VANECK VECTORS MUNICIPAL INCOME ETFs
(unaudited)
Dear Shareholder,
Municipal bonds have had a solid six months. We believe that during this period they provided a haven from volatility
in the general stock market and remain an attractive option in the current low interest rate environment. The municipal bond ("muni") market however is not a monolith. There are a diverse set of potential opportunities for investors to tailor
yield and duration characteristics according to their needs.
With this in mind, we launched two new additions to our investment grade municipal bond ETFs in September. The
VanEck Vectors AMT-Free 6-8 Year Municipal Index ETF (BATS: ITMS) and the VanEck Vectors AMT-Free 12-17 Year Municipal Index ETF (BATS: ITML) essentially "parse" the comprehensive exposure provided by VanEck
Vectors AMT-Free Intermediate Municipal Index ETF (NYSE Arca: ITM), which tracks an index of bonds with nominal maturities of 6 to 17 years.
Historically, the intermediate portion of the yield curve has been a "sweet spot" in munis. It has offered one of the
greatest potentials to gain returns from rising prices as bonds move toward maturity, also known as rolling down the yield curve. ITML and ITMS provide targeted ways for investors potentially to capture that opportunity in a more
refined way.

Source: VanEck. Data as of October 31, 2016. For illustrative purposes only. Historical information is not indicative of future results; current data may differ from data quoted. The **30-Day SEC Yield** is a standard yield calculation developed by the Securities and Exchange Commission that allows for fairer comparisons primarily among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest earned during the period after deducting the Fund's expenses for the period. It does not reflect the yield an investor would have received if they had held the Fund over the last twelve months assuming the most recent NAV. **Taxable equivalent yields** (TEY) are used by investors to compare yields on taxable and tax-exempt securities after accounting for federal income taxes. TEY represents the yield a taxable bond investment would have to earn in order to match, after deducting federal income taxes, the yield available on a tax-exempt municipal bond investment. TEY = Tax-Free Municipal Bond Yield/(1-Tax Rate). Effective Duration measures a bond's sensitivity to interest rate changes that reflects the change in a bond's price given a change in yield. This duration measure is appropriate for bonds with embedded call features.

We encourage you to stay in touch with us through the videos, emails, and subscriptions available on our website (vaneck.com).

Management	Discussion	(unaudited)

Market Review

During the six-month period ended October 31, 2016, the municipal bond market (munis) continued to experience inflows. Continuing to build on their positive performances in the twelve months prior to April 30, 2016, and supported by the persisting low interest rate environment, all the VanEck Vectors Municipal Income ETFs, except for VanEck Vectors CEF Municipal Income ETF (NYSE Arca: XMPT) and VanEck Vectors AMT-Free Short Municipal Index ETF (NYSE Arca: SMB), performed positively for the six-month period under review.

Note: Neither VanEck Vectors AMT-Free 6-8 Year Municipal Index ETF (BATS: ITMS) nor VanEck Vectors AMT-Free 12-17 Year Municipal Index ETF (BATS: ITML) are included above as they were launched on September 19, 2016.

Source: VanEck. Returns based on NAV. The performance data quoted represents past performance. Past performance is not a guarantee of future results. Investment returns and ETF share values will fluctuate so that investors' shares, when redeemed, may be worth more or less than their original cost. ETF returns assume that dividends and capital gains distributions have been reinvested in the Fund at NAV. Current performance may be lower or higher than performance data quoted.

VanEck Vectors AMT-Free Short Municipal Index ETF/ VanEck Vectors Pre-Refunded Municipal Index ETF

Among short munis, the leasing and transportation sectors contributed most to the total return of the AMT-Free Short Municipal Index ETF. Two sectors, industrial development revenue/pollution control revenue (IDR/PCR) and state general obligation, detracted the most from performance. In terms of state/U.S. territory, New Jersey contributed the most to the total return of the Fund, while Ohio detracted by far the most from performance.

Munis from California contributed the most to the total return of the Pre-Refunded Municipal Index ETF. When grouped by state/U.S. territory, only munis from Virginia detracted from performance, and only minimally.

VanEck Vectors AMT-Free Intermediate Municipal Index ETF

Munis from New Jersey and Illinois contributed the most to the total return of the Fund. When grouped by state/U.S. territory, 18 detracted from performance, each one minimally. The sector with the second largest average weightings in the index, local general obligations, was the largest contributor to the Fund's performance. The special tax sector detracted the most from performance.

VanEck Vectors AMT-Free Long Municipal Index ETF

All sectors except one, insured, contributed positively to the Fund's total return, with the hospital sector being by far the greatest contributor. Municipal bonds issued by California and Illinois contributed by far the most to performance. Grouped by state/U.S. territory, municipal bonds issued by Utah and Michigan were the greatest detractors from performance, but even then only minimally.

VANECK VECTORS MUNICIPAL INCOME ETFS

(unaudited) (continued)

VanEck Vectors Short High-Yield Municipal Index ETF/ VanEck Vectors High-Yield Municipal Index ETF

While the local general obligation and hospital sectors contributed most to performance, the IDR/PCR sector was by far the largest detractor from performance. Grouped by state/U.S. territory, Illinois was the greatest contributor to the Short High-Yield Municipal Index ETF's total return, while munis from Ohio and the Virgin Islands detracted the most from performance.

In the High-Yield Municipal Index ETF, the IDR/PCR and local general obligation sectors contributed by far the most to total return. The housing, prerefunded, and state general obligation sectors were the only three to detract from performance. When grouped by State/U.S. territory, munis from Illinois, California, and Puerto Rico made the greatest contribution to performance and those from the Virgin Islands detracted the most from performance.

VanEck Vectors CEF Municipal Income ETF

Over the six months under review, the average discount at which municipal closed-end funds (CEFs) traded first narrowed from approximately -2.81% at the beginning of the period to -1.31% on August 3, 2016. Thereafter, however, it widened to -6.60% by the end of the period. Since many municipal CEFs use leverage—and short-term rates increased during the period under review—the cost of leverage also rose. This was detrimental to the municipal closed-end fund market and the Fund returned a disappointing -2.94% for the six-month period.

Commencement date for the VanEck Vectors AMT-Free 6-8 Year Municipal Index ETF was 9/19/16.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (9/19/16) to the first day of secondary market trading in shares of the Fund (9/20/16), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Annual Fund Operating Expenses 0.24%

The Investment Management Agreement between VanEck Vectors ETF Trust and Van Eck Associates Corporation (the "Adviser") provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and

sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Bloomberg Barclays AMT-Free 6-8 Year Intermediate Continuous Municipal Index (BVE6TR) is comprised of bonds that must be rated investment-grade (Baa3/BBB- or higher) by at least two of the following ratings agencies: Moody's, S&P, and Fitch. If only two of the three agencies rate the security, the lower rating is used to determine index eligibility. If only one of the three agencies rates a security, the rating must be investment-grade. They must have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million. The bonds must be fixed rate, have a dated date within the last five years and have an effective maturity of 6 to 8 years. Remarketed issues, taxable municipal bonds, AMT municipal bonds, bonds with floating rates, and derivatives, are excluded from the benchmark.

BVE6TR is published by Bloomberg Finance L.P. and its affiliates (the "Index Provider" or "Bloomberg"). The Index Provider does not sponsor, endorse, or promote the Fund and bears no liability with respect to the Fund or any security.

Life* (cumulative)	43.21%	43.78%	46.86	%
* since 7/12/11				

Commencement date for the VanEck Vectors CEF Municipal Income ETF was 7/12/11.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (7/12/11) to the first day of secondary market trading in shares of the Fund (7/13/11), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Gross Expense Ratio 0.47% / Net Expense Ratio 0.40%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes, extraordinary expenses and Acquired Fund Fees and Expenses) from exceeding 0.40% of the Fund's average daily net assets per year until at least September 1, 2017. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such

expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

S-Network Municipal Bond Closed-End Fund IndexSM (CEFMXTR) is composed of closed-end funds listed in the ²United States that are principally engaged in asset management processes designed to produce federally tax-exempt annual yield.

CEFMXTR is calculated and maintained by S-Network Global Indexes, LLC. S-Network does not sponsor, endorse, or promote the Fund and bears no liability with respect to the Fund or any security.

Commencement date for the VanEck Vectors High-Yield Municipal Index ETF was 2/4/09.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/4/09) to the first day of secondary market trading in shares of the Fund (2/5/09), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Annual Fund Operating Expenses 0.35%

The Investment Management Agreement between VanEck Vectors ETF Trust and Van Eck Associates Corporation (the "Adviser") provides that the Adviser will pay all expenses of the Fund, except for the fee payment under the Investment Management Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

Bloomberg Barclays Municipal Custom High Yield Composite Index (LMEHTR) is made up of a 25%/75% blend of investment grade triple-B and non-investment grade munis, and draws 75% of its holdings from bonds issued as part of transaction sizes of \$100 million or more. To be included in the Index, bonds must have an outstanding par value of at least \$3 million for non-investment grade and \$7 million for investment grade; 25% of index in investment-grade triple-B bonds issued as part of transaction sizes of at least \$100 million in value; 50% of index in non-investment grade bonds issued as part of transaction of at least \$100 million; 25% of index in non-investment grade bonds issued as part of transaction of \$20-\$100 million in size; fixed rate; nominal maturity of greater than one year; dated-date after 12/31/1990.

LMEHTR is published by Bloomberg Finance L.P. and its affiliates (the "Index Provider" or "Bloomberg"). The Index Provider does not sponsor, endorse, or promote the Fund and bears no liability with respect to the Fund or any security.

Bloomberg Barclays Municipal High Yield Short Duration Index (BMHYTR) is a market size weighted index composed of publicly traded municipal bonds that cover the U.S. dollar denominated high yield short-term tax-exempt bond market. The majority of the Index's constituents are from the revenue sector, with some constituents being from the general obligation sector. The revenue sector is divided into industry sectors that consist of but may not be limited to electric, health care, transportation, education, water & sewer, resource recovery, leasing and special tax.

BMHYTR is published by Bloomberg Finance L.P. and its affiliates (the "Index Provider" or "Bloomberg"). The Index Provider does not sponsor, endorse, or promote the Fund and bears no liability with respect to the Fund or any security.

VANECK VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the period, May 1, 2016 to October 31, 2016.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period."

