NOR Flash, and Multi-Chip Packing (MCP). Atlantic believes it is one of the largest and most successful distributors of Samsung memory products in Hong Kong and Southern China.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

Aristo is engaged in the marketing, selling and servicing of computer products and accessories including semiconductors, LCD products, mass storage devices, consumer electronics, computer peripherals and electronic components. In addition to Samsung-branded products, Aristo sells Hynix, Micro, Elpida, Qimonda, Lexar, Dane-Elec, Elixir, SanDisk and Winbond branded products.

The Company's business objective is to build the best memory solutions platform for electronics manufacturers in the region. It also aims to offer updated market intelligence to Samsung in connection with the Hong Kong and Southern China markets' demand in memory products and secure high-quality Samsung products in order to meet the market demands of individual and corporate users in Hong Kong and Southern China. The Company works closely with Samsung and presents Samsung with updated market information that it collects from retail channels and corporate users to assist Samsung to plan their production and allocation schedule in advance. The Company's business strategy is to assist Samsung in implementing their production planning using market intelligence to balance the supply and demand of memory products in the Hong Kong and Southern China markets. Accordingly, the Company maintains and develops a sales and market research team to answer marketing questions from Samsung on a regular basis. In addition, the Company has established distribution channels covering retail outlets and major corporate users in the region which allows those retail or ultimate customers a secure stable supply of Samsung's memory products with competitive prices. The Company is a non-exclusive distributor of Samsung, and enjoys a minimum guaranteed gross profit margin range of approximately 1.5% to 2% of products sold in form of sales rebate payable by Samsung.

Approximately 80% of the Company's revenues are derived from sales of Samsung memory products. As of December 31, 2008, pricing for the Samsung memory products ranged from approximately \$0.17 to \$750 per product depending on the product specifications.

The Distribution Agreement has a one-year term and contains certain sales quotas to be met by the Company. The Distribution Agreement has been renewed more than ten times, most recently on March 1, 2009. The Company has never failed to meet the sales quotas set forth in the Distribution Agreement.

Products

Synchronous Dynamic Random Access Memory (SDRAMs), or mobile SDRAM, are the most widely used semiconductor memory component in computer peripheral (HDD), Digital Still Camera (DSC), Modems, ADSL Applications, DVD player, Set-top Box (STB), Digital TV, High Definition TV (HDTV) and Portable Multimedia Players (PMP).

DDRs (DDR1, DDR2 and DDR3) are random access memory components that transfer data on both 0-1 and 1-0 clock transitions, theoretically yielding twice the data transfer rate of normal RAM or SDRAM. Currently, the market has been dominated by DDR2 and DDR3, which are also starting to penetrate into the mainstream markets in PCs and graphic cards. The DDR1 is nearly fading out in the market.

Flash memory is a specialized type of memory component used to store user data and program code; it retains this information even when the power is off. Although Flash memory is currently used predominantly in mobile phones and PDAs, it is commonly used in multi-media digital storage applications for products such as MP3 players, DSC, Digital Voice Recorders, USB Disks, Flash Cards, etc. In addition, Solid State Disk hard disks (SSD) will be the next arena that NAND Flash is expected by the Company to penetrate in the marketplace. The SSD hard disk has the potential to dominate the traditional hard disk for notebook markets. Samsung is a major supplier in the world of Flash products. In 2008, Samsung NAND Flash revenue was approximately US\$4,614 million, representing 40.4% of Flash's (NAND + NOR) market share.

Graphic RAM is a special purpose DDR (GDDR1, GDDR2, GDDR3, GDDR4) as graphic products require high-speed 3-dimensional calculation performance and large memory size as data storage buffer for DVD and computer game display. The current GDDR4 currently is the fastest graphic memory in volume production.

The LCD panel is the major component used in most consumer electronics such as LCD TV, notebook, digital phone frame, portable game console, mobile phone, etc.

Mass storage devices such as micro SD card, SD card, and CF card are widely used for digital camera, mobile phone, portable game console, MP3 player, etc.

Industry Background

Memory products are integral parts of a wide variety of consumer products and industry applications including personal computer systems, notebooks, workstations and servers, handheld computer devices, cellular phones, camcorders, MP3 music players, digital answering machines and game boxes, DVD player, STB (set-top box), HDTV and PMP, among others. Market trends, such as increased emphasis on high-throughput applications, including networking, graphics, multimedia, computer, consumer, and telecommunications products, have created opportunities for high performance memory products. At present, NAND Flash, DDR2 and SDRAM are the major memory products and will continue to be sold in the future for Consumer Electronics, PC field and Home Appliance products, and Samsung is among the world's largest developers and manufacturers of those memory products.

Customers

As of December 31, 2008, the Company had over 150 active customers in Hong Kong and Southern China, the majority of whom are memory product traders and PC/Servers OEM manufacturers. Other than the Company's most significant customer who accounted for 43% of the Company's net sales for the year ended December 31, 2008, no other customer accounted for more than 25% of the Company's net sales for 2008 and 2007, respectively. In order to control the Company's credit risks, the Company does not offer any credit terms to its customers other than a small number of clients who have long-established business relationships with the Company.

Sales and Marketing

As of December 31, 2008, the Company employed a total of 24 sales and marketing personnel, each of whom has several years experience in the memory products industry. 11 of these salespeople are stationed in the Company's headquarters in Hong Kong, and 13 of them work out of the Company's China offices. These sales personnel co-operate with key memory product retailers and PC/Servers OEM manufacturers to ensure that clients are supplied promptly with Samsung memory products.

Market Research

The Company invests significant resources in market research for its own account to provide prompt and accurate market intelligence and feedback on a daily, weekly and monthly basis to Samsung in order to assist Samsung's production planning and products allocation functions and thus maintains a close business relationship with Samsung.

Suppliers

As of December 31, 2008, a majority of the distributed products are Samsung memory products. Since 1993, our procurement operations have been supported by Samsung to ensure there are enough supplies of memory products according to our monthly sales quota although there is no written long-term distribution agreement in place with Samsung. Samsung is allocated quantities of its memory products each year based on anticipated demand for such products by the customers of the various distributors of Samsung memory products in Hong Kong and in the PRC. The distributors that are supported by Samsung provide Samsung with their own annual estimates of product demand. In case of unexpected strong demand in the market exceeding our monthly sales quota, there is no assurance that Samsung will be able to supply sufficient memory products to us and other non-exclusive distributors to meet such demand in excess of Samsung's global allocation policy to Samsung. In the event of a supply shortage, the market prices of such memory products will rise and any loss of income attributable to our inability to fulfill all of our orders would be offset by the increase in income as a result of any increase in the market prices of such memory products.

Atlantic relies on Samsung to supply it with memory products for distribution to its clients. Atlantic's relationship with Samsung is primarily maintained through Mr. Yang, the founder of the Company.

In addition to Samsung-branded products, Aristo sells brands such as Hynix, Micro, Elpida, Qimonda, Lexar, Dane-Elec, Elixir, SanDisk and Winbond. Aristo is not an authorized distributor of any of these brands but instead is a trader of a broad range of products and brands in the computer accessories market.

Competition

The memory products industry in the Hong Kong and Southern China markets is very competitive. However, as one of the world's largest memory products manufacturers, Samsung's memory products are competitively priced and have an established reputation for product quality and brand name recognition in the retail and PC/Server OEM & Consumer Electronic segments. The Company, as one of the largest distributors of Samsung's memory products for the Hong Kong and Southern China markets, believes it is in a strong competitive position against other US, European, Japanese and Taiwanese memory products manufacturers and distributors.

Samsung's principal competitors in the Hong Kong and Southern China markets include Hynix and other Taiwanese manufacturers such as Nanya, PSC, Promos, ISSI and ESMT. The Company's principal competitors also include the five other non-exclusive distributors of Samsung memory products in the Hong Kong and Southern China markets. Samsung may, in its sole discretion, increase the number of distributors of its products in Hong Kong and Southern China which would result in increased competition for the Company.

Regulation

As of December 31, 2008, the Company's business operations were not subject to the regulations of any jurisdiction other than the People's Republic of China. Although the Company is not formally authorized to do business in the People's Republic of China, it has been permitted by the Chinese authorities to establish a representative office in Shenzhen, China to carry out liaison works for its customers in Southern China. The Company executes its sales contracts and delivers its products in Hong Kong for its Chinese customers and there have been no restrictions

imposed on the Company by the mainland Chinese authorities with respect to the Company's pursuit of business growth and opportunities in China.

Employees

As of December 31, 2008, the Company had 54 employees. Of the 54 employees, 24 employees are in sales and marketing, 15 employees are in administration, 5 employees are in engineering and 10 employees are in customer service and liaison. None of the Company employees are represented by labor unions.

The Company's primary hiring sources for its employees include referrals from existing employees, print and Internet advertising and direct recruiting. All of the Company's employees are highly skilled and educated and subject to rigorous recruiting standards appropriate for a company involved in the distribution of brand name memory products. The Company attracts talent from numerous sources, including higher learning institutions, colleges and industry. Competition for these employees is intense. The Company believes its relationship with its employees to be good. However, the Company's ability to achieve its financial and operational objectives depends in large part upon its continuing ability to attract, integrate, retain and motivate highly qualified personnel, and upon the continued service of its senior management and key personnel, especially Mr. Yang.

Item 1A. Risk Factors

We are subject to a number of risks. Some of these risks are endemic to the high-technology and semiconductor industry and are the same or similar to those disclosed in our previous SEC filings. This section should be read in conjunction with the consolidated financial statements and the accompanying notes thereto, and Management's Discussion and Analysis of Financial Condition and Results of Operations included in this Annual Report. The risks and uncertainties set out below are not the only risks and uncertainties we face. Our business could be harmed by any of these risks. The trading price of our common stock could decline due to any of these risks and investors may lose all or part of their investment. The information included in this Annual Report is provided as of the filing date with the SEC and future events or circumstances could differ significantly from the forward-looking statements included herein.

The restatement of our financial statements may result in litigation or government enforcement actions. Any such action would likely harm our business, prospects, financial condition and results of operations.

Our management recently concluded that Aristo Technologies Limited (Aristo), a related party, is a variable interest entity under FASB ASC 810-10-25. Consequently, we are consolidating the financial statements of Aristo with those of the Company for the period effective and are restating our previously filed annual and interim financial statements in this amended Form 10-K for the year ended 2008 and in an amended Form 10-K for the year ended 2007 to correct the errors related to accounting for variable interest entities. The financial statements as originally filed for those periods should not be relied upon. The restatement of our financial statements may expose us to risks associated with litigation, regulatory proceedings and government enforcement actions. In addition, securities class action litigation has often been brought against companies who have been unable to provide current public information or who have restated previously filed financial statements. Any of these actions could result in substantial costs, divert management's attention and resources, and harm our business, prospects, financial condition and results of operations.

Failure to maintain effective internal control over financial reporting in accordance with Section 404 of the Sarbanes Oxley Act of 2002 may result in actions filed against us by regulatory agencies or in a reduction in the price of our common stock.

We are required to maintain effective internal control over financial reporting under the Sarbanes Oxley Act of 2002 and related regulations. Any material weakness in our internal control over financial reporting that needs to be addressed, or disclosure of a material weakness in management's assessment of internal control over financial reporting, may reduce the price of our common shares because investors may lose confidence in our financial reporting. Our failure to maintain effective internal control over financial reporting could also lead to actions being filed against us by regulatory agencies. We identified material weaknesses in internal control over financial reporting as more fully discussed in Controls and Procedures at Item 9AT of this Annual Report. Currently, we have plans for certain remediation actions, but they will take time to implement because of their cost. There can be no assurance when remediation will be complete, if at all. Therefore, future reports may have statements indicating that our controls and procedures are not effective. We cannot assure you that even if we remediate our internal control over financial reporting relating to the identified material weaknesses that it will establish the effectiveness of our internal control over financial reporting or that we will not be subject to material weaknesses in the future.

If our relationship with Samsung is terminated, we may not be able to continue operations.

We rely ultimately on Samsung to provide us with memory products for distribution to our clients though with the consent of Samsung, we can purchase the required memory products from other Samsung distributors. Our relationship with Samsung is primarily maintained through our Chairman Mr. Chung-Lun Yang, who has verbally agreed to remain with us. If our relationship with Samsung is terminated or if Mr. Yang terminates his employment with us, we may be unable to replace or retain Samsung on favorable terms.

Although we are not an exclusive distributor of Samsung's memory products, we believe we are the largest Samsung memory products distributor for the Hong Kong and Southern China markets. Although the Distribution Agreement is subject to annual renewal at Samsung's option, we do not foresee, based upon the long-term business relationship with Samsung established by Mr. Yang and our sales history with respect to the distribution of Samsung's memory products, any significant obstacles to obtaining renewals of the Distribution Agreement in the foreseeable future. However, no assurances can be given that Samsung will definitely renew the Distribution Agreement or, if renewed, on terms satisfactory to us.

In addition, Samsung has the right to increase the number of distributors of its memory products in Hong Kong and the Southern China markets without consulting us. If Samsung significantly increases the number of authorized distributors of its memory products, competition among Samsung distributors, would increase and we may not be able to meet our annual sales quota, which could increase the likelihood that Samsung would not renew the Distribution Agreement, or if renewed, that we could operate profitably.

If the growth rate of either memory products sold or the amount of memory used in each product decreases, sales of our products could decrease.

We are dependent on the computer and consumer electronics market as many of the memory products that we distribute are used in PCs or peripheral products. DRAMs are the most widely used semiconductor components in PCs and FLASH products are mostly used in the consumer electronics products. In recent years, the growth rate of PCs sold has slowed or declined. If there is a continued reduction in the growth rate of either PCs sold or the average amount of semiconductor memory included in each PC, sales of our memory products built for those markets could decrease, and our results of operations, cash flows and financial condition could be adversely affected. However, the continued growth of consumer electronics markets over the past several years has favorably affected our operations, cash flow and financial condition.

If Samsung is unable to respond to customer demand for diversified semiconductor memory products or is unable to do so in a cost-effective manner, we may lose market share and our results of operations may be adversely affected.

In recent periods, the semiconductor memory market has become relatively segmented, with diverse memory needs being driven by the different requirements of desktop and notebook PCs, servers, workstations, handheld devices, and communications, industrial and other applications that demand specific memory solutions. Samsung currently offers customers a variety of memory products including DDR, Graphic RAM and Flash.

Samsung needs to dedicate significant resources to product design and development to respond to customer demand for the continued diversification of memory products. If Samsung is unable or unwilling to invest sufficient resources to meet the diverse memory needs of customers, we, as a Samsung memory products' major distributor may lose market share. In addition, as we diversify our product lines, we may encounter difficulties penetrating certain markets, particularly markets where we do not have existing customers. If we are unable to respond to customer demand for market diversification in a cost-effective manner, our results of operations may be adversely affected.

If Samsung's global allocation process results in Samsung not having sufficient supplies of memory products to meet all of our customer orders, this would have a negative impact on our sales and could result in our loss of customers. However, such shortages are infrequent. On the other hand, no assurance can be given that such shortages will not occur in the future.

If Samsung's manufacturing process is disrupted, our results of operations, cash flows and financial condition could be adversely affected.

