PROSPECTUS SUMMARY

This summary highlights information more fully described elsewhere in this prospectus. Because it is a summary, it may not include all of the information that is important to you. You should read the entire prospectus before investing. All information in this prospectus assumes the underwriters' over allotment option is not exercised, unless otherwise noted. References to Armor Holdings, the Company, we, us and our refer to Armor Holdings, Inc. and its subsidiaries. Industry information in this prospectus is taken from sources we believe reliable. However, we do not guarantee the accuracy of this information. Pro forma financial information included in this summary reflects the acquisition of the Armor Mobile Security Division as if it had occurred at the beginning of the period indicated.

ARMOR HOLDINGS, INC.

We are a leading manufacturer and provider of security products, vehicle armor systems and security risk management services. Our products and services are used by military, law enforcement, security and corrections personnel throughout the world, as well as governmental agencies, multinational corporations and non-governmental organizations. Our company is organized and operated under three business segments: Armor Holdings Products; Armor Mobile Security; and ArmorGroup Services.

ARMOR HOLDINGS PRODUCTS. Our Armor Holdings Products Division manufactures and sells a broad range of high quality equipment marketed under brand names that are well-known and respected in the military and law enforcement communities. Products manufactured by this division include body armor,

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

tactical armor, hard armor, duty gear, less-lethal munitions, anti-riot products, police batons, forensic products and weapon maintenance products.

ARMOR MOBILE SECURITY. Our Armor Mobile Security Division manufactures and installs ballistic and blast protection armoring systems for military vehicles, commercial vehicles, military aircraft and missile components. Under the brand name O'Gara-Hess & Eisenhardt, we are the sole-source provider to the U.S. military for the supply of armoring and blast protection systems for the High Mobility Multi-purpose Wheeled Vehicle (HMMWV, commonly known as the Humvee). Additionally, we have been subcontracted to develop a ballistically armored and sealed truck cab for the High Mobility Artillery Rocket System (HIMARS) currently in development for the U.S. Army. We armor a variety of commercial vehicles including limousines, sedans, sport utility vehicles, commercial trucks and cash-in-transit vehicles, to protect against varying degrees of ballistic and blast threats. Our Armor Mobile Security Division recently acquired the companies that constituted the majority of what was formerly known as the Security Products and Services Group of The Kroll-O'Gara Company ("O'Gara Acquisition").

ARMORGROUP SERVICES. Our ArmorGroup Services Division provides a broad range of sophisticated security risk management solutions to multinational corporations in diverse industries such as natural resources, financial services and consumer products, and to governmental and non-governmental agencies such as the U.S. Departments of State and Defense, the United Nations and CARE International. Services provided include security planning, advice and management, security systems integration, intellectual property asset protection, due diligence investigations and training programs in counterintelligence, countersurveillance, advanced driving techniques and ballistics.

INDUSTRY OVERVIEW / MARKET OPPORTUNITY

We participate in the defense and global security products and services industries. Increasingly, governments, militaries, businesses, and individuals have recognized the need for our products and services to protect them from the risks associated with terrorism, physical attacks, threats of violence, white-collar crime and fraud. We believe the following trends and developments will drive growth in the industries in which we participate:

1

- o the terrorist attacks on September 11, 2001 generating strong federal and local support for increased spending in the defense and domestic security sectors;
- o the U.S. defense budget submission for fiscal 2002 reflecting an 11% increase over fiscal 2001, excluding a recent supplemental appropriation of \$40 billion, approximately half of which we expect to be spent on defense;
- o the creation of a new federal authority, the Office of Homeland Security;
- o the Department of Defense ("DoD") recently published the Quadrennial Defense Review highlighting the need to enhance critical domestic defense infrastructure;
- o a continued increase in the number of law enforcement and security personnel in the U.S.; and

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

- o a continuing trend toward the outsourcing of security services at the corporate level.

We believe that the three segments of our business are well positioned to respond to the new security environment created by the September 11, 2001 terrorist attacks on the United States. An increased law enforcement population that will need to be properly equipped to combat and defend against the domestic terrorist threat will, we expect, positively impact our Armor Holdings Products Division. We believe that 85% -- 90% of our product line by revenue including body armor, tactical armor, hard armor, duty gear, less-lethal munitions, anti-riot products and police batons will exhibit higher than previously expected demand over the next three to five years. With respect to our Armor Mobile Security Division, we believe that increased demand for Up-Armored HMMWVs by the U.S. military, though not currently quantifiable, is likely, and that the demand for commercial armored vehicles is likely to increase under the new security environment. We expect that the services provided by our ArmorGroup Services Division will be more sought after as corporations, governmental and non-governmental agencies re-evaluate their security programs.

BUSINESS STRENGTHS

We believe that the following key strengths are critical to our success as a leading provider of security products, vehicle armor systems and security risk management services:

- o BROAD PORTFOLIO OF PRODUCTS AND SERVICES. We believe we have a unique competitive advantage due to the diversity of our security product and service portfolio and the ability to offer that portfolio on a worldwide basis, resulting in a well balanced revenue base.
- o STRONG BRANDS WITH LEADING MARKET POSITIONS. The strength of our brand names, such as American Body Armor, NIK (Registered Trademark) , Defense Technology, Federal Laboratories, MACE (Registered Trademark) , Safariland, O'Gara-Hess & Eisenhardt and others, has contributed to our leading market positions in several of the product categories in which we compete.
- o STRONG CLIENT BASE AND EXTENSIVE DISTRIBUTION NETWORK. Our offices in 38 countries and extensive worldwide distribution network of approximately 500 distributors for our Armor Holdings Products and ArmorGroup Services Divisions has allowed us to develop a diversified client base that reduces our dependence on any particular customer.
- o PROVEN TRACK RECORD OF IDENTIFYING, COMPLETING AND INTEGRATING ACQUISITIONS. Since January 1996, we have completed 26 acquisitions that we believe, in the aggregate, have strengthened our market position, leveraged our distribution network and expanded our product and service offerings.
- o SOLE-SOURCE PROVIDER OF UP-ARMORED HMMWVS. We believe that our sole-source position and positive delivery outlook on this product program should provide significant revenue opportunities in the future.

2

GROWTH STRATEGY

Our strategic objective is to be the leading global provider of security products, vehicle armor systems and security risk management services to multinational corporations, governmental, non-governmental and law enforcement

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

entities. The following elements define our growth strategy:

- o CAPITALIZE ON EXPOSURE TO MILITARY PROGRAMS. We expect an increase in volume for our current major military programs and expect to participate in other existing and future military programs that require our unique products and services.
- o EXPAND DISTRIBUTION NETWORK AND PRODUCT OFFERINGS. We will continue to leverage our distribution network by expanding our range of branded law enforcement equipment through strategic acquisitions and the development of new products.
- o CAPITALIZE ON INCREASED HOMELAND SECURITY REQUIREMENTS. We are well positioned to provide reputable, well branded products and services as well as specialized training that are essential to establishing a sustainable domestic security infrastructure.
- o INCREASE GLOBAL POSITION IN HIGH FRIGHT AREAS. We will address the heightened security concerns of our customers in existing high fright areas and leverage our global expertise and reputation in newly developing high fright areas.
- o BROADEN SERVICE OFFERINGS TO EXISTING CLIENT BASE. We intend to increase revenue by cross-selling our expanding security risk management service offerings to our existing client base.
- o PURSUE STRATEGIC ACQUISITIONS. We intend to selectively pursue acquisitions that enhance our product lines, service offerings, geographic presence and client relationships in an effort to create a diverse and global reach in our highly fragmented market.

The mailing address and telephone number of our principal executive offices are 1400 Marsh Landing Parkway, Suite 112, Jacksonville, FL 32250, (904) 741-5400.

SUMMARY HISTORICAL AND UNAUDITED PRO FORMA FINANCIAL INFORMATION

You should read the following summary historical and unaudited pro forma financial information together with our financial statements and related notes incorporated by reference in this prospectus. The summary historical consolidated financial information for the years ended December 31, 1998, 1999 and 2000 has been derived from our audited financial statements. The summary historical consolidated financial information for the six months ended June 30, 2000 and 2001 has been derived from our unaudited financial statements. In the opinion of management, these unaudited financial statements include all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of the financial position and the results of operations for these periods.

The summary unaudited pro forma data for the year ended December 31, 2000 and the six months ended June 30, 2001 have been derived from, and should be read in conjunction with, the unaudited pro forma consolidated financial statements included elsewhere in this prospectus. The unaudited pro forma balance sheet data reflect the O'Gara Acquisition, as if it had occurred at June 30, 2001. The unaudited pro forma statement of operations data reflect the O'Gara Acquisition as if it had occurred at the beginning of our 2000 and 2001 fiscal years. The unaudited pro forma condensed financial information may not be indicative of our financial position and results of operations that actually would have occurred had the O'Gara Acquisition been in effect on the dates indicated or the financial position and results of operations that may be obtained in the future.

non-recurring charges, restructuring and related charges, equity in earnings of investee and depreciation and amortization. The depreciation and amortization is taken from the depreciation and amortization line of the statement of cash flows. EBITDA is not a substitute for operating income, net income and cash flow from operating activities as determined in accordance with generally accepted accounting principles as a measure of profitability or liquidity. EBITDA is presented because we believe some investors may find it useful in evaluating an investment in our common stock.

- (3) The depreciation and amortization is taken from the depreciation and amortization line on the statement of cash flows. For fiscal 1998 depreciation and amortization includes \$1.4 million of depreciation and \$1.3 million of amortization; for fiscal 1999 depreciation and amortization includes \$2.1 million of depreciation and \$2.5 million of amortization; and for fiscal 2000 depreciation and amortization includes \$3.2 million of depreciation and \$3.4 million of amortization. According to Statement of Financial Accounting Standard No. 142, Goodwill and Other Intangible Assets, goodwill arising from business combinations will no longer require annual amortization but rather be tested for impairment.
- (4) Working capital is defined as current assets minus current liabilities.
- (5) Gives effect to the O'Gara Acquisition and net proceeds from the sale of 4,500,000 shares of common stock offered by us in this offering at an assumed offering price of \$25.14 per share.

6

RISK FACTORS

Before you invest in our common stock, you should consider carefully the following risk factors and cautionary statements, as well as other information and financial data set forth in this prospectus. If any of the following risks actually occur, our business, financial condition or results of operation may suffer. As a result, the trading price of our common stock could decline, and you could lose a substantial portion of the money you paid to buy our common stock.

RISKS RELATED TO OUR INDUSTRY

THE PRODUCTS WE SELL ARE INHERENTLY RISKY AND COULD GIVE RISE TO PRODUCT LIABILITY CLAIMS.

The products we manufacture are used in applications where the failure to use such products for their intended purposes, the failure to use them properly, or their malfunction, could result in serious bodily injury or death. Our products include: body armor designed to protect against ballistic and sharp instrument penetration; less-lethal products such as less-lethal munitions, pepper sprays, distraction devices and flameless expulsion grenades; various models of police batons made of wood, alloy steel, acetate, aluminum and polycarbonate products; vehicle and hard armoring systems; and police duty gear.

We are aware of claims against certain of our subsidiaries, of permanent physical injury and death caused by self-defense sprays and other munitions intended to be less-lethal. We are also aware that the U.S. Department of Justice is studying the role that self-defense pepper sprays may have had in the deaths of suspects sprayed by law enforcement personnel. In addition, the manufacture and sale of certain less-lethal products may be the subject of product liability claims arising from the design, manufacture or sale of such

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

goods. Based on our experience, we believe that we maintain adequate insurance coverage under the circumstances. However, we cannot assure you that this coverage would be sufficient to cover the payment of any potential claim. In addition, we cannot assure you that this or any other insurance coverage will continue to be available or, if available, that we will be able to obtain it at a reasonable cost. Any material uninsured loss could have a material adverse effect on our business, financial condition and results of operations. In addition, the inability to obtain product liability coverage would prohibit us from bidding for orders from certain municipal customers since, at present, many municipal bids require such coverage, and any such inability would have a material adverse effect on our business, financial condition and results of operations.

THE SERVICES WE PROVIDE ARE INHERENTLY RISKY AND MAY SUBJECT US TO CLAIMS SEEKING SUBSTANTIAL DAMAGES.

We provide security risk management services through our ArmorGroup Services Division. These services are most in demand in areas of the world encountering high levels of violence, unstable or chaotic political environments and little or no effective local law enforcement authorities. As a result, our management and employees are often located, and provide services, in hostile and high risk environments characterized by political instability, emerging market conditions and/or significant natural resources such as Africa, South America, Southeast Asia, Central Asia, the Balkans and Russia. In addition, we operate in locations where murders, kidnappings and attacks on facilities and installations and terrorism are endemic. We cannot be certain whether parties will bring lawsuits in the future alleging negligence or other theories of liability in the provision of security services and seeking substantial amounts in damages. Based on our experience, we believe that the insurance coverage that we maintain is adequate under the circumstances. However, the success of such a lawsuit could have a material adverse effect on our business, financial condition and results of operations.

MANY OF OUR EMPLOYEES ARE LOCATED IN SITUATIONS WHERE THEY ARE SUBJECT TO HEIGHTENED RISK OF PERSONAL HARM.

Our management and employees are often located in hostile and high risk environments, including locations where murders, kidnappings and attacks on persons are endemic. Any personal

7

attacks on our personnel could materially adversely effect our operations, particularly in the locations where such attacks occur. Additionally, we may be subject to material claims from our employees who are subject to physical harm or their beneficiaries.

WE ARE SUBJECT TO EXTENSIVE GOVERNMENT REGULATION AND OUR FAILURE OR INABILITY TO COMPLY WITH THESE REGULATIONS COULD MATERIALLY RESTRICT OUR OPERATIONS AND SUBJECT US TO SUBSTANTIAL PENALTIES.

We are subject to federal licensing requirements with respect to the sale in foreign countries of certain of our products. In addition, we are obligated to comply with a variety of federal, state and local regulations governing certain aspects of our operations and workplace, including regulations promulgated by, among others, the U.S. Departments of Commerce, State and Transportation, the U.S. Environmental Protection Agency and the U.S. Bureau of Alcohol, Tobacco and Firearms. Additionally, the failure to obtain applicable governmental approval and clearances could adversely affect our ability to continue to service the government contracts we maintain. Furthermore, we have material contracts with governmental entities and are subject to rules,

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

regulations and approvals applicable to government contractors. We are also subject to routine audits to assure our compliance with these requirements. Our failure to comply with these contract terms, rules or regulations could expose us to substantial penalties, including the loss of these contracts and disqualification as a U.S. government contractor.

Like other companies operating internationally, we are subject to the Foreign Corrupt Practices Act and other laws which prohibit improper payments to foreign governments and their officials by U.S. and other business entities. We operate in countries known to experience endemic corruption. Our extensive operations in such countries creates the risk of an unauthorized payment by an employee or agent of ours which would be in violation of various laws including the Foreign Corrupt Practices Act. Violations of the Foreign Corrupt Practices Act may result in severe criminal penalties which could have a material adverse effect on our business, financial condition and results of operations.

WE HAVE SIGNIFICANT INTERNATIONAL OPERATIONS AND ASSETS AND ARE THEREFORE SUBJECT TO ADDITIONAL FINANCIAL AND REGULATORY RISKS.

We have operations and assets in many parts of Africa, South America, Southeast Asia, Central Asia, the Balkans and Russia. In addition, we sell our services and products in other foreign countries and seek to increase our level of international business activity. Accordingly, we are subject to various risks, including: U.S.-imposed embargoes of sales to specific countries; foreign import controls (which may be arbitrarily imposed and enforced); exchange rate fluctuations; dividend remittance restrictions; expropriation of assets; war, civil uprisings and riots; government instability; the necessity of obtaining government approvals for both new and continuing operations; and legal systems of decrees, laws, taxes, regulations, interpretations and court decisions that are not always fully developed and that may be retroactively or arbitrarily applied.

We may also be subject to unanticipated income taxes, excise duties, import taxes, export taxes or other governmental assessments. In addition, payments to us in our international markets are often in local currencies. Although most of these currencies are presently convertible into U.S. dollars, we cannot be sure that convertibility will continue. Even if currencies are convertible, the rate at which they convert is subject to substantial fluctuation. Our ability to transfer currencies into or out of local currencies may be restricted or limited. Any of these events could result in a loss of business or other unexpected costs which could reduce revenue or profits and have a material adverse effect on our business, financial condition and results of operations.

We routinely operate in areas where local government policies regarding foreign entities and the local tax and legal regimes are often uncertain, poorly administered and in a state of flux. We cannot, therefore, be certain that we are in compliance with, or will be protected by, all relevant local laws and taxes at any given point in time. A subsequent determination that we failed to comply with relevant local laws and taxes could have a material adverse effect on our business, financial condition and results of operations.

8

TERRORISM MAY ADVERSELY AFFECT OUR ABILITY TO DELIVER PRODUCTS AND SERVICES TO OUR CUSTOMERS.

Terrorist attacks, such as the attacks that occurred in New York and Washington, D.C. on September 11, 2001, and other acts of violence or war may make travel and transportation of our supplies and products more difficult and expensive and ultimately affect the sales of our products, and delivery of our

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

services, in the United States and overseas. Additionally, as a result of terrorism, the United States may enter into an armed conflict that could adversely impact our sales, supply chain, production capability and ability to deliver products and services to our customers.

RISKS RELATED TO OUR BUSINESS

THERE ARE LIMITED SOURCES FOR SOME OF OUR RAW MATERIALS WHICH MAY SIGNIFICANTLY CURTAIL OUR MANUFACTURING OPERATIONS.

The raw materials that we use in manufacturing ballistic resistant garments and Up-Armored vehicles include: SpectraShield, a patented product of Honeywell, Inc.; Z-Shield, a patented product of Honeywell, Inc.; Zylon, a patented product of Toyobo Co., Ltd.; Kevlar, a patented product of E.I. du Pont de Nemours Co., Inc. ("Du Pont"); and Twaron, a patented product of Akzo-Nobel Fibers, B.V. We purchase these materials in the form of woven cloth from five independent weaving companies. In the event Du Pont or its licensee in Europe cease, for any reason, to produce and sell Kevlar, we would utilize these other ballistic resistant materials as a substitute. However, none of Spectrashield, Twaron, Z-Shield or Zylon is expected to become a complete substitute for Kevlar in the near future. We enjoy a good relationship with our suppliers of Kevlar, SpectraShield, Twaron, Z-Shield and Zylon. The use of Zylon and Z-Shield in the design of ballistic resistant vests is a recent technological advancement that is subject to continuing development and study. Toyobo is the only producer of Zylon, and Honeywell is the only producer of Z-Shield. Should these materials become unavailable for any reason, we would be unable to replace them with materials of like weight and strength. Thus, if our supply of any of these materials were cut off or if there were a material increase in the prices of these materials, our manufacturing operations could be severely curtailed and our business, financial condition and results of operations would be materially adversely affected.

THE LOSS OF, OR A SIGNIFICANT REDUCTION IN, U.S. MILITARY BUSINESS WOULD HAVE A MATERIAL ADVERSE EFFECT ON US.

U.S. military contracts account for a significant portion of the business of the Armor Mobile Security Division. The U.S. military funds these contracts in annual increments, and the contracts require subsequent authorization and appropriation that may not occur or that may be for less than the total amount of the contract. Changes in the U.S. military's budget, spending allocations, and the timing of such spending, could adversely affect our ability to receive future contracts. Also the U.S. military generally has the right to cancel its contracts unilaterally, at its convenience.

WE ARE DEPENDENT ON A SINGLE SUPPLIER OF COMPONENTS FOR UP-ARMORED HMMWVS AND WILL NOT BE ABLE TO DELIVER UP-ARMORED HMMWVS IF OUR SUPPLY IS INTERRUPTED.

The Armor Mobile Security Division is the sole-source provider to the U.S. military for the supply of armoring and blast protection systems for the HMMWV. Up-Armored HMMWVs accounted for approximately one-third of the sales of the Armor Mobile Security Division during the twelve months ended June 30, 2001. These HMMWVs are manufactured by AM General Corporation under separate U.S. military contracts. Should deliveries of HMMWVs be significantly interrupted, or should other single source suppliers significantly interrupt deliveries of components for Up-Armored HMMWVs, we will not be able to deliver Up-Armored HMMWVs to the U.S. military on schedule, which could have a material adverse effect on us.

OUR RESOURCES MAY BE INSUFFICIENT TO MANAGE THE DEMANDS IMPOSED BY OUR GROWTH.

We have rapidly expanded our operations, and this growth has placed significant demands on our management, administrative, operating and financial

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

resources. The continued growth of our customer

9

base, the types of services and products offered and the geographic markets served can be expected to continue to place a significant strain on our resources. In addition, we cannot easily identify and hire personnel qualified both in the provision and marketing of our security services and products. Our future performance and profitability will depend in large part on: our ability to attract and retain additional management and other key personnel; our ability to implement successful enhancements to our management, accounting and information technology systems; and our ability to adapt those systems, as necessary, to respond to growth in our business.

MANY OF OUR CUSTOMERS HAVE FLUCTUATING BUDGETS WHICH MAY CAUSE SUBSTANTIAL FLUCTUATIONS IN OUR RESULTS OF OPERATIONS.

