Ultrapar Participações S.A. and Subsidiaries

1. OPERATIONS

Ultrapar Participações S.A. (the “Company”), with headquarters in the city of São Paulo, invests in commercial and industrial activities, including subscription or purchase of shares of other companies with similar activities.

Through its subsidiaries, the Company is engaged in the distribution of liquefied petroleum gas - LPG (Ultragaz), production and sale of chemicals (Oxiten), and services in integrated logistics solution for special bulk (Ultracargo).

2. PRESENTATION OF INTERIM FINANCIAL INFORMATION AND SIGNIFICANT ACCOUNTING PRACTICES

The accounting practices adopted to record transactions and for the preparation of the interim financial information – ITR are those established by accounting practices derived from the Brazilian Corporation Law and the Brazilian Securities Commission (CVM).

a) Results of operations

Determined on the accrual basis of accounting. Revenues from sales and respective costs are recognized when the products are delivered to the customers or services are performed, and the transfer of risks, rights and obligations associated with the ownership of products takes place.

b) Current and noncurrent assets

Temporary cash and long-term investments are stated at cost, plus accrued income (on a “pro rata temporis” basis), which approximate their market value. Temporary cash investments include the results from hedges, as described in Notes 4 and 19, that management intends to hold to maturity.

The allowance for doubtful accounts is recorded based on estimated losses and is considered sufficient by management to cover potential losses on accounts receivable.

Inventories are stated at the lower of average cost of acquisition or production, that do not overcome the market value.

Other assets are stated at the lower of cost or realizable values, including, when applicable, accrued income and monetary and exchange variation incurred or net of allowances for losses.

c) Investments

Significant investments in subsidiary and affiliated companies are recorded under the equity method, as shown in Note 10.

Other investments are stated at acquisition cost, net of allowances for losses, should the losses not be considered temporary.

Ultrapar Participações S.A. and Subsidiaries

d) Property, plant and equipment

Stated at acquisition or construction cost, including financial charges incurred on constructions in progress and include revaluation write-ups based on appraisal reports issued by independent appraisers, in accordance with item 68, letter b), of CVM Resolution No. 183/95, as well as costs related to the maintenance of significant assets during scheduled factory maintenance operations.

Depreciation is calculated on a straight-line basis at the annual rates described in Note 11, and is based on the economic useful life of the assets.

e) Intangible

Stated at acquisition cost, less allowance for losses, should the losses not be considered temporary, as shown in Note 12.

f) Deferred charges

Deferred charges comprises costs incurred in the installation of Company equipment at customers' facilities amortized over the terms of the LPG supply contracts with these customers, project expenses and goodwill on acquisition of subsidiaries, as stated in Note 13.

g) Current and noncurrent liabilities

Stated at known or estimated amounts including, when applicable, accrued charges, monetary and exchange rate variations incurred until the interim financial information date.

h) Income and social contribution taxes on income

Income and social contribution taxes, current and deferred (according to CVM Resolution No. 273/98) are measured on the basis of effective rates and include the benefit of tax holidays as mentioned in Note 9 b).

i) Basis for translation of the interim financial information of foreign subsidiaries

The interim financial information of foreign subsidiaries are translated into Brazilian reais at the current exchange rate in effect at the date of the interim financial information – ITR. The criteria for preparation of the interim financial information have been adapted to conform to accounting practices derived from the Brazilian Corporation Law.

j) Cash flow statement

The Company is presenting the statement of cash flow as supplementary information, prepared in accordance with Accounting Standards and Procedures No. 20 (NPC) issued by IBRACON - Brazilian Institute of Independent Auditors.

## Ultrapar Participações S.A. and Subsidiaries

k)

Use of estimates

The preparation of interim financial information in accordance with accounting practices derived from the Brazilian Corporation Law requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the balance sheet dates and the reported amounts of revenues, costs and expenses for the years presented. Although these estimates are based on management's best available knowledge of current and expected future events, actual results could differ from those estimates.

