CORPORATE GOVERNANCE

Set forth below in question and answer format is a discussion about our corporate governance policies and practices, some of which have been modified since last year's annual meeting, and other matters relating to our Board and its committees.

General

Have you adopted corporate governance guidelines?

Yes, our Board has formally adopted corporate governance guidelines that address such matters as director qualification standards, director responsibilities, board committees, director access to management and independent advisors, director compensation, director orientation and continuing education, chief executive officer evaluations and management succession and performance evaluations of our Board.

Have you adopted a code of ethics and conduct?

Yes, our Board has formally adopted a corporate code of business conduct and ethics applicable to our directors, officers and employees. Our corporate code includes a financial code of ethics applicable to our chief executive officer, chief financial officer and controller or chief accounting officer.

How can I view or obtain copies of your corporate governance materials?

The guidelines and codes mentioned above as well as the charters for each significant standing committee of our Board are available on our website for viewing and printing. Go to <http://www.newfield.com> and then to the Corporate Governance Overview tab. We also will provide stockholders with a free copy of these materials upon request.

Board of Directors

How many independent directors do you have? How do you determine whether a director is independent?

Our Board has affirmatively determined that eleven of the thirteen nominees for director are independent as that term is defined by NYSE rules. In making this determination, our Board considered transactions and relationships between each director nominee or his or her immediate family and our company and its subsidiaries, including those reported below under Compensation Committee Interlocks and Insider Participation and Interests of Management and Others in Certain Transactions. The purpose of this review was to determine whether any such relationships or transactions were material and, therefore, inconsistent with a determination that the director is independent. As a result of this review, our Board affirmatively determined, based on its understanding of such transactions and relationships, that all of the directors nominated for election at the annual meeting are independent of our company under the standards set forth by the NYSE, with the exception of David A. Trice and David F. Schaible, who are management employees of our company. There is no family relationship between any of the nominees for director or between any nominee and any executive officer of our company.

How many times did your Board meet last year?

Our Board met in person or by conference telephone seven times during 2005.

Table of Contents

Did any of your directors attend fewer than 75% of the meetings of your Board and his or her assigned committees during 2005?

No.

Do your non-management directors and independent directors meet in executive session?

Yes, our non-management directors and independent directors meet separately on a regular basis usually at each regularly scheduled meeting of our Board. We have no non-management directors who are not independent. Our corporate governance guidelines provide that our independent directors will meet in executive session at least annually and more frequently as needed at the call of one or more of our independent directors. In July 2005, our Board amended our corporate governance guidelines to establish the position of Lead Director and elected C.E. (Chuck) Shultz to that position. Pursuant to the guidelines as amended, the Lead Director will preside at executive sessions. Prior to the amendment, the guidelines provided that the presiding director at executive sessions would be the chairperson of the Nominating & Corporate Governance Committee or such other person chosen by a vote of the directors participating in the meeting. Dennis R. Hendrix has been the chairperson of the Nominating & Corporate Governance Committee since the first adoption of our corporate governance guidelines. No other director has been chosen as the presiding director of an executive session.

How can interested parties communicate directly with your non-management directors?

We have established a toll-free Ethics Line so that investors, employees and other interested parties can anonymously report through a third party any practices thought to be in violation of our corporate governance policies. The Ethics Line also can be used to make concerns known to our non-management directors on a direct and confidential basis. The telephone number for the Ethics Line is 1-866-843-8694. Additional information is available on our website at <http://www.newfield.com> under the tab Corporate Governance Overview.

How are your directors compensated?

Our non-employee directors are currently paid an annual fee of \$30,000. The chairpersons of the Audit Committee, Compensation & Management Development Committee and Nominating & Corporate Governance Committee receive an additional annual fee of \$6,000. Non-employee directors also receive a fee of \$1,500 for each board meeting and for each committee meeting not held on the same day as a board meeting and a fee of \$750 for each telephonic board or committee meeting. In addition, non-employee directors are paid a fee of \$1,000 for each committee meeting held on the same day as a board meeting if the committee meeting lasts for a substantial period of time. For purposes of annual fees, an annual period begins on the date of our annual meeting of stockholders and ends on the date of our next annual meeting. Effective as of the annual period beginning May 4, 2006, the annual fee to non-employee directors will increase to \$40,000 and the additional annual fee to the chairpersons of the Audit Committee and Compensation & Management Development Committee will increase to \$15,000. Our non-employee directors were paid \$486,750 in the aggregate in 2005 as compensation for serving as directors. Only non-employee directors are compensated for serving as directors. Non-employee directors also are reimbursed for out-of-pocket expenses incurred to attend board and committee meetings.

In addition to the fees described above, pursuant to our non-employee director restricted stock plan each of our non-employee directors who is in office immediately after an annual meeting of stockholders is granted restricted shares with a market value of \$30,000 based on the closing sales price of our common stock on the date of the annual meeting. In addition, each non-employee director who is appointed to our Board (not in connection with an annual meeting of stockholders) is granted restricted shares with a market value of \$30,000 based on the closing sales price of our common stock on the date of appointment. With respect to all such grants, the restrictions lapse on the day before the first annual meeting of stockholders following the date of grant. An aggregate of 100,000 restricted shares were initially available for issuance pursuant to our non-employee director plan. Subject to stockholder approval at the annual meeting, our Board amended the plan on March 7, 2006 to increase the market value of restricted stock grants under the plan from \$30,000 to \$75,000 and to increase the total number of shares that may be granted under the plan from 100,000 to 200,000. See Item 2 Approval of First Amendment to Newfield Exploration Company 2000 Non-Employee Director Restricted Stock Plan.

