Myers Industries, Inc.
Notes to Condensed Consolidated Financial Statements
(Dollar amounts in thousands, except where otherwise indicated)
(Unaudited)

Statement of Accounting Policy

The accompanying consolidated financial statements include the accounts of Myers Industries, Inc. and all wholly owned subsidiaries (collectively, the Company), and have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures are adequate to make the information not misleading. It is suggested that these financial statements be read in conjunction with the financial statements and notes thereto included in the Company's latest annual report on Form 10-K.

In the opinion of the Company, the accompanying financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of March 31, 2011, and the results of operations and cash flows for the three months ended March 31, 2011 and 2010. The results of operations for the three months ended March 31, 2011 are not necessarily indicative of the results of operations that will occur for the year ending December 31, 2011.

Recent Accounting Pronouncements

For the three months ended March 31, 2011, there have been no recent significant accounting pronouncements or changes in accounting pronouncements that have become effective that impact the Company.

Fair Value Measurement

The Company follows guidance included in ASC 820, *Fair Value Measurements and Disclosures*, for its financial assets and liabilities, as required. The guidance established a common definition for fair value to be applied to U.S. GAAP requiring the use of fair value, established a framework for measuring fair value, and expanded disclosure requirements about such fair value measurements. The guidance did not require any new fair value measurements, but rather applied to all other accounting pronouncements that require or permit fair value measurements. Under ASC 820, the hierarchy that prioritizes the inputs to valuation techniques used to measure fair value is divided into three levels:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Unadjusted quoted prices in active markets for similar assets or liabilities, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active or inputs that are observable either directly or indirectly.

Level 3: Unobservable inputs for which there is little or no market data or which reflect the entity's own assumptions.

The fair value of the Company's cash, accounts receivable, accounts payable and accrued expenses are considered to have a fair value which approximates carrying value due to the nature and relative short maturity of these assets and liabilities.

The fair value of debt under the Company's Credit Agreement approximates carrying value due to the floating interest rates and relative short maturity (less than 90 days) of the revolving borrowings under this agreement. The fair value of the Company's \$35 million fixed rate senior notes was estimated at \$37.5 million at March 31, 2011 using market observable inputs for the Company's comparable peers with public debt, including quoted prices in active markets and interest rate measurements which are considered level 2 inputs.

Myers Industries, Inc.
Notes to Condensed Consolidated Financial Statements
(Dollar amounts in thousands, except where otherwise indicated)
(Unaudited)

Discontinued Operations

On February 1, 2007, the Company sold its former Material Handling Europe business segment. On November 10, 2010, the French Tax Authorities issued a notice of assessment to the buyer, and current owner, of these businesses. The assessment related to business taxes for the years 2006, 2007 and 2008, and totaled 1.5 million euros. As part of the sale agreement, the Company provided indemnification to the current owner for any taxes, interest, penalties and reasonable costs related to these businesses for periods through the date of sale. On January 13, 2011, the Company filed a Notice of Claim to protest the assessment with the French Tax Authorities. The Company and its French legal counsel believe that the basis for the assessment is not valid, and accordingly, will continue to appeal the claim through all available means. Accordingly, no amounts have been recognized in the financial statements related to this matter.

Acquisitions

On July 21, 2010, the Company acquired the assets of Enviro-Fill, Inc., a developer of a new fuel overfill prevention and fuel vapor capture system. The total purchase price was approximately \$1.5 million, including contingent liabilities for additional future consideration. The allocation of purchase price includes \$0.8 million of amortizable intangible assets and \$0.7 million of goodwill. These assets were recorded at fair value as of the date of acquisition using primarily level 2 and 3 inputs. The Enviro-Fill business is included in the Company's Engineered Products Segment.

