SHAREHOLDER LETTER

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND (FFA)
ANNUAL REPORT
DECEMBER 31, 2006

Dear Shareholders:

We are pleased to present this annual report of the First Trust/Fiduciary Asset Management Covered Call Fund (the "Fund") (NYSE symbol: FFA). The Fund posted gains in both market value and net asset value ("NAV") for the twelve-month reporting period ended December 31, 2006.

The markets had a strong performance year in 2006. The U.S. economy expanded, stock markets performed positively, and many of the major economic indicators were positive. Value stocks outperformed growth stocks for the majority of 2006. Throughout most of the year, the Fund had a bias toward growth oriented sectors, which hindered underlying equity performance. As we begin 2007, one of the most touted areas of the market is large-cap stocks, particularly large-cap growth stocks. The portfolio managers continue to overweight the growth segments of the economy based on relative valuations and their economic outlook. For a more detailed discussion of the portfolio strategy, I encourage you to read the commentary from the portfolio management team at Fiduciary Asset Management, LLC found on the following pages. It includes a review of the specific market conditions that affected the Fund's performance as well as the portfolio managers' outlook for the markets.

First Trust serves as investment advisor or portfolio supervisor to investment portfolios with approximately \$28 billion in assets which it managed or supervised as of December 31, 2006. We value our relationship with our investors and appreciate the opportunity to assist you in achieving your financial goals.

Sincerely,

/S/ JAMES A. BOWEN

James A. Bowen

PORTFOLIO COMMENTARY

MARKET RECAP

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

The S&P 500 Index total return was dominated by value stocks during 2006, with the top-three sectors in terms of performance including Telecommunication Services, Energy, and Utilities. As a broader illustration, the Russell 1000 Value Index outperformed the Russell 1000 Growth Index by 13 percentage points for the year ended December 31, 2006. We believe the Federal Reserve policy outlook had much to do with the out-performance of the value sector in 2006 throughout the majority of the year, as investors focused on inflation expectations and wage pressures to build a consensus view that projected further interest rate hikes.

Based on our strategic view that inflationary pressures were transitory and that the Federal Reserve Board (the "Fed") would lean more toward easing interest rate policy as the year progressed, we biased the Fund in more growth oriented sectors given the valuation and growth attractiveness relative to value counterparts. We chose to underweight defensive industries that exhibited sub-market growth prospects, which paradoxically experienced dramatic price-to-earnings multiple expansion and investor attention throughout the year.

Nonetheless, falling commodity prices and lower inflation based on slowing economic activity has traditionally marked an inflection point in the market cycle that has favored large-cap equities. As economic activity slows below trend line and inflationary pressures wane, we believe Fed policy will favor a more active role in reigniting economic growth. We continue to overweight the growth segments of the economy based on relative valuations and our anticipated economic outlook.

PERFORMANCE

The market value total return for the Fund was 17.3% for the year ending December 31, 2006. The Fund produced a NAV total return of 7.1% for the year as compared to the S&P 500 Index performance of 15.8%. The Lehman U.S. Aggregate Index - the fixed-income comparable - returned 4.3%. Another index, the CBOE S&P 500 BuyWrite Index (BXM), returned 13.3% for the same period.

Page 2

PORTFOLIO COMMENTARY - CONTINUED

Despite investor bias for value-style equities, the Fund successfully participated in a number of growth industries during 2006. Within the Consumer Discretionary sector, the Fund's exposure to the casino industry helped to generate excess relative returns, owning MGM MIRAGE, in particular, (representing 2.3% of the Fund's portfolio as of December 31, 2006) which stock value increased 56% and ranked as the top performing equity for the Fund during the year. Similarly, positions in the retailing industry - namely Nordstrom (representing 1.4% of the Fund's portfolio as of December 31, 2006) and Target (representing 1.1% of the Fund's portfolio as of December 31, 2006) similarly added to equity performance, advancing 34% and 17%, respectively.