Samsung manufactures products using highly complex processes that require technologically advanced equipment and continuous modification to improve yields and performance. Difficulties in the manufacturing process can reduce yields or disrupt production. From time to time, we have experienced minor disruptions in product deliveries from Samsung and we may be unable to meet our customers' requirements and they may purchase products from other suppliers. This could result in loss of revenues or affect our customer relationships.

We are heavily dependent upon the electronics industry, and excess capacity or decreased demand for products produced by this industry could result in increased price competition as well as a decrease in our gross margins and unit volume sales.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

Our business is heavily dependent on the electronics industry. A majority of our revenues are generated from the networking, high-end computing and computer peripherals segments of the electronics industry, which is characterized by intense competition, relatively short product life-cycles and significant fluctuations in product demand. Furthermore, these segments are subject to economic cycles, which have occurred in the past and are likely to occur in the future. A recession or any other event leading to excess capacity or a downturn in these segments of the electronics industry could result in intensified price competition, a decrease in our gross margins and unit volume sales and materially affect our business, prospects, financial condition and results of operations.

The memory product industry is highly competitive.

We face intense competition from a number of companies, some of which are large corporations or conglomerates that may have greater resources to withstand downturns in the semiconductor memory market, invest in technology and capitalize on growth opportunities. To the extent Samsung memory products become less competitive, our ability to effectively compete against distributors of other memory products will diminish.

Current economic and political conditions may harm our business.

Global economic conditions and the effects of military or terrorist actions may cause significant disruptions to worldwide commerce. If these disruptions result in delays or cancellations of customer orders, a decrease in corporate spending on information technology or our inability to effectively market, manufacture or ship our products, our results of operations, cash flows and financial condition could be adversely affected. In addition, our ability to raise capital for working capital purposes and ongoing operations is dependent upon ready access to capital markets. During times of adverse global economic and political conditions, accessibility to capital markets could decrease. If we are unable to access the capital markets over an extended period of time, we may be unable to fund operations, which could materially adversely affect our results of operations, cash flows and financial condition.

We believe that we will require additional equity financing to reduce our long-term debts and implement our business plan.

We anticipate that we will require additional equity financing in order to reduce our long-term debts and implement our business plan of increasing sales in the Southern China markets. There can be no assurance that we will be able to obtain the necessary additional capital on a timely basis or on terms acceptable to us. If we obtain such financing, the holders of our Common Stock may experience substantial dilution.

Our major stockholder controls our business, and could delay, deter or prevent a change of control or other business combination.

One shareholder, Mr. Yang, our Chief Executive Officer and Chairman of the Board of Directors, holds approximately 78.9% of our outstanding Common Stock. By virtue of his stock ownership, Mr. Yang will control all matters submitted to our board and our stockholders, including the election of directors, and will be able to exercise control over our business, policies and affairs. Since he has substantial voting power, he could cause us to take actions that we would not otherwise consider, or could delay, deter or prevent a change of control or other business combination that might otherwise be beneficial to our stockholders.

Our stock price has been volatile and may fluctuate in the future.

There has been significant volatility in the market prices for publicly traded shares of computer related companies, including ours. From September 30, 2003, the effective date of the reverse-acquisition of Atlantic, to March 31, 2009, the closing price of our Common Stock fluctuated from a per share high of \$2.95 to a low of \$0.06 per share. The per share price of our Common Stock may not remain at or exceed current levels. The market price for our Common Stock, and for the stock of electronic companies generally, has been highly volatile. The market price of our Common Stock may be affected by: (1) incidental level of demand and supply of the stock; (2) daily trading volume of the stock; (3) number of public stockholders in our stock; (4) fundamental results announced by ACL; and (5) any other unpredictable and uncontrollable factors.

If additional authorized shares of our Common Stock available for issuance or shares eligible for future sale were introduced into the market, it could hurt our stock price.

We are authorized to issue 50,000,000 shares of Common Stock. As of December 31, 2008, there were 28,329,936 shares of our Common Stock issued and outstanding.

Currently, outstanding shares of Common Stock are eligible for resale. We are unable to estimate the amount, timing or nature of future sales of outstanding Common Stock. Sales of substantial amounts of the Common Stock in the public market by these holders or perceptions that such sales may take place may lower the Common Stock's market price.

If penny stock regulations impose restrictions on the marketability of our Common Stock, the ability of our stockholders to sell shares of our stock could be impaired.

The SEC has adopted regulations that generally define a penny stock to be an equity security that has a market price of less than \$5.00 per share or an exercise price of less than \$5.00 per share subject to certain exceptions. Exceptions include equity securities issued by an issuer that has (i) net tangible assets of at least \$2,000,000, if such issuer has been in continuous operation for more than three years, or (ii) net tangible assets of at least \$5,000,000, if such issuer has been in continuous operation for less than three years, or (iii) average revenue of at least \$6,000,000 for the preceding three years. Unless an exception is available, the regulations require that prior to any transaction involving a penny

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

stock, a risk of disclosure schedule must be delivered to the buyer explaining the penny stock market and its risks. Our Common Stock is currently trading at under \$5.00 per share. Although we currently fall under one of the exceptions, if at a later time we fail to meet one of the exceptions, our Common Stock will be considered a penny stock. As such the market liquidity for the Common Stock will be limited to the ability of broker-dealers to sell it in compliance with the above-mentioned disclosure requirements.

You should be aware that, according to the SEC, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. Such patterns include:

Control of the market for the security by one or a few broker-dealers;

Boiler room practices involving high-pressure sales tactics;

Manipulation of prices through prearranged matching of purchases and sales;

The release of misleading information;

Excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and

Dumping of securities by broker-dealers after prices have been manipulated to a desired level, which hurts the price of the stock and causes investors to suffer loss.

We are aware of the abuses that have occurred in the penny stock market. Although we do not expect to be in a position to dictate the behavior of the market or of broker-dealers who participate in the market, we will strive within the confines of practical limitations to prevent such abuses with respect to our Common Stock.

Section 203 of the Delaware General Corporation Law may deter a third party from acquiring us.

Section 203 of the Delaware General Corporation Law prohibits a merger with a 15% shareholder within three years of the date such shareholder acquired 15%, unless the merger meets one of several exceptions. The exceptions include, for example, approval by two-thirds of the shareholders (not counting the 15% shareholder), or approval by the Board prior to the 15% shareholder acquiring its 15% ownership. This provision makes it difficult for a potential acquirer to force a merger with or takeover of the Company, and could thus limit the price that certain investors might be willing to pay in the future for shares of our Common Stock.

Item 1B. Unresolved Staff Comments

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this item.

Item 2. Properties

Our principal offices occupy approximately 4,989 square feet and are located at B24-B27, 1/F., Block B, Proficient Industrial Centre, 6 Wang Kwun Road, Kowloon Bay, Kowloon, Hong Kong, which was acquired from Classic, a related party, on July 21, 2006 (see Item 13 Certain Relationships and Related Transactions). Mr. Ben Wong, one of our directors, is also a director of Classic.

We lease a warehouse unit of approximately 1,846 square feet that is located at B14-15, 1/F., Block B, Proficient Industrial Centre, 6 Wang Kwun Road, Kowloon Bay, Kowloon, Hong Kong. The lease is for two years, from May 23, 2007 to May 22, 2009, from Lin Chin Hsiung with monthly lease payments of HK\$16,800 (approximately US\$2,154).

We lease a warehouse unit of approximately 873 square feet that is located at B9, 1/F., Block B, Proficient Industrial Centre, 6 Wang Kwun Road, Kowloon Bay, Kowloon, Hong Kong. The lease is for two years from Systematic Information Limited expiring on August 31, 2010, with monthly rental payments of HK\$5,000 (approximately US\$641). Mr. Ben Wong, one of our directors, is also a director of Systematic Information Limited.

We lease a warehouse unit of approximately 968 square feet that is located at B10, 1/F., Block B, Proficient Industrial Centre, 6 Wang Kwun Road, Kowloon Bay, Kowloon, Hong Kong. The lease was for two years with Solution Semiconductor (China) Ltd. and expired on March 31, 2009, with monthly rentals of HK\$8,500 (approximately US\$1,090). The lease continues on a month-to-month basis and the Company expects to renew it. Mr. Ben Wong, one of our directors, is also a 99% shareholder of Solution Semiconductor (China) Ltd.

We leased a warehouse unit of approximately 3,000 square feet located at 6/F, Kevin Wong Development Building, 11 Tai Yip Street, Kwun Tong, Kowloon, Hong Kong. The lease was for two years with Kevin Wong Holding Limited and expired on January 24, 2009, with monthly rental payments of HK\$12,800 (approximately US\$1,641).

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

We lease an office unit of approximately 2,682.9 square feet that is located at Room 2208, 22/F., Building A, United Plaza, No.5022 Binhe Road, Futian Centre, Shenzhen, China. The lease is from August 24, 2007 to August 23, 2010 with monthly lease payments of RMB20,122 (approximately US\$2,719).

We own an investment property of approximately 3,000 square feet located at No. 76, 5th Street, Hong Lok Yuen, Tai Po, New Territories, Hong Kong, which is leased to Macdermid Hong Kong Limited from August 1, 2007 to August 31, 2009 with monthly lease income of HK\$58,000 (approximately US\$7,436).

We own a property of approximately 3,000 square feet that is used for Mr. Yang's personal residence and is located at No. 78, 5th Street, Hong Lok Yuen, Tai Po, New Territories, Hong Kong.

In the event that the above facilities become unavailable, we believe that alternative facilities could be obtained on a competitive basis.

Item 3. Legal Proceedings

In the ordinary course of business the Company may be subject to litigation from time to time. There is no past, pending or, to the Company's knowledge, threatened litigation or administrative action (including litigation or action involving the Company's officers, directors or other key personnel) which in the Company's opinion has, had, or is expected to have, a material adverse effect upon its business, prospects, financial condition or operations.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of security holders during the three months ended December 31, 2008.

PART II**Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities**

Quarters ended	High	Low
Quarter ended March 31, 2009

Stock price information has been derived from Yahoo Finance. Such quotations reflect inter-dealer bids, without retail mark-up, mark-down or commissions, and may not reflect actual transactions.

As of April 6, 2009, the last reported sale price of our Common Stock, as reported by the OTC Bulletin Board, was \$0.20 per share.

As of April 6, 2009, there were approximately 209 holders of record of our Common Stock.

Dividend Policy

Since our recapitalization with Atlantic, effective September 30, 2003, we have never paid cash dividends on our Common Stock. We currently anticipate that we will retain all available funds for use in the operation and expansion of our business, and do not anticipate paying any cash dividends in the foreseeable future.

Equity Compensation Plan Information**2006 STOCK OPTION PLAN**

On March 31, 2006, the Board of Directors adopted the 2006 Equity Incentive Stock Plan (the "Plan") and the majority stockholder approved the Plan by written consent. The purpose of the Plan is to provide additional incentive to employees, directors and consultants and to promote the success of the Company's business. The Plan permits the Company to grant both incentive stock options ("Incentive Stock Options" or "ISOs") within the meaning of Section 422 of the Internal Revenue Code (the "Code"), and other options which do not qualify as Incentive Stock Options (the "Non-Qualified Options") and stock awards.

Unless earlier terminated by the Board of Directors, the Plan (but not outstanding options) terminates on March 31, 2016, after which no further awards may be granted under the Plan. The Plan is administered by the full Board of Directors or, at the Board of Director's discretion, by a committee of the Board of Directors consisting of at least two persons who are disinterested persons defined under Rule 16b-2(c)(ii) under the Securities Exchange Act of 1934, as amended (the "Committee").

Recipients of options under the Plan ("Optionees") are selected by the Board of Directors or the Committee. The Board of Directors or Committee determines the terms of each option grant, including (1) the purchase price of shares subject to options, (2) the dates on which options become exercisable and (3) the expiration date of each option (which may not exceed ten years from the date of grant). The minimum per share purchase price of options granted under the Plan for Incentive Stock Options and Non-Qualified Options is the fair market value (as defined in the Plan) on the date the option is granted.

Optionees will have no voting, dividend or other rights as stockholders with respect to shares of Common Stock covered by options prior to becoming the holders of record of such shares. The purchase price upon the exercise of options may be paid in cash, by certified bank or cashier's check, by tendering stock held by the Optionee, as well as by cashless exercise either through the surrender of other shares subject to the option or through a broker. The total number of shares of Common Stock available under the Plan, and the number of shares and per share

exercise price under outstanding options will be appropriately adjusted in the event of any stock dividend, reorganization, merger or recapitalization or similar corporate event.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

The Board of Directors may at any time terminate the Plan or from time to time make such modifications or amendments to the Plan as it may deem advisable and the Board of Directors or Committee may adjust, reduce, cancel and regrant an unexercised option if the fair market value declines below the exercise price except as may be required by any national stock exchange or national market association on which the Common Stock is then listed. In no event may the Board of Directors, without the approval of stockholders, amend the Plan if required by any federal, state, local or foreign laws or regulations or any stock exchange or quotation system on which the Common Stock is listed or quoted and the applicable laws of any other country or jurisdiction where options or stock purchase rights are granted under the Plan.

Subject to limitations set forth in the Plan, the terms of option agreements will be determined by the Board of Directors or Committee, and need not be uniform among Optionees.

As of December 31, 2008, there were no options outstanding under the Plan.

Item 6. Selected Financial Data

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this item.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other portions of this report contain forward-looking information that involve risks and uncertainties. The Company's actual results could differ materially from those anticipated by the forward-looking information. Factors that may cause such differences include, but are not limited to, availability and cost of financial resources, product demand, market acceptance and other factors discussed in this report under the heading Risk Factors. This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with the Company's financial statements and the related notes included elsewhere in this report.

Overview

Corporate Background

We are engaged primarily in the business of distribution of memory products under the Samsung brand name which comprise DRAM, Graphic RAM and Flash for the Hong Kong and Southern China markets.

As of December 31, 2008, we had over 150 active customers in Hong Kong and Southern China.

Depending on the product specifications, pricing for the Samsung memory products range from approximately \$0.17 to \$750. We sell our products in Hong Kong and Southern China and do not anticipate selling our products outside of these regions in the foreseeable future.

For the years ended December 31, 2008 and 2007, the largest 5 customers accounted for 62% and 51% of our net sales, respectively. As of December 31, 2008, we had net current liabilities of \$11,153,759 and an accumulated deficit of \$1,968,298. We generated net sales of \$209,556,926 for the year ended December 31, 2008 and recorded a net loss of \$172,872. In addition, during the year ended December 31, 2008, net cash provided by operating activities amounted to \$2,181,184.

We are in the mature stage of operations and, as a result, the relationships between revenue, cost of revenue, and operating expenses reflected in the financial information included in this document to a large extent represent future expected financial relationships. Much of the cost of sales and operating expenses reflected in our consolidated financial statements are recurring costs in nature.

