LETTER TO SHAREHOLDERS

April 2005

Dennis H. Ferro

President and Chief

Executive Officer

Dear Shareholder,

We are pleased to provide the semiannual report for the Evergreen Utilities & High Income Fund, which covers the six-month period ended February 28, 2005.

Our portfolio management teams entered the investment period prepared for an environment of moderating economic growth and gradually higher interest rates. While these crosscurrents were a challenge for all of our portfolio teams, the hurdle was especially high for the managers of the Evergreen Utilities and High Income Fund, since the telecommunications and utilities sectors have historically struggled when monetary policy was less accommodative. Yet favorable security selection and a lack of significant movement at the long-end of the Treasury yield curve provided an opportunity for a relatively successful navigation of these stormy seas. It is exactly this sort of commitment to the fundamentals that we believe will enable our investors to participate in the long-term gains provided by the financial markets while limiting the potential for losses during the most volatile periods.

The period began with mixed messages on the economy. Basically, growth was good; it was just no longer great. Yet Federal Reserve (Fed) officials persisted in their measured removal of policy accommodation. We believed the economy had simply transitioned from recovery to expansion, and as a result, a variety of data pointed in different directions. Historically, the maturation of the economic cycle had experienced similarly erratic behavior. Market interest rates, though, gyrated with seemingly every monthly report. Costs for commodities and energy were rising, and since inflation-adjusted interest rates remained low for such a lengthy period, the Fed seemed determined to prevent inflation from becoming a long-term problem.

1

LETTER TO SHAREHOLDERS continued

The financial markets seemed to agree with this assessment as the period progressed. Despite the rise in yields for shorter-term maturities, prices for many securities remained firm at the long-end, suggesting a lack of inflation fears. Indeed, after oil prices broke from their highs in late October and market interest rates declined, the equity markets rallied into the new-year. This combination of events benefited the portfolio, as demand for income accelerated along with the improved earnings prospects within the utilities sector. While prospects for profit growth may not have been as strong within the telecommunications industry, high yields and speculation about potential merger and acquisition activity provided a solid dose of momentum for the sector into the new-year.

Complacency at the long-end of the yield curve, however, became a major issue for monetary policymakers towards the end of the investment period. In comments to congressional banking committees in mid-February, Fed Chairman Alan Greenspan expressed his concerns that despite a pattern of successive increases in the federal funds rate, it was a conundrum to him that yields for longer-term maturities remained low. Not surprisingly, the master wordsmith achieved his objective, and within days of these comments, yields on longer dated maturities had begun their ascent, with yield on the 10-year Treasury having risen by approximately 50 basis points. Though telecom lost much of its momentum during the closing weeks of the investment period, utilities continued to generate solid relative returns.

NOTES TO FINANCIAL STATEMENTS (unaudited)

1. SIGNIFICANT ACCOUNTING POLICIES

Evergreen Utilities and High Income Fund (the "Fund") was organized as a statutory trust under the laws of the state of Delaware on February 4, 2004 and is registered as a non-diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The primary investment objective of the Fund is to seek a high level of current income and moderate capital growth, with emphasis on providing tax-advantaged dividend income.

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America, which require management to make estimates and assumptions that affect amounts

reported herein. Actual results could differ from these estimates.

a. Valuation of investments

Listed equity securities are usually valued at the last sales price or official closing price on the national securities exchange where the securities are principally traded.

Foreign securities traded on an established exchange are valued at the last sales price on the exchange where the security is primarily traded. If there has been no sale, the securities are valued at the mean between bid and asked prices. Foreign securities may be valued at fair value according to procedures approved by the Board of Trustees if the closing price is not reflective of current market prices due to trading or events occurring in the foreign markets between the close of the established exchange and the valuation time of the Fund. In addition, substantial changes in values in the U.S. markets subsequent to the close of a foreign market may also affect the values of securities traded in the foreign market. The value of foreign securities may be adjusted if such movements in the U.S. market exceed a specified threshold.

Portfolio debt securities acquired with more than 60 days to maturity are valued at prices obtained from an independent pricing service which takes into consideration such factors as similar security prices, yields, maturities, liquidity and ratings. Securities for which valuations are not readily available from an independent pricing service may be valued by brokers which use prices provided by market makers or estimates of market value obtained from yield data relating to investments or securities with similar characteristics.

Short-term securities with remaining maturities of 60 days or less at the time of purchase are valued at amortized cost, which approximates market value.