Once again, Fund holdings in the Diversified Financial Services industry helped to generate strong relative performance. Specific overweight holdings included Goldman Sachs Group Inc. (no longer owned in the Fund's portfolio as of December 31, 2006), Bear Stearns Cos. (representing 1.9% of the Fund's portfolio as of December 31, 2006) and Lehman Brothers Holdings, Inc. (representing 2.6% of the Fund's portfolio as of December 31, 2006) performed exceedingly well for the year, increasing 55%, 42%, and 23%, respectively.

Given investor attraction to equities with relatively stable return streams, the

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

Fund's exposure to the Consumer Staples sector performed well during the year, especially CVS Corp. (no longer owned in the portfolio as of December 31, 2006) which added solid relative performance for the Fund by advancing 17%. Equities within the Wireless Telecommunication Services sector such as ALLTEL Corp (representing 3.4% of the Fund's portfolio as of December 31, 2006) and Verizon Communications Inc. (representing 0.8% of the Fund's portfolio as of December 31, 2006) are similarly believed to have benefited from investor attention - up 19% and 35%, respectively -- despite uninspiring earnings performance.

On the whole, the Fund's overweighting in the growth-oriented Technology sector hindered underlying equity performance, in particular companies participating in the Communications Equipment industry. Despite generating strong earnings performance throughout the year, equities such as QUALCOMM Inc (representing 1.0% of the Fund's portfolio as of December 31, 2006), Texas Instruments (representing 2.0% of the Fund's portfolio as of December 31, 2006) and Corning Inc. (representing 1.5% of the Fund's portfolio as of December 31, 2006) found price-to-earnings multiples contracting as investor risk aversions are believed to have increased and returns declined correspondingly at 11%, 10%, and 23%, respectively.

Conversely, bellwether technology stalwarts such as Apple Inc. (representing 1.6% of the Fund's portfolio as of December 31, 2006) and Microsoft Corp, (representing 2.1% of the Fund's portfolio as of December 31, 2006) performed modestly better than the sector, while the Fund's top-performing technology company - BEA Systems Inc. (no longer owned in the Fund's portfolio as of December 31, 2006) helped to offset some return weakness from other technology holdings, advancing 39% for the year.

In contrast to 2005, the Fund's exposure to the healthcare services and biotechnology industries in 2006 negatively impacted relative performance. Similar to a large number of growth-oriented equities, strong profits from the Fund's positions such as Genentech Inc. (representing 1.4% of the Fund's portfolio as of December 31, 2006) and UnitedHealth Group Inc. (representing 2.0% of the Fund's portfolio as of December 31, 2006) nonetheless suffered in a decline of valuations with returns down 12% and 13%, respectively.

Low volatility levels within the Fund's underlying equity portfolio reduced the amount of call option premium the Fund was able to generate in advance of the market correction during the spring of 2006, negatively impacting overall covered call performance for that time period. However, once the market bottomed during mid-summer 2006, we were able to adjust the option overlay to capture more of the equity performance through the end of the year.

DIVIDENDS

During 2006, the Fund declared and paid four-quarterly dividends to shareholders. The aggregate amount of these dividends, \$1.60 per share, computes to an annualized yield of 8.7% based upon the December 31, 2006 Common Share price of \$18.41 per share. Of this total, \$1.30 per share represented ordinary income and \$0.30 per share was from long-term capital gains.

OUTLOOK

Since our semi-annual report to shareholders, our view of the economy has not been dramatically altered as we continue to expect economic growth to remain about a percentage-point below historic trend-line growth of approximately 3.5%. We believe the current housing and manufacturing weakness is a direct result of the Fed's continuing tight monetary policy, designed to soften these flash-points of the economy enough to lower the core inflation reading to its targeted range of 1% to 2% annually.

