The primary function of the Audit Committee is to assist the Board of Directors in its oversight of the integrity of financial information provided to shareholders and others, its review of the adequacy of the system of internal controls established by the Company and its monitoring of the audit process. In performing these functions, the Audit Committee reviews the Company's financial reporting process and internal controls and reviews and appraises the audit efforts of the Company's independent registered public accounting firm and the Company's internal audit function. The Audit Committee also provides open lines of communication between the directors, the independent registered public accounting firm, the internal auditor and the financial and senior management of the Company. The Board of Directors has approved a written charter for the Audit Committee, which is published on the Company's website at www.flowcorp.com under the Investors link and then under the Governance link. The Committee establishes and maintains a competitive, fair, and equitable compensation and benefits policy designed to retain personnel, to stimulate their useful and profitable efforts on behalf of the Company, and to attract necessary additions to the staff with appropriate qualifications. The Committee also acts as Administrator of the Company's stock incentive plans, determining the terms, amounts and recipients of stock grants. During fiscal 2009, Arlen I. Prentice was a non-voting member of the Committee. Mr. Prentice abstained from participating in matters where he may have had a conflict of interest due to his relationship with Kibble & Prentice, Inc., which is more fully described under Certain Relationships and Related Transactions below. There were three meetings of the Compensation and Plan Administrator Committee during fiscal 2009. Grants of Plan-Based Awards

The following table provides information about equity and non-equity awards granted to the named executive officers in fiscal 2009. In the columns described as Estimated Future Payouts Under Non-Equity Incentive Plan Awards, this table quantifies potential awards under the Short-Term Incentive Plan discussed above. In the columns described below as Estimated Future Payouts Under Equity Incentive Plan Awards, this table quantifies awards made to named executive officers under the Equity Incentive Plan (long-term compensation) discussed above.

- (1) These columns show what the potential payout for each named executive officer was under the Short-Term Incentive Plan in fiscal 2009, if the target, or maximum goals were satisfied for all performance measures. The potential payouts were performance-driven and therefore completely at risk. The payouts range from zero to two times the target bonus, depending on the degree of target achievement. However, as noted above, for fiscal 2009, the financial goals were not achieved and no payment was made under this plan. The business measurements, performance goals, and salary multipliers for determining the payout are described in the Compensation Discussion and Analysis, above. A column for threshold payments under the Short-Term Incentive Plan has been omitted because the

Short-Term Incentive Plan does not have a threshold payment feature.

- (2) This column represents awards granted in fiscal 2009 to the named executive officers under the Equity Incentive Plan (long-term compensation) discussed in more detail in the Long-Term Compensation section of the Compensation Discussion and Analysis. The Compensation Committee determined that two-thirds of these awards would be in the form of options, and one-third in restricted stock. Both the options and restricted vest in equal annual installments over a four-year period. A column for threshold and maximum payments under the Equity Incentive Plan has been omitted because the Equity Incentive Plan does not have a threshold or maximum award or payment feature.
- (3) This column shows the exercise price for the stock options granted pursuant to

the Equity Incentive Plan, which was the closing market price of Company stock on the grant date indicated.

- (4) This column shows the full grant date fair value of grants under SFAS 123R.

The following table provides information on the holdings of stock option and restricted stock awards to the named executive officers as of April 30, 2009. This table includes unexercised and unvested option awards and unvested shares of restricted stock. Each equity grant is shown separately for each named executive officer. The option exercise price shown below reflects the closing market price of the Company's stock on the date of the grant. The market value of the restricted stock awards is based on the closing market price on April 30, 2009, which was \$1.82. For additional information about the option awards and restricted stock awards, see the description of equity incentive compensation in the Compensation Discussion and Analysis and the Grants of Plan-Based Awards table.

Potential Payments upon Termination or Change in Control

Except for our Chief Executive Officer, the Named Executive Officers do not have employment or severance agreements with the Company. However, the Company does have a policy that in the event a member of the senior management team (those reporting directly to the Chief Executive Officer) loses his or her job without cause following a sale of the Company or other change in control, that executive will receive one year of salary and target bonus in addition to any rights under the Company's 2005 Equity Incentive Plan with respect to acceleration of vesting of stock and options.

Certain of the Named Executive Officers have unvested stock options and awards of restricted stock under the Company's 2005 Equity Incentive Plan, the vesting of which may accelerate in the event of a Change in Control (as defined below). The information below is a summary of certain provisions of these arrangements and does not attempt to describe all aspects of the arrangements.

