PROXY STATEMENT

Annual Meeting of Shareholders August 13, 2004

SOLICITATION AND REVOCABILITY OF PROXIES

This Proxy Statement is furnished in connection with the solicitation of Proxies by the Board of Directors of Rocky Mountain Chocolate Factory, Inc. (the Company) for use only at the Annual Meeting of the Company's shareholders to be held at the time and place, and for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders.

It is anticipated that the Proxy Statement, together with the Proxies and the Company's 2004 Annual Report on Form 10-K, will first be mailed to the Company's shareholders on or about July 6, 2004. A person giving the enclosed Proxy has the power to revoke it at any time before it is exercised by (1) delivering written notice of revocation to the Secretary of the Company, (2) duly executing and delivering a Proxy for the Annual Meeting bearing a later date or (3) voting in person at the Annual Meeting.

The Company will bear the cost of this solicitation of Proxies, including the charges and expenses of brokerage firms and others for forwarding solicitation materials to beneficial owners of the Company's Common Stock, par value \$0.03 per share (the Common Stock). In addition, the Company's officers, directors and other regular employees, without additional compensation, may solicit Proxies by mail, personal interview, telephone or telegraph.

VOTING SECURITIES

The close of business on July 1, 2004 has been fixed as the record date for the determination of holders of record of the Company's Common Stock entitled to notice of and to vote at the Annual Meeting. On the record date, approximately 4,240,000 shares of the Company's Common Stock were outstanding and eligible to be voted at the Annual Meeting.

For each share of Common Stock held on the record date, a shareholder is entitled to one vote on all matters to be voted on at the Annual Meeting, except the election of directors.

Shareholders have cumulative voting rights in the election of directors, and there is no condition precedent to the exercise of those rights. Under cumulative voting, each shareholder is entitled to as many votes as shall equal the number of his or her shares multiplied by six, the number of directors to be elected, and he or she may cast all of those votes for a single nominee or divide them among any two or more nominees as he or she sees fit. It is the intention of the Proxy holders to exercise voting rights in order to elect the maximum number of nominees named below. An instruction on the Proxy to withhold authority to vote for any nominee will be deemed an authorization to vote cumulatively for the remaining nominees, unless otherwise indicated.

VOTING PROCEDURES

The vote required for the election of directors is a plurality of the shares of Common Stock present or represented by proxy at the meeting and entitled to vote thereon, provided a quorum is present. The vote required for the approval of any other item to be acted upon at the Annual Meeting is the affirmative vote of a majority of the shares entitled to vote on the matter and present or represented by proxy at the meeting, provided a quorum is present. A quorum is established by the presence or representation at the Annual Meeting of the holders of a majority of the Company's voting shares. Brokers who hold shares in street name have discretionary authority to vote on certain routine items even if they have not received instructions from the persons entitled to vote such shares. However, brokers do not have authority to vote on nonroutine items without such instructions. Such broker non-votes (shares held by brokers or nominees as to which they have no discretionary power to vote on a particular matter and have received no instructions from the persons entitled to vote such shares) are counted as present and entitled to vote for purposes of determining whether a quorum is present but are not considered entitled to vote on any nonroutine matter to be acted upon. For matters requiring the affirmative vote of a plurality

Table of Contents

of the shares of Common Stock present or represented at the Meeting, such as Item No. 1, broker non-votes would have no effect on the outcome of the vote. For matters requiring the affirmative vote of a majority of the shares of Common Stock present or represented at the Meeting and entitled to vote, such as Item No.2, broker non-votes would not be counted as among the shares entitled to vote with respect to such matters. Thus, the effect of any broker non-votes with respect to such matters would be to reduce the number of affirmative votes required to approve the proposals and the number of negative votes required to block such approval.

BENEFICIAL OWNERSHIP OF THE COMPANY S EQUITY SECURITIES

The following table sets forth information, as of May 28, 2004, with respect to the shares of Common Stock beneficially owned (i) by each person known to the Company to be the beneficial owner of more than 5% of the Company s Common Stock, (ii) by each director or nominee for election as a director and each executive officer named in the Summary Compensation Table, and (iii) by all current directors and executive officers of the Company as a group.

AUDIT COMMITTEE REPORT

The audit committee of the Company's Board of Directors (the Audit Committee) consists of three non-employee directors, Lee N. Mortenson, Gerald A. Kien and Fred M. Trainor, each of whom has been determined to be independent as that term is defined in Nasdaq Rule 4200. The Board of Directors has determined that Lee N. Mortenson is a financial expert as defined in Item 401(h) of Regulation SK promulgated under the Securities Exchange Act of 1934, as amended, and thus possesses financial sophistication as that term is defined by Nasdaq Rule 4350(d). The Audit Committee operates under a written charter adopted by the Board of Directors, a copy of which is attached hereto as Appendix A.

Management is responsible for the Company's internal controls and the financial reporting process. The independent accountants are responsible for performing an independent audit of the Company's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue a report thereon. The Audit committee's responsibility is to monitor and oversee these processes. It is not our duty or our responsibility to conduct auditing or accounting reviews or procedures. We are not employees of the Company and we may not be, and we may not represent ourselves to be or to serve as, accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, we have relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States of America, and on the representations of the independent auditors included in the report on the Company's financial statements. Our oversight does not provide us with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, our considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that the Company's independent accountants are in fact independent.