Customers for our products include military, law enforcement and other governmental agencies. Government tax revenues and budgetary constraints, which fluctuate from time to time, can affect budgetary allocations for these customers. Many domestic and foreign government agencies have in the past experienced budget deficits that have led to decreased spending in certain areas. Our results of operations may be subject to substantial period-to-period fluctuations because of these and other factors affecting spending. A reduction of funding for military, law enforcement and other governmental agencies could have a material adverse effect on our business, financial condition and results of operations.

WE MAY BE UNABLE TO PROTECT OUR PROPRIETARY TECHNOLOGY.

We are dependent upon a variety of methods and techniques that we regard as proprietary trade secrets. We are also dependent upon a variety of trademarks, service marks and designs to promote brand name development and recognition. We rely on a combination of trade secrets, copyright, patent, trademark, unfair competition and other intellectual property laws as well as contractual agreements to protect our rights to such intellectual property. Due to the difficulty of monitoring unauthorized use of and access to intellectual property, however, such measures may not provide adequate protection. In addition, there can be no assurance that courts will always uphold our intellectual property rights, or enforce the contractual arrangements that we have entered into to protect our proprietary technology. Any unenforceability or misappropriation of our intellectual property could have a material adverse effect on our business, financial condition and results of operations. In addition, if we bring or become subject to litigation to defend against claimed infringement of our rights or of the rights of others or to determine the scope and validity of our intellectual property rights, such litigation could result in substantial costs and diversion of our resources which could have a material adverse effect on our business, financial condition and results of operations. Unfavorable results in such litigation could also result in the loss or compromise of our proprietary rights, subject us to significant liabilities, require us to seek licenses from third parties, or prevent us from selling our products which could have a material adverse effect on our business, financial condition and results of operations.

WE MAY BE UNABLE TO COMPLETE OR INTEGRATE ACQUISITIONS AND AS A RESULT MAY INCUR UNANTICIPATED LIABILITIES OR OPERATIONAL DIFFICULTIES.

We intend to grow through the acquisition of businesses and assets that will complement our current businesses. We cannot be certain that we will be able to complete attractive acquisitions, obtain financing for acquisitions on satisfactory terms or successfully acquire identified targets. We may not be

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

successful in integrating acquired businesses into our existing operations. Integration may result in unanticipated liabilities or unforeseen operational difficulties, which may be material, or require a disproportionate amount of management's attention. Acquisitions may result in our incurring additional indebtedness or issuing preferred stock or additional common stock. Competition for acquisition opportunities in the industry may rise, thereby increasing our cost of making acquisitions or causing us to refrain from making further acquisitions. In addition, the terms and conditions of our credit facility impose restrictions on us that, among other things, may restrict our ability to make acquisitions.

10

WE MAY BE ADVERSELY AFFECTED BY APPLICABLE ENVIRONMENTAL LAWS.

We are subject to federal, state, and local laws and regulations governing the protection of the environment, including those regulating discharges to the air and water, the management of wastes, and the control of noise and odors. We cannot assure you that we are at all times in complete compliance with all such requirements. Like all companies, we are subject to potentially significant fines or penalties if we fail to comply with environmental requirements. Environmental requirements are complex, change frequently, and could become more stringent in the future. Accordingly, we cannot assure you that these requirements will not change in a manner that will require material capital or operating expenditures or will otherwise have a material adverse effect on us in the future. We are also subject to environmental laws requiring the investigation and clean-up of environmental contamination. We may be subject to liability, including liability for clean-up costs, if contamination is discovered at one of our current or former facilities or at a landfill or other location where we have disposed wastes. The amount of such liability could be material. We use Orthochlorobenzalmalonitrile and Chloroacetophenone chemical agents in connection with our production of tear gas. These chemicals are hazardous, and could cause environmental damage if not handled and disposed of properly.

RISKS RELATED TO OUR SECURITIES

ONE STOCKHOLDER HAS THE ABILITY TO SIGNIFICANTLY INFLUENCE THE ELECTION OF OUR DIRECTORS AND THE OUTCOME OF CORPORATE ACTION REQUIRING STOCKHOLDER APPROVAL.

Warren B. Kanders is the sole stockholder of Kanders Florida Holdings, Inc. Kanders Florida Holdings, Inc. and Mr. Kanders beneficially own approximately 3,165,355 shares or 12.75% of the outstanding shares of our common stock. In addition, our officers and directors, including Mr. Kanders, beneficially own an aggregate of approximately 5,276,729 shares, or 20.10%, of the common stock. Consequently, Mr. Kanders, as Chairman of the Board of Directors and as the sole stockholder of Kanders Florida Holdings, Inc., together with our other officers and directors, will have the ability to significantly influence the election of our directors and the outcome of corporate actions requiring stockholder approval, including a change in control.

DELAWARE LAW MAY LIMIT POSSIBLE TAKEOVERS.

Our certificate of incorporation makes us subject to the anti-takeover provisions of Section 203 of the Delaware General Corporation Law. In general, Section 203 prohibits publicly-held Delaware corporations to which it applies from engaging in a "business combination" with an "interested stockholder" for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner. This provision could discourage others from bidding for our shares and could, as a result, reduce the likelihood of an increase in our

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

stock price that would otherwise occur if a bidder sought to buy our stock.

THE MARKET PRICE FOR OUR COMMON STOCK IS VOLATILE.

The market price for our common stock may be highly volatile. We believe that a variety of factors, including announcements by us or our competitors, quarterly variations in financial results, trading volume, general market trends and other factors, could cause the market price of our common stock to fluctuate substantially. Additionally, the market in general, and our common stock in particular, may be subject to increased volatility due to the recent terrorist attacks in New York and Washington, D.C. and any resulting conflicts. Additionally, due to our relatively modest size, our winning or losing a large contract may have the effect of distorting our overall financial results.

WE MAY ISSUE A SUBSTANTIAL AMOUNT OF OUR COMMON STOCK IN CONNECTION WITH FUTURE ACQUISITIONS AND THE SALE OF THOSE SHARES COULD ADVERSELY AFFECT OUR STOCK PRICE.

As part of our acquisition strategy, we anticipate issuing additional shares of our common stock. We have filed a shelf registration statement with the Securities and Exchange Commission that we

11

may use to sell up to 3,000,000 shares of our common stock from time to time in connection with acquisitions. To the extent that we are able to grow through acquisitions for stock, the number of outstanding shares of common stock that will be eligible for sale in the future is likely to increase substantially. Persons receiving shares of our common stock in connection with these acquisitions may be more likely to sell large quantities of their common stock that may influence the price of our common stock. In addition, the potential issuance of additional shares in connection with anticipated acquisitions could lessen demand for our common stock and result in a lower price than would otherwise be obtained.

OUR STOCK PRICE MAY BE ADVERSELY AFFECTED WHEN ADDITIONAL SHARES ARE SOLD.

If our stockholders sell substantial amounts of our common stock in the public market following this offering, the market price of our common stock could fall. These sales might make it more difficult for us to sell equity or equity-related securities in the future at a time and price that we deem appropriate and may require us to issue greater amounts of our common stock to finance such acquisition. Additional shares sold in this offering or to finance acquisitions may dilute our earnings per share if the new operations' earnings are disappointing.

WE CURRENTLY DO NOT INTEND TO PAY DIVIDENDS.

We currently do not intend to pay any cash dividends on our common stock. We currently intend to retain any earnings for working capital, repayment of indebtedness, capital expenditures and general corporate purposes. Our credit facility contains restrictions on our ability to pay dividends or make other distributions.

SINCE WE HAVE BROAD DISCRETION IN HOW WE USE THE PROCEEDS FROM THIS OFFERING, WE MAY USE THE PROCEEDS IN WAYS WITH WHICH YOU DISAGREE.

We have not allocated specific amounts of the net proceeds from this offering to any specific purpose. While we expect to use a portion of the proceeds from this offering to pay down our credit facility, our credit facility will permit us to re-borrow that money at later times. Accordingly,

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

our management will have significant flexibility in applying the net proceeds of this offering. The failure of our management to use such funds effectively could have a material adverse effect on our business, financial condition and operating results.

FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that involve risks and uncertainties. Some of the forward-looking statements appear under "Prospectus Summary" and "Risk Factors." Other forward-looking statements appear in the sections entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Business" and elsewhere included or incorporated by reference in this prospectus. These statements relate to future events of our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may," "would," "will," "should," "could," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue," or the negative of these terms or other comparable terminology. These statements are only predictions. Actual events or results may differ materially. In evaluating these statements, you should specifically consider various factors, including the risks outlined in the Risk Factors section of this prospectus. These factors may cause our actual results to differ materially from any forward-looking statement. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements.

12

USE OF PROCEEDS

We estimate that the net proceeds from the sale by us of the 4,500,000 shares of our common stock in this offering, at an assumed offering price of \$25.14 per share, after deducting underwriting discounts and commissions and other estimated offering expenses payable by us, will be approximately \$105.9 million.

We expect to use approximately \$85.0 million of our net proceeds to repay indebtedness under our credit facility (including indebtedness incurred to finance the O'Gara Acquisition) and the remainder will be used to finance future acquisitions, for working capital and for general corporate purposes. We may invest the net proceeds of this offering in short term interest-bearing investment grade securities, pending the intended repayment of indebtedness outstanding under the credit facility and the other uses described above.

Approximately \$38.2 million of the indebtedness that will be reduced with the net proceeds of this offering was incurred to finance the O'Gara Acquisition. Our indebtedness under our credit facility bears interest at variable rates (5.48% on October 26, 2001) and matures on February 12, 2004. Although application of the net proceeds from this offering will repay amounts outstanding under the credit facility, it will not reduce the amounts available to us in the future.

We regularly review opportunities to further our business strategy through strategic acquisitions of businesses that we believe are complementary to our management skills and to our current and planned operations. We, however, have no present commitments or agreements with respect to any particular acquisition.

The foregoing information represents our current plans. Actual expenditures may vary substantially from the intended use referred to above. We may find it necessary or advisable to use portions of this offering for other

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

purposes. We will not receive any proceeds from the sale of our common stock by the selling stockholders.

13

DIVIDEND POLICY

We have never declared or paid any cash dividends on our common stock and do not intend to declare or pay any for the foreseeable future. We expect to continue to retain any earnings for working capital, repayment of indebtedness, capital expenditures and general corporate purposes. In addition, our credit facility restricts the payment of dividends on our common stock.

PRICE RANGE OF OUR COMMON STOCK

Our common stock has been traded under the symbol "AH" on the New York Stock Exchange since May 7, 1999. Prior to May 7, 1999, our common stock was traded under the symbol "ABE" on the American Stock Exchange. of profitability or liquidity. EBITDA is presented because we believe some investors may find it useful in evaluating an investment in our common stock.

- (3) The depreciation and amortization is taken from the depreciation and amortization line on the statement of cash flows. For fiscal 1996 depreciation and amortization includes \$388,000 of depreciation, and \$430,000 of amortization; for fiscal 1997 depreciation and amortization includes \$994,000 of depreciation and \$982,000 of amortization; fiscal 1998 depreciation and amortization includes \$1.3 million of depreciation and \$1.3 million of amortization; for fiscal 1999 depreciation and amortization includes \$2.1 million of depreciation and \$2.5 million of amortization; and for fiscal 2000 depreciation and amortization includes \$3.2 million of depreciation and \$3.4 million of amortization. According to Statement of Financial Accounting Standard No. 142, Goodwill and Other Intangible Assets, goodwill arising from business combinations will no longer require annual amortization but rather be tested for impairment.
- (4) Working capital is defined as current assets minus current liabilities.
- (5) Gives effect to the O'Gara Acquisition and the sale of 4,500,000 shares of common stock offered by us in this offering at an assumed offering price of \$25.14 per share.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

COMPANY OVERVIEW

We are a leading manufacturer and provider of security products, vehicle armor systems and security risk management services. Our products and services are used by military, law enforcement, security and corrections personnel throughout the world, as well as governmental agencies, multinational corporations and non-governmental organizations. Our company is organized and operated under three business segments: Armor Holdings Products; Armor Mobile Security; and ArmorGroup Services.

MATERIAL CHANGES

On August 22, 2001, we, through a wholly owned subsidiary, acquired all of the issued and outstanding capital stock of O'Gara-Hess & Eisenhardt Armoring Company, The O'Gara Company, and O'Gara Security Associates, Inc. The acquired companies constitute the majority of what was formerly known as the Security Products and Services Group of The Kroll-O'Gara Company. The primary business of the acquired companies is now conducted through our new Armor Mobile Security Division. The information contained in this Management's Discussion and Analysis of Financial Condition and Results of Operations does not include any information regarding the Armor Mobile Security Division. Accordingly, our future operations and performance is likely to differ significantly from the discussion below, as a result of, among other things, this recent acquisition.

We have consummated 21 acquisitions since January 1998. A comparison of our period to period financial performance from January 1, 1998 through June 30, 2001 may be significantly affected by these acquisitions, including, but not limited to, the O'Gara Acquisition and the Safariland Ltd., Inc. ("Safariland") acquisition.

RESTRUCTURING AND RELATED CHARGES

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

In January 2001, our ArmorGroup Services Division approved a restructuring plan to close its U.S. investigative businesses, realign the division's organization, eliminate excess facilities and reduce overhead in its businesses worldwide. In connection with this restructuring plan, the division performed a review of its long-lived assets to identify potential impairments. Pursuant to this restructuring plan, ArmorGroup:

- o eliminated 26 employees, primarily from its investigative businesses;
- o eliminated an additional 24 employees, from its security consulting business;
- o incurred lease and other exit costs as a result of the closure of its investigative businesses; and
- o wrote-down the value of both tangible and intangible assets as a result of the impairment review.

We completed most of the significant actions related to this restructuring by June 30, 2001.

As a result of the restructuring plan, we recorded a pre-tax charge of \$10 million. We recorded \$8.7 million in the first quarter and \$1.3 million in the second quarter of fiscal 2001. The pre-tax charge in the six month period ending June 30, 2001 included approximately:

- o \$1,375,000 in employee termination and related costs including severance, relocation, medical and other benefits;
- o \$956,000 in lease termination and other exit costs;
- o \$291,000 in impairment charges related to tangible assets; and
- o \$7,337,000 in impairment charges related to intangible assets, primarily goodwill.

18

The earnings per share effect of these charges for the six months ended June 30, 2001 was \$0.31 per share. As of June 30, 2001, we had a remaining liability of \$1,297,000 relating to employee termination costs and lease termination and other exit costs. This liability has been classified in accounts payable, accrued expenses and other current liabilities on the consolidated balance sheet and will be funded through cash provided by operating activities and our credit facility.

ACQUISITIONS

We have pursued a strategy of growth through acquisition of businesses and assets that complement our existing operations. We use several criteria to evaluate prospective acquisitions including whether the business to be acquired:

- o broadens the scope of the services or products we offer or the geographic areas we serve;
- o offers attractive margins;
- o is accretive to earnings;
- o offers the opportunity to enhance profitability by improving the

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

efficiency of our operations;

- o is managed in a manner consistent with our existing businesses; and
- o complements our portfolio of existing businesses by increasing our ability to manage our customers' needs.

Since January 1, 1998, our Armor Holdings Products Division completed seven acquisitions with approximate combined annual revenues of \$74.0 million at the time of their acquisition, our Armor Mobile Security Division completed the O'Gara Acquisition, with approximate annual revenues of \$112.4 million (\$6.1 million of which relates to businesses integrated into our ArmorGroup Services Division) at the time of its acquisition, and our ArmorGroup Services Division completed thirteen acquisitions with approximate combined annual revenues of \$28.7 million at the time of their acquisition. All of these acquisitions were accounted for as purchases and, accordingly, the results of their operations are included only for the period after acquisitions.

RESULTS OF OPERATIONS

The following table sets forth selected statement of operations data as a percentage of total revenues for the periods indicated:

Revenue Recognition. We record product revenues at gross amounts to be received including amounts to be paid to agents as commissions, at the time the product is shipped to the distributor. Although product returns are permitted in certain circumstances within 30 days from the date of purchase, these returns have historically been minimal and usually consist of minor modifications to the ordered product. We record services revenue as the service is provided on a contract by contract basis.

SIX MONTHS ENDED JUNE 30, 2001 COMPARED TO SIX MONTHS ENDED JUNE 30, 2000

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

Products revenues. Armor Holdings Products Division revenues increased by \$0.3 million, or 0.4%, to \$65.8 million in the six months ended June 30, 2001 compared to \$65.5 million in the six months ended June 30, 2000. The slight increase was due to acquisitions completed in November 2000, which offset declines in the first quarter from shipping delays related to a large international order and postponed orders due to a delay in the release of funds from the Bulletproof Vest Partnership Act.

Services revenues. ArmorGroup Services Division revenues increased by \$7.3 million, or 18.3%, to \$47.1 million in the six months ended June 30, 2001 compared to \$39.8 million in the six months ended June 30, 2000. This increase was due to 10.1% internal growth due to significant increases in our security consulting business of 27%, tempered by a decline of 37.7% in the investigative business.

Cost of sales. Cost of sales increased by \$4.2 million, or 6.5%, to \$69.7 million in the six months ended June 30, 2001 compared to \$65.5 million in the six months ended June 30, 2000. This increase was primarily due to increased revenues in the services business in the six months ended June 30, 2001 compared to the six months ended June 30, 2000. As a percentage of total revenues, cost of sales decreased to 61.7% of total revenues for the six months ended June 30, 2001 from 62.2% for the six months ended June 30, 2000 due to a change in the mix of products and services sold.

Operating expenses. Operating expenses increased by \$4.2 million, or 18.1%, to \$27.1 million (24.0% of total revenues) in the six months ended June 30, 2001 compared to \$23.0 million (21.8% of total revenues) in the six months ended June 30, 2000. This increase was primarily due to additional operating expenses in newly acquired companies.

Amortization. Amortization expense increased by \$296,000, or 20%, to \$1.8 million in the six months ended June 30, 2001 compared to \$1.5 million in the six months ended June 30, 2000. This increase was primarily due to additional amortization of intangible assets acquired as a result of the acquisitions completed in June and November 2000, which are not fully reflected in the six month period ended June 30, 2000.

Equity in earnings of investee. The equity in earnings in the prior year six months ended June 30, 2000, relates to our 20% investment in Jardine Securicor Gurkha Services Limited ("JSGS"), that we sold during the six month period ended June 30, 2000.

Restructuring and related charges. As a result of the restructuring plan, we recorded a pre-tax charge of \$10 million in the six month period ending June 30, 2001. This pre-tax charge included approximately (i) \$1,375,000 in employee termination and related costs including severance, relocation, medical and other benefits, (ii) \$956,000 in lease termination and other exit costs, (iii) \$291,000 in impairment charges related to tangible assets, and (iv) \$7,337,000 in impairment charges related to intangible assets, primarily goodwill.

Integration and other non-recurring charges. In the six month period ended June 30, 2001, we incurred \$836,000 in expenses and costs associated with the integration of our recent acquisitions. We incurred \$1,456,000 in such fees in the six months ended June 30, 2000.

Operating income. The operating income was \$3.5 million in the six months ended June 30, 2001, after a \$10.0 million restructuring charge compared to operating income of \$14.1 million in the six months ended June 30, 2000.

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

Interest expense, net. Net interest expense increased by 158.4%, to \$1,514,000 in the six months ended June 30, 2001 compared to \$586,000 in the six months ended June 30, 2000. This increase was the result of increased borrowings primarily due to acquisitions funded with long-term debt. Interest expense includes interest on and amortization of the fees associated with our credit facility, and the amortization of the discount on certain liabilities acquired as part of the Safariland acquisition.

Other income, net. Other income, net was \$227,000 in the six months ended June 30, 2001 compared to \$1,888,000 for the six months ended June 30, 2000. This other income, net in the prior year six month period resulted from the sale of our minority investment in JSGS.

Income before provision for income taxes. The income before provision for income taxes was \$2.3 million in the six months ended June 30, 2001, compared to income of \$15.4 million in the six months ended June 30, 2000, due to the factors discussed above.

Provision for income taxes. The provision for income taxes decreased by \$4.4 million, to an expense of \$1.3 million in the six months ended June 30, 2001 compared to an expense of \$5.7 million in the six months ended June 30, 2000. The effective tax rate for the six months ended June 30, 2001 was an expense of 59.8% compared to an expense of 37.4% for the six months ended June 30, 2000. The higher than normal effective tax rate was due to the impact of non-deductible goodwill amortization.

Net income. Net income was \$902,000, in the six months ended June 30, 2001 after a \$10.0 million restructuring charge, compared to net income of \$9.6 million for the six months ended June 30, 2000, which included \$1.9 million of non-recurring gain from the sale of our investment in JSGS. The decrease was primarily due to the factors discussed above.

FISCAL YEAR ENDED DECEMBER 31, 2000 COMPARED TO FISCAL YEAR ENDED DECEMBER 31, 1999

Product revenues. Product revenues increased by \$38.6 million, or 40.0%, to \$135.3 million for the year ended December 31, 2000 ("Fiscal 2000") compared to \$96.7 million for the year ended December 31, 1999 ("Fiscal 1999"). This increase was primarily due to strong internal growth, including year over year comparisons of businesses acquired during the previous year, of 20.4% as well as the inclusion of full year results for Safariland and other 1999 acquisitions, and additional acquisitions completed in Fiscal 2000. All of these acquisitions were accounted for as purchases and accordingly the results of their operations are included only for the period after acquisition.