## 3. CONSOLIDATION PRINCIPLES

Such investments are stated at cost plus accrued income on a “pro rata temporis” basis.

The subsidiary records the investment at the lower of the two alternative yields, which until March 31, 2007 was represented by the US dollar. Up to March 31, 2007 the exchange rate has always remained below the strike rate.

(d) In April 2006, subsidiary Oxiteno Overseas Corp., owner of notes in the amount of US\$60 million issued by Companhia Ultraz S.A. in the international market in 1997 (Original Notes), sold these Original Notes to a foreign financial institution. (\*) The provision refers to credit balances that the subsidiaries estimate they will not be able to offset in the future.

The changes in the provision for losses on ICMS are shown below:

Balance at December 31, 2006	31,438
Addition	4,050
Reversal	(1,055)
Balance at March 31, 2007	34,433

The increase in the balance of ICMS is mainly due to the increase in ICMS credits of the Camaçari (Bahia State) plant of the subsidiary Oxiteno Nordeste S.A - Indústria e Comércio, due to measures taken by the Bahia State, which made it difficult to utilize credits for import payment or to transfer them to third parties. The total balance of credits from this plant corresponds to R\$ 60,419 as of March 31, 2007 (R\$ 50,241 as of December 31, 2006), of which R\$ 28,606 have already been reviewed by the tax authorities and are awaiting release by the state finance department of Bahia for commercialization. In addition to these credits, the subsidiary's management is working on a series of additional measures for consumption of the plant's ICMS balance. The allowance for loss of the plant's credits was recognized on the basis of the maximum discount expected on their commercialization. The PIS and COFINS credits of the subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio, arose from the favorable outcome of a lawsuit in 2006 and are being utilized to offset other federal taxes, mainly income and social contribution taxes on income.

b) Notes in the foreign market

In June 1997, the subsidiary Companhia Ultragaz S.A. issued US\$60 million in notes, (Original Notes), maturing in 2005. In June 2005, maturity was extended to June 2020, with put/call options in June 2008.

In June 2005, the subsidiary Oxiteno Overseas Corp. acquired the full amount of Original Notes issued by Companhia Ultragaz S.A., with funds from a syndicated loan in the amount of US\$60 million with maturity in June 2008 and interest rate of 5.05% per year. The syndicated loan was guaranteed by the Company and the subsidiary Oxiteno S.A. - Indústria e Comércio.

In April 2006, the subsidiary Oxiteno Overseas Corp. sold the Original Notes to a financial institution. Concurrently, the subsidiary acquired from this financial institution a credit linked note backed by the Original Notes, as mentioned in Note 4, thus obtaining an additional return on this investment. The transaction matures in 2020, and the subsidiary as well as the financial institution may redeem it early, although the subsidiary has only an annual option of redemption (purchase) in or after June 2008. In the event of insolvency of the financial institution, Companhia Ultragaz S.A. would be required to settle the Original Notes, although Oxiteno Overseas Corp. would continue to be the creditor of the credit linked note. Thus, the Company stopped eliminating the Original Notes in its interim financial information.

c) Notes in the foreign market

In December 2005, the subsidiary LPG International Inc. issued notes in the amount of US\$250 million, maturing in December 2015, with annual interest rate of 7.25% paid semiannually, with the first payment scheduled for June 2006. The issue price was 98.75% of the notes' face value, which represented a total yield for investors of 7.429% per year upon issuance. The notes were guaranteed by the Company and by Oxiteno S.A. - Indústria e Comércio.

As a result of the issuance of notes and the syndicated loan, the Company and its subsidiaries mentioned above are subject to covenants that limit, among other things:

- Limitation of transactions with shareholders that hold amounts of 5% or more of any class of Capital Stock of the Company, except upon fair and reasonable terms no less favorable to the Company than could be obtained in a comparable arm's-length transaction with a third party;
  - Obligation of having Board of Directors resolution for transactions with related parties higher than US\$15 million (excepting transactions by the Company with subsidiaries and between subsidiaries);
  - Restriction of disposal of the totality or near totality of the assets of Company and subsidiaries;
  - Restriction of encumbrances on assets in excess of US\$150 million or 15% of the value of consolidated tangible assets;
-

- Maintenance of financial ratio, between consolidated net debt and consolidated EBITDA (Earning Before Interest, Taxes, Depreciation and Amortization), less than or equal to 3.5; and
- Maintenance of financial ratio, between consolidated EBITDA and consolidated net financial expenses higher than or equal to 1.5.