Table of Contents

Each of Messrs. Burguières, Hendrix, Kemp, Lacey, Netherland, Newman, Ricks, Shultz and Strange, Ms. Gardner and Ms. Romans were granted 844 restricted shares on May 5, 2005, the date of our 2005 annual meeting of stockholders.

Committees

Yes, our Board presently has the following significant standing committees:

See General *How can I view or obtain copies of your corporate governance materials?* for information about requesting copies from us.

Audit Committee

What does the Audit Committee do?

The primary purposes of the committee are:

appointing, retaining and terminating our independent accountants;

monitoring the integrity of our financial statements and reporting processes and systems of internal control;

evaluating the qualifications and independence of our independent accountants;

evaluating the performance of our internal audit function and independent accountants; and

Who are the members of the committee?

The committee currently consists of Pamela J. Gardner, John Randolph Kemp III, Thomas G. Ricks, Juanita F. Romans and J. Terry Strange, with Mr. Ricks serving as chairman. We do not anticipate any significant change in the composition of the committee prior to our 2007 annual meeting of stockholders. Mr. Strange also serves on the audit committees of BearingPoint, Inc., Compass Bancshares, Inc., Group 1 Automotive, Inc. and New Jersey Resources Corporation. Our Board has determined that such simultaneous service on these other audit committees and on our Audit Committee will not impair the ability of Mr. Strange to serve effectively on our Audit Committee.

Table of Contents

Does the committee have an audit committee financial expert?

Yes, our Board has determined that each of Messrs. Ricks and Strange meets the qualifications of an audit committee financial expert as defined by the rules promulgated by the SEC.

How many times did the committee meet last year?

The committee held eight meetings in person or by conference telephone during 2005.

Compensation & Management Development Committee

What does the Compensation & Management Development Committee do?

The primary purposes of the committee are:

reviewing, evaluating and approving the compensation of our executive officers and other employees;

producing a report on executive compensation each year for inclusion in our annual proxy statement;

overseeing the evaluation and development of the management of our company; and

overseeing succession planning for our chief executive and other senior executive officers.

Who are the members of the committee?

The committee currently consists of Dennis R. Hendrix, John Randolph Kemp III, J. Michael Lacey, Joseph H. Netherland and C. E. (Chuck) Shultz, with Mr. Shultz serving as chairman. We do not anticipate any significant change in the composition of the committee prior to our 2007 annual meeting of stockholders.

approving the compensation structure for all non-employee directors;

advising our Board about corporate governance practices, developing and recommending appropriate corporate governance practices and policies and assisting in implementing those practices and policies;

overseeing the evaluation of our Board and its committees through an annual performance review; and

Table of Contents

The committee currently consists of Philip J. Burguières, Pamela Gardner, Juanita Romans, Dennis R. Hendrix, Joseph H. Netherland, Howard H. Newman, Thomas G. Ricks and J. Terry Strange, with Mr. Hendrix serving as chairman. We do not anticipate any significant change in the composition of the committee prior to our 2007 annual meeting of stockholders.

How many times did the committee meet last year?

The committee held five meetings in person or by conference telephone during 2005.

What guidelines does the committee follow when considering a director nominee for a position on your Board?

The committee is responsible for identifying individuals qualified to become directors and for evaluating potential or suggested director nominees. Although the committee has not established written criteria or a set of specific minimum qualifications, our corporate governance guidelines provide that any assessment of a potential director nominee will include the individual's qualification as independent, as well as consideration of his or her background, ability, judgment, skills and experience in the context of the needs of our Board. The committee is likely to consider whether a prospective nominee has relevant business or financial experience or a specialized expertise.

Does the committee consider nominees for the Board submitted by stockholders and, if so, what are the procedures for submitting such recommendations?

Yes, the committee considers suggestions from many sources, including stockholders, regarding possible candidates for director. Any such nominations, together with appropriate biographical information, should be submitted to the Chairman of the Nominating & Corporate Governance Committee, c/o Terry W. Rathert, Secretary, Newfield Exploration Company, 363 N. Sam Houston Pkwy. E., Suite 2020, Houston, Texas 77060.

Schaible, Pew and Rathert were each awarded 35,000 restricted shares and Mr. Schneider was awarded 20,000 restricted shares under our 2004 omnibus stock plan. The value of these shares on the date of their award is reflected under Long-Term Compensation Awards in the Summary Compensation Table. The restricted shares vest in accordance with the following schedule:

All of our equity compensation plans have been approved by our stockholders.

Change of Control Severance Arrangements

Change of Control Severance Agreements. In February 2005, we entered into change of control severance agreements with eight of our executive officers: David A. Trice, David F. Schaible, Elliott Pew, Terry W. Rathert, William D. Schneider, George T. Dunn, Gary D. Packer and Lee K. Boothby. The agreements have an initial term of two or three years, with automatic daily extensions unless our Board takes action to cease the automatic extensions.

The agreements, as amended, generally provide for a severance protection period that begins on the date of a change of control of our company and ends on the second or third anniversary of that date (certain circumstances may cause an extension of the period). During the protected period, if the executive's employment is terminated by us without cause or by the executive for good reason, the agreement provides for the following severance benefits: (1) a

lump sum cash payment equal to two or three times the sum of (a) the greater of the executive's base salary prior to the change of control or at any time thereafter and (b) one-half of the greater of the executive's bonus compensation for the two years ending prior to the change of control or for the two years ending prior to the executive's termination of employment, (2) full vesting of restricted stock awards (other than those granted in February 2006) and stock options, (3) health coverage at active executive rates for two or three years (health benefits are to be offset by any health benefits the executive receives from subsequent employment and a cash payment may be made by us in lieu of providing coverage if the executive is not eligible for the coverage or if the health benefits provided would be taxable to the executive) and (4) outplacement services.