Service revenues. Service revenues increased by \$25.7 million, or 42.8%, to \$85.6 million in Fiscal 2000 compared to \$60.0 million in Fiscal 1999. This increase was primarily due to strong internal growth, including year over year comparisons of security businesses acquired during the previous year, of 23.6% as well as the inclusion of full year results for Fiscal 1999 acquisitions, and the additional Fiscal 2000 acquisitions. All of these acquisitions were accounted for as purchases and accordingly the results of their operations are included only for the period after acquisition.

Cost of sales. Cost of sales increased by \$43.1 million, or 45.6%, to \$137.5 million in Fiscal 2000 compared to \$94.4 million in Fiscal 1999. This increase was primarily due to increased revenues in Fiscal 2000 compared to Fiscal 1999. As a percentage of total revenues, cost of sales increased to 62.2% in Fiscal 2000 from 60.3% in Fiscal 1999.

Operating expenses. Operating expenses increased by \$13.3 million, or 36.0%, to \$50.3 million in Fiscal 2000 compared to \$37.0 million in Fiscal

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

1999. This increase was primarily due to the increased revenues from our Armor Holdings Products and ArmorGroup Services Divisions as well as the acquisitions which were completed in 2000. As a percentage of sales, operating expenses decreased to 22.8% of sales in Fiscal 2000 compared to 23.6% in Fiscal 1999.

Amortization. Amortization expense increased by \$1.0 million, or 39.2%, to \$3.4 million in Fiscal 2000 compared to \$2.5 million in Fiscal 1999. This increase was primarily due to additional amortization of intangible assets acquired as a result of the acquisitions completed during Fiscal 2000, as well as a full year of amortization relating to the 1999 acquisitions.

21

Equity in earnings of investee. Equity in earnings of investee decreased by \$92,000, or 51.4%, to \$87,000 in Fiscal 2000 compared to \$179,000 in Fiscal 1999. The equity in earnings of investee was comprised of a 20% investment in JSGS that we sold in Fiscal 2000 (see Other Income).

Integration and other non-recurring charges. Integration and other non-recurring charges increased by \$0.7 million, or 28.1% to \$3.3 million in Fiscal 2000 compared to \$2.6 million in Fiscal 1999 and are related to the integration of the acquired companies. These costs include relocation expenses for equipment and employees, severance costs as well as charges for integrating our sales and marketing efforts.

Operating income. Operating income increased by \$6.1 million, or 29.8%, to \$26.5 million compared to \$20.4 million in Fiscal 1999 due to the reasons discussed above.

Interest (income) expense, net. Net interest expense was \$1.9 million in Fiscal 2000 compared to net interest expense of \$17,000 in Fiscal 1999. The increase was primarily due to interest on debt incurred to fund acquisitions and make purchases under our stock repurchase plan.

Other income, net. Net other income was \$1.8 million in Fiscal 2000 compared to \$0.8 million in Fiscal 1999. The increase was primarily due to the gain of approximately \$1.7 million recognized on the sale of our investment in JSGS in Fiscal 2000.

Provision for income taxes. The provision for income taxes increased by \$1.3 million, or 16.7%, to \$9.3 million in Fiscal 2000, compared to \$8.0 million in Fiscal 1999. The provision was based on our U.S. federal and state statutory income tax rates of approximately 37% for our U.S.-based companies and a 10.6% blended effective tax rate for foreign operations. The effective tax rate for our foreign operations is not necessarily indicative of expected future rates due to the changing concentration and mix of income in the various countries in which we operate. The effective tax rate for 2000 and 1999 was 35.4% and 37.8%, respectively. The decrease in our effective tax rate was a result of the increased amount of income earned in jurisdictions whose statutory tax rates were below those in the United States, as a percentage of operating income.

Net income. Net income increased approximately \$3.9 million or 29.2%, to \$17.0 million in Fiscal 2000 compared to \$13.2 million in Fiscal 1999. This increase was primarily due to the combination of acquisitions, internal growth, and to the factors discussed above.

FISCAL YEAR ENDED DECEMBER 31, 1999 COMPARED TO FISCAL YEAR ENDED DECEMBER 31, 1998

Product revenues. Product revenues increased by \$51.1 million, or 111.9%,

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

to \$96.7 million for Fiscal 1999 compared to \$45.6 million for the year ended December 31, 1998 ("Fiscal 1998"). This increase was primarily due to the acquisitions completed in 1998 and the acquisition of Safariland in 1999, as well as strong internal growth. These acquisitions were accounted for as purchases and the results of their operations are recorded only for the period we owned them.

Service revenues. Service revenues increased by \$8.4 million, or 16.3%, to \$60.0 million in Fiscal 1999 compared to \$51.6 million in Fiscal 1998. This increase was primarily due to the acquisitions completed in 1998 and 1999. These acquisitions were accounted for as purchases and the results of their operations are recorded only for the period we owned them.

Cost of sales. Cost of sales increased by \$32.8 million, or 53.2%, to \$94.4 million in Fiscal 1999 compared to \$61.6 million in Fiscal 1998. This increase was primarily due to increased revenues in Fiscal 1999 compared to Fiscal 1998. As a percentage of total revenues, cost of sales decreased to 60.2% in Fiscal 1999 from 63.4% in Fiscal 1998 reflecting a greater proportion of total revenue generated by our Armor Holdings Products Division in Fiscal 1999, which has higher gross margins than our ArmorGroup Services Division. Both divisions improved their gross margins in 1999 by lowering costs through greater efficiencies and by concentrating on higher margin investigative business in the Services Division.

Operating expenses. Operating expenses increased by \$15.1 million, or 68.9%, to \$37.0 million (23.6% of total revenues) in Fiscal 1999 compared to \$21.9 million (22.5% of total revenues) in Fiscal

22

1998. This increase was primarily due to the increased revenues from our Armor Holdings Products Division which has higher sales and marketing expenses than the revenues from the ArmorGroup Services Division, and the acquisitions we completed in 1999.

Amortization. Amortization expense increased by \$1.1 million, or 82.9%, to \$2.5 million in Fiscal 1999 compared to \$1.3 million in Fiscal 1998. This increase was primarily due to additional amortization of intangible assets acquired as a result of the Safariland acquisition and other acquisitions that we completed during Fiscal 1999, which would not have been reflected in Fiscal 1998.

Equity in earnings of investee. Equity in earnings of investee decreased by \$534,000, or 74.9%, to \$179,000 in Fiscal 1999 compared to \$713,000 in Fiscal 1998. The decrease in earnings was primarily due to losses incurred by JSGS on its operations in India. This office was subsequently closed.

Integration and other non-recurring charges. Integration and other non-recurring charges increased by \$2.6 million to \$2.6 million in Fiscal 1999. These charges related to the integration of the acquired companies. These charges include relocation expenses for equipment and employees, severance costs as well as charges for integrating our sales and marketing efforts. We did not incur such charges in Fiscal 1998.

Operating income. Operating income increased by \$7.4 million, or 56.7%, to \$20.4 million in Fiscal 1999 compared to \$13.0 million in Fiscal 1998 primarily due to the factors discussed above.

Interest (income) expense, net. Net interest expense was \$17,000 in Fiscal 1999 compared to net interest income of \$625,000 in Fiscal 1998. This increase was primarily due to amortization of fees associated with the \$60 million bank

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

credit agreement completed in February, 1999, as well as interest on debt acquired as part of the purchased companies.

Other income, net. Net other income increased by \$788,000 to \$816,000 in Fiscal 1999 compared to \$28,000 in Fiscal 1998 and is primarily due to the gain on the sale of stock in MACE Security International. We acquired this stock through the exercise of warrants we received as part of an acquisition of certain assets in July of 1998.

Provision for income taxes. Provision for income taxes increased by \$2.9 million, or 57.6%, in Fiscal 1999, to \$8.0 million, compared to \$5.1 million in Fiscal 1998. The provision was based on our U.S. federal and state statutory income tax rates of approximately 39% for our U.S.-based companies and a 37% blended effective tax rate for foreign operations. The effective tax rate for our foreign operations is not necessarily indicative of continued tax rates due to a continually changing concentration of income in each country in which we operate. The increase in our effective tax rate is a result of the increased amortization of the goodwill generated by the Safariland and other acquisitions that is not tax deductible.

Net income. Net income increased approximately \$4.6 million or 53.5%, to \$13.2 million in Fiscal 1999 compared to \$8.6 million in Fiscal 1998. This increase was primarily due to a combination of the acquisitions made during the year being successfully integrated, and to the factors discussed above.

LIQUIDITY AND CAPITAL RESOURCES

On August 22, 2001, we entered into an Amended and Restated Credit Agreement (the "Credit Agreement") with Bank of America, Canadian Imperial Bank of Commerce, First Union National Bank, Suntrust Bank, Republic Bank, Keybank National Association, and ING (U.S.) Capital LLC. Pursuant to the Credit Agreement, the lenders established a \$120,000,000 line of credit for our benefit expiring on February 12, 2004. The Credit Agreement, among other things, provides for (i) total aggregate maximum borrowings of \$120,000,000 and (ii) the capability for borrowings in foreign currencies. All borrowings under the Credit Agreement bear interest at either (i) a base rate, plus an applicable margin ranging from .000% to .375%, depending on certain conditions, (ii) a eurodollar rate, plus an applicable margin ranging from 1.125% to 1.875%, depending on certain conditions, or (iii) with respect to foreign currency loans, a fronted offshore currency rate, plus an applicable margin ranging from 1.125% to 1.875%, depending on certain conditions. Outstanding borrowings under the Credit Agreement currently bear interest at a variable rate of 5.48% per annum. In addition, the

23

Credit Agreement provides that Bank of America will make swing-line loans to us of up to \$5,000,000 for working capital purposes only and will issue letters of credit on our behalf of up to \$20,000,000. As of October 26, 2001, we had approximately \$85.0 million outstanding and approximately \$35.0 million available under the Credit Agreement. All indebtedness under the Credit Agreement will mature on February 12, 2004. We expect to use approximately \$85.0 million of our net proceeds from this offering to repay indebtedness under our credit facility. Following such repayment, \$120,000,000 will be available under the Credit Agreement. We also have approximately \$6.9 million in other long-term debt, net of current portion, consisting primarily of \$4.2 million in industrial revenue and industrial development bonds.

In October 1999, our Board of Directors approved a stock repurchase program that is effective through December 31, 2001, and that allows us to repurchase up to 10% of our outstanding shares. Under this program, we expended

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

approximately \$9.8 million in 1999 and \$12.6 million in 2000 to repurchase approximately 1.8 million shares of our common stock. We have the ability to repurchase up to approximately 629,000 additional shares under this program. We expect to continue our policy of repurchasing our common stock at opportune intervals.

As of December 31, 2000, we had working capital of \$68.1 million. As of June 30, 2001, we had working capital of \$86.9 million.

We anticipate that the net proceeds from this offering, cash generated from operations and borrowings under the Credit Agreement will enable us to meet our liquidity, working capital and capital expenditure requirements during the next 12 months. We may, however, require additional financing to pursue our strategy of growth through acquisitions. If such financing is required, there are no assurances that it will be available, or if available, that it can be obtained on terms favorable to us or on a basis that is not dilutive to our stockholders.

Our spending for Fiscal 2000 on capital expenditures was \$7.8 million, compared to \$3.4 million in Fiscal 1999. Our spending on capital expenditures for the six months ended June 30, 2001 was \$3.5 million. Such expenditures include, among other things, leasehold improvements, computer equipment and software, and manufacturing machinery and equipment.

RECENTLY ISSUED ACCOUNTING STANDARDS

In October 2001, the FASB issued Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"). SFAS 144 establishes a "primary-asset" approach to determine the cash flow estimation period for a group of assets and liabilities that represents the unit of accounting for a long-lived asset to be held and used. SFAS 144 requires that a long-lived asset to be (1) abandoned, (2) exchanged for a similar productive asset, or (3) distributed to owners in a spin-off be considered held and used until it is abandoned, exchanged, or distributed. SFAS 144 requires (1) that spin-offs and exchanges of similar productive assets to be recorded at the lower of carrying value or fair value, and that such assets be classified as held and used until disposed of and (2) that any impairment loss resulting from a spin-off or exchange of similar productive assets be recognized when the asset is disposed of. The provisions of SFAS 144 will be come effective for us on January 1, 2002. The effects of adopting this standard have not been determined.

In July 2001, the FASB issued Statement of Financial Accounting Standards No. 141, "Business Combinations" ("SFAS 141"), and Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 141 requires that all business combinations be accounted for under a single method -- the purchase method. Use of the pooling-of-interest method is no longer permitted. SFAS 141 requires that the purchase method be used for all business combinations initiated after June 30, 2001. SFAS 142 requires, among other things, that goodwill no longer be amortized to earnings, but instead reviewed for impairment annually. Under SFAS 142, the amortization of goodwill ceases upon adoption of the statement, which will become effective for us on

January 1, 2002. We have historically amortized our goodwill over its estimated useful life. Goodwill and intangible assets acquired after June 30, 2001, will be subject immediately to the nonamortization provisions of this statement. The effects of adopting this standard have not been determined.

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

We adopted Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133"), as amended by Statement of Financial Accounting Standards No. 137 and 138, on January 1, 2001. The Statement establishes accounting and reporting standards requiring that every derivative instrument (including certain derivative instruments embedded in other contracts) be recorded in the balance sheet as either an asset or liability measured at its fair value. SFAS 133 requires that changes in the derivative's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. We do not currently have derivative instruments and, accordingly, SFAS 133, as amended, is not expected to impact our financial position, results of operations or cash flows.

In March 2000, the FASB issued FASB Interpretation No. 44 ("FIN 44"), "Accounting for Certain Transactions Involving Stock Compensation -- an Interpretation of APB Opinion No. 25." FIN 44 clarifies the application of APB Opinion No. 25 and, among other issues, clarifies the following: the definition of an employee for purposes of applying APB Opinion No. 25; the criteria for determining whether a plan qualifies as a noncompensatory plan; the accounting consequence of various modifications to the terms of previously fixed stock options or awards; and the accounting for an exchange of stock compensation awards in a business combination. The adoption of FIN 44 did not have a material impact on our results of operations, financial position or cash flows.

RECENTLY ISSUED STAFF ACCOUNTING BULLETIN

In December 1999, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 101 ("SAB 101"). SAB 101 provides guidance on the recognition, presentation and disclosure of revenue in the financial statements, and is effective in the fourth quarter of 2000. SAB 101 did not have a material impact on our results of operations, financial position or cash flows.

BUSINESS

We are a leading manufacturer and provider of security products, vehicle armor systems and security risk management services. Our products and services are used by military, law enforcement, security and corrections personnel throughout the world, as well as governmental agencies, multinational corporations and non-governmental organizations. Our company is organized and operated under three business segments: Armor Holdings Products; Armor Mobile Security; and ArmorGroup Services.

Armor Holdings Products. Our Armor Holdings Products Division manufactures and sells a broad range of high quality branded law enforcement equipment, such as tactical armor, hard armor, duty gear, less-lethal munitions, anti-riot products, police batons, forensic products and weapon maintenance products. Our products are marketed under brand names that are well-known and respected in the military and law enforcement communities such as American Body Armor, Safariland, Defense Technology, Federal Laboratories, MACE (Registered Trademark), PROTECH, NIK (Registered Trademark) Public Safety, Break-Free, Monadnock Lifetime Products and Lightning Powder. We sell our manufactured products primarily to law enforcement agencies through a worldwide network of over 500 distributors and sales agents including approximately 350 in the United States. Our extensive distribution capabilities and commitment to customer service and training have enabled us to become a leading provider of security equipment to law enforcement agencies. We believe there are significant opportunities to grow our manufacturing business through the acquisition and development of new product lines, expansion into new territories and further development of sales to specialized government and military agencies. In addition, we believe that consistent demand for our premium products at attractive margins will continue because our products are critical to the safety and effectiveness of our customers. We believe that the

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

September 11, 2001 terrorist attacks on the United States will lead to an increase in law enforcement professionals. These professionals will need to be properly equipped.

25

As a result, we believe that our product line could exhibit higher than previously expected and sustainable demand over the next three to five years.

Armor Mobile Security. Our Armor Mobile Security Division manufactures and installs ballistic and blast protected armoring systems for military vehicles, commercial vehicles, military aircraft and missile components. Under the brand name O'Gara-Hess & Eisenhardt, we are the sole-source provider to the U.S. military for the supply of armoring and blast protection systems for the HMMWV. We have also entered into an agreement to provide the U.S. military with certain maintenance services with respect to its HMMWVs. There is currently an installed base of approximately 2,200 HMMWVs subject to this maintenance arrangement. We expect that our maintenance services may increase if the U.S. military substantially increases its HMMWV purchases or substantially increases its use of the current installed base. Additionally, the Armor Mobile Security Division has been subcontracted to develop a ballistically armored and sealed truck cab for HIMARS, a program currently in development for the U.S. Army, and also markets armor sub-systems for other tactical wheeled vehicles. We armor a variety of commercial vehicles, including limousines, sedans, sport utility vehicles, commercial trucks and cash-in-transit vehicles, to protect against varying degrees of ballistic and blast threats. We believe that increased demand for Up-Armored HMMWVs and other armored vehicles is likely following the September 11, 2001 terrorist attacks. We believe that we have adequate capacity to accommodate an expected increase in orders.

ArmorGroup Services. Our ArmorGroup Services Division provides a broad range of sophisticated security risk management solutions to multinational corporations in diverse industries such as natural resources, financial services and consumer products, and to governmental and non-governmental agencies such as the U.S. Departments of State and Defense, the United Nations and CARE International. Our clients typically have personnel and other investments in unstable and often violent areas of the world. Through our offices on five continents, we provide our multinational clients with a diversified portfolio of security solutions to assist them in mitigating risks in their operations around the world. Our highly trained, multilingual and experienced security personnel work closely with our clients to create and implement solutions to complex security problems. These services include security planning, advice and management, security systems integration, intellectual property, asset protection, due diligence investigations and training programs in counterintelligence, countersurveillance, advanced driving techniques and ballistics. We believe that many of our security services, while often representing a small portion of our clients' overall cost of doing business, are critical to our clients' success. We believe that this creates a consistent demand for our premium services at attractive margins. The September 11, 2001 terrorist attacks on the United States has heightened security concerns at corporations and governmental and non-governmental organizations. We believe that our global infrastructure and experience will allow us to aggressively respond to increased concerns and to provide our services as required.

INDUSTRY OVERVIEW / MARKET OPPORTUNITY

We participate in the defense and global security products and services industries through the manufacture of security products marketed to military, law enforcement, security and corrections personnel, by providing specialized security services to multinational corporations and governmental agencies and

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

by manufacturing and installing ballistic and blast protected armoring systems for military vehicles, commercial vehicles, military aircraft, and missile components. Increasingly, governments, militaries, businesses, and individuals have recognized the need for our products and services to protect them from the risks associated with terrorism, physical attacks, threats of violence, white-collar crime and fraud.

The U.S. has been the target of several deadly terrorist attacks directed towards its citizens and facilities around the world. In 1998, U.S. embassies in Nairobi, Kenya and Dar Es Salaam, Tanzania were bombed. In 2000, the U.S. Navy destroyer, USS Cole, was bombed in the Yemeni port of Aden. Most recent were the terrorist attacks on September 11, 2001 against the World Trade Center in New York and the Pentagon in Washington, D.C. The continued U.S. military response and additional security measures related to the terrorist threat will, we believe, require spending at federal, state, and

26

local agencies, corporations and U.S. diplomatic facilities around the world. Institutions, including the U.S. government, DoD, government agencies and multinational corporations are redefining strategies to protect against and combat terrorism.

The terrorist attacks on September 11, 2001 have emphasized the importance of a strong national defense both abroad and domestically. Prior to September 11, 2001, as part of President George W. Bush's stated commitment to strengthen national defense, the Bush Administration submitted to Congress a \$328 billion fiscal 2002 defense budget that reflected an 11.0% increase over the fiscal 2001 defense budget submitted by the Clinton Administration, representing the first double digit increase since Operation Desert Storm. Since September 11, 2001, Congress has passed a \$40 billion supplemental appropriation, approximately half of which we expect to be spent on defense, and established the Office of Homeland Security to be headed by the former Governor of Pennsylvania, Thomas J. Ridge. On September 30, 2001, the DoD released its Quadrennial Defense Review Report. The report emphasized the establishment of a new strategy for America's defense and highlighted the need to enhance critical domestic defense infrastructure that may require changes in force structure and organization. This new force structure may result in an increase in U.S. military personnel, law enforcement personnel, airport security personnel, and federal sky marshals who would require law enforcement products and training. Many U.S. and Western multinational corporations, commercial organizations, and governmental and non-governmental organizations, especially airports, must also place increased attention on security issues that we believe will require security consulting services. It is also possible that the military will require additional equipment and training in order to fight the war on terrorism on several fronts simultaneously.

Law Enforcement Security Products Market. In response to an increased emphasis on safety and protection, the number of active police officers has increased significantly over the past several years. By 1999 there were approximately 933,000 law enforcement personnel in the U.S. We expect the likely increase in law enforcement personnel due to the September 11, 2001 terrorist attacks to lead to an increase in demand for our products. We believe that the historical rise in the prison population has spurred demand from institutional corrections facilities for law enforcement security products.