Plan of Operations

Our business objectives are to offer updated market intelligence to Samsung in connection with the Hong Kong and Southern China markets demand in memory products and secure high-quality Samsung products in order to meet the market demands of individual and corporate users in Hong Kong and Southern China. Each quarter, we work closely with Samsung to present updated market information collected from retail channels and corporate users to assist Samsung to plan their production and allocation schedule six months in advance. Our business strategy is to assist Samsung in implementing their production planning using market intelligence to balance the supply and demand of memory products in the Hong Kong and Southern China markets. Accordingly, we maintain and develop a sales and market research team to answer marketing questions from Samsung on a regular basis. In addition, our established distribution channels covering retail outlets and major corporate users in the region allow those retail or ultimate customers a secure stable supply of Samsung's memory products with competitive prices. We are a non-exclusive distributor of Samsung, and enjoy a minimum guaranteed gross profit margin range of approximately 1.5% to 2% of products sold in form of sales rebate payable by Samsung.

Net sales

Net sales are recognized upon the transfer of legal title of the electronic components to customers. As of December 31, 2008 we had over 150 active customers.

Net sales for fiscal year 2008 were \$209,556,926, which increased by 25.7% or \$42,785,320 compared to fiscal year 2007. The major sales increase came from the first half of 2008 due to expansion in China market share and the reduction in production capacities by Samsung's rival, Hynix, and other memory makers, which led to larger demand for Samsung's products. The net sales for the quarter ended December 31, 2008 (2008 4th Quarter) was \$57,613,777, representing an increase of 7.5% compared to \$53,600,270 for the quarter ended December 31, 2007 (2007 4th Quarter). The sales increase is clearly smaller due to the impacts on market demand, financial support and cash flow due to recent economic conditions. More memory makers such as Qimonda, Elpida and Micron reported strong cutbacks in production capacities to clear up excess supply. With large amounts of supplies pouring into the market, the prices of memory components have dropped significantly. Through the Company's expanded network, sales volume has increased significantly to maintain high sales turnover during recent economic conditions.

The Company's gross profit for fiscal year 2008 was \$4,168,640, representing a 8.6% increase compared to \$3,837,950 for fiscal year 2007. The growth was due to the successful promotional campaign with Samsung in the second quarter and the high demand for consumer electronics from the Olympic Games in the third quarter. The gross profit for 2008 4th Quarter was \$696,623, as compared to \$867,600 for 2007 4th Quarter, representing a 19.7% decrease. The gross profit margin for the Company for 2008 4th Quarter was 1.2%, compared to 1.6% for the corresponding quarter in 2007. The decrease in gross profit margin was mainly due to low unit prices caused by oversupply of products. Even though manufacturers reduced their production capacities, recent economic conditions still have a strong impact on market demand. This has led to inventory consumption problems and caused manufacturers to dump excess inventories at very low prices. Due to slow price adjustments from Samsung, the Company had to bear the difference between the contract prices and market prices, which caused the gross profit margin to decrease. Furthermore, it has also affected the Company's rebate income.

The Company predicts that the demand for memory components will start to increase as supplies decrease due to the reduction in production capacities and as excess inventory levels decrease. The Company forecasts that the unit price of memory components will increase in the first quarter of 2009. Moreover, the Company believes that Samsung will further strengthen its cost competitiveness by increasing its 56nm DRAM market share, and its 35nm and 42nm NAND flash market share. This would greatly increase the Company's gross profit margin. Furthermore, the Company believes that the current situation may present opportunities for Samsung to further increase its market share while the other memory makers are reducing their production capacities or restructuring. The Company believes its sales turnover and gross profit margin will increase by a sufficient amount in 2009.

Cost of Sales

Cost of revenues consists of costs of goods purchased from our principal supplier, Samsung and purchases from other Samsung authorized distributors. Many factors affect our gross margin, including, but not limited to, the volume of production orders placed on behalf of our customers, the competitiveness of the memory products industry and the availability of cheaper Samsung memory products from overseas Samsung distributors due to regional demand and supply situation. Nevertheless, our procurement operations are supported by Samsung, although there is no written long-term supply agreement in place between us and Samsung. Our cost of goods, as a percentage of total revenues, amounted to approximately 98.0% for the year ended December 31, 2008 and approximately 97.7% for the year ended December 31, 2007.

Operating Expenses

Our operating expenses for the years ended December 31, 2008 and 2007 were comprised of sales and marketing, general and administrative expenses.

Selling and marketing expenses consisted primarily of costs associated with transportation and marketing activities.

General and administrative expenses include all corporate and administrative functions that serve to support our current and future operations and provide an infrastructure to support future growth. Major items in this category include management and staff salaries, rent/leases, professional services, and travel and entertainment. We expect these expenses to remain at approximately the same level in 2009. Sales and marketing costs are expected to fluctuate due to the addition of sales personnel and various marketing activities planned throughout the year.

Interest expense, including finance charges, relate primarily to our short-term and long-term bank borrowings.

Critical Accounting Policies

The U.S. Securities and Exchange Commission (SEC) recently issued Financial Reporting Release No. 60, *Cautionary Advice Regarding Disclosure About Critical Accounting Policies* (FRR 60), suggesting companies provide additional disclosure and commentary on their most critical accounting policies. In FRR 60, the SEC defined the most critical accounting policies as the ones that are most important to the portrayal of a company's financial condition and operating results, and require management to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, our most critical accounting policies include: inventory valuation, which affects cost of sales and gross margin; policies for revenue recognition, and allowance for doubtful accounts. The methods, estimates and judgments we use in applying these most critical accounting policies have a significant impact on our results we report in our consolidated financial statements.

Revenue Recognition

The Company derives revenues from resale of computer memory products. The Company recognizes revenue in accordance with the SEC Staff Accounting Bulletin No. 104, *Revenue Recognition* (SAB 104). Under SAB 104, revenue is recognized when there is persuasive evidence of an arrangement, delivery has occurred or services are rendered, the sales price is determinable, and collectability is reasonably assured. Revenue typically is recognized at time of shipment. Sales are recorded net of discounts, rebates, and returns, which historically were not material.

Inventory Valuation

Our policy is to value inventories at the lower of cost or market on a part-by-part basis. This policy requires us to make estimates regarding the market value of our inventories, including an assessment of excess or obsolete inventories. We determine excess and obsolete inventories based on an estimate of the future demand for our products within a specified time horizon, generally 12 months. The estimates we use for demand are also used for near-term capacity planning and inventory purchasing and are consistent with our revenue forecasts. If our demand forecast is greater than our actual demand we may be required to take additional excess inventory charges, which will decrease gross margin and net operating results in the future. In addition, as a result of the downturn in demand for our products, we have excess capacity in our manufacturing facilities. Currently, we are not capitalizing any inventory costs related to this excess capacity as the recoverability of such costs is not certain. The application of this policy adversely affects our gross margin.

Allowance for Doubtful Accounts

We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. Our allowance for doubtful accounts is based on our assessment of the collectability of specific customer accounts, the aging of accounts receivable, our history of bad debts, and the general condition of the industry. If a major customer's credit worthiness deteriorates, or our customers' actual defaults exceed our historical experience, our estimates could change and impact our reported results.

Results of Operations

The following table sets forth audited consolidated statements of operations data for the years ended December 31, 2008 and 2007 and should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations and our financial statements and the related notes appearing elsewhere in this document.

	Year Ended December 31,	
	(US\$)	
	2008 (Restated)	2007 (Restated)
Net sales	\$ 209,556,926	\$ 166,771,606
Cost of sales	(205,388,286)	(162,933,656)
Gross profit	4,168,640	3,837,950
Operating expenses:		
Sales and marketing	(82,285)	(73,508)
General and administrative	(3,315,840)	(3,066,995)

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

Total operating expenses	(3,398,125)	(3,140,503)
Income from operations	770,515	697,447
Other income (expenses)	(977,258)	(230,771)
(Loss) income before income taxes provision	(206,743)	466,676
Income taxes (provision) reversal	33,871	(187,833)
Net (loss) income	(172,872)	278,843

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

Year Ended December 31, 2008 Compared to the Year Ended December 31, 2007

Net Sales

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$ 209,556,926	\$ 166,771,606	25.7%

Sales increased by \$42,785,320 or 25.7% from \$166,771,606 for the year ended December 31, 2007 to \$209,556,926 for the year ended December 31, 2008. The increase was mainly due to expansion in South China market share and the reduction in production capacities by Samsung, resulting in a higher turnover when compared to the year ended December 31, 2007.

Cost of Sales

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$ 205,388,286	\$ 162,933,656	26.1%

Cost of sales increased \$42,454,630 or 26.1%, from \$162,933,656 for the year ended December 31, 2007 to \$205,388,286 for the year ended December 31, 2008. The cost of sales increased in proportion to the increase of net sales and reduction of rebate by Samsung.

Gross Profit

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$ 4,168,640	\$ 3,837,950	8.6%

Gross profit increased by \$330,690 or 8.6% from \$3,837,950 for the year ended December 31, 2007 to \$4,168,640 for the year ended December 31, 2008. The slight increase in gross profit amount is mainly due to the increase in net sales. The gross profit percentage decreased to 2% of revenue for the year ended December 31, 2008 compared to 2.3% of revenue for the year ended December 31, 2007, as a result of recent economic conditions that have had a strong impact on market demand and low unit prices caused by oversupply. We expect the gross profit for the year ended December 31, 2009 to remain at approximately the same level as in the year ended December 31, 2008.

Sales and Marketing

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$ 82,285	\$ 73,508	11.9%

Sales and marketing expenses increased by \$8,777, or 11.9%, from \$73,508 for the year ended December 31, 2007 to \$82,285 for the year ended December 31, 2008. The increase was in proportion to the increase in net sales for the year 2008. We expect the sales and marketing expenses for the year ended December 31, 2009 to remain at approximately the same level as the year ended December 31, 2008.

General and Administrative

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$ 3,315,840	\$ 3,066,995	8.1%

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

General and administrative expenses increased \$248,845 or 8.1% from \$3,066,995 for the year ended December 31, 2007 to \$3,315,840 for the year ended December 31, 2008. This increase was primarily attributable to an increase in Shenzhen office expenses during the year 2008. We intend to continue to keep general and administrative expenses for the year ended December 31, 2009 at approximately the same level as the year ended December 31, 2008.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

Income from Operations

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$ 770,515	\$ 697,447	10.5%

Income from operations was \$770,515 for the year ended December 31, 2008 compared to \$697,447 for the year ended December 31, 2007, an increase of \$73,068. This increase was mainly due to increase in gross profit.

Interest Expense

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$ 1,073,798	\$ 1,009,010	6.4%

Interest expense increased \$64,788, or 6.4%, from interest expense of \$1,009,010 in the year ended December 31, 2007, to \$1,073,798 in the year ended December 31, 2008. This increase was mainly due to an increase in the Company's need to open and draw down on letters of credit to obtain goods from its suppliers. We expect to keep interest expenses for the year ended December 31, 2009 at approximately the same level as in the year ended December 31, 2008.

Unrealized Gains on Pledged Marketable Securities

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$	\$ 404,780	N/A

Unrealized gains on pledged marketable securities decreased by \$404,780 from \$404,780 in the year ended December 31, 2007, to \$0 in the year ended December 31, 2008. This decrease was mainly due to all pledged marketable securities being sold during the year ended December 31, 2008. The profits were reclassified to the loss on disposal of marketable securities.

Loss on Dispositions of Marketable Securities

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$ (227,781)	\$	N/A

Loss on disposal of marketable securities increased by \$227,781, from \$0 in the year ended December 31, 2007 to \$227,781 in the year ended December 31, 2008. This increase was due to sales of marketable securities at profits of \$176,999 during the year end December 31, 2008, adjusted to reflect losses of \$227,781 after deductions of \$404,780 of unrealized gains as recognized revenue in the year ended December 31, 2007.

Net Income on Cash Flow Hedge

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$ 161,288	\$ 64,590	149.7%

Net income on cash flow hedge increased by \$96,698 from \$64,590 in the year ended December 31, 2007 to \$161,288 in the year ended December 31, 2008. This increase was due to the Company entering into more currency hedging contracts through its banks in 2008. Details of

the currency hedging contracts can be found in Note 12 of the Notes to Consolidated Financial Statements.

Interest Income

<u>Year Ended December 31,</u> <u>2008</u>	<u>2007</u>	<u>% Change</u>
\$ 90,706	\$ 169,055	-46.3%

Interest income decreased by \$78,349 from \$169,055 in the year ended December 31, 2007 to \$90,706 in the year ended December 31, 2008 principally as a result of a reduction in interest rates during 2008.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

Income Tax Provision (reversal)

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$ (33,871)	\$ 187,833	-118.0%

Income tax provision decreased by \$221,704 from \$187,833 for the year ended December 31, 2007 compared to income tax credits of \$33,871 for the year ended December 31, 2008. This decrease in income tax provision in 2008 was attributable to a refund for income tax expenses paid in previous years rather than a decrease in net income in 2008 from 2007. The effective tax rate is 0% for 2008 as compared to 40% for 2007.

Net Income

Year Ended December 31, 2008	Year Ended December 31, 2007	% Change
\$ (172,872)	\$ 278,843	-162.0%

Our net income decreased by \$451,715 from \$278,843 for the year ended December 31, 2007 compared to a net loss of \$172,872 for the year ended December 31, 2008. This decrease was mainly due to the decrease in profit margin and other income.

Liquidity and capital resources

Our principal sources of liquidity have been cash from operations, bank lines of credit and credit terms from suppliers. Our principal uses of cash have been for operations and working capital. We anticipate these uses will continue to be our principal uses of cash in the future.

As of December 31, 2008, the Company had revolving lines of credit and loan facilities in the aggregate amount of \$30,943,589, of which \$11,334,309 was available for drawdown as short-term loans repayable within 90 days. Detailed disclosures regarding our outstanding credit facilities are set forth in Notes 4 and 5 of the Notes to Consolidated Financial Statements, including the amounts of the facilities, outstanding balances, interest rates, maturity periods (for long term loans) and pledge of assets.

Our ability to draw down under our various credit and loan facilities is, in each case, subject to the ongoing willingness of the relevant lending institution to make advances thereunder, and security coverage ratios as required from time to time. No assurance can be given that we will continue to have access to these or other lines of credit in the same amount or at all. Subsequent to December 31, 2008, the Company terminated two credit lines with the banks in an aggregate amount of \$2,884,616 or 9.3% of the Company's total credit and loan facilities. In connection therewith, \$1,597,436 of restricted bank deposits which were previously used to secure such lines of credit were released to the Company. As a result of the general tightening of credit markets in Hong Kong and Asia, many lenders have revised the terms of their revolving credit lines to levels the Company did not deem commercially reasonable. Accordingly, on a case by case basis, the Company has elected to terminate or not renew several of its credit facilities resulting in a significant reduction in the Company's available short term borrowings.

To address the reduction in available credit facilities, the Company is relying on its own cash reserves and cash flows from operations to fund its ongoing operations and has tightened the credit terms it extends to its customers. As a result, the Company does not expect that the reduction in available credit facilities is going to have a materially adverse impact upon its operations for the foreseeable future.

The Company intends to continue to seek additional sources of available financing on acceptable terms; however, there can be no assurance that the Company will be able to obtain the necessary additional capital on a timely basis or on acceptable terms, if at all. In addition, if the results are negatively impacted and delayed as a result of political and economic factors beyond management's control, our capital requirements may increase.

The short-term borrowings from banks to finance the cash flow required to finance the purchase of Samsung memory products from Samsung HK must be made a day in advance of the release of goods from Samsung HK's warehouse before receiving payments from customers upon physical delivery of such goods in Hong Kong which, in most instances, take approximately two days from the date of such delivery.

