HOW TO READ THIS REPORT

This report contains information that can help you evaluate your investment. It includes details about the Macquarie/First Trust Global Infrastructure/Utilities Dividend & Income Fund (the "Fund") and presents data and analysis that provide insight into the Fund's portfolio's performance and investment approach.

By reading the letter from the Fund's President, James A. Bowen, you will obtain an understanding of how the market environment affected the Fund's performance. The statistical information that follows can help you understand how the Fund's performance and characteristics compared to that of relevant benchmarks.

It is important to keep in mind that the opinions expressed by Mr. Bowen are just that: informed opinions. They should not be considered to be promises or advice. The opinions, like the statistics, cover the period through the date on the cover of this report. Of course, the risks of investing in the Fund are spelled out in the prospectus.

INVESTMENTS IN THE FUND ARE NOT DEPOSITS WITH OR OTHER LIABILITIES OF MACQUARIE BANK LIMITED ACN 008 583 542, OR ANY ENTITY IN THE MACQUARIE BANK GROUP, AND ARE SUBJECT TO INVESTMENT RISK, INCLUDING POSSIBLE DELAYS IN REPAYMENT AND LOSS OF INCOME AND CAPITAL INVESTED. NONE OF MACQUARIE BANK LIMITED, MACQUARIE INFRASTRUCTURE FUND ADVISOR, LLC, FOUR CORNERS CAPITAL MANAGEMENT, LLC, AND ANY MEMBER COMPANY OF THE MACQUARIE BANK GROUP GUARANTEES ANY PARTICULAR RATE OF RETURN OR THE PERFORMANCE OF THE FUND, NOR DO THEY GUARANTEE THE REPAYMENT OF CAPITAL FROM THE FUND OR ANY TAX TREATMENT OF ANY DISTRIBUTION BY THE FUND.

SHAREHOLDER LETTER

MACQUARIE/FIRST TRUST GLOBAL INFRASTRUCTURE/UTILITIES DIVIDEND & INCOME FUND
SEMI-ANNUAL REPORT
NOVEMBER 30, 2004

Dear Shareholders:

The Macquarie/First Trust Global Infrastructure/Utilities Dividend and Income Fund (the "Fund") commenced trading on the New York Stock Exchange on March 26, 2004, under the ticker symbol MFD. We are pleased to announce that both the market share price and the net asset value (NAV) of the Fund are above the Fund's IPO price of \$20.00 per share as of the date of this letter.

The Fund has posted a market share price total return of 20.8% from May 31, 2004 through November 30, 2004, which marked the midway point of the Fund's fiscal year. The Fund's NAV total return was 23.5% over the same period. Both returns outpaced the 18.5% gain posted by the S&P500 Utilities Accumulation Index (in U.S. dollars). At November 30, 2004 the Fund's market share price traded at a 10.0% discount to NAV and at January 11, 2005 the MFD discount is down to 5.8%.

The Fund's performance was primarily driven by equity investments in the Core component of the portfolio. In particular, the Fund benefited from the strong performance of its United Kingdom and Canadian equity investments. The Fund also benefited from weakness in the U.S. dollar.

With respect to the United Kingdom investments, the Portfolio Manager of the core component of the Fund's portfolio, Jon Fitch, of Macquarie Infrastructure Fund Adviser, LLC, capitalized on uncertainty surrounding the U.K. water regulatory review to establish positions in a number of U.K. water companies. The market responded positively to the finalization of this review process, with share prices of these companies performing well both leading up to and after the announcement of the final regulatory decision in December.

In Canada, the Portfolio Manager took advantage of general weakness in the Canadian income funds brought about by interest rate uncertainties, to establish positions in a number of infrastructure entities with attractive fundamentals. The entry into the Canadian market proved timely, and the Fund's holdings in Canada have provided attractive returns.