In the event of a Change in Control, our Chief Executive Officer will be generally be entitled to receive two years of the then-current base salary, two annual bonuses, immediate vesting in all outstanding stock options and restricted stock awards, and the reimbursement for two years of premiums paid for life, hospitalization and disability insurance plan coverage. Receipt of these payments is conditioned upon the Chief Executive Officer agreeing to enter into a separation agreement presented by the Company that includes standard terms such as a release of all claims against

the Company. Change in Control is specifically defined in Mr. Brown's Employment Agreement and is slightly different than the definition of change in control in the 2005 Equity Incentive Plan (shown further down below).

Change in Control in Mr. Brown's Employment Agreement is defined as:

- (i) Any person, excluding for this purpose, (i) the Company or any subsidiary of the Company, or (ii) any employee benefit plan of the Company or any subsidiary of the Company, or any person or entity organized, appointed or established by the Company for or pursuant to the terms of any such plan which acquires beneficial ownership of voting securities of the Company, is or becomes the beneficial owner, directly or indirectly of securities of the Company representing more than fifty percent (50%) of the combined voting power of the Company's then outstanding securities; provided, however, that no Change in Control will be deemed to have occurred as a result of a change in ownership percentage resulting solely from an acquisition of securities by the Company; or
- (ii) During any two (2) consecutive years, individuals who at the beginning of such two-year period constitute the Board of Directors of the Company and any new directors whose election by the Board or nomination for election by the Company's shareholders was approved by a vote of at least a majority of the directors then still in office who either were directors at the beginning of the period or whose election or nomination for election was previously so approved cease for any reason to constitute at least a majority of the Board; or
- (iii) Consummation of a reorganization, merger or consolidation or sale or other disposition of all or substantially all of the assets of the Company (a Business Combination), in each case, unless, following such Business Combination, all or substantially all of the individuals and entities who were the beneficial owners of outstanding voting securities of the Company immediately prior to such Business Combination beneficially own, directly or indirectly, more than fifty percent (50%) of the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors, as the case may be, of the entity resulting from such Business Combination in substantially the same proportions as their ownership, immediately prior to such Business Combination, of the outstanding voting securities of the Company.

Following the description of the agreements, there is a table showing the potential payments the Named Executive Officers could have received under these arrangements in connection with a Change in Control if it would have occurred on April 30, 2009, the last day of the Company's fiscal year.

There is also presented a table showing the potential payments and benefits the Chief Executive Officer could receive in various termination and Change in Control scenarios if such events occurred on April 30, 2009, the last day of the Company's fiscal year. Some of the termination scenarios presented for the Chief Executive Officer

Table of Contents

depend on whether the termination involves Cause, Good Reason and Disability as those terms are defined in the employment agreement between the Chief Executive Officer and the Company.

Douglas P. Fletcher, our former Chief Financial Officer, resigned from the Company effective December 5, 2008. Restricted stock and options that had not vested at the time of Mr. Fletcher's resignation were forfeited. The only amount paid to Mr. Fletcher at the time of his resignation from the Company was \$21,992 for vacation accrual.

Acceleration of Stock Award Vesting

The Company's 2005 Equity Incentive Plan provides that in the event of a Change in Control (as defined below), if the surviving corporation does not assume or continue outstanding stock awards or substitute similar stock awards for those outstanding under the 2005 Equity Incentive Plan, then all such outstanding stock awards will be accelerated and become fully vested and exercisable immediately prior to the consummation of the Change in Control transaction.

For purposes of the 2005 Equity Incentive Plan, Change in Control means:

- (i) Approval by the holders of the Company's Common Stock of any merger or consolidation of the Company in which the Company is not the continuing or surviving corporation or pursuant to which shares of common stock are converted into cash, securities or other property, other than a merger of the Company in which the holders of the Common Stock immediately prior to the merger have substantially the same proportionate ownership of common stock of the surviving corporation immediately after the merger;
- (ii) Approval by the holders of the Common Stock of any sale, lease, exchange or other transfer in one transaction or a series of related transactions of all or substantially all of the Company's assets other than a transfer of the Company's assets to a majority-owned subsidiary of the Company; or
- (iii) Approval by the holders of the Common Stock of any plan or proposal for the liquidation or dissolution of the Company.

His base salary was reduced another 10% in May, but this table is only as of April 30, 2009) plus two years of Mr. Brown's FY2008 Short-Term Incentive Plan bonus of \$403,855. With respect to the bonus, Mr. Brown's Employment Agreement provides that in the event of resignation with Good Reason, or Termination without Cause not related to a Change in Control, Mr. Brown would be

entitled to receive two years worth of either (a) the average of the two most recent bonuses received, or (b) if he had only received one bonus, the amount of that previous bonus. Since his fiscal 2009 bonus would not have been paid should this triggering event have happened on April 30, 2009, the only bonus he would have received would have been his fiscal 2008 bonus, so that is the bonus used in this hypothetical scenario. This amount also includes a payment of \$25,781 for 24 months of COBRA health insurance premiums per his Employment Agreement and a payment of \$31,446 for vacation accrual.