In this context, the Audit Committee has met and held discussions separately with management and the independent accountants. Management represented to the Audit Committee that the Company's financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, and the Audit Committee has reviewed and discussed the financial statements with management and the independent accountants. The Audit Committee discussed with the independent accountants matters required to be discussed by the

Statement on Auditing Standards No. 61, *Communications with Audit Committees*, as currently in effect.

The Company's independent accountants also provided to the Audit Committee the written disclosure required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*. The Committee discussed with the independent accountants that firm's independence and considered whether the non-audit services provided by the independent accountants are compatible with maintaining its independence.

Table of Contents

Based on the Audit Committee's discussion with management and the independent accountants, and the Audit Committee's review of the representation of management and the report of the independent accounts to the Audit Committee, the Audit Committee recommended that the Board of Directors include the audited financial statements in the Company's Annual Report on Form 10-K for the year ended February 29, 2004 filed with the Securities and Exchange Commission.

Submitted by the Audit Committee of the Company's Board of Directors,

Lee N. Mortenson

NOMINATING COMMITTEE REPORT

The nominating committee of the Company's Board of Directors (the Nominating Committee) consists of three non-employee directors, Lee N. Mortenson, Gerald A. Kien and Fred M. Trainor, each of whom has been determined to be independent as that term is defined in Nasdaq Rule 4200. The Nominating Committee operates under a written charter adopted by the Board of Directors, a copy of which is attached hereto as Appendix B.

The purpose of the Nominating Committee is: (i) to assist the Board of Directors in identifying individuals qualified to become members of the Board of Directors; and (ii) to approve and recommend to the Board of Directors qualified director candidates.

The Nominating Committee will consider director candidates recommended by shareholders when such recommendation is made in writing (i) delivered pursuant to the Company's Policy on Shareholder Communications with the Board of Directors; (ii) received by a date no later than the 120th calendar day before the date of the Company's proxy statement released to shareholders in connection with the previous year's annual meeting; and (iii) signed by one or more shareholders that beneficially owned five percent (5%) or more of the Company's voting common stock for at least one (1) year as of the date the recommendation is made.

In determining whether an individual is qualified to serve on the Company's Board of Directors, whether recommended by the Nominating Committee or by the shareholders, the Nominating Committee considers relevant factors, including, but not limited to, an individual's independence, knowledge, skill, training, experience, and willingness to serve on the Board of Directors.

Each nominee for director identified above is a director standing for re-election.

Submitted by the Nominating Committee of the Company's Board of Directors,

COMPENSATION COMMITTEE REPORT

The following is a report of the Compensation Committee of the Board of Directors (the Committee) on executive compensation policies for the fiscal year ended February 29, 2004. The Committee is composed entirely of non-employee directors and is responsible for administering the compensation program for executive officers of the Company and making all related decisions.

The principal elements of the compensation program for executive officers are base salary, performance-based annual bonuses and options granted under the Company's 1995 Stock Option Plan. The goals of the program are to ensure that a strong relationship exists between executive compensation and the creation of shareholder value, and that executive officers are strongly motivated and retained. The Company's compensation philosophy is to create a direct relationship between the level of total executive officer compensation and the Company's success in meeting its annual performance goals as represented by its annual business plan. An additional element of this philosophy is to reward equitably relative contribution and job performance of individual executive officers.

Table of Contents

Base Salary

Annual salaries for the Company's executive officers, including the Chairman of the Board and President, are generally reviewed in March of each year based on a number of objective and subjective factors, with any change to be generally effective on March 1 of that year. Objective factors considered include the Company's financial performance relative to business plan profit objectives in the immediately preceding fiscal year, although no specific formulas based on such factors are used to determine salaries. Salary decisions are based primarily on the Committee's subjective analysis of the factors contributing to the Company's success and of the executive's individual contributions to that success.

Performance-based Annual Bonuses

Cash bonuses based on the Company's performance are awarded to the executive officers under an incentive compensation plan. Under the plan which served as the basis for bonuses paid for fiscal year 2004, executive officers received a percentage of their base pay based on the overall performance of the Company. Additional bonuses may be awarded at the discretion of the Committee in recognition of special accomplishments. Thus, whether the executive officers' total pay is comparable to the compensation of executives with similar responsibilities at comparable companies may vary from year to year depending upon the Company's performance.

CEO Compensation

At the beginning of fiscal year 2004 the Compensation Committee and Mr. Crail determined that Mr. Crail's base compensation would increase 5% at the beginning of the year. Additionally, a performance incentive was implemented so that Mr. Crail's base salary would be increased if a certain target was met during the year. Specifically, the Compensation Committee determined that in the event the Company achieved 100% of budgeted net income (which budgeted number was substantially higher than the prior year's net income), Mr. Crail would receive an additional 5% salary increase which would be applied retroactively and paid at the end of fiscal 2004. The net income target was achieved; therefore, Mr. Crail's compensation was increased.