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

	AMT-Free 6-8 Year Municipal Index ETF For the Period September 19, 2016 (a) through October 31, 2016 (unaudited)
Net asset value, beginning of period	\$25.01
Income from investment operations:	
Net investment income	0.03
Net realized and unrealized loss on investments	(0.23)
Total from investment operations	(0.20)
Net asset value, end of period	\$24.81
Total return (b)	(0.80)%(c)

Ratios/Supplemental Data

Net assets, end of period (000's)	\$4,963	3
Ratio of gross expenses to average net assets	0.24	%(d)
Ratio of net expenses to average net assets	0.24	%(d)
Ratio of net expenses, excluding interest expense, to average net assets	0.24	%(d)
Ratio of net investment income to average net assets	1.19	%(d)
Portfolio turnover rate (e)	24	%(c)

AMT-Free 12-17 Year Municipal Index ETF For the Period September 19, 2016 (a) through

	October 31, 2016 (unaudited)
Net asset value, beginning of period	\$25.00
Income from investment operations:	
Net investment income	0.05
Net realized and unrealized loss on investments	(0.44)
Total from investment operations	(0.39)
Net asset value, end of period	\$24.61
Total return (b)	(1.56)%(c)

Ratios/Supplemental Data

Net assets, end of period (000's)	\$4,922	2
Ratio of gross expenses to average net assets	0.24	%(d)
Ratio of net expenses to average net assets	0.24	%(d)
Ratio of net expenses, excluding interest expense, to average net assets	0.24	%(d)
Ratio of net investment income to average net assets	1.90	%(d)
Portfolio turnover rate (e)	0	%(c)

(a) Commencement of operations

Total return is calculated assuming an initial investment made at the net asset value at the beginning of period, (b) reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the period. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

- (c) Not Annualized
- (d) Annualized
- (e) Portfolio turnover rates exclude securities received or delivered as a result of processing in-kind capital share transactions.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

October 31, 2016 (unaudited)

Note 1—Fund Organization—VanEck Vectors ETF Trust (the "Trust") (formerly known as Market Vectors ETF Trust) is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of October 31, 2016, offers sixty investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: AMT-Free 6-8 Year Municipal Index ETF ("Free 6-8"), AMT-Free 12-17 Year Municipal Index ETF ("Free 12-17"), AMT-Free Intermediate Municipal Index ETF ("Intermediate"), AMT-Free Long Municipal Index ETF ("Long"), AMT-Free Short Municipal Index ETF ("Short"), CEF Municipal Income ETF ("CEF Municipal"), High-Yield Municipal Index ETF ("High-Yield"), Pre-Refunded Municipal Index ETF ("Pre-Refunded") and Short High-Yield Municipal Index ETF ("Short High-Yield"), each a "Fund" and collectively the "Funds". Each Fund's investment objective is to replicate as closely as possible, before fees and expenses, the price and yield performance of its index. The Funds (except CEF Municipal) expect to use a sampling approach in seeking to achieve their objectives. Sampling means that Van Eck Associates Corporation (the "Adviser") uses quantitative analysis to select bonds and other securities that represent a sample of securities in each Fund's respective index in terms of key risk factors, performance attributes and other characteristics. The number of securities in each Fund will be based upon several factors, including asset size of the Fund. The Adviser generally expects each Fund to hold less than the total number of securities in its index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective. CEF Municipal seeks to achieve its objectives through a portfolio of securities in substantially the same weighting as its index.

The Funds' commencement of operations dates and their respective indices are presented below:

Fund	Commencement of Operations	Index
Free 6-8	September 19, 2016	Bloomberg Barclays AMT-Free 6-8 Year Intermediate Continuous Municipal Index
Free 12-17	September 19, 2016	Bloomberg Barclays AMT-Free 12-17 Year Intermediate Continuous Municipal Index
Intermediate	December 4, 2007	Bloomberg Barclays AMT-Free Intermediate Continuous Municipal Index
Long	January 2, 2008	Bloomberg Barclays AMT-Free Long Continuous Municipal Index
Short	February 22, 2008	Bloomberg Barclays AMT-Free Short Continuous Municipal Index
CEF Municipal	July 12, 2011	S-Network Municipal Bond Closed-End Fund Index SM
High-Yield	February 4, 2009	Bloomberg Barclays Municipal Custom High Yield Composite Index
Pre-Refunded	February 2, 2009	Bloomberg Barclays Municipal Pre-Refunded—Treasury-Escrowed Index
Short High-Yield	January 13, 2014	Bloomberg Barclays Municipal High-Yield Short Duration Index

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification ("ASC") 946 Financial Services—Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAQ Stock Market are valued at the NASDAQ official closing price.

A. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded, they are categorized as Level 1 in the fair value hierarchy (described below). Debt securities are valued on the basis of evaluated prices furnished by an independent pricing service approved by the Board of Trustees or provided by securities dealers. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date and/or (ii) quotations from bond dealers to determine current value and are categorized as Level 141

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

2 in the fair value hierarchy. Money market fund investments are valued at net asset value and are categorized as Level 1 in the fair value hierarchy. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of Van Eck Associates Corporation (the "Adviser"). The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

B. Federal Income Taxes—It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders.

Therefore, no federal income tax provision is required.

Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income, if any, are declared and paid at least monthly by each Fund. Distributions of net realized capital gains, if any, generally are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with income tax regulations, which may differ from such amounts determined in accordance with GAAP.

Restricted Securities—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the **D.** securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

Use of Derivative Instruments—The Funds may make investments in derivative instruments, including, but not **E.** limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. 142

Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter ("OTC") derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the investment adviser is incorrect in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments. The Funds held no derivative instruments during the period ended October 31, 2016.

Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date.

F. The Funds record distributions received in excess of income from underlying investments as a reduction of cost of investments and/or an increase in realized gains. Such amounts are based upon estimates if actual amounts are not available, and actual amounts of income, realized gains and return of capital may differ from estimated amounts. Interest income, including amortization of premiums and discounts, is accrued as earned. Interest income is generally not earned on debt securities in default or upon determination that the income is not realizable.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund's average daily net assets. The Free 6-8, Free 12-17, High-Yield, Intermediate, Long, Pre-Refunded, Short High-Yield and Short Funds utilize a unitary management fee where the Adviser is responsible for all expenses of the Funds, except the fee payment under the Investment Advisory Agreement, interest expense, offering costs, trading expenses, taxes and extraordinary expenses. For CEF Municipal, the Adviser voluntarily waived its fees and assumed certain fund expenses during this period to limit total annual operating expenses to the expense limitation listed below.

The current management fee rate, expense limitation and the amounts waived/assumed by the Adviser for the period ended October 31, 2016 are as follows:

	Expense	Management	Waiver of	Expenses Assumed
Fund	Limitation	Fee Rate	Management Fees	by the Adviser
CEF Municipal*	0.40%	0.40%	\$39.326	\$ —

*

The Adviser has agreed, at least until September 1, 2017, to voluntarily waive or limit its fees and to assume as its own expense certain expenses otherwise payable by the Fund so that the Fund's total annual operating expenses do not exceed the expense limitation, excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses.

Fund	Unitary		
ruliu	Fee		
Free 6-8	0.24%		
Free 12-17	0.24		
Intermediate	0.24		
Long	0.24		
Short	0.20		
High-Yield	0.35		
Pre-Refunded	0.24		
Short High-Yield	0.35		

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' distributor ("the Distributor"). Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

Note 4—Investments—For the period ended October 31, 2016, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

	Cost of	Proceeds
	Investments	from
Fund	Purchased	Investments Sold
Free 6-8	\$5,896,167	\$1,154,381
Free 12-17	4,947,961	
Intermediate	255,914,807	35,201,449
Long	40,813,197	13,669,488
Short	14,301,717	3,003,562
CEF Municipal	7,326,927	7,207,749
High-Yield	552,984,654	65,935,159
Pre-Refunded	231,569	253,153
Short High-Yield	43,969,804	13,760,704

Note 5—Income Taxes—As of October 31, 2016, for Federal income tax purposes, the identified cost of investments owned, net unrealized appreciation (depreciation), gross unrealized appreciation, and gross unrealized depreciation of investments were as follows:

				Net
				Unrealized
		Gross	Gross	Annragiation
		Unrealized	Unrealized	Appreciation
Fund	Cost of Investments	Appreciation	Depreciation	(Depreciation)
Free 6-8	\$4,715,607	\$808	\$(32,358)	\$(31,550)
Free 12-17	4,938,502	_	(94,235)	(94,235)
Intermediate	1,577,184,493	46,846,145	(8,255,015)	38,591,130
Long	175,331,464	6,004,054	(1,156,842)	4,847,212
Short	281,983,768	1,193,201	(725,443)	467,758
CEF Municipal	104,742,505	400,724	(2,559,534)	(2,158,810)
High-Yield	2,157,839,798	102,034,071	(42,478,370)	59,555,701
Pre-Refunded	19,338,070	143,674	(13,144)	130,530
Short High-Yield	135,373,800	2,147,256	(1,900,535)	246,721

The tax character of dividends paid to shareholders during the year ended April 30, 2016 were as follows:

	Tax-Exempt	
	Dividends	Ordinary
	Dividends	Income
Fund	April 30,	April 30,
rulia	2016	2016
Intermediate	\$27,852,120	\$18,910
Long	3,758,435	7,410
Short	3,027,135	
CEF Municipal	2,976,206	16,904
High-Yield	77,632,113	723,857
Pre-Refunded	172,440	
Short High-Yield	3,309,393	23,297

The tax character of current year distributions will be determined at the end of the current fiscal year.

At April 30, 2016, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

	Post-Effective- No Expiration	Post-Effective-			
	1	1	Amount l	Expiring in th	e Year
	Short-Term	Long-Term	Ended Ap	oril 30,	
Fund	Capital Losses	Capital Losses	2019	2018	2017
Intermediate	\$ 393,076	\$1,378,421	\$ —	\$ —	\$
Long	732,582	90,537	78,825	1,554,202	603,978
Short	48,242	325,049	_		_
CEF Municipal	722,878	1,023,945	_		_
High-Yield	7,094,962	31,597,237			
Pre-Refunded	226,643	273,317			
Short High-Yield	651,627	608,317			

During the year ended April 30, 2016, following Funds utilized accumulated capital loss carryforwards: Intermediate utilized \$132,147, Long utilized \$15,891 and Pre-Refunded utilized \$13,025.

The Funds recognize the tax benefits of uncertain tax positions only where the position is "more-likely-than-not" to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for open tax years. Therefore, no provision for income tax is required in the Funds' financial statements.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the period ended October 31, 2016, the Funds did not incur any interest or penalties.

Note 6—Capital Share Transactions—As of October 31, 2016, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, consisting of 50,000 shares, except for Intermediate and High-Yield, which have Creation Units consisting of 100,000 shares, or multiples thereof. The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the period ended October 31, 2016, the Funds had in-kind contributions and redemptions as follows:

Fund

	In-Kind	In-Kind
	Contributions	Redemptions
Free 6-8	\$ —	\$ —
Free 12-17		
Intermediate	100,096,136	86,123,962
Long	3,389,849	3,442,247
Short	38,290,007	38,512,783
CEF Municipal	21,806,597	8,226,528
High-Yield	60,914,580	183,283,307
Pre-Refunded		
Short High-Yield	2,039,551	2,130,726

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect shareholder transactions including any cash component of the transactions.

Note 7—Concentration and Other Risks—Investments in municipal securities involve risks similar to those of investing in any fund of fixed income securities traded on exchanges, such as market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in security prices. The market for municipal bonds may be less liquid than for taxable bonds.

Free 6-8, Free 12-17, Pre-Refunded and Short High-Yield are classified as non-diversified funds under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

High-Yield and Short High-Yield invest in non-investment grade securities, often referred to as "junk bonds." Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. These high yield securities may involve greater risks and considerations not typically associated with investing in U.S. government bonds and other high quality fixed-income securities. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities. High-Yield and Short High-Yield may not be able to sell bonds at desired prices and that large purchases or sales of certain high-yield bond issues may cause substantial fluctuations in share price, yield and total return.

CEF Municipal invests in closed-end funds that may trade at a discount or premium to their net asset value. A closed-end fund may be leveraged as part of its investment strategy. As a result, the Fund may be indirectly exposed to the effects of leverage through its investment in the underlying funds. Investments in underlying funds that use leverage may cause the value of the Fund's shares to be more volatile than if the Fund invested in underlying funds that do not utilize leverage.

High-Yield and Short High-Yield invest in Puerto Rico municipal securities that currently experience significant financial difficulties. As a result, certain securities issued by this municipality are currently considered below-investment-grade securities. A credit rating downgrade, default, insolvency or bankruptcy of one or several municipal security issuers of this territory, could affect the market values and marketability of municipal obligations of such territory held by the Funds. The market for these investments may be limited, which may make them difficult to buy or sell.