Goodwill

The change in goodwill for the three months ended March 31, 2011 was as follows:

(Amount in thousands)

Segment	Balance at		Foreign		Balance at	
	January 1,	Acquisitions	Currency	Impairment	March 31,	
	2011		Translation		2011	
Distribution	\$ 214	\$ -0-	\$ -0-	\$ -0-	\$ 214	
Engineered Products	707	-0-	-0-	-0-	707	
Material Handling - North America	30,383	-0-	-0-	-0-	30,383	
Lawn and Garden	9,588	-0-	154	-0-	9,742	
Total	\$ 40,892	\$ -0-	\$ 154	\$ -0-	\$ 41,046	

Net Income Per Common Share

Net income per common share, as shown on the Condensed Consolidated Statements of Income, is determined on the basis of the weighted average number of common shares outstanding during the period as follows:

	Three Months Ended	
	2011	2010
Weighted average common shares outstanding		
Basic	35,320,589	35,289,725
Dilutive effect of stock options and restricted stock	130,034	98,392
Weighted average common shares outstanding diluted	35,450,623	35,388,117

Table of Contents

Part I Financial Information
Myers Industries, Inc.
Notes to Condensed Consolidated Financial Statements
(Dollar amounts in thousands, except where otherwise indicated)
(Unaudited)

Options to purchase 1,767,454 and 1,617,670 shares of common stock that were outstanding at March 31, 2011 and 2010, respectively, were not included in the computation of diluted earnings per share as the exercise price of these options was greater than the average market price of common shares, and their effect would be anti-dilutive.

Supplemental Disclosure of Cash Flow Information

The Company made cash payments for interest of \$0.5 million and \$1.0 million for the three months ended March 31, 2011 and 2010, respectively. Cash payments for income taxes were \$0.1 million and \$1.7 million for the three months ended March 31, 2011 and 2010, respectively.

Comprehensive Income

A summary of comprehensive income for the three months ended March 31, 2011 and 2010 is as follows:

(In thousands)	Three Months Ended March 31,	
	2011	2010
Net income	\$ 6,719	\$ 5,530
Other comprehensive income:		
Foreign currency translation adjustment	1,810	1,841
Comprehensive income	\$ 8,529	\$ 7,371

Accumulated Other Comprehensive Income

As of March 31, 2011 and December 31, 2010, the balance in the Company's accumulated other comprehensive income is comprised of the following:

(In thousands)	March 31,	December 31,
	2011	2010
Foreign currency translation adjustments	\$ 14,044	\$ 12,234
Pension adjustments	(2,070)	(2,070)
Total	\$ 11,974	\$ 10,164

Restructuring

During the quarters ended March 31, 2011 and 2010, the Company recorded total expenses of \$0.6 and \$0.8 million, respectively, for costs associated with restructuring plans including impairment of property, plant and equipment, lease obligations, severance, consulting and other related charges. Impairment charges for property, plant and equipment were based on appraisals or estimated market values of similar assets which are considered level 2 inputs. Estimated lease obligations associated with closed facilities were based on level 2 inputs.

In the quarter ended March 31, 2011, the \$0.6 million of restructuring costs included charges of \$0.3 million related to the Distribution segment and a \$0.3 million expected loss on sale of an idle Lawn and Garden manufacturing facility.

In the quarter ended March 31, 2010, the \$0.8 million of restructuring costs were primarily related to rigging and transportation costs in connection with the movement of certain machinery and equipment between facilities. In addition, during the first quarter of 2010 the Company sold its closed Material Handling plant in Shelbyville, Kentucky for \$5.1 million and recorded a gain on the sale of \$0.7 million.

Table of Contents

Part I Financial Information
Myers Industries, Inc.
Notes to Condensed Consolidated Financial Statements
(Dollar amounts in thousands, except where otherwise indicated)
(Unaudited)

The accrued liability balance for severance and other exit costs associated with restructuring is included in Other Accrued expenses on the Condensed Statement of Consolidated Financial Position. Activity related to the Company's restructuring reserves as of March 31, 2011 is as follows:

(Dollars in thousands)	
Balance at January 1, 2011	\$ 763
Provision	-0-
Less: Payments	(121)
 Balance at March 31, 2011	 \$ 642

As a result of restructuring activity and plant closures, approximately \$5.0 million of property, plant, and equipment have been classified as held for sale at March 31, 2011 and December 31, 2010, respectively, and is included in other assets in the Condensed Consolidated Statements of Financial Position.