In our opinion, the equity market retains strong fundamentals despite perceived

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

uncertainty surrounding inflation, economic growth, or Fed's monetary actions. Corporations have excess cash which we believe will continue to be used for dividend increases, share buybacks, acquisitions and capital investments. Private equity funds, which raised about \$750 billion from investors in 2006, are also cash rich with a mission to invest the money. Equity markets may also derive thrust from rising price earnings multiples if inflation continues decelerating, which should cause long-term bond yields to decline. Relative valuation still favors equities versus fixed-income, although equities' valuation advantage could diminish if earnings have an unexpected decline.

NOTES TO FINANCIAL STATEMENTS

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND
DECEMBER 31, 2006

1. FUND DESCRIPTION

First Trust/Fiduciary Asset Management Covered Call Fund (the "Fund") is a diversified closed-end management investment company organized as a Massachusetts business trust on May 20, 2004 and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FFA on the New York Stock Exchange ("NYSE").

The Fund's investment objective is to provide a high level of current income and gains and, to a lesser extent, capital appreciation. The Fund seeks to achieve its investment objective by investing in a diversified portfolio of equity securities and writing (selling) call options on at least 80% of the Fund's Managed Assets ("Managed Assets" means the average daily gross assets of the Fund minus the sum of the Fund's accrued and unpaid dividends on any outstanding Common Shares and accrued liabilities, including the value of call options written). There can be no assurance that the Fund's investment objective will be achieved.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

A. PORTFOLIO VALUATION:

The Fund determines the net asset value ("NAV") of its shares daily, as of the close of regular session trading on the NYSE, normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. The NAV is computed by dividing the value of all assets of the Fund (including accrued interest and dividends), less all liabilities (including accrued expenses, the value of call options written (sold) and dividends declared but unpaid), by the total number of Common Shares outstanding.

The Fund's investments are valued at market value, or in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities trading on the NASDAQ, are valued at the closing bid prices. Fixed income securities with a remaining maturity of 60 days or more will be valued by the Fund using a pricing service. Short-term investments that mature in less than 60 days are valued at amortized cost.

The Fund values exchange-traded options and other derivative contracts at the closing price on the exchange on which they are principally traded, or if not traded, or no closing price is available, at the mean between the last bid and asked price.

B. OPTION CONTRACTS:

COVERED OPTIONS. When the Fund purchases equity securities, it simultaneously writes (sells) covered call or put options ("options") on substantially all of such equity securities. The number of options the Fund can write (sell) is limited by the amount of equity securities the Fund holds in its portfolio. The Fund will not write (sell) "naked" or uncovered options. By writing (selling) options, the Fund seeks to generate additional income, in the form of premiums received for writing (selling) the options, and provide a partial hedge against a market decline in the underlying equity security. Options are marked-to-market daily and their value will be affected by changes in the value and dividend rates of the underlying equity securities, an increase in interest rates, changes in the actual or perceived volatility of the securities markets and the underlying equity securities and the remaining time to the options' expiration. The value of options may also be adversely affected if the market for the options becomes less liquid or smaller.

Options the Fund writes (sells) will either be exercised, expire or be cancelled pursuant to a closing transaction. If the price of the underlying equity security exceeds the option's exercise price, it is likely that the option holder will exercise the option. If an option written (sold) by the Fund is exercised, the Fund would be obligated to deliver the underlying equity security to the option holder upon

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND
DECEMBER 31, 2006

payment of the exercise price. In this case, the option premium received by the Fund will be added to the amount realized on the sale of the underlying equity security for purposes of determining gain or loss. If the price of the underlying equity security is less than the option's exercise price, the option will likely expire without being exercised. The option premium received by the Fund will, in this case, be treated as short-term capital gain on the expiration date of the option. The Fund may also elect to close out its position in an option prior to its expiration by purchasing an option of the same series as the option written (sold) by the Fund.