Stock Options

Awards of stock options strengthen the ability of the Company to attract, motivate and retain executives of superior capability and more closely align the interests of management with those of its shareholders. The Committee considers on an annual basis the grant of options to executive officers and key managers under the Company's 1995 Stock Option Plan. The number of options granted is generally based upon the position held by a participant and the Committee's subjective evaluation of such participant's contribution to the Company's future growth and profitability. The grant of options is an annual determination, but the Committee may consider the size of past awards and the total amounts outstanding in making such a determination.

Unlike cash, the value of a stock option will not immediately be realized and does not result in a current expense to the Company. Stock options are granted with an exercise price equal to the current market price of the Company's stock and will have value only if the Company's stock price increases, resulting in a commensurate benefit for the Company's shareholders. Although the plan does not provide for a required vesting period, the Committee's current practice is to generally require that options granted to employees vest pro rata 20% per year over five years.

There were 50,050 stock options awarded to executive officers or others in fiscal 2004. Options presently held by current executive officers and directors under the Company's option plans cover a total of 423,500 shares.

Other Compensation

An additional element of the executive officer's compensation, which is not performance-based, is the matching of contributions by the Company under the Company's 401(k) plan.

Table of Contents

The Compensation Committee believes that linking executive compensation to corporate performance results in a better alignment of compensation with corporate goals and shareholder interests. As performance goals are met or exceeded, resulting in increased value to shareholders, executives are rewarded commensurately. The Committee believes that compensation levels during 2004 adequately reflect the Company's compensation goals and policies.

Option Grants During Fiscal Year Ended February 29, 2004

The following table provides information on stock options granted in fiscal 2004 to each of the Company's Named Officers and stock options granted to all employees as a group. Compensation of Directors

Directors of the Company do not receive any compensation for serving on the Board. Compensation committee members are paid quarterly, \$750 each for committee members and \$1,500 for the committee chairman. Audit committee members are paid quarterly, \$500 each for committee members and \$1,500 for the committee chairman. Additionally, audit committee members receive \$250 for each meeting held by phone and \$500 for each meeting held in person. Also, an audit committee member attending all of the audit meetings for any fiscal year will receive a \$1,000 bonus for that year. Directors who are not also officers or employees of the Company are entitled to receive stock option awards under the 1990 Director's Plan and the 2000 Director's Plan.

The 1990 Director's Plan, as amended, provides for automatic grants of nonqualified stock options covering a maximum of 198,000 shares of Common Stock of the Company to directors of the Company who are not also employees or officers of the Company and who have not made an irrevocable, one-time election to decline to participate in the plan. The 1990 Director's Plan provides that, during the term of the 1990 Director's Plan, options will be granted automatically to new nonemployee directors upon their election. Each such option permits the nonemployee director to purchase 22,000 shares of Common Stock at an exercise price equal to the fair market value of the Common Stock on the date of grant of the option. Each nonemployee director's option may be exercised in full during the period beginning one year after the grant date of such option and ending ten years after such grant date, unless the option expires sooner due to termination of service or death.

The 2000 Director's Plan provides for automatic grants of nonqualified stock options covering a maximum of 132,000 shares of Common Stock of the Company to directors of the Company who are not also employees or officers of the Company. The 2000 Director's Plan provides that, during the term of the 2000 Director's Plan, options will be granted automatically to new nonemployee directors upon their election. Each such option permits the nonemployee director to purchase 22,000 shares of Common Stock at an exercise price equal to the fair market value of the Common Stock on the date of grant of the option. Each year following adoption of the 2000 Director's Plan, on a date established by the Compensation Committee, during the term of the 2000 Director's Plan, options to purchase 2,200 shares of common stock shall be granted automatically to each nonemployee director, if any, who is serving the Company as a director on such date. Each nonemployee director's option may be exercised in full beginning on the Vesting Date as determined by the Compensation Committee and ending five years after such vesting date, unless the option expires sooner due to termination of service or death.

Employment Agreements

The Company has entered into employment agreements with certain executives of the Company which contain, among other things, change in control severance provisions. Specifically, the Company has entered into employment agreements with Franklin E. Crail, Edward L. Dudley, Jay B. Haws and Bryan J. Merryman. The employment agreements generally provide that, if the Company terminates the executive's employment under circumstances constituting a Triggering Termination (as defined in the employment agreements) during a specified period preceding a Change in Control (as defined in the employment agreements) of the Company, or if the executive or the Company terminates the executive's employment under circumstances constituting a Triggering Termination during a specified period after a Change in Control, the executive will be entitled to receive, among other benefits, 2.99 times the sum of (i) the executive's annual salary and (ii) two times the bonus that would be payable to the executive for the bonus

period in which the Change in Control occurred. A Triggering Termination also includes a voluntary termination by the executive within five business days before an anticipated Change in Control with the concurrence of two

Concurring Persons (as defined in the employment agreements) that the Change in Control is likely to occur during such five-business day period. In such event, the executive must agree to continue to work on an at-will basis, without compensation, until the Change in Control occurs. If the Change in Control does not occur within 10 business days, the executive must refund the severance payment to the Company. The foregoing description of the employment agreements does not purport to be complete and is qualified in its entirety by reference to the form of employment agreement, which is filed as Exhibit 99.2 to Schedule on Form 14D9 of the Company filed on May 21, 1999.

