ITEM 2.01 Completion of Acquisition or Disposition of Assets

On June 23, 2004, Range Resources Corporation (the Company) consummated the acquisition of the 50% of Great Lakes Energy Partners, L.L.C. that it did not previously own pursuant to a Purchase and Sale Agreement by and between the Company and FirstEnergy Corporation. A Current Report on Form 8-K was filed on June 25, 2004, amended pursuant to Form 8-K/A on July 15, 2004 and amended pursuant to Form 8-K/A on August 17, 2004 to report this transaction.

ITEM 9.01 Financial Statements and Exhibits

(b) Pro Forma Financial Information

Range Resources Corporation unaudited pro forma statement of operations for the year ended December 31, 2003 and for the nine months ended September 30, 2004 are included herein.

Exhibit Number	Description
**2.1	Purchase and Sale Agreement by and between Range Resources Corporation with FirstEnergy Corporation dated June 1, 2004 (incorporated by reference to Exhibit 2.1 to the Company's Form 8-K/A (File No. 001-12209) as filed with the SEC on July 15, 2004)
**99.1	Press Release dated June 24, 2004 (incorporated by reference to Exhibit 99.1 to the Company's Form 8-K (File No. 001-12209) as filed with the SEC on June 25, 2004)

Range Resources Corporation

Unaudited pro forma combined financial information

The following unaudited pro forma combined financial information shows the pro forma effect of the Great Lakes acquisition. The unaudited pro forma combined financial information includes a statement of operations for the year ended December 31, 2003 and the nine months ended September 30, 2004 which assumes the merger occurred on January 1, 2003.

The unaudited pro forma combined financial information has been prepared to assist in your analysis of the financial effects of the acquisition. It is based on the historical financial statements of Range and Great Lakes and should be read in conjunction with those historical financial statements and related notes, which were previously filed on Form 8-K/A dated August 17, 2004. The historical Great Lakes amounts presented represent the 50% not previously owned by the Company prior to the acquisition.

The pro forma information is based on the estimates and assumptions set forth in the notes to such information. It is preliminary and is being furnished solely for information purposes. The pro forma information does not purport to represent what the financial position and the results of operations of the combined company would have actually been had the merger in fact occurred on the date indicated, nor is it necessarily indicative of the results of operations or financial position that may occur in the future.

See notes to unaudited pro forma combined financial statements.

Table of Contents**Range Resources Corporation****Notes to unaudited pro forma combined
financial information****(1) Basis of presentation**

The accompanying unaudited pro forma statements of operations present the pro forma effects of the Great Lakes acquisition. The unaudited pro forma statements of operations are presented as though the acquisition occurred on January 1, 2003.

(2) Method of accounting for the acquisition

Range accounted for the acquisition using the purchase method of accounting for business combinations. The purchase method of accounting requires that Great Lakes' assets and liabilities assumed by Range be revalued and recorded at their estimated fair values.

The Company previously owned a 50% interest in Great Lakes, and as an investment in an LLC, accounted for its 50% ownership using the proportional consolidation method. Thus, 50% of Great Lakes assets and liabilities and operating results are included in the Company's historical financial statements.

On June 2, 2004, we agreed to purchase FirstEnergy's interest in Great Lakes for a cash purchase price of \$200 million plus an optional cash payment equal to 50% of Great Lakes' commodity hedge liability (Optional Hedging Payment) which was \$27.7 million at closing on June 23, 2004. The transaction also includes the assumption of debt and other liabilities, which totaled \$96.1 million and \$1.3 in transaction expenses, for an aggregate anticipated purchase price of \$325.1 million. In consideration for the Optional Hedging Payment, FirstEnergy reimbursed Great Lakes, as a capital contribution, for 50% of each commodity derivative position, and the Company did not assume any commodity derivative liabilities associated with the 50% purchased interest.