These Funds may continue to be affected by political, economic, regulatory and other developments within Puerto Rico and by the financial condition of Puerto Rico's political subdivisions, agencies, instrumentalities and public authorities. Events, including economic and political policy changes, tax base erosion, the territory's constitutional limits on tax increases, budget deficits and other financial difficulties and changes in the credit ratings assigned to Puerto Rico's municipal issuers, are likely to affect performance. The Puerto Rican economy is reliant on manufacturing, services and tourism, and its economy and financial operations parallel the economic cycles of the United States. Economic difficulties in the United States are likely to have an adverse impact on the overall economy of Puerto Rico. Municipal obligations issued by Puerto Rico are subject to heightened risks that may adversely affect the value of these Funds' portfolios and the repayment of such bonds may be subject to significant uncertainties. Moreover, like many other U.S. states and municipalities, Puerto Rico experienced a significant downturn during the recent recession. Puerto Rico continues to face significant fiscal challenges, including persistent government deficits, underfunded public pension benefit obligations, underfunded government retirement systems, sizable debt service obligations and a high unemployment rate. Many ratings organizations previously downgraded a number of securities issued in Puerto Rico or placed them on "negative watch." If the economic situation in Puerto Rico persists or worsens, the volatility, credit quality and performance of the Funds could be adversely affected. Puerto Rico's continued

financial difficulties could reduce its ability to access financial markets, potentially increasing the likelihood of a restructuring or default for Puerto Rico municipal bonds that may affect the Funds' investments and its performance.

On March 22, 2016, the U.S. Supreme Court heard oral arguments pertaining to the validity of the Puerto Rico Public Corporations Debt Enforcement and Recovery Act. The law, which was invalidated by the U.S. District Court, provides a legal framework to restructure the debt of Puerto Rico's public corporations outside of federal bankruptcy court. On June 13, 2016, the U.S. Supreme Court affirmed the U.S. District Court decision that invalidated the law.

On April 6, 2016, the Puerto Rico legislature passed the Puerto Rico Emergency Moratorium and Financial Rehabilitation Act. Governor Alejandro García Padilla signed the bill into law. Among other provisions, the legislation authorized the governor to suspend the payment of debt service on general obligation bonds and other constitutionally-protected debt on July 1, 2016, and other bonded debt service payments immediately upon the bill being signed into law. It also modified the process for the appointment of a receiver for the Government Development Bank.

On May 2, 2016, Puerto Rico defaulted on \$370 million in payments. The Funds did not have any material exposure to these payments. On June 30, 2016, one day before the Puerto Rican government said it would default on its \$2 billion debt payments, President Obama signed into law the Puerto Rico Oversight, Management and Economic Stability ACT (PROMESA), giving Puerto Rico a stay against creditor litigation that could have triggered cuts to public service. The legislation authorized a seven-member oversight board to oversee Puerto Rico's finances and to approve any court-supervised debt restructuring.

On July 1, 2016, Puerto Rico defaulted on about \$1 billion of principal and interest due to municipal bondholders. Consequently, the Funds were affected resulting in overall increase in securities in default of interest and/or principal obligations. The Funds were not materially impacted by these defaulted payments.

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the "Plan") for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

Effective September 1, 2010, High Yield, Intermediate, Long, Pre-Refunded and Short Funds adopted a unitary management fee where the Adviser is responsible for all expenses of the Funds. Therefore, the expense for the Plan for these Funds and for Short High-Yield, Free 6-8 and Free 12-17 are included in "Management fees". The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities for amounts accrued through September 1, 2010 and in "Due to Adviser" for amounts accrued after September 1, 2010.

For CEF Municipal, the expense for the Plan is included in "Trustees' fees and expenses" in the Statements of Operations. The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities.

Note 9—Bank Line of Credit—The Funds may participate in a \$200 million committed credit facility (the "Facility") to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the period ended October 31, 2016, the following Funds borrowed under this Facility:

				Outstanding
				Loan
	Davis	Average	A *** a # a a a	Balance as
	Days	Daily	Average	of
Fund	Outstanding	Loan	Interest	October 31,
ruliu	fund Outstanding	Balance	Rate	2016
Short	1	\$1,790,115	1.81 %	\$—
CEF Municipal	107	172,649	1.80	121,820
Short High-Yield	17	358,284	1.79	101,910

Note 10—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the period ended October 31, 2016, there were no offsets to custodian fees.

Note 11—Recent Accounting Pronouncements—On August 27, 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-15 ("ASU 2014-15"), *Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*, which requires management to assess the Funds' ability to continue as a going concern and to provide related disclosures in certain circumstances. Under the new standard, disclosures are required when conditions give rise to substantial doubt about a company's ability to continue as a going concern within one year from the financial statement issuance date. The new standard is effective for the annual period ending after December 15, 2016, and all annual and interim periods thereafter. Management is currently evaluating the impact that ASU 2014-15 will have on financial statement disclosure.

VANECK VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

October 31, 2016 (unaudited)

At a meeting held on June 10, 2016 (the "Renewal Meeting"), the Board of Trustees (the "Board") of VanEck VectorsTM ETF Trust (the "Trust"), including all of the Trustees that are not interested persons of the Trust (the "Independent Trustees"), approved (i) the continuation of the investment management agreements (the "Municipal Investment Management Agreements") between the Trust and Van Eck Associates Corporation (the "Adviser") with respect to the VanEck Vectors AMT-Free 6-8 Year Municipal Index ETF, AMT-Free 8-12 Year Municipal Index ETF, AMT-Free 12-17 Year Municipal Index ETF, AMT-Free Intermediate Municipal Index ETF, AMT-Free Long Municipal Index ETF, AMT-Free Short Municipal Index, California Long Municipal Index ETF, High-Yield Municipal Index ETF, Massachusetts Municipal Index ETF, New Jersey Municipal Index ETF, New York Long Municipal Index ETF, Ohio Municipal Index ETF, Pennsylvania Municipal Index ETF, Pre-Refunded Municipal Index ETF, Puerto Rico Municipal Index ETF and Short High-Yield Municipal Index ETF (the "Municipal Funds") and (ii) the continuation of the investment management agreement between the Trust and the Adviser (the "CEF Investment Management Agreement," and together with the Municipal Investment Management Agreements, the "Investment Management Agreements") with respect to VanEck Vectors CEF Municipal Income ETF (the "CEF Muni Fund" and together with the Municipal Funds, the "Funds").

The Board's approval of the Investment Management Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 10, 2016. At that meeting, the Trustees discussed the information the Adviser and Broadridge Financial Solutions, Inc. ("Broadridge"), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance (for those Funds which had begun operations) and expenses of the Funds and the Funds' peer funds (other index-based exchange-traded funds ("ETFs")), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser's relationship with the Funds. In reviewing performance information for the Funds against their peer groups, the Trustees considered that each Fund generally invests in a different group of issuers than the funds in its designated peer group. In addition, as noted below, the Trustees reviewed certain performance information for each Fund that was not provided by Broadridge. For these and other reasons, the Trustees noted that the peer group performance information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees' consideration of the Investment Management Agreements was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and the May 10, 2016 meeting regarding the management of the Funds and information obtained at other meetings of the Trustees and/or

based on their review of the materials provided by the Adviser, including the background and experience of the portfolio manager(s) and others involved in the management and administration of the Funds. The Trustees also considered the terms of, and scope of services that the Adviser provides under, the Investment Management Agreements, including, with respect to the CEF Muni Fund, the Adviser's commitment to waive certain fees and/or pay expenses of the CEF Muni Fund to the extent necessary to prevent the operating expenses of the CEF Muni Fund from exceeding agreed upon limits for a period of time and, with respect to the Municipal Funds, the Adviser's agreement to pay all of the direct expenses of the Municipal Funds (excluding interest expense, offering costs, trading expenses, taxes and extraordinary expenses).

The Trustees concluded that the Adviser and its personnel have the requisite expertise and skill to manage the Funds' portfolios. In evaluating the performance over relevant periods of each of the Funds that had commenced operations prior to the date of the Renewal Meeting (the "Operating Funds"), the Trustees reviewed various performance metrics but relied principally on a comparison of the "gross" performance of each Operating Fund (i.e., measured without regard to the impact of fees and expenses) to the performance of its benchmark index, in each case incorporating any fair value adjustments to the underlying securities. Based on the foregoing, the Trustees concluded that the investment performance of the Operating Funds was satisfactory.

The Trustees also considered information relating to the financial condition of the Adviser and the current status, as they understood it, of the Adviser's compliance environment.

As noted above, the Trustees were also provided various data from Broadridge comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund had management fees (after the effect of any applicable fee waiver) below or equal to the average and

VANECK VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(continued) (unaudited)

median of its respective peer group of funds, except for VanEck Vectors Pre-Refunded Municipal Index ETF, AMT-Free Intermediate Municipal Index ETF and the CEF Muni Fund, which had management fees (after the effect of any applicable fee waiver) greater than the average and/or median of its peer group of funds. The Trustees also noted that the information provided showed that each Operating Fund had a total expense ratio (after the effect of any applicable expense limitation) below or equal to the average and median of its respective peer group of funds, except for each of VanEck Vectors Pre-Refunded Municipal Index ETF, AMT-Free Intermediate Municipal Index ETF and the CEF Muni Fund, which had a total expense ratio (after the effect of any applicable expense limitation) greater than the average and/or median of its peer group of funds. With respect to these Operating Funds, the Trustees reviewed the amount by which these Operating Funds' total expense ratios (after the effect of any applicable expense limitation) exceeded the average and/or median of their respective peer groups and the information provided by the Adviser providing context for these comparisons. The Trustees noted that the CEF Muni Fund had unique investment characteristics as a "fund of closed-end funds," which differentiated the Fund from those funds contained in its Broadridge peer group because a portion of the fees attributable to the CEF Muni Fund were fees incurred by the funds in which it invests. The Trustees concluded, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Operating Funds and the quality of services received.

The Trustees also considered the benefits, other than the fees under the Investment Management Agreements, received by the Adviser from serving as adviser to the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees considered the potential variability in the net assets of these Funds and the sustainability of any potential economies of scale which may exist given where fees are currently set. The Trustees also evaluated the extent to which management fees for the Operating Funds effectively incorporate the benefits of economies of scale. The Trustees also considered, with respect to the Municipal Funds, the risks being assumed by the Adviser under the unitary fee structure arrangement and the potential expense stability that may inure to the benefit of shareholders of the Municipal Funds. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund is reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and that the advisory fee rate for each Fund currently reflects an appropriate sharing with shareholders of any economies of scale which may exist. The Trustees also determined that the profits earned by the Adviser in respect of the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds.

The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability to the Adviser of VanEck Vectors AMT-Free 6-8 Year Municipal Index ETF, AMT-Free 8-12 Year

Municipal Index ETF, AMT-Free 12-17 Year Municipal Index ETF, California Long Municipal Index ETF, Massachusetts Municipal Index ETF, New Jersey Municipal Index ETF, New York Long Municipal Index ETF, Ohio Municipal Index ETF, Pennsylvania Municipal Index ETF and Puerto Rico Municipal Index ETF because the Funds had not yet commenced operations at the time of the Renewal Meeting. The Trustees could not consider the historical performance or the quality of services previously provided to each of these Funds although they concluded that the nature, quality and extent of the services to be provided by the Adviser were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 10, 2016 meeting, as part of their consideration of the Investment Management Agreements.

In voting to approve the continuation of the Investment Management Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Investment Management Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Investment Management Agreement is in the best interest of each Fund and such Fund's shareholders.

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a VanEck Vectors ETF Trust (the "Trust") Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus contains this and other information about the investment company. Please read the prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information. The Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 800.826.2333, or by visiting vaneck.com, or on the Securities and Exchange Commission's website at http://www.sec.gov.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at http://www.sec.gov and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 800.826.2333 or by visiting vaneck.com.