The restrictions imposed on the Company and its subsidiaries are usual in transactions of this nature and have not limited their ability to conduct their businesses to date.

Debentures

On March 1, 2005, the Company issued a single series of 30,000 nonconvertible debentures, whose main features are:

Nominal unit value:	R\$ 10,000.00
Final maturity:	March 1, 2008
Nominal value payment:	Lump sum at final maturity
Yield:	102.5% of CDI
Yield payment:	Semiannually, beginning March 1, 2005
Repricing:	None

The debentures are subject to commitments that restrict, among other things, certain operations of merger or spin-off, as well as the disposal of operating assets that would result in a reduction of more than 25% of consolidated net sales, and also included the obligation to maintain a consolidated net debt to consolidated EBITDA ratio less than or equal to 3.5. Thus far, none of these commitments have restricted the ability of the Company and its subsidiaries to conduct business.

## 19. RISKS AND FINANCIAL INSTRUMENTS (CONSOLIDATED)

The main risk factors to which the Company and its subsidiaries are exposed reflect strategic/operating and economic/financial aspects. Strategic/operating risks (such as behavior of demand, competition, technological innovation, and significant structural changes in industry, among others) are addressed by the Company's management model. Economic/financial risks mainly reflect customer default, macroeconomic variables, such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company. These risks are managed through control policies, specific strategies and the determination of limits, as follows:

- Customer default - These risks are managed by specific policies for accepting customers and analyzing credit, and are mitigated by diversification of sales. As of March 31, 2007, Oxiteno S.A. - Indústria e Comércio and its subsidiaries maintained R\$ 1,547 (R\$ 1,558 as of December 31, 2006) and the subsidiaries of Ultragaz Participações Ltda. maintained R\$ 20,739 (R\$ 20,020 as of December 31, 2006) as an allowance for doubtful accounts.
- Interest rates - The Company and its subsidiaries adopt conservative policies to obtain and invest funds and to minimize the cost of capital. Temporary cash investments of the Company and its subsidiaries are comprised mainly of transactions linked to the CDI, as described in Note 4. A portion of the financial assets is intended for foreign currency hedges, as mentioned below. Borrowings are mainly originated from the BNDES, debentures and foreign currency financing, as mentioned in Note 14.
- Exchange rate - The Company's subsidiaries use hedge instruments (mainly CDI and US\$) available in the financial market to cover assets and liabilities in foreign currency, so as to reduce the exchange variation effects on their results. Such hedges have amounts, periods and indexes substantially equivalent to the assets and liabilities in foreign currency to which they are linked. Shown below are the assets and liabilities in foreign currency, translated into Brazilian reais at March 31, 2007 and December 31, 2006:

	03/31/2007	12/31/2006

The market value of investment in affiliated company is based on the share price trading on the São Paulo Stock Exchange (BOVESPA).

## 20. CONTINGENCIES AND COMMITMENTS (CONSOLIDATED)

## a) Labor, civil and tax lawsuits

The Petrochemical Industry Labor Union, of which the employees of Oxiteno Nordeste S.A. - Indústria e Comércio are members, filed an action against the subsidiary in 1990, demanding compliance with the adjustments established in a collective labor agreement, in lieu of the salary policies effectively followed. At the same time, the employers' association proposed a collective bargaining for the interpretation and clarification of the fourth clause of the agreement. Based on the opinion of its legal counsel, who analyzed the last decision of the Federal Supreme Court (STF) on the collective bargaining, as well as the status of the individual lawsuit of the subsidiary, management believes that a reserve is not necessary as of March 31, 2007.