Vehicle Armor Market. Recent terrorist activities may accelerate the need for armoring light military vehicles that will be utilized in hostile environments in order to carry out mission objectives required by the U.S. military's war on terrorism. As multinational corporations seek to implement more comprehensive security programs, one area of focus will be executive

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

protection. We believe that the use of armored commercial vehicles in high freight areas will increase as multinational corporations expand their operations.

Specialized Security Services Market. Corporations are increasingly contracting experienced private companies to handle their security services. Industry studies demonstrate that the worldwide security services market has grown at a rate of 8.0% annually from 1995 to 2000. Total revenues for the worldwide market have reached \$61.8 billion and is expected to continue to grow to \$87.9 billion by 2005. Management believes that demand by multinational corporations and governmental agencies operating in developing nations for security services such as risk assessment, crisis management, guard force management, security force organization and executive protection is likely to increase as these entities continue to establish operations and manufacturing facilities in developed and developing countries. In addition, there are risks related to white-collar crime and fraud. According to the American Society for Industrial Security, damages from intellectual property thefts result in estimated losses of \$250 billion annually for U.S.-based companies. Fraud costs U.S. organizations over \$400 billion annually according to a recent estimate by the Association of Certified Fraud Examiners. Demand for corporate investigative services continues to grow as corporations react to the need to protect their assets against the growing threat of fraud, counterfeiting and piracy of intellectual property.

BUSINESS STRENGTHS

We believe that the following key strengths are critical to our success as a leading provider of security products, vehicle armor systems and security risk management services.

27

Broad Portfolio of Products and Services. We offer a broad portfolio of security products, armor systems and security services enabling us to provide comprehensive solutions to our customers' security needs. We strive to enhance our position as a single source provider of global security services to our clients and believe that our worldwide infrastructure enables us to follow our governmental and multinational corporate clients to new geographical markets as well as cross-sell additional services to these customers. Similarly, our extensive product distribution network allows us to provide our customers a broad array of complementary manufactured law enforcement equipment. Through strategic acquisitions and internal growth, we expect to continue to expand our product and service offerings and further diversify our revenue base.

Strong Brands with Leading Market Positions. Product lines are marketed under brand names widely recognized in the military and law enforcement communities, such as American Body Armor, NIK (Registered Trademark) , Defense Technology, Federal Laboratories, MACE (Registered Trademark) , Safariland, O'Gara-Hess & Eisenhardt, and others. Due to the life protecting nature of the products in the markets that we serve, end users prefer to purchase premium products with brand names that have solid reputations for quality and that provide high levels of performance. The strength of our brand names has contributed to our leading market positions in several of the product categories in which we compete.

Strong Client Base and Extensive Distribution Network. Armor Holdings Products has a broad, full service network of approximately 350 domestic distributors and 150 international agents to sell our portfolio of manufactured law enforcement equipment. The Armor Mobile Security Division's client base includes governmental and private buyers and employs a global sales force to market its commercial products. ArmorGroup Services has a global footprint, and

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

currently operates in 38 countries that enables it to serve a client base representing governmental and non-governmental agencies and approximately 500 multinational corporations worldwide. The quality and scope of our products and the strength of our brand names has enabled us to establish one of the largest distribution networks in the industry and engendered the loyalty of our distributors. We work closely with our distributors and agents to respond to and anticipate the needs of end users, which we believe allows us to maintain our market leadership position. We believe that the diversity of our clients' end markets, the continued globalization of our clients and the strength of our distribution relationships minimize our dependence on any particular product, market, or customer.

Proven Track Record of Identifying, Completing and Integrating Acquisitions. Since January 1996, we have completed 26 acquisitions. We employ a disciplined approach to evaluating acquisition opportunities and integrating the operations of acquired businesses. We believe that these acquisitions, in the aggregate, have strengthened our market position, leveraged our distribution network and expanded our product and service offerings. Further, we believe that our performance based compensation plan enables us to retain strong managers of acquired businesses and provides for timely and efficient integration of acquired operations.

Sole-Source Provider of Up-Armored HMMWVs. Through our Armor Mobile Security Division, we are the sole-source provider of Up-Armored HMMWVs to the U.S. military, as well as the armoring of the HIMARS cab, a program currently in development for the U.S. Army. Contracted by the DoD, the Armor Mobile Security Division (then part of a division of The Kroll-O'Gara Company) delivered 377 HMMWVs in 2000, and expects to deliver approximately 500 in 2001. We believe that deliveries for 2002 could be as high as 700 to 1,000 units, based on recent inquiries from the DoD. This growth is driven by an increased defense budget for procurement, heightened demand due to recent military deployments and activation of U.S. Reserve and National Guard units, and the potential of a long term, multi-front offensive against terrorism. Current U.S. Army requirements call for approximately 7,500 Up-Armored HMMWVs that we expect will be part of the military's mechanized forces through approximately 2030. Aftermarket sales of spare parts and services/maintenance are also extremely attractive, as we are the incumbent provider of the armoring on an installed base of over 2,200 Up-Armored HMMWVs. We believe that our strength in this product segment is significant and should drive future growth.

GROWTH STRATEGY

We expect the demand for security products, vehicle armor systems, and security risk management services will continue to grow, especially given the expected impact of the September 11,

28

2001 terrorist attacks on the United States. We plan to address this growth by offering a comprehensive array of premium security risk management products and services. We intend to enhance our leadership position through strategic acquisitions by creating a broad portfolio of products and services to satisfy all of our customers' increasingly complex security needs. By establishing a critical mass of products and services and a broad base of customers, we have built in the capacity to perform multiple aspects of our clients' threat analyses and security provisions on a comprehensive basis. We plan to continue to execute this growth strategy primarily through internal expansion of our existing businesses and through strategic acquisitions of businesses offering complementary services, markets, and customer bases. The following elements define our growth strategy:

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

Capitalize on Exposure to Military Programs. We expect an increase in volume for our current major military programs. The events of September 11, 2001 are expected to result in additional funds being allocated to the DoD. We expect several of our military programs to be positively affected. These include the Concealable Body Armor Program through which we supply concealable body armor to the U.S. Army and the Special operation forces Personal Equipment Advance Requirement ("SPEAR") program, which supplies special ballistic vests and load bearing equipment to U.S. Special Forces. We also expect an increase in the United States Tank Automotive Armored Command's HMMWV delivery requirements. We are the sole-source provider to the U.S. military for the supply of armor and blast protection to the HMMWVs. We are well positioned on these programs and have a proven track record and a strong relationship with the U.S. military. Additionally, we expect to participate in other existing and future military programs that require our unique products and services.

Expand Distribution Network and Product Offerings. We will continue to leverage our distribution network by expanding our range of branded law enforcement equipment through the acquisition of niche defensive security products manufacturers and by investing in the development of new and enhanced products which complement our existing offerings. We believe that a broader product line will enable us to strengthen our relationship with our distributors and add additional quality distributors, and enhance our brand appeal with military, law enforcement and other end users.

Capitalize on Increased Homeland Security Requirements. We are well positioned to provide products, services and specialized training that are essential to establishing a sustainable Homeland Security infrastructure. Due to the September 11, 2001 terrorist attacks on the United States, the U.S. government has created the Office of Homeland Security. Although this Office's mandate is still being finalized, a Homeland Security infrastructure will be developed. We believe that our three divisions are well equipped and prepared to help build this infrastructure. Our Armor Holdings Products Division is positioned to provide the products that additional military, law enforcement, security and corrections personnel require to combat terrorism and threats to our homeland. Our Armor Mobile Security Division is prepared for an expected increase in armored commercial vehicles for use by federal, state and local government agencies. The services provided by our ArmorGroup Services Division are expected to be more sought after as U.S. government agencies and corporations re-evaluate their security programs. For example, we expect to leverage our global experience and reputation into domestic airport security training.

Increase Global Position in High Fright Areas. We will service the heightened security concerns of governments, agencies and corporations in existing high fright areas. We will also leverage our global expertise and reputation for providing security products and services in newly developing high fright areas. We target regions that have economic and political instability as well as regions with increased regulation, growth in prison populations and growing national and regional security concerns. We also grow the scope of our existing product and service offerings by servicing existing customers who expand geographically.

Broaden Service Offerings to Existing Client Base. We will broaden our existing service offerings through strategic acquisitions and develop a comprehensive range of security risk management offerings with a global network of service providers. We intend to continue to market our expanded offerings by increasing penetration of our existing client base with sales of additional services.

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

Pursue Strategic Acquisitions. The security risk management products and services industry is highly fragmented and characterized primarily by smaller, geographically restricted single product or service providers. We believe, however, that many clients in the industry would prefer to deal with a consolidated entity that can provide a broad spectrum of services and/or products in the security risk management industry with coverage of their needs across entire regions, or globally. As a result, we selectively pursue acquisitions that complement and expand our product and service offerings and provide access to new geographic markets, additional distribution channels and new client relationships.

ACQUISITIONS

We have pursued a strategy of growth by acquiring businesses and assets that complement our existing operations. We use several criteria to evaluate prospective acquisitions, including whether the business to be acquired:

- o broadens the scope of the services or products we offer or the geographic areas we serve;
- o offers attractive margins;
- o is accretive to earnings;
- o offers the opportunity to enhance profitability by improving the efficiency of our operations;
- o is managed in a manner consistent with our existing businesses; and
- o complements our portfolio of existing businesses by increasing our ability to manage our customers' needs.

We exercise a high degree of financial discipline and strictly adhere to these criteria. As a result, we do not enter into transactions that we believe would be dilutive to our earnings. Since January 1996, we have consummated 26 acquisitions.

The Armor Holdings Products Division has acquired 10 companies since 1996. The largest acquisition completed by this division was Safariland, a producer of law enforcement products such as body armor, duty gear, and automotive accessories in 1999. Safariland had approximately \$47.0 million in annual revenues at the time of acquisition. The Armor Mobile Security Division completed the O'Gara Acquisition in August 2001. The Armor Mobile Security Division provides ballistic and blast protection armoring systems and training (training was integrated into the ArmorGroup Services Division). The businesses acquired in the O'Gara Acquisition had approximately \$112.4 million (\$6.1 of which relates to businesses integrated into our ArmorGroup Services Division) in annual revenues at the time of acquisition. The ArmorGroup Services Division has acquired 15 companies since 1996. The largest acquisition occurred in 1997 when DSL Group Limited, a security risk management and consulting services firm, was acquired. DSL Group Limited had approximately \$31.0 million in annual revenues at the time of acquisition.

PRODUCTS AND SERVICES

ARMOR HOLDINGS PRODUCTS

Body Armor. We manufacture and sell a wide array of armor products under the leading brand names American Body Armor, PROTECH and Safariland that are designed to protect against bodily injury caused by bullets, knives and explosive shrapnel. Our principal armor products are ballistic resistant vests, sharp instrument penetration armor, hard armor such as anti-riot gear, shields

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

and upgrade armor plates, and bomb protective gear. Our line of ballistic protective vests provides varying levels of protection depending upon the configuration of ballistic materials and the standards (domestic or international) to which the armor is built. We primarily sell ballistic resistant vests, under the brand names Xtreme (Trade Mark) and Zero-G (Trade Mark) . Our body armor products that are manufactured in the United States are certified under guidelines established by the National Institute of Justice.

We offer two types of body armor, concealable armor and tactical armor. Concealable armor, which generally is worn beneath the user's clothing, is our basic line of body armor. These vests are

30

often sold with a shock plate, which is an insert designed to improve the protection of vital organs from sharp instrument attack and to provide enhanced blunt trauma protection. Tactical armor is worn externally and is designed to provide protection over a wider area of a user's body and defeat higher levels of ballistic threats. The vests, which are usually manufactured with hard armor ballistic plates that provide additional protection against rifle fire, are designed to afford the user maximum protection and may be purchased with enhanced protection against neck and shoulder injuries. Tactical armor is offered in a variety of styles, including tactical assault vests, tactical police jackets, floatation vests, high coverage armor and flak jackets.

Our sharp instrument penetration armor is designed primarily for use by personnel in corrections facilities and by other law enforcement employees who are primarily exposed to threats from knives and other sharp instruments. These vests are constructed with special blended fabrics, as well as flexible woven fabrics and are available in both concealable and tactical models. In addition, these vests can be combined with ballistic armor configurations to provide both ballistic and sharp instrument penetration protection.

We manufacture several hard armor products under the PROTECH brand name. PROTECH products include ballistic shields, and other personal protection accessories and armor products for helicopters, automobiles and riot control vehicles.

We also manufacture a variety of hard armor ballistic shields primarily for use in tactical clearance applications. These shields are manufactured using a variety of ballistic fibers, polyethylene ballistic materials, ballistic steel, ballistic glass or a combination of any one or more of these materials. Other hard armor products include barrier shields and blankets. These products allow tactical police officers to enter high threat environments with maximum ballistic protection.

Other specialty products that we manufacture include armored press vests, executive vests, raincoats and fireman turnout coats. These specialty products can be custom designed to provide various levels of ballistic protection. We also distribute a variety of items manufactured by others, including gas masks, helmets, goggles and face shields.

Duty Gear. We are a leading supplier of duty gear to law enforcement personnel in the United States. Uniformed police officers require a wide assortment of duty gear, which typically includes items such as belts, safety holsters, handcuff and flashlight holders and related accessories. We manufacture and sell duty gear and accessories under the widely recognized brands Safariland (Safari-Laminate (Trade Mark)) and NYLOK (Registered Trademark) (nylon). Duty gear represents a very attractive market and one in which brand appeal, safety and quality dictate demand. Replacement sales represent significant recurring demand for duty gear.

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

Less-Lethal Products. Under the Defense Technology, First Defense (Trade Mark) , Federal Laboratories, MACE (Registered Trademark) and Guardian brands, we manufacture and sell a complete line of less-lethal, anti-riot and crowd control products designed to assist law enforcement and military personnel in handling situations that do not require the use of deadly force. These products, which generally are available for use only by authorized public safety agencies, include pepper sprays, tear gas, specialty impact munitions and diversionary devices. We are also the exclusive distributor of Mine Safety Appliance Advantage 1000 and Millenium model gas masks in the United States.

Through the acquisition of the assets of the law enforcement division of Mace Security International, Inc., we acquired the exclusive license to use the MACE (Registered Trademark) brand in connection with the manufacturing and sale of MACE (Registered Trademark) aerosol sprays to law enforcement entities worldwide. We also manufacture pepper sprays containing the active ingredient Oleoresin Capsicum, a cayenne pepper extract. Our pepper spray formula is patented and carries the trademark name of First Defense (Trade Mark) . The products range from small "key-ring" and hand held units to large volume canisters for anti-riot and crowd control applications.

Our tear gases are manufactured using Orthochlorabenzalmalononitrile and Chloroacetophenone. These products are packaged in hand held or launchable grenades, both pyrotechnic and non-pyrotechnic, as well as in 37mm, 40mm and 12 gauge munitions. The munitions include barricade rounds, blast dispersions and pyrotechnic canisters. We hold a patented design covering two of our non-pyrotechnic grenades.

31

We manufacture a wide range of specialty impact munitions that can be used against either individual targets or in anti-riot and crowd control situations. These products, which range from single projectiles, such as bean bags, rubber balls, sponge rounds, wood and rubber batons, to multiple projectile products containing rubber pellets, rubber balls or foam, can be fired from standard 12 gauge shotguns, 37mm gas guns and 40mm launchers.

We also manufacture a patented and trademarked device that is used for dynamic entries by specially trained forces where it is necessary to divert the attention of individuals away from an entry area. This product, which carries the trademark name of Distraction Device (Trade Mark) , emits a loud bang and brilliant flash of light when used.

Police Batons. We manufacture police batons of wood, alloy steel, acetate, aluminum and polycarbonate products under our brand name Monadnock. Branded products include our trademarked, patent pending new Auto-Lock (Trade Mark) baton and our friction lock baton. Our batons are manufactured in a variety of lengths for different intended users including patrol officers, detectives, corrections officers and other law enforcement personnel in smaller portable units. We believe that our manufacturing specifications are the highest in the marketplace and set the standard in the industry.

Forensic Products. We assemble and market portable narcotic identification kits under the NIK (Registered Trademark) brand name that are used in the field by law enforcement personnel to identify a variety of controlled substances, including Ecstasy, cocaine, marijuana, heroin and methamphetamine. We also assemble and market evidence collection kits and evidence tape, and have the exclusive rights to distribute Flex-Cuf (Registered Trademark) disposable restraints.

We manufacture and distribute a more extensive line of evidence collection

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

equipment under our brand name Lightning Powder. These products, such as fingerprint powders, dusting brushes, and lifting tape, are used to collect latent fingerprints. Other supplies for evidence collection that we distribute include bags, tapes, stone casting equipment and high powered, distortion free magnifying glasses.

Weapon Maintenance Products. We manufacture synthetic based lubricants, cleaners and preservative compounds for military weapon maintenance, law enforcement, civilian firearms/sports equipment and industrial machinery. Our flagship weapon maintenance product, Break Free CLP (Registered Trademark) , was specifically developed to provide reliable weapon lubrication in battlefield conditions; remove firing residues, carbon deposits and other firing contaminants; repel water and dirt and prevent corrosion; and keep weapons combat ready and functional in steamy jungles, dust blown deserts, salty air of sea and coast, and cold and icy climates.

Automotive Accessories. Through our Safariland subsidiary, we manufacture and supply automotive accessories such as tire covers, seat covers, cargo organizers and grill covers to automobile manufacturers, including Toyota, Ford, Honda, Nissan, Mitsubishi, Kia and Subaru.

ARMOR MOBILE SECURITY

We provide ballistic and blast protection armoring systems for military vehicles, commercial vehicles, military aircraft, and missile components, including the following:

Military Products. We are the sole-source provider to the U.S. military for the supply of armoring and blast protection systems for the HMMWV. The HMMWV chassis is produced by AM General Corporation and shipped directly to our facility in Fairfield, Ohio where armor and blast protection components are added. The Up-Armored HMMWVs provide exterior protection against various levels of armor piercing ammunition, overhead airburst protection and underbody blast protection against anti-tank and anti-personnel mines. In addition, we install other features designed to enhance crew safety, comfort and performance, such as air conditioning, weapon turrets and mounts, door locks and shock absorbing seats. We charge \$70,000 to \$110,000 for these ballistic and blast protective systems. During 2000, the Armor Mobile Security Division (then part of a division of The Kroll-O'Gara Company) shipped 377 Up-Armored HMMWVs. We also supply engineering design and prototype services in support of the Up-Armored HMMWV Program, and supply spare parts and logistic support.

32

We are serving as a subcontractor to develop a ballistically armored and sealed truck cab for HIMARS, a program currently in development for the U.S. Army. The truck is used to fire missiles which are a part of either the Multiple Launch Rocket System or the Army Tactical Missile System.

We market armor sub-systems for other tactical wheeled vehicles, such as 2.5 ton and 5.0 ton trucks. We also produce various armor systems as a subcontractor to larger defense contractors, such as Lockheed Martin Corporation. These products include armor for containers for fuels and missile launchers and for pilot protection, and often involve the use of unique materials or methods.

Commercial Products. We armor a variety of vehicles, including limousines, sedans, sport utility vehicles, commercial trucks and cash-in-transit vehicles, to protect against varying degrees of ballistic and blast threats. The armoring process begins with the disassembly of a new base vehicle. This disassembly normally involves the removal of the interior trim, seats, doors and windows.

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

The passenger compartment then is armored with both opaque and transparent armor. Other features, such as run flat tires and non-exploding gas tanks, also may be added. Finally, the vehicle is reassembled as close to its original appearance as possible. The types of commercial products produced are described below. Our relationship with various vehicle manufacturers has been valuable in permitting us to armor certain vehicles while allowing the customer to maintain the benefits of warranties issued by the vehicle manufacturer. During 2000, the Armor Mobile Security Division (then part of a division of The Kroll-O'Gara Company) shipped approximately 1,132 commercial armored vehicles.

We produce fully armored vehicles and light armored vehicles. Fully armored vehicles, such as limousines, large sedans or sport utility vehicles, typically are armored to protect against attacks from military assault rifles such as AK-47s and M16s. These vehicles also can be blast protected by enhancing the ballistic and underbody protection with proprietary materials and installation methods that protect the occupants against a defined blast threat. Blast protected vehicles defend against threats such as pipe bombs attached to the exterior of the vehicle and nondirectional charges of 20 kg of TNT detonated approximately five meters from the vehicle. Fully armored vehicles typically sell for \$70,000 to \$200,000 exclusive of the cost of the base vehicle.

Fully armored vehicles also include Parade Cars, which are formal limousines used predominantly for official functions by a president or other head of state. These vehicles are usually customized based upon a commercially available chassis which we essentially rebuild completely. Because the threat of organized assassination attempts is greater for heads of state, these vehicles normally incorporate more advanced armor and sophisticated protection features. These features can include supplemental air and oxygen systems, air purification systems to protect against chemical or biological contamination, underbody fire suppressant systems, tear gas launchers, anti-explosive self-sealing fuel tanks, electric deadbolt door locks, gun ports and bomb scanners. Parade Cars normally sell for \$300,000 to in excess of \$1.0 million inclusive of the cost of the base vehicle.