ITEM 2:

PROPOSAL TO APPROVE THE ADOPTION OF THE 2004 STOCK OPTION PLAN

At the Annual Meeting, the shareholders of the Company will be asked to consider and approve the adoption of the 2004 Stock Option Plan (the Option Plan). The Option Plan was adopted, subject to shareholder approval, by the Board of Directors on June 18, 2004. The Company's 1995 Stock Option Plan (the 1995 Plan) will expire in July 2005. A total of 300,000 shares are reserved for issuance under the Option Plan. The following is a summary of the terms of the Option Plan, which is nevertheless qualified in its entirety by reference to its complete text attached to this Proxy Statement as Appendix C.

PURPOSE OF PLAN

The purpose of the Option Plan is to promote the interests of the Company and its shareholders by attracting, retaining and stimulating the performance of selected officers and other key employees by giving such employees the opportunity to acquire a proprietary interest in the Company and an increased personal interest in its continued success and progress.

ADMINISTRATION OF THE PLAN

A Committee of two or more members of the Board of Directors (the Committee) must be designated to administer the plan. The Committee must be composed of disinterested directors, as defined by Rule 16b-3 of the Securities Exchange Act of 1934, as amended (the 1934 Act), or any similar rule or regulation promulgated thereunder. The Committee has full authority subject to the express provisions of the Option Plan to grant options under the Option Plan, to interpret the Plan and any option granted hereunder, to determine the terms of each option granted under the Option Plan and to make all other determinations and perform such actions as the Committee deems necessary or advisable to administer the Plan. The Board of Directors has designated the Compensation Committee to perform the functions of the Committee.

SHARES AVAILABLE

The Option Plan provides that the Committee may grant to employees such number of shares of Common Stock as the Committee in its discretion shall deem to be in the best interest of the Company. All grants under the plan are subject to adjustments in certain circumstances as hereinafter described.

ELIGIBILITY AND PARTICIPATION

Awards made pursuant to the Option Plan may be granted only to individuals who, at the time of the grant, are key employees or officers of the Company. There are presently approximately 40 such persons. Awards may not be made to any director who is not also an employee of the Company, nor to any member of the Committee. Grants of options are made at the discretion of the Committee and are based on the employee's present and potential contributions to the success of the Company and such other factors as the Committee deems appropriate to carry out the purposes of the Option Plan.

TYPES OF GRANTS UNDER THE OPTION PLAN

If approved by the shareholders, the Option Plan provides that the Committee may designate any option granted either as a nonqualified stock option or an incentive stock option, except that the aggregate fair market value of the Common Stock with respect to which incentive stock options are exercisable for the first time by such employee during any calendar year may not exceed \$100,000, determined as of the date the incentive stock option is granted. If, however, such option is intended to be an incentive stock option and its fair market value exceeds \$100,000, such option will be deemed to be an incentive stock option to the extent it does not exceed \$100,000 and a nonqualified stock option to the extent it exceeds that limit.

OPTION PRICE

The purchase price of options is determined by the Committee in its discretion at the time of the grant. The purchase price of incentive stock options must not be less than 100% of the fair market value per share of the Common Stock on the date the option is granted, except that the purchase price shall be at least 110% of the fair market value per share of the Common Stock on the date of grant if the optionee, on the date of such grant, possesses more than 10% of the total combined voting power of all classes of stock of the Company or any affiliate. The purchase price of a nonqualified stock option must be greater than the par value of the stock on either the date the option is granted or the date it is exercised, whichever is greater.

Table of Contents

EXERCISE OF OPTIONS

An option may be exercised in whole or in part in accordance with procedures established by the Committee. Such procedures may include a limitation on the number of shares purchasable in any period of time, or any other terms and conditions not inconsistent with the terms of the Option Plan. The Committee, in its discretion, may accelerate the exercise date of any option.

PAYMENT OF EXERCISE PRICE

Common Stock purchased upon the exercise of an option must be paid for in full at the time of purchase. Payment must be made in cash or, if accepted by the Committee, in its discretion, shares of Common Stock owned by the optionee (valued at the fair market value on the date of exercise).

NONTRANSFERABILITY OF OPTIONS

Option awards are not transferable except by will or by the laws of descent and distribution and shall be exercisable during the lifetime of the optionee only by the optionee.

EXPIRATION OF OPTIONS

Options granted under the Option Plan will generally be exercisable for a period of ten years after the date of grant. Options will expire, however, upon an earlier termination of the optionee's employment, subject to certain grace periods. If, however, the optionee's employment is terminated by reason of such optionee's fraud, dishonesty or performance of other acts detrimental to the Company or an affiliate, such optionee's options will immediately become null and void.

Any incentive stock option granted to an optionee who possesses more than 10% of the total combined voting power of all classes of stock of the Company or any affiliate shall not be exercisable after the expiration of five years from the date of its grant.

TERMINATION OF EMPLOYMENT

For purposes of the Option Plan, a transfer of employment shall not be considered to be a termination of employment for purposes of the Option Plan. The Committee, in its discretion, may determine whether an authorized leave of absence will constitute a termination of employment for purposes of the Option Plan. Nothing contained in the Option Plan or in any option agreement shall interfere with the right of the Company or any affiliate to terminate the employment of the optionee at any time with or without cause.