Investments in other mutual funds are valued at net asset value. Securities for which market quotations are not readily available or not reflective of current market value are valued at fair value as determined in good faith, according to procedures approved by the Board of Trustees.

b. Reverse repurchase agreements

To obtain short-term financing, the Fund may enter into reverse repurchase agreements with banks and other financial institutions, which are deemed by the investment advisor to be credit-worthy. At the time the Fund enters into a reverse repurchase agreement, it will establish a

16

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

segregated account with the custodian containing qualified assets having a value not less than the repurchase price, including accrued interest. If the counterparty to the transaction is rendered insolvent, the Fund may be delayed or limited in the repurchase of the collateral securities.

c. Foreign currency translation

All assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts at the date of valuation. Purchases and sales of portfolio securities and income items denominated in foreign currencies are translated into U.S. dollar amounts on the respective dates of such transactions. The Fund does not separately account for that portion of the results of operations resulting from changes in foreign exchange rates on investments and the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gains or losses on securities.

d. Interest rate swaps

The Fund may enter into interest rate swap agreements to manage the Fund's exposure to interest rates. A swap agreement is an exchange of cash payments between the Fund and another party based on a notional principal amount. Cash payments or receipts are recorded as realized gains or losses. The value of the swap agreements is marked-to-market daily based upon quotations from market makers and any change in value is recorded as an

unrealized gain or loss. The Fund could be exposed to risks if the counterparty defaults on its obligation to perform or if there are unfavorable changes in the fluctuation of interest rates.

e. Security transactions and investment income

Security transactions are recorded on trade date. Realized gains and losses are computed using the specific cost of the security sold. Interest income is recorded on the accrual basis and includes accretion of discounts and amortization of premiums. Dividend income is recorded on the ex-dividend date or in the case of some foreign securities, on the date when the Fund is made aware of the dividend. Foreign income and capital gains realized on some securities may be subject to foreign taxes, which are accrued as applicable.

f. Federal taxes

The Fund intends to continue to qualify as a regulated investment company and distribute all of its taxable income, including any net capital gains (which have already been offset by available capital loss carryovers). Accordingly, no provision for federal taxes is required.

g. Distributions

Distributions to shareholders from net investment income and net realized gains, if any, are recorded on the ex-dividend date. Such distributions are determined in conformity with income tax regulations, which may differ from generally accepted accounting principles.

2. ADVISORY FEE AND OTHER TRANSACTIONS WITH AFFILIATES

Evergreen Investment Management Company, LLC (EIMC), an indirect, wholly-owned subsidiary of Wachovia Corporation (Wachovia), is the investment advisor to the Fund and is paid an annual fee of 0.60% of the Fund's average daily total assets applicable to common share-

17

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

holders. Total assets consist of the net assets of the Fund plus borrowings or other leverage for investment purposes to the extent excluded in calculating net assets. The advisory fee would be equivalent to 0.92% of the Fund's average daily net assets applicable to common shareholders if the Fund is fully leveraged through the issuance of preferred shares and/or other borrowings. For the six months ended February 28, 2005, the Fund had preferred shares issued and outstanding.

From time to time, EIMC may voluntarily or contractually waive its fee and/or reimburse expenses in order to limit operating expenses. During the six months ended February 28, 2005, EIMC waived its fee in the amount of \$108,255 and reimbursed expenses in the amount of \$48, which combined represents 0.09% of the Fund's average daily net assets.

Evergreen Investment Services, Inc. (EIS), an indirect, wholly-owned subsidiary of Wachovia, is the administrator to the Fund. As administrator, EIS provides the Fund with facilities, equipment and personnel and is paid an annual administrative fee of 0.05% of the Fund's average daily total assets.

3. CAPITAL SHARE TRANSACTIONS

The Fund has authorized an unlimited number of common shares, without par value. For the period from April 30, 2004 (commencement of operations), to August 31, 2004, the Fund issued 11,505,000 common shares.

The Board of Trustees has committed to consider making tender offers for the Fund's common shares in the event that the common shares trade at a discount to net asset value of greater than 5% for fifteen of twenty days during a measurement period, as defined in the Fund's prospectus. These tender offers will be to purchase up to 5% of the Fund's outstanding common shares at their net asset value. For the six months ended February 28, 2005, the Board of Trustees considered and approved the Fund's first tender offer and 575,250 common shares were

tendered and repurchased by the Fund. The Board of Trustees will continue to consider tender offers for the following seven quarters if a discount exists.