- (2) In this scenario, per his Employment Agreement, Mr. Brown

would be entitled to receive the bonus *earned* at the date of the triggering event. As discussed in the Compensation Discussion and Analysis section, in fiscal 2009, the Company financial goals were not achieved and no payouts were made pursuant to the

Short-Term Incentive Plan, so if there was a triggering event on April 30, 2009, the bonus earned would have been zero. The only amount to be paid would have been \$31,446 for vacation accrual.

Compensation Discussion and Analysis

Introduction. The Company's Compensation and Plan Administrator Committee (the Compensation Committee) establishes and directs the administration of all programs under which executive compensation is paid or awarded to the Company's executive officers and incentive-eligible employees. The Compensation Committee also evaluates the performance of our Chief Executive Officer (CEO) and assesses the overall effectiveness of the Company's executive compensation programs.

Compensation Program Objectives. The Compensation Committee adopted a compensation philosophy in fiscal 2005, which it has continued to use as the basis for the Company's compensation programs through fiscal 2009. The objective of the Company's compensation programs is to provide compensation and benefits that are competitive, equitable and consistent with our commitment to provide a work environment promoting teamwork, outstanding performance and corporate pride.

Elements of Executive Compensation. The elements of executive compensation during fiscal 2009 were base salary, a short-term incentive awards, and long-term incentive awards. We describe each of these elements below. While the elements of compensation described below are considered separately, the Compensation Committee takes into account the full compensation package afforded by the Company to each executive, including salary, targeted incentive compensation, retirement and other benefits. In reviewing the individual performance of the executives whose compensation is detailed elsewhere in this Annual Report on Form 10-K/A, the Compensation Committee works with the Company's Human Resources group, and takes into account the views of the CEO (other than in a review of the CEO himself).

Base Salaries. The Compensation Committee believes that base salaries should be competitive with relevant organizations with similar complexity, and internally consistent based upon each position's assigned responsibilities. Individual salary determinations are made considering qualifications, experience and performance. Base salaries of the executive officers, other than for the CEO, were determined by the Compensation Committee using the CEO's recommendations. The Compensation Committee engaged an independent compensation consultant to assist for fiscal year 2007, but given deteriorating market conditions did not do so in 2008 or 2009. The Compensation Committee made minimal upward adjustments to selected executives' base salaries during fiscal 2009 based on competitive pay data and practices in the industrial and commercial machinery industry sector, proxy analysis of a group of peer

companies (discussed in the paragraph immediately following), and individual performance. The base salaries of all Flow executives was reduced beginning in May, 2009 by 10% (Charley Brown, CEO, took a 5% reduction in March, and an additional 10% in May for a total 15% reduction), and vacation and sick leave accruals as well as Company contributions to the 401(k) plan were stopped as recession countermeasures.

For the fiscal 2007 analysis of peer group companies, the Company selected its peer group companies using the following criteria: (a) the company must be publicly traded; (b) the company must be headquartered in the U.S.; (c) the company is in the Industrial Manufacturing Industry; and (d) the company must have annual revenue ranging between \$100 Million and \$400 Million. These

Table of Contents

criteria resulted in a peer group of 22 companies, consisting of the following: A.S.V., Inc. (ASVI); Alamo Group, Inc. (ALG); Ampco-Pittsburgh Corp. (AP); Badger Meter, Inc. (BMI); CECO Environmental Corp. (CECE); Flanders Corp. (FLDR); Gehl Co. (GEHL); GSI Group, Inc. (GSIG); Hardinge, Inc. (HDNG); Hurco Companies, Inc. (HURC); Kadant, Inc. (KAI); L.B. Foster Co. (FSTR); Lindsay Corp. (LNN); Material Sciences Corp. (MSC); MFRI, Inc. (MFRI); NN, Inc. (NNBR), Presstek, Inc. (PRST), RBC Bearings, Inc. (ROLL); Sun Hydraulics Corp. (SNHY); Synalloy Corp. (SYNL), The Gorman-Rupp Co. (GRC); Thermadyne Holdings Corp. (THMD).

Short-Term Incentive Plan. The Company believes it is important that those who are directly involved in contributing to the achievement of the Company's goals should have a meaningful portion of their total compensation opportunity tied to those goals. Executive officers and other key management and technical positions have a portion of their total compensation at risk, contingent upon meeting predefined short-term corporate, business unit and individual goals. More senior executives, who have a greater opportunity to contribute to the Company's goals, have a greater portion of their compensation at risk.