ADJUSTMENTS TO AWARDS UPON CHANGES IN COMMON STOCK

The number of shares as to which options may be granted under the Option Plan will be decreased or increased proportionally to account for a stock split or a dividend payable in shares of Common Stock. In the event of any other reclassification of Common Stock, or in the event of a liquidation or reorganization of the Company or an affiliate, the Board will make any necessary adjustments to any unexercised options granted under the Option Plan.

If the Company is merged into or consolidated with another corporation and the Company is not the surviving corporation, or if the Company disposes of all or substantially all of its assets to another corporation, then all outstanding options may be cancelled by the Board, but all optionees must receive notice of such cancellation and would have the right to exercise such option in full during the 30-day period preceding the effective date of such action.

AMENDMENT AND TERMINATION OF THE OPTION PLAN

The Option Plan will terminate, unless previously terminated by the Board, ten years from June 18, 2004. No options may be granted after that date. The Board may alter or amend the Option Plan but may not, without shareholder approval, (i) abolish the Committee, change the qualifications of its members or withdraw the administration of the Option Plan from its supervision, (ii) increase the total number of shares of Common Stock which may be granted under the Option Plan, (iii) extend the term of the Option Plan or the maximum exercise period provided in the Option Plan, (iv) decrease the minimum purchase price of Common Stock provided in the Option Plan, (v) materially increase the benefits accruing to participants under the Option Plan, or (vi) materially modify the requirements as to eligibility for participation in the Option Plan.

Table of Contents

No termination or amendment of the Option Plan may adversely affect the rights of an optionee under a previously granted option, except with the consent of the optionee.

MODIFICATIONS OF OPTIONS

Subject to the terms of the Option Plan, the Committee may modify or extend outstanding options, or accept the surrender of options granted under the Option Plan and authorize the granting of new options in substitution, except that no such modification may, without the consent of the optionee, impair any rights under any option, except as necessary to comply with Section 422(b) of the Code.

FEDERAL INCOME TAX CONSEQUENCES

The following summary is based upon an analysis of the Internal Revenue Code as currently in effect (the Code), existing laws, judicial decisions, administrative rulings, regulations and proposed regulations, all of which are subject to change. Moreover, the following is only a summary of federal income tax consequences, and the federal income tax consequences to employees may be either more or less favorable than those described below depending on their particular circumstances.

INCENTIVE STOCK OPTIONS. No income will be recognized by an optionee for federal income tax purposes upon the grant or exercise of an incentive stock option. The basis of shares transferred to an optionee pursuant to the exercise of an incentive stock option is the price paid for the shares. If the optionee holds the shares for at least one year after transfer of the shares to the optionee and two years after the grant of the option, the optionee will recognize capital gain or loss upon sale of the shares received upon the exercise equal to the difference between the amount realized on the sale and the exercise price. Generally, if the shares are not held for that period, the optionee will recognize ordinary income upon disposition in an amount equal to the excess of the fair market value of the shares on the date of exercise over the option price of such shares, or if less (and if the disposition is a transaction in which loss, if any, will be recognized), the gain on disposition. Any additional gain realized by the optionee upon such disposition will be a capital gain.

The excess of the fair market value of shares received upon the exercise of an incentive stock option over the option price for the shares is an item of adjustment for the optionee for purposes of the alternative minimum tax.

The Company is not entitled to a deduction upon the exercise of an incentive stock option by an optionee. If the optionee disposes of the shares received pursuant to such exercise prior to the expiration of one year following transfer of the shares to the optionee or two years after grant of the option, however, the Company may, subject to the deduction limitation described below, deduct an amount equal to the ordinary income recognized by the optionee upon disposition of the shares at the time such income is recognized by the optionee.

If an optionee uses already owned shares of Common Stock to pay the exercise price for shares under an incentive stock option, the resulting tax consequences will depend upon whether the already owned shares of Common Stock are statutory option stock, and, if so, whether such statutory option stock has been held by the optionee for the applicable holding period referred to in Section 424(c)(3)(A) of the Code. In general, statutory option stock (as defined in Section 424(c)(3)(B) of the Code) is any stock acquired through the exercise of an incentive stock option, a qualified stock option, an option granted pursuant to an employee stock purchase plan or a restricted stock option, but not through the exercise of a nonqualified stock option. If the stock is statutory option stock with respect to which the applicable holding period has been satisfied, no income will be recognized by the optionee upon the transfer of such stock in payment of the exercise price of an incentive stock option. If the stock is not statutory option stock, no

income will be recognized by the optionee upon the transfer of the stock unless the stock is not substantially vested within the meaning of the regulations under Section 83 of the Code (in which event it appears that the optionee will recognize ordinary income upon the transfer equal to the amount by which the fair market value of the transferred shares exceeds their basis). If the stock used to pay the exercise price of an incentive stock option is statutory option stock with respect to which the applicable holding period has not been satisfied, the transfer of such stock will be a disqualifying disposition described in Section 421(b) of the Code which will result in the recognition of ordinary income by the optionee in an amount equal to the excess of the fair market value of the statutory option stock at the time the incentive stock option covering such stock was exercised over the option price of such stock.