4. SECURITIES TRANSACTIONS

Cost of purchases and proceeds from sales of investment securities excluding short-term securities were \$149,465,154 and \$156,032,955, respectively, for the six months ended February 28, 2005.

During the six months ended February 28, 2005, the Fund entered into reverse repurchase agreements that had an average daily balance outstanding of approximately \$33,585,429 at a weighted average annual interest rate of 2.49% . The maximum amount outstanding under reverse repurchase agreements during the six months ended February 28, 2005 was \$37,106,410 (including

18

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

accrued interest). During the six months ended February 28, 2005, the Fund paid \$414,971 in interest expense representing 0.34% of the Fund's average daily net assets (on an annualized basis). At February 28, 2005, reverse repurchase agreements outstanding were as follows:

Repurchase Amount	Repurchase Counterparty	Interest Rate	Maturity Date
\$24,213,971	Lehman Brothers	3.20%	04/15/2005

On February 28, 2005, the aggregate cost of securities for federal income tax purposes was \$315,997,356. The gross unrealized appreciation and depreciation on securities based on tax cost was \$39,918,858 and \$919,590, respectively, with a net unrealized appreciation of \$38,999,268.

On August 31, 2004, the Fund had \$3,328,773 in capital loss carryovers for federal income tax purposes expiring in 2012.

5. AUCTION MARKET PREFERRED SHARES

The Fund has issued 3,200 shares of Auction Market Preferred Shares (Preferred Shares), with a liquidation value of \$25,000 plus accumulated but unpaid dividends (whether or not earned or declared). Dividends on the Preferred Shares are cumulative at a rate, which is reset based on the result of an auction. The annualized dividend rate was 2.72% during the six months ended February 28, 2005. The Fund will not declare, pay or set apart for payment any dividend to its common shareholders unless the Fund has declared and paid or contemporaneously declares and pays full cumulative dividends on the Preferred Shares through its most recent dividend payment date.

The Preferred Shares are redeemable, in whole or in part, at the option of the Fund on any dividend payment date at \$25,000 per share plus any accumulated but unpaid dividends (whether or not earned or declared). The Preferred Shares are also subject to mandatory redemption at \$25,000 per share plus any accumulated but unpaid dividends (whether or not earned or declared) if the requirement relating to the asset coverage with respect to the outstanding Preferred Shares is less than 200%.

The holders of Preferred Shares have voting rights equal to the holders of the Fund's common shares and will vote together with holders of common shares as a single class. Holders of Preferred Shares, voting as a separate class, are entitled to elect two of the Fund's Trustees.

6. EXPENSE REDUCTIONS

Through expense offset arrangements with ESC and the Fund's custodian, a portion of fund expenses has been reduced.

19

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

7. DEFERRED TRUSTEES' FEES

Each Trustee of the Fund may defer any or all compensation related to performance of their duties as Trustees. The Trustees' deferred balances are allocated to deferral accounts, which are included in the accrued expenses for the Fund. The investment performance of the deferral accounts are based on the investment performance of certain Evergreen funds. Any gains earned or losses incurred in the deferral accounts are reported in the Fund's Trustees' fees and expenses. At the election of the Trustees, the deferral account will be paid either in one lump sum or in quarterly installments for up to ten years.

8. CONCENTRATION OF RISK

The Fund may invest a substantial portion of its assets in an industry or sector and, therefore, may be more affected by changes in that industry or sector than would be a comparable mutual fund that is not heavily weighted in any industry or sector.

9. REGULATORY MATTERS AND LEGAL PROCEEDINGS

Since September 2003, governmental and self-regulatory authorities have instituted numerous ongoing investigations of various practices in the mutual fund industry, including investigations relating to revenue sharing, market-timing, late trading and record retention, among other things. The investigations cover investment advisors, distributors and transfer agents to mutual funds, as well as other firms. EIMC, EIS and Evergreen Service Company, LLC (collectively, "Evergreen") have received subpoenas and other requests for documents and testimony relating to these investigations, are endeavoring to comply with those requests, and are cooperating with the investigations. Evergreen is continuing its own internal review of policies, practices, procedures and personnel, and is taking remedial action where appropriate.