VANECK VECTORS INCOME ETFs
(unaudited)
Dear Shareholder:
In the search for yield, preferred securities, considered hybrid securities due to features of both debt and equity securities, have become a promising source of potential income. Historically, a company's preferred securities have offered higher yields than either its common stock or its senior debt. However, a large proportion of the broad preferreds universe (approximately two-thirds) is made up of financial companies, including banks. VanEck Vectors Preferred Securities ex Financials ETF (NYSE Arca: PFXF) offers the yield potential of preferreds, but without excessive financials sector exposure. During the semi-annual period, <i>avoiding financials</i> offered performance similar to the broad universe, <i>excluding financials</i> in 2016 so far has offered better returns than a general index. ²
Competitive Yield and Attractive Risk/Return Tradeoff
Excluding traditional financials from the preferreds universe has not meant giving up yield potential. PFXF's underlying index, Wells Fargo® Hybrid and Preferred Securities ex Financials Index, yielded 6.6%, as compared to 6.1% from the broad-based Wells Fargo® Hybrid and Preferred Securities Aggregate Index, as of October 31, 2016. ³

While the impact on yield has been negligible, the broad preferreds universe's two-thirds concentration in traditional financials has had a significant influence on returns. While this concentration may not always be a negative factor, it is one worth considering. For example, the 2008-2009 credit crisis clearly showed the market that when financials sell off, they can do so significantly. In addition, excluding traditional financials allows for greater participation in other sectors; such as energy, utilities, and consumer staples. Avoiding traditional financial preferred securities in 2016, in particular, would have helped returns. As shown in the chart below, avoiding financial preferreds contributed to an over 4% calendar outperformance year to date.⁴

Annualized Standard Deviation vs. Annualized Return

(12/31/2015 to 10/31/2016)

VANECK VECTORS INCOME ETFs

(unaudited) (continued)

Excluding traditional financial companies does not mean, however, excluding the attractive income-producing Real Estate Investment Trusts (REITs) segment.⁵ In fact, REITs, along with other exchange-listed real estate companies, were removed at the end of August from the Global Industry Classification Standard (GICS®)⁶ Financials sector and placed in the new Real Estate sector.⁷ We believe that this separate sector classification indicates REITs have become a more robust segment of the market. One positive impact of this re-categorization of REITs may be increased institutional demand, as investment managers tend to keep pace with their benchmarks' sector weightings.

PFXF is a unique fund that helps limit the unnecessary concentration of financial preferred securities without sacrificing yield potential. Investors who target preferred securities for the yield potential can do so without piling on to their existing financial sector exposure that may be found with current fixed income and equity investments.

Going forward, we will, as always, continue to seek out and evaluate the most attractive opportunities for you as a shareholder, and we encourage you stay in touch with us through the videos and email subscriptions available on our website at vaneck.com. Should you have any questions, please contact us at 800.826.2333 or visit vaneck.com.

Thank you for participating in the VanEck Vectors ETF Trust. You will find the performance comparison of each of the funds for the six months ended October 31, 2016 on the following pages. You will also find their respective financial statements. We value your continuing confidence in us and look forward to helping you meet your investment goals in the future.

Management Discussion (unaudited)

The suite of VanEck Vectors Income ETFs can most accurately be divided into three groups: equity income, international bonds, and corporate bonds. Over the six months ended October 31, 2016, 10 out of the suite of 11 funds posted positive returns.

Note: VanEck Vectors EM Investment Grade + BB Rated USD Sovereign Bond ETF (NYSE Arca: IGEM) is not included above as it was launched on July 13, 2016.

Source: VanEck. Returns based on NAV. The performance data quoted represents past performance. Past performance is not a guarantee of future results. Bonds and bond funds will decrease in value as interest rates rise. Performance information for the Funds reflects temporary waivers of expenses and/or fees. Had the Funds incurred all expenses, investment returns would have been reduced. Investment return and value of the shares of the Funds will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted.

EQUITY INCOME

Business Development Companies (BDCs)

BDCs typically lend to, and invest in, small privately held companies. An improving economy and increased lending benefit the industry, as do active buy-outs and IPO markets.¹ Over the six-month period, BDCs posted a performance of 8.9%, more than twice the S&P 500® Index's 4.0%? BDCs gained as their valuations, on average, correlated with the high yield credit markets that rallied since mid-February. At the end of the period under review, BDCs were trading closer to net asset value with 0.98 price-to-book value, up from the 15% discount posted prior to the mid-February rally. The industry ended the period offering a dividend yield* of 9.3%, as measured by the MVISTM US Business Development Companies Index.³

Mortgage REITs

Mortgage REITs (mREITs) borrow at short-term rates and lend at long-term rates, potentially profiting from the spread. As such, they can be affected by yield curve movements. A potential Federal Reserve (the "Fed") increase combined with a deteriorating market could result in a flattening yield curve, which would hurt mREITs. However, if rates rise and the markets strengthen, that could result in a rate increase being reflected across the

yield spectrum or a steepening curve, which could bode well for mREITs. A dovish Fed and lower-for-longer investor sentiment supported mREITs over the six-month period under review, as the 10-year U.S. Treasury interest rate declined 45 basis points to 1.36% in July before ending the period up approximately 2 basis points at 1.83%. MREITs posted a commendable performance of 11.94% over the same period and offered a dividend yield* of 10.9%, as measured by the MVISTM Global Mortgage REITs Index.⁴

Preferred Securities ex Financials

Preferred securities are considered hybrid securities because they have features of both debt and equity securities. Historically, a company's preferred securities have offered higher yields than either its common stock or its senior debt. The Wells Fargo® Hybrid and Preferred Securities ex Financials Index excludes traditional financial companies which have been more volatile than other sectors historically. Over the six-month period ending October 31, 2016, REITs contributed the most positively to performance, while the energy and mining industries detracted the most from performance. This subset of preferred securities ended the period offering a current yield** of 6.6%, as measured by the Wells Fargo Hybrid and Preferred Securities ex Financials Index.⁵

INTERNATIONAL BONDS

China Onshore Bonds

Once closed to foreign investors, China is home to the world's largest bond market among the emerging economies. The size of the market is now approximately US\$7.9 trillion.⁶ While it has increased in sheer size, a diverse array of bond categories spanning the yield curve has also evolved. Issuers include government, central and policy banks, state-owned enterprises and listed/non-listed corporations.

Most sectors contributed negatively to performance over the six-month period ending October 31, 2016. Utility bonds provided a positive contribution to total return and bonds of issuers in the diversified and basic materials sectors detracted the least from total return, while those in the financial sector detracted the most.

Emerging Markets Local Currency Bonds

Emerging markets governments issue bonds denominated in their own currency, which can provide yield enhancement and diversification opportunities for investors. These include bonds from countries in Africa, Latin America, Eastern Europe, the Middle East, and Asia.

Over the six-month period, three key themes positively impacted the emerging markets debt market: a low interest rate environment in developed countries; improving economic fundamentals in many emerging markets; and the continuing recovery of commodity prices.

Bonds denominated in Brazilian real, South African rand, Indonesian rupiah contributed most to the Fund's total return. Bonds denominated in Mexican peso, Turkish lira, and Malaysian ringgit were the greatest detractors from performance.

Emerging Markets Aggregate Bonds

The diverse universe of emerging markets bonds includes sovereign and corporate bonds primarily denominated in U.S. dollars, euros, or local emerging markets currencies.

U.S. dollar-denominated bonds made the greatest positive contribution to performance. Among local currency bonds, Brazilian real bonds were the greatest contributors to total return, and Mexican peso bonds were the greatest detractors. All sectors contributed positively to performance, with government and energy bonds the greatest contributors, and diversified and industrial bonds contributing the least.

Emerging Markets High Yield Bonds

Emerging markets high yield corporate bonds offer investors exposure to corporations, quasi-sovereign, and agency issuers from emerging markets countries.

Bonds of Brazilian, Chinese, and Venezuelan issuers were the greatest contributors to total return. Bonds of Israeli issuers were the only detractors from performance. On a sector level, energy- and financial-related bonds were the greatest contributors to total return and technology was the single sector to detract from performance.

VANECK VECTORS INCOME ETFs

(unaudited) (continued)

International High Yield Bonds

Non-U.S. high yield bonds have continued to provide an opportunity to diversify not only geographically, but also in terms of currency, with bonds denominated, for example, in euros, sterling, and canadian dollars.

The energy and basic materials sectors provided the largest positive contributions to overall performance, with communications and consumer cyclical the only sectors detracting from performance. Both U.S. and Canadian dollar-denominated bonds contributed positively to total return, while sterling- and euro-denominated bonds detracted from performance. Brazilian and Canadian issuers provided the greatest contribution to performance, while U.K. and Italian issuers were the largest detractors.

CORPORATE BONDS

Fallen Angel Bonds

Fallen angels warrant distinction for an embedded value proposition that is not common to all of high yield: fallen angels tend to have a higher rate of ascension to investment-grade than original-issue high yield bonds. The default rate in this segment has averaged 3.58% historically, below the 4.48% average for U.S. bonds originally issued as high yield bonds.⁷

Energy and basic industry were the two best performing sectors during the period under review, while the automotive and transportation sectors were the lowest contributors to total return.

Teck Resources Limited 6.25% 07/15/41 bond (1.8% of Fund net assets) and Sprint Capital Corp. 8.75% 03/15/32 bond (1.0% of Fund net assets) were the top two performing bonds, while Noble Holding International 5.25% 03/15/42 bond (0.3% of Fund net assets) and Illinois Power Generating Company 7.0% 04/15/18 bond (0.1% of Fund net assets) were the bottom two performing bonds.

Investment Grade Floating Rate Notes

Floating rate notes (FRNs) are investment grade-rated corporate debt issues with variable coupons that reset to current interest rates, based on a particular benchmark. The coupons on these securities fluctuate with that benchmark. The combination of low average years to maturity, typically in the 1-5 year range, and floating interest rates creates the potential for relatively low price fluctuations. In addition, as short-term interest rates rise, portfolio securities reset to higher yields.

The top two performing notes were General Electric Capital Corporation FRN 05/05/26, rated AA-, (1.2% of Fund net assets) and JP Morgan Chase & Co. FRN 01/23/20, rated A- (1.7% of Fund net assets). The bottom two performing notes were Wells Fargo & Company FRN 01/30/20, rated A, (0.8 % of Fund net assets) and Wells Fargo & Company FRN 03/04/21, rated A (1.1% of Fund net assets).8

Treasury-Hedged High Yield Bonds

The VanEck Vectors Treasury-Hedged High Yield Bond ETF tracks an index that combines the more liquid portion of the high yield universe with short positions in 5-year U.S. Treasury notes. The Fund uses futures on such notes to help hedge against the risk of rising interest rates. Together, the long high yield bond and short comparable U.S. Treasury portfolios offer a combination of income generation and protection against rising interest rates.

The main drivers of returns in this strategy are interest rates and credit spreads. Rising interest rates and narrowing credit spreads positively contributed to performance, while declining interest rates and widening credit spreads detract from the Fund's returns. Credit spreads over U.S. Treasuries narrowed 133 basis points and the 5-year U.S. Treasury increased only 5 basis points over the course of the six-month period. Narrowing credit spreads netted a positive total contribution to performance.

The top performing bonds were Sprint Corp. 7.875% 09/15/23 (1.4% of Fund net assets) and Windstream Services, LLC 7.75% 10/01/21 (1.1% of Fund net assets). The bottom performing bonds were Community Health Systems, Inc. 6.875% 02/01/22 (0.7% of Fund net assets) and Community Health Systems, Inc. 8.0% 11/15/19 (0.8% of Fund net assets).

- † All Fund assets referenced are Total Net Assets as of October 31, 2016.
- * Dividend Yield is calculated by dividing the annual dividends per share of a security by the price of that security.
- **Current Yield is calculated by dividing the annual cash flow by the price of that security.