Table of Contents

NONQUALIFIED STOCK OPTIONS. No income will be recognized by an optionee for federal income tax purposes upon the grant of a nonqualified stock option. Except as described below in the case of an insider subject to Section 16(b) of the 1934 Act, who exercises his or her option less than six months from the date of grant, upon exercise of a nonqualified stock option, the optionee will recognize ordinary income in an amount equal to the excess of the fair market value of the shares on the date of exercise over the option price of the shares. In the absence of an election under Section 83(b) of the Code, an insider subject to Section 16(b) of the 1934 Act who exercises a nonqualified stock option less than six months from the date the option was granted will recognize income on the date six months after the date of grant in an amount equal to the excess of the fair market value of the shares on such date over the option price of the shares. An optionee subject to Section 16(b) of the 1934 Act can avoid such deferral by making an election under Section 83(b) of the Code, no later than 30 days after the date of exercise. Executive officers, directors and 10% shareholders of the Company will generally be deemed to be insiders for purposes of Section 16(b) of the 1934 Act.

Income recognized upon the exercise of nonqualified stock options will be considered compensation subject to withholding at the time the income is recognized, and, therefore, the Company must make the necessary arrangements with the optionee to ensure that the amount of the tax required to be withheld is available for payment. Nonqualified stock options are designed to provide the Company with a deduction equal to the amount of ordinary income recognized by the optionee at the time of such recognition by the optionee.

The basis of shares transferred to an optionee pursuant to exercise of a nonqualified stock option is the price paid for such shares plus an amount equal to any income recognized by the optionee as a result of the exercise of the option. If an optionee thereafter sells shares acquired upon exercise of a nonqualified stock option, any amount realized over the basis of the shares will constitute capital gain to the optionee for federal income tax purposes.

If an optionee uses already owned shares of Common Stock to pay the exercise price for shares under a nonqualified stock option, the number of shares received pursuant to the option which is equal to the number of shares delivered in payment of the exercise price will be considered received in a nontaxable exchange, and the fair market value of the remaining shares received by the optionee upon such exercise will be taxable to the optionee as ordinary income. If such already owned shares of Common Stock are not statutory option stock (which is defined in Section 424(c)(3)(B) of the Code to include any stock acquired through the exercise of an incentive stock option, a qualified stock option, an option granted pursuant to an employee stock purchase plan or a restricted stock option, but not through the exercise of a nonqualified stock option) or are statutory option stock with respect to which the applicable holding period referred to in Section 424(c)(3)(A) of the Code has been satisfied, the shares received pursuant to the exercise of the option will not be statutory option stock and the optionee's basis in the number of shares delivered in payment of the exercise price will be equal to the basis of the shares delivered in payment. The basis of the remaining shares received upon such exercise will be equal to the fair market value of such shares.

LIMITATIONS ON THE COMPANY'S COMPENSATION DEDUCTION. Section 162(m) of the Code, which became effective in 1994, limits the deduction which the Company may take for otherwise deductible compensation payable to certain executive officers of the Company to the extent that compensation paid to such officers for such year exceeds \$1 million, unless such compensation is performance-based, is approved by the Company's shareholders and meets certain other criteria. There is no assurance that grants made to employees under the Option Plan will satisfy the performance-based compensation requirements and, accordingly, the Company may be limited by Section 162(m) of the Code in the amount of deductions it would otherwise be entitled to take (as described in the foregoing summary).

GRANTS UNDER THE OPTION PLAN

On June 18, 2004, the Compensation Committee granted incentive stock options under the Option Plan covering 200,000 shares of Common Stock to thirty-nine employees of the Company, including options covering a total of 105,000 shares to five executive officers. The following table sets forth certain information regarding such options. Options vest and are exercisable at 20% per year over a period of five years during the period beginning on June 18, 2005 and expire 10 years from the date of grant.

Section 3. Number of Shares. Options may be granted by the Company from time to time under the Plan to purchase an aggregate of 300,000 shares of the authorized Common Stock. If an Option expires or terminates for any reason without having been exercised in full, the unpurchased shares subject to such expired or terminated Option shall be available for purposes of the Plan.

Section 4. Administration of the Plan. The Plan shall be administered by a Compensation Committee which shall consist of two or more members of the Board, each of whom shall be a disinterested person within the meaning of Rule 16b-3 under the Securities Exchange Act of 1934, as amended, or any similar rule or regulation promulgated thereunder. Each member of the Committee shall be appointed by and shall serve at the pleasure of the Board. The Board shall have the sole continuing authority to appoint members of the Committee both in substitution for members previously appointed and to fill vacancies however caused. The following provisions shall apply to the administration of the Plan:

(a) The Committee shall designate one of its members as Chairman and shall hold meetings at such times and places as it may determine. Each member of the Committee shall be notified in writing of the time and place of any meeting of the Committee at least two days prior to such meeting, provided that such notice may be waived by a Committee member. In addition, the Committee shall have full authority, subject to the express provisions of the Plan, to determine the Employees to whom Options shall be granted, the time or date of grant of each such Option, the number of shares subject thereto, and the price at which such shares may be purchased, and the nature and extent of restrictions, if any, on such shares. In making such determinations, the Committee may take into account the nature of the services rendered by the Employee, his present and potential contributions to the success of the Company's business and such other facts as the Committee in its discretion shall deem appropriate to carry out the purposes of the Plan.

