REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors
Webster Bank:

We have audited the accompanying statements of net assets available for benefits of the Webster Bank Employee Investment Plan as of December 31, 2003 and 2002, and the related statements of changes in net assets available for benefits for the year ended December 31, 2003 and the one-day ended December 31, 2002 and the year ended December 30, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Standards of the Public Company Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Webster Bank Employee Investment Plan, as of December 31, 2003 and 2002, and the changes in net assets available for benefits for the year ended December 31, 2003 and the one day ended December 31, 2002 and the year ended December 30, 2002 in conformity with United States generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at December 31, 2003 is presented for the purpose of additional analysis and is

Edgar Filing: WEBSTER FINANCIAL CORP - Form 11-K

not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. This supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements, and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

##### (b) Contributions

Employees who are members of the Plan, could make contributions of 1% to 20% of their pay on a pre-tax basis up to a limit of \$12,000 for the 2003 plan year and 1% to 15% on a pre-tax basis up to a limit of \$11,000 for the 2002 plan year. Highly compensated employees could make contributions of 1% to 8% of their pre-tax pay for the 2003 and 2002 plan years. Highly compensated employees, as defined in the Internal Revenue Code, are limited in the percent of their compensation which they can defer to the Plan based upon the average percent of compensation deferred by the non-highly compensated group of employees. The Bank contributes a matching contribution to the Plan equal to 50% of the first 6% of a participant's salary deferral contribution. The cost of the matching contribution is allocated among the Bank and the participating subsidiaries of the Bank and Webster. The Bank may also make discretionary contributions to the Plan on behalf of employee participants.

During 2002, the Plan was amended to incorporate a value sharing component. Under the value sharing component of the Plan, the Bank can make a

## Edgar Filing: WEBSTER FINANCIAL CORP - Form 11-K

discretionary profit sharing contribution to the Plan for the benefit of eligible participants below the level of senior vice president. The contributions are invested in Webster common stock and remain invested in such until the participant becomes fully vested in his or her account under Plan guidelines. The value sharing component of the Plan became first effective for the plan year beginning December 31, 2001 and ending December 30, 2002. The first discretionary contribution was made in February 2003. Discretionary profit sharing contributions credited to a value sharing account in the Plan vest based on a graduated vesting schedule with one-third vesting after 2 years, another third after 3 years and the remaining third after 4 years. Any participant who had three or more years of service on December 30, 2002, was considered 100% vested in their value sharing account.

The nonvested portion of the value sharing accounts totaled \$9,193 at December 31, 2003. There was no nonvested portion at December 31, 2002. These funds are not participant directed, as they are invested in Webster common stock until vesting occurs. During 2003, Webster contributed \$66,121 to non-vested value sharing accounts, with \$2,115 of earnings, \$1,899 of forfeitures and \$60,942 was transferred to vested accounts.

The Bank's Board of Directors approved discretionary profit sharing contributions in the amount of \$500,000 for the 2003 plan year and \$799,288 for the 2002 plan year. These contributions are made in the first quarter of the subsequent year. WEBSTER BANK  
EMPLOYEE INVESTMENT PLAN

NOTES TO FINANCIAL STATEMENTS

(c) Vesting

All amounts contributed to the 401(k) Plan by the participant and the employer matching contributions are fully vested and non-forfeitable at all times. The employer discretionary contributions to the participants' value sharing accounts are subject to a four year vesting period. Refer to Notes 1(b) and 9 for further information on employer discretionary contributions. The participant's vested balance is increased or decreased by any investment gains or losses generated by the participant's account.