The Short-Term Incentive Plan emphasizes the achievement of the Company's annual financial goals. For fiscal 2009 these goals were based upon the Company obtaining Operating Profit of \$26.2 million, and Operating Profit as a percentage of Revenue of 9.6%, and executive officers achieving certain individual goals. Executives' target bonus levels (other than the CEO, which is discussed below) were set at percentages of base salary, ranging from 25-45 percent. Payouts (typically paid half in stock and half in cash at the Compensation Committee's discretion, although it remains a cash-based plan) could range from zero to two times the target amount, depending on achievement of goals. For executive officers, 80 percent of their short-term incentive award was based on the Company's achievement of the financial goals and 20 percent was based on the achievement of individual goals for the executive officers. The CEO's short-term incentive award is determined by his employment agreement (discussed below). For fiscal 2009, the Company financial goals were not achieved. Since the financial goals were not achieved, the Compensation Committee determined payment would not be made with respect to the individual goals, so there were no payments whatsoever.

Long-Term Compensation. The Company also believes that executive officers and other key management positions should have a meaningful portion of their total compensation linked to sustained performance and to increasing long-term shareholder value. Beginning with fiscal 2006, the Company adopted, and the shareholders approved, a Long-Term Incentive Plan. This Plan was replaced for fiscal 2009 by the Equity Incentive Plan (EIP). No awards were made for fiscal 2009 under either the Long-Term Incentive Plan or the EIP. The purpose of the EIP is to provide stock incentives for executives who assist the Company in meeting the Company's long-term financial goals and to align the interests of executives with the Company's shareholders. Under the plan, executives have the opportunity to receive shares of stock. At the beginning of the year, participating executives are assigned a target award. The size of the target EIP award is based on the participant's level in the organization. These target awards may be modified up or down by 35% depending on the participant's performance during the preceding year, and the potential value of their contributions during the upcoming year. In fiscal 2009, EIP awards for executive officers who report directly to the CEO were made two-thirds in the form of restricted shares and one-third in the form of options. However, due to the decrease in the price of the Company's stock, all fiscal 2010 grants under the EIP will be made in the form of restricted shares. This will reduce the number of shares granted and will keep dilution below 2.5%. Both the options and restricted stock vest in equal annual installments over a four-year period.

The Compensation Committee normally uses both stock and stock options for executive compensation believing that both have a role in retention and alignment with shareholders. Stock serves as a retention tool, and both stock and options provide a strong incentive to manage the Company for maximum share value.

Other Benefits. Executives also receive reimbursement for fees paid for financial planning services, and a monthly car allowance. The Company provides a 401(k) plan as a retirement benefit and health insurance for all of its US-based employees. However, as noted above, Company contributions to the 401(k) plan were suspended in March 2009 as a recession countermeasure. It is anticipated that these contributions will be reinstated once Flow exits the recession.

Change In Control. In order to provide executives the assurance that executives will serve the interests of shareholders in the event of a potential sale of the Company or other change in control, the Company provides that in

the event an executive loses his or her job without cause following a sale of the Company or other change in control, that executive will receive one year of salary and target bonus and all outstanding unvested equity awards will immediately vest. This benefit is provided to senior executives whose employment would be at risk following a change in control.

Chief Executive Officer Compensation. Mr. Brown's compensation arrangement provides for a period of employment that ends on April 30, 2011. His original period of employment was set to expire on April 30, 2010, but was extended in May 2008 for an

Table of Contents

additional year in recognition of his performance in fiscal year 2008. Subject to the terms and conditions of the agreement, Mr. Brown will receive, or has already received, among other things:

- Ø an annual base salary of \$500,000, which he voluntarily reduced to \$425,000 as a temporary recession countermeasure (5% reduction in March, and an additional 10% in May for a total 15% reduction);
- Ø an annual performance-based bonus set at a target of 70% of base salary (but not more than 140% of base salary);
- Ø the ability to participate in the EIP and acquire an annual grant of stock options and shares of restricted stock having an aggregate target value equal to 200% of base salary. For fiscal 2010 Mr. Brown will voluntarily receive his grant in restricted shares only; and
- Ø a one-time option to purchase 200,000 shares of the Company's common stock vesting over a four-year period.

The agreement also provides for other benefits, such as relocation payments and home closing expense reimbursements, a monthly financial planning allowance, vacation accrual, and eligibility to participate in life insurance, health insurance, 401(k) and similar benefit plans of the Company.