All indices listed are unmanaged indices and include the reinvestment of all dividends, but do not reflect the payment of transaction costs, advisory fees or expenses that are associated with an investment in the Fund. Investopedia: Little Known Stocks And ETFs To Buy As Interest Rates Rise, http://www.investopedia.com/stock analysis/040314/little-knownstocks-and-etfs-buy-interest-rates-rise-bizd-acas-htgc-hrzn.aspx

²Source: FactSet. Data as of October 31, 2016. BDC performance is based on the MVIS US Business Development Companies Index (MVBIZDTG).

VanEck Vectors BDC Income ETF seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the MVIS US Business Development Companies Index (MVBIZDTG), which includes companies which are treated as Business Development Companies. To be eligible for the Index and qualify as a BDC, a company must be organized under the laws of, and have its principal place of business in the U.S., be registered with the Securities Exchange Commission and have elected to be regulated as a BDC under the Investment Company Act of 1940. As of October 31, 2016 the 30-day SEC yield for VanEck Vectors BDC Income ETF was 38.81%. 30-Day SEC Yield is calculated as of the most recent month end, and is a standard yield calculation developed by the Securities and Exchange Commission that allows for fairer comparisons primarily among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest and dividends earned during the period after deducting the Fund's expenses for the period. It does not reflect the yield an investor would have received if they had held the Fund over the last twelve months assuming the most recent NAV. In the absence of temporary expense waivers or reimbursements, the 30-Day SEC Yield for VanEck Vectors BDC Income ETF would have been 8.71% as of October 31, 2016.

⁴VanEck Vectors Mortgage REIT Income ETF (MORT) seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the MVIS Global Mortgage REITs Index (MVMORTTR) which is a rules-based index intended to give investors a means of tracking the overall performance of publicly traded U.S. and non-U.S. mortgage REITs that derive at least 50% of their revenues from mortgage-related activity. As of October 31, 2016 the 30-day SEC yield for VanEck Vectors Mortgage REIT Income ETF was 10.20%. 30-Day SEC Yield is

calculated as of the most recent month end, and is a standard yield calculation developed by the Securities and Exchange Commission that allows for fairer comparisons primarily among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest and dividends earned during the period after deducting the Fund's expenses for the period. It does not reflect the yield an investor would have received if they had held the Fund over the last twelve months assuming the most recent NAV. In the absence of temporary expense waivers or reimbursements, the 30-Day SEC Yield for VanEck Vectors Mortgage REIT Income ETF would have been 10.11% as of October 31, 2016.

VanEck Vectors Preferred Securities ex Financials ETF (PFXF) seeks to replicate as closely as possible, before fees and expenses, the price and yield performance of the Wells Fargo® Hybrid and Preferred Securities ex Financials Index (WHPSL) which is a rules-based index designed to track the performance of convertible or exchangeable and non-convertible preferred securities, issued by U.S. or foreign issuers that are not financial services companies or banks and that are listed on U.S. national securities exchanges. As of October 31, 2016 the 30-day SEC yield for VanEck Vectors Preferred Securities ex Financials ETF was 5.87%. 30 Day SEC Yield is calculated as of the most recent month end, and is a standard yield calculation developed by the Securities and Exchange Commission that allows for fairer comparisons primarily among bond funds. It is based on the most recent 30-day period. This yield figure reflects the interest and dividends earned during the period after deducting the Fund's expenses for the period. It does not reflect the yield an investor would have received if they had held the Fund over the last six months assuming the most recent NAV. In the absence of temporary expense waivers or reimbursements, the 30-Day SEC Yield for VanEck Vectors Preferred Securities ex Financials ETF would have been 5.83% as of October 31, 2016.

PERFORMANCE COMPARISON

October 31, 2016 (unaudited)

Total Return	Share Price ¹	NAV	MVBIZI	DTG ²
Six Months	9.63 %	9.19 %	8.92	%
One Year	18.04%	17.41%	16.96	%
Life* (annualized)	3.85 %	3.73 %	3.83	%
Life* (cumulative)	15.07%	14.60%	14.99	%
* since 2/11/13				

Commencement date for the VanEck Vectors BDC Income ETF was 2/11/13.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (2/11/13) to the first day of secondary market trading in shares of the Fund (2/12/13), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Gross Expense Ratio 0.50% / Net Expense Ratio 0.41%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.40% of the Fund's average daily net assets per year until at least September 1, 2017. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

MVISTM US Business Development Companies Index (MVBIZDTG) includes companies which are treated as Business Development Companies. To be eligible for the Index and qualify as a BDC, a company must be organized under the laws of, and have its principal place of business in the U.S., be registered with the Securities Exchange Commission and have elected to be regulated as a BDC under the Investment Company Act of 1940.

MVBIZDTG is the exclusive property of MV Index Solutions GmbH (a wholly owned subsidiary of the Adviser), which has contracted with Solactive AG to maintain and calculate the Index. Solactive AG uses its best efforts to ensure that the Index is calculated correctly. Irrespective of its obligations towards MV Index Solutions GmbH, Solactive AG has no obligation to point out errors in the Index to third parties. VanEck Vectors BDC Income ETF (the "Fund") is not sponsored, endorsed, sold or promoted by MV Index Solutions GmbH and MV Index Solutions GmbH makes no representation regarding the advisability of investing in the Fund.

VANECK VECTORS FALLEN ANGEL HIGH YIELD BOND ETF

PERFORMANCE COMPARISON

October 31, 2016 (unaudited)

Total Return	Share Price ¹	NAV	H0FA ²
Six Months	8.75 %	10.15%	9.58 %
One Year	17.10%	18.03%	17.81%
Life* (annualized)	9.43 %	9.66 %	10.84%
Life* (cumulative)	50.78%	52.25%	59.87%
* since 4/10/12			

Commencement date for the VanEck Vectors Fallen Angel High Yield Bond ETF was 4/10/12.

The price used to calculate market return (Share Price) is determined by using the closing price listed on NYSE Arca. Since the shares of the Fund did not trade in the secondary market until several days after the Fund's commencement, for the period from commencement (4/10/12) to the first day of secondary market trading in shares of the Fund (4/11/12), the NAV of the Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for the Fund reflects temporary waivers of expenses and/or fees. Had the Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of the Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Gross Expense Ratio 0.45% / Net Expense Ratio 0.36%

Van Eck Associates Corporation (the "Adviser") has agreed to waive fees and/or pay Fund expenses to the extent necessary to prevent the operating expenses of the Fund (excluding acquired fund fees and expenses, interest expense, offering costs, trading expenses, taxes and extraordinary expenses) from exceeding 0.35% of the Fund's average daily net assets per year until at least September 1, 2017. During such time, the expense limitation is expected to continue until the Fund's Board of Trustees acts to discontinue all or a portion of such expense limitation.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Creation units are issued and redeemed principally in kind. Shares may trade at a premium or discount to their NAV in the secondary market.

The "Net Asset Value" (NAV) of a VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of the fund; it is calculated by taking the total assets of the fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAV is not necessarily the same as the ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

The BofA Merrill Lynch US Fallen Angel High Yield Index (H0FA) is comprised of below investment grade corporate bonds denominated in U.S. dollars that were rated investment grade at the time of issuance.

Merrill Lynch, Pierce, Fenner & Smith Incorporated and its affiliates ("BofA Merrill Lynch") indices and related information, the name "BofA Merrill Lynch", and related trademarks, are intellectual property licensed from BofA Merrill Lynch, and may not be copied, used, or distributed without BofA Merrill Lynch's prior written approval. VANECK VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the period, May 1, 2016 to October 31, 2016.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period."

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as program fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Expenses are equal to the Fund's annualized expense ratio (for the six months ended October 31, 2016) multiplied * by the average account value over the period, multiplied by the number of days in the most recent fiscal half year divided by the number of days in the fiscal year (to reflect the one-half year period).

^{**} Assumes annual return of 5% before expenses

Expenses are equal to the Fund's annualized expense ratio (for the period from July 13, 2016 (commencement of

[#] operations) to October 31, 2016) multiplied by the average account value over the period, multiplied by the number of days since commencement of operations divided by the number of days in the fiscal year.

SCHEDULE OF INVESTMENTS

(unaudited) (continued)

- (c) Callable Security the redemption date shown is when the security may be redeemed by the issuer.
- (p) Puttable Security the redemption date shown is when the security may be redeemed by the investor.
- (s) Step Bond coupon increases periodically based upon a predetermined schedule. The rate shown reflects the rate in effect at the end of the reporting period.
- † Security fully or partially on loan. Total market value of securities on loan is \$613,413. Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from
- Reg registration securities offered and sold outside of the United States. Such a security cannot be sold in the United
- S States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.
- Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended, or otherwise 144A restricted. These securities may be resold in transactions exempt from registration, unless otherwise noted, and the value amounted to \$3,032,338, or 20.6% of net assets.

Summary of Investments by Sector Excluding	% of Investments	Value
Collateral for Securities Loaned (unaudited)

- Callable Security the redemption date shown is when the security may be redeemed by the issuer
- Step Bond coupon increases periodically based upon a predetermined schedule. The rate shown reflects the rate (s) in effect at the end of the reporting period
- Zero Coupon Bond the rate shown is the effective yield at purchase date
- Security fully or partially on loan. Total market value of securities on loan is \$207,331.

Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from

Reg S registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.

Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended, or otherwise

144A restricted. These securities may be resold in transactions exempt from registration, unless otherwise noted, and the value amounted to \$1,782,124, or 11.7% of net assets.

SCHEDULE OF INVESTMENTS

(unaudited) (continued)

- (c) Callable Security the redemption date shown is when the security may be redeemed by the issuer
- (s) Step Bond coupon increases periodically based upon a predetermined schedule. The rate shown reflects the rate in effect at the end of the reporting period
- † Security fully or partially on loan. Total market value of securities on loan is \$45,517,056.
- § Illiquid Security the aggregate value of illiquid securities is \$98,875 which represents 0.0% of net assets. Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from
- Reg registration securities offered and sold outside of the United States. Such a security cannot be sold in the United
- S States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.

Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended, or otherwise 144A restricted. These securities may be resold in transactions exempt from registration, unless otherwise noted, and the value amounted to \$54,692,599, or 14.5% of net assets.

SCHEDULE OF INVESTMENTS

(unaudited) (continued)

Security was purchased pursuant to Regulation S under the Securities Act of 1933, which exempts from registration securities offered and sold outside of the United States. Such a security cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration.

Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended, or otherwise 144A restricted. These securities may be resold in transactions exempt from registration, unless otherwise noted, and the value amounted to \$59,147,828, or 43.3% of net assets.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

October 31, 2016 (unaudited)

Note 1—Fund Organization—VanEck Vectors ETF Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and as of October 31, 2016, offers sixty investment portfolios, each of which represents a separate series of the Trust.

These financial statements relate only to the following investment portfolios: BDC Income ETF ("BDC Income"), China AMC China Bond ETF ("China AMC China Bond"), EM Investment Grade + BB Rated USD Sovereign Bond ETF ("EM Investment Grade + BB Rated USD Sovereign Bond"), Emerging Markets Aggregate Bond ETF ("Emerging Markets Aggregate"), Emerging Markets High Yield Bond ETF ("Emerging Markets High Yield"), Fallen Angel High Yield Bond ETF ("Fallen Angel"), International High Yield Bond ETF ("International High Yield"), Investment Grade Floating Rate ETF ("Investment Grade"), J.P. Morgan EM Local Currency Bond ETF ("J.P. Morgan EM"), Mortgage REIT Income ETF ("Mortgage REIT"), Preferred Securities ex Financials ETF ("Preferred Securities") and Treasury-Hedged High Yield Bond ETF ("Treasury-Hedged"), each a "Fund" and collectively the "Funds". Each Fund's investment objective is to replicate as closely as possible, before fees and expenses, the price and yield performance of its index. The Funds (except BDC Income, Mortgage REIT and Preferred Securities) expect to use a sampling approach in seeking to achieve their objectives. Sampling means that Van Eck Associates Corporation (the "Adviser") uses quantitative analysis to select bonds and other securities that represent a sample of securities in the index in terms of key risk factors, performance attributes and other characteristics. The number of securities in each Fund will be based upon several factors, including asset size of the Fund. The Adviser generally expects each Fund to hold less than the total number of securities in the index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective. China Asset Management (Hong Kong) Limited (the "Sub-Adviser") is the sub-adviser to ChinaAMC China Bond. ChinaAMC China Bond seeks to achieve its investment objective by primarily investing in bonds issued in the People's Republic of China ("PRC") via the Sub-Adviser. BDC Income, Mortgage REIT and Preferred Securities seek to achieve their investment objective through a portfolio of securities in substantially the same weighting as their index.