Light armored vehicles are similar in all respects to fully armored vehicles except that substantially less total weight of armoring is added. Therefore, it is possible to armor smaller vehicles such as the Volkswagen Jetta and the General Motors Omega, as well as larger vehicles such as the Mercedes Benz S600 and the Jeep Grand Cherokee. Light armored vehicles are designed to protect against attacks from handguns, such as a 9mm or .357 Magnum. The price of a light armored vehicle ranges from \$5,000 to \$60,000 exclusive of the cost of the base vehicle.

We also produce specialty vehicles, cash-in-transit vehicles and commercial truck bodies. Specialty vehicles are custom built for a specific mission. Examples of specialty vehicles are Escort Cars, usually convertibles, and Chase Cars, usually closed top vehicles, in which security personnel ride while in a head of state motorcade. Cash-in-transit vehicles are used by banks or other businesses to transport currency and other valuables. After starting with a van or small truck, we modify the base vehicle to provide protection for the cargo and passengers from ballistic and blast threats. We also build commercial truck bodies. The truck bodies are manufactured primarily for 3.5 ton trucks and are installed on chassis produced by a variety of manufacturers.

ARMORGROUP SERVICES

Our ArmorGroup Services Division provides a broad range of sophisticated security risk management services to multinational corporations and to

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

governmental and non-governmental agencies, including the following services:

Security Planning, Advice and Management. We are a leading international provider of specialized security risk management services. We operate in high risk and hostile environments characterized by political instability, diminished law-and-order, emerging market conditions and/or significant natural resources, such as Africa, South America, Southeast Asia, Central Asia, the Balkans and Russia. The core of our service business is the creation and implementation of risk management plans and solutions to complex security problems in high risk areas through detailed and targeted analysis of potential threats to security, assistance in the secure design of facilities, the provision of highly qualified specialists with extensive international experience in practical security applications and on-going training of security personnel and client personnel with respect to preventive security measures. We also provide post-conflict support and services, including specialized mine clearance, to humanitarian organizations, including agencies of the United Nations. We provide a full range of services including surveys, technical advice, explosive ordinance disposal and mine awareness training for local communities.

We offer security solutions that involve law enforcement training, security consultation services and experienced security personnel who act as planners, trainers, managers, advisors, instructors and liaison personnel. We also provide teams of security consultants and advisors many of whom are British Special Air Services veterans. We provide security services including risk assessment, project organization and management, equipment, training and management of existing guard forces, system design, procurement and installation, crisis management, VIP protection, specialist training and evacuation planning. On-site guards are supervised, managed and trained by our professional security staff. Our clients are multinational corporations in industries including petrochemical and natural resource extraction, manufacturing, travel and financial services. Additionally, we serve governmental and non-governmental agencies.

Security Systems Integration. We are a provider of security systems specializing in the design, integration, maintenance and technical support of sophisticated electronic and computer driven security and fire alarm systems. We specialize in high speed analog and digital transmission designs for life safety, communication, alarm, closed circuit television, access control, television and security systems. These systems are installed in airports, banks, government buildings, hospitals, prisons, universities, stores, office buildings, telecommunications centers, radio and television stations, and similar locations. Our clients include multinational corporations, major contractors, embassies, and high commissions.

Intellectual Property Asset Protection. We provide a full range of consulting and investigative services specializing in worldwide intellectual property asset protection for multinational corporations with products that have valuable brand name recognition. Our services range from protecting companies against counterfeiting, patent infringements, product tampering, gray market distribution, and extortion to identifying unethical supplier activities such as the use of child labor. These services are provided by professionals with extensive backgrounds in related areas, including trade and customs law. We offer brand protection and often work with our clients during product development to establish trademark and patent protection strategies and work to protect the brand throughout its lifecycle. Our clients include multinational branded product companies involved in tobacco, sportswear, spirits, and pharmaceuticals, as well as financial services and insurance companies.

Investigation and Due Diligence. We provide fraud investigation, asset tracing, computer forensic, computer evidence consulting, due diligence, litigation research, political risk analysis and other business intelligence

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

services to multinational and financial services companies worldwide. We rely on our network of business intelligence contacts, many proprietary and public databases, and our experience in gathering and deciphering hard to find information. Our professionals have various backgrounds including experience in financial, due diligence and foreign intelligence services. Our clients include investment and commercial banks, insurance companies, law firms and other multinational corporations.

34

Training. We offer comprehensive security training programs in counterintelligence, countersurveillance, advanced driving techniques, and ballistics at our facilities near Washington, D.C., San Antonio, Texas and Mexico City, Mexico and at customer designated locations. We also offer security, counterintelligence and countersurveillance training courses for both U.S. government agencies and clients in the private sector. The training includes instruction on methods of recognizing and deterring security risks. Students learn methodologies utilized by terrorists, what information is needed by terrorists in order to plan an attack and how to block or manipulate this flow of intelligence.

CUSTOMERS

Armor Holdings Products. In 2000, we sold approximately 83% of our products in North America, with the balance sold internationally. The primary end users of our products are federal, state and local law enforcement agencies, local police departments, state corrections facilities, U.S. and allied militaries, highway patrols and sheriffs' departments. We reach these customers through a distribution strategy that utilizes a worldwide distribution network of approximately 350 domestic distributors and 150 international agents, as well as 17 domestic regional sales managers who promote our products but refer customers to a local distributor for purchasing.

Armor Mobile Security Division. The market for military hardware products is worldwide in scope, including the U.S. military and foreign defense forces. Our major contracts for delivery of Up-Armored HMMWVs are with the U.S. military. We are also serving as a subcontractor to develop a ballistically armored and sealed truck cab for HIMARS, a program currently in development for use by the U.S. Army. Additionally, we provide protected container systems, typically used to protect missile systems from small arms fire, to the U.S. military under a subcontract with Lockheed Martin Corporation.

Our armored commercial vehicle customers include governmental and private buyers. U.S. and foreign governmental buyers purchase both fully and light-armored vehicles. Governmental buyers also comprise the market for Parade Cars. Typically, governmental buyers consist of ministries of foreign affairs, defense and internal affairs and offices of presidential security. These customers are not constrained in their purchasing decisions by considerations such as import duties and taxes and are free to search globally for the best product available. The procurement cycles of governmental buyers can range from relatively rapid, when the vehicles are for the use of the head of state or in response to a particular crisis, to prolonged bureaucratic bids and evaluations for normally budgeted items. Private customers for armored commercial vehicles include corporations and individuals. Private buyers are much more sensitive to cost, of which import duties and taxes may be a substantial part, and, therefore, often will buy a locally produced product, if one exists that meets their needs. Local servicing of the vehicle is also a critical concern to private buyers. Customers for cash-in-transit vehicles are generally financial institutions. Purchasing decisions for cash-in-transit vehicles depend on many criteria including insurance and regulatory requirements and costs, and whether the financial institution is private or governmental.

ArmorGroup Services. Our principal security services clients include multinational corporations that have significant investments in remote and hostile areas of the world. We currently serve clients in over 15 industries including petrochemical, mining, branded products, financial services, insurance and legal. Other significant clients include the U.S. Departments of State and Defense, the United Nations, CARE International and a variety of banking, finance, aid and humanitarian organizations and companies engaged in international trade and commerce.

No customer accounted for more than 10% of total sales in Fiscal 2000. Our ten largest customers accounted for approximately 19% of total sales for Fiscal 2000. These figures do not include sales by the Armor Mobile Security Division. Approximately 32% of the Armor Mobile Security Division's net sales during 2000 were derived from U.S. military contracts and an additional 15% were derived from commercial contracts with U.S. governmental agencies or foreign governments. Military and governmental contracts generally are awarded on a periodic or sporadic basis.

MARKETING AND DISTRIBUTION

Armor Holdings Products. As a result of our history of providing high quality and reliable armor, tactical armor, hard armor, duty gear, less-lethal munitions, anti-riot products and forensic products, we enjoy excellent name recognition and a strong reputation in the law enforcement equipment industry. The central element of our marketing strategy is to capitalize on our name recognition and reputation amongst our customers by positioning ourselves as a global provider of many of the premier security risk management products and services that our customers may need. By positioning ourselves in this manner, we can capitalize on our existing customer base and our extensive global distribution network, maximize the benefits of our long history of supplying security related products around the world and leverage our leadership position in the security risk management products and services markets. When entering a foreign market, we penetrate the market by offering the most comprehensive range of products and services available in the security industry. We tailor our marketing strategy to each geographic area of the world and will often tailor our product offering by country. There are opportunities for cross marketing of military and law enforcement products, which could strengthen the image of each product group. We believe that our ability to cross-market our security risk management products and services will enhance our position as an integrated provider of an extensive assortment of such products and services.

In addition, we have designed comprehensive training programs to provide initial and continuing training in the proper use of our various products. These training programs, offered by The Training Academy for Technology and Tactics, are typically conducted by trained law enforcement and military personnel that we hire for such purposes. Certain of our training programs also contribute to revenues. Training programs are an integral part of our customer service. In addition to enhancing customer satisfaction, we believe that they also help breed customer loyalty and brand awareness, so that we may sell additional products to the same customer. Our marketing efforts are further augmented by our involvement with and support of several important law enforcement associations, including the National Tactical Officer's Association, the International Law Enforcement Firearms Instructors, the American Society of Law Enforcement Trainers and the International Association of Chiefs of Police.

We further reinforce distributor loyalty by offering price discounts to high volume distributors. We believe that relationships with our distributors

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

are strong. The distributors benefit from their association with us due to the quality our manufactured products, the scope of our product line, the high degree of service we provide and the distributor's opportunity to participate profitably in the sale of our products.

We seek to expand our distribution network. As we identify and acquire businesses that fit strategically into our existing product and service portfolio, we maximize our distribution network by offering additional products and services. Recent acquisitions have opened new channels of global distribution to parts of the world not previously penetrated and have enabled us to more fully exploit our extensive access to multinational corporations, whose security service needs in unstable countries may in the future require security products that complement the services provided. The addition of these new distribution channels will allow us to take advantage of our various units' distribution networks by offering a wider variety of products, thereby increasing operating efficiencies.

We are strategically selling our product on the World Wide Web. We have created a secured website targeting government agencies exclusively. GSA-Buy.com, launched in 2000, contains an on-line catalog and secured transaction platform for all Armor Holdings Products Division General Services Administration contracts. We are also selling a small array of our concealable and competition holsters to the consumer market on Holsters.com. All of the products offered on this website are targeted to consumer markets and do not infringe on our strong relationships with our distributor network.

Armor Mobile Security Division. On a worldwide basis, the Armor Mobile Security Division employs approximately 28 full-time sales professionals in connection with its commercial sales. These employees operate out of Washington, D.C.; Miami, Florida; Fairfield, Ohio; Sao Paulo, Brazil;

36

Lamballe, France; Mexico City, Mexico; Bogota, Colombia; and Geneva, Switzerland. All personnel have a geographic and/or product-specific responsibility. In most cases, the sales personnel also recruit and maintain sales agents or distributors. The agents or distributors have geographic and product specific agreements, and compensation in most cases is based upon a commission arrangement. The sales personnel use a consultative approach when offering solutions to customers' security problems. Sales cycles for commercial physical security products can range from several months to a matter of days, depending upon the product and the urgency associated with the security problem being addressed. Physical security products which are readily available, such as the fully armored Chevrolet Suburban, allow us to assist customers who have, or believe they have, developed an immediate threat.

We are working with a number of the global cash transportation and management companies to create exclusive supply agreements in order to provide all of these companies with armored cash-in-transit vehicles in specific countries or regions.

The Armor Mobile Security Division has positioned itself in the marketplace as a commercial company with a military production capability. As such, the Armor Mobile Security Division emphasizes its ability to develop new products, or product adaptations, quickly and more cost effectively than traditional defense contractors. In marketing its products to the military, the Armor Mobile Security Division places strong emphasis on its superior antitank and antipersonnel mine protection for the occupants of tactical wheeled vehicles. We market our military products through a combination of trade show exhibitions, print advertising in military-related periodicals and direct customer visits. We emphasize the cross-marketing of military and commercial

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

products, which we believe strengthens the image of each product group. We have also entered into exclusive teaming and joint marketing agreements with AM General, the manufacturer of the basic HMMWV, for sales in the military and commercial areas. These agreements designate the Armor Mobile Security Division as the exclusive armorer to AM General for HMMWVs and allows us to benefit from the AM General distribution network and save on certain costs, such as exhibitions where both AM General and we otherwise would both show products. We have also entered into an agreement with Stewart & Stevenson Services, Inc. to jointly develop the enhanced armoring and blast specifications for Stewart & Stevenson's Family of Medium Tactical Vehicles.

Our military sales activities are directed toward identifying contract bid opportunities with various U.S. government agencies and private enterprises acting as prime contractors on government contracts and to making sales through the Foreign Military Sales Program and directly to foreign military organizations. We have two full time business development managers who are responsible for this activity and also have contractual arrangements with several outside consultants who assist the business development managers in their activities. Proposal preparation and presentation for government projects is done by a team which normally consists of program managers, a contracting officer, a cost accountant and various manufacturing and engineering personnel.

ArmorGroup Services. As we have expanded our service offerings, more active marketing has become an integral part of our growth efforts. In addition to sourcing new business from client referrals, we continue to follow our clients into new geographic areas where there exist significant security risks. We rarely enter a country without a substantial contract for services already in place. Once established in a country, we seek to expand our service offerings and our customer base through active marketing. As we have integrated new services, our professionals have increasingly relied on active marketing to generate new business. We have fostered the cross selling of our services by physically locating our professionals in common space and educating our professionals about all of our service business lines. Further, a rebranding effort has been completed in order to market our services under the ArmorGroup brand. A comprehensive web presence has been established (www.armorgroup.com) as a key marketing tool for the business and with potential to deliver risk information services on-line. We are focusing on clients in high growth industries where the need for investigation, brand protection and other security services are critical to success. The industries we are targeting include financial services, imaging supplies, insurance, natural resource extraction, and global consumer brands.

PRODUCT MANUFACTURING AND RAW MATERIALS

The raw materials used in manufacturing ballistic resistant garments and Up-Armored vehicles include various ballistic fibers such as Kevlar, Twaron, SpectraShield, Zylon and Z-Shield. Kevlar is a patented product of E.I. du Pont de Nemours Co., Inc. ("Du Pont") and is only available from Du Pont and its European licensee. We purchase Twaron, SpectraShield, Zylon and Z-Shield fibers directly from the manufacturers, and from weaving companies who convert the raw fibers into ballistic fabric. We believe that we enjoy a good relationship with these weaving companies. However, if necessary, we believe that we could readily find replacement weavers. We also use SpectraShield and Kevlar in our hard and vehicle armor products. Additionally, we use polycarbonates, acrylics, ballistic quality steel, ceramics, and ballistic glass. We are aware of multiple suppliers for these materials and would not anticipate a significant impact if we were to lose any suppliers. We do not manufacture equipment used in our security systems integration business.

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

We purchase other raw materials used in the manufacture of our various products from a variety of sources and additional sources of supply of these materials are readily available. We also own several molds, which are used throughout our less-lethal product line.

We adhere to strict quality control standards and conduct extensive product testing throughout our manufacturing process. Raw materials are also tested to ensure quality. We have obtained ISO 9001 certification for our Jacksonville manufacturing operation for body armor and narcotic identification kits, our Wyoming manufacturing facility for less-lethal products, and our Safariland facility in Ontario, California for body armor and duty gear holsters and accessories. We have obtained ISO 9002 certification for our Westhoughton, England manufacturing facility for body armor and high visibility garments. ISO standards are promulgated by the International Organization of Standardization and have been adopted by more than 100 countries worldwide. We obtain ISO certification by successfully completing an audit certifying our compliance with a comprehensive series of quality management and quality control standards.

The Armor Mobile Security Division emphasizes engineering excellence and has an extensive engineering staff. Design engineers use state-of-the-art two-dimensional and three-dimensional computer aided design and engineering or CAD/CAE systems in conjunction with coordinate measuring machines to develop electronic models which generally are converted to solid models or prototypes. Manufacturing engineers concentrate on improvements in the production process and on overall cost reductions from better methods, fewer components and less expensive materials with equal or superior quality. Applying these techniques, over the years the Armor Mobile Security Division has been able to reduce both the time and cost necessary to produce its armored vehicles. Our ballistic engineer, in conjunction with our design and manufacturing engineers, develops and tests new ballistic and blast protection systems that meet ever changing threats. Advanced engineering is responsible for new product development in conjunction with design engineering, manufacturing engineering and ballistic engineering.

COMPETITION

The market for our products is highly competitive and we compete in a variety of fields with competitors ranging from small businesses to multinational corporations. In the body armor business, we compete by providing superior design, engineering and production expertise in our line of fully-integrated ballistic and blast protective wear. Our principal competitors in this market include Point Blank Body Armor, Inc., Second Chance Body Armor, Inc. and Rabin-Tex. In the less-lethal product industry we compete by providing a broad variety of less-lethal products with unique features and formulations which we believe afford us a competitive advantage over our competitors. The principal competitive factors for all of our products are quality of engineering and design, reputation in the industry, production capability and capacity, price and ability to meet delivery schedules.

The markets for the Armor Mobile Security Division's products and services are highly competitive. We compete in a variety of fields, with competitors ranging from small businesses to multinational corporations. We believe that the Armor Mobile Security Division's design, engineering

and production expertise in providing fully integrated ballistic and blast protected vehicles gives it a competitive advantage over those competitors who provide protection against only selected ballistic threats. The largest competitors on a worldwide basis in the production of armored commercial

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

vehicles are DaimlerChrysler AG, which sells its armored Mercedes Benz products on a special order basis as well as through its worldwide distribution system, and BMW AG, which sells its products through its worldwide dealer distribution system. In addition, there are a number of other vehicle armorers in Europe, the Middle East and Latin America that armor primarily locally manufactured automobiles. U.S.-based protected passenger automobile armorers include Moloney Coachbuilders, Inc., Square One Armoring Services and Armet Armored Vehicles, Inc. The principal competitive factors are price, quality of engineering and design, production capability and capacity, ability to meet delivery schedules and reputation in the industry. There are a large number of companies that provide specific armoring packages for tactical wheeled vehicles, helicopters and selected other military applications.

The security services industry is highly competitive, and we compete in a variety of fields with competitors ranging from small business to multinational corporations. Within the security services industry we compete on the basis of the quality of services provided, ability to provide national and international services and range of services offered, as well as price and reputation. Our security services also face a wide variety of competition in different areas, although there is no single organization that competes directly with us globally. Our principal competitors in this market include The Wackenhut Corporation, Securitas AB, Pinkerton's, Inc., Control Risks Group, Electronic One and Tyco International, Ltd. and its subsidiary ADT. Our primary competitors in supplying security services to the petrochemical and mining industries are local security companies, in-house security programs and small consultancy companies. Our primary competitors in the embassy and international agency protection business are local companies and large manned guarding companies including The Wackenhut Corporation, Securicor, and Group 4 Falk A/S. As the countries within which we operate become more mature and stable, competition is likely to increase.

We believe that our manufacturing, warehouse and office facilities are suitable and adequate and afford sufficient manufacturing capacity for our current and anticipated requirements. We believe that we have adequate insurance coverage for our properties and their contents.

EMPLOYEES

As of October, 2001, we have a total of approximately 11,233 employees, of which approximately 986 were employed at Armor Holdings Products, 737 were employed at Armor Mobile Security, 9,500 were employed at ArmorGroup Services and 10 employees were located at our corporate headquarters.

Approximately 27 employees employed by our Supercraft subsidiary are represented by the General Municipal Boilermaker and Allied Trade Union. Also, our Low Voltage Systems subsidiary has 3 employees covered under a collective bargaining agreement and are represented by the International Brotherhood of Electrical Workers. None of our remaining employees are represented by unions or covered by any collective bargaining agreements. We have not experienced any work stoppages or employee related slowdowns and believe that the relationship with our employees is good.

40

PATENTS AND TRADEMARKS

We currently own numerous issued U.S. and foreign patents and pending patent applications relating to our product lines as well as several registered and unregistered trademarks and service marks relating to our products and services. The registered trademarks include FERRET (Registered Trademark) , BREAK FREE (Registered Trademark) , DEF-TEC PRODUCTS (Registered Trademark) , DISTRACTION DEVICE (Registered Trademark) , NIK (and Design) (Registered Trademark) , IDENTIDRUG (Registered Trademark) , FEDERAL LABORATORIES (Registered Trademark) , FIRST DEFENSE (Registered Trademark) and O'GARA-HESS & EISENHARDT ARMORING COMPANY (and Design) (Registered Trademark) . We also have an exclusive license to use the MACE (Registered Trademark) trademarks in the law enforcement market. Although we do not believe that our ability to compete in any of our product markets is dependent solely on our patents and trademarks, we do believe that the protection afforded by our intellectual property provides us with important technological and marketing advantages over our competitors. Although we have protected our technologies to the extent that we believe appropriate, the measures taken to protect our proprietary rights may not deter or prevent unauthorized use of our technologies. In other countries, our proprietary rights may not be protected to the same extent as in the United States.

GOVERNMENT REGULATION

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

We are subject to federal licensing requirements with respect to the sale in foreign countries of certain of our products. In addition, we are obligated to comply with a variety of federal, state and local regulations, both domestically and abroad, governing certain aspects of our operations and the workplace. We are also regulated by the U.S. Bureau of Alcohol, Tobacco, and Firearms as a result of our manufacturing of certain destructive devices and by the use of ethyl alcohol in certain products. We also ship hazardous goods, and in doing so, must comply with the regulations of the U.S. Department of Transportation for packaging and labeling. We are also subject to certain regulations promulgated by, among others, the U.S. Departments of Commerce and State and the U.S. Environmental Protection Agency. Additionally, as a government contractor, we are subject to rules, regulation and approvals applicable to government contractors.