The following factors, among others, could have a negative impact on the Company's results of operations and financial position: the termination or change in terms of the Distributorship Agreement; pricing pressures in the industry; a continued downturn in the economy in general or in the memory products sector; an unexpected decrease in demand for Samsung's memory products; the Company's ability to attract

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

new customers; an increase in competition in the memory products market; and the ability of some of the Company's customers to obtain financing.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We are under no duty to update any of the forward-looking statements after the date of this report to conform them to actual results or to make changes in our expectations.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

Net Cash Provided by Operating Activities

In the year ended December 31, 2008, net cash provided by operating activities amounted to \$2,181,184 while in the year ended December 31, 2007, it amounted to \$7,170,779, a decrease of \$4,989,595. This decrease was primarily due to a \$2,750,961 increase in accounts receivable, which was partially offset by a \$1,127,565 decrease in inventory, and decreases of \$3,411,728 in accounts payable and increase of \$331,679 in accrued expenses.

Net Cash Used for Investing Activities

In the year ended December 31, 2008, net cash used for investing activities amounted to \$2,527,948 while in the year ended December 31, 2007, it amounted to \$12,394,037, a decrease of \$9,866,089. This decrease was primarily due to sales of investments in marketable securities, decrease in amount due to Aristo / Mr. Yang, and no real property acquisition activity during the year 2008.

Net Cash Provided by Financing Activities

In the year ended December 31, 2008, net cash provided by financing activities amounted to \$629,171 while in the year ended December 31, 2007, it amounted to \$5,436,828, a decrease of \$4,807,657. This decrease was due to the Company repayment of certain bank lines of credit and cancellation of bank facilities.

Contractual Obligations

The following table presents our contractual obligations as of December 31, 2008 over the next five years and thereafter:

	Payments by Period				
	Amount	Less Than 1 Year	1-3 Years	4-5 Years	After 5 Years
Operating Leases	78,433	53,333	25,100		
Line of credit and notes payable short-term	16,447,742	16,447,742			
Short term loans	10,016	10,016			
Long term loans	2,613,994	209,114	359,232	257,789	1,787,859
Total Contractual Obligations	\$ 19,150,185	\$ 16,720,205	\$ 384,332	\$ 257,789	\$ 1,787,859

Off-Balance Sheet Arrangements

None.

Related Party Transactions

We conduct business with several affiliated companies. All the related party transactions taking place during the reporting periods were conducted during the normal course of business. The prices of products sold to or purchased from these related entities are in the same price ranges as those offered to other non-related customers or purchased from other vendors.

Dependence of Samsung

We are highly dependent on the product supplies from Samsung. If the relationship with Samsung is terminated, we may not be able to continue our business. We have been taking necessary steps to reduce our dependence on Samsung, including looking into the potential acquisition of a company.

Impact of Inflation

We believe that our results of operations are not dependent upon moderate changes in inflation rates as we expect to be able to pass along component price increases to our customers.

Seasonality

We have not experienced any material seasonality in sales fluctuations over the past 2 years in the memory products markets.

New Accounting Pronouncements

ASC 105, Generally Accepted Accounting Principles (ASC 105) (formerly Statement of Financial Accounting Standards No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162) reorganized by topic existing accounting and reporting guidance issued by the Financial Accounting Standards Board (FASB) into a single source of authoritative generally accepted accounting principles (GAAP) to be applied by nongovernmental entities. All guidance contained in the Accounting Standards Codification (ASC) carries an equal level of authority. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. Accordingly, all other accounting literature will be deemed non-authoritative . ASC 105 is effective on a prospective basis for financial statements issued for interim and annual periods ending after September 15, 2009. The Company has implemented the guidance included in ASC 105 as of July 1, 2009. The implementation of this guidance changed the Company s references to GAAP authoritative guidance but did not impact the Company s financial position or results of operations.

ASC 855, Subsequent Events (ASC 855) (formerly Statement of Financial Accounting Standards No. 165, Subsequent Events) includes guidance that was issued by the FASB in May 2009, and is consistent with current auditing standards in defining a subsequent event. Additionally, the guidance provides for disclosure regarding the existence and timing of a company s evaluation of its subsequent events. ASC 855 defines two types of subsequent events, recognized and non-recognized . Recognized subsequent events provide additional evidence about conditions that existed at the date of the balance sheet and are required to be reflected in the financial statements. Non-recognized subsequent events provide evidence about conditions that did not exist at the date of the balance sheet but arose after that date and, therefore; are not required to be reflected in the financial statements. However, certain non-recognized subsequent events may require disclosure to prevent the financial statements from being misleading. This guidance was effective prospectively for interim or annual financial periods ending after June 15, 2009. The Company implemented the guidance included in ASC 855 as of April 1, 2009. The effect of implementing this guidance was not material to the Company s financial position or results of operations.

ASC 944, Financial Services – Insurance (ASC 944) contains guidance that was previously issued by the FASB in May 2008 as Statement of Financial Accounting Standards No. 163, Accounting for Financial Guarantee Insurance Contracts – an interpretation of FASB Statement No. 60 that provides for changes to both the recognition and measurement of premium revenues and claim liabilities for financial guarantee insurance contracts that do not qualify as a derivative instrument in accordance with ASC 815, Derivatives and Hedging (formerly included under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities). This financial guarantee insurance contract guidance also expands the disclosure requirements related to these contracts to include such items as a company's method of tracking insured financial obligations with credit deterioration, financial information about the insured financial obligations, and management's policies for placing and monitoring the insured financial obligations. ASC 944, as it relates to financial guarantee insurance contracts, was effective for fiscal years beginning after December 15, 2008, except for certain disclosures related to the insured financial obligations, which were effective for the third quarter of 2008. The Company does not have financial guarantee insurance products, and, accordingly, the implementation of this portion of ASC 944 did not have an effect on the Company's results of operations or financial position.

ASC 805, Business Combinations (ASC 805) (formerly included under Statement of Financial Accounting Standards No. 141 (revised 2007), Business Combinations) contains guidance that was issued by the FASB in December 2007. It requires the acquiring entity in a business combination to recognize all assets acquired and liabilities assumed in a transaction at the acquisition-date fair value, with certain exceptions. Additionally, the guidance requires changes to the accounting treatment of acquisition related items, including, among other items, transaction costs, contingent consideration, restructuring costs, indemnification assets and tax benefits. ASC 805 also provides for a substantial number of new disclosure requirements. ASC 805 also contains guidance that was formerly issued as FSP FAS 141(R)-1, Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies which was intended to provide additional guidance clarifying application issues regarding initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in a business combination. ASC 805 was effective for business combinations initiated on or after the first annual reporting period beginning after December 15, 2008. The Company implemented this guidance effective January 1, 2009. Implementing this guidance did not have an effect on the Company's financial position or results of operations; however it will likely have an impact on the Company's accounting for future business combinations, but the effect is dependent upon acquisitions, if any, that are made in the future.

ASC 810, Consolidation (ASC 810) includes new guidance issued by the FASB in December 2007 governing the accounting for and reporting of noncontrolling interests (previously referred to as minority interests). This guidance established reporting requirements which include, among other things, that noncontrolling interests be reflected as a separate component of equity, not as a liability. It also requires that the interests of the parent and the noncontrolling interest be clearly identifiable. Additionally, increases and decreases in a parent's ownership interest that leave control intact shall be reflected as equity transactions, rather than step acquisitions or dilution gains or losses. This guidance also requires changes to the presentation of information in the financial statements and provides for additional disclosure requirements. ASC 810 was effective for fiscal years beginning on or after December 15, 2008. The Company implemented this guidance as of January 1, 2009. The Company is in the process of evaluating ASC 810 and will make necessary changes accordingly.

ASC 825, Financial Instruments (ASC 825) includes guidance which was issued in February 2007 by the FASB and was previously included under Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115. The related sections within ASC 825 permit a company to choose, at specified election dates, to measure at fair value certain eligible financial assets and liabilities that are not currently required to be measured at fair value. The specified election dates include, but are not limited to, the date when an entity first recognizes the item, when an entity enters into a firm commitment or when changes in the financial instrument causes it to no longer qualify for fair value accounting under a different accounting standard. An entity may elect the fair value option for eligible items that exist at the effective date. At that date, the difference between the carrying amounts and the fair values of eligible items for which the fair value option is elected should be recognized as a cumulative effect adjustment to the opening balance of retained earnings. The fair value option may be elected for each entire financial instrument, but need not be applied to all similar instruments. Once the fair value option has been elected, it is irrevocable. Unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings. This guidance was effective as of the beginning of fiscal years that began after November 15, 2007. The Company does not have eligible financial assets and liabilities, and, accordingly, the implementation of ASC 825 did not have an effect on the Company's results of operations or financial position.

ASC 820, Fair Value Measurements and Disclosures (ASC 820) (formerly included under Statement of Financial Accounting Standards No. 157, Fair Value Measurements) includes guidance that was issued by the FASB in September 2006 that created a common definition of fair value to be used throughout generally accepted accounting principles. ASC 820 applies whenever other standards require or permit assets or liabilities to be measured at fair value, with certain exceptions. This guidance established a hierarchy for determining fair value which emphasizes the use of observable market data whenever available. It also required expanded disclosures which include the extent to which assets and liabilities are measured at fair value, the methods and assumptions used to measure fair value and the effect of fair value measures on earnings. ASC 820 also provides additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased. The emphasis of ASC 820 is that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between willing market participants, under current market conditions. ASC 820 also further clarifies the guidance to be considered when determining whether or not a transaction is orderly and clarifies the valuation of securities in markets that are not active. This guidance includes information related to a company's use of judgment, in addition to market information, in certain

circumstances to value assets which have inactive markets.

Fair value guidance in ASC 820 was initially effective for fiscal years beginning after November 15, 2007 and for interim periods within those fiscal years for financial assets and liabilities. The effective date of ASC 820 for all non-recurring fair value measurements of nonfinancial assets and nonfinancial liabilities was fiscal years beginning after November 15, 2008. Guidance related to fair value measurements in an inactive market was effective in October 2008 and guidance related to orderly transactions under current market conditions was effective for interim and annual reporting periods ending after June 15, 2009.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

The Company applied the provisions of ASC 820 to its financial assets and liabilities upon adoption at January 1, 2008 and adopted the remaining provisions relating to certain nonfinancial assets and liabilities on January 1, 2009. The difference between the carrying amounts and fair values of those financial instruments held upon initial adoption, on January 1, 2008, was recognized as a cumulative effect adjustment to the opening balance of retained earnings and was not material to the Company's financial position or results of operations. The Company implemented the guidance related to orderly transactions under current market conditions as of April 1, 2009, which also was not material to the Company's financial position or results of operations.

In August 2009, the FASB issued ASC Update No. 2009-05, Fair Value Measurements and Disclosures (Topic 820): Measuring Liabilities at Fair Value (ASC Update No. 2009-05). This update amends ASC 820, Fair Value Measurements and Disclosures and provides further guidance on measuring the fair value of a liability. The guidance establishes the types of valuation techniques to be used to value a liability when a quoted market price in an active market for the identical liability is not available, such as the use of an identical or similar liability when traded as an asset. The guidance also further clarifies that a quoted price in an active market for the identical liability at the measurement date and the quoted price for the identical liability when traded as an asset in an active market when no adjustments to the quoted price of the asset are required are both Level 1 fair value measurements. If adjustments are required to be applied to the quoted price, it results in a level 2 or 3 fair value measurement. The guidance provided in the update is effective for the first reporting period (including interim periods) beginning after issuance. The Company does not expect that the implementation of ASC Update No. 2009-05 will have a material effect on its financial position or results of operations.

In September 2009, the FASB issued ASC Update No. 2009-12, Fair Value Measurements and Disclosures (Topic 820): Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent) (ASC Update No. 2009-12). This update sets forth guidance on using the net asset value per share provided by an investee to estimate the fair value of an alternative investment. Specifically, the update permits a reporting entity to measure the fair value of this type of investment on the basis of the net asset value per share of the investment (or its equivalent) if all or substantially all of the underlying investments used in the calculation of the net asset value is consistent with ASC 820. The update also requires additional disclosures by each major category of investment, including, but not limited to, fair value of underlying investments in the major category, significant investment strategies, redemption restrictions, and unfunded commitments related to investments in the major category. The amendments in this update are effective for interim and annual periods ending after December 15, 2009 with early application permitted. The Company does not expect that the implementation of ASC Update No. 2009-12 will have a material effect on its financial position or results of operations.

In June 2009, FASB issued Statement of Financial Accounting Standards No. 167, Amendments to FASB Interpretation No. 46(R) (Statement No. 167). Statement No. 167 amends FASB Interpretation No. 46R, Consolidation of Variable Interest Entities an interpretation of ARB No. 51 (FIN 46R) to require an analysis to determine whether a company has a controlling financial interest in a variable interest entity. This analysis identifies the primary beneficiary of a variable interest entity as the enterprise that has a) the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and b) the obligation to absorb losses of the entity that could potentially be significant to the variable interest entity or the right to receive benefits from the entity that could potentially be significant to the variable interest entity. The statement requires an ongoing assessment of whether a company is the primary beneficiary of a variable interest entity when the holders of the entity, as a group, lose power, through voting or similar rights, to direct the actions that most significantly affect the entity's economic performance. This statement also enhances disclosures about a company's involvement in variable interest entities. Statement No. 167 is effective as of the beginning of the first annual reporting period that begins after November 15, 2009. Although Statement No. 167 has not been incorporated into the Codification, in accordance with ASC 105, the standard shall remain authoritative until it is integrated. The Company is in the process of evaluating Statement No. 167 and will make necessary change if required.

In June 2009, the FASB issued Statement of Financial Accounting Standards No. 166, Accounting for Transfers of Financial Assets an amendment of FASB Statement No. 140 (Statement No. 166). Statement No. 166 revises FASB Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Extinguishment of Liabilities a replacement of FASB Statement 125 (Statement No. 140) and requires additional disclosures about transfers of financial assets, including securitization transactions, and any continuing exposure to the risks related to transferred financial assets. It also eliminates the concept of a qualifying special-purpose entity, changes the requirements for derecognizing financial assets, and enhances disclosure requirements. Statement No. 166 is effective prospectively, for annual periods beginning after November 15, 2009, and interim and annual periods thereafter. Although Statement No. 166 has not been incorporated into the Codification, in accordance with ASC 105, the standard shall remain authoritative until it is integrated. The Company does not expect the adoption of Statement No. 166 will have a material impact on its financial position or results of operations.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information required under this item.

Item 8. Financial Statements and Supplementary Data

Attached hereto and filed as a part of this Annual Report on Form 10-K are our Consolidated Financial Statements, beginning on page F-1.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9AT. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission (SEC) rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate, to allow timely decisions regarding required disclosure.

