(e) The Alleghany Corporation Retirement Plan (the Plan) generally provides, for designated employees of Alleghany Corporation (the Company), including all of its current executive officers, retirement benefits in the form of an annuity for the participant's life (and a 100% spousal survivor annuity) or, alternatively, actuarially equivalent forms of benefits, including a lump sum. Under the Plan, a participant must have completed five years of service with the Company or a subsidiary of the Company before he or she is vested in, and thus has a right to receive, any retirement benefits following his or her termination of employment. Prior to December 31, 2010, the annual retirement benefit under the Plan, if paid in the form of a joint and survivor life annuity to a married participant on reaching age 65 with 15 or more years of service, is equal to 66.67% of the participant's average compensation, defined as the highest average annual base salary and annual cash bonus over a consecutive three-year period during the last ten years of employment (the Old Formula).

On December 13, 2010, pursuant to authority delegated by the Board of Directors (the Board) of the Company to the Compensation Committee of the Board (the Compensation Committee), the Compensation Committee amended and restated the Plan effective January 1, 2011 (the Amended and Restated Plan). The Amended and Restated Plan provides that, for any participant retiring on or after January 1, 2011, the participant's average compensation used to determine his or her annual retirement benefit will no longer include annual cash bonuses. Accordingly, the annual retirement benefit under the Amended and Restated Plan, if paid in the form of a joint and survivor life annuity to a married participant on reaching age 65 with 15 or more years of service, is equal to 66.67% of the participant's highest average annual base salary over a consecutive three-year period during the last ten years of employment (the New Formula). Notwithstanding the foregoing, in the event that the annual retirement benefit accrued by a participant as of December 31, 2010 under the Old Formula is larger than the annual retirement benefit calculated under the New Formula at retirement, the participant will receive the annual retirement benefit accrued as of December 31, 2010 under the Old Formula.

The foregoing description of the Amended and Restated Plan is qualified in its entirety by reference to the Amended and Restated Plan, a copy of which is filed herewith as Exhibit 10.1 and incorporated herein by reference.

Item 7.01 Regulation FD Disclosure