The calculation of the total purchase price and the allocation of this price to assets and liabilities are shown below:

Calculation and preliminary allocation of purchase price (in thousands):

Cash paid to FirstEnergy	\$200,000
Optional Hedging Payment	27,720
Cash paid for transaction costs	1,266
	<hr/>
Total purchase price	\$228,986

Plus fair value of liabilities assumed (in thousands):

Current liabilities	\$ 8,375
Long-term debt	70,000
Asset retirement obligation	17,035
Other non-current liabilities	658
Total purchase price plus liabilities assumed	\$325,054

Table of Contents

Fair value of Great Lakes assets (in thousands):

Current assets	\$ 13,437
Oil and natural gas properties	296,322
Gas gathering and processing assets	14,429
Other non-current assets	866
	<hr/>
Total fair value of Great Lakes assets	\$325,054

The total purchase price included \$1.3 million of estimated merger costs. These costs include investment banking expenses, legal and accounting fees, printing expenses and other acquisition related costs.

In order to finance the acquisition, the acquisition required the consolidation of the Great Lakes Credit Facility into an amended and restated senior credit facility, the issuance of 12,190,000 shares of Range common stock at a price of \$12.25 and the issuance of \$100.0 million of additional 7.375% senior subordinated notes. The stock transaction included transaction costs of \$7.5 million and the issuance of 7.375% senior subordinated notes included transaction expenses of \$3.0 million and a discount of \$1.9 million. Fees for an amended and restated senior credit facility were \$1.0 million.

(3) Pro Forma Adjustments

The unaudited pro forma statements of operations include the following adjustments:

(a) This adjustment increases interest expense for the effect of additional borrowings under the Senior Credit Facility and amortization of fees associated with an amended and restated senior credit facility.

(b) This adjustment reflects the decrease in amortization due to the write-off of 50% of Great Lakes deferred financing costs attributed to FirstEnergy's share of the Great Lakes Credit Facility.

(c) This adjustment increases interest expense for the effect of issuance of an additional \$100 million of 7.375% senior subordinated notes and the amortization of the associated discount and estimated issuance costs.

(d) This adjustment revises Great Lakes historical depreciation, depletion and amortization expense to reflect the adjustment of Great Lakes assets from historical book value to fair value in the purchase price allocation. For the oil and gas producing properties, pro forma depletion was calculated using the equivalent units-of-production method.

(e) This adjustment recognizes income tax effects of the adjustments to depreciation, depletion and amortization and interest expense at an effective tax rate of approximately

Table of Contents

37%. This adjustment also recognizes tax expense for Great Lakes 50% income prior to the acquisition. Great Lakes did not recognize income taxes as a limited liability corporation.

(4) Net earnings per common share

Net earnings per common share outstanding for the year ended December 31, 2003 and the nine months ended September 30, 2004 have been calculated as follows:

(in thousands)	Nine months ended September 31, 2004	Year ended December 31, 2003
Numerator:

Pro forma standardized measure of discounted future cash flows

The following table set forth the standardized measures of discounted future net cash flows relating to proved oil, natural gas and NGL reserves for Range, Great Lakes, and the combined company on a pro forma basis as of December 31, 2003:

(in thousands)	Range Resources	50% Great Lakes	Pro forma
Future cash inflows	\$ 3,803,479	\$ 1,640,172	\$ 5,443,651
Future costs:			
Production	(842,052)	(308,104)	(1,150,156)
Development	(274,029)	(155,035)	(429,064)
Future net cash flows	2,687,398	1,177,033	3,864,431
Income taxes	(740,965)	(328,769)	(1,069,734)
Total undiscounted future net cash flows	1,946,433	848,264	2,794,697
10% discount factor	(943,452)	(520,991)	(1,464,443)
Standardized measure	\$ 1,002,981	\$ 327,273	\$ 1,330,254

Edgar Filing: RANGE RESOURCES CORP - Form 8-K/A

The Standardized Measure of Discounted Future Net Cash Flows Relating to Proved Oil and Gas Reserves (Standardized Measure) is a disclosure requirement of SFAS 69. The Standardized Measure does not purport to present the fair market value of proved oil and gas reserves. This would require consideration of expected future economic and operating conditions, which are not taken into account in calculating the Standardized Measure.

F-8

Table of Contents

Future cash inflows were estimated by applying year end prices to the estimated future production less estimated future production costs based on year end costs. Future net cash inflows were discounted using a 10% annual discount rate to arrive at the Standardized Measure. The average prices used at December 31, 2003 to estimate reserve information were \$29.48 per barrel for oil, \$19.93 per barrel for natural gas liquids and \$6.03 per mcf for natural gas using the benchmark prices of \$32.52 per barrel and \$6.19 per Mmbtu.