Management Report on Internal Control over Financial Reporting

In connection with the preparation of this Form 10-K, we carried out an evaluation under the supervision and with the participation of our management, including the CEO and CFO, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. This evaluation was retrospective and conducted as of December 31, 2008, the last day of the fiscal year covered by this Form 10-K. Based upon that evaluation, our CEO and CFO have concluded that our disclosure controls and procedures were not effective as of December 31, 2008 because we have not completed the remediation discussed elsewhere in this Item 9AT of our Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

Our management has concluded that there are material weaknesses in our internal controls over financial reporting. These weaknesses include:

Company-level controls. We did not maintain effective company-level controls as defined in the Internal Control Integrated Framework published by COSO. These deficiencies related to each of the five components of internal control as defined by COSO (control environment, risk assessment, control activities, information and communication, and monitoring). These deficiencies resulted in more than a remote likelihood that a material misstatement of our annual or interim financial statements would not be prevented or detected. Specifically,

Our control environment did not sufficiently promote effective internal control over financial reporting throughout our organizational structure, and this material weakness was a contributing factor to the other material weaknesses described in this Item 9AT;

Our board of directors has not established adequate financial reporting monitoring activities to mitigate the risk of management override, specifically:

none of our board of directors is independent;

no financial expert on our board of directors has been designated;

no formally documented financial analysis is presented to our board of directors, specifically fluctuation, variance, trend analysis or business performance reviews;

an effective whistleblower program has not been established;

there is insufficient oversight of external audit specifically related to fees, scope of activities, executive sessions, and monitoring of results;

there is insufficient oversight of accounting principle implementation;

there is insufficient review of related party transactions; and

there is insufficient review of recording of stock transactions.

We have not maintained sufficient competent evidence to support the effective operation of our internal controls over financial reporting, specifically related to our board of directors' oversight of quarterly and annual SEC filings; and management's review of SEC filings, journal entries, account analyses and reconciliations, and critical spreadsheet controls;

We had inadequate risk assessment controls, including inadequate mechanisms for anticipating and identifying financial reporting risks; and for reacting to changes in the operating environment that could have a material effect on financial reporting;

There was inadequate communication from management to employees regarding the general importance of controls and employees duties and control responsibilities;

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

We had inadequate monitoring controls, including inadequate staffing and procedures to ensure periodic evaluations of internal controls to ensure that appropriate personnel regularly obtain evidence that controls are functioning effectively and that identified control deficiencies are remediated timely;

We had an inadequate number of trained finance and accounting personnel with appropriate expertise in U.S. generally accepted accounting principles. Accordingly, in certain circumstances, an effective secondary review of technical accounting matters was not performed;

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

We had inadequate controls over our management information systems related to program changes, segregation of duties, and access controls;

We had inadequate access and change controls over end-user computing spreadsheets. Specifically, our controls over the completeness, accuracy, validity and restricted access and review of certain spreadsheets used in the period-end financial statement preparation and reporting process were not designed appropriately or did not operate as designed; and

We were unable to assess effectiveness of our internal control over financial reporting in a timely matter.

Financial statement preparation and review procedures. We had inadequate policies, procedures and personnel to ensure that accurate, reliable interim and annual consolidated financial statements were prepared and reviewed on a timely basis. Specifically, we had insufficient: a) levels of supporting documentation; b) review and supervision within the accounting and finance departments; c) preparation and review of footnote disclosures accompanying our financial statements; and d) technical accounting resources. These deficiencies resulted in errors in the financial statements and more than a remote likelihood that a material misstatement of our annual or interim financial statements would not be prevented or detected. In addition, as discussed in Note 2 in Notes to the Consolidated Financial Statements of this Form 10-K, we recently determined that Aristo Technologies Limited (Aristo), a related party, is a variable interest entity under FASB ASC 810-10-25. Consequently, we are consolidating the financial statements of Aristo with those of the Company for the period effective and are restating our previously filed annual and interim financial statements in this amended Form 10-K for the year ended 2008 and in amended Form 10-K for year ended 2007 to reflect the disclosure in accordance with ASC 810-10-25.

Inadequate reviews of account reconciliations, analyses and journal entries. We had inadequate review procedures over account reconciliations, account and transaction analyses, and journal entries. Specifically, deficiencies were noted in the following areas: a) management review of supporting documentation, calculations and assumptions used to prepare the financial statements, including spreadsheets and account analyses; and b) management review of journal entries recorded during the financial statement preparation process. These deficiencies resulted in a more than a remote likelihood that a material misstatement of our annual or interim financial statements would not be prevented or detected.

Inadequate controls over purchases and disbursements. We had inadequate controls over the segregation of duties and authorization of purchases, and the disbursement of funds. These weaknesses increase the likelihood that misappropriation of assets and/or unauthorized purchases and disbursements could occur and not be detected in a timely manner. These deficiencies resulted in errors in the financial statements and in more than a remote likelihood that a material misstatement of our annual or interim financial statements would not be prevented or detected. Specifically,

We had inadequate procedures and controls to ensure proper segregation of duties within our purchasing and disbursements processes and accounting systems;

We had inadequate procedures and controls to ensure proper authorization of purchase orders; and

We had inadequate approvals for payment of invoices and wire transfers.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the SEC that permit us to provide only management's report in this annual report.

As of December 31, 2008, we had not completed the remediation of any of these material weaknesses. In addition, although we are including our management report in this Annual Report on Form 10K/A, our failure to file a management report for the periods ended December 31, 2008 and December 31, 2007 in a timely manner renders our disclosure controls and procedures ineffective.

We are addressing the outstanding material weaknesses described above, as well as our control environment. We also expect to undertake the following remediation efforts:

We plan to evaluate the composition of our board of directors and to determine whether to add independent directors or to replace an inside director with an independent director, in both cases, in order to have a majority of our board of directors become independent;

We plan on drafting quarterly financial statement variance analysis of actual versus budget with relevant explanations of variances for distribution to our board of directors.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

We are in the process of developing, documenting, and communicating a formal whistleblower program to employees. We expect to post the policy on the Company web site in the governance section and in the common areas in the office. We plan on providing a toll free number for reporting complaints and will hire a specific third party whistleblower company to monitor the hotline and provide monthly reports of activity to our board of directors.

Management intends to continue to provide SEC and US GAAP training for employees and retain external consultants with appropriate SEC and US GAAP expertise to assist in financial statement review, account analysis review, review and filing of SEC reports, policy and procedure compilation assistance, and other related advisory services.

We intend on developing an internal control over financial reporting evidence policy and procedures which contemplates, among other items, a listing of all identified key internal controls over financial reporting, assignment of responsibility to process owners within the Company, communication of such listing to all applicable personnel, and specific policies and procedures around the nature and retention of evidence of the operation of controls.

We intend on undertaking a restricted access review to analyze all financial modules and the list of persons authorized to have edit access to each. We will remove or add authorized personnel as appropriate to mitigate the risks of management or other override; and

We plan to re-assign roles and responsibilities in order to improve segregation of duties.

These specific actions are part of an overall program that we are currently developing in an effort to remediate the material weaknesses described above.

Attached as exhibits to this report are certifications of our CEO and CFO, which are required in accordance with Rule 13a-14 of Securities Exchange Act of 1934, as amended. The discussion above in this Item 9AT includes information concerning the controls and controls evaluation referred to in the certifications and those certifications should be read in conjunction with this Item 9AT for a more complete understanding of the topics presented.

We are committed to improving our internal control processes and will continue to diligently review our internal control over financial reporting and our disclosure controls and procedures. The failure to implement adequate controls may result in deficient and inaccurate reports under the Exchange Act.

Changes in Internal Control over Financial Reporting

Except as described above, there have been no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth quarter ended December 31, 2008 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. Other Information

None.

PART III**Item 10. Directors, Executive Officers and Corporate Governance**
Directors and Executive Officers

Our directors and executive officers, as of December 31, 2008, and their biographical information are set forth below:

NAME	AGE	POSITION
Chung-Lun Yang	47	Chairman of the Board of Directors and Chief Executive Officer
Ben Wong	45	Director
Kenneth Lap-Yin Chan	46	Chief Financial Officer

Chung-Lun Yang, Chairman of the Board and Chief Executive Officer. Mr. Yang became a Director on September 30, 2003. Mr. Yang is the founder of Atlantic and has been a director of Atlantic since 1991. Mr. Yang graduated from The Hong Kong Polytechnic in 1982 with a degree in electronic engineering. From October 1982 until April 1985, he was the sales engineer of Karin Electronics Supplies Ltd. From June 1986 until September 1991, he was Director of Sales (Samsung Components Distribution) of Evertech Holdings Limited, a Hong Kong based company. Mr. Yang has over 15 years' extensive experience in the electronics distribution business. The breadth of Mr. Yang's sales and operational experience led the Board of Directors to believe this individual is qualified to serve as a director of the Company. Mr. Yang is also a member of The Institution of Electrical Engineers, United Kingdom.

Ben Wong, Director. Mr. Wong became a Director on September 30, 2003. Since 1992, Mr. Wong has been the vice-president of Atlantic and is responsible for the purchasing, sales and marketing of Atlantic's products. The breadth of Mr. Wong's sales experience led the Board of Directors to believe this individual is qualified to serve as a director of the Company. Mr. Wong graduated from the Chinese Culture University of Taiwan in 1986 with a Bachelor's Degree of Science in Mechanical Engineering.

Kenneth Lap-Yin Chan, Chief Financial Officer. Mr. Chan was appointed our Chief Financial Officer effective September 30, 2003. Mr. Chan has been with Atlantic since 2001 serving as Financial Controller. From 1998 to 2001, Mr. Chan worked for Standard Chartered Bank. Prior to September 2001, Mr. Chan worked for a number of other banks in Hong Kong, including Dao Heng Bank and Asia Commercial Bank. He has more than 12 years of experience in corporate and commercial finance. Mr. Chan graduated from the University of Toronto in 1986 with a Bachelor's Degree in Commerce.

Each director holds office (subject to our By-Laws) until the next annual meeting of shareholders and until such director's successor has been elected and qualified. All of our executive officers are serving until the next annual meeting of directors and until their successors have been duly elected and qualified. There are no family relationships between any of our directors and executive officers.

There have been no events under any bankruptcy act, no criminal proceedings and no judgments, orders or decrees material to the evaluation of the ability and integrity of any director or executive officer of the Company during the past five years.

Board Meetings

During the fiscal year ended December 31, 2008, our Board of Directors held 4 meetings. No director who served during the fiscal year ended December 31, 2008 attended fewer than 75% of the meetings of the Board of Directors during that year.

Committees of the Board

Our Board of Directors does not have a separate Compensation Committee, Audit Committee or Nominating Committee. All of the members of our Board of Directors are acting as our audit committee. None of the members of our Board of Directors is deemed an audit committee financial expert. We are in the process of recruiting an appropriate candidate to be our audit committee financial expert. Our Board of Directors plans to expand the number of members on the board and create an independent Compensation Committee, Audit Committee and a Nominating Committee.

Board Leadership Structure and Risk Oversight Role

Our Chief Executive Officer also serves as Chairman of our Board of Directors and we do not presently maintain a Lead Independent Director. We believe that such a leadership structure is suitable for the Company at its present stage of development, and that the interests of the Company are best served by the combination of the roles of Chairman of the Board and Chief Executive Officer.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

As a matter of regular practice, and as part of its oversight function, our Board of Directors undertakes a review of the significant risks in respect of our business. Such review is supplemented as necessary by outside professionals with expertise in substantive areas germane to our business. With our current governance structure, our Board of Directors and senior executives are the same individuals, and consequently, there is not a significant division of oversight and operational responsibilities in managing the material risks facing the Company.

Code of Business Conduct and Ethics

We have adopted a written code of business conduct and ethics, known as our Code of Business Conduct and Ethics which applies to all of our directors, officers, and employees, including our principal executive officer and our principal financial and accounting officer. A copy of the Code of Business Conduct and Ethics is attached as Exhibit 14 to the Annual Report on Form 10-K for the period ended December 31, 2003. To receive a copy of our Code of Business Conduct and Ethics, at no cost, requests should be directed to the Secretary, ACL Semiconductor, Inc., Room 1701, 17/F., Tower 1, Enterprise Square, 9 Sheung Yuet Road, Kowloon Bay, Kowloon, Hong Kong. We intend to disclose any amendment to, or waiver of, a provision of the Code of Business Conduct and Ethics in a report filed under the Securities Exchange Act of 1934, as amended, within four business days of the amendment or waiver.

Stockholder Communications

Stockholders and other interested parties may contact the Board of Directors or the non-management directors as a group at the following address: Board of Directors or Outside Directors, ACL Semiconductor, Inc., Room 1701, 17/F., Tower 1, Enterprise Square, 9 Sheung Yuet Road, Kowloon Bay, Kowloon, Hong Kong. All communications received at the above address will be relayed to the Board of Directors or the non-management directors, respectively. Communications regarding accounting, internal accounting controls or auditing matters may also be reported to the Board of Directors using the above address.

Typically, we do not forward to our directors communications from our stockholders or other communications which are of a personal nature or not related to the duties and responsibilities of the Board, including:

Junk mail and mass mailings

New product suggestions

Resumes and other forms of job inquiries

Opinion surveys and polls

Business solicitations or advertisements

Compliance with Section 16(A) of The Securities Exchange Act of 1934

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors and executive officers and persons who own more than ten percent of a registered class of our equity securities (collectively, Reporting Person) to file with the SEC initial reports of ownership and reports of changes in ownership of our Common Stock and other equity securities of the Company. Reporting Persons are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms that they file. To our knowledge, based solely on a review of the copies of such reports furnished to us, we believe that during fiscal year ended December 31, 2008 all Reporting Persons complied with all applicable filing requirements.

Item 11. Executive Compensation

COMPENSATION DISCUSSION AND ANALYSIS

Summary

Our approach to executive compensation is influenced by our belief in rewarding people for consistently strong execution and performance. We believe that the ability to attract and retain qualified executive officers and other key employees is essential to our long term success.

Our plan to obtain and retain highly skilled employees is to provide significant market competitive salaries and also incentive awards. Our approach is to link individual employee objectives with overall company strategies and results, and to reward executive officers and significant employees for their individual contributions to those strategies and results. We use compensation and performance data from comparable companies in the electronics distribution industry to establish market competitive compensation and performance standards for our employees. Furthermore, we believe that equity awards serve to align the interests of our executives with those of our stockholders. As such, we intend for equity to become a key component of our compensation program.

Named Executive Officers

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

The named executive officers for the fiscal year ended December 31, 2008 are Chung-Lun Yang, our Chief Executive Officer, and Kenneth Lap-Yin Chan, our Chief Financial Officer. These individuals are referred to collectively in this Annual Report on Form 10-K/A as the Named Executive Officers.

OUR EXECUTIVE COMPENSATION PROGRAM

Overview

The primary elements of our executive compensation program are base salary, incentive cash and stock bonus opportunities and equity incentives typically in the form of stock option grants. Although we provide other types of compensation, these three elements are the principal means by which we may provide the Named Executive Officers with compensation opportunities.

ELEMENTS OF OUR EXECUTIVE COMPENSATION PROGRAM

Base Salary

We pay a base salary to our Named Executive Officers. In general, base salaries for the Named Executive Officers are determined by evaluating the responsibilities of the executive's position, the executive's experience and the competitive marketplace. Base salary adjustments are considered and take into account changes in the executive's responsibilities, the executive's performance and changes in the competitive marketplace. We believe that the base salaries of the Named Executive Officers are appropriate within the context of the compensation elements provided to the executives and because they are at a level which remains competitive in the marketplace.