The Fund writes (sells) options on at least 80% of the Fund's Managed Assets. These options give the option holder the right, but not the obligation, to purchase a security from the Fund at the strike price on or prior to the option's expiration date. The ability to successfully implement the Fund's investment strategy depends on the ability of Fiduciary Asset Management, LLC ("Fiduciary" or the "Sub-Advisor") to predict pertinent market movements, which cannot be assured. Thus, the use of options may require the Fund to sell portfolio securities at inopportune times or for prices other than current market value, may limit the amount of appreciation the Fund can realize on an investment, or may cause the Fund to hold a security that it might otherwise sell. As the writer (seller) of a covered option, the Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the security covering the option above the sum of the premium and the strike price of the option, but has retained the risk of loss should the price of the underlying security decline. The writer (seller) of an option has no control over the time when it may be required to fulfill its obligation as a writer (seller) of the option. Once an option writer (seller) has received an exercise notice, it cannot effect a closing purchase transaction in order to terminate its obligation under the option and must deliver the underlying security to the option holder at the exercise price.

PURCHASED OPTIONS. The purchase of a put option entitles the Fund, in exchange for the premium paid, to sell specific securities at a specified price during the option period. The purchase of protective puts is designed to offset or hedge against a decline in the market value of the Fund's portfolio securities. Put options may also be purchased by the Fund for the purpose of affirmatively benefiting from a decline in the price of securities which it does not own. The Fund will ordinarily realize a gain if, during the option period, the value of the underlying securities decreases below the exercise price sufficiently to cover the premium and transaction costs; otherwise, the Fund will realize either no gain or a loss on the purchase of the put option. Gains and losses on the purchase of put options may be offset by countervailing changes in the value of the Fund's portfolio securities.

C. SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis, including amortization of premiums and accretion of discounts.

D. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

Dividends from net investment income of the Fund are declared and paid quarterly

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

or as the Board of Trustees may determine from time to time. Distributions of any net realized capital gains earned by the Fund are distributed at least annually. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and realized capital gains are determined in accordance with income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund.

The tax character of distributions paid during the fiscal years ended December 31, 2006 and December 31, 2005 is as follows:

Distributions paid from:

	2006	2005
	----	----
Ordinary Income.....	\$ 26,007,917	\$ 31,805,703
Long-Term Capital Gains.....	5,949,145	--

As of December 31, 2006, the components of distributable earnings on a tax basis were as follows:

Undistributed Long-Term Capital Gains.....	\$ 1,141,089
Net Unrealized Depreciation.....	(10,037,577)

Page 18

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND DECEMBER 31, 2006

E. INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and by distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

F. EXPENSES:

The Fund pays all expenses directly related to its operations.

G. NEW ACCOUNTING PRONOUNCEMENT:

In July 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes." This pronouncement provides guidance on the recognition, measurement, classification, and disclosures related to uncertain tax positions, along with any related interest and penalties. FIN 48 is effective for fiscal years beginning after December 15, 2006. Management is currently evaluating the implications of FIN 48 and its impact on the financial statements which has not yet been determined.

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

In addition, in September 2006, Statement of Financial Accounting Standards No. 157 Fair Value Measurements ("SFAS 157") was issued by the FASB and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management is currently evaluating the impact the adoption of SFAS 157 could have on the Fund's financial statement disclosures.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for the ongoing monitoring of the Fund's investment portfolio, managing the Fund's business affairs and certain administrative services necessary for the management of the Fund. For these investment management services, First Trust is entitled to a monthly fee calculated at an annual rate of 1.00% of the Fund's Managed Assets.

Fiduciary serves as the Fund's sub-advisor and manages the Fund's portfolio subject to First Trust's supervision. The Sub-Advisor receives a portfolio management fee calculated at an annual rate of 0.50% of the Fund's Managed Assets that is paid monthly by First Trust out of its investment advisory fee.

PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Administrator and Transfer Agent in accordance with certain fee arrangements. PFPC Trust Company, also an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

The Fund paid each Trustee who is not an officer or employee of First Trust or any of its affiliates (the "Independent Trustees") an annual retainer of \$10,000, which includes compensation for all Board and Committee meetings. Trustees are also reimbursed for travel and out-of-pocket expenses in connection with all meetings.