Stock Compensation

On April 30, 2009, the shareholders of the Company approved the adoption of the 2008 Incentive Stock Plan (the 2008 Plan). Under the 2008 Plan, the Compensation Committee of the Board of Directors is authorized to issue up to 3,000,000 shares of various types of stock based awards including stock options, restricted stock and stock appreciation rights to key employees and directors. In general, options granted and outstanding vest over three to five years and expire ten years from the date of grant.

Stock compensation expense reduced income before taxes approximately \$0.6 million for the three months ended March 31, 2011 and \$0.5 million for the three months ended March 31, 2010, respectively. Stock compensation is included in SG&A expense in the accompanying Condensed Consolidated Statements of Income. Total unrecognized compensation costs related to non-vested share based compensation arrangements at March 31, 2011 was approximately \$4.3 million which is expected to be recognized over the next three years.

On March 3, 2011, 355,025 stock option shares were granted with a three year vesting period. The fair value of these option shares was estimated using a Trinomial Lattice option pricing model based on assumptions set forth in the following table. The Company uses historical data to estimate employee exercise and departure behavior. The risk free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant and through the expected term. The dividend yield rate is based on the Company's historical dividend yield and expected volatility is derived from historical volatility of the Company's shares and those of similar companies measured against the market as a whole.

Model

Risk free interest rate	3.79%
Expected dividend yield	2.90%
Expected life of award (years)	6.00
Expected volatility	50.72%
Fair value per option share	\$ 3.69

Table of Contents

Part I Financial Information
Myers Industries, Inc.
Notes to Condensed Consolidated Financial Statements
(Dollar amounts in thousands, except where otherwise indicated)
(Unaudited)

The following table summarizes the stock option activity for the three months ended March 31, 2011:

	Shares	Average Exercise Price	Weighted Average Life
Outstanding at January 1, 2011	1,845,210	\$ 11.65	
Options Granted	355,025	10.10	
Options Exercised	(440)	8.00	
Cancelled or Forfeited	(115,534)	13.01	
Outstanding at March 31, 2011	2,084,261	\$ 11.31	7.46 years
Exercisable at March 31, 2011	1,181,312	\$ 11.99	

The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option. The total intrinsic value of stock options exercised during the three months ended March 31, 2011 and 2010 was approximately \$1 and \$8, respectively.

In addition, at March 31, 2011 and December 31, 2010, the Company had outstanding 298,250 and 177,250 shares of restricted stock, respectively, with vesting periods through March 2014. The restricted stock awards are rights to receive shares of common stock subject to forfeiture and other restrictions, which generally vest over a three to four year period.

Income Taxes

As of December 31, 2010, the total amount of gross unrecognized tax benefits was \$5.8 million of which \$5.5 million would reduce the Company's effective tax rate. The unrecognized tax benefits include \$4.2 million from the tax position taken on the Company's 2007 U.S. Corporate Income Tax Return relating to the loss on the sale of its European Material Handling business. The amount of accrued interest expense related to uncertain tax positions within the Company's consolidated financial position at December 31, 2010 was \$0.4 million. No material changes have occurred in the liability for unrecognized tax benefits during the three months ended March 31, 2011.

The Company recognizes accrued amounts of interest and penalties related to its uncertain tax positions as part of its income tax expense within its condensed consolidated statements of income.

As of March 31, 2011, the Company and its significant subsidiaries are subject to examination for the years after 2004 in Brazil, after 2005 in Canada, and after 2006 in the United States. The Company and its subsidiaries are subject to examination in certain states within the United States starting after 2005 and in the remaining states after 2006 and 2007.