In general, the compensation and benefits described in the paragraph above will be provided to Mr. Brown in connection with his employment with the Company through the end of the employment term. However, Mr. Brown will not be entitled to all such described compensation and benefits if his employment is terminated prior to the end of the employment term by the Company for Cause (as defined in Mr. Brown's Employment Agreement) or by resignation of Mr. Brown other than for Good Reason (as defined in the Agreement) but rather, Mr. Brown will only be entitled to receive base salary and other bonuses and compensation earned as of the date of termination. In the event that Mr. Brown's employment is terminated prior to the end of the employment term by the Company other than for Cause or by resignation of Mr. Brown for Good Reason, then Mr. Brown shall generally be entitled to receive as severance the following: two years of the then-current base salary, two annual bonuses, immediate vesting in all outstanding stock options and restricted stock awards, and the reimbursement for two years of premiums paid for life, hospitalization and disability insurance plan coverage.

In the event that Mr. Brown's employment is terminated due to the employment term of the Agreement expiring, then Mr. Brown shall generally be entitled to receive as severance the following: one year of the then-current base salary, one annual bonus, and the reimbursement for one year of premiums paid for life, hospitalization and disability insurance plan coverage. If the Agreement terminates by reason of death, then the Company shall provide for immediate vesting in all outstanding stock options and restricted stock awards.

In the event that Mr. Brown's employment is terminated within one year after a Change in Control other than for Cause or by resignation of Mr. Brown for Good Reason, then Mr. Brown shall generally be entitled to receive as severance the following: two years of the then-current base salary, two annual bonuses, and the reimbursement for two years of premiums paid for life, hospitalization and disability insurance plan coverage.

The Agreement also contains confidentiality, non-competition, non-solicitation and indemnification provisions.

Conclusion. The Compensation Committee believes that the executive compensation policies and practices it has adopted will serve the interests of the shareholders and the Company effectively. The Compensation Committee also believes that the Company's compensation programs provide motivation for executive officers to contribute to the Company's future success and balance both the short and long-term interests of our shareholders. The Compensation Committee will continue to monitor the effectiveness of the Company's total compensation program to meet the ongoing needs of the Company.

Compensation Committee Report

The Compensation and Plan Administrator Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management, and based on such review and discussions, the Compensation Committee recommended that the Compensation Discussion and Analysis be included in this Annual Report on Form 10-K/A.

Compensation Committee Interlocks and Insider Participation

The Compensation and Plan Administrator Committee is comprised entirely of independent directors. During fiscal 2009, none of the Company's executive officers served as a member of a compensation committee or board of directors of any other entity which had an executive officer serving as a member of the Company's Board of Directors.

Compensation of Directors

The Compensation and Plan Administrator Committee is charged with ensuring that the Company will be able to continue to attract and retain directors having the qualifications necessary to serve the interests of the Company's shareholders. To achieve this goal and, based on a thorough review of director compensation at a peer group of 16 companies conducted by a nationally recognized independent compensation consulting firm, the Compensation Committee has adopted the following compensation program for Directors. This program was adopted in fiscal 2004, but modified in 2006 to raise the value of the stock grant. The program remained unchanged for fiscal 2008. Effective March 2009, as a recession countermeasure and consistent with the salary cuts being implemented at the Company, the Board agreed to a 5% reduction in its cash compensation. Note that the cash compensation figures below do not reflect the 5% reduction. The Board intends to return its compensation to previous levels at some point in the future when market conditions allow.

Directors who are not employees of the Company will receive an annual retainer of \$20,000, payable quarterly, \$1,500 per meeting for attendance at Board meetings and \$1,000 per meeting for attendance at Committee meetings. The Company also reimburses directors for travel and other expenses in connection with their service.

In addition, Committee Chairs are paid an additional annual retainer of \$5,000 with the exception of the Audit Committee Chair who is paid an additional annual retainer of \$10,000, and the non-executive Chairman of the Board who is paid an additional annual retainer of \$15,000.

Non-employee Directors also receive annual grants of shares of Common Stock that are vested at the time of grant. The annual grants of shares of Company stock have a value equal to \$40,000. The grants will be made at each Annual Meeting of Shareholders, and the shares will be valued based on the average closing price over the twenty (20) trading days preceding the Annual Meeting.

The Board has adopted a policy that directors retain all shares of stock received from the Company in consideration for their services so long as they continue to serve as directors of the Company.

The Board has also adopted a policy that directors may serve no more than four three-year terms. However, in recognition of Mr. Prentice's valuable service as a Board member and desire to maintain Board continuity for another year, the Board waived the term limit policy with respect to Mr. Prentice. He is now standing for election for a one-year term, as opposed to the three-year term of the other two directors up for election.