Bonuses

The Board of Directors may authorize us to give discretionary bonuses, payable in cash or shares of Common Stock, to the Named Executive Officers and other key employees. Such bonuses are designed to motivate the Named Executive Officers and other employees to achieve specified corporate, business unit and/or individual, strategic, operational and other performance objectives.

Stock Options

Stock options constitute performance-based compensation because they have value to the recipient only if the price of our Common Stock increases. We have not granted any stock options to any of our Named Executive Officers and the grant of stock options to Named Executive Officers is not a material factor in making compensation determinations with respect to our Named Executive Officers. However, we have in the past used stock options as incentives for our other employees. Stock options generally vest over time, obtainment of a corporate goal or a combination. The grant of stock options is designed to motivate our employees to achieve our short term and long term corporate goals.

Retirement and Deferred Compensation Benefits

We do not have any arrangements with the Named Executive Officers to provide them with retirement and/or deferred compensation benefits.

Perquisites

There were no perquisites provided to the Named Executive Officers.

Post-Termination/Change of Control Compensation

We do not have any arrangements with the Named Executive Officers to provide them with compensation following termination of employment.

Tax Implications of Executive Compensation

Our aggregate deductions for each Named Executive Officer compensation are potentially limited by Section 162(m) of the Internal Revenue Code to the extent the aggregate amount paid to an executive officer exceeds \$1 million, unless it is paid under a predetermined objective performance plan meeting certain requirements, or satisfies one of various other exceptions specified in the Internal Revenue Code. At our 2008 Named Executive Officer compensation levels, we did not believe that Section 162(m) of the Internal Revenue Code would be applicable, and accordingly, we did not consider its impact in determining compensation levels for our Named Executive Officers in 2008.

Hedging Policy

We do not permit the Named Executive Officers to hedge ownership by engaging in short sales or trading in any options contracts involving our securities.

Option Exercises and Stock Vested

No options have been exercised by our Named Executive Officers during the fiscal year ended December 31, 2008.

Pension Benefits

Under the Mandatory Provident Fund (MPF) Scheme Ordinance in Hong Kong, the Company is required to set up or participate in an MPF scheme to which both the Company and employees must make continuous contributions throughout their employment based on 5% of the employees' earnings, subject to maximum and minimum level of income. For those earning less than the minimum level of income, they are not required to contribute but may elect to do so. However, regardless of the employees' election, their employers must contribute 5% of the employees' income. Contributions in excess of the maximum level of income are voluntary. All contributions to the MPF scheme are fully and immediately vested with the employees' accounts. The contributions must be invested and accumulated until the employees' retirement.

Nonqualified Deferred Compensation

We do not have any defined contribution or other plan that provides for the deferral of compensation on a basis that is not tax-qualified.

Employment Agreements

We have not entered into any employment agreements with any of our Named Executive Officers.

Executive Officer Compensation

The following table sets forth the annual and long-term compensation of our Named Executive Officers for services in all capacities to the Company for the last two fiscal years ended December 31, 2008 and December 31, 2007.

Summary Compensation Table

Name and Principal Position	Year	Salary (\$)	Bonus (\$)	Stock Awards (\$)	Option Awards (\$)	Non-Equity Incentive Plan Compensation (\$)	Change in Pension Value and Nonqualified Deferred Compensation Earnings (\$)	All Other Compensation (1) (\$)	Total (\$)
Chung-Lun Yang, Chief Executive Officer and Chairman of the Board	2008	\$ 735,026							\$ 735,026
	2007	\$ 812,821						\$ 17,521	\$ 830,342
Kenneth Lap Yin Chan, Chief Financial Officer	2008	\$ 64,615							\$ 64,615
	2007	\$ 72,435							\$ 72,435

(1) Mr. Yang's other annual compensation includes rent and housing allowance in the amount of \$0 for the year ended December 31, 2008 and \$17,521 for the year ended December 31, 2007.

Outstanding equity awards at fiscal year-end

None.

Compensation of Directors

Except with respect to Ben Wong who was paid fees of \$64,615 during the year ended December 31, 2008 for his role as Sales Director of Atlantic, none of our directors who served during the year ended December 31, 2008 received compensation for serving as such, other than reimbursement for out of pocket expenses incurred in attending director meetings.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth certain information regarding beneficial ownership of our Common Stock as of December 31, 2008: (i) by each person who is known by us to own beneficially more than 5% of the Common Stock, (ii) by each of our directors, (iii) by each of our executive officers and (iv) by all our directors and executive officers as a group. On such date, we had 28,329,936 shares of Common Stock outstanding.

As used in the table below, the term beneficial ownership with respect to a security consists of sole or shared voting power, including the power to vote or direct the vote, and/or sole or shared investment power, including the power to dispose or direct the disposition, with respect to the security through any contract, arrangement, understanding, relationship, or otherwise, including a right to acquire such power(s) during the 60 days immediately following December 31, 2008. Except as otherwise indicated, the stockholders listed in the table have sole voting and investment powers with respect to the shares indicated

Name and Address of	Shares of Common Stock	Percentage of Class
Beneficial Owner	Beneficially Owned	Beneficially Owned(1)
Chung-Lun Yang (2) (3) No. 78, 5th Street, Hong Lok Yuen, Tai Po, New Territories, Hong Kong	22,380,000	78.9%
Ben Wong (3) 19B, Tower 8, Bellagio, 33 Castle Peak Road, Sham Tseng, New Territories, Hong Kong	0	0.0%
Kenneth Lap-Yin Chan (2) Flat B, 8/F., Block 19, South Horizons, Aplei Chau, Hong Kong	0	0.0%
All Directors and Officers as a Group	22,380,000	78.9%

(1) Applicable percentage of ownership is based on 28,329,936 shares of Common Stock outstanding as of December 31, 2008, together with securities exercisable or convertible into shares of Common Stock within 60 days of December 31, 2008, for each stockholder. Beneficial ownership is determined in accordance with the rules of the United States Securities and Exchange Commission and generally includes voting or investment power with respect to securities. Shares of Common Stock subject to securities exercisable or convertible into shares of Common Stock that are currently exercisable or exercisable within 60 days of December 31, 2008, are deemed to be beneficially owned by the person holding such securities for the purpose of computing the percentage of ownership of such person, but are not treated as outstanding for the purpose of computing the percentage ownership of any other person. The Common Stock is the only outstanding class of equity securities of the Company.

(2) Executive Officer

(3) Director Except as otherwise set forth, information on the stock ownership of these persons was provided to us by such persons.

Item 13. Certain Relationships and Related Transactions, and Director Independence

All related person transactions are reviewed and, as appropriate, may be approved or ratified by the Board of Directors. Related person transactions are approved by the Board of Directors only if, based on all of the facts and circumstances, they are in, or not inconsistent with, our best interests and our stockholders, as the Board of Directors determines in good faith. The Board of Directors takes into account, among other factors it deems appropriate, whether the transaction is on terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the related person's interest in the transaction. The Board of Directors may also impose such conditions as it deems necessary and appropriate on us or the related person in connection with the transaction.

In the case of a transaction presented to the Board of Directors for ratification, the Board of Directors may ratify the transaction or determine whether rescission of the transaction is appropriate.

CERTAIN RELATED PERSON TRANSACTIONS

Transactions with Aristo Technologies Limited / Mr. Yang

As of December 31, 2008 and 2007, we had an outstanding receivable from Mr. Yang, the President and Chairman of our Board of Directors, totaling \$7,900,404 and \$6,057,488 respectively. These advances bear no interest and are payable on demand. The receivable due from Mr. Yang to the Company is derived from the consolidation of the financial statements of Aristo, a variable interest entity, with the Company. A repayment plan has been entered into (see Note 14 to consolidated financial statements).

For the years ended December 31, 2008 and 2007, we recorded compensation to Mr. Yang of \$735,026 and \$812,821 respectively, and paid \$735,026 and \$812,821 respectively to Mr. Yang as compensation to him.

During each of the years ended December 31, 2008 and 2007, we paid rent of \$0 and \$17,521 respectively for Mr. Yang's personal residence as fringe benefits to him. All such payments have been recorded as compensation expense in the accompanying financial statements.

Transactions with Classic Electronic Limited

Mr. Ben Wong, one of our directors, is a 99.9% shareholder of Classic Electronic Ltd. (Classic). The remaining 0.1% of Classic is owned by a non-related party. During the years ended December 31, 2008 and 2007, we sold products for \$0 and \$366,840 respectively, to Classic. As of December 31, 2008 and 2007, the Company had outstanding accounts receivable from Classic totaling \$1,717,320 and \$1,717,859 respectively. This account receivable has been outstanding for more than 12 months.

Classic has historically met its payment obligations to the Company and the Company has no reason to believe that Classic's receivables are not collectible. Pursuant to a written personal guarantee agreement, Mr. Yang has personally guaranteed up to \$10.0 million of the outstanding accounts receivable from Classic. The Company has received verbal assurances from Mr. Yang of his intent and ability to perform under the above-referenced guarantee and based on information provided by Mr. Yang, his net worth is approximately \$17 million. In addition, as discussed in Note 14 to Consolidated Financial Statements, the Company has entered into a payment plan with Classic, and the amount due from Classic had been settled.

Transactions with Solution Semiconductor (China) Limited

Mr. Ben Wong, one of our directors, is a 99% shareholder of Solution Semiconductor (China) Ltd. (Solution). The remaining 1% of Solution is owned by a non-related party. On April 1, 2007, we entered into a lease agreement with Solution pursuant to which we lease one facility. The lease agreement for this facility expires on March 31, 2009. The monthly lease payment for this lease is \$1,090. We incurred and paid an aggregate rent expense of \$13,077 and \$12,385 to Solution during the years ended December 31, 2008 and 2007.

Two facilities located in Hong Kong owned by Solution were used by the Company as collateral for loans from Citic Ka Wah Bank Limited (Citic) and Standard Chartered Bank (Hong Kong) Limited (SCB) respectively.

Transactions with Systematic Information Limited

Mr. Yang, the Company's Chief Executive Officer, majority shareholder and a director, is a director and shareholder of Systematic Information Ltd. (Systematic Information) with a total of 100% interest. On September 1, 2008, we entered into a lease agreement with Systematic Information pursuant to which we lease one facility. The lease agreement for this facility expires on August 31, 2010. The monthly lease

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

payment for this lease totals \$641. We incurred and paid an aggregate rent expense of \$7,692 and \$7,692 to Systematic Information during the years ended December 31, 2008 and 2007.

During the years ended December 31, 2008 and 2007, we received service charges of \$0 and \$11,538 respectively from Systematic Information. The service fee was charged for back office support for Systematic Information.

During the years ended December 31, 2008 and 2007, we sold products for \$1,913,071 and \$666,742 respectively, to Systematic Information. As of December 31, 2008 and 2007, there were no outstanding accounts receivables from Systematic Information.

During the years ended December 31, 2008 and 2007, we purchased inventories of \$1,446,680 and \$1,523,238 respectively from Systematic Information. As of December 31, 2008 and 2007, there were no outstanding accounts payable to Systematic Information.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

On April 1, 2005, we entered into a lease agreement with Systematic Information pursuant to which we lease one residential property for Mr. Yang's personal use for a monthly lease payment of \$3,205. Upon expiration of the lease on June 15, 2007, ACL acquired this residential property from Systematic Information. We incurred and paid an aggregate rent expense of \$0 and \$17,521 to Systematic Information during the years ended December 31, 2008 and 2007.

A workshop located in Hong Kong owned by Systematic Information was used by the Company as collateral for loans from SCB.

Transactions with Global Mega Development Limited

Mr. Yang, the Company's Chief Executive Officer, majority shareholder and a director, is the sole beneficial owner of the equity interest of Global Mega Development Ltd. (Global). During the years ended December 31, 2008 and 2007, we received management fees of \$0 and \$5,769 respectively from Global. As of December 31, 2008 and 2007, there were no outstanding accounts receivables from Global. The management fees were charged for back office support for Global.

During the years ended December 31, 2008 and 2007, we sold products for \$0 and \$25,337 respectively, to Global. As of December 31, 2008 and 2007, there were no outstanding accounts receivables from Global.

During the years ended December 31, 2008 and 2007, we purchased inventories of \$2,323 and \$18,294 respectively from Global. As of December 31, 2008 and 2007, there were no outstanding accounts payable to Global.

Transactions with Intelligent Network Technology Limited

Mr. Yang the Company's Chief Executive Officer, majority shareholder and a director, is a director and 80% shareholder of Intelligent Network Technology Ltd. (Intelligent). The remaining 20% of Intelligent is owned by a non-related party. During the years ended December 31, 2008 and 2007, we purchased inventories of \$0 and \$1,343,501 respectively from Intelligent. As of December 31, 2008 and 2007, there were no outstanding accounts payable to Intelligent.

Transactions with Systematic Semiconductor Limited

Mr. Yang, the Company's Chief Executive Officer, majority shareholder and a director, is the sole beneficial owner of the equity interest of Systematic Semiconductor Ltd. (Systematic). During the years ended December 31, 2008 and 2007, we received a management fee of \$15,384 and \$16,026 respectively from Systematic. The management fee was charged for back office support for Systematic.

During the years ended December 31, 2008 and 2007, we sold products for \$275,766 and \$779,879 respectively, to Systematic. As of December 31, 2008 and 2007, there were no outstanding accounts receivables from Systematic.

During the years ended December 31, 2008 and 2007, we purchased inventories of \$560,750 and \$1,007,352 respectively from Systematic. As of December 31, 2008 and 2007, there were no outstanding accounts payable to Systematic.

Transactions with Aristo Components Limited

Mr. Ben Wong, one of our directors, is a 90% shareholder of Aristo Components Ltd. (Aristo Comp). The remaining 10% of Aristo Comp is owned by a non-related party. During the years ended December 31, 2008 and 2007, we received a management fee of \$8,077 and \$0 respectively from Aristo Comp. The management fee was charged for back office support for Aristo Comp.

During the years ended December 31, 2008 and 2007, we sold products for \$67,968 and \$349,327 respectively, to Aristo Comp. As of December 31, 2008 and 2007, there were no outstanding accounts receivables from Aristo Comp.

During the years ended December 31, 2008 and 2007, we purchased inventories of \$37,665 and \$0 respectively, from Aristo Comp. As of December 31, 2008 and 2007, there were no outstanding accounts payable to Aristo Comp.

Transactions with Atlantic Storage Devices Limited

Mr. Yang, the Company's Chief Executive Officer, majority shareholder and a director, is a 40% shareholder of Atlantic Storage Devices Ltd. (Atlantic Storage). The remaining 60% of Atlantic Storage is owned by a non-related party. During the years ended December 31, 2008 and 2007, we sold products for \$575,386 and \$1,471,471 respectively, to Atlantic Storage. As of December 31, 2008 and 2007, there were no outstanding accounts receivables from Atlantic Storage.

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

During the years ended December 31, 2008 and 2007, we purchased inventories of \$679,048 and \$581,444 respectively, from Atlantic Storage. As of December 31, 2008 and 2007, there were no outstanding accounts payable to Atlantic Storage.