In the current year, the only significant potential change to the Company's unrecognized tax benefits is related to expiration of the U.S. federal statute of limitations for the Company's 2007 tax return. In connection with this event, \$4.2 million of tax benefits related to the Company's 2007 sale of its European Material Handling business may be recognized in the quarter ending September 30, 2011.

Retirement Plans

The Company and certain of its subsidiaries have pension and profit sharing plans covering substantially all of their employees. In 2009, the Company merged its two frozen defined benefit pension plans into a single plan which provides benefits primarily based upon a fixed amount for each year of service as defined. The net periodic pension cost for the three months ended March 31, 2011 and 2010, respectively, was as follows:

Table of Contents

Part I Financial Information
Myers Industries, Inc.
Notes to Condensed Consolidated Financial Statements
(Dollar amounts in thousands, except where otherwise indicated)
(Unaudited)

	Three Months Ended	
	March 31,	
	2011	2010

Interest cost	76	80
Expected return on assets	(77)	(74)
Amortization of actuarial net loss	16	15
Net periodic pension cost	\$ 33	\$ 30

As of March 31, 2011, the Company had not made a contribution to the pension plan but anticipates contributions totaling \$268 in 2011.

Contingencies

The Company is a defendant in various lawsuits and a party to various other legal proceedings, in the ordinary course of business, some of which are covered in whole or in part by insurance. We believe that the outcome of these lawsuits and other proceedings will not individually or in the aggregate have a future material adverse effect on our consolidated financial position, results of operations or cash flows.

A number of parties, including the Company and its subsidiary, Buckhorn Inc., were identified in a planning document adopted in October 2008 by the California Regional Water Quality Control Board, San Francisco Bay Region (RWQCB). The planning document relates to the presence of mercury, including amounts contained in mining wastes, in and around the Guadalupe River Watershed (Watershed) region in Santa Clara County, California. Buckhorn has been alleged to be a successor in interest to an entity that performed mining operations in a portion of the Watershed area. The Company has not been contacted by the RWQCB with respect to Watershed clean-up efforts that may result from the adoption of this planning document. The extent of the mining wastes that may be the subject of future cleanup has yet to be determined, and the actions of the RWQCB have not yet advanced to the stage where a reasonable estimate of remediation cost, if any, is available. Although assertion of a claim by the RWQCB is reasonably possible, it is not possible at this time to estimate the amount of any obligation the Company may incur for these cleanup efforts within the Watershed region, or whether such cost would be material to the Company's financial statements.

In October 2009, an employee was fatally wounded while performing maintenance at the Company's manufacturing facility in Springfield, Missouri. On February 22, 2011, the family of the deceased filed a civil complaint against the manufacturer of the press involved in the incident and the Buckhorn Inc. employee involved in the incident. Buckhorn Inc. has not been named as a party to this lawsuit. At this time the Company is not able to determine whether this proceeding or the incident will result in legal exposure to the Company, or if any such liability that results would be material to the Company's financial statements. The Company believes that it has adequate insurance to resolve any claims resulting from this incident.

Segment Information

Using the criteria of ASC 280 *Industry Segments*, the Company has four operating segments: Lawn and Garden, Material Handling, Distribution and Engineered Products. Each of these operating segments is also a reportable segment under the ASC 280 criteria. None of the reportable segments include operating segments that have been aggregated. Some of these segments contain individual business components that have been aggregated on the basis of common management, customers, products, production processes and other economic characteristics.

Income before income taxes for each business segment is based on net sales less cost of products sold, and the related selling, administrative and general expenses. In computing business segment operating income, general corporate overhead expenses and interest expenses are not included.