In connection with one of these investigations, on July 28, 2004, the staff of the Securities and Exchange Commission ("SEC") informed Evergreen that the staff intends to recommend to the SEC that it institute an enforcement action against Evergreen. The SEC staff's proposed allegations relate to (i) an arrangement pursuant to which a broker at one of EIMC's affiliated broker-dealers had been authorized, apparently by an EIMC officer (no longer with EIMC), to engage in short-term trading, on behalf of a client, in Evergreen Mid Cap Growth Fund (formerly Evergreen Emerging Growth Fund and prior to that, known as Evergreen Small Company Growth Fund) during the period from December 2000 through April 2003, in excess of the limitations set forth in the fund's prospectus, (ii) short-term trading from September 2001 through January 2003, by a former Evergreen portfolio manager, of Evergreen Precious Metals Fund, a fund he managed at the time, (iii) the sufficiency of systems for monitoring exchanges and enforcing exchange limitations as stated in the fund's prospectuses, and (iv) the adequacy of e-mail retention practices. In connection with the activity in Evergreen Mid Cap Growth Fund, EIMC reimbursed the fund \$378,905, plus an additional \$25,242, representing what EIMC calculated at that time to be the client's net gain and the fees earned by EIMC and the expenses incurred by this fund on the client's account. In connection with the activity in Evergreen

NOTES TO FINANCIAL STATEMENTS (unaudited) continued

Precious Metals Fund, EIMC reimbursed the fund \$70,878, plus an additional \$3,075, representing what EIMC calculated at that time to be the portfolio manager's net gain and the fees earned by EIMC and expenses incurred by the fund on the portfolio manager's account. Evergreen is currently engaged in discussions with the staff of the SEC concerning its recommendation.

Any resolution of these matters with regulatory authorities may include, but not be limited to, sanctions, penalties or injunctions regarding Evergreen, restitution to mutual fund shareholders and/or other financial penalties and structural changes in the governance or management of Evergreen's mutual fund business. Any penalties or restitution will be paid by Evergreen and not by the Evergreen funds.

From time to time, EIMC is involved in various legal actions in the normal course of business. In EIMC's opinion, it is not involved in any legal actions that will have a material effect on its ability to provide services to the Fund.

Although Evergreen believes that neither the foregoing investigations nor any pending or threatened legal actions will have a material adverse impact on the Evergreen funds, there can be no assurance that these matters and any publicity surrounding or resulting from them will not result in reduced sales or increased redemptions of Evergreen fund shares, which could increase Evergreen fund transaction costs or operating expenses, or have other adverse consequences on the Ever

10. SUBSEQUENT DISTRIBUTIONS

On March 11, 2005, the Fund declared distributions from net investment income of \$0.10 per common share, payable on April 1, 2005 to shareholders of record on March 14, 2005.

On April 11, 2005, the Fund declared distributions from net investment income of \$0.10 per common share, payable on May 2, 2005 to shareholders of record on April 13, 2005.

These distributions are not reflected in the accompanying financial statements.

11. SUBSEQUENT EVENT

On April 21, 2005, pursuant to the Board of Trustees' consideration and approval, 546,487 of common shares were tendered and repurchased by the Fund at a cost of \$12,361,536.

AUTOMATIC DIVIDEND REINVESTMENT PLAN

All common shareholders are eligible to participate in the Automatic Dividend Reinvestment Plan ("the Plan"). Pursuant to the Plan, unless a common shareholder is ineligible or elects otherwise, all cash dividends and capital gains distributions are automatically reinvested by EquiServe Trust Company, N.A., as agent for shareholders in administering the Plan ("Plan Agent"), in additional common shares of the Fund. Whenever the Fund declares an ordinary income dividend or a capital gain dividend (collectively referred to as "dividends") payable either in shares or in cash, non-participants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common shares. The shares are acquired by the Plan Agent for the participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("newly issued common shares") or (ii) by purchase of outstanding common shares on the open market (open-market purchases) on the American Stock Exchange or elsewhere. If, on the payment date for any dividend or distribution, the net asset value per share of the common shares is equal to or less than the market price per common share plus estimated brokerage commissions ("market premium"), the Plan Agent will invest the amount of such dividend or distribution in newly issued shares on behalf of the participant. The number of newly issued common shares to be credited to the participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value or market premium ("market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases. There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gains distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with the reinvestment of dividends. The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends. All correspondence concerning the Plan should be directed to the Plan Agent at P.O. Box 43010, Providence, Rhode Island 02940-3010 or by calling 1-800-730-6001.