Ultrapar Participações S.A. and Subsidiaries

The subsidiaries Companhia Ultragaz S.A. and SPGás Distribuidora de Gás Ltda. are parties to an administrative proceeding at the SDE (Economic Law Department), linked to CADE (Administrative Council for Economic Defense), under the allegation of anticompetitive practice in municipalities of a region of the State of Minas Gerais in 2001. In September 2005, the SDE issued a technical notice recommending to CADE a ruling against the companies involved in this proceeding. In their defense, the subsidiaries' arguments, among others, are that: (i) under the terms of the notice issued by the Company's chief executive officer on July 4, 2000, the subsidiaries' employees were forbidden to discuss with third parties matters related to prices; and (ii) no consistent evidence was attached to the proceeding's records. In view of the arguments presented, the fact that the technical notice has no binding effect on CADE's decision, and their legal counsel's opinion, the subsidiaries did not record a provision for this issue. Should CADE's decision be unfavorable, the subsidiaries can still discuss the issue at the judicial level.

The subsidiary Companhia Ultragaz S.A. is a defendant in lawsuits relating to damages caused by an explosion in 1996 in a shopping mall in the city of Osasco, State of São Paulo. Such lawsuits involve: (i) individual suits filed by victims of the explosion claiming damages from Ultragaz for the loss of economic benefit and for pain and suffering; (ii) lawsuit for reimbursement of expenses by the administration company of the shopping mall and its insurance company; and (iii) class action suit seeking indemnification for property damage and pain and suffering for all the victims injured and deceased. The subsidiary believes that it has presented evidence that defective gas pipes in the shopping mall caused the accident and that Ultragaz's on-site LPG storage facilities did not contribute to the explosion. Of the 58 lawsuits judged thus far, a favorable judgment was obtained for 57, and of these 18 have already been dismissed; only 1 had an unfavorable decision, which is still subject to appeal, and whose amount, should the decision be upheld, is R\$ 17. Three lawsuits have not yet been judged. The subsidiary has insurance coverage for these lawsuits, and the uninsured contingent amount is R\$ 23,595. The Company has not recorded any provision for this amount, since it believes the probability of loss is remote.

The Company and its subsidiaries obtained injunctions to pay PIS and COFINS (taxes on revenues) without the changes introduced by Law No. 9718/98 in its original version. The ongoing questioning refers to the levy of these taxes on sources other than revenues. Recently the STF has decided the matter favorable to the taxpayer. Although it is a precedent, the effect of this decision does not automatically apply to all companies, since they must await judgment of their own lawsuits. As of March 31, 2007, final decisions were rendered for the Company and its subsidiaries which reversed the accrual previously recorded, in the amount of R\$ 12,759 (R\$ 15,886 as of March 31, 2006), net of attorney's fees. The Company has other subsidiaries whose lawsuits have not yet been judged. Thus, should there be final favorable outcomes for the subsidiaries in all lawsuits still not judged, the Company estimates that the total positive effect in income before income and social contribution taxes should reach R\$ 2,141, net of attorney's fees.

Subsidiary Oxiteno S.A. - Indústria e Comércio accrued R\$ 9,045 as of March 31, 2007 (R\$ 8,897 as of December 31, 2006) for ICMS tax assessments being judged at lower-level and appeal-level administrative courts. The subsidiary is currently awaiting decision on the appeal.

Ultrapar Participações S.A. and Subsidiaries

Subsidiary Utingás Armazenadora S.A. has challenged in court ISS (Service Tax) tax assessments issued by the municipal government of Santo André. Legal counsel of the subsidiary classifies the risk as low, since a significant portion of the lower-court decisions was favorable to the subsidiary. The thesis defended by the subsidiary is supported by the opinion of a renowned tax specialist. The unprovisioned updated amount of the contingency as of March 31, 2007 is R\$ 38,263 (R\$ 33,351 as of December 31, 2006).