Table of Contents

If the payment of benefits under the agreement or otherwise results in the executive being subject to parachute payment excise taxes, we must make an additional payment to the executive in an amount such that after the payment of all income and excise taxes, the executive will be in the same net after-tax position as if no parachute payment excise taxes had been imposed. Receipt of benefits under the agreement is subject to the executive's execution of a comprehensive release. If a dispute arises, the agreement provides for binding arbitration at our expense (unless the arbitrator provides otherwise with respect to the executive's expenses).

The agreements with Messrs. Trice, Schaible, Pew and Rathert provide for a three year initial term, a three year severance protection period, a three times multiplier for determining the cash severance payment and three years of health coverage, while the agreements with Messrs. Schneider, Dunn, Packer and Boothby provide for a two year initial term, a two year severance protection period, a two times multiplier for determining the cash severance payment and two years of health coverage.

Change of Control Severance Plan. In February 2005, we adopted a change of control severance plan. The plan provides severance benefits to covered employees upon qualifying terminations of employment in connection with a change of control. The plan generally covers employees who, immediately prior to a change of control, are scheduled to work 30 or more hours per week. Each of our executive officers who is not a party to a change of control severance agreement is covered by the plan.

The plan, as amended, generally provides for a severance protection period that begins on the date of a change of control and ends on the second anniversary of that date (certain circumstances may cause an extension of the period). During the protected period, if a covered employee's employment is terminated by us without cause or by the employee for good reason, the plan provides for the following severance benefits: (1) a lump sum cash payment equal to (a) for certain designated employees (generally managers and technical professionals, which would include the executive officers covered by the plan), the employee's weekly pay multiplied by four times his or her years of service and (b) for all other covered employees, the employee's weekly pay multiplied by three times his or her years of service, with a minimum payment of two times weekly pay and a maximum payment of 104 times weekly pay in all cases and (2) full vesting of restricted stock awards (other than those granted in February 2006) and stock options.

Weekly pay under the plan generally means the sum of the employee's annual base salary prior to the change of control and one-half of the employee's bonus compensation for the two years ending prior to the change of control, divided by 52. Years of service under the plan are based on an employee's period of employment with us and our affiliates since his or her most recent date of hire, with certain designated employees (generally managers and technical professionals, which would include the executive officers covered by the plan) eligible to receive up to an additional ten years of service credit for prior industry experience and all other employees eligible to receive up to an additional five years of service credit.

If the payment of benefits under the plan or otherwise results in an employee being subject to parachute payment excise taxes, plan benefits will be reduced so that the employee will not be subject to such excise taxes, but only if the reduction will result in a better net after-tax position for the employee than if the plan benefits had been paid in full. Severance payments under the plan are limited by under the Employee Retirement Income Security Act of 1974 to two times an employee's annual compensation (as defined under Department of Labor regulations). Receipt of benefits under the plan is subject to the employee's execution of a comprehensive release. The plan may be amended or terminated at any time prior to a change of control. After a change of control, the plan may not be terminated during the severance protection period or amended to adversely affect potential benefits under the plan.

Compensation Committee Interlocks and Insider Participation

Messrs. Hendrix, Kemp, Netherland, Lacey and Shultz served during all of 2005 on the Compensation & Management Development Committee of our Board. There were no interlocks among any of the members of the committee and any of our executive officers.

David A. Trice, our Chairman, President and Chief Executive Officer, and Susan G. Riggs, our Treasurer, are minority owners of Huffco International L.L.C. In May 1997, prior to Mr. Trice and Ms. Riggs joining us, we acquired from Huffco an entity now known as Newfield China, LDC, the owner of a 12% interest in a three field unit located on Blocks 04/36 and 05/36 in Bohai Bay, offshore China. We expect to receive 18% of production from the unit until our exploration and production costs have been recovered. Huffco retained preferred shares of

Table of Contents

Newfield China that provide for an aggregate dividend equal to 10% of the excess of proceeds received by Newfield China from the sale of oil, gas and other minerals over all costs incurred with respect to exploration and production in Block 05/36, plus the cash purchase price we paid Huffco for Newfield China (\$6.2 million). At December 31, 2005, Newfield China had approximately \$45 million of unrecovered costs. As a result, no dividends have been paid to date on its preferred shares. We anticipate that Newfield China will begin paying preferred dividends in early 2007. Based on our estimate of the net present value of the reserves associated with the unit, the indirect interests (through Huffco) in Newfield China's preferred shares held by Mr. Trice and Ms. Riggs had a net present value of approximately \$225,000 and \$86,000, respectively, at December 31, 2005.

Interests of Management and Others in Certain Transactions

David A. Trice, our Chairman, President and Chief Executive Officer, and Susan G. Riggs, our Treasurer, own an indirect interest in preferred shares of Newfield China, one of our subsidiaries. See Compensation Committee Interlocks and Insider Participation above.

Philip J. Burguières, one of our directors, also is a director of JPMorgan Chase Houston. Affiliates of JPMorgan Chase Houston are the agent and a lender under our revolving credit facility. We also are parties to commodity and interest rate hedge agreements with affiliates of JPMorgan Chase Houston.