ENVIRONMENTAL MATTERS

We are subject to federal, state, and local laws and regulations governing the protection of the environment, including those regulating discharges to the air and water, the management of wastes, and the control of noise and odors. While we always strive to operate in compliance with these requirements, we cannot assure you that we are at all times in complete compliance with all such requirements. Like all companies, we are subject to potentially significant fines or penalties if we fail to comply with environmental requirements. Although we have made and will continue to make capital expenditures in order to comply with environmental requirements, we do not expect material capital expenditures for environmental controls in 2001. However, environmental requirements are complex, change frequently, and could become more stringent in the future. Accordingly, we cannot assure you that these requirements will not change in a manner that will require material capital or operating expenditures or will otherwise have a material adverse effect on us in the future.

The United States Environmental Protection Agency issued a request for information to us pursuant to Section 104(e) of the Comprehensive Environmental Response, Compensation and Liability Act in August 2001, regarding the possible impact of our Casper, Wyoming tear gas facility on the environment. We have responded to this request. The EPA's inquiry is in its initial stage, and we cannot predict the outcome of this matter.

We are also subject to environmental laws requiring the investigation and cleanup of environmental contamination. We may be subject to liability, including liability for cleanup costs, if contamination is discovered at one of our current or former facilities or at a landfill or other location where we have disposed wastes. The amount of such liability could be material. We use Orthochlorabenzalmalonitrile and Chloroacetophenone chemical agents in connection with our production of tear gas. These chemicals are hazardous, and could cause environmental damage if not handled and disposed of properly.

PRINCIPAL AND SELLING STOCKHOLDERS

SELLING STOCKHOLDERS

The following table sets forth information regarding the selling stockholders' beneficial ownership of our common stock as of October 26, 2001.

The beneficial ownership is calculated based on 24,628,244 shares of our common stock outstanding as of October 26, 2001 and 29,128,244 shares of common stock outstanding after completion of this offering. Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of common stock subject to options held by that person that are currently exercisable within 60 days of October 26, 2001 are deemed outstanding. Such shares, however, are not deemed outstanding for the purpose of computing the percentage of each other person. To our knowledge, except pursuant to applicable community property laws, the persons named in the table have sole voting and investment power with respect to the shares set forth opposite such person's name.

UNDERWRITING

Merrill Lynch, Pierce, Fenner & Smith Incorporated, Bear, Stearns & Co. Inc., and First Union Securities, Inc., an indirect, wholly-owned subsidiary of Wachovia Corporation, are acting as representatives of the underwriters named below. Subject to the terms and conditions described in a purchase agreement among us, the selling stockholders and the underwriters, we and the selling stockholders have agreed to sell to the underwriters, and the underwriters severally have agreed to purchase from us and the selling stockholders, the number of shares of our common stock listed opposite their names below.

UNDERWRITERS	NUMBER OF SHARES
-----	-----
Merrill Lynch, Pierce, Fenner & Smith Incorporated	
Bear, Stearns & Co. Inc.	
First Union Securities, Inc.	
Total	5,000,000 =====

The underwriters have agreed to purchase all of the shares of the offered common stock if any of these shares are purchased. If an underwriter defaults, the purchase agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the purchase agreement may be terminated.

We and the selling stockholders have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares of our common stock, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the purchase agreement, such as the receipt by the underwriters of officers' certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Offers and sales outside the United States, if any, will be made through the underwriters' international broker-dealer affiliates.

COMMISSIONS AND DISCOUNTS

The representatives have advised us and the selling stockholders that the underwriters propose initially to offer the shares of our common stock to the public at the public offering price on the cover page of this prospectus and to dealers at that price less a concession not in excess of \$ per share. The underwriters may allow, and the dealers may reallow, a discount not in excess of \$ per share to other dealers. After the offering, the public offering price, concession and discount may be changed.

The following table shows the public offering price, underwriting discount

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

and proceeds before expenses to Armor Holdings, Inc. and the selling stockholders. This information assumes either no exercise or full exercise by the underwriters of their over-allotment option.

	PER SHARE	WITHOUT OPTI
Public offering price	\$	\$
Underwriting discount	\$	\$
Proceeds, before expenses, to Armor Holdings, Inc.	\$	\$
Proceeds, before expenses, to the selling stockholder	\$	\$

The expenses of the offering, not including the underwriting discount, are estimated at \$1,000,000 and are payable by Armor Holdings, Inc.

47

OVER ALLOTMENT OPTION

The selling stockholders have granted an option to the underwriters to purchase up to 750,000 additional shares of our common stock at the public offering price less the underwriting discount. The underwriters may exercise this option for 30 days from the date of this prospectus solely to cover any over allotments. If the underwriters exercise this option, each will be obligated, subject to conditions contained in the purchase agreement, to purchase a number of additional shares proportionate to that underwriter's initial amount reflected in the above table.

NO SALES OF SIMILAR SECURITIES

We and the selling stockholders and our executive officers and directors have agreed, subject to some limited exceptions, not to sell or transfer any of our common stock for 90 days after the date of this prospectus without first obtaining the written consent of Merrill Lynch. Specifically, we and these other individuals have agreed not to directly or indirectly:

- o offer, pledge, sell or contract to sell any of our common stock;
- o sell any option or contract to purchase any of our common stock;
- o purchase any option or contract to sell any of our common stock;
- o grant any option, right or warrant for the sale of any of our common stock;
- o lend or otherwise dispose of or transfer any of our common stock;
- o request a demand that we file a registration statement related to our common stock; or
- o enter into any swap or other agreement that transfers, in whole or in part, the economic consequences of ownership of our common stock whether any such swap or transaction is to be settled by delivery of shares of our common stock or other securities, in cash or otherwise.

This lock-up agreement applies to our common stock and to securities convertible into or exchangeable or exercisable for, or repayable with, our

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

common stock. It also applies to our common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition.

The lock-up agreement does not apply to:

- o any shares of our common stock issued by us upon the exercise of an option or warrant or the conversion of a security outstanding on the date of this prospectus;
- o any shares of our common stock issued or options to purchase our common stock granted pursuant to employee benefit plans existing on the date of this prospectus; or
- o any shares of our common stock issued pursuant to any non-employee director stock plan or dividend reinvestment plan.

Merrill Lynch may in its sole discretion, at any time without notice, consent to the release of all or any portion of the shares subject to lock-up agreements. Merrill Lynch does not have any current intention to release shares of our common stock subject to these lock-up agreements. Any determination to release any shares subject to the lock-up agreements would be based on a number of factors at the time of any such determination, possibly including, but not limited to, the market price of our common stock, the liquidity of the trading market for our common stock, general market conditions, the number of shares proposed to be sold and the timing of the proposed sale.

ELECTRONIC DISTRIBUTION

Merrill Lynch will be facilitating Internet distribution for this offering to certain of its Internet subscription customers. Merrill Lynch intends to allocate a limited number of shares for sale to its online brokerage customers. An electronic prospectus is available on the Internet website maintained by Merrill Lynch. Other than the prospectus in electronic format, the information on the Merrill Lynch website is not a part of this prospectus.

NEW YORK STOCK EXCHANGE LISTING

The shares of our common stock are listed on the New York Stock Exchange under the symbol "AH."

NASD REGULATIONS

Because more than ten percent of the net proceeds of the offering may be paid to members or affiliates of members of the National Association of Securities Dealers, Inc. participating in the offering, the offering will be conducted in accordance with NASD Conduct Rule 2710(c)(8).

PRICE STABILIZATION AND SHORT POSITIONS

Until the distribution of the common stock is completed, SEC rules may limit the underwriters from bidding for or purchasing our common stock. However, the underwriters may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

The underwriters may purchase and sell our common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover the positions created by short sales. Short sales

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. "Covered" short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares from the issuer in the offering. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in an open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the over-allotment option. "Naked" short sales are any sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchase of our common stock made by the underwriters in the open market prior to the completion of the offering.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the common stock. In addition, neither we nor any of the underwriters makes any representation that the representatives or the lead manager will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

OTHER RELATIONSHIPS

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us. They have received customary fees and commissions for these transactions.

First Union Securities, Inc., one of the underwriters, is an indirect, wholly-owned subsidiary of Wachovia Corporation. Wachovia Corporation conducts its investment banking, institutional, and capital markets businesses through its various bank, broker-dealer and nonbank subsidiaries (including First Union Securities, Inc.) under the trade name of Wachovia Securities. Any references to Wachovia Securities in this prospectus, however, do not include Wachovia Securities, Inc., a member

49

of the National Association of Securities Dealers, Inc. and the Security Investor Protection Corporation and a separate broker-dealer subsidiary of Wachovia Corporation and an affiliate of First Union Securities, Inc., which may or may not be participating as a selling dealer in the distribution of the securities offered by this prospectus.

First Union National Bank, an affiliate of First Union Securities, Inc., is a lender under our Credit Agreement. We intend to use proceeds from this offering to repay our credit facility.

LEGAL MATTERS

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

The validity of the common stock offered by this prospectus will be passed upon for us by Kane Kessler P.C., New York, New York. Robert L. Lawrence, a member of Kane Kessler, P.C., owns 5,000 shares of our common stock. Certain legal matters will be passed upon for the underwriters by Skadden, Arps, Slate, Meagher & Flom LLP.

The audited combined financial statements referred to above are included herein in reliance upon the authority of said firm as experts in giving said report.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to "incorporate" into this prospectus information that we file with the SEC in other documents. This means that we can disclose important information to you by referring to other documents that contain that information. Any information that we incorporate by reference is considered part of this prospectus. The documents and reports that we list below are incorporated by reference into this prospectus. In addition, all documents and reports which we file pursuant to Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act after the date of this prospectus and prior to the termination of this offering are also incorporated by reference in this prospectus as of the respective filing dates of these documents and reports. Statements contained in these documents that we file with the SEC and are incorporated by reference in this prospectus, automatically update and supersede information contained in this prospectus, to the extent the new information differs from or is inconsistent with the old information.

We have filed the following documents with the SEC. These documents are incorporated into this prospectus by reference:

- (1) our annual report on Form 10-K for the year ended December 31, 2000;
- (2) our quarterly reports on Form 10-Q for the quarters ended March 31, 2001 and June 30, 2001;
- (3) our current reports on Form 8-K filed on April 27, 2001, August 22, 2001, August 23, 2001 and September 7, 2001; and
- (4) the description of our common stock contained in our registration statement on Form 8-A filed on April 29, 1999, including any amendments or reports filed for the purpose of updating that description.

We will provide any person to whom a copy of this prospectus is delivered,

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors and Stockholders of
Armor Holdings, Inc.:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, stockholders' equity and comprehensive income, and cash flows present fairly, in all material respects, the financial position of Armor Holdings, Inc. and its subsidiaries at December 31, 2000 and 1999, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2000 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management; our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the 1998 financial statements of Defence Systems Colombia S.A., a wholly owned subsidiary, which statements reflect total revenues of \$13,266,000 for the year ended December 31, 1998. Those statements were audited by other auditors whose report thereon has been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included for Defence Systems Colombia S.A. is based solely on the report of the other auditors. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BACKGROUND AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

THE COMPANY AND NATURE OF BUSINESS: Armor Holdings, Inc. (the "Company" or "Armor") is a global provider of security risk management services and products to multi-national corporations, governmental agencies and law enforcement personnel through two operating divisions -- Armor Holdings Products and ArmorGroup Services.

Armor Holdings Products Division. Armor Holdings Products division manufactures and sells a broad range of high quality branded law enforcement equipment, such as ballistic resistant vests and tactical armor, hard armor, less lethal munitions, police batons, forensic, fingerprint and evidence collection equipment, anti-riot products including tear gas and distraction grenades, narcotics identification kits, custom-built armored vehicles, specialty lubricants, cleaners and preservatives and military weapon maintenance systems and holsters and duty gear. These products are marketed under brand names that are well-known and respected in the law enforcement community such as American Body Armor, Safariland, Defense Technology, Federal Laboratories, MACE (Registered Trademark) , PROTECH, NIK (Registered Trademark) Public Safety, Break-Free, Monadnock Lifetime Products and Lightning Powder. Armor Holdings Products division sells manufactured products primarily to law enforcement agencies through a worldwide network of over 500 distributors and sales agents including approximately 350 in the United States. Extensive distribution capabilities and commitment to customer service and training have enabled the Company to become a leading provider of security equipment to law enforcement agencies.

ArmorGroup Services Division. ArmorGroup Services division provides a broad range of sophisticated security risk management solutions to multi-national corporations in diverse industries such as natural resources, financial services and consumer products, and to governmental and non-governmental agencies such as the U.S. Department of State, the United Nations and the World Bank. Clients typically have personnel and other investments in unstable and often violent areas of the world. Through ArmorGroup Services offices on five continents, ArmorGroup Services provides

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

its multi-national clients with a diversified portfolio of security solutions to assist them in mitigating risks in their operations around the world. ArmorGroup Services' highly trained, multi-lingual and experienced security personnel work closely with our clients to create and implement solutions to complex security problems. These services include the design and implementation of risk management plans and security systems, provision of security specialists and training of security personnel. ArmorGroup Services provides its multi-national clients with specialized investigative services enhanced by its global network. These services include intellectual property asset protection and related investigative services ranging from protecting companies against counterfeiting, patent infringements, product tampering and extortion to identifying unethical supplier activities. In addition, ArmorGroup Services provides business intelligence, fraud investigation, computer forensic and asset tracing and recovery services to financial services companies, law firms and other entities worldwide.

PRINCIPLES OF CONSOLIDATION: The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. In consolidation, all material intercompany balances and transactions have been eliminated. Results of operations of companies acquired in transactions accounted for under the purchase method of accounting are included in the financial statements from the dates of the acquisition.

CASH AND CASH EQUIVALENTS: The Company considers all highly liquid investments purchased with original maturities of three months or less to be cash equivalents.

CONCENTRATION OF CREDIT RISK: Financial instruments that potentially subject the Company to concentrations of credit risk consist primarily of cash and cash equivalents and trade accounts receivable. The Company maintains its cash and cash equivalents with what it believes to be various high quality banks. Amounts held in individual banks may periodically exceed, for brief time periods, federally insured amounts. The Company's accounts receivable consist of amounts due from customers

F-7

ARMOR HOLDINGS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

and distributors located throughout the world. International product sales generally require cash in advance or confirmed letters of credit on United States ("U.S.") banks. The Company maintains reserves for potential credit losses. As of December 31, 1999 and 2000, management believes that the Company had no significant concentrations of credit risk.

INVENTORIES: Inventories are stated at the lower of cost or market determined on the first-in, first-out ("FIFO") method.

FAIR VALUE OF FINANCIAL INSTRUMENTS: The carrying value of cash and cash equivalents, accounts receivable, other receivables, accounts payable, and short and long-term debt approximates fair value at December 31, 1999 and 2000.

PROPERTY AND EQUIPMENT: Property and equipment are carried at cost less accumulated depreciation. Upon disposal of property and equipment, the appropriate accounts are reduced by the related cost and accumulated depreciation. The resulting gains and losses are reflected in consolidated earnings. Depreciation is computed using the straight-line method over the estimated lives of the related assets as follows:

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

Buildings and improvements	5 - 39 years
Machinery and equipment	3 - 7 years

GOODWILL: Goodwill represents the excess of the purchase price over the fair value of the net assets acquired in a purchase business combination. Goodwill and other intangible assets are stated on the basis of cost and are amortized, principally on a straight-line basis, over the estimated future periods to be benefited (20 to 40 years).

PATENTS, LICENSES AND TRADEMARKS: Patents, licenses and trademarks were acquired through acquisitions accounted for by the purchase method of accounting. Such assets are amortized on a straight-line basis over their remaining lives of 10 to 40 years.

REORGANIZATION VALUE IN EXCESS OF AMOUNTS ALLOCABLE TO IDENTIFIABLE ASSETS: This intangible asset, included in other assets, is amortized on a straight-line basis over twenty-five years. The net asset at December 31, 1999 and 2000 amounted to approximately \$1,511,000 and \$1,355,000, respectively.

IMPAIRMENT: Long-lived assets including certain identifiable intangibles, and the goodwill related to those assets, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset in question may not be recoverable including, but not limited to, a deterioration of profits for a business segment that has long-lived assets, and when other changes occur which might impair recovery of long-lived assets. Management has reviewed the Company's long-lived assets and has determined that there are no events requiring impairment loss recognition. The method used to determine the existence of an impairment would be undiscounted operating cash flows estimated over the remaining amortization period for the related long-lived assets. Impairment is measured as the difference between fair value and unamortized cost at the date impairment is determined.

RESEARCH AND DEVELOPMENT: Research and development costs are included in operating expenses as incurred and for the years ended December 31, 1998, 1999 and 2000, approximated \$738,000, \$1,559,000, and \$2,590,000, respectively.

ESTIMATES: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Significant estimates inherent in the preparation of the accompanying consolidated financial statements include the carrying value of long-lived assets, valuation allowances for receivables, inventories and deferred income tax assets, liabilities for potential litigation claims and settlements; and contract contingencies and obligations. Actual results could differ from those estimates.

F-8

ARMOR HOLDINGS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

INCOME TAXES: The Company accounts for income taxes pursuant to Statement of Financial Accounting Standards ("SFAS") No. 109, "Accounting for Income Taxes". Under the asset and liability method specified thereunder, deferred taxes are determined based on the difference between the financial reporting and tax bases of assets and liabilities. Deferred tax liabilities are offset by deferred tax assets relating to net operating loss carryforwards and deductible

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

temporary differences. Future benefits obtained from utilization of net operating loss carryforwards or from the reduction in the income tax asset valuation allowance existing on September 20, 1993 have been and will be applied to reduce reorganization value in excess of amounts allocable to identifiable assets. At December 31, 1999 and 2000, the Company's consolidated foreign subsidiaries have unremitted earnings of approximately \$6 million and \$10 million, respectively on which the Company has not recorded a provision for United States Federal income taxes since these earnings are considered to be permanently invested. Such foreign earnings have been taxed according to the regulations existing in the countries in which they were earned.

REVENUE RECOGNITION: The Company records service revenue as the service is provided on a contract by contract basis. Revenues are recorded at the time of shipment of products or performance of services. Revenues from service contracts are recognized over the term of the contract. Returns are minimal and do not materially effect financial statements.

ADVERTISING: The Company expenses advertising costs as expense in the period in which they are incurred.

EARNINGS PER SHARE: Basic earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding. Diluted earnings per share is computed by dividing net income by the weighted-average number of common shares outstanding compounding the effects of all potentially dilutive common stock equivalents, principally options, except in cases where the effect would be anti-dilutive.

COMPREHENSIVE INCOME AND FOREIGN CURRENCY TRANSLATION: In accordance with SFAS No. 130, "Reporting Comprehensive Income", assets and liabilities denominated in a foreign currency are translated into U.S. dollars at the current rate of exchange existing at year-end and revenues and expenses are translated at the average monthly exchange rates. The cumulative translation adjustment, net of tax, which represents the effect of translating assets and liabilities of the Company's foreign operations is recorded as a reduction of equity of \$1,351,000 and \$1,684,000 for the years ended December 31, 1999 and 2000, respectively, and is classified as accumulated other comprehensive loss. The current year change in the accumulated amount, net of tax, is included as a component of comprehensive income.

RECLASSIFICATIONS: Certain reclassifications have been made to the 1998 and 1999 financial statements in order to conform to the presentation adopted for 2000. These reclassifications had no effect on net income or retained earnings.

AICPA STATEMENT OF POSITION 98-5 (SOP 98-5): The Company adopted the American Institute of Certified Public Accountants (AICPA) Statement of Position SOP 98-5, "Reporting on the Costs of Start-Up Activities, " on January 1, 1999. SOP 98-5 requires the expensing of start-up costs, defined as pre-opening, pre-operating and pre-contract type costs. The adoption of SOP 98-5 did not have a material impact on the consolidated results of operations, financial position or cash flows.

RECENT ACCOUNTING PRONOUNCEMENTS

In the fourth quarter of 2000, the Company adopted SEC Staff Accounting Bulletin: No. 101 (SAB No. 101) -- Revenue Recognition. The reporting requirements under SAB No. 101 did not have an impact on the Company's consolidated results of operations, financial position or cash flows.

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

ARMOR HOLDINGS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

The Company will adopt SFAS 133, "Accounting for Derivative Instruments and Hedging Activities", as amended by SFAS No. 137 and 138, on January 1, 2001. The Statement establishes accounting and reporting standards requiring that every derivative instrument (including certain derivative instruments embedded in other contracts) be recorded in the balance sheet as either an asset or liability measured at its fair value. SFAS 133 requires that changes in the derivative's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. The Company does not currently have derivative instruments and accordingly, SFAS 133, as amended, is not expected to impact the Company's financial position, results of operations or cash flows.

In March 2000, the FASB issued FASB Interpretation No. 44 ("FIN 44"), "Accounting for Certain Transactions Involving Stock Compensation -- an Interpretation of APB Opinion No. 25." FIN 44 clarifies the application of APB Opinion No. 25 and, among other issues, clarifies the following: the definition of an employee for purposes of applying APB Opinion No. 25; the criteria for determining whether a plan qualifies as a noncompensatory plan; the accounting consequence of various modifications to the terms of previously fixed stock options or awards; and the accounting for an exchange of stock compensation awards in a business combination. The adoption of FIN 44 did not have an impact on the Company's financial position, results of operations or cash flows.