	Three Months Ended March 31,	
	2011	2010
Income Before Income Taxes		
Lawn and Garden	\$ 3,878	\$ 4,757
Material Handling	10,261	5,410
Distribution	3,072	2,902
Engineered Products	2,789	2,553
Corporate	(7,632)	(5,141)
Interest expense-net	(1,237)	(1,800)
Income from continuing operations before income taxes	\$ 11,131	\$ 8,681

Table of Contents**Part I Financial Information****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**
Results of Operations*Comparison of the First Quarter of 2011 to the First Quarter of 2010***Net Sales:**

Segment	2011	2010	Change	% Change
Lawn and Garden	\$ 65.1	\$ 69.5	\$ (4.4)	(6%)
Material Handling	\$ 65.7	\$ 60.2	\$ 5.5	9%
Distribution	\$ 41.6	\$ 38.7	\$ 2.9	7%
Engineered Products	\$ 27.9	\$ 24.4	\$ 3.5	14%
Intra-segment elimination	\$ (6.9)	\$ (6.4)	\$ (0.5)	(8%)
TOTAL	\$ 193.4	\$ 186.4	\$ 7.0	4%

Net sales in the first quarter of 2011 were \$193.4 million, an increase of \$7.0 million or 4% compared to the prior year, reflecting higher selling prices, increased volumes in most of the Company's markets and an increase of \$1.8 million from the effect of foreign currency translation.

Net sales in the Lawn and Garden Segment in the first quarter of 2011 were down \$4.4 million or 6% compared to the first quarter of 2010. The decreased sales primarily reflect lower unit volume of \$7.6 million compared to the first quarter of 2010, as growers took a more conservative approach to production this spring. The lower sales volume was partially offset by an increase from selling prices of \$2.3 million in the quarter ended March 31, 2011. In addition, sales in the quarter ended March 31, 2011 increased \$1.4 million from foreign currency translation reflecting the impact of exchange rates for the Canadian dollar.

Net sales in the Material Handling Segment increased \$5.5 million or 9% in the first quarter of 2011 compared to the same quarter in 2010. The higher sales include \$1.7 million from increased volumes and \$3.6 million due to higher selling prices. The Material Handling Segment experienced strong sales growth from reusable bulk containers in agriculture, automotive and manufacturing applications which more than offset a significant reduction in custom pallet sales.

Net sales in the Distribution Segment increased \$2.9 million or 7% in the first quarter of 2011 compared to the first quarter of 2010. The sales increase reflected contributions of \$2.2 million from higher volume and \$0.7 million from selling prices. The Distribution Segment has experienced continued improvement in market growth during 2011 and increased sales of supplies from stronger replacement tire sales and vehicle service demand.

In the Engineered Products Segment, net sales in the first quarter of 2011 increased \$3.5 million, or 14% compared to the prior year. The higher sales were primarily due to stronger demand in recreational vehicle, marine and automotive markets which increased sales volume approximately \$3.3 million.

Cost of Sales & Gross Profit:

Cost of Sales and Gross Profit	2011	2010
Cost of sales	\$ 141.4	\$ 141.5
Gross profit	\$ 52.0	\$ 44.9
Gross profit as a percentage of sales	26.9%	24.1%

Gross profit margin increased to 26.9% for the quarter ended March 31, 2011 compared with the prior year, despite higher raw material costs affecting the Lawn & Garden, Material Handling and Engineered Products Segments. Prices for plastic resins were, on average, approximately 16% higher for polypropylene and 9% higher for high density polyethylene in the first quarter of 2011 compared to the first quarter of 2010. Increased selling prices helped mitigate the impact of higher raw material costs. More favorable sales mix combined with productivity improvements resulted in higher gross profit margins.

Table of Contents**Selling, General and Administrative (SG&A) Expenses from Continuing Operations:**

SG&A Expenses	2011	2010	Change
SG&A expenses	\$ 39.7	\$ 34.4	\$ 5.3
SG&A expenses as a percentage of sales	20.5%	18.5%	2.0%

Selling, general and administrative expenses for the quarter ended March 31, 2011 were \$39.7 million, an increase of \$5.3 million or 15% compared to the same period in the prior year. The increase was primarily due to increased freight charges of \$1.9 million, an increased provision for bad debts of \$1.2 million and other variable selling costs related to higher sales. In addition, SG&A expenses includes an impairment charge of \$0.3 million in the first quarter of 2011 related to the pending sale of a closed manufacturing facility compared to a gain of \$0.7 million from the sale of a plant in the first quarter of 2010 for a net increase of \$1 million. SG&A expense in the first quarter of 2011 includes restructuring and other unusual charges of \$0.3 million compared with similar charges of \$0.9 million in the first quarter of 2010.