In December 2005, we entered into a prospect generation agreement with a private equity fund and an investment vehicle formed and wholly owned by the fund (DBV). Howard H. Newman, one of our directors, is a Vice Chairman and Senior Advisor of Warburg Pincus LLC, the manager of the fund.

The purpose of the prospect generation agreement is to identify oil and gas prospects in mutually acceptable deepwater (200 meters or deeper) offshore basins by using controlled source electromagnetic technology (CSEM). The Gulf of Mexico, the U.K. North Sea and basins offshore Brazil and Malaysia are excluded from the agreement. Under the agreement, we will provide prospect generation services for three years and DBV will reimburse us for 50% of the costs (including allocated overhead) we incur in providing the services up to a maximum of \$20 million (DBV's commitment is \$10 million). Generally, we must offer DBV the opportunity to invest in all projects within the covered area. However, neither party has any obligation to proceed beyond the identification of projects. Newfield will own 66²/₃% and DBV will own 33¹/₃% of any projects that are captured under this arrangement.

We agreed, to the extent practicable, to give ElectroMagnetic GeoServices AS (EMGS), a leading provider of surveys utilizing CSEM, the opportunity to bid on all CSEM surveys obtained under our arrangement with WPD. Affiliates of Warburg Pincus LLC own a majority of the outstanding shares and Thomas G. Ricks, one of our directors, is a shareholder of EMGS.

During 2005, we expended approximately \$48,000 to provide prospect generation services under the agreement.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires our officers and directors and persons who own more than 10% of our common stock to file reports of ownership and changes in ownership with the SEC. These persons are required by SEC rules to furnish us with copies of these reports. Based solely on our review of the copies of these reports received by us and representations from certain reporting persons that they have complied with the relevant filing requirements, we believe that all such filing requirements were complied with during the year ended December 31, 2005.

Compensation & Management Development Committee Report on Executive Compensation

The Compensation & Management Development Committee oversees the administration of compensation programs applicable to all employees of Newfield, including its executive officers. Executive compensation is reviewed at least annually by the Committee.

The Committee seeks to encourage growth in long-term stockholder value through the creation and maintenance of compensation opportunities that attract and retain committed, highly qualified personnel. To achieve those goals, the Committee believes that the compensation of all employees, including executive officers, should include the following components:

- a base salary that is competitive with (but not necessarily comparable to) compensation offered by other similar oil and gas exploration and production enterprises;

- annual incentive compensation that is conditioned on profitability and is based on company and individual performance; and

- equity-based incentives to better align the interests of employees with those of Newfield's stockholders.

The base salaries of executive officers generally are targeted below those for comparable positions in other similarly situated oil and gas companies and a substantial portion of the compensation of such executive officers (and employees in general) is provided through Newfield's incentive compensation plan and grants of restricted stock. Newfield also encourages its employees to save for retirement by matching (subject to the limit described below) employee contributions to Newfield's 401(k) plan and deferred compensation plan for highly compensated employees. However, Newfield does not offer defined pension benefits to any of its employees or executive officers.

With a few exceptions, executive compensation determinations are made in February of each year. At that time, current and deferred awards under Newfield's incentive compensation plan that relate to the prior year are approved. Any changes in base salaries also are usually approved at that time. In addition, grants (other than in connection with initial employment) of restricted shares usually are made then. Because this report addresses 2005 compensation, it necessarily must discuss some of the compensation determinations made in February 2005 (grants of restricted stock awards and increases in base salary) and some of the determinations made in February 2006 (the grant of current and deferred awards under Newfield's incentive compensation plan).

Incentive Compensation Plan. Newfield's incentive compensation plan provides for the creation each calendar year of an award pool that is generally equal to 5% of Newfield's adjusted net income (as defined in the plan) plus the revenues attributable to an overriding royalty interest (or, with the approval of the Committee, other similar promotional interests) bearing on the interest of certain third party participants. All awards are paid in cash. Awards may consist of both a current and deferred amount. Deferred awards are paid in four annual installments, each installment consisting of 25% of the deferred award, plus interest. Traditionally, a significant portion of the grants under the plan are in the form of deferred awards (33% in the aggregate and 47% for the executive officers for the 2005 plan year and 50% in the aggregate and 67% for executive officers for the 2004 plan year). This provides a significant retention tool because, with limited exceptions, employees are entitled to deferred awards only if they remain employed by Newfield through the date of payment of the awards.

Omnibus Stock Plans. The Committee may provide equity-based compensation and incentives to employees through the award of stock options and restricted stock under Newfield's omnibus stock plans. Historically, most new employees were granted stock options when they joined Newfield. During 2005, the Committee began to use restricted stock for this purpose. The number of shares granted depends on the level of responsibility of the employee. Beginning in 2003, stock-based compensation for executive officers has been provided through the award of restricted shares with performance-based vesting in lieu of a combination of stock options and restricted shares that vest solely or primarily upon the passage of time. More recently, the Committee also has been using restricted stock instead of options to incentivize employees who are not executive officers.

Savings/Deferred Compensation Plans. Newfield's 401(k) plan and deferred compensation plan for highly compensated employees allow an eligible employee to defer a portion of his or her salary or bonus on an annual

Table of Contents

basis. Newfield matches 100% of an employee's deferral up to 8% of the employee's salary, subject to limitations imposed by the relevant plan. Newfield's contribution with respect to any particular employee under the deferred compensation plan for highly compensated employees is reduced to the extent that Newfield made contributions to its 401(k) plan on behalf of that employee.