(d) Payment of Benefits

Under the Plan, effective December 31, 2002, a participant's "normal retirement date" is the date age 65 is attained. Previously, normal retirement age was 59 1/2. Payment options under the Plan for distributions through December 31, 2003 are either a single lump sum payment or a series of equal periodic payments in the form of an annuity. If the participant's vested account balance is no more than \$5,000, the balance will be paid in a single lump sum payment within 90 days after the end of the plan year in which the participant becomes eligible to receive the payment. If the participant's vested account balance is more than \$5,000, the payout will be in the form of an annuity unless the annuity option is waived. Participants who have an account balance of more than \$5,000 may have their balance remain in the Plan. Participants may also elect to have the vested account balance directly rolled over to another qualified plan. The Plan was amended during the 2003 plan year to eliminate the

## Edgar Filing: WEBSTER FINANCIAL CORP - Form 11-K

annuity form of payment effective for distributions on or after January 1, 2004. Any installment payments under the 401(k) Plan will be provided directly from the participant's account rather than through the purchase of an annuity contract.

In the event of a participant's total and permanent disability, a participant would receive their vested account balance as if normal retirement had occurred. All benefit payments to participants are recorded upon distribution.

### (e) Loans

Employees have the ability to borrow up to 50% of their account balances up to \$50,000. Interest on the loan is paid by Plan participants to their account at prevailing interest rates through payroll deductions. Loans must generally be repaid within five years or by the normal retirement date of the borrower, if earlier. In the event of a default, the outstanding loan balance is considered a distribution to the participant borrower.

### (f) Rollovers

Under the Plan, transfers from other tax-qualified retirement plans are permitted even if the employee is not currently participating in the Plan. Eligible rollovers must be deposited to the Plan trust fund within 60 days of receipt. All eligible rollovers will be invested and distributed in accordance with the rules of the Plan. Refer to Note 4 within this report for further information concerning rollovers to the Plan.

### (g) Withdrawals

Hardship withdrawals are permitted under the Plan.

The Plan administrator is required by law to recognize obligations the participant incurs as a result of court-ordered support or alimony payments. The Plan administrator is obligated to honor a qualified domestic relations order ("QDRO"). If a QDRO is received by the Plan administrator, all or a portion of the Plan participant's account balance may be used to satisfy the obligation.

### (e) Use of Estimates

### 9. SUBSEQUENT EVENTS

On April 21, 2004, Webster Bank completed its conversion from a federal savings bank to a national bank charter, regulated by the Office of the Comptroller of the Currency. As a result of this conversion, Webster Bank changed its name to Webster Bank, N.A.

Effective at the close of business on May 14, 2004, Webster acquired FIRSTFED AMERICA BANCORP, INC. ("FIRSTFED"). During the second quarter of 2004, the Plan will be amended to make provisions for the employees of FIRSTFED. The provisions will become effective as of the first date to which the processing of the payroll for FIRSTFED employees is performed in conjunction with the payroll for the employees of the Bank. All services rendered by employees of FIRSTFED prior to the acquisition date constitutes services rendered for the purpose of meeting the eligibility requirements for participation and vesting under the Plan. FIRSTFED will have their 401(k) plan merged into the Plan in 2004.

The Bank's Board of Directors approved at the February 2004 meeting a value sharing discretionary profit sharing contribution to eligible employee participants in the Plan. Employees were eligible for this discretionary profit sharing contribution if they met eligibility requirements under the Plan during the 2003 plan year. Employees at the senior vice president and higher levels were not eligible for the discretionary profit sharing contribution. The discretionary profit sharing contribution totaled \$500,000. This contribution was based on the financial performance of Webster for 2003 and therefore will be credited to eligible participants' accounts during 2004. The discretionary contribution was credited to a value sharing account in the Plan and will vest based on a graduated vesting schedule with one-third vesting after 2 years, another third after 3 years and the remaining third after 4 years. Any participant who had three or more years of service on December 30, 2002, will be considered 100% vested in their value sharing account.

On March 31, 2004, Webster completed its acquisition of Phoenix National Trust Company ("Phoenix"), a wholly owned subsidiary of the Phoenix Companies, Inc. The former employees of Phoenix who joined Webster will become eligible to participate in the Plan after meeting the Plan's new employee