Transactions with Rambo Technologies Limited

Mr. Ben Wong, one of our directors, is a 60% shareholder of Rambo Technologies Ltd. (Rambo). The remaining 40% of Rambo is owned by a non-related party. During the years ended December 31, 2008 and 2007, we sold products for \$1,077,653 and \$2,574,096 respectively, to Rambo. As of December 31, 2008 and 2007, there were no outstanding accounts receivables from Rambo.

During the years ended December 31, 2008 and 2007, we purchased inventories of \$10,314 and \$0 respectively, from Rambo. As of December 31, 2008 and 2007, there were no outstanding accounts payable to Rambo

Transactions with Usmart Electronic Products Limited

Mr. Yang, the Company's Chief Executive Officer, majority shareholder and a director, is the sole beneficial owner of the equity interest of Usmart Electronic Products Ltd. (Usmart). During the years ended December 31, 2008 and 2007, we sold products for \$5,509 and \$703,683 respectively, to Usmart. As of December 31, 2008 and 2007, there were no outstanding accounts receivables from Usmart.

During the years ended December 31, 2008 and 2007, we purchased inventories of \$199,712 and \$736,888 respectively, from Usmart. As of December 31, 2008 and 2007, there were no outstanding accounts payable to Usmart.

Transactions with Imax Technology Limited

Mr. Yang, the Company's Chief Executive Officer, majority shareholder and a director, is the sole beneficial owner of the equity interest of Imax Technology Ltd. (Imax). During the years ended December 31, 2008 and 2007, we sold products of \$0 and \$51,060 respectively, to Imax. As of December 31, 2008 and 2007, there were no outstanding accounts receivables from Imax.

During the years ended December 31, 2008 and 2007, we purchased inventories of \$3,167 and \$0 respectively, from Imax. As of December 31, 2008 and 2007, there were no outstanding accounts payable to Imax.

Transactions with Kadatco Co Limited

Mr. Yang, the Company's Chief Executive Officer, majority shareholder and a director, is a 99.99% shareholder of Kadatco Co Ltd. (Kadatco). The remaining 0.01% of Kadatco is owned by a non-related party. During the years ended December 31, 2008 and 2007, we sold products for \$0 and \$518,040 respectively, to Kadatco. As of December 31, 2008 and 2007, there were no outstanding accounts receivables from Kadatco.

Transactions with City Royal Limited

Mr. Yang, the Company's Chief Executive Officer, majority shareholder and a director, is a 50% shareholder of City Royal Limited (City). The remaining 50% of City is owned by the wife of Mr. Yang. A residential property located in Hong Kong owned by City was used by the Company as collateral for loans from DBS Bank (Hong Kong) Limited (DBS Bank).

Item 14. Principal Accounting Fees and Services

The following table presents fees, including reimbursements for expenses, for professional audit services rendered by JTC Fair Song CPA Firm for the audits of our annual financial statements and interim reviews of our quarterly financial statements for the years ended December 31, 2008 and December 31, 2007 and fees billed for other services rendered by JTC Fair Song CPA Firm during those periods.

	Fiscal 2008	Fiscal 2007
Audit Fees (1)	\$ 35,000	\$ 35,000
Audit Related Fees (2)	\$	\$
Tax Fees (3)	\$	\$
All Other Fees (4)	\$	\$
Total	\$ 35,000	\$ 35,000

- (1) Audit Fees consist of fees billed for professional services rendered for the audit of the Company's consolidated annual financial statements and review of the interim consolidated financial statements included in quarterly reports and services that are normally provided by JTC Fair Song CPA Firm in connection with statutory and regulatory filings or engagements.
- (2) Audit-Related Fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under Audit Fees. There were no such fees in fiscal year 2008 or 2007.
- (3) Tax Fees consist of fees billed for professional services rendered for tax compliance, tax advice and tax planning. There were no such fees in fiscal year 2008 or 2007.

- (4) All Other Fees consist of fees for products and services other than the services reported above. There were no such fees in fiscal year 2008 or 2007.

To: The board of directors and stockholders of

ACL Semiconductors Inc. (the Company)

Report of Independent Registered Public Accounting Firm

We have audited the accompanying balance sheets of the Company as of December 31, 2008 and 2007 and the related statements of income, stockholders' equity and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2008 and 2007 and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 13 to the consolidated financial statements, the Company does have numerous significant transactions with businesses and affiliates controlled by, and/or with personnel who are related to, the officers and directors of the Company.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2008 AND 2007
(Stated in US Dollars)

Note 1. ORGANIZATION AND PRINCIPAL ACTIVITY

Organization and Basis of Presentation

On September 8, 2003, ACL Semiconductors Inc. (formerly Print Data Corp.) (ACL) entered into a Share Exchange and Reorganization Agreement with Atlantic Components Ltd. (Atlantic), a Hong Kong based company, and Mr. Chung-Lun Yang (Mr. Yang), the then sole beneficial stockholder of Atlantic. Under the terms of the agreement, ACL issued 22,380,000 of its shares to Mr. Chung-Lun Yang and 2,620,000 of its shares to certain financial advisors in exchange for 100% of the issued and outstanding shares of Atlantic s capital stock. The Company recorded an expense of \$2,753,620 related to the issuance of 2,620,000 shares of its common stock to these advisors, which was computed based on the quoted market price of \$1.05 on September 30, 2003, the effective date of the merger and was classified as merger cost in the accompanying consolidated statements of operations for the year ended December 31, 2003.

The share exchange agreement closed and became effective on September 30, 2003. Upon the completion of this transaction, Atlantic became the wholly owned subsidiary of ACL, and Mr. Yang became the owner of approximately 80% of ACL s issued and outstanding shares of common stock. In addition, ACL s directors and officers resigned and were replaced by directors and officers of Atlantic. For accounting purposes, the acquisition was accounted for as a reverse-acquisition, whereby Atlantic was deemed to have acquired ACL. Because the acquisition was accounted for as a purchase of ACL, the historical financial statements of Atlantic became the historical financial statements of ACL after this transaction.

In connection with this transaction, ACL entered into a Conveyance Agreement on September 30, 2003 with New Print Data Corp. (NewCo). Under the terms of this agreement, effective September 30, 2003, ACL conveyed its historic operations of providing supplies used in a computer or office environment to NewCo, by assigning all of the assets and liabilities related to such operations to NewCo which accepted the assignment and assumed all such liabilities in exchange for 1,000,000 shares of common stock of NewCo.

On October 1, 2003, Print Data Corp. entered into a Securities Purchase Agreement with the holders of Print Data Corp. s Series A Preferred Stock. Under the terms of this agreement, Print Data Corp. sold its 1,000,000 shares of NewCo common stock in exchange for the cancellation of the issued and outstanding 500,400 shares of ACL s Series A Preferred Stock (representing 100% of Print Data Corp. s issued and outstanding preferred stock previously held by three preferred stockholders).

On December 16, 2003, Print Data Corp. filed a Certificate of Amendment with the Secretary of State of the State of Delaware changing its name from Print Data Corp. to ACL Semiconductors Inc.

Business Activity

ACL Semiconductors Inc. (Company or ACL) was incorporated in the State of Delaware on September 17, 2002. Through a reverse-acquisition of Atlantic Components Ltd., a Hong Kong based company, effective September 30, 2003, the Company s principal activities are distribution of electronic components under the Samsung brand name which comprise DRAM and graphic RAM, Flash, SRAM and MASK ROM for the Hong Kong and Southern China markets. Atlantic Components Ltd., its wholly owned subsidiary, was incorporated in Hong Kong on May 30, 1991 with limited liability. On October 2, 2003, the Company set up a wholly-owned subsidiary, Alpha Perform Technology Limited (Alpha), a British Virgin Islands company, to provide services on behalf of the Company in jurisdictions outside of Hong Kong. Effective January 1, 2004, the Company ceased the operations of Alpha and all the related activities are consolidated with those of Atlantic.

ACL SEMICONDUCTORS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2008 AND 2007
(Stated in US Dollars)**Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***(a) Method of Accounting*

The Company maintains its general ledger and journals with the accrual method accounting for financial reporting purposes. The consolidated financial statements and notes are representations of management. Accounting policies adopted by the Company conform to generally accepted accounting principles in the United States of America and have been consistently applied in the presentation of consolidated financial statements.

(b) Principles of Consolidation

The consolidated financial statements are presented in US Dollars and include the accounts of the Company and its subsidiary. All significant inter-company balances and transactions are eliminated in consolidation.

The Company owned its subsidiary soon after its inception and continued to own the equity interests through December 31, 2008. The following table depicts the identity of the subsidiary:

<i>Name of subsidiary</i>	<i>Place of Incorporation</i>	<i>Attributable equity Interest%</i>	<i>Registered Capital</i>
Alpha Perform Technology Limited	BVI	100	\$ 1,000
Atlantic Components Ltd	Hong Kong	100	\$384,615
*Aristo Technologies Limited	Hong Kong	100	\$ 1,282

*Note: Deemed variable interest entity

Variable Interests Entities

According to ASC 810-10-25 which codified FASB Interpretation No. 46 (Revised December 2003), Consolidation of Variable Interest Entities an interpretation of ARB No. 51 (FIN 46R), an entity that has one or more of the three characteristics set forth therein is considered a variable interest entity. One of such characteristics is that the equity investment at risk in the relevant entity is not sufficient to permit the entity to finance its activities without additional subordinated financial support provided by any parties, including the equity holders. Based on a review of the equity investment at risk, the Company concluded that Aristo Technologies Limited (Aristo) is a variable interest entity and is therefore subject to consolidation with the Company under the guidance applicable to variable interest entities.

Aristo Technologies Limited

Aristo is engaged in the marketing, selling and servicing of computer products and accessories including semiconductors, LCD products, mass storage devices, consumer electronics, computer peripherals and electronic components for various brands such as Samsung, Hynix, Micro, Elpida, Qimonda, Lexar, Dane-Elec, Elixir, SanDisk and Winbond.

The Company sells to Aristo in order to fulfill Aristo's periodic need for Samsung memory products based on prevailing market prices, which products Aristo, in turn, sells to its customers. For fiscal year 2008, sales to Aristo were \$9,076,034 with accounts receivable of \$6,695,409 as of December 31, 2008. For fiscal year 2007, sales to Aristo were \$17,165,728 with accounts receivable of \$6,237,905 as of December 31, 2007.

The Company purchases from Aristo, from time to time, LCD panels, Samsung memory chips, DRAM, Flash memory, central processing units, external hard disks, DVD readers and writers from Aristo that the Company cannot obtain from Samsung directly due to supply limitations.

ACL SEMICONDUCTORS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2008 AND 2007
(Stated in US Dollars)

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Use of estimates

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Management makes these estimates using the best information available at the time the estimates are made; however actual results could differ materially from those estimates.

(d) Economic and political risks

The Company's operation is conducted in Hong Kong. Accordingly, the Company's business, financial condition and results of operations may be influenced by the political, economic and legal environment in Hong Kong, and by the general state of Hong Kong economy.

The Company's operations in Hong Kong are subject to special considerations and significant risks not typically associated with companies in North America and Western Europe. These include risks associated with, among others, the political, economic and legal environment and foreign currency exchange. The Company's results may be adversely affected by changes in the political and social conditions in Hong Kong, and by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion, remittances abroad, and rates and methods of taxation, among other things.

(e) Property, plant and equipment

Plant and equipment are carried at cost less accumulated depreciation. Depreciation is provided over their estimated useful lives, using the straight-line method. Estimated useful lives of the plant and equipment are as follows:

Automobiles	3 1/3 years
Computers	5 years
Leasehold improvement	5 years
Land and buildings	By estimated useful life
Office equipment	5 years

The cost and related accumulated depreciation of assets sold or otherwise retired are eliminated from the accounts and any gain or loss is included in the statement of income.

(f) Account receivable

Accounts receivable is carried at the net invoiced value charged to customer. The Company records an allowance for doubtful accounts to cover estimated credit losses. Management reviews and adjusts this allowance periodically based on historical experience and its evaluation of the collectability of outstanding accounts receivable. The Company evaluates the credit risk of its customers utilizing historical data and estimates of future performance.

(g) Accounting for impairment of long-lived assets

The Company periodically evaluates the carrying value of long-lived assets to be held and used, including intangible assets subject to amortization, when events and circumstances warrant such a review, pursuant to the guidelines established in ASC No. 360 (formerly Statement of Financial Accounting Standards No. 144). The carrying value of a long-lived asset is considered impaired when the anticipated undiscounted cash flow from such asset is separately identifiable and is less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair market value of the long-lived asset. Fair market value is determined primarily using the anticipated cash flows discounted at a rate

Edgar Filing: ACL SEMICONDUCTOR INC - Form 10-K/A

commensurate with the risk involved. Losses on long-lived assets to be disposed of are determined in a similar manner, except that fair market values are reduced for the cost to dispose.

During the reporting years, there was no impairment loss.

F-11

ACL SEMICONDUCTORS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2008 AND 2007
(Stated in US Dollars)

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(h) Cash and cash equivalents

The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents. The Company maintains bank accounts in Hong Kong. The Company does not maintain any bank accounts in the United States of America.

(i) Inventories

Inventories are stated at the lower of cost or market and are comprised of purchased computer technology resale products. Cost is determined using the first-in, first-out method. The reserve for obsolescence was decreased by \$190,000 for 2008 and increased by \$323,077 for 2007. Inventory obsolescence reserves were \$374,103 and \$564,103 as of December 31, 2008 and 2007, respectively.

(j) Lease assets

Leases that substantially transfer all the benefits and risks of ownership of assets to the company are accounted for as capital leases. At the inception of a capital lease, the asset is recorded together with its long term obligation (excluding interest element) to reflect the purchase and the financing.

Leases which do not transfer substantially all the risks and rewards of ownership to the Company are classified as operating leases. Payments made under operating leases are charged to the income statement in equal installments over the accounting periods covered by the lease term. Lease incentives received are recognized in the income statement as an integral part of the aggregate net lease payments made. Contingent rentals are charged to income statement in the accounting period which they are incurred.

(k) Income taxes

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets, including tax loss and credit carry forwards, and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred income tax expense represents the change during the period in the deferred tax assets and deferred tax liabilities. The components of the deferred tax assets and liabilities are individually classified as current and non-current based on their characteristics. Realization of the deferred tax asset is dependent on generating sufficient taxable income in future years. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

(l) Foreign currency translation

The accompanying consolidated financial statements are presented in United States dollars. The functional currency of the Company is the Hong Kong Dollar (HK\$). The consolidated financial statements are translated into United States dollars from HK\$US\$1.00=HKD7.80, a fixed exchange rate maintained between Hong Kong and United States.

(m) Revenue recognition

The Company derives revenues from resale of computer memory products. The Company recognizes revenue in accordance with the SEC Staff Accounting Bulletin No. 104, Revenue Recognition (SAB 104). Under SAB 104, revenue is recognized when there is persuasive evidence of an arrangement, delivery has occurred or services are rendered, the sales price is determinable, and collectability is reasonably assured. Revenue typically is recognized at time of shipment. Sales are recorded net of discounts, rebates, and returns, which historically were not material.

(n) Advertising

The Company expensed all advertising costs as incurred. Advertising expenses included in selling expenses were \$7,118 and \$7,937 for the years ended December 31, 2008 and 2007, respectively.