Tax Deductibility Considerations. Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to a public company for compensation paid to its chief executive officer or any of its four other most highly compensated executive officers to the extent that the compensation of any of such officers exceeds \$1 million in any calendar year. Qualifying performance-based compensation is not subject to the deduction limit if certain requirements are met.

The Committee considers its primary goal to be the design of compensation strategies that further the best interests of Newfield and its stockholders. To the extent not inconsistent with that goal, the Committee attempts where practical to use compensation policies and programs that preserve the deductibility of compensation expense. Stock options and the restricted stock granted in 2005 and 2006 under Newfield's stock plans are designed to qualify as performance-based compensation. However, the restricted stock granted in 2003 and all of the awards under Newfield's incentive compensation plan do not qualify as performance-based compensation for purposes of Section 162(m).

Executive Compensation. In late 2005, the Committee retained a consulting firm to perform a comprehensive evaluation of the compensation of Newfield's top four executive officers and their counterparts at a group of peer companies. The consultants also provided the Committee with recommendations and advice in connection with the Committee's compensation decisions in February 2006. Specific actions taken by the Committee regarding 2005 executive compensation are summarized below.

Base Salary. Annual salary adjustments for Newfield's executive group are based on peer group information, general levels of market salary increases, cost of living adjustments, individual performance and Newfield's overall financial and operating results, without any specific relative weight assigned to any of these factors.

Incentive Compensation Awards. Awards granted under Newfield's incentive compensation plan to the named executive officers in February 2006 for the 2005 performance period are presented under "Bonus" in the Summary Compensation Table. The allocation of the available pool among employees was based upon an employee's impact on 2005 results (weighted approximately 50%) and overall value to Newfield (including some consideration of future expectations) (weighted approximately 50%). The Committee established awards for each of the executive officers after hearing the recommendations of Newfield's chief executive officer and the outside consultants. Based on these recommendations, about 42% of the grants to the other named executive officers were in the form of deferred awards.

Stock Plans. In February 2005, each of Messrs. Schaible, Rathert and Pew were awarded 35,000 restricted shares and Mr. Schneider was awarded 20,000 restricted shares pursuant to Newfield's 2004 omnibus stock plan. The value of these shares on the date of their award is reflected under "Long-Term Compensation Awards" in the Summary Compensation Table. Also see "Restricted Stock Awards" above. These actions were taken to provide these executive officers with further incentive with respect to Newfield's future performance, to further align their interests with those of Newfield's stockholders and to reward them for their contribution to Newfield's performance in 2004.

Chief Executive Officer Compensation. Newfield's compensation philosophy for its chief executive officer is to provide a base salary that is on the low end of the range paid by Newfield's peer group, annual incentive compensation conditioned on profitability and based upon corporate and individual performance and equity-based incentives such as restricted stock. Specific actions taken by the Committee regarding Mr. Trice's compensation for the 2005 performance year are summarized below.

Base Salary. Mr. Trice's annual base salary was increased from \$325,000 to \$350,000 in February 2005 primarily as a cost of living adjustment.

Incentive Compensation Plan. In February 2006, Mr. Trice received a \$1,000,000 current award and a \$1,500,000 deferred award for the 2005 performance period pursuant to Newfield's incentive compensation plan.

Table of Contents

These awards were based on Mr. Trice's level of responsibility, his relative contribution to Newfield's performance in 2005, the quality of his performance and his value to Newfield.

Stock Plans. In February 2005, Mr. Trice was awarded 80,000 restricted shares pursuant to Newfield's 2004 omnibus stock plan. The value of these shares on the date of their award is reflected under "Long-Term Compensation Awards" in the Summary Compensation Table. Also see "Restricted Stock Awards" above. This action was taken to provide Mr. Trice with further incentive with respect to Newfield's future performance, to further align his interests with those of Newfield's stockholders and to reward him for his contribution to Newfield's performance in 2004.

Audit Committee Report

The Audit Committee currently consists of the five directors whose names appear below. Each member of the Committee is independent as defined in Sections 303.01(B)(2)(a) and 303.01(B)(3) of the NYSE's listing standards.

The primary purposes of the Committee are:

appointing, retaining and terminating Newfield's independent accountants;

monitoring the integrity of Newfield's financial statements and reporting processes and systems of internal control;

evaluating the qualifications and independence of Newfield's independent accountants;

evaluating the performance of Newfield's internal audit function and independent accountants; and

monitoring Newfield's compliance with legal and regulatory requirements.

The Committee performs the specific functions set forth in its charter, which is attached as Appendix A to Newfield's proxy statement for its 2005 annual meeting of stockholders.

The Committee held eight meetings in person or by conference telephone during 2005. The meetings were designed to facilitate and encourage communication between the Audit Committee and Newfield's internal auditors and independent accountants.

The Committee has reviewed and discussed with Newfield's management and PricewaterhouseCoopers LLP, Newfield's independent accountants, the audited financial statements of Newfield included in its annual report on Form 10-K for the year ended December 31, 2005.

The Committee also has discussed with Newfield's independent accountants the matters required to be discussed pursuant to SAS 61, 89 and 90, Codification of Statements on Auditing Standards, Communication with Audit Committees. The Committee has received and reviewed written disclosures and the letter from PricewaterhouseCoopers LLP as required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and has discussed with PricewaterhouseCoopers LLP such independent accountants' independence. The Committee also has considered whether the provision of non-audit services to Newfield by PricewaterhouseCoopers LLP is compatible with maintaining their independence.