Four Corners Capital Management LLC manages the Fund's assets within the senior loan component of the portfolio. These assets are invested in senior loans primarily issued by infrastructure-oriented companies. Senior loans have performed well in 2004 due to the sustained economic expansion in the U.S. and rising short-term interest rates. Thanks to strong corporate revenues and profits, the default rate on senior loans has declined. As of November 30, 2004, the S&P/LSTA Leveraged Loan Index default rate stood at 1.15%, well below its recent peak of 7.26% at the close of 2000.

The Fund made a quarterly distribution on December 30, 2004 of \$0.76 per share, which was larger than the distribution in the prior quarters. The larger

distribution was attributable to strong dividend receipts from portfolio holdings during the fourth calendar quarter of 2004 (reflecting the semi-annual dividend payments of a number of holdings), the recognition of mark-to-market income from one of the Fund's investments and short-term capital gains.

While the past year has been a successful beginning for the Fund, global equity markets continue to face a number of challenges, including the outlook for global economic growth, high energy prices, volatility of the U.S. dollar and the potential for higher inflation and interest rates. The Fund continues to pursue its goal of providing a high level of current return, consisting of dividends, interest and other income, while attempting to preserve capital.

Please see the following page for a graphical depiction of the Fund's portfolio. The detailed holdings are shown on the Portfolio of Investments schedule.

We appreciate your continued confidence in our Fund.

Sincerely,
/S/JAMES A. BOWEN
James A. Bowen
President of the Macquarie/First Trust Global
Infrastructure/Utilities Dividend & Income Fund
January 12, 2004

NOTES TO FINANCIAL STATEMENTS

MACQUARIE/FIRST TRUST GLOBAL INFRASTRUCTURE/UTILITIES DIVIDEND & INCOME FUND
NOVEMBER 30, 2004 (UNAUDITED)

1. FUND DESCRIPTION

Macquarie/First Trust Global Infrastructure/Utilities Dividend & Income Fund (the "Fund") is a non-diversified, closed-end management investment company organized as a Massachusetts business trust on January 21, 2004 and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act").

The Fund's investment objective is to seek a high level of current return consisting of dividends, interest and other similar income while attempting to preserve capital. In pursuit of the objective, the Fund seeks to manage its investments and expenses so that a significant portion of its distributions to the Fund's common shareholders will qualify as tax-advantaged dividends, subject to the continued availability of favorable tax treatment for such qualifying dividends. The Fund seeks to achieve its investment objective by investing in a non-diversified portfolio of equity, debt, preferred or convertible securities and other instruments (for instance, other instruments could include Canadian income trusts and Australian stapled securities) issued by U.S. and non-U.S. issuers ("Infrastructure Issuers") that have as their primary focus (in terms of income and/or assets) the management, ownership and/or operation of infrastructure and utilities assets ("Infrastructure Assets") in a select group of countries.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

PORTFOLIO VALUATION:

The net asset value ("NAV") of the Common Shares of the Fund is computed based upon the value of the Fund's portfolio and other assets. The NAV is determined as of the close of regular trading on the New York Stock Exchange ("NYSE"), normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. Domestic debt securities and foreign securities are priced using data reflecting the earlier closing of the principal markets for those securities. The NAV is computed by dividing the value of all assets of the Fund (including accrued interest and dividends), less all liabilities (including accrued expenses and dividends declared but unpaid), by the total number of shares outstanding.

The Fund's investments are valued daily at market value, or in the absence of market value, with respect to any portfolio securities, at fair value in accordance with valuation procedures adopted by the Board of Trustees. A majority of the Fund's assets are valued using market information supplied by third parties. In the event that market quotations are not readily available, the pricing service does not provide a valuation for a particular asset, or the valuations are deemed unreliable, or if events occurring after the close of the principal markets for particular securities (e.g., domestic debt and foreign securities), but before the Fund values its assets, would materially affect NAV, First Trust Advisors L.P. ("First Trust") may use a fair value method in good faith to value the Fund's securities and investments. The use of fair value pricing by the Fund is governed by valuation procedures approved by the Fund's Board of Trustees, and in accordance with the provisions of the 1940 Act.