Effective June 12, 2006, the Board of Trustees unanimously appointed Robert F. Keith to the Board of Trustees and as a member of the Fund's Audit Committee, Valuation Committee and Nominating and Governance Committee.

4. PURCHASES AND SALES OF SECURITIES AND OPTIONS

Cost of purchases and proceeds from sales of investment securities, excluding short-term investments, for the year ended December 31, 2006 were \$499,044,415 and \$537,549,755, respectively.

As of December 31, 2006, the aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost was \$16,269,765 and the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value was \$25,438,042.

MANAGEMENT COVERED CALL FUND

We have audited the accompanying statement of assets and liabilities of First Trust/Fiduciary Asset Management Covered Call Fund (the "Fund"), including the portfolio of investments, as of December 31, 2006, the related statements of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended and the financial highlights for the periods presented. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2006, by correspondence with the Fund's custodian and broker; where replies were not received, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of December 31, 2006, the results of its operations, the changes in its net assets, and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

FIRST TRUST/FIDUCIARY ASSET MANAGEMENT COVERED CALL FUND
DECEMBER 31, 2006 (UNAUDITED)

DIVIDEND REINVESTMENT PLAN

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect, by written notice to the Fund, to receive cash distributions, all dividends, including any capital gain distributions on your Common Shares will be automatically reinvested by PFPC Inc. (the "Plan Agent") in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

by check mailed directly to you by PFPC Inc. as dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If Common Shares are trading at or above net asset value ("NAV") at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may elect to opt-out of or withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone at (800) 331-1710, in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all Common Shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you. Consult your financial advisor for more information.

If you hold your Common Shares with a brokerage firm that does not participate in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Edgar Filing: First Trust/Fiduciary Asset Management Covered Call Fund - Form N-CSR

The Proxy Voting Policies are attached herewith.

FAM INVESTMENT ADVISER POLICIES AND PROCEDURES MANUAL PROXY VOTING

POLICY

FAM, as a matter of policy and as a fiduciary to our clients, has responsibility for voting proxies for portfolio securities consistent with the best economic interests of the clients. Our firm maintains written policies and procedures as to the handling, research, voting and reporting of proxy voting and makes appropriate disclosures about our firm's proxy policies and practices. Our policy and practice includes the responsibility to monitor corporate actions, receive and vote client proxies and disclose any potential conflicts of interest as well as making information available to clients about the voting of proxies for their portfolio securities and maintaining relevant and required records.

BACKGROUND

Proxy voting is an important right of shareholders and reasonable care and diligence must be undertaken to ensure that such rights are properly and timely exercised. Investment advisers registered with the SEC, and which exercise voting authority with respect to client securities, are required by Rule 206(4)-6 of the Advisers Act to (a) adopt and implement written policies and procedures that are reasonably designed to ensure that client securities are voted in the best interests of clients, which must include how an adviser addresses material conflicts that may arise between an adviser's interests and those of its clients; (b) to disclose to clients how they may obtain information from the adviser with respect to the voting of proxies for their securities; (c) to describe to clients a summary of its proxy voting policies and procedures and, upon request, furnish a copy to its clients; and (d) maintain certain records relating to the adviser's proxy voting activities when the adviser does have proxy voting authority.

RESPONSIBILITY

FAM's Vice President, Client Administration has the responsibility for the implementation and monitoring of our proxy voting policy, practices, disclosures and record keeping, including outlining our voting guidelines in our procedures.

PROCEDURE

FAM has adopted procedures to implement the firm's policy and reviews to monitor and insure the firm's policy is observed, implemented properly and amended or updated, as appropriate, which include the following:

It is the policy of FAM to vote all proxies over which it has voting authority in the best interest of FAM's clients.

By "best interest of FAM's clients," FAM means clients' best economic interest over the long term -- that is, the common interest that all clients share in seeing the value of a common investment increase over time. Clients may have differing political or social interests, but their best economic interest is generally uniform.