Based on the review and discussion referred to above, the Committee recommended to the Board of Directors that the audited financial statements be included in Newfield's annual report on Form 10-K for the year ended December 31, 2005 filed with the SEC.

This report is submitted on behalf of the Audit Committee.

Table of Contents**Principal Accountant Fees and Services**

Aggregate fees for professional services rendered to us by PricewaterhouseCoopers LLP for the years ended December 31, 2005 and 2004 were:

Category of Service	2004	2005
Audit fees	\$ 1,679,270	\$ 1,585,771
Audit related fees	2,000	2,445
Tax fees	54,230	58,875
All other fees		
Total	\$ 1,735,500	\$ 1,647,091

The audit fees for both years were for professional services rendered in connection with the audit of our 2004 and 2005 consolidated financial statements, including the statutory audit fee in the U.K. and issuance of comfort letters, consents and assistance with review of various documents filed with the SEC.

Audit related fees for both years were for licensing fees for access to a technical literature database.

Tax fees for both years were for services related to tax compliance, including the preparation of tax returns and tax planning advice, transaction cost analysis, international tax structuring and other tax services.

PricewaterhouseCoopers did not provide us any financial information systems design or implementation services during 2005 and 2004.

The Audit Committee reviews and pre-approves audit and non-audit services performed by our independent public accountants as well as the fees charged for such services. The Audit Committee may delegate pre-approval authority for such services to one or more members, whose decisions are then presented to the full Audit Committee at its next scheduled meeting. In its review of all non-audit service fees, the Audit Committee considers, among other things, the possible effect of such services on the independence of Newfield's public accountants.

ITEM 2.

**APPROVAL OF FIRST AMENDMENT TO NEWFIELD EXPLORATION COMPANY
2000 NON-EMPLOYEE DIRECTOR RESTRICTED STOCK PLAN**

On March 7, 2006, our Board adopted the First Amendment to Newfield Exploration Company 2000 Non-Employee Director Restricted Stock Plan and directed that the amendment be submitted to our stockholders for approval at the annual meeting. The purposes of the amendment are to increase the value of the restricted stock grants from \$30,000 to \$75,000 and to increase the total number of shares of our common stock that may be issued under the plan from 100,000 to 200,000. A copy of the amendment is appended to this proxy statement. If the amendment is not approved by our stockholders it will be void and the plan will continue in effect as if the amendment had not been adopted by our Board.

Summary of the Plan

Set forth below is a summary of the plan. The full text of the plan was filed with the SEC as Exhibit 10.18 to our annual report on Form 10-K for the year ended December 31, 1999.

Purpose. The purpose of the plan is to enhance our ability to attract and retain qualified persons who are not employees for service as directors and to encourage ownership in our company by such non-employee directors by granting shares of our common stock subject to the restrictions described below.

Eligibility. Only our non-employee directors are eligible to receive grants under the plan. A non-employee director is a director who is not an employee of our company and was not an employee of our company at any time during the preceding calendar year.

Awards. Each non-employee director who is in office immediately after an annual meeting of stockholders is granted restricted shares with a market value of \$30,000 based on the closing sales price of our common stock on the date of such meeting. In addition, each non-employee director who is appointed by our Board (not in connection with an annual meeting of stockholders) is granted restricted shares with a market value of \$30,000 based on the closing sales price of our common stock on the date of appointment. Restrictions on shares granted pursuant to the plan generally lapse on the day immediately preceding the date of the next annual meeting of stockholders following the date of grant. The proposed amendment would increase the market value of the grants from \$30,000 to \$75,000.

Shares Available. A total of 72,564 shares of our common stock have been granted and 27,436 shares remain available for grants under the plan. The proposed amendment would increase the number of available shares by 100,000. Any restricted shares that are forfeited are available for future grants. Grants of restricted shares under the plan will be in addition to, and will not replace, any cash or other compensation arrangement available to our non-employee directors. Any individual who has been nominated to be elected or appointed as a director may make an irrevocable written election not to be granted restricted shares. The plan provides for adjustment to the number of restricted shares that may be granted upon a change in our common stock as a result of a stock dividend or split, recapitalization, reorganization, reclassification or other similar change.

Restrictions. A certificate for restricted shares granted under the plan will be issued in the name of each non-employee director, but the certificate will be held by us for the director's account. The director will not be entitled to delivery of the certificate and the shares will be subject to transfer restrictions until the day before the next annual meeting of stockholders unless a non-employee director's directorship terminates due to death or disability, in which case all transfer restrictions on all restricted shares held by such director will lapse. A director will forfeit all rights in restricted shares unless such director remains a non-employee director until the day before the next annual meeting of stockholders. Subject to the foregoing, the director will, commencing on the date of grant, have the rights and privileges of a stockholder as to the restricted shares, including the right to receive dividends and to vote.

Notwithstanding the foregoing, the transfer restrictions on all restricted shares will lapse as of the effective date of any of the following events: (1) our company is not the surviving entity in any merger or consolidation, (2) we sell, lease or exchange or agree to sell, lease or exchange all or substantially all of our assets to another person or entity or (3) our company is dissolved or liquidated.

Table of Contents

Amendment. Our Board also has the right to amend the plan, but no amendment may be made without the approval of our stockholders if the amendment would (1) materially increase the benefits accruing to participants under the plan, (2) increase the aggregate number of shares of common stock that may be granted under the plan, (3) change the category of directors eligible to receive grants under the plan or (4) extend the maximum period during which grants may be made under the plan. In addition, the plan may not be amended more than once every six months, other than to comply with changes to the Internal Revenue Code, the Employee Retirement Income Security Act of 1974 or the rules thereunder.