Foreign securities traded outside the United States are generally valued as of the time their trading is complete, which is usually different from the close of the NYSE. Occasionally, events affecting the value of such securities may occur between such times and the close of the NYSE that will not be reflected in the

computation of the Fund's NAV. If events materially affecting the value of such securities occur during such period, these securities will be valued at their fair value according to procedures approved by the Fund's Board of Trustees. All securities and other assets of the Fund initially expressed in foreign currencies will be converted to U.S. dollars using exchange rates in effect at the time of valuation.

Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities traded on the NASDAQ, are valued at the closing bid prices. Short-term investments that mature in 60 days or less are valued at amortized cost.

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

MACQUARIE/FIRST TRUST GLOBAL INFRASTRUCTURE/UTILITIES DIVIDEND & INCOME FUND
NOVEMBER 30, 2004 (UNAUDITED)

The Senior Floating Rate Interests ("Senior Loans") in which the Fund invests are not listed on any securities exchange or board of trade. Senior Loans are typically bought and sold by institutional investors in individually negotiated private transactions that function in many respects like an over-the-counter secondary market, although typically no formal market-makers exist. This market, while having substantially grown in the past several years, generally has fewer trades and less liquidity than the secondary market for other types of securities. Some Senior Loans have few or no trades, or trade infrequently, and information regarding a specific Senior Loan may not be widely available or may be incomplete. Accordingly, determinations of the market value of Senior Loans may be based on infrequent and dated information. Because there is less reliable, objective data available, elements of judgment may play a greater role in valuation of Senior Loans than for other types of securities. Typically Senior Loans are valued using information provided by an independent third party pricing service. If the pricing service cannot or does not provide a valuation for a particular Senior Loan or such valuation is deemed unreliable, First Trust may value such Senior Loan at a fair value as determined in good faith under procedures approved by the Fund's Board of Trustees, and in accordance with the provisions of the 1940 Act.

REPURCHASE AGREEMENT:

The Fund engages in repurchase agreement transactions. Under the terms of a typical repurchase agreement, the Fund takes possession of an underlying debt obligation subject to an obligation of the seller to repurchase, and the Fund to resell the obligation at an agreed-upon price and time, thereby determining the yield during the Fund's holding period. This arrangement results in a fixed rate of return that is not subject to market fluctuations during the Fund's holding period. The value of the collateral is at all times at least equal to the total amount of the repurchase obligations, including interest. In the event of

counterparty default, the Fund has the right to use the collateral to offset losses incurred. There is potential loss to the Fund in the event the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities, including the risk of a possible decline in the value of the underlying securities during the period while the Fund seeks to assert its rights. The Fund reviews the value of the collateral and the creditworthiness of those banks and dealers with which the Fund enters into repurchase agreements to evaluate potential risks.

CASH FLOW INFORMATION:

The Fund issues its shares, invests in securities, and distributes dividends from net investment income (which are either paid in cash or reinvested at the discretion of shareholders). These activities are reported in the Statement of Changes in Net Assets. Information on cash receipts and disbursements is presented in the Statement of Cash Flows. Accounting practices that do not affect reporting activities on a cash basis include unrealized gain or loss on investment securities, and accretion/amortization of discount /premium recognized on investment securities.

SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Market premiums and discounts are amortized over the expected life of each respective borrowing.

Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income is not accrued until settlement date. The Fund instructs the custodian to segregate assets of the Fund with a current value at least equal to the amount of its when-issued purchase commitments.

Amendment fees are compensation for evaluating and accepting changes to credit agreements. Commitment fees are compensation received on undrawn amounts under a revolving credit agreement. Facility fees are received on a facility's entire committed amount, regardless of usage. Delayed compensation fees are received for delays of settlement of interest income.