(e) No member of the Committee or the Board shall be liable for any action taken or determination made in good faith with respect to the Plan or any Option granted hereunder.

Section 5. Grant of Options. At any time and from time to time during the term of the Plan and subject to the express provisions hereof, Options may be granted by the Committee to any Employee for such number of shares of Common Stock as the Committee in its discretion shall deem to be in the best interest of the Company and which will serve to further the purposes of the Plan. The Committee, in its discretion, may designate any Option so granted as an Incentive Stock Option; provided, however, that the aggregate Fair Market Value of the Common Stock with respect to which Incentive Stock Options granted to an Employee under the Plan (including all options qualifying as Incentive Stock Options granted to such Employee under any other plan of the Company or an Affiliate) are exercisable for the first time by such Employee during any calendar year shall not exceed \$100,000, determined as of the date the Incentive Stock Option is granted. If an Option that is intended to be an Incentive Stock Option shall be granted and

such Option does not comply with the proviso of the immediately preceding sentence, such Option shall not be void but shall be deemed to be an Incentive Stock Option to the extent it does not exceed the limit established by such proviso and shall be deemed a Nonqualified Stock Option to the extent it exceeds that limit.

Section 6. Option Price and Payment. The purchase price per share of Common Stock under each Incentive Stock Option shall be determined by the Committee in its discretion, but in no event shall such price be less than 100% of the Fair Market Value per share of Common Stock on the date the Incentive Stock Option is granted; provided, however, that the purchase price per share of Common Stock under any Incentive Stock Option granted to an Optionee who, on the date such Incentive Stock Option is granted, owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or any Affiliate shall be at least 110% of the Fair Market Value per share of Common Stock on the date of grant. The purchase price per share of Common Stock under each Nonqualified Stock Option shall be determined by the Committee in its discretion, but in no event shall such price be less

Table of Contents

than the par value per share of Common Stock on the date the Nonqualified Stock Option is granted or exercised, whichever is greater. Upon exercise of an Option, the purchase price shall be paid in full (i) in cash or (ii) with the consent of the Committee and if and to the extent provided for under the option agreement for such Option, in cash and/or by delivery of shares of Common Stock already owned by the Optionee, which shares are free of all liens, claims and encumbrances of every kind and have an aggregate Fair Market Value (determined as of the date of exercise) equal to the purchase price. The proceeds of such sale shall constitute general funds of the Company. Upon exercise of an Option, the Optionee will be required to pay to the Company the amount of any federal, state or local taxes required by law to be withheld in connection with such exercise.

Section 7. Option Period and Terms of Exercise of Options. Except as otherwise provided for herein, each Option granted under the Plan shall be exercisable during such period commencing on the date of the grant of such Option as the Committee shall determine; provided, however, that the otherwise unexpired portion of any Option shall expire and become null and void no later than upon the first to occur of (i) the expiration of ten years from the date such Option was granted; (ii) the later of (A) the expiration of 30 days from the date of the termination of the Optionee's employment with the Company or an Affiliate for any reason other than Retirement, disability or death or (B) in the event that the 30-day period specified in (ii)(A) occurs during a Lock-Up Period, the expiration of 30 days following the expiration of such Lock-Up Period; (iii) the later of (A) the expiration of three months from the date of the termination of the Optionee's employment with the Company or an Affiliate by reason of Retirement or (B) in the event that the three-month period specified in (iii)(A) occurs during a Lock-Up Period, the expiration of three months following the expiration of such Lock-Up Period; or (iv) the expiration of one year from the date of the termination of the Optionee's employment with the Company or an Affiliate by reason of disability (as determined by the Committee in its sole discretion) or death; provided, however, that an Option that is intended to be an Incentive Stock Option shall not be treated as an Incentive Stock Option to the extent it is exercised more than three months following the Optionee's termination of employment with the Company or an Affiliate for any reason other than disability or death. Anything herein to the contrary notwithstanding, the otherwise unexpired portion of any option granted hereunder shall expire and become null and void immediately upon an Optionee's termination of employment with the Company or an Affiliate by reason of such Optionee's fraud, dishonesty or performance of other acts detrimental to the Company or an Affiliate (as determined by the Committee in its sole discretion). An Incentive Stock Option granted to an Optionee who, on the date such Incentive Stock Option is granted, owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company or any Affiliate shall not be exercisable after the expiration of five years from the date of its grant. Under the provisions of any option agreement evidencing an Option, the Committee may limit the number of shares purchasable thereunder in any period or periods of time during which the Option is exercisable and may impose such other terms and conditions upon the exercise of an Option as are not inconsistent with the terms of this Plan; provided, however, that the Committee, in its discretion, may accelerate the exercise date of any such Option.