Termination. The plan may be terminated by our Board at any time. Unless sooner terminated, no restricted shares may be issued under the plan after February 10, 2010.

Federal Income Tax Consequences. A non-employee director who receives a grant of restricted shares and does not elect to recognize income at the time of grant will not recognize taxable income and we will not be entitled to a deduction until the termination of restrictions with respect to such shares. Upon the termination of restrictions, such director will recognize taxable ordinary income in an amount equal to the fair market value of our common stock at that time, and we will be entitled to a deduction in the same amount. A director may, however, elect to recognize taxable ordinary income in the year the shares are granted in an amount equal to their fair market value when granted (determined without regard to the restrictions). In that event, we will be entitled to a deduction in the year of grant in the same amount, and any gain or loss recognized by the non-employee director upon subsequent disposition of the shares will be capital gain or loss. Any dividends with respect to shares that are paid or made available to a non-employee director (who has not elected to recognize income on the date of grant) while such shares remain forfeitable are treated as additional compensation taxable as ordinary income to the director and are deductible by us. If the director has made an election to recognize income with respect to the shares on the date of grant, dividends represent ordinary dividend income to the director and are not deductible by us. If the director elects to recognize income on the restricted shares on the date of grant and the director subsequently forfeits the shares, the director is not entitled to a deduction as a consequence of such forfeiture and we must include as ordinary income the amount we previously deducted in the year of grant with respect to the shares.

Plan Benefits

Eleven of the 13 directors standing for re-election at the annual meeting qualify as non-employee directors. Assuming the amendment is approved by our stockholders at the annual meeting and each non-employee director is re-elected, the following table sets forth the name of each non-employee director who will receive a grant on the date of the annual meeting and the market value (which will be based on the closing sales price of our common stock on the date of the annual meeting) of the restricted shares to be granted to such non-employee director and to the non-employee directors as a group.

Name of Non-Employee Director	Dollar Value
Philip J. Burguières	\$ 75,000
Pamela J. Gardner	75,000

ITEM 3.

**APPROVAL OF SECOND AMENDMENT TO NEWFIELD EXPLORATION COMPANY
2001 EMPLOYEE STOCK PURCHASE PLAN**

On February 8, 2006, our Board adopted the Second Amendment to Newfield Exploration Company 2001 Employee Stock Purchase Plan and directed that the amendment be submitted to our stockholders for approval at the annual meeting. The purpose of the amendment is to increase the total number of shares of common stock that may be issued under the plan from 400,000 to 1,000,000. A copy of the amendment is appended to this proxy statement. If the amendment is not approved by our stockholders it will be void and the plan will continue in effect as if the amendment had not been adopted by our Board.

Summary of the Plan

Set forth below is a summary of the plan, as previously amended. The full text of the plan was filed with the SEC as Exhibit 10.19 to our annual report on Form 10-K for the year ended December 31, 1999.

Purpose. The purpose of the plan is to provide an incentive for our employees to acquire a proprietary interest in our company through the purchase of our common stock.

Eligibility. Each employee of our company or any present or future parent or subsidiary of our company that has been designated by our Compensation & Management Development Committee as a participating company as of a date of grant of options pursuant to the plan is eligible to participate in the plan as of such date. However, an eligible employee may not participate if such employee would own (directly or indirectly) 5% or more of the total combined voting power of our common stock, taking into account options to purchase our common stock.

Shares Available. A total of 289,941 shares of our common stock have been granted and 110,059 shares are available for grant under the plan. The proposed amendment would increase the number of available shares by 600,000. Shares may be originally issued or reacquired shares, including shares bought on the market or otherwise for purposes of the plan. If an option granted under the plan expires or terminates prior to its exercise in full, the shares subject to the option may again be subject to an option granted under the plan. The number of shares that may be purchased pursuant to the plan is subject to adjustment if our common stock is changed as a result of a stock dividend or split, recapitalization, reorganization, reclassification or other similar change. Upon any such event, the maximum number of shares that may be subject to an option, and the number and purchase price of shares subject to options outstanding under the plan, will be adjusted accordingly.

Participation. An eligible employee may elect to participate in the plan on the first day of each January and July that occurs prior to December 31, 2010, by designating a percentage of such employee's eligible compensation to be deducted for each pay period. The designated percentage may not be less than 2% nor more than 10%. An eligible employee may participate in the plan only by means of payroll deduction. No employee will be granted an option under the plan that permits such employee's rights to purchase common stock to accrue at a rate that exceeds \$25,000 of fair market value of such stock (determined at the time such option is granted) for each calendar year in which such option is outstanding. Unless an employee's payroll deductions are withdrawn (as described below), the aggregate payroll deductions credited to the employee's account will be used to purchase shares of our common stock at the end of the six-month period beginning on a date of grant (an option period); provided, however, that the maximum number of shares of our common stock that may be purchased by a participant under any option may not exceed 6,000 (subject to adjustment upon a change in our common stock). The per share purchase price is 85% of the lesser of the fair market value of our common stock on the date of grant or on the last day of the option period (the date of exercise). For all purposes under the plan, the fair market value of a share of our common stock on a particular date is equal to the closing sales price on that date. Payroll deductions are included in our general funds free of any trust or other arrangement and may be used for any corporate purpose. No interest is paid or credited to any participant.