2. BUSINESS COMBINATIONS

The Company has completed numerous purchase business combinations for cash and/or shares of the Company's common stock and assumption of liabilities in certain cases. In the three years in the period ended December 31, 2000, the following acquisitions were made:

(a) CREDIT FACILITY -- On February 25, 2000, the Company amended its existing credit agreement with Canadian Imperial Bank of Commerce, Inc. ("CIBC"), Bank of America, N.A. ("BofA"), First Union National Bank ("First Union") and SunTrust Bank, North Florida, N.A. ("SunTrust") as lenders, BofA as Documentation Agent, and CIBC as Administrative Agent (the "Credit Agreement"). Pursuant to the Credit Agreement, as amended, the several lenders established a five-year \$100,000,000 line of credit (the "Credit Facility") for the Company's benefit. the Company's indebtedness under the Credit Facility is evidenced by Five Year (three years remaining) Revolving Credit Notes of up to \$100,000,000. All borrowings under the Credit Facility bear interest at either (1) the base rate, plus an applicable margin ranging from .000% to .375% depending on certain conditions, or the eurodollar rate, plus an applicable margin ranging from 1.125% to 1.875% depending on certain conditions. In addition, the Credit Facility provides that BofA will make swing-line loans of up to \$5,000,000 available to the Company to be used by the Company for working capital purposes. CIBC, Inc. and BofA will also issue letters of credit of up to \$10,000,000 to the Company. At December 31, 2000, the Company had \$32,980,770 outstanding under the line of credit and approximately \$3,804,000 outstanding in letters of credit. The Company had no such borrowing outstanding at December 31, 1999.

F-12

ARMOR HOLDINGS INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

As part of the credit agreement, all of the Company's direct and indirect domestic subsidiaries agreed to guarantee the Company's obligations under the credit agreement pursuant to a guarantee by certain subsidiaries. The credit agreement is collateralized by (1) a pledge of all of the issued and outstanding shares of stock of certain domestic subsidiaries of the Company pursuant to a pledge agreement and (2) a pledge of 65% of the issued and outstanding shares of the Company's foreign subsidiary, Armor Holdings Limited, organized under the laws of England and Wales. In addition, the Company is restricted from paying dividends.

Maturities of long-term debt are as follows:

The Company's subsidiary Defense Systems Limited maintains a \$2 million overdraft facility with a variable interest rate requiring monthly interest payments. This overdraft facility expires March 31, 2001. The overdraft facility had an outstanding balance of approximately \$1.9 million and \$1.2 million for the years ended December 31, 1999 and 2000 respectively.

7. INTEGRATION AND OTHER NON-RECURRING ITEMS

As a result of its acquisition program, the Company incurred integration costs of approximately \$2.6 million and \$3.3 million for the years ending December 31, 1999 and 2000, respectively. These costs related to the relocation of assets and personnel, severance costs, systems integration, domestic and international tax restructuring as well as integrating the sales and marketing functions for the companies acquired during the period.

8. COMMITMENTS AND CONTINGENCIES

EMPLOYMENT CONTRACTS: The Company is party to several employment contracts at year ending December 31, 2000 with certain members of management. Such contracts are for varying periods and include restrictions on competition after termination. These agreements provide for salaries, bonuses and other benefits and also specify and delineate the granting of various stock options.

LEGAL/LITIGATION MATTERS: On January 16, 1998, our ArmorGroup Services division ceased operations in the country of Angola. The cessation of operations in Angola was dictated by that government's decision to deport all of our expatriate management and supervisors. As a result of the cessation of operations in Angola, our Armor Group Services division is involved in various disputes with SHRM S.A. ("SHRM"), its minority joint venture partner relating to the Angolan business. On March 6, 1998, SIA (a subsidiary of SHRM) filed a complaint against Defense Systems France, SA ("DSF") before the Commercial Court of Nanterre (Tribunal de Commerce de Nanterre) seeking to be paid an amount of \$577,286 corresponding to an alleged debt of DSIA to SIA. On June 27, 2000, the judge of the Paris Commercial Court ruled SHRM did not provide evidence required to establish its standing and the proceedings brought by SHRM were cancelled. On October 3, 2000, a winding up petition was served by DSF against DSIA. On October 31, 2000, SHRM filed a counterclaim seeking to have this winding up petition dismissed. On November 28, 2000, SHRM appealed the judgement rendered by the Paris Commercial Court on June 27, 2000, claiming that the Paris Commercial Court

F-13

no longer has jurisdiction over the case. The procedure before the Nanterre Commercial Court is still pending, awaiting a decision on the liquidation of DSIA.

SETTLEMENTS: In November of 2000, without either admitting or denying the

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

accusations, the Company settled its lawsuit with Second Chance Body Armor, Inc. and other lawsuits for approximately \$2.0 million, including legal costs. The dispute that led to the Second Chance Body Armor lawsuit was filed in 1994 and related to allegations of trademark infringement that were purported to have occurred during the period 1984 to 1994.

OTHER: In addition to the above, the Company, in the normal course of business, is subjected to claims and litigation in the areas of product and general liability. Management believes it has adequate insurance coverage in the areas of product and general liability. Management does not believe any of such claims will have a material impact on the Company's financial statements.

9. INVESTMENT IN UNCONSOLIDATED SUBSIDIARIES

At December 31, 1999, the Company had a 20% investment in Jardine Securicor Gurkha Services Limited ("JSGS") for which the equity method of accounting for investments was used. On May 31, 2000, the Company sold its investment in JSGS for a pre-tax gain of approximately \$1.7 million included in other income. The Company recognized equity in earnings of investee of \$87,000 for the five months ended May 31, 2000, the date of the sale.

10. INFORMATION CONCERNING BUSINESS SEGMENTS AND GEOGRAPHICAL SALES

The Company is a leading global provider of security risk management services and products to multi-national corporations, governmental agencies and law enforcement personnel through two operating divisions -- ArmorGroup Services and Armor Holdings Products. The ArmorGroup Services division provides sophisticated security planning and risk management, electronic security systems integration, consulting and training services, as well as intellectual property asset protection, business intelligence and investigative services. The Armor Holdings Products division manufactures and sells a broad range of high quality branded law enforcement equipment.

The Company has invested substantial resources outside of the United States and plans to continue to do so in the future. Substantially all of the operations of the services segment is conducted in emerging markets in Africa, Asia and South America. These operations are subject to the risk of new and different legal and regulatory requirements in local jurisdictions, tariffs and trade barriers, potential difficulties in staffing and managing local operations, potential imposition of restrictions on investments, potentially adverse tax consequences, including imposition or increase of withholding and other taxes on remittances and other payments by subsidiaries, and local economic, political and social conditions. Governments of many developing countries have exercised and continue to exercise substantial influence over many aspects of the private sector. Government actions in the future could have a significant adverse effect on economic conditions in a developing country or may otherwise have a material adverse effect on the Company and its operating companies. The Company does not have political risk insurance in the countries in which it currently conducts business. Moreover, applicable agreements relating to the Company's interests in its operating companies are frequently governed by foreign law. As a result, in the event of a dispute, it may be difficult for the Company to enforce its rights. Accordingly, the Company may have little or no recourse upon the occurrence of any of these developments.

Revenues, income from operations (before amortization, equity in earnings, integration expenses and interest income, net) and total assets for each of our segments for the years ended December 31, 1998, 1999 and 2000, were as follows:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

The following reconciles the income tax expense computed at the Federal statutory income tax rate to the provision for income taxes recorded in the income statement for the years ended December 31, 1998, 1999 and 2000:

	1998	1999	2000
	-----	-----	-----
Provision for income taxes at statutory Federal rate	34.0%	35.0%	35.0%
State and local income taxes, net of Federal benefit	1.8%	1.6%	1.6%
Foreign income taxes	1.5%	0.8%	(4.1%)
Other non-deductible items	(0.1%)	0.4%	3.1%
	-----	-----	-----
	37.2%	37.8%	35.6%
	=====	=====	=====

The decrease in effective tax rate indicated above for foreign taxes is a result of the Company's re-estimation of foreign tax liabilities and the related U.S. liability as a result of the Company's execution of certain reorganization and other strategic plans.

12. STOCKHOLDERS' EQUITY

Effective with the change in control of the Company by Kanders Florida Holdings, Inc. on January 18, 1996, the utilization of the United States portion of the NOL became restricted to approximately \$300,000 per year. As of December 31, 2000, the Company had U.S. and foreign NOLs of approximately \$10,400,000. The U.S. portion of the net NOLs expire in varying amounts in

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

fiscal years 2006 to 2019. At December 31, 2000, the Company also has tax credits of \$426,000 subject to certain limitations due to the acquisition of Safariland, LTD. These credits will expire in varying amounts in fiscal years to 2019.

PREFERRED STOCK: On July 16, 1996, the Company's shareholders authorized a series of preferred stock with such rights, privileges and preferences as the Board of Directors shall from time to time determine. The Company has not issued any of this preferred stock.

STOCK OPTIONS AND GRANTS: In 1994, the Company implemented an incentive stock plan and an outside directors' stock plan. These plans collectively provide for the granting of options to certain key employees as well as providing for the grant of common stock to outside directors and to all full time employees. Pursuant to such plans, 1,050,000 shares of common stock were reserved and made available for distribution. The option prices of stock which may be purchased under the incentive stock plan are not less than the fair market value of common stock on the dates of the grants. Effective January 19, 1996, all stock grants awarded under the 1994 incentive stock plan were accelerated and considered fully vested.

In 1996, the Company implemented an incentive stock plan and an outside directors' stock plan. These plans collectively provide for the granting of options to certain key employees and directors. Pursuant to such plans, as amended, 2,200,000 shares of common stock were reserved and made available for distribution. The option prices of stock which may be purchased under the incentive stock plan are not less than the fair market value of common stock on the dates of the grants.

During 1998, the Company implemented a new non-qualified stock option plan. Pursuant to the new plan, 725,000 shares of common stock were reserved and made available for distribution. On January 1, 1999, the Company distributed all 725,000 shares allocated under the plan. In 1999, the Company implemented the 1999 Stock Incentive Plan (the "1999 Plan"). The Company reserved 2,000,000 shares of its Common Stock for the 1999 Plan. The 1999 Plan provides for the granting to employees, officers, directors, consultants, independent contractors and advisors of the Company. The option prices of stock which may be purchased under the 1999 Plan are not less than the fair market value of common stock on the dates of the grants.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED)

Effective January 1, 1996, the Company adopted SFAS No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123"). SFAS 123 establishes a fair value based method of accounting for stock-based employee compensation plans; however, it also allows an entity to continue to measure compensation cost for those plans using the intrinsic value based method of accounting prescribed by Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees." Under the fair value based method, compensation cost is measured at the grant date based on the value of the award and is recognized over the service period, which is usually the vesting period. Under the intrinsic value based method, compensation costs is the excess, if any, of the quoted market price of the stock at the grant date or other measurement date over the amount an employee must pay to acquire the stock. The Company has elected to continue to account for its employee stock compensation plans under APB Opinion No. 25 with pro forma disclosures of net earnings and earnings per share, as if the fair value based method of accounting defined in SFAS No. 123

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

had been applied.

If compensation cost for stock option grants had been determined based on the fair value on the grant dates for 1998 1999 and 2000 consistent with the method prescribed by SFAS No. 123, the Company's net earnings and earnings per share would have been adjusted to the pro forma amounts indicated below:

		1998	1999	2000
		-----	-----	-----
(IN THOUSANDS, EXCEPT PER SHARE DATA)				
Net earnings	As reported	\$ 8,596	\$ 13,196	\$ 17,048
	Pro forma	\$ 7,844	\$ 11,375	\$ 16,245
Diluted earnings per share	As reported	\$ 0.50	\$ 0.61	\$ 0.73
	Pro Forma	\$ 0.45	\$ 0.52	\$ 0.70

Under SFAS 123, the fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions for the years ended December 31, 1998, 1999 and 2000:

	1998	1999	2000

Expected life of option	3 yrs	3 yrs	4 yrs
Dividend yield	0%	0%	0%
Volatility	31.9%	35.8%	30.9%
Risk free interest rate	5.50%	5.76%	5.76%

The weighted average fair value of options granted during 1998, 1999 and 2000 are as follows:

	1998	1999	2000

(IN THOUSANDS, EXCEPT FOR FAIR VALUE OF OPTIONS)			
Fair value of each option granted	\$ 2.89	\$ 3.48	\$ 4.79
Total number of options granted	286	1,871	185
Total fair value of all options granted	\$ 827	\$6,511	\$ 886

Outstanding options, consisting of ten-year incentive and non-qualified stock options, vest and become exercisable over a three year period from the date of grant. The outstanding options expire ten years from the date of grant or upon retirement from the Company, and are contingent upon continued employment during the applicable ten-year period.

15. EMPLOYEE BENEFITS PLAN

In October 1997, the Company formed a 401(k) plan, (the "Plan") which provides for voluntary contributions by employees and allows for a discretionary contribution by the Company in the form of cash. The Company made a contribution of approximately \$243,000 to the Plan in 2000. There were no such contributions in 1999 or 1998.

16. RELATED PARTY TRANSACTIONS

The Company subcontracts for certain security guard services with Alpha, Inc., wholly owned by a shareholder of the Company, who is also a director of Gorandel Trading Limited. In fiscal 1998, 1999 and 2000, security guard service fees of approximately \$5,204,000; \$3,392,000; and \$2,444,000 respectively, were paid to Alpha. In August of 2000, the purchase price was approximately \$1.0 million in cash consisting of both a current and deferred portion.

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

On January 1, 1999, the Company entered into an agreement with Kanders & Company, Inc. to provide investment banking and financial advisory services to the Company. The specific details of such services and compensation to be paid to Kanders & Co. will be determined by the parties on a case by case basis. Warren B. Kanders, Chairman of the Board of the Company, is the sole stockholder of Kanders & Company, Inc.

17. OPERATING LEASES

The Company is party to certain real estate, equipment and vehicle leases. Several leases include options for renewal and escalation clauses. In most cases, management expects that in the normal course of business leases will be renewed or replaced by other leases. Approximate total future minimum annual lease payments under all noncancelable leases are as follows:

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 GENERAL

The accompanying condensed quarterly financial statements represent the consolidation of Armor Holdings, Inc. (the "Company") and its wholly-owned subsidiaries. These statements are unaudited and include all adjustments (consisting only of normal recurring accruals) considered necessary by management to present a fair statement of the results of operations, financial position and cash flows. They have been prepared in accordance with the instructions to Form 10-Q and accordingly, do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements.

The results of operations for the three and six month periods are not necessarily indicative of the results to be expected for the full year and should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2000. Certain prior year amounts have been reclassified to

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

conform to the current year presentation.

NOTE 2 COMPREHENSIVE INCOME (LOSS)

NOTE 5 RESTRUCTURING CHARGE

In January 2001, the Company's ArmorGroup Services division approved a restructuring plan to close its U.S. investigative businesses, realign the division's organization, eliminate excess facilities and reduce overhead in its businesses worldwide. In connection with this restructuring plan, the division performed a review of its long-lived assets to identify potential impairments. Pursuant to this restructuring plan, ArmorGroup i) eliminated 26 employees, primarily from its investigative businesses, ii) eliminated an additional 24 employees, from its security business, iii) incurred lease and other exit costs as a result of the closure of its investigative businesses, and iv) wrote-down the value of both tangible and intangible assets as a result of the impairment review. ArmorGroup expects to substantially complete the initiatives in its restructuring plan within nine months. Most of the significant actions have been completed by June 30, 2001.

As a result of the restructuring plan, the Company has recorded a pre-tax charge of \$10 million. The Company recorded \$8.7 million in the first quarter and has recorded \$1.3 million in the second quarter of fiscal 2001. The second quarter pre-tax charge included i) \$844,000 in employee termination and related costs including severance, relocation, medical and other benefits and ii) \$415,000 in lease termination and other exit costs. As of June 30, 2001, the Company had a remaining liability of \$1,297,000 relating to employee termination costs and lease termination and other exit costs. This liability has been classified in accounts payable, accrued expenses and other current liabilities on the consolidated balance sheet and will be funded through cash provided by operating activities and the Company's credit facility. A summary of the restructuring charges and the remaining accrual follows:

ARMOR HOLDINGS, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS--(CONTINUED) (UNAUDITED)

NOTE 6 INFORMATION CONCERNING BUSINESS SEGMENTS AND GEOGRAPHICAL SALES

The Company is a leading global provider of security risk management services and products to multi-national corporations, governmental agencies and law enforcement personnel through two operating divisions--Armor Holdings Products and ArmorGroup Services. The Armor Holdings Products division manufactures and sells a broad range of high quality branded law enforcement equipment. The ArmorGroup Services division provides sophisticated security planning and risk management, electronic security systems integration, consulting and training services, as well as intellectual property asset protection, business intelligence and investigative services.

The Company has invested substantial resources outside of the United States and plans to continue to do so in the future. Substantially all of the operations of the services segment are conducted in emerging markets in Africa, Asia and South America. These operations are subject to the risk of new and different legal and regulatory requirements in local jurisdictions, tariffs and trade barriers, potential difficulties in staffing and managing local operations, potential imposition of restrictions on investments, potentially adverse tax consequences, including imposition or increase of withholding and other taxes on remittances and other payments by subsidiaries, and local economic, political and social conditions. Governments of many developing countries have exercised and continue to exercise substantial influence over many aspects of the private sector. Government actions in the future could have a significant adverse effect on economic conditions in a developing country or may otherwise have a material adverse effect on the Company and its operating companies. The Company does not have political risk insurance in the countries in which it currently conducts business. Moreover, applicable agreements relating to the Company's interests in its operating companies are frequently governed by foreign law. As a result, in the event of a dispute, it may be difficult for the Company to enforce its rights. Accordingly, the Company may have little or no recourse upon the occurrence of any of these developments.

NOTE 9 NEW ACCOUNTING PRONOUNCEMENTS

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

In July 2001, the FASB issued Statement of Financial Accounting Standards No. 141, "Business Combinations" (SFAS 141), and Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" (SFAS 142). SFAS 141 requires that all business combinations be accounted for under a single method--the purchase method. Use of the pooling-of-interest method is no longer permitted. SFAS 141 requires that the purchase method be used for business combinations initiated after June 30, 2001. SFAS 142 requires that goodwill no longer be amortized to earnings, but instead reviewed for impairment annually. Under SFAS 142, the amortization of goodwill ceases upon adoption of the statement, which will become effective for the Company on January 1, 2002. The Company has historically amortized its goodwill over its estimated useful lives. Beginning with the adoption of SFAS 142, the company will cease amortizing its goodwill.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To The Kroll-O'Gara Company:

We have audited the accompanying combined balance sheets of THE SECURITY PRODUCTS AND SERVICES GROUP (a wholly-owned segment of The Kroll-O'Gara Company -- see Note 1) as of December 31, 1999 and 2000 and the related combined statements of operations, parent's equity in segment and cash flows for each of the three years in the period ended December 31, 2000. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of The Security Products and Services Group as of December 31, 1999 and 2000, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2000, in conformity with accounting principles generally accepted in the United States.

As explained in Note 2(o) to the combined financial statements, effective in the first quarter of 1999, the Company changed its method of accounting for costs of start-up activities.

NOTES TO COMBINED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

The Security Products and Services Group (SPSG or the Company) is a wholly-owned segment of The Kroll-O'Gara Company (Kroll-O'Gara).

On April 20, 2001, the Board of Directors of Kroll-O'Gara approved a definitive agreement, subject to a limited number of closing conditions, to sell the common stock of the active companies that comprise Kroll-O'Gara's SPSG segment, other than SPSG's subsidiaries that provide kidnap and ransom and risk information services, SPSG's Russian subsidiaries and certain other inactive companies, to Armor Holdings, Inc. (Armor) for up to \$56.5 million. The accompanying SPSG combined financial statements and footnotes exclude the subsidiaries that provide kidnap and ransom and risk information services as they will continue to be operated by Kroll-O'Gara after the sale of SPSG. The Russian subsidiaries and certain other inactive companies are included within the accompanying combined financial statements as they have historically been included within the SPSG segment and might not be operated by Kroll-O'Gara after the sale. The Russian subsidiaries and certain other inactive companies had combined total assets of approximately \$3.0 million at December 31, 2000 and net revenues of approximately \$1.9 million for the year ended December 31, 2000.

Of the \$56.5 million sales price, a portion (\$53.0 million subject to adjustment) is to be paid at closing, currently expected to occur late in the second quarter or in the third quarter of 2001. An escrow of \$1.5 million will be maintained and a deferred payment of up to \$2.0 million may be made based on the Company's achievement of a gross profit target for the year ending December 31, 2001. At Armor's option, up to \$15.0 million of the purchase price can be paid in registered common stock of Armor. The purchase price will be reduced dollar-for-dollar to the extent tangible net assets, as defined, are less than approximately \$37.4 million. Kroll-O'Gara currently believes the sale of SPSG will approximate the value of parent's equity in segment. In the event the sale to Armor is not consummated, Kroll-O'Gara will continue to evaluate all options available to it, including seeking other buyers or other alternatives.