On October 7, 2005, the subsidiaries of Ultragaz Participações Ltda. filed for and obtained an injunction to support the offset of PIS and COFINS credits against other federal taxes administered by the Federal Revenue Service (SRF), notably corporate income tax and social contribution taxes. According to the injunction obtained, the subsidiaries have been making judicial deposits for these debits in the amount of R\$ 41,814 as of March 31, 2007 (R\$ 32,346 as of December 31, 2006) and recognizing the corresponding liability for this purpose.

Subsidiaries Ultragaz Participações Ltda, Cia. Ultragaz S.A., Utingás Armazenadora S.A., Terminal Químico de Aratu S.A. – Tequimar, Transultra - Armazenamento e Transporte Especializado Ltda. and Ultracargo Operações Logísticas e Participações Ltda., hold judicial measures petitioning the full and immediate utilization of supplementary monetary adjustment based on the Consumer Price Index (IPC) / National Treasury Bonds (BTN) for 1990 (Law No. 8.200/91), and accrued R\$ 12,530 as of March 31, 2007 as a possible contingency, in case of unfavorable outcome of such lawsuits.

On December 29, 2006, the subsidiaries Oxiteno S.A Indústria e Comércio, Oxiteno Nordeste S.A Indústria e Comércio, Companhia Ultragaz S.A. and Transultra Armazenamento e Transporte Especializado Ltda filed for an injunction seeking the deduction of ICMS from the PIS and COFINS tax basis. Oxiteno Nordeste S.A Indústria e Comércio received an injunction and is paying the amounts into judicial deposits, as well as recording the respective accrual as of March 31, 2007 in the amount of R\$ 930; the others subsidiaries did not receive similar injunction and are waiting the judgment of an appeal to Regional Federal Court – TRF.

The Company and its subsidiaries filed a request for an injunction seeking not to be subject to the legislation that restricted the offset of corporate income tax (IRPJ) and social contribution (CSLL) tax loss carryforwards computed through December 31, 1994 to 30% of income for the year. There are good precedents for these discussions when it is proven that there was only a postponement of payment of IRPJ and CSLL to the following years, as is the case of the Company's subsidiaries, and legal counsel understands that the chances of success of the challenge in the judicial sphere is possible. The contingency is estimated at R\$ 6,419.

The Company and its subsidiaries have other ongoing administrative and judicial proceedings; legal counsel classified the risks on these proceedings as possible and/or remote and, therefore, no reserves for potential losses on these proceedings have been recorded.

## Contracts

Subsidiary Terminal Químico de Aratu S.A. - Tequimar has contracts with CODEBA and Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with their port facilities in Aratu and Suape, respectively. Such contracts establish minimum cargo movement of 1,000,000 tons per year for Aratu, effective through 2022, and 250,000 tons per year for Suape, effective through 2027. If annual movement is less than the minimum required, the subsidiary is required to pay the difference between the actual movement and the minimum contractual movement, using the port rates in effect at the date established for payment. As of March 31, 2007, such rates were R\$ 4.59 and R\$ 3.97 per ton for Aratu and Suape, respectively. The subsidiary has met the minimum cargo movement limits since inception of the contracts.

Subsidiary Oxiteno Nordeste S.A. - Indústria e Comércio has a supply contract with Braskem S.A, that establishes a minimum consumption level of ethylene per year. The minimum purchase commitment and the actual demand for the period ended March 31, 2007 and 2006, expressed in tons of ethylene, are summarized below. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine of 40% of the current ethylene price for the quantity not purchased.

The memorandum of understanding regulates new conditions of ethylene supply through 2021, and in 2007 and 2008 the subsidiary is having access to an additional volume of ethylene, with the minimum quantity in tons increasing to 180 thousand and 190 thousand, respectively.

The Extraordinary Shareholders' Meeting held on November 26, 2003 approved a compensation plan for management of the Company and its subsidiaries, which provides for: (i) the initial grant of usufruct of shares issued by the Company and held in treasury by the subsidiaries in which the beneficiaries are employed; and (ii) the transfer of the beneficial ownership of the shares after ten years from the initial grant, provided that the professional relationship between the beneficiary and the Company and its subsidiaries is not interrupted. The total amount granted to executives until March 31, 2007, including taxes, was R\$ 12.263 (R\$ 12,263 as of December 31, 2006). This amount is being amortized over a period of ten years and the amortization related as of March 31, 2007 in the amount of R\$ 307 (R\$ 223 as of March 31, 2006), was recorded as an operating expense for the period.