Changes in and Withdrawal of Payroll Deductions. A participant may not increase the rate of deduction during an option period. A participant may, however, reduce the rate of his or her payroll deduction at any time during an option period to a specific percentage not less than 2% of eligible compensation. Such reduction is irrevocable. A participant also may withdraw in whole from the plan, but not in part, at any time prior to the date of exercise relating to a particular option period. Upon withdrawal, we will refund to the participant the amount of

Table of Contents

the participant's unused payroll deductions, and thereafter the participant's payroll deduction authorization and interest in unexercised options under the plan will terminate.

Delivery of Shares. As soon as practicable after each date of exercise, we deliver to each participant a certificate for the number of whole shares purchased by such participant.

Termination of Employment; Leaves of Absence. Except as described below, if the employment of a participant terminates for any reason, then the participant's participation in the plan will cease and we will refund the amount of such participant's unused payroll deductions. If the employment of a participant terminates after such participant has attained age 65 or due to death or permanent disability, the participant, or the participant's personal representative, as applicable, may elect either to (1) withdraw all of the accumulated unused payroll deductions credited to the participant's account or (2) exercise the participant's option for the purchase of our common stock. The per share purchase price will be 85% of the lesser of the fair market value of our common stock on the effective date of such election or on the date of grant. If we do not timely receive such election, the participant or personal representative will automatically be deemed to have elected the first alternative.

During a paid leave of absence approved by us and meeting Internal Revenue Service regulations, a participant's elected payroll deductions will continue. A participant may not contribute to the plan during an unpaid leave of absence. If a participant takes an unpaid leave of absence that is approved by us and meets Internal Revenue Service regulations, then such participant's payroll deductions that were made prior to such leave may remain in the plan and be used to purchase common stock on the next date of exercise. If a participant takes a leave of absence not described above, then the participant will be considered to have withdrawn from the plan.

Restriction Upon Assignment of Option. An option granted under the plan may not be transferred other than by will or the laws of descent and distribution. Each option is exercisable, during the employee's lifetime, only by the employee to whom granted.

Administration, Amendments and Termination. The plan is administered and interpreted by a committee appointed from time to time by our Board. The plan may be amended from time to time by our Board provided that no change in any option previously granted may be made that would impair the rights of a participant without the consent of such participant. Our Board may in its discretion terminate the plan at any time with respect to any common stock for which options have not been granted. Unless sooner terminated, the plan will terminate on December 31, 2010.

Merger, Consolidation or Liquidation. If our company is not the survivor in any merger or consolidation (or survives only as a subsidiary of another entity), or if our company is to be dissolved or liquidated, then, unless a surviving entity assumes or substitutes new options (within the meaning of Section 424(a) of the Internal Revenue Code) for all options then outstanding, (1) the date of exercise for all options then outstanding will be accelerated to a date fixed by the committee administering the plan that is prior to the effective date of such merger or consolidation or such dissolution or liquidation, (2) a participant may make a lump-sum deposit prior to the date of exercise in lieu of the remaining payroll deductions that otherwise would have been made and (3) upon such effective date, any unexercised options will expire and we will promptly refund to each participant the amount of such participant's payroll deductions under the plan that have not yet been otherwise returned or used upon exercise of options.

Federal Income Tax Consequences to Participants. A participant's payroll deductions to purchase our common stock are made on an after-tax basis. There is no tax liability to the participant when shares of our common stock are purchased pursuant to the plan. The participant may, however, incur tax liability upon disposition (including by way of gift) of the shares acquired under the plan. The participant's U.S. federal income tax liability will depend on whether the disposition is a qualifying disposition, or a disqualifying disposition as described below.

If a qualifying disposition of the shares is made by the participant (i.e., a disposition that occurs more than two years after the first day of the option period in which the shares were purchased), or in the event of death (whenever occurring) while owning the shares, the participant will recognize in the year of disposition (or, if earlier, the year of the participant's death) ordinary income in an amount equal to the lesser of (1) the excess of the fair market value of the shares at the time of disposition (or death) over the amount paid for the shares under the option or (2) 15% of the fair market value of the shares at the date of grant (the beginning of the option period).

Table of Contents

Upon the sale of the shares, any amount realized in excess of the ordinary income recognized by the participant will be taxed to the participant as a long-term capital gain. If the shares are sold at less than the purchase price under the option, then there will be no ordinary income. Instead, the participant will have a capital loss equal to the difference between the sales price and the purchase price paid under the option.

If a disqualifying disposition of the shares is made (i.e., a disposition (other than by reason of death) within two years after the first day of the option period in which the shares were purchased), the participant generally will recognize ordinary income in the year of disposition in an amount equal to any excess of the fair market value of the shares at the date of exercise over the purchase price paid for the shares under the option (even if no gain is realized on the sale or if a gratuitous transfer is made). Any further gain (or loss) realized by the participant generally will be taxed as short-term or long-term capital gain (or loss) depending on the holding period.

Federal Income Tax Consequences to Us. We will be entitled to a deduction only if the participant makes a disqualifying disposition of any shares purchased under the plan. In such case, we can deduct as compensation expense the amount that is ordinary income to the participant, subject to certain limitations.

Plan Benefits

Since participation in the plan is voluntary and we are unable to predict the future value of our common stock, we cannot currently determine the amounts that will be received in the future by the participants in the plan. The table below sets forth for the indicated persons the number of shares of our common stock purchased by such persons pursuant to the plan during 2005 and the purchase price of such shares.

If the appointment is not ratified, the Audit Committee of our Board will consider the appointment of other independent accountants. A representative of PricewaterhouseCoopers is expected to be present at the annual meeting, will be offered the opportunity to make a statement if the representative desires to do so and will be available to respond to appropriate questions.