By "material conflict of interest," FAM means circumstances when FAM itself knowingly does business with a particular proxy issuer or closely affiliated entity, and may appear to have a significant conflict of interest between its own interests and the interests of clients in how proxies of that issuer are voted.

FAM INVESTS WITH MANAGEMENT TEAMS THAT SEEK SHAREHOLDERS' BEST INTERESTS

Under its investment philosophy, FAM generally invests client funds in a company only if FAM believes that the company's management seeks to serve shareholders' best interests. Because FAM has confidence in the managements of the companies in which it invests, it believes that management decisions and recommendations on issues such as proxy voting GENERALLY are likely to be in shareholders' best interests.

FAM may periodically reassess its view of company managements. If FAM concludes that a company's management no longer serves shareholders' best interests, FAM generally sells its clients' shares of the company. FAM believes that clients do not usually benefit from holding shares of a poorly managed company or engaging in proxy contests with management.

FAM'S PROXY VOTING PROCEDURES

When companies in which FAM has invested client funds issue proxies, FAM routinely votes the proxies as recommended by management, because it believes that recommendations by these companies' managements generally are in shareholders' best interests, and therefore in the best economic interest of FAM's clients.

If FAM has decided to sell the shares of a company, whether because of concerns about the company's management or for other reasons, FAM generally abstains from voting proxies issued by the company after FAM has made the decision to sell. FAM generally will not notify clients when this type of routine abstention occurs.

FAM also may abstain from voting proxies in other circumstances. FAM may determine, for example, that abstaining from voting is appropriate if voting may be unduly burdensome or expensive, or otherwise not in the best economic interest of clients, such as when foreign proxy issuers impose unreasonable voting or holding requirements. FAM generally will not notify clients when this type of routine abstention occurs.

The procedures in this policy apply to all proxy voting matters over which FAM has voting authority, including changes in corporate governance structures, the adoption or amendment of compensation plans (including stock options), and matters involving social issues or corporate responsibility.

ALTERNATIVE PROCEDURES FOR POTENTIAL MATERIAL CONFLICTS OF INTEREST

In certain circumstances, such as when the proponent of a proxy proposal is also a client of FAM, an appearance might arise of a potential conflict between FAM's interests and the interests of affected clients in how the proxies of that issuer are voted.

Because FAM does not exercise discretion in voting proxies, but routinely votes proxies as recommended by management, no potential conflict of interest could actually affect FAM's voting of the proxies.

Nevertheless, when FAM itself knowingly does business with a particular proxy issuer and a material conflict of interest between FAM's interests and clients' interests may appear to exist, FAM generally would, to avoid any appearance concerns, follow an alternative procedure rather than vote proxies as recommended by management. Such an alternative procedure generally would involve causing the proxies to be voted in accordance with the recommendations of an independent service provider that FAM may use to assist in voting proxies.

FAM generally will not notify clients if it uses this procedure to resolve an apparent material conflict of interest. FAM will document the identification of any material conflict of interest and its procedure for resolving the particular conflict.

In unusual cases, FAM may use other alternative procedures to address circumstances when a material conflict of interest may appear to exist, such as, without limitation:

(i) Notifying affected clients of the conflict of interest (if practical), and seeking a waiver of the conflict to permit FAM to vote the proxies under its usual policy;

(ii) Abstaining from voting the proxies; or

(iii) Forwarding the proxies to clients so that clients may vote the proxies themselves.

FAM generally will notify clients if it uses one of these alternative procedures to resolve a material conflict of interest.

VOTING BY CLIENT INSTEAD OF FAM

A FAM client may vote its own proxies instead of directing FAM to do so. FAM recommends this approach if a client believes that proxies should be voted based on political or social interests.

FAM generally will not accept proxy voting authority from a client (and will encourage the client to vote its own proxies) if the client seeks to impose client-specific voting guidelines that may be inconsistent with FAM's guidelines or with the client's best economic interest in FAM's view.