F-12

ACL SEMICONDUCTORS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2008 AND 2007
(Stated in US Dollars)

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(o) Segment reporting

The Company's sales are generated from Hong Kong and the rest of China and substantially all of its assets are located in Hong Kong.

(p) Fair value of financial instruments

The carrying amount of the Company's cash and cash equivalents, accounts receivable, lines of credit, convertible debt, accounts payable, accrued expenses, and long-term debt approximates their estimated fair values due to the short-term maturities of those financial instruments.

(q) Comprehensive income

Comprehensive income is defined to include all changes in equity except those resulting from investments by owners and distributions to owners. Among other disclosures, all items that are required to be recognized under current accounting standards as components of comprehensive income are required to be reported in a financial statement that is presented with the same prominence as other consolidated financial statements. The Company has no items that represent other comprehensive income and, therefore, has not included a schedule of comprehensive income in the consolidated financial statements.

(r) Basic and diluted earnings (loss) per share

In accordance with ASC No. 260 (formerly SFAS No. 128), Earnings Per Share, the basic earnings (loss) per common share is computed by dividing net earnings (loss) available to common stockholders by the weighted average number of common shares outstanding. Diluted earnings (loss) per common share is computed similarly to basic earnings (loss) per common share, except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive.

(s) Reclassification

Certain amounts in the prior year have been reclassified to conform to the current year's presentation.

(t) Recently implemented standards

ASC 105, Generally Accepted Accounting Principles (ASC 105) (formerly Statement of Financial Accounting Standards No. 168, The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162) reorganized by topic existing accounting and reporting guidance issued by the Financial Accounting Standards Board (FASB) into a single source of authoritative generally accepted accounting principles (GAAP) to be applied by nongovernmental entities. All guidance contained in the Accounting Standards Codification (ASC) carries an equal level of authority. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. Accordingly, all other accounting literature will be deemed non-authoritative. ASC 105 is effective on a prospective basis for financial statements issued for interim and annual periods ending after September 15, 2009. The Company has implemented the guidance included in ASC 105 as of July 1, 2009. The implementation of this guidance changed the Company's references to GAAP authoritative guidance but did not impact the Company's financial position or results of operations.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2008 AND 2007

(Stated in US Dollars)

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Recently implemented standards

ASC 855, Subsequent Events (ASC 855) (formerly Statement of Financial Accounting Standards No. 165, Subsequent Events) includes guidance that was issued by the FASB in May 2009, and is consistent with current auditing standards in defining a subsequent event. Additionally, the guidance provides for disclosure regarding the existence and timing of a company's evaluation of its subsequent events. ASC 855 defines two types of subsequent events, recognized and non-recognized. Recognized subsequent events provide additional evidence about conditions that existed at the date of the balance sheet and are required to be reflected in the financial statements. Non-recognized subsequent events provide evidence about conditions that did not exist at the date of the balance sheet but arose after that date and, therefore; are not required to be reflected in the financial statements. However, certain non-recognized subsequent events may require disclosure to prevent the financial statements from being misleading. This guidance was effective prospectively for interim or annual financial periods ending after June 15, 2009. The Company implemented the guidance included in ASC 855 as of April 1, 2009. The effect of implementing this guidance was not material to the Company's financial position or results of operations.

ASC 944, Financial Services - Insurance (ASC 944) contains guidance that was previously issued by the FASB in May 2008 as Statement of Financial Accounting Standards No. 163, Accounting for Financial Guarantee Insurance Contracts - an interpretation of FASB Statement No. 60 that provides for changes to both the recognition and measurement of premium revenues and claim liabilities for financial guarantee insurance contracts that do not qualify as a derivative instrument in accordance with ASC 815, Derivatives and Hedging (formerly included under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities). This financial guarantee insurance contract guidance also expands the disclosure requirements related to these contracts to include such items as a company's method of tracking insured financial obligations with credit deterioration, financial information about the insured financial obligations, and management's policies for placing and monitoring the insured financial obligations. ASC 944, as it relates to financial guarantee insurance contracts, was effective for fiscal years beginning after December 15, 2008, except for certain disclosures related to the insured financial obligations, which were effective for the third quarter of 2008. The Company does not have financial guarantee insurance products, and, accordingly, the implementation of this portion of ASC 944 did not have an effect on the Company's results of operations or financial position.

ASC 805, Business Combinations (ASC 805) (formerly included under Statement of Financial Accounting Standards No. 141 (revised 2007), Business Combinations) contains guidance that was issued by the FASB in December 2007. It requires the acquiring entity in a business combination to recognize all assets acquired and liabilities assumed in a transaction at the acquisition-date fair value, with certain exceptions. Additionally, the guidance requires changes to the accounting treatment of acquisition related items, including, among other items, transaction costs, contingent consideration, restructuring costs, indemnification assets and tax benefits. ASC 805 also provides for a substantial number of new disclosure requirements. ASC 805 also contains guidance that was formerly issued as FSP FAS 141(R)-1, Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies which was intended to provide additional guidance clarifying application issues regarding initial recognition and measurement, subsequent measurement and accounting, and disclosure of assets and liabilities arising from contingencies in a business combination. ASC 805 was effective for business combinations initiated on or after the first annual reporting period beginning after December 15, 2008. The Company implemented this guidance effective January 1, 2009. Implementing this guidance did not have an effect on the Company's financial position or results of operations; however it will likely have an impact on the Company's accounting for future business combinations, but the effect is dependent upon acquisitions, if any, that are made in the future.

ACL SEMICONDUCTORS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2008 AND 2007

(Stated in US Dollars)

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Recently implemented standards

ASC 810, Consolidation (ASC 810) includes new guidance issued by the FASB in December 2007 governing the accounting for and reporting of noncontrolling interests (previously referred to as minority interests). This guidance established reporting requirements which include, among other things, that noncontrolling interests be reflected as a separate component of equity, not as a liability. It also requires that the interests of the parent and the noncontrolling interest be clearly identifiable. Additionally, increases and decreases in a parent's ownership interest that leave control intact shall be reflected as equity transactions, rather than step acquisitions or dilution gains or losses. This guidance also requires changes to the presentation of information in the financial statements and provides for additional disclosure requirements. ASC 810 was effective for fiscal years beginning on or after December 15, 2008. The Company implemented this guidance as of January 1, 2009. The Company is in the process of evaluating ASC 810 and will make necessary changes accordingly.

ASC 825, Financial Instruments (ASC 825) includes guidance which was issued in February 2007 by the FASB and was previously included under Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115. The related sections within ASC 825 permit a company to choose, at specified election dates, to measure at fair value certain eligible financial assets and liabilities that are not currently required to be measured at fair value. The specified election dates include, but are not limited to, the date when an entity first recognizes the item, when an entity enters into a firm commitment or when changes in the financial instrument causes it to no longer qualify for fair value accounting under a different accounting standard. An entity may elect the fair value option for eligible items that exist at the effective date. At that date, the difference between the carrying amounts and the fair values of eligible items for which the fair value option is elected should be recognized as a cumulative effect adjustment to the opening balance of retained earnings. The fair value option may be elected for each entire financial instrument, but need not be applied to all similar instruments. Once the fair value option has been elected, it is irrevocable. Unrealized gains and losses on items for which the fair value option has been elected will be reported in earnings. This guidance was effective as of the beginning of fiscal years that began after November 15, 2007. The Company does not have eligible financial assets and liabilities, and, accordingly, the implementation of ASC 825 did not have an effect on the Company's results of operations or financial position.

ASC 820, Fair Value Measurements and Disclosures (ASC 820) (formerly included under Statement of Financial Accounting Standards No. 157, Fair Value Measurements) includes guidance that was issued by the FASB in September 2006 that created a common definition of fair value to be used throughout generally accepted accounting principles. ASC 820 applies whenever other standards require or permit assets or liabilities to be measured at fair value, with certain exceptions. This guidance established a hierarchy for determining fair value which emphasizes the use of observable market data whenever available. It also required expanded disclosures which include the extent to which assets and liabilities are measured at fair value, the methods and assumptions used to measure fair value and the effect of fair value measures on earnings. ASC 820 also provides additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased. The emphasis of ASC 820 is that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between willing market participants, under current market conditions. ASC 820 also further clarifies the guidance to be considered when determining whether or not a transaction is orderly and clarifies the valuation of securities in markets that are not active. This guidance includes information related to a company's use of judgment, in addition to market information, in certain circumstances to value assets which have inactive markets.

Fair value guidance in ASC 820 was initially effective for fiscal years beginning after November 15, 2007 and for interim periods within those fiscal years for financial assets and liabilities. The effective date of ASC 820 for all non-recurring fair value measurements of nonfinancial assets and nonfinancial liabilities was fiscal years beginning after November 15, 2008. Guidance related to fair value measurements in an inactive market was effective in October 2008 and guidance related to orderly transactions under current market conditions was effective for interim and annual reporting periods ending after June 15, 2009.

ACL SEMICONDUCTORS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2008 AND 2007

(Stated in US Dollars)

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Recently implemented standards

The Company applied the provisions of ASC 820 to its financial assets and liabilities upon adoption at January 1, 2008 and adopted the remaining provisions relating to certain nonfinancial assets and liabilities on January 1, 2009. The difference between the carrying amounts and fair values of those financial instruments held upon initial adoption, on January 1, 2008, was recognized as a cumulative effect adjustment to the opening balance of retained earnings and was not material to the Company's financial position or results of operations. The Company implemented the guidance related to orderly transactions under current market conditions as of April 1, 2009, which also was not material to the Company's financial position or results of operations.

In August 2009, the FASB issued ASC Update No. 2009-05, Fair Value Measurements and Disclosures (Topic 820): Measuring Liabilities at Fair Value (ASC Update No. 2009-05). This update amends ASC 820, Fair Value Measurements and Disclosures and provides further guidance on measuring the fair value of a liability. The guidance establishes the types of valuation techniques to be used to value a liability when a quoted market price in an active market for the identical liability is not available, such as the use of an identical or similar liability when traded as an asset. The guidance also further clarifies that a quoted price in an active market for the identical liability at the measurement date and the quoted price for the identical liability when traded as an asset in an active market when no adjustments to the quoted price of the asset are required are both Level 1 fair value measurements. If adjustments are required to be applied to the quoted price, it results in a level 2 or 3 fair value measurement. The guidance provided in the update is effective for the first reporting period (including interim periods) beginning after issuance. The Company does not expect that the implementation of ASC Update No. 2009-05 will have a material effect on its financial position or results of operations.

In September 2009, the FASB issued ASC Update No. 2009-12, Fair Value Measurements and Disclosures (Topic 820): Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent) (ASC Update No. 2009-12). This update sets forth guidance on using the net asset value per share provided by an investee to estimate the fair value of an alternative investment. Specifically, the update permits a reporting entity to measure the fair value of this type of investment on the basis of the net asset value per share of the investment (or its equivalent) if all or substantially all of the underlying investments used in the calculation of the net asset value is consistent with ASC 820. The update also requires additional disclosures by each major category of investment, including, but not limited to, fair value of underlying investments in the major category, significant investment strategies, redemption restrictions, and unfunded commitments related to investments in the major category. The amendments in this update are effective for interim and annual periods ending after December 15, 2009 with early application permitted. The Company does not expect that the implementation of ASC Update No. 2009-12 will have a material effect on its financial position or results of operations.

In June 2009, FASB issued Statement of Financial Accounting Standards No. 167, Amendments to FASB Interpretation No. 46(R) (Statement No. 167). Statement No. 167 amends FASB Interpretation No. 46R, Consolidation of Variable Interest Entities an interpretation of ARB No. 51 (FIN 46R) to require an analysis to determine whether a company has a controlling financial interest in a variable interest entity. This analysis identifies the primary beneficiary of a variable interest entity as the enterprise that has a) the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance and b) the obligation to absorb losses of the entity that could potentially be significant to the variable interest entity or the right to receive benefits from the entity that could potentially be significant to the variable interest entity. The statement requires an ongoing assessment of whether a company is the primary beneficiary of a variable interest entity when the holders of the entity, as a group, lose power, through voting or similar rights, to direct the actions that most significantly affect the entity's economic performance. This statement also enhances disclosures about a company's involvement in variable interest entities. Statement No. 167 is effective as of the beginning of the first annual reporting period that begins after November 15, 2009. Although Statement No. 167 has not been incorporated into the Codification, in accordance with ASC 105, the standard shall remain authoritative until it is integrated. The Company is in the process of evaluating Statement No. 167 and will make necessary change if required.

ACL SEMICONDUCTORS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2008 AND 2007

(Stated in US Dollars)

Note 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)*(i) Recently implemented standards*

In June 2009, the FASB issued Statement of Financial Accounting Standards No. 166, Accounting for Transfers of Financial Assets an amendment of FASB Statement No. 140 (Statement No. 166). Statement No. 166 revises FASB Statement of Financial Accounting Standards No. 140, Accounting for Transfers and Extinguishment of Liabilities a replacement of FASB Statement 125 (Statement No. 140) and requires additional disclosures about transfers of financial assets, including securitization transactions, and any continuing exposure to the risks related to transferred financial assets. It also eliminates the concept of a qualifying special-purpose entity , changes the requirements for derecognizing financial assets, and enhances disclosure requirements. Statement No. 166 is effective prospectively, for annual periods beginning after November 15, 2009, and interim and annual periods thereafter. Although Statement No. 166 has not been incorporated into the Codification, in accordance with ASC 105, the standard shall remain authoritative until it is integrated. The Company does not expect the adoption of Statement No. 166 will have a material impact on its financial position or results of operations.

Note 3. PROPERTY, PLANT AND EQUIPMENT, NET

A summary is as follows:

	2008	2007
	<u> </u>	<u> </u>
Land and buildings	\$ 6,754,351	\$ 6,794,629
Office equipment	152,185	148,568
Leasehold improvements	194,896	150,822
Furniture and fixtures	13,273	13,273
Automobiles	405,467	226,056
	<u> </u>	<u> </u>
	7,520,172	7,333,348
Less: accumulated depreciation and amortization	(597,549)	(399,350)
	<u> </u>	<u> </u>
	\$ 6,922,623	\$ 6,933,998
	<u> </u>	<u> </u>

Depreciation and amortization expense for property, equipment, and improvements amounted to \$238,477 and \$230,614 for the years ended December 31, 2008 and 2007 respectively.

Note 4. REVOLVING LINES OF CREDIT AND LOAN FACILITIES

The Company has available to it a \$5,128,205 revolving line of credit with DBS Bank with an outstanding balance of \$4,722,616 at December 31, 2008 and \$5,635,176 at December 31, 2007. The line of credit bears interest at the bank's standard bills rate less 1.25% for HKD borrowings and at the bank's standard bills rate less 0.75% for other currency borrowings as of December 31, 2008. The weighted average interest rate approximated 4.4% for 2008 and 6.7% for 2007.

The Company has available to it a \$5,769,231 factoring facility without recourse with DBS Bank without any outstanding balance at December 31, 2008. The factoring facility bears a discounting charge at the bank's standard bills rate less 1.25% for advance in HKD or the bank's standard bills rate less 0.75% for advance in other currency as of December 31, 2008.
