NOTES TO QUARTERLY PORTFOLIO OF INVESTMENTS

ENERGY INCOME AND GROWTH FUND
AUGUST 31, 2007 (UNAUDITED)

1. VALUATION AND INVESTMENT PRACTICES

A. PORTFOLIO VALUATION:

The net asset value ("NAV") of the Common Shares of Energy Income and Growth Fund (the "Fund") is determined daily as of the close of regular session trading on the New York Stock Exchange ("NYSE"), normally 4:00 p.m. Eastern time, no less frequently than weekly on Friday of each week. The NAV per Common Share is calculated by subtracting the Fund's liabilities (including accrued expenses, dividends payable, current and deferred income taxes and any borrowings of the Fund) from the Fund's Total Assets (the value of the securities and other investments the Fund holds plus cash or other assets, including interest and dividends accrued but not yet received) and dividing the result by the total number of Common Shares outstanding. The Fund will rely to some extent on information provided by the master limited partnerships ("MLPs"), which is not necessarily timely, to estimate taxable income allocable to the MLP units held in the Fund's portfolio and to estimate the associated deferred tax liability. From time to time, the Fund will modify its estimates and/or assumptions regarding its deferred tax liability as new information becomes available. To the extent the Fund modifies its estimates and/or assumptions, the NAV of the

Edgar Filing: ENERGY INCOME & GROWTH FUND - Form N-Q

Fund would likely fluctuate.

The Fund's investments are valued daily at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. A majority of the Fund's assets are valued using marketing information supplied by third parties. In the event that market quotations are not readily available, the pricing service does not provide a valuation for a particular asset, or the valuations are deemed unreliable, First Trust Advisors L.P. ("First Trust") may use a fair value method to value the Fund's securities and investments. Additionally, if events occur after the close of the principal market for particular securities (e.g., domestic debt and foreign securities), but before the Fund values its assets, that could materially affect NAV, First Trust may use a fair value method to value the Fund's securities and investments. The use of fair value pricing by the Fund is governed by valuation procedures adopted by the Fund's Board of Trustees and in accordance with the provisions of the Investment Act of 1940, as amended (the "1940 Act").

Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities traded on the NASDAQ, are valued at the closing bid prices. Short-term investments that mature in less than 60 days are valued at amortized cost.

B. SECURITIES TRANSACTIONS:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Distributions received from the Fund's investments in MLPs generally are comprised of return of capital from the MLP to the extent of the cost basis of such MLP investments.

Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income on such securities is not accrued until settlement date. The Fund maintains liquid assets with a current value at least equal to the amount of its when-issued or delayed-delivery purchase commitments. At August 31, 2007, the Fund had no when-issued or delayed-delivery purchase commitments.

C. RESTRICTED SECURITIES:

The Fund may invest up to 35% of its Managed Assets, which is the average daily gross asset value of the Fund minus accrued liabilities (excluding the principal amount of any borrowings), in restricted securities. Restricted securities are securities that cannot be offered for public sale without first being registered under the Securities Act of 1933, as amended. Prior to registration, restricted securities may only be resold in transactions exempt from registration. The Fund currently holds the restricted securities shown in the following table. The Fund does not have the right to demand that such securities be registered. These securities are valued at fair value in accordance with procedures adopted by the Fund's Board of Trustees and in accordance with the provisions of the 1940 Act.