22. EMPLOYEE BENEFITS AND PRIVATE PENSION PLAN (CONSOLIDATED)

The Company and its subsidiaries offer benefits to their employees, such as life insurance, health care and pension plan. In addition, loans for the acquisition of vehicles and personal computers are available to employees of certain subsidiaries. These benefits are recorded on the accrual basis and terminate at the end of the employment relationship.

In August 2001, the Company and its subsidiaries began to provide a defined contribution pension plan to their employees. This plan is managed by Ultraprev - Associação de Previdência Complementar. Under the terms of the plan, the basic contribution of each participating employee is defined annually by the participant between 0% and 11%, of his/her salary. The sponsoring companies provide a matching contribution in an identical amount as the basic contribution. As participants retire, they have the option to receive monthly: (i) a percentage varying between 0.5% and 1.0% of the fund accumulated in their name in Ultraprev; or (ii) a fixed-monthly amount that will deplete the fund accumulated in the participant's name in a period of 5 to 25 years. Accordingly, neither the Company nor its subsidiaries assume responsibility for guaranteeing the levels of amounts or periods of receipt of the retirement benefit. As of March 31, 2007, the Company and its subsidiaries contributed R\$ 873 (R\$ 800 as of March 31, 2006) to Ultraprev, which was charged to income for the period. 23.

SUBSEQUENT EVENT

On April 18, 2007 Ultrapar (for itself), and acting as a commission agent of Braskem S.A. and Petróleo Brasileiro S.A. - Petrobras, acquired for R\$ 2,113,107 from the controlling shareholders of Grupo Ipiranga, 66.2% of common shares and 13.9% of preferred shares issued by Refinaria de Petróleo Ipiranga S.A. (“RPI”), 69.2% of common shares and 13.5% of preferred shares issued by Distribuidora de Produtos de Petróleo Ipiranga S.A. (“DPPI”), and 3.8% of common shares and 0.4% of preferred shares issued by Companhia Brasileira de Petróleo Ipiranga (“CBPI”). Of the total amount, Braskem and Petrobras paid R\$ 1,394,675 to Ultrapar, under the terms of the commission established between the parties.

Under the terms of the agreement entered into among Ultrapar, Braskem and Petrobras, Ultrapar holds the control of the fuel distribution and lubricant businesses located in the South and Southeastern regions (“Assets of South Distribution”), Petrobras holds the control of fuel distribution and lubricant business located in the North, Northeast and Center-West regions (“Assets of North Distribution”), and Braskem holds control of the petrochemical assets, represented by Ipiranga Química S.A., Ipiranga Petroquímica S.A. (IPQ) and the ownership in Copesul – Companhia Petroquímica do Sul (Copesul). The assets related to the oil refining operations withheld by RPI are equally shared among Petrobras, Ultrapar and Braskem.

In the same agreement, the parties established that Ultrapar is responsible for executing a corporate restructuring of the acquired companies, with the objective of separating the assets attributed to each one of the acquirors, whose stages are:

- a) Tag Along Share Offering for the purchase of common shares issued by RPI, DPPI, CBPI and IPQ;
- b) Merger of shares issued by RPI, DPPI and CBPI into Ultrapar;
- c) Segregation of the assets through: (i) capital reduction of RPI and CBPI, in order to directly transfer the Petrochemical Assets to Ultrapar, and subsequent transfer to Braskem and Petrobras, and (ii) split of CBPI to transfer the North Distribution Assets to a Petrobras subsidiary.

For this acquisition, Ultrapar issued, on April 11, 2007, debentures in the amount of R\$ 889,000, of which the first series was received on April 18, 2007, in the total amount of R\$ 675,000 with maturity on April 11, 2008 and semiannual interest payment of 102.5% of CDI, and the second series in the amount of R\$ 214,000 remains to be issued.