Interest Expense from Continuing Operations:

Net Interest Expense	2011	2010	Change	% Change
Net interest expense	\$ 1.2	\$ 1.8	\$ (0.6)	(33%)
Outstanding borrowings	\$ 90.8	\$ 120.0	\$ (29.2)	(24%)
Average borrowing rate	4.98%	6.12%	(1.14%)	(19%)

Net interest expense was \$1.2 million for the quarter ended March 31, 2011, a decrease of 33% compared to \$1.8 million in the prior year. The reduction in 2011 interest expense was the result of lower borrowing levels and average interest rates.

Income Before Taxes:

Segment	2011	2010	Change	% Change
Lawn and Garden	\$ 3.9	\$ 4.8	\$ (0.9)	(19%)
Material Handling	\$ 10.3	\$ 5.4	\$ 4.9	91%
Distribution	\$ 3.1	\$ 2.9	\$ 0.2	7%
Engineered Products	\$ 2.8	\$ 2.5	\$ 0.3	12%
Corporate and interest	\$ (9.0)	\$ (6.9)	\$ (2.1)	(30%)
TOTAL	\$ 11.1	\$ 8.7	\$ 2.4	28%

Income before taxes for the quarter ended March 31, 2011, was \$11.1 million compared to \$8.7 million in the prior year. The increase was primarily due to higher sales and increased gross profit margins in the quarter ended March 31, 2011 compared with the prior year.

Income Taxes:

Consolidated Income Taxes	2011	2010
Income before taxes	\$ 11.1	\$ 8.7
Income taxes	\$ 4.4	\$ 3.2
Effective tax rate	39.6%	36.3%

The effective tax rate for the first quarter of 2011 was 39.6% compared to 36.3% in the prior year. The higher effective tax rate in 2011 is primarily attributable to changes in the mix of domestic and foreign composition of income and related foreign tax rate differences.

Table of Contents**Liquidity and Capital Resources**

Cash used in operating activities from continuing operations was \$0.4 million for the three months ended March 31, 2011 compared to \$9.5 million for the three months ended March 31, 2010. The decrease of \$9.1 million in cash used for operations was primarily attributable to a reduction of \$5.1 million in the amount of cash used for working capital in the three months ended March 31, 2011 compared with the prior year. In addition, for the three months ended March 31, 2011 there was an increase of \$4.0 million in cash generated from income, depreciation and other non-cash charges, compared to the prior year.

In the three months ended March 31, 2011, higher sales resulted in increased accounts receivable and the use of \$18.4 million of working capital compared with a use of \$17.0 million in the prior year. In addition, increasing sales volume and higher raw material costs resulted in an increase of inventories which used approximately \$8.0 million of cash in the quarter ended March 31, 2011 compared to a use of \$3.3 million for the same period in 2010. The cash used to fund increased accounts receivable and inventories in the quarter ended March 31, 2011 was partially offset by \$5.8 million of cash provided from an increase in accounts payable and accrued expenses in the period.

Capital expenditures were approximately \$2.5 million for the three months ended March 31, 2011 and for the full year are expected to be at the high end of a \$20 to \$25 million forecasted range. In addition, the Company used cash to pay dividends of \$2.3 million in the three months ended March 31, 2011.