FAM generally will abstain from voting on (or otherwise participating in) the commencement of legal proceedings such as shareholder class actions or bankruptcy proceedings.

RESPONSIBILITY

FAM's client services staff has primary responsibility for implementing FAM's proxy voting procedures, including ensuring that proxies are timely submitted. FAM also may use a service provider to assist in voting proxies, recordkeeping, and other matters.

FAM's security analysts routinely review proxy proposals as part of their ongoing reassessment of companies and their managements.

RECORDKEEPING

FAM or a service provider maintains, in accordance with Rule 204-2 of

the Investment Advisers Act:

- (i) Copies of all proxy voting policies and procedures;
- (ii) Copies of proxy statements received (unless maintained elsewhere as described below);
- (iii) Records of proxy votes cast on behalf of clients;
- (iv) Documents prepared by FAM that are material to a decision on how to vote or memorializing the basis for a decision;
- (v) Written client requests for proxy voting information, and (vi) written responses by FAM to written or oral client requests.

FAM will obtain an undertaking from any service provider that the service provider will provide copies of proxy voting records and other documents promptly upon request if FAM relies on the service provider to maintain related records.

FAM or its service provider may rely on the SEC's EDGAR system to keep records of certain proxy statements if the proxy statements are maintained by issuers on that system (as is generally true in the case of larger U.S.-based issuers).

All proxy related records will be maintained in an easily accessible place for five years (and an appropriate office of FAM or a service provider for the first two years).

OTHER ACCOUNTS MANAGED BY PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBER

The information in the table below is as of December 31, 2006.

Name of Portfolio Manager OR TEAM MEMBER -----	TYPE OF ACCOUNTS* -----	Total # of Accounts MANAGED -----	TOTAL ASSETS -----
1. Mohammed Riad	Registered Investment Companies:	3	\$99.11 mil
	Other Pooled Investment Vehicles:	1	\$ 7.0 mil
	Other Accounts:	116	\$5,747 mil
2. K. Timothy Swanson	Registered Investment Companies:	3	\$99.11 mil
	Other Pooled Investment Vehicles:	1	\$ 7.0 mil
	Other Accounts:	116	\$5,747 mil

POTENTIAL CONFLICTS OF INTERESTS

Actual or apparent conflicts of interest may arise when a portfolio manager has day-to-day management responsibilities with respect to more than one Fund or other account. More specifically, portfolio managers who manage multiple Funds and /or other accounts may be presented with one or more of the following potential conflicts.

The management of multiple Funds and/or other accounts may result in a portfolio manager devoting unequal time and attention to the management of each Fund and/or other account. Fiduciary seeks to manage such competing interests for the time and attention of a portfolio manager by having the portfolio manager's focus on a particular investment discipline. Most other accounts managed by a portfolio manager are managed using the same investment models that are used in connection with the management of the Fund

If a portfolio manager identifies a limited investment opportunity which may be suitable for more than one Fund or other account, a Fund may not be able to take full advantage of that opportunity due to an allocation of filled purchase or sale orders across all eligible Funds and other accounts. To deal with these situations, Fiduciary and the Fund have adopted procedures for allocating portfolio transactions across multiple accounts. With respect to securities transactions for the Funds, Fiduciary determines which broker to use to execute each order, consistent with its duty to seek best execution of the transaction. However, with respect to certain other accounts (such as mutual funds for which Fiduciary acts as sub-advisor, other pooled investment vehicles that are not registered mutual funds, and other accounts managed for organizations and individuals), Fiduciary may be limited by the client with respect to the selection of brokers or may be instructed to direct trades through a particular broker. In these cases, trades for a Fund in a particular security may be placed separately from, rather than aggregated with, such other

accounts. Having separate transactions with respect to a security may temporarily affect the market price of the security or the execution of the transaction, or both, to the possible detriment of the Fund or other account(s) involved

Fiduciary and the Fund have adopted certain compliance procedures which are designed to address these types of conflicts. However, there is no guarantee that such procedures will detect each and every situation in which a conflict arises.