UNFUNDED LOAN COMMITMENTS:

The Fund may enter into certain credit agreements, all or a portion of which may be unfunded. The Fund is obligated to fund these loan commitments at the borrower's discretion. These commitments are disclosed in the accompanying Portfolio of Investments and Statement of Assets and Liabilities.

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FOREIGN CURRENCY:

The books and records of the Fund are maintained in U.S. dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. dollars at the exchange rates prevailing at the end of the period. Purchases and sales of investment securities and items of income and expense are translated on the respective dates of such transactions. Unrealized gains and losses which result from changes in foreign currency exchange rates have been included in the unrealized appreciation/(depreciation) of investments and net other assets and liabilities. Net realized foreign currency gains and losses include the effect of changes in exchange rates between trade date and settlement date on investment security transactions, foreign currency transactions and interest and dividends received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in realized gains and losses on investment securities sold.

DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

Dividends from net investment income of the Fund are declared and paid quarterly or as the Board of Trustees may determine from time to time. Distributions of any net capital gains earned by the Fund are distributed at least annually. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund.

INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and by distributing all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

EXPENSES:

The Fund will pay all expenses directly related to its operations.

ORGANIZATIONAL AND OFFERING COSTS:

Organization costs consist of costs incurred to establish the Fund and enable it to legally do business. These costs include listing fees, legal services pertaining to the organization of the business and audit fees relating to the initial registration and auditing the initial statement of assets and liabilities, among other fees. Offering costs consist of legal fees pertaining to the Fund's shares offered for sale, registration fees, underwriting fees, and printing of initial prospectus, among other fees. First Trust, Macquarie Infrastructure Fund Adviser, LLC ("MIFA") and Four Corners Capital Management, LLC ("Four Corners") have paid all organizational expenses and all offering costs of the Fund (other than sales load) that exceed \$0.04 per Common Share. The Fund's share of Common Share offering costs, \$359,209, were recorded as a

reduction of the proceeds from the sale of Common Shares at May 31, 2004.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for the ongoing monitoring of the Fund's investment portfolio, managing the Fund's business affairs and certain administrative services necessary for the management of the Fund. For its investment management services, First Trust is entitled to a quarterly fee calculated at an annual rate of 0.40% of the Fund's total assets (as defined in the prospectus), up to \$250 million and 0.35% of the Fund's total assets over \$250 million.

MIFA and Four Corners serve as the Fund's sub-advisors and manage the Fund's portfolio subject to First Trust's supervision. MIFA manages the Core Component and for its portfolio management services, MIFA is entitled to a quarterly fee calculated at an annual rate of 0.60% for that portion of the Fund's Total Assets allocated to MIFA. If the Fund's Total Assets are greater than \$250 million, MIFA will receive an annual portfolio management fee of 0.65% for that portion of the Fund's Total Assets over \$250 million. In addition, to the

Page 14

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

MACQUARIE/FIRST TRUST GLOBAL INFRASTRUCTURE/UTILITIES DIVIDEND & INCOME FUND
NOVEMBER 30, 2004 (UNAUDITED)

extent that MIFA invests a portion of the Core Component in unlisted securities ("Core Unlisted Instruments"), MIFA is entitled to receive a supplemental fee of 0.60% of that portion of the Fund's Total Assets invested in Core Unlisted Instruments. Four Corners manages the Senior Loan Component and, for its portfolio management services, Four Corners is entitled to a quarterly fee calculated at an annual rate of 0.60% for that portion of the Fund's Total Assets allocated to Four Corners.

PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc., serves as the Fund's Administrator and Transfer Agent in accordance with certain fee arrangements. PFPC Trust Company, an indirect, majority-owned subsidiary of The PNC Financial Services Group Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

Effective June 7, 2004, the Trustees of the Fund approved a revised compensation plan. Under the revised plan, the Fund pays each Trustee who is not an officer or employee of First Trust or any of its affiliates an annual retainer of \$10,000 which includes compensation for all regular quarterly board meetings and regular committee meetings. No additional meeting fees are paid in connection with regular quarterly board meetings or regular committee meetings. Additional fees of \$1,000 and \$500 are paid to non-interested Trustees for special board meetings and non-regular committee meetings, respectively. These additional fees are shared by the funds in the First Trust fund complex that participate in the particular meeting and are not per fund fees. Trustees are also reimbursed for travel and out-of-pocket expenses in connection with all meetings. The Trustees adopted the revised plan because the increase in the number of funds in the

First Trust complex had the effect of rapidly increasing their compensation under the previous arrangements. Prior to June 7, 2004, the Fund paid each Trustee who was not an officer or employee of First Trust or any of its affiliates \$10,000 per annum plus \$1,000 per regularly scheduled meeting attended, \$500 per committee meeting attended and reimbursement for travel and out-of-pocket expenses.

4. PURCHASES AND SALES OF SECURITIES

Cost of purchases and proceeds from sales of investment securities, excluding short-term investments, for the six months ended November 30, 2004, aggregated amounts were \$142,399,573 and \$70,631,498, respectively.

As of November 30, 2004, the aggregate gross unrealized appreciation for all securities, in which there was an excess of value over tax cost, was \$31,252,372 and the aggregate gross unrealized depreciation for all securities, in which there was an excess of tax cost over value, was \$108,268.

5. COMMON STOCK

As of November 30, 2004, 8,980,236 of \$0.01 par value Common Shares were issued and outstanding. An unlimited number of Common Shares has been authorized under the Fund's Dividend Reinvestment Plan.

6. REVOLVING CREDIT AND SECURITY AGREEMENT

The Fund has entered into a Revolving Credit and Security Agreement among the Fund, CRC Funding, LLC, as conduit lender and Citigroup North America, Inc., as secondary lender, which provides for a revolving credit facility to be used as leverage for the Fund. The credit facility provides for a secured line of credit for the Fund, where Fund assets are pledged against advances made to the Fund. Under the requirements of the 1940 Act, the Fund, immediately after any such borrowings, must have an "asset coverage" of at least 300% (33 1/3% of the Fund's total assets after borrowings). The total commitment under the Revolving Credit and Security Agreement is \$75,000,000. For the six months ended November 30, 2004, the average amount outstanding was \$63,172,131 with a weighted average interest rate of 1.59%. The Fund also pays additional borrowing costs, which includes an administration fee of 0.02%, a program fee of 0.35% and a liquidity fee of 0.14% per year.

7. SENIOR LOANS

Senior Loans in the Fund's portfolio generally are subject to mandatory and/or optional prepayment. Because of these mandatory prepayment conditions and because there may be significant economic incentives for a Borrower to prepay, prepayments of Senior Loans in the Fund's portfolio may occur. As a result, the actual remaining maturity of Senior Loans held in the Fund's portfolio may be substantially less than the stated maturities shown. Senior Loans generally have maturities that range from five to eight years; however, the Fund estimates that refinancings and prepayments result in an average maturity of the Senior Loans held in it's portfolio of generally between 18-36 months.

Senior Loans in which the Fund invests generally pay interest at rates which are periodically redetermined by reference to a base lending rate plus a premium. These base lending rates are generally (i) the lending rate offered by one or more major European banks, such as the London Inter-Bank Offered Rate ("LIBOR"), (ii) the prime rate offered by one or more major United States banks or (iii) the certificate of deposit rate. Senior Loans are generally considered to be restricted in that the Fund ordinarily is contractually obligated to receive approval from the Agent Bank and/or Borrower prior to the disposition of a Senior Loan.

