In addition, at September 29, 2006, we had unfunded commitments totaling approximately \$95.7 million. These commitments will be subject to the same underwriting and ongoing portfolio maintenance as are the financial instruments that we hold. Since these commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. In addition, we had extended non-binding term sheets to six prospective new portfolio companies representing approximately \$58.5 million of structured mezzanine debt investments. These investments are subject to finalization of our due diligence and approval process as well as negotiation of definitive agreements with the prospective portfolio company and, as a result, may not result in completed investments.

As of September 29, 2006, we had \$91.0 million outstanding under our securitization credit facility.

During September 2006, we sold the assets of Optovia Corporation for approximately \$2.6 million. We will record a realized loss on this investment in the third quarter which is estimated to be approximately \$2.7 million, which includes approximately \$380,000 of legal expenses and incentive fees paid to a third party and members of Optovia's management.