The Funds' commencement of operations dates and their respective indices are presented below:

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

The Funds are investment companies and are following accounting and reporting requirements of Accounting Standards Codification ("ASC") 946 Financial Services – Investment Companies.

The following is a summary of significant accounting policies followed by the Funds.

Security Valuation—The Funds value their investments in securities and other assets and liabilities at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges or traded on the NASDAQ National Market System are valued at the last sales price as reported at the close of each business day. Securities traded on the NASDAO Stock Market are valued at the NASDAO official closing price. Over-the-counter securities not included in the NASDAQ National Market System and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded, they are categorized as Level 1 in the fair value hierarchy (described below). Debt securities are valued on the basis of evaluated prices furnished by an independent pricing service approved by the Funds' Board of Trustees or provided by securities dealers. The pricing services may use valuation models or matrix pricing, which consider: (i) yield or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate A. and maturity date and/or (ii) quotations from bond dealers to determine current value and are categorized as Level 2 in the fair value hierarchy. Money market fund investments are valued at net asset value and are categorized as Level 1 in the fair value hierarchy. Short-term obligations with more than sixty days remaining to maturity are valued at market value. Short-term obligations with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Securities for which quotations are not available are stated at fair value as determined by the Pricing Committee of the Adviser. The Pricing Committee provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments for which market prices are not readily available. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1

measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The transfers between levels of the fair value hierarchy assume the financial instruments were transferred at the beginning of the reporting period. The three levels of the fair value hierarchy are described below:

Level 1 — Quoted prices in active markets for identical securities.

Level 2 — Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs, the levels used to value the Funds' investments, and transfers between levels are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

Federal Income Taxes—It is each Fund's policy to comply with the provisions of the Internal Revenue Code **B.** applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.

Dividends and Distributions to Shareholders—Dividends to shareholders from net investment income, if any, are declared and paid at least monthly by each Fund (except BDC Income and Mortgage REIT, which are declared and **C.** paid quarterly). Distributions of net realized capital gains, if any, generally are declared and paid annually. Income dividends and capital gain distributions are determined in accordance with income tax regulations, which may differ from such amounts determined in accordance with GAAP.

Currency Translation—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in

D. foreign currency exchange rates is not separately disclosed in the financial statements. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations. The total net realized gains and losses from fluctuations on foreign exchange rates on investments and other foreign currency denominated assets and liabilities are disclosed in Note 5 — Income Taxes.

Restricted Securities—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the **E.** securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.

Repurchase Agreements—The Funds may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Adviser, to generate income from their excess cash balances and to invest securities lending cash collateral. A repurchase agreement is an agreement under which a Fund acquires securities from a seller, subject to resale to the seller at an agreed upon price and date. A Fund, through its custodian/securities lending agent, takes possession of securities collateralizing the repurchase agreement. Pursuant to the terms of the repurchase agreement, such securities must have an aggregate market value greater than or equal to the terms of the

- repurchase price plus accrued interest at all times. If the value of the underlying securities fall below the value of the repurchase price plus accrued interest, the Funds will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the Funds maintain their right to sell the underlying securities at market value and may claim any resulting loss against the seller. Repurchase agreements held as of October 31, 2016 are reflected in the Schedules of Investments.
- **G.Warrants**—The Funds may invest in warrants whose values are linked to indices or underlying instruments. The Funds may use these warrants to gain exposure to markets that might be difficult to invest in through conventional securities. Warrants may be more volatile than their linked indices or underlying instruments. Potential losses are limited to the amount of the original investment. Warrants are obligations of the issuer and are not secured by any collateral. Warrants may be exercised by the Funds during the exercise period. If the warrants have not been

exercised on the last day of the exercise period, the warrants will be automatically exercised on that day. Warrants held at October 31, 2016, if any, are reflected in the Schedules of Investments.

Use of Derivative Instruments—The Funds may make investments in derivative instruments, including, but not limited to, options, futures, swaps and other derivatives relating to foreign currency transactions. A derivative is an instrument whose value is derived from underlying assets, indices, reference rates or a combination of these factors. Derivative instruments may be privately negotiated contracts (often referred to as over-the-counter ("OTC")

H. derivatives) or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount. Derivative instruments may involve a high degree of financial risk. The use of derivative instruments also involves the risk of loss if the investment adviser is incorrect

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

in its expectation of the timing or level of fluctuations in securities prices, interest rates or currency prices. Investments in derivative instruments also include the risk of default by the counterparty, the risk that the investment may not be liquid and the risk that a small movement in the price of the underlying security or benchmark may result in a disproportionately large movement, unfavorable or favorable, in the price of the derivative instruments.

Futures Contracts—The Funds may purchase or sell futures contracts to gain exposure or to hedge against interest rate movement. Using futures contracts involves various market risks, including interest rate and equity risk as well as the risks that there may be an illiquid market or that a change in the value of the contract may not correlate with changes in the value of the underlying securities.

Upon entering into a futures contract, a Fund is required to deliver to a broker an amount of cash and/or government securities equal to a certain percentage of the contract amount. This amount is known as the "initial margin". Subsequent payments, known as "variation margin", generally are made or received by the Fund each day depending on the fluctuations in the value of the underlying futures contracts, except that in the case of certain futures contracts payments may be made or received at settlement. Such variation margin is recorded for financial statement purposes on a daily basis as an unrealized gain or loss on futures until the futures contract is closed or expires, at which time the net gain or loss is reclassified to realized gain or loss on futures. Treasury-Hedged held futures contracts for six months during the period ended October 31, 2016, with an average notional value of \$4,369,688. Futures contracts held by Treasury-Hedged at October 31, 2016 are reflected in the Schedules of Investments.

At October 31, 2016, Treasury-Hedged held the following derivative instruments:

Asset Derivatives Interest Rate Risk

Futures contracts¹ \$7,594

¹ Statements of Assets and Liabilities location: Variation margin on futures contracts

For Treasury-Hedged, the impact of transactions in derivative instruments during the period ended October 31, 2016, was as follows:

Interest Rate Risk

Net change in unrealized appreciation (depreciation):

Futures contracts² \$9,563

Realized gain (loss)

Futures contracts³ (21,656)

Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of setoff in those agreements allows the Funds to set off any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments, securities lending and repurchase agreements. For financial reporting purposes, the Funds present securities lending and repurchase agreement assets and liabilities on a gross basis in the Statements of Assets and Liabilities. Collateral held at October 31, 2016 is presented in the Schedules of Investments. Refer to related disclosure in Note 2F (Repurchase Agreements) and Note 9 (Securities Lending).

Other—Security transactions are accounted for on trade date. Transactions in certain securities may take longer than the customary settlement cycle to be completed. The counterparty is required to collateralize such trades with cash in excess of the market value of the transaction, which is held at the custodian and marked to market daily. Realized gains and losses are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date.

J. The Funds record distributions received in excess of income from underlying investments as a reduction of cost of investments and/or an increase in realized gains. Such amounts are based upon estimates if actual amounts are not available, and actual amounts of income, realized gains and return of capital may differ from estimated amounts. Interest income, including amortization of premiums and discounts, is accrued as earned. Interest income is generally not earned on debt securities in default or upon determination that the income is not realizable.

² Statements of Operations location: Net change in unrealized appreciation (depreciation) on futures contracts

³ Statements of Operations location: Net realized gain (loss) on futures contracts

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of each Fund's average daily net assets. The Adviser has agreed, at least until September 1, 2017, to voluntarily waive management fees and assume expenses to prevent each Fund's total annual operating expenses (excluding acquired fund fees and expenses, interest expense, trading expenses, offering costs, taxes and extraordinary expenses) from exceeding the expense limitations listed in the table below.

The current expense limitations, management fee rates and the amounts waived/assumed by the Adviser for the period ended October 31, 2016 are as follows:

Fund	•		Management Fee Rate		Waiver of Management Fees	Expenses Assumed by the Adviser
BDC Income	0.40	%	0.40	%	\$ 46,425	\$ —
ChinaAMC China Bond	0.50		0.40		19,220	23,013
EM Investment Grade + BB Rated USD Sovereign Bond	0.40		0.35		15,341	13,861
Emerging Markets Aggregate	0.49		0.35		26,742	15,597
Emerging Markets High Yield	0.40		0.40		107,344	_
Fallen Angel	0.35	*	0.40		122,177	_
International High Yield	0.40		0.40		97,275	_
Investment Grade	0.14		0.35		125,997	_
J.P. Morgan EM	0.47		0.35		_	_
Mortgage REIT	0.40		0.40		52,231	_
Preferred Securities	0.40		0.40		79,814	_
Treasury-Hedged	0.50		0.45		10,318	38,448

^{*}Effective June 20, 2016, the expense limitation for Fallen Angel was reduced from 0.40% to 0.35%.

In addition, Van Eck Securities Corporation, an affiliate of the Adviser, acts as the Funds' distributor (the "Distributor"). Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

Note 4—Investments—For the period ended October 31, 2016, the cost of purchases and proceeds from sales of investments other than U.S. government obligations and short-term obligations (excluding in-kind transactions described in Note 6) were as follows:

Fund	Cost of Investments Purchased	Proceeds from Investments Sold
BDC Income	\$7,091,726	\$6,598,024
ChinaAMC China Bond	690,348	4,420,592
EM Investment Grade + BB Rated USD Sovereign Bond	12,089,042	2,137,324
Emerging Markets Aggregate	699,155	873,114

Treasury-Hedged	4,865,656	130,477	(120,654)	9,823	

The tax character of dividends paid to shareholders during the year ended April 30, 2016 was as follows:

2016 Dividends

Fund	Ordinary Income	Long-Term Capital Gains	Return of Capital
BDC Income	\$7,382,900	\$	\$ —
ChinaAMC China Bond	376,862		264,458
Emerging Markets Aggregate	282,259		450,211
Emerging Markets High Yield	23,208,340		
Fallen Angel	3,091,560	134,200	
International High Yield	6,023,046		1,636,654
Investment Grade	674,950		
J.P. Morgan EM			67,576,480
Mortgage REIT	9,690,275		332,725
Preferred Securities	15,012,980		
Treasury-Hedged	238,620	_	

The tax character of current year distributions will be determined at the end of the current fiscal year.

