agreement (the "Loan Agreement") and other agreements and documents related to a new \$365.0 million senior term loan facility. Landsbanki Islands hf. and Kaupthing Bank hf., which are the administrative agent and the security trustee, respectively, under the Loan Agreement, served as lead arrangers for the new term loan facility, which closed on February 15, 2005. The lenders party to the Loan Agreement are Landsbanki Islands hf., Kaupthing Bank hf., Nordic Investment Bank, Islandsbanki, HSH Nordbank A.G., Credit Suisse First Boston International and Fortis SA/NV. On February 15, 2005, Nordural borrowed \$82.0 million under the Loan Agreement. Amounts borrowed under the new term loan facility were used to refinance Nordural's prior existing \$185.0 million senior facility agreement, dated as of September 2, 2003, as amended and restated August 16, 2004 (the "Senior Facility Agreement"), among Nordural, Kaupthing Bank hf. and Landsbanki Islands hf., as the arrangers and banks, BNP Paribas S.A., as the account bank, Landsbanki Islands hf., as the agent, and Kaupthing Bank hf., as the security trustee. Concurrently with the closing of the new term loan facility, the Senior Facility Agreement was terminated. In addition to refinancing the Senior Facility Agreement, the new term loan facility will be used to finance a portion of the costs associated with the ongoing expansion of the Nordural facility and for Nordural's general corporate purposes. Amounts borrowed under the new term loan facility may be drawn down in minimum amounts of \$10.0 million, and whole multiples of \$1 million in excess thereof, on the 25th day of any month. Drawings under the facility may be made until September 30, 2006, provided that Nordural has the option to cancel part of the facility (up to \$135.0 million) in whole or in part on or before June 30, 2005. It is the present intent of Nordural to make monthly borrowings to finance the ongoing expansion of the Nordural facility and to fully draw the new term loan facility by September 30, 2006.

Amounts borrowed under Nordural's new term loan facility bear interest at a margin over the applicable Eurodollar rate, plus any increased cost of compliance by the lenders with any applicable reserve asset requirements. Nordural's obligations under the new term loan facility have been secured by a pledge of all of Nordural's shares pursuant to a securities pledge agreement with the lenders. In addition, substantially all of Nordural's assets are pledged as security under the new term loan facility, including, but not limited to, all of Nordural's property, plant and equipment related to the smelter and the harbor area and all of Nordural's current and future inventory, receivables, insurance policies, bank accounts, and rights under specified contracts relating to the operation of the Nordural facility, including its tolling, anode supply and power contracts having a term longer than two years. All outstanding principal must be repaid on February 28, 2010, provided that Nordural is required to make the following minimum repayments of principal on the facility: \$15.5 million on February 28, 2007 and \$14.0 million on each of August 31, 2007, February 29, 2008, August 31, 2008, February 28, 2009, August 31, 2009 and February 28, 2010. If Nordural makes a dividend payment (which dividends are not permitted until the Nordural facility has been expanded to a production level of 212,000 metric tons per year), it must simultaneously make a repayment of principal in an amount equal to 50% of the dividend. Nordural's new term loan facility contains customary covenants, including limitations on additional indebtedness, investments, capital expenditures, dividends, and hedging agreements. Nordural is also subject to various financial covenants, including minimum interest and debt service coverage and net worth covenants. The loan agreement contains customary events of default, including (a) material breach of representations, warranties or covenants; (b) non-payment of amounts due under the facility; (c) cross-default provisions relating to other indebtedness of Nordural; (d) change in control of Nordural (excluding transfer of ownership to Century, its subsidiaries or affiliates); (e) ineffectiveness of security documents or material loss of collateral; (f) bankruptcy; (g) legal prohibitions on performance of obligations under the loan documentation; and (h) material adverse change. Upon the occurrence of an event of default, the amounts outstanding under the loan facility may be accelerated and become immediately due and payable.