8. CONCENTRATION OF RISK

The Fund intends to invest up to 100% of its Total Assets in the securities and instruments of Infrastructure Issuers. Given this industry concentration, the Fund will be more susceptible to adverse economic or regulatory occurrences affecting that industry than an investment company that is not concentrated in a single industry. Infrastructure Issuers, including utilities and companies involved in infrastructure projects, may be subject to a variety of factors that may adversely affect their business or operations, including high interest costs in connection with capital construction programs, high leverage, costs associated with environmental and other regulations, the effects of economic slowdown, surplus capacity, increased competition from other providers of services, uncertainties concerning the availability of fuel at reasonable prices, the effects of energy conservation policies and other factors.

9. SUBMISSION OF MATTERS TO A VOTE OF SHAREHOLDERS

The Joint Annual Meeting of Shareholders of First Trust Value Line(R) Dividend Fund, First Trust/Four Corners Senior Floating Rate Income Fund, Macquarie/First Trust Global Infrastructure/Utilities Dividend & Income Fund, First Trust/Value Line(R) & Ibbotson Equity Allocation Fund, and First Trust/Four Corners Senior Floating Rate Income Fund II was held on September 13, 2004. At the Annual Meeting the Fund's Board of Trustees, consisting of James A. Bowen, Niel B. Nielson, Thomas R. Kadlec, Richard E. Erickson and David M. Oster, was elected to serve an additional one year term. The number of votes cast for James A. Bowen was 5,415,025, the number of votes withheld was 35,540 and the number of abstentions was 3,529,671. The number of votes cast for Niel B. Nielson was 5,414,425, the number of votes withheld was 36,140 and the number of abstentions was 3,529,671. The number of votes cast for Richard E. Erickson was 5,412,875, the number of votes withheld was 37,690 and the number of abstentions was 3,529,671. The number of votes cast for Thomas R. Kadlec was 5,415,025, the number of votes withheld was 35,540 and the number of abstentions was 3,529,671. The number of votes cast for David M. Oster was 5,418,290, the number of votes withheld was 32,275 and the number of abstentions was 3,529,671.

10. SUBSEQUENT EVENT

On December 6, 2004, the Fund declared a dividend of \$0.76 per share which represents a dividend from net investment income to Common Shareholders of record on December 22, 2004, payable December 30, 2004.

Page 16

ADDITIONAL INFORMATION (UNAUDITED)

MACQUARIE/FIRST TRUST GLOBAL INFRASTRUCTURE/UTILITIES DIVIDEND & INCOME FUND
NOVEMBER 30, 2004

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect to receive cash distributions, all dividends, including any capital gain distributions, on your Common Shares will be automatically reinvested by PFPC (the "Plan Agent") in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by PFPC, as the dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If the Common Shares are trading at or above net asset value at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) net asset value per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If the Common Shares are trading below net asset value at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the NYSE or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you.

If you hold your Common Shares with a brokerage firm that does not participate

in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

PROXY VOTING POLICIES AND PROCEDURES

A description of the policies and procedures that the Fund uses to determine how to vote proxies and information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available (1) without charge, upon request, by calling (800) 988-5891; (2) on the Fund's website located at <http://www.ftportfolios.com>; and (3) on the Securities and Exchange Commission's website located at <http://www.sec.gov>.

PORTFOLIO HOLDINGS

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available (1) by calling (800) 988-5891; (2) on the Fund's website located at <http://www.ftportfolios.com>; (3) on the SEC's website at <http://www.sec.gov>; and (4) for review and copying at the SEC's Public Reference Room ("PRR") in Washington, DC. Information regarding the operation of the PRR may be obtained by calling 1-800-SEC-0330.

ITEM 10. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which the shareholders may recommend nominees to the registrant's board of directors, where those changes were implemented after the registrant last provided disclosure in response to the requirements of Item 7(d)(2)(ii)(G) of Schedule 14A (17 CFR 240.14a-101), or this Item.

ITEM 11. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).

- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d)) that occurred during the registrant's second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.

ITEM 12. EXHIBITS.

- (a) (1) Not applicable.
- (a) (2) Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
- (a) (3) Not applicable.
- (b) Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 906 of the Sarbanes-Oxley Act of 2002 are attached hereto.