Qualified late-year losses incurred after October 31, 2015 and within the taxable year, are deemed to arise on the first day of the Funds' next taxable year. For the year ended April 30, 2016, the Funds intend to defer to May 1, 2016 for federal tax purposes qualified late-year losses as follows:

	Late-Year
Fund	Ordinary
	Losses
ChinaAMC China Bond	\$450,174
Emerging Markets Aggregate	69,896
J.P. Morgan EM	45,604,129

At April 30, 2016, the Funds had capital loss carryforwards available to offset future capital gains, as follows:

Fund	No Expiration Short-Term Capital Losses	No Expiration Long-Term Capital Losses
BDC Income	\$1,802,905	\$2,991,979
ChinaAMC China Bond	20,697	
Emerging Markets Aggregate	1,568,899	186,408
Emerging Markets High Yield	7,023,694	18,664,613
International High Yield	609,969	2,481,919
Investment Grade	128,706	47,143
J.P. Morgan EM	8,877,633	13,929,125
Mortgage REIT	1,793,612	20,437,328
Preferred Securities	6,881,312	11,751,772
Treasury-Hedged	149,259	213,931

During the year ended April 30, 2016, ChinaAMC China Bond utilized \$3,938 of accumulated capital loss carryforwards.

Realized gains or losses attributable to fluctuations in foreign exchange rates on investments and other foreign currency denominated assets and liabilities result in permanent book to tax differences, which may affect the tax character of distributions and undistributed net investment income at the end of the Funds' fiscal year and may result in a tax return of capital. For the period May 1, 2016 to October 31, 2016, the net realized losses from foreign currency translations were as follows:

ChinaAMC China Bond	\$(157,826)
Emerging Markets Aggregate	(102,753)
Emerging Markets High Yield	(135)
International High Yield	(926,498)
J.P. Morgan EM	(22,153,69	7)

The Funds recognize the tax benefits of uncertain tax positions only where the position is "more-likely-than-not" to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for all open tax years. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds' financial statements. The Funds are subject to foreign taxes on the appreciation in value of certain investments, and provide for

such taxes on both realized and unrealized appreciation.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the period ended October 31, 2016, the Funds did not incur any interest or penalties.

There are still some uncertainties in the Chinese tax rules governing taxation of income and gains from investments in the PRC due to the lack of formal guidance from the PRC's tax authorities that could result in unexpected tax liabilities for the ChinaAMC China Bond. China generally imposes withholding income tax ("WHT") at a rate of 10% (which may be reduced by the double taxation agreement/arrangement) on dividends and interest derived by nonresidents, including Qualified Foreign Institutional Investors ("QFII") and Renminbi Qualified Foreign Institutional Investors ("RQFIIs"), from issuers resident in China. Under the PRC Corporate Income Tax regime, China also imposes WHT at a rate of 10% (subject to treaty relief) on PRC-sourced capital gains derived by nonresident enterprises, provided that the nonresident enterprises (i) do not have places of business, establishments or permanent establishments in the PRC; and (ii) are not PRC tax resident enterprises. ChinaAMC China Bond currently considers capital gains derived from Chinese bonds to be non PRC-sourced and not subject to WHT.

PRC rules for taxation of RQFIIs (and QFIIs) are evolving and certain of the tax regulations to be issued by the PRC State Administration of Taxation and/or PRC Ministry of Finance to clarify the subject matter may apply retrospectively, even if such rules are adverse to the Fund and their shareholders.

If the PRC tax authorities were to issue differing formal guidance or tax rules regarding the taxation of capital gains from Chinese Bonds to RQFIIs, such as the Sub-Adviser, and/or begin collecting WHT on gains from such investments, ChinaAMC China Bond could be subject to WHT liability. The impact of any such tax liability on the Fund's return could

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

be substantial. The Fund may also be liable to the Sub-Adviser for any tax that is imposed on the Sub-Adviser by the PRC with respect to the Fund's investments.

Note 6—Capital Share Transactions—As of October 31, 2016, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Shares are issued and redeemed by the Funds only in Creation Units, or multiples thereof, as follows:

Fund	Creation	
rulia	Units	
BDC Income	50,000	
ChinaAMC China Bond	100,000	
EM Investment Grade + BB Rated USD Sovereign Bond	100,000	
Emerging Markets Aggregate	50,000	
Emerging Markets High Yield	200,000	
Fallen Angel	50,000	
International High Yield	200,000	
Investment Grade	100,000	
J.P. Morgan EM	200,000	
Mortgage REIT	50,000	
Preferred Securities	50,000	
Treasury-Hedged	100,000	

The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index plus a small amount of cash. For the period ended October 31, 2016, the Funds had in-kind contributions and redemptions as follows:

Fund	In-Kind Contributions	In-Kind Redemptions
BDC Income	\$19,864,646	\$1,718,545
ChinaAMC China Bond		
EM Investment Grade + BB Rated USD Sovereign Bond	4,841,419	
Emerging Markets Aggregate		_
Emerging Markets High Yield	72,915,672	4,673,615
Fallen Angel	70,932,174	8,432,051
International High Yield	4,547,151	_
Investment Grade		2,379,101

J.P. Morgan EM	441,849,471	39,122,535
Mortgage REIT	4,362,871	5,534,649
Preferred Securities	164,982,514	
Treasury-Hedged	20,543	20,543

The in-kind contributions and in-kind redemptions in this table represent the accumulation of each Fund's daily net shareholder transactions including rebalancing activity, while the Statements of Changes in Net Assets reflect shareholder transactions including any cash component of the transactions.

Note 7—Concentration and Other Risks—Each Fund (except BDC Income, Emerging Markets High Yield, Fallen Angel, International High Yield, and Treasury-Hedged) is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers.

Investments in the Funds involve risks similar to those of investing in any bond fund, such as market fluctuations caused by factors such as economic and political developments, changes in interest rates and perceived trends in security prices.

The Funds (except ChinaAMC China Bond, Investment Grade, Mortgage REIT and Preferred Securities) may directly or indirectly invest in non-investment grade securities, often referred to as "junk bonds." Economic downturns may disrupt the high yield market and impair the ability of issuers to repay principal and interest. These high yield securities may involve greater risks and considerations not typically associated with investing in U.S. government bonds and other high quality fixed-income securities. Also, an increase in interest rates would likely have an adverse impact on the value of such obligations. Moreover, high yield securities may be less liquid due to the extent that there is no established retail secondary market and because of a decline in the value of such securities. These Funds may not be able to sell bonds

at desired prices and large purchases or sales of certain high-yield bond issues may cause substantial fluctuations in share price, yield and total return.

BDC Income invests in business development companies which generally invest in less mature private companies or thinly traded U.S. public companies which involve greater risk than well-established publicly-traded companies.

ChinaAMC China Bond, EM Investment Grade + BB Rated USD Sovereign Bond, Emerging Markets Aggregate, Emerging Markets High Yield, Fallen Angel, International High Yield, Investment Grade and J.P. Morgan EM invest in foreign securities. Investments in foreign securities may involve a greater degree of risk than investments in domestic securities due to political, economic or social instability. Foreign investments may also be subject to foreign taxes and settlement delays. Since the Funds may have significant investments in foreign debt securities, they may be subject to greater credit and interest risks and greater currency fluctuations than portfolios with significant investments in domestic debt securities.

Mortgage REIT invests directly in mortgage real estate investment trusts ("mortgage REITs") and is exposed to the risks specific to the real estate market as well as the risks that relate specifically to the way in which mortgage REITs are organized and operated. Mortgage REITs receive principal and interest payments from the owners of the mortgaged properties. Accordingly, mortgage REITs are subject to the credit risk of the borrowers to whom they extend credit. To the extent that a mortgage REIT invests in mortgage-backed securities, it may be subject to default risk or interest rate risk.

Mortgage REIT may invest in mortgage REITs that may trade at a discount or premium to their net asset value.

Preferred Securities invests in preferred securities which are essentially contractual obligations that declare distributions but permit the issuer to defer or suspend distributions. This may require the Fund to account for the distribution that has been deferred or suspended for tax purposes, even though it may not have received this income. Preferred securities are also subject to credit risk. Credit risk refers to the possibility that the issuer of a security will be unable and/or unwilling to make timely distributions of dividends. In addition, preferred securities are subject to interest rate risk. Preferred securities interest rates may move in an inverse direction to that of general interest rates.

Preferred Securities may invest directly in real estate investment trusts ("REITs") and is exposed to the risk of owning real estate directly, as well as to risks that relate specifically to the way in which REITs are organized and operated. REITs generally invest directly in real estate, in mortgages or in some combination of the two. The Fund indirectly bears management expenses along with the direct expenses of the Fund. Individual REITs may own a limited number of properties and may concentrate in a particular region or property type. REITs may also be subject to heavy cash

flow dependency, default by borrowers and self-liquidation.

Treasury-Hedged invests directly in futures contracts and may invest in securities sold short which are designed to hedge against the price sensitivity of below investment grade corporate bonds. A risk of hedging is the imperfect correlation between price movement of the securities sold short and the price movement of the Fund's investments.

Should the Chinese government impose restrictions on the ability of ChinaAMC China Bond to repatriate funds associated with direct investment in bonds issued in the PRC, the Fund may be unable to satisfy distribution requirements applicable to regulated investment companies ("RICs") under the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"), and the Fund may therefore be subject to Fund-level U.S. federal taxes.

Certain Funds may invest directly in the Russian local market. As a result of events involving Ukraine and the Russian Federation, the United States and the European Union ("EU") have imposed sanctions on certain Russian individuals and companies. These sanctions do not currently impact any of the Funds. Additional economic sanctions may be imposed or other actions may be taken that may adversely affect the value and liquidity of the Russian-related issuers' held, if any, by the Funds.

The United Kingdom recently decided to leave the EU, creating economic and political uncertainty in its wake. Significant uncertainty exists regarding the timing of the United Kingdom's withdrawal from the EU and the effects such withdrawal will have on the Euro, European economies and the global markets. This may further impact the value of the Euro and the British pound sterling, and has caused volatility and uncertainty in European and global markets.

At October 31, 2016, the Adviser owned approximately 65% and 57% of EM Investment Grade + BB Rated USD Sovereign Bond and Emerging Markets Aggregate, respectively.

VANECK VECTORS ETF TRUST

NOTES TO FINANCIAL STATEMENTS

(unaudited) (continued)

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the "Plan") for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

For each Fund, the expense for the Plan is included in "Trustees' fees and expenses" in the Statements of Operations. The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities.

Note 9—Securities Lending—To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with The Bank of New York Mellon, the securities lending agent and also the Funds' custodian. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, U.S. government or U.S. government agency securities, shares of an investment trust or mutual fund, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. Daily market fluctuations could cause the value of loaned securities to be more or less than the value of the collateral received. When this occurs, the collateral is adjusted and settled on the next business day. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower and/or earning interest on the investment of the cash collateral. Such fees and collateral interest earned are shared with the securities lending agent under the terms of the securities lending agreement. The Funds may pay reasonable finders', administrative and custodial fees in connection with a loan of its securities. Securities lending income is disclosed as such in the Statements of Operations. The collateral for securities loaned is recognized in the Schedules of Investments and the Statements of Assets and Liabilities. The cash collateral is maintained on the Funds' behalf by the lending agent and is invested in repurchase agreements collateralized by obligations of the U.S. Treasury and/or Government Agencies. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the lender securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at October 31, 2016 are presented on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities.

The following table presents the amount of repurchase agreements held as collateral by type of security on loan pledged as of October 31, 2016:

Fund Corporate Equity Foreign Gross amount Bonds Securities Government of

^{*}Remaining contractual maturity of the agreements: overnight and continuous

Note 10—Bank Line of Credit—The Funds, with the exception of EM Investment Grade + BB Rated USD Sovereign Bond, may participate in a \$200 million committed credit facility (the "Facility") to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing

102

Liabilities

market rates in effect at the time of borrowings. During the period ended October 31, 2016, the following Funds borrowed under this Facility:

				Outstanding
Fund	Days Outstanding	Average	Avaraga	Loan
		Daily	Average Interest	Balance as
		Loan	Rate	of
		Balance	Kate	October 31,
				2016
BDC Income	166	\$505,265	1.79 %	\$ 241,964
China AMC China Bond	3	1,300,000	1.80	
Fallen Angel	1	1,056,106	1.77	
Investment Grade	3	215,308	1.80	_
J.P. Morgan EM	39	3,364,706	1.80	296,303
Mortgage REIT	143	696,743	1.79	135,553
Preferred Securities	127	1,743,118	1.79	

Note 11—Custodian Fees—The Funds have entered into an expense offset agreement with the custodian wherein they receive a credit toward the reduction of custodian fees whenever there are uninvested cash balances. The Funds could have invested their cash balances elsewhere if they had not agreed to a reduction in fees under the expense offset agreement with the custodian. For the period ended October 31, 2016, there were no offsets to custodian fees.

