-

Item 2.02. Results of Operations and Financial Condition

On July 22, 2010, we issued a press release announcing our results of operations for the quarter and six month period ended June 30, 2010, including, among other things, an income statement for those periods. In addition, on the same day we held a teleconference for analysts and media to discuss those results. The teleconference was web cast on our web site. The press release and related financial statements are attached to this Form 8-K as Exhibit 99.1.

For the second quarter and first six months of 2010, the press release attached as Exhibit 99.1 includes a non-GAAP presentation of our results. We use non-GAAP financial measures, such as non-GAAP net income and non-GAAP earnings per share, that differ from financial statements reported in conformity to U.S. generally accepted accounting principles (GAAP). In today s press release, we used non-GAAP financial measures in comparing the financial results for the first quarter and first six months of 2010 with the same periods of 2009. Those measures include operating income, income before taxes, income taxes, effective tax rate, net income, and earnings per share adjusted to exclude the effect of the following items (described in more detail in the press release attached as Exhibit 99.1):

In-process research and development charges in the first quarter of 2010 associated with an in-licensing transaction with Acrux.

Restructuring charges in both the first and second quarters of 2010 primarily related to severance costs from previously-announced strategic actions that the company is taking to reduce its cost structure and global workforce.

Charges in the second quarter of 2009 related to potential settlements with the attorneys general of several states of claims related to Zyprexa.

In addition, we quantified the impact of changes in foreign exchange rates in the second quarter of 2010 compared to the same period of 2009, as well as the impact of U.S. health care reform on our second quarter 2010 results.

In today s press release, we provided financial expectations for 2010. In addition to providing earnings per share expectations on a GAAP basis, we provided earnings per share expectations on a non-GAAP basis. In order to provide additional insight into the earnings-per-share growth comparison between 2009 results and expected 2010 results, we adjusted earnings per share for the first and second quarter 2010 and second quarter 2009 charges described above and for the items described below for 2009.

Asset impairments and restructuring charges primarily related to severance costs from previously-announced strategic actions that the company is taking to reduce its cost structure and global workforce.

In-process research and development charge associated with a licensing agreement with Incyte Corporation.

Asset impairments and restructuring charges primarily related to the sale of our Tippecanoe, Indiana site.

Charges related to settlements and potential settlements with the attorneys general of several states of claims related to Zyprexa.

The items that we exclude when we provide non-GAAP results or non-GAAP expectations are typically highly variable, difficult to predict, and of a size that could have a substantial impact on our reported operations for a period. We believe that these non-GAAP measures provide useful information to investors. Among other things, they may help investors evaluate our ongoing operations. They can assist in making meaningful period-over-period comparisons and in identifying operating trends that would otherwise be masked or distorted by the items subject to the adjustments. Management uses these non-GAAP measures internally to evaluate the performance of the business, including to allocate resources and to evaluate results relative to incentive compensation targets.

Investors should consider these non-GAAP measures in addition to, not as a substitute for or superior to, measures of financial performance prepared in accordance with GAAP. For the reasons described above for use of non-GAAP measures, our prospective earnings guidance is subject to adjustment for certain future matters, similar to those identified above, as to which prospective quantification generally is not feasible.

The information in this Item 2.02 and the press release attached as Exhibit 99.1 are considered furnished to the Commission and are not deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended.