Total debt at March 31, 2011 was approximately \$90.8 million compared with \$83.8 million at December 31, 2010. The Company's Credit Agreement provides available borrowing up to \$180 million and, as of March 31, 2011, there was \$54.6 million outstanding and approximately \$125.4 million available under this agreement. As of March 31, 2011 the Company was in compliance with all its debt covenants. The most restrictive financial covenants for all of the Company's debt are an interest coverage ratio and a leverage ratio, defined as earnings before interest, taxes, depreciation, and amortization, as adjusted, compared to total debt. The ratios as of and for the period ended March 31, 2011 are shown in the following table:

	Required Level	Actual Level
Interest Coverage Ratio	2.25 to 1 (minimum)	4.94
Leverage Ratio	3.25 to 1 (maximum)	1.46

The Company believes that cash flows from operations and available borrowing under its Credit Agreement will be sufficient to meet expected business requirements including capital expenditures, dividends, working capital, and debt service into the foreseeable future.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

The Company has certain financing arrangements that require interest payments based on floating interest rates. The Company's financial results are subject to changes in the market rate of interest. At present, the Company has not entered into any interest rate swaps or other derivative instruments to fix the interest rate on any portion of its financing arrangements with floating rates. Accordingly, based on current debt levels at March 31, 2011, if market interest rates increase one percent, the Company's interest expense would increase approximately \$0.5 million annually.

Some of the Company's subsidiaries operate in foreign countries and their financial results are subject to exchange rate movements. The Company has operations in Canada with foreign currency exposure, primarily due to sales made from businesses in Canada to customers in the United States. These sales are denominated in US dollars. In addition, the Company's subsidiary in Brazil has loans denominated in U.S. dollars. In the fourth quarter of 2007, the Company began a systematic program to limit its exposure to fluctuations in exchange rates related to certain assets and liabilities of its operations in Canada and Brazil that are denominated in U.S. dollars. The net exposure generally ranges from \$5 to \$10 million. The foreign currency contracts and arrangements created under this program are not designated as hedged items under FASB ASC 815 Derivatives and Hedging, and accordingly, the changes in the fair value of the foreign currency arrangements, which have been immaterial, are recorded in the income statement. The Company's foreign currency arrangements are generally three months or less and, as of March 31, 2011, the Company had no foreign currency arrangements or contracts in place.

The Company uses certain commodities, primarily plastic resins, in its manufacturing processes. The cost of operations can be affected as the market for these commodities changes. The Company currently has no derivative contracts to hedge this risk; however, the Company also has no significant purchase obligations to purchase fixed quantities of such commodities in future periods. Significant future increases in the cost of plastic resin or other adverse changes in the general economic environment could have a material adverse impact on the Company's financial position, results of operations or cash flows.

Table of Contents

Item 4. Controls and Procedures

The Company maintains disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-a5(e) of the Securities Exchange Act of 1934, as amended, that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The Company carries out a variety of on-going procedures, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, to evaluate the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by this report.

There has been no change in the Company's internal controls over financial reporting during the Company's most recent fiscal quarter that has materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

Part II Other Information

Item 1. Legal Proceedings

A number of parties, including the Company and its subsidiary, Buckhorn Inc. (Buckhorn), were identified in a planning document adopted in October 2008 by the California Regional Water Quality Control Board, San Francisco Bay Region (RWQCB). The planning document relates to the presence of mercury, including amounts contained in mining wastes, in and around the Guadalupe River Watershed (Watershed) region in Santa Clara County, California. Buckhorn has been alleged to be a successor in interest to an entity that performed mining operations in a portion of the Watershed area. The Company has not been contacted by the RWQCB with respect to Watershed clean-up efforts that may result from the adoption of this planning document. The extent of the mining wastes that may be the subject of future cleanup has yet to be determined, and the actions of the RWQCB have not yet advanced to the stage where a reasonable estimate of remediation cost, if any, is available. Although assertion of a claim by the RWQCB is reasonably possible, it is not possible at this time to estimate the amount of any obligation the Company may incur for these cleanup efforts within the Watershed region, or whether such cost would be material to the Company's financial statements.