Note 12—Recent Accounting Pronouncements—On August 27, 2014, the Financial Accounting Standards Board issued Accounting Standards Update No. 2014-15 ("ASU 2014-15"), *Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*, which requires management to assess the Funds' ability to continue as a going concern and to provide related disclosures in certain circumstances. Under the new standard, disclosures are required when conditions give rise to substantial doubt about a company's ability to continue as a going concern within one year from the financial statement issuance date. The new standard is effective for the annual period ending after December 15, 2016, and all annual and interim periods thereafter. Management is currently evaluating the impact that ASU 2014-15 will have on financial statement disclosure.

Note 13—Subsequent Events—The Funds have evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued.

The following dividends from net investment income were declared and paid subsequent to October 31, 2016:

Edgar Filing: VanEck Vectors ETF Trust - Form N-CSRS

VANECK VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

October 31, 2016 (unaudited)

At a meeting held on June 10, 2016 (the "Renewal Meeting"), the Board of Trustees (the "Board") of VanEck Vectors ETF Trust (the "Trust"), including all of the Trustees that are not interested persons of the Trust (the "Independent Trustees"), approved the continuation of (i) the investment management agreements between the Trust and Van Eck Associates Corporation (the "Adviser") (the "Investment Management Agreements") with respect to the VanEck Vectors Asia ex-Japan Aggregate Bond ETF, BDC Income ETF, Business Development Company/Specialty Finance ETF, China AMC China Bond ETF (the "China Fund"), Defaulted & Distressed Bond ETF, EM Investment Grade + BB Rated USD Sovereign Bond ETF, Emerging Markets Aggregate Bond ETF, Emerging Markets Corporate Bond ETF, Emerging Markets High Yield Bond ETF, Emerging Markets Short-Term Corporate Bond ETF, European High Yield Bond ETF, European Sovereign Bond ETF, Fallen Angel High Yield Bond ETF, Fixed Income I ETF, Fixed Income II ETF, Global Fallen Angel Bond ETF, Global High Yield Bond ETF, Global High Yield US\$ Bond ETF, Greater China Corporate Bond ETF, Greater China High Yield Bond ETF, International High Yield Bond ETF, International US\$ High Yield Bond ETF, Investment Grade Floating Rate ETF, Japanese Bond ETF, J.P. Morgan EM Local Currency Bond ETF, Mortgage REIT Income ETF, MV Emerging Markets Aggregate Bond ETF, Non-Agency RMBS ETF, Preferred Securities ex Financials ETF, Treasury-Hedged High Yield Bond ETF and USD Emerging Markets Aggregate Bond ETF (each, a "Fund" and together, the "Funds") and (ii) a sub-advisory agreement between the Adviser and China Asset Management (Hong Kong) Limited (the "Sub-Adviser") (the "Sub-Advisory Agreement") with respect to the China Fund. The Investment Management Agreements and the Sub-Advisory Agreement are collectively referred to as the "Agreements."

The Board's approval of the Agreements was based on a comprehensive consideration of all of the information available to the Trustees and was not the result of any single factor. Some of the factors that figured particularly in the Trustees' deliberations and how the Trustees considered those factors are described below, although individual Trustees may have evaluated the information presented differently, giving different weights to various factors.

In preparation for the Renewal Meeting, the Trustees held a meeting on May 10, 2016. At that meeting, the Trustees discussed the information the Adviser, the Sub-Adviser (with respect to the China Fund) and Broadridge Financial Solutions, Inc. ("Broadridge"), an independent third party data provider, had provided to them in advance. The information provided to the Trustees included, among other things, information about the performance (for those Funds which had begun operations) and expenses of the Funds and the Funds' peer funds (other index-based exchange-traded funds ("ETFs")), information about the advisory services provided to the Funds and the personnel providing those services, and the profitability and other benefits enjoyed by the Adviser and its affiliates as a result of the Adviser's relationship with the Funds. In reviewing performance information for the Funds against their peer groups, the Trustees considered that each Fund except for the VanEck Vectors Mortgage REIT Income ETF generally invests in a different group of issuers than the funds in its designated peer group. In addition, as noted below, the Trustees reviewed certain performance information for each Fund that was not provided by Broadridge. For these and other reasons, the Trustees noted that the peer group performance information did not necessarily provide meaningful direct comparisons to the Funds.

The Independent Trustees' consideration of the Agreements was based, in part, on their review of information obtained through discussions with the Adviser at the Renewal Meeting and with the Adviser at the May 10, 2016 meeting regarding the management of the Funds and information obtained at other meetings of the Trustees and/or based on their review of the materials provided by the Adviser and Sub-Adviser (with respect to the China Fund). The Trustees considered the terms of, and scope of services that the Adviser and Sub-Adviser (with respect to the China Fund) provide under, the Agreements, including the Adviser's commitment to waive certain fees and/or pay expenses of each of the Funds to the extent necessary to prevent the operating expenses of each of the Funds from exceeding agreed upon limits for a period of time. With respect to the Sub-Advisory Agreement, the Trustees took into account the unique legal and operational aspects of the China Fund and the Sub-Adviser's experience with respect to Renminbi Qualified Institutional Investors Scheme funds. The Trustees also noted that the Sub-Adviser is a wholly-owned subsidiary of China Asset Management Co. Ltd., China's largest asset management company measured by fund assets under management.

The Trustees concluded that the Adviser, the Sub-Adviser (with respect to the China Fund) and their personnel have the requisite expertise and skill to manage the Funds' portfolios. In evaluating the performance over relevant periods of each of the Funds that had commenced operations prior to the date of the Renewal Meeting (the "Operating Funds"), the Trustees reviewed various performance metrics but relied principally on a comparison of the "gross" performance of each Operating Fund (i.e., measured without regard to the impact of fees and expenses) to the performance of its benchmark index, in each case incorporating any fair value adjustments to the underlying securities. Based on the foregoing, the Trustees concluded that the investment performance of the Operating Funds was satisfactory.

The Trustees also considered information relating to the financial condition of the Adviser and the Sub-Adviser (with respect to the China Fund) and the current status, as they understood it, of the Adviser's and Sub-Adviser's (with respect to the China Fund) compliance environment.

As noted above, the Trustees were also provided various data from Broadridge comparing the Operating Funds' expenses and performance to that of other ETFs. The Trustees noted that the information provided showed that each Operating Fund had management fees (after the effect of any applicable fee waiver) below the average and median of its respective peer group of funds. The Trustees also noted that the information provided showed that each Operating Fund had a total expense ratio (after the effect of any applicable expense limitation) below the average and median of its respective peer group of funds, except for each of VanEck Vectors BDC Income ETF, Emerging Markets Aggregate Bond ETF, Mortgage REIT Income ETF, Treasury-Hedged High Yield Bond ETF and the China Fund, which had a total expense ratio (after the effect of any applicable expense limitation) greater than the average and/or median of its peer group of funds. With respect to these Operating Funds, the Trustees reviewed the amount by which these Operating Funds' total expense ratios (after the effect of any applicable expense limitation) exceeded the average and median of their respective peer groups and information provided by the Adviser providing context for these comparisons. The Trustees concluded, in light of this information and the other information available to them, that the fees paid by the Operating Funds were reasonable in light of the performance of the Operating Funds and the quality of services received.

The Trustees also considered the benefits, other than the fees under the Investment Management Agreements, received by the Adviser from serving as adviser to the Funds.

The Trustees also considered information provided by the Adviser about the overall profitability of the Adviser and its profitability or loss in respect of each Operating Fund. The Trustees reviewed each Fund's asset size, expense ratio and expense cap and noted that the Investment Management Agreements do not include breakpoints in the advisory fee rates as asset levels in a Fund increase. The Trustees considered the volatility of the asset classes (e.g., emerging markets) in which certain of the Operating Funds invest, potential variability in the net assets of these Funds and the sustainability of any potential economies of scale which may exist given where fees are currently set. The Trustees also evaluated the extent to which management fees for the Operating Funds effectively incorporate the benefits of economies of scale. The Trustees noted that the Adviser has capped expenses on each Operating Fund since its inception. Based on the foregoing and the other information available to them, the Trustees determined that the advisory fee rate for each Fund and the sub-advisory fee rate for the China Fund are reasonable and appropriate in relation to the current asset size of each Fund and the other factors discussed above and that the advisory fee rate for each Fund currently reflects an appropriate sharing with shareholders of any economies of scale which may exist. The Trustees also determined that the profits earned by the Adviser with respect to the Funds that were profitable to the Adviser were reasonable in light of the nature and quality of the services received by such Funds. Due to the relatively small size of the China Fund during the period, the Sub-Adviser did not provide the Trustees with profitability information and, therefore, the Trustees did not consider such information.

The Trustees did not consider historical information about the cost of the services provided by the Adviser or the profitability to the Adviser of VanEck Vectors Asia ex-Japan Aggregate Bond ETF, Business Development Company/Specialty Finance ETF, Defaulted & Distressed Bond ETF, EM Investment Grade + BB Rated USD Sovereign Bond ETF, Emerging Markets Corporate Bond ETF, Emerging Markets Short-Term Corporate Bond ETF, European High Yield Bond ETF, European Sovereign Bond ETF, Fixed Income I ETF, Fixed Income II ETF, Global Fallen Angel Bond ETF, Global High Yield Bond ETF, Global High Yield US\$ Bond ETF, Greater China Corporate Bond ETF, Greater China High Yield Bond ETF, International US\$ High Yield Bond ETF, Japanese Bond ETF, MV Emerging Markets Aggregate Bond ETF, Non-Agency RMBS ETF and USD Emerging Markets Aggregate Bond ETF because the Funds had not yet commenced operations at the time of the Renewal Meeting. The Trustees could not consider the historical performance or the quality of services previously provided to each of these Funds although they concluded that the nature, quality and extent of the services to be provided by the Adviser (and the Sub-Adviser, with respect to those Funds in respect of which the Sub-Adviser had been retained) were appropriate based on the Trustees' knowledge of the Adviser and its personnel and the operations of the other series of the Trust.

The Independent Trustees were advised by and met in executive session with their independent counsel at the Renewal Meeting and at their May 10, 2016 meeting as part of their consideration of the Agreements.

MARKET VECTORS ETF TRUST

APPROVAL OF INVESTMENT MANAGEMENT AGREEMENTS

(unaudited) (continued)

In voting to approve the continuation of the Agreements, the Trustees, including the Independent Trustees, concluded that the terms of each Agreement are reasonable and fair in light of the services to be performed, expenses to be incurred and such other matters as the Trustees considered relevant in the exercise of their reasonable judgment. The Trustees further concluded that each Agreement is in the best interest of each Fund and such Fund's shareholders.

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a VanEck Vectors ETF Trust (the "Trust") Prospectus, which includes more complete information. An investor should consider the investment objective, risks, and charges and expenses of the Funds carefully before investing. The prospectus contains this and other information about the investment company. Please read the prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 800.826.2333, or by visiting vaneck.com, or on the Securities and Exchange Commission's website at http://www.sec.gov.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Trust's Form N-Qs are available on the Commission's website at http://www.sec.gov and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 800.826.2333 or by visiting vaneck.com.