Ultrapar Participações S.A. and Subsidiaries

On April 17, 2007, the CADE (Administrative Council for Economic Defense) issued a writ of prevention aiming to keep the reversibility of the asset acquisition by Braskem and Petrobras, as described in the press release of April 18, 2007. The determination with regard to the Petrochemical Assets effectively were reviewed on April 25, 2007, in a decision homologated by CADE's Plenary assembly, with celebration, for Braskem, of a protection agreement for the operation reversibility (APRO). CADE recognized maintenance of the minority participation maintenance by Petrobrás in Copesul after the acquisition. With regard to the fuel distribution, Petrobrás and Ultrapar were requested to present to CADE an alternative model of corporate governance, which preserves the competition in the sector. Such measures do not affect the Offers conclusion.

The results of this transaction will be accounted by the buyers from April, 2007 on.

**(2) Performance Analysis:**

**Net Sales and Services**— Ultrapar's net consolidated sales and services in 1Q07 amounted to R\$ 1,174.1 million, 7% up on the net sales in 1Q06 and 2% lower than in 4Q06.

**Ultragaz** - The Brazilian LPG market expanded by 3% in 1Q07, compared to 1Q06, basically reflecting the improvement in income among the Brazilian population. In the same period, the volume sold by Ultragaz amounted to 368,000 tons, 3.5% higher than the volume sold in 1Q06 and exceeding the market's expansion rate, basically due to an increase of 4% in the bulk segment, result of the higher consumption by certain clients. In the bottled segment, sales volume was up by 3%, in line with the expansion in the market as a whole. Compared to 4Q06, Ultragaz's sales volume was down 5%, basically due to the seasonal drop in volume between the two periods. Net sales and services at Ultragaz amounted to R\$ 735.4 million in 1Q07, 6% higher than the figure in 1Q06, basically due to an increase of 3.5% in volume sold and the benefits generated by the company's distribution structure review. Compared to 4Q06, there was a reduction of 5%, in line with the seasonal drop in sales volume.

**Oxitenó** - Total sales volume at Oxitenó in 1Q07 amounted to 144,000 tons, up 12% on 1Q06, as a result of better economy and the higher availability of ethylene, the highest growth being seen in the domestic market, where sales volume was up by 29% resulting in a better geographical sales mix. Growth in the domestic market took place in a widely spread manner in the various segments served by Oxitenó – sales of specialty chemicals saw an increase of 11,000 tons, the result of commercial initiatives and gains in market share, while commodities sales rose by 14,000 tons, due to the increase in local demand. In the export market, sales dropped back by 25% compared to 1Q06, consequence of higher sales in the domestic market. Canamex's sales volume was up 49% in the quarter, amounting to 8,500 tons. Compared to 4Q06, Oxitenó's total sales volume was up 10%, expanding by 16% in the domestic market. Oxitenó reported net sales and services of R\$ 396.2 million in 1Q07, up 11% compared to 1Q06, basically due to an increase in sales volume of 12% – the 4% appreciation in the Brazilian Real against the US Dollar offset the better geographical sales mix and higher prices in the international market. Compared to 4Q06 there was an increase of 2% as a result of growth in sales on, offset by (i) a higher proportion of commodities in the volume sold, and (ii) the appreciation of the Brazilian Real against the US Dollar.

**Ultracargo** - Average storage volume at Ultracargo, measured in cubic metres, in 1Q07 was 17% higher than in 1Q06, basically due to the expansion in operations at the Santos Intermodal Terminal and the Suape Terminal, whose expansion was completed in 4Q06. Compared to 4Q06 the average storage volume increased by 5% as a result of the expansion at the Suape Terminal. In the transport segment, the total kilometres travelled was down 29% compared to 1Q06, as a result of the decision to focus its operations in rendering services with higher aggregate value. In comparison to 4Q06, kilometrage travelled remained stable.