Section 8. Nontransferability of Options. An Option granted under the Plan shall be transferable by the Optionee only by will or by the laws of descent and distribution and shall be exercisable during the lifetime of the Optionee only by the Optionee.

Section 9. Termination of Employment. A transfer of employment among the Company and any of its Affiliates shall not be considered to be a termination of employment for the purposes of the Plan. The Committee, in its sole and absolute discretion, shall determine whether an authorized leave of absence or absence on military or government service shall constitute a termination of employment for purposes of the Plan. Nothing in the Plan or in any option agreement evidencing an Option granted under the Plan shall confer upon any Optionee any right to continue in the employment of the Company or any Affiliate or in any way interfere with the right of the Company or any Affiliate to terminate the employment of the Optionee at any time, with or without cause.

Section 10. Adjustments Upon Changes in Common Stock. In the event the Company shall effect a split of the Common Stock or dividend payable in Common Stock, or in the event the outstanding Common Stock shall be combined into a smaller number of shares, the maximum number of shares as to which Options may be granted under the Plan shall be decreased or increased proportionately. In the event that before delivery by the Company of all of the shares of Common Stock for which any Option has been granted under the Plan, the Company shall have effected such a split, dividend or combination, the shares still subject to such Option shall be increased or decreased proportionately and the purchase price per share shall be decreased or increased proportionately so that the aggregate purchase price for all of the shares then subject to such Option shall remain the same as immediately prior to such split, dividend or combination.

In the event of a reclassification of Common Stock not covered by the foregoing, or in the event of a liquidation or reorganization (including a merger, consolidation, spinoff or sale of assets) of the Company or an Affiliate, including a transaction in which the Company or an Affiliate is not the survivor, the Board shall make such adjustments, if any, as it may deem appropriate in the number, purchase price and kind of shares covered by the unexercised portions of Options theretofore granted under the Plan. The provisions

Table of Contents

of this Section shall only be applicable if, and only to the extent that, the application thereof does not conflict with any valid governmental statute, regulation or rule.

Section 11. Amendment and Termination of the Plan. Subject to the right of the Board to terminate the Plan prior thereto, the Plan shall terminate at the expiration of ten years from June 18, 2004, the date of adoption of the Plan by the Board. No Options may be granted after termination of the Plan. The Board may alter or amend the Plan but may not without the approval of the shareholders of the Company make any alteration or amendment thereof which operates to (i) abolish the Committee, change the qualifications of its members or withdraw the administration of the Plan from its supervision, (ii) increase the total number of shares of Common Stock which may be granted under the Plan (other than as provided in Section 10 hereof), (iii) extend the term of the Plan or the maximum exercise period provided in Section 7 hereof, (iv) decrease the minimum purchase price for Common Stock provided in Section 6 (other than as provided in Section 10 hereof), (v) materially increase the benefits accruing to participants under the Plan, or (vi) materially modify the requirements as to eligibility for participation in the Plan.

No termination or amendment of the Plan shall adversely affect the rights of an Optionee under a previously granted Option, except with the consent of such Optionee.

Section 12. Modification of Options. Subject to the terms and conditions of and within the limitations of the Plan, the Committee may modify, extend or renew outstanding Options granted under the Plan (including the conversion of an Incentive Stock Option into a Nonqualified Stock Option), or accept the surrender of Options outstanding hereunder (to the extent not theretofore exercised) and authorize the granting of new Options in substitution therefor. Notwithstanding the foregoing, no modification of an Option shall, without the consent of the Optionee, alter or impair any rights or obligations under any Option theretofore granted to such Optionee, except as may be necessary, with respect to Incentive Stock Options, to satisfy the requirements of Section 422(b) of the Code.

Section 13. Requirements of Law. The granting of Options and the issuance of Common Stock upon the exercise of an Option shall be subject to all applicable laws, rules and regulations and to such approval by governmental agencies as may be required.

Section 14. Investment Letter. If the Company so elects, the Company's obligation to deliver Common Stock with respect to an Option shall be conditioned upon its receipt from the Employee to whom such Common Stock is to be delivered of an executed investment letter containing such representations and agreements as the Committee may determine to be necessary or advisable in order to enable the Company to issue and deliver such Common Stock to such Employee in compliance with the Securities Act of 1933 and other applicable federal, state or local securities laws or regulations.

Section 15. Stock Purchase Agreement. The Committee, in its sole and absolute discretion, may require, as an additional condition to the issuance of Common Stock upon the exercise of an Option, that the Optionee furnish to the Company an executed stock purchase agreement in such form as may be prescribed by the Committee.

Section 16. Effective Date of the Plan. The Plan shall become effective, as of the date of its adoption by the Board, when it has been duly approved by the holders of at least a majority of the shares of Common Stock present or represented and entitled to vote at a meeting of the shareholders of the Company duly held in accordance with applicable law within twelve months after the date of adoption of the Plan by the Board. If the Plan is not so approved, the Plan shall terminate and any Option granted hereunder shall be null and void.

Section 17. Gender. Words of any gender used in the Plan shall be construed to include any other gender, unless the context requires otherwise.

IN WITNESS WHEREOF, this Plan has been executed at Durango, Colorado, on this 18th day of June, 2004, to be effective as of June 18, 2004.