The accompanying combined financial statements are presented on a carve-out

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

basis and include the historical results of operations and assets and liabilities of the SPSG entities as noted above. These combined financial statements have been prepared from Kroll-O'Gara's historical accounting records.

SPSG was allocated \$2.5 million, \$3.9 million and \$4.5 million of overhead costs related to Kroll-O'Gara's corporate administrative functions in 1998, 1999 and 2000, respectively. The allocations were based on a specific identification of Kroll-O'Gara's administrative costs attributable to SPSG and, to the extent that such identification was not practicable, on the basis of SPSG's sales as a percentage of Kroll-O'Gara's sales. The expenses associated with various corporate initiatives of Kroll-O'Gara were not allocated to SPSG. The allocated costs are included in the various operating expense captions in the accompanying combined statements of operations.

SPSG's operations have been financed through its operating cash flows and advances from Kroll-O'Gara. SPSG's interest expense includes an allocation of Kroll-O'Gara's interest expense based on Kroll-O'Gara's weighted average interest rate applied to intercompany advances. Interest expense allocated from Kroll-O'Gara was \$2.0 million, \$1.7 million and \$1.9 million for the years ended December 31, 1998, 1999 and 2000, respectively, at weighted average interest rates of 6.2%, 5.4%, and 9.5% for the years ended December 31, 1998, 1999, and 2000, respectively. Income tax was calculated as if SPSG had filed separate income tax returns. SPSG's current income taxes receivable or payable at any point in time are included in the advances from Kroll-O'Gara balance in parent's equity in segment. The advances from Kroll-O'Gara balance in

F-37

THE SECURITY PRODUCTS AND SERVICES GROUP

NOTES TO COMBINED FINANCIAL STATEMENTS

parent's equity in segment also includes the equity accounts of specific legal entities included in SPSG, the net assets or liabilities of divisions included in SPSG and the net intercompany receivable and payable balances of all entities and divisions with Kroll-O'Gara.

Management believes that the allocation methodologies utilized are reasonable.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- (a) Nature of Operations--SPSG markets ballistic and blast-protected vehicles and security services. All material intercompany accounts and transactions are eliminated. Investments in 20% to 50% owned entities are accounted for using the equity method and investments in less than 20% owned entities are accounted for using the cost method. Affiliated entities are not included in the accompanying combined financial statements, and include entities that are directly or indirectly owned by current shareholders or former shareholders.
- (b) Revenue Recognition--Revenue related to certain contracts for security products (both government and commercial) that results principally from long-term fixed price contracts is recognized on the percentage-of-completion method calculated utilizing the cost-to-cost approach. The percent deemed to be complete is calculated by comparing the costs incurred to date to estimated total costs for each contract. This method is used because management considers costs incurred to be the

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

best available measure of progress on these contracts. However, adjustments to this measurement are made when management believes that costs incurred materially exceed effort expended. Contract costs include all direct material and labor costs, along with certain direct overhead costs related to contract production. Changes in estimated total contract costs will result in revisions to the percentage of contract revenue recognized. These revisions are recognized when determined.

Revenue related to other contracts for security products (both government and commercial) that results principally from short-term fixed price contracts is recognized on the completed contract method. Provisions for estimated total contract losses on any uncompleted contracts are recorded in the period in which it becomes known that such losses will occur.

- (c) Cash and Cash Equivalents--Cash equivalents consist of all highly liquid debt instruments with an initial maturity of three months or less at the date of purchase. SPSP invests excess cash in overnight repurchase agreements, which are government-collateralized securities. The carrying amount of cash and cash equivalents approximates fair value of those instruments due to their short maturity.
- (d) Concentrations of Credit Risk--Financial instruments that subject SPSP to credit risk consist principally of trade receivables. Concentrations of credit risk with respect to accounts receivable are limited by the number of clients that comprise SPSP's client base, along with the different industries and geographic regions in which SPSP's clients operate. SPSP does not generally require collateral or other security to support client receivables, although SPSP does require retainers, up-front deposits or irrevocable letters-of-credit in certain situations. SPSP has established an allowance for doubtful accounts based upon facts surrounding the credit risk of specific clients and past history. Management does not anticipate incurring losses on its trade receivables in excess of established allowances.

F-38

THE SECURITY PRODUCTS AND SERVICES GROUP

NOTES TO COMBINED FINANCIAL STATEMENTS

- (e) Property, Plant and Equipment--Property, plant and equipment are stated at cost. Depreciation is computed on both straight-line and accelerated methods over the estimated useful lives of the related assets as follows:

Buildings and improvements	5-40 years
Furniture and fixtures	4-10 years
Machinery and equipment	3-12 years
Leasehold improvements	Life of lease

- (f) Impairment of Long-Lived Assets--Pursuant to the provisions of Statement of Financial Accounting Standards No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of" (SFAS 121), long-lived assets, certain identifiable intangibles and goodwill related to those assets must be reviewed for impairment by asset group for which the lowest level of independent cash flows can be identified. In accordance with this standard, SPSP periodically reviews the carrying value of these assets and impairments are recognized when the expected undiscounted future cash flows are less than the carrying amount of the

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

asset. Based on its most recent analysis, SPSG believes no impairment existed at December 31, 2000. However, it is possible, due to a change in circumstances, that carrying values could become impaired in the future. Such impairment could have a material effect on the results of operations in a particular reporting period.

- (g) Costs in Excess of Assets Acquired--Costs in excess of assets acquired represents the excess of the purchase cost over the fair value of net assets acquired in a purchase business combination. Costs in excess of assets acquired, net of accumulated amortization, as of December 31, 1999 and 2000 were approximately \$15,218,000 and \$13,027,000, respectively. Amortization is recorded on a straight-line basis over periods ranging from 15 to 40 years. Amortization of costs in excess of assets acquired for the years ended December 31, 1998, 1999, and 2000 was approximately \$642,000, \$973,000 and \$673,000, respectively.
- (h) Other Intangible Assets--Other intangible assets, comprised mainly of customer lists and non-compete agreements, are amortized on a straight-line basis. Customer lists are amortized over a fifteen year period and the non-compete agreements are amortized over the lives of the respective agreements, which range from two and one-half years to five years. Other intangible assets, net of accumulated amortization, as of December 31, 1999 and 2000 were approximately \$1,707,000 and \$1,426,000, respectively. Amortization of other intangible assets for the years ended December 31, 1998, 1999 and 2000 was approximately \$469,000, \$489,000 and \$404,000, respectively.
- (i) Foreign Currency Translation--Assets and liabilities of foreign operations are translated using yearend exchange rates and revenues and expenses are translated using exchange rates prevailing during the year, with gains or losses resulting from translation included as a separate component of parent's equity in segment.

Gains or losses resulting from foreign currency transactions are translated to local currency at the rates of exchange prevailing at the dates of the transactions. Amounts receivable or payable in foreign currencies, other than the subsidiary's local currency, are translated at the rates of exchange prevailing at the balance sheet date. The effect of transactional gains or losses is included in other income (expense) in the accompanying combined statements of operations.

- (j) Use of Estimates--The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of

F-39

THE SECURITY PRODUCTS AND SERVICES GROUP

NOTES TO COMBINED FINANCIAL STATEMENTS

contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

- (k) Research and Development--Research and development costs are expensed as incurred. SPSG incurred approximately \$537,000, \$297,000 and \$630,000 for the years ended December 31, 1998, 1999 and 2000, respectively, for research and development. These costs are included in general and administrative expenses in the accompanying combined statements of

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

operations.

- (l) Advertising--SPSG expenses the cost of advertising as incurred. Advertising expenses for the years ended December 31, 1998, 1999 and 2000 were approximately \$1,340,000, \$1,510,000 and \$1,554,000, respectively.
- (m) New Accounting Pronouncements--In 1998, SPSG adopted Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income" (SFAS 130), which established standards for reporting and displaying comprehensive income and its components in a financial statement that is displayed with the same prominence as other financial statements. SPSG has chosen to disclose comprehensive income, which encompasses net income and foreign currency translation adjustments, in the combined statements of parent's equity in segment. The accumulated other comprehensive income (loss) balances of (\$1.0) million, \$0.3 million and (\$4.0) million at December 31, 1998, 1999 and 2000, respectively, consisted entirely of foreign currency translation adjustments.

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 133, "Accounting for Derivative Instruments and Hedging Activities" (SFAS 133). SFAS 133 establishes accounting and reporting standards requiring that derivative instruments (including certain derivative instruments embedded in other contracts) be recorded in the balance sheet as assets and liabilities measured at fair value. SFAS 133 requires that changes in the derivative's fair value be recognized currently in earnings unless specific hedge accounting criteria are met. SFAS 133, as amended, is effective for fiscal years beginning after June 15, 2000. SPSG has several forward contracts in place in association with its net investment in one of its subsidiaries. These instruments have historically qualified for hedge accounting throughout the periods presented in the accompanying combined financial statements. SPSG has adopted the provisions of SFAS 133 beginning on January 1, 2001. SPSG has designated these contracts as net investment hedges under SFAS 133 and, as such, the accounting under this new statement will approximate its previous accounting. Based on current hedge instruments and designations, SPSG will account for changes in the fair value of its net investment hedge contracts with the related changes in fair value reported in other comprehensive income (loss). SPSG does not expect that it will realize any material charges to earnings pursuant to SFAS 133. See Note 12 for further discussion. However, in the event of a future change in facts or in the underlying net investment hedge relationships, SPSG could experience future volatility in earnings. A sale of net assets or portions of the business that does not include the corresponding hedge instrument could also result in future volatility in earnings.

- (n) Stock-Based Compensation--SPSG has elected to account for the cost of its employee stock options and other forms of employee stock-based compensation plans utilizing the intrinsic value method prescribed in Accounting Principles Board Opinion No. 25 (APB 25) as allowed by Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" (SFAS 123). APB 25 requires compensation cost for stock-based compensation plans to be recognized based on the difference, if any, between the fair market value of the stock on the date of grant and the option exercise price. SFAS 123 established a fair value-based method of accounting for compensation cost related to stock options and

F-40

THE SECURITY PRODUCTS AND SERVICES GROUP

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

NOTES TO COMBINED FINANCIAL STATEMENTS

other forms of stock-based compensation. SFAS 123 allows an entity to continue to measure compensation cost using the principles of APB 25 if certain pro forma disclosures are made. The pro forma disclosures required by SFAS 123 are presented in Note 10(c).

- (o) Change in Accounting Principle--In April 1998, the American Institute of Certified Public Accountants released Statement of Position (SOP) 98-5, "Reporting on the Cost of Start-Up Activities". The SOP requires costs of start-up activities, including preoperating costs, organization costs and other start-up costs, to be expensed as incurred. SPSG's former practice was to capitalize certain of these expenses and amortize them over periods ranging from one to five years. SPSG adopted the provisions of this statement in the first quarter of 1999 and recorded a cumulative effect of a change in accounting principle of \$0.8 million, net of a tax benefit of \$0.4 million.
- (p) Derivative Financial Instruments--Financial instruments in the form of foreign currency exchange contracts are utilized by SPSG to hedge its exposure to movements in foreign currency exchange rates. SPSG does not hold or issue derivative financial instruments for trading purposes. Gains and losses on foreign exchange contracts are deferred and amortized as an adjustment to the cumulative foreign currency translation adjustment component of equity over the terms of the agreements in accordance with hedge accounting standards. The carrying value of foreign currency exchange contracts is not equal to the fair value. See Note 12 for further discussion.
- (q) Reclassifications--Certain reclassifications have been reflected in 1998 and 1999 to conform with the current period presentation. Specifically, in accordance with EITF Issue No. 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent" and EITF Issue No. 00-14, "Accounting for Certain Sales Incentives," SPSG has made reclassifications in the 1998 and 1999 combined statements of operations to include certain types of costs that are billed to its customers in net sales instead of offsetting the revenues against cost of sales and selling and marketing expenses.

3. MERGERS AND ACQUISITIONS

Kroll-O'Gara completed one acquisition in SPSG in 1998 that was accounted for as a purchase business combination. In September 1998, Kroll-O'Gara, through its O'Gara-Hess & Eisenhardt de Columbia (OHE-Columbia) subsidiary, completed the acquisition of the assets of Protec, S.A. (Protec), headquartered in Bogota, Colombia, which specializes in vehicle armoring systems and manufacturing bullet and smash resistant glass for its own use and for sale to third parties. OHE-Columbia has been included in SPSG. The purchase price of this acquisition amounted to approximately \$4.1 million and consisted of \$3.2 million in cash and 38,788 shares of Kroll-O'Gara common stock (valued at approximately \$0.9 million or an average of \$22.95 per share). For accounting purposes, the acquisition was effective on October 1, 1998, and the results of operations of OHE-Columbia are included in the combined financial statements from that date forward. The resulting goodwill from this transaction is being amortized over a 20 year period.

Total costs and estimated earnings in excess of billings on uncompleted contracts	\$24,159,724	\$ 8,634,134
	=====	=====

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

Costs and estimated earnings in excess of billings on uncompleted contracts are net of \$131,582,751 and \$139,118,840 of progress billings to the United States Military at December 31, 1999 and 2000, respectively.

Costs and estimated earnings in excess of billings on uncompleted contracts represent revenue recognized on long-term contracts in excess of billings because amounts were not billable at the balance sheet date. It is anticipated such unbilled amounts attributable to the United States Military will generally be billed over the next 180 days from the balance sheet date as shipments

F-42

THE SECURITY PRODUCTS AND SERVICES GROUP

are made. Amounts receivable on other contracts are also generally billed as shipments are made. It is estimated that substantially all such amounts will be billed within one year, although contract extensions may delay certain collections beyond one year.

The following summarizes activity in the allowance for doubtful accounts on trade accounts receivable:

	BALANCE AT BEGINNING OF PERIOD	ADDITIONS CHARGED TO COSTS AND EXPENSES	DEDUCTIONS	BALANCE AT END OF PERIOD

(e) Restructuring of Operations--In the first quarter of 1999, SPSG began implementation of a restructuring plan (the 1999 Plan) to reduce costs and improve operating efficiencies. The 1999 Plan was substantially completed by the end of the second quarter of 1999. The total non-recurring pre-tax restructuring charge recorded pursuant to the 1999 Plan was approximately \$0.3 million. Total payments or writeoffs made pursuant to the 1999 Plan through December 31, 1999 were \$0.3 million. SPSG does not expect to incur any other significant restructuring charges in future periods related to the 1999 Plan. The principal element of the restructuring plan was the elimination of approximately 55 employees. The components of the restructuring charge in 1999 were as follows:

DESCRIPTION -----	EXPENSE -----
Severance and related costs	\$195,095
Writedown of property, plant and equipment	96,662

	\$291,757
	=====

In the third quarter of 2000, SPSG implemented and completed a plan to reduce costs and improve operating efficiencies (the 2000 Plan) with a total non-recurring pre-tax restructuring charge of approximately \$0.7 million. Total payments pursuant to the 2000 Plan through December 31, 2000 were \$0.4 million. SPSG does not expect to incur any other significant restructuring charges in future periods related to the 2000 Plan. The principal element of the restructuring plan was the elimination of approximately 25 employees. The only component of the restructuring charge was severance related to the termination of employees. At December 31, 2000, approximately \$0.3 million remained as an accrual relating to the 2000 Plan.

5. INCOME TAXES

PSG accounts for income taxes under the liability method pursuant to Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes." Under the liability method, deferred tax liabilities and assets are determined based on the differences between the financial reporting and tax bases of assets and liabilities using enacted tax rates.

SPSG is a wholly-owned subsidiary of Kroll-O'Gara and does not file an individual tax return. Accordingly, for purposes of these separate combined financial statements, SPSG has computed

F-44

THE SECURITY PRODUCTS AND SERVICES GROUP

NOTES TO COMBINED FINANCIAL STATEMENTS

deferred income tax assets and liabilities using the separate return method as allowed by SFAS 109. Under this method, the allocation of tax expense or tax benefit is based on what SPSG's current and deferred tax expense would have been had SPSG filed separate tax returns. This method also assumes that all net operating loss carryforwards are available to be utilized by

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

the respective subsidiaries in the segment.

SPSG's provision for income taxes, excluding the cumulative effect of a change in accounting principle, is summarized as follows:

	1998	1999	2000
	-----	-----	-----

SPSG has certain domestic and foreign net operating loss carryforwards. The domestic net operating loss carryforward approximated \$5.9 million at December 31, 2000 and expires in 2015. There was no domestic net operating loss carryforward at December 31, 1999. The foreign net operating loss carryforwards approximated \$2.6 million and \$3.9 million at December 31, 1999 and 2000, respectively, and relate primarily to Mexico and the Philippines. These carryforwards expire beginning in 2001. A valuation allowance for all existing domestic and foreign net operating loss carryforwards has been provided as it is not certain that the tax benefit will be realized in the foreseeable future. Adjustments to the valuation allowance, if any, will be recorded in the periods in which it is determined the asset is realizable.

Included in other notes payable is a foreign revolving line-of-credit not to exceed \$500,000. Amounts outstanding were \$384,706 and \$333,000 at December 31, 1999 and 2000, respectively.

(b) Parent's Debt Not Specifically Allocated to SPSG--On March 30, 2001, Kroll-O'Gara entered into an amended and restated loan agreement to provide for a revolving credit facility that initially amounts to \$40.0 million. The agreement was further amended on April 20, 2001 and expires on May 31, 2002. Additionally, the agreement provides for a letter of credit facility of \$1,356,250 supporting the Company's Economic Development Revenue Bonds and up to \$6.0 million of transactional letters of credit (see Note 11). Letters of credit cannot be issued or renewed with a maturity date beyond May 31, 2002. Advances under the revolving credit facility bear interest at prime plus 1.5% at December 31, 2000, and, based on the amendments on March 30, 2001 and April 20, 2001, bear interest at the greater of (a) 8.56% or (b) the prime rate plus 1.5%, plus 0.5% times the number of 30-day periods which have expired since April 20, 2001 (or, if less, the highest rate allowed by law). Kroll-O'Gara had approximately \$36.5 million borrowed under the line of credit at December 31, 2000.

Kroll-O'Gara had \$35.0 million of senior notes payable outstanding at December 31, 2000. These agreements were also amended on March 30, 2001 and April 20, 2001. Based on the amendments, the senior notes bear interest at the greater of (a) 8.56% or (b) the prime rate plus 1.5%, plus 0.5% times the number of 30-day periods which have expired since April 20, 2001 (or, if less, the highest rate allowed by law).

The loan agreement and the senior notes (together, the financing agreements) are secured by substantially all assets of Kroll-O'Gara and its subsidiaries and a pledge of the stock of essentially all of the subsidiaries, all of which jointly and severally guarantee obligations under the financing agreements. These financing agreements include financial covenants which, among other restrictions, require the maintenance of certain financial ratios and other financial requirements, including an interest coverage ratio, net worth minimums and minimum quarterly EBITDA, that requires Kroll-O'Gara to effectively break even before taxes and to generate EBITDA of \$6.0 million per quarter. The financing agreements also impose limitations on mergers, acquisitions, stock redemptions, additional indebtedness and capital expenditures. The financing agreements do not permit the declaration or payment of any dividends, other than stock dividends. The net proceeds from any lender-approved asset sales in excess of \$1.0 million per transaction or \$2.0 million per fiscal year must be paid proportionately to the revolving credit facility lender and the holders of the senior notes, with a corresponding reduction in the total permitted borrowings under the revolving credit facility. A material adverse change in the business of Kroll-O'Gara, including a significant sale of net assets, would result in the acceleration of all amounts due to the revolving credit facility lender and the holders of the senior notes. In accordance with the April

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

THE SECURITY PRODUCTS AND SERVICES GROUP

NOTES TO COMBINED FINANCIAL STATEMENTS

20, 2001 amendment to the loan agreement, Kroll-O'Gara's agreement to sell SPSPG would result in an acceleration of all amounts due under the loan agreement 60 days after the closing of the sale. Kroll-O'Gara was not in compliance with certain covenants of the financing agreements as of December 31, 2000. Had the lender and the holders of senior notes not amended and restated the financing agreements, all amounts outstanding under the financing agreements would have been immediately payable. Kroll-O'Gara believes it has the capability to continue to finance its operations and the operations of its segments through fiscal 2001.

8. OPERATING LEASES

SPSPG leases office space and certain equipment and supplies under agreements with terms from one to fifteen years. The following is a schedule, by year, of approximate future minimum rental or usage payments required under operating leases that have initial or non-cancelable lease terms in excess of one year as of December 31, 2000:

2001	\$ 851,987
2002	627,435
2003	565,190
2004	517,763
2005	289,333
Thereafter	724,333

	\$3,576,041
	=====

Rental expense charged against current operations amounted to approximately \$1,169,888, \$1,536,174 and \$1,784,236 for the years ended December 31, 1998, 1999 and 2000, respectively.

9. DEFINED CONTRIBUTION PLAN

SPSPG participates in a Kroll-O'Gara sponsored profit sharing/401(k) plan covering substantially all domestic employees. Contributions to the plan are discretionary. The plan includes a matching contribution whereby SPSPG will contribute a percentage of the amount a participant contributes, limited to certain maximum amounts. Plan contribution expense charged against current operations amounted to approximately \$236,000 and \$146,000 for the years ended December 31, 1999 and 2000, respectively. There was no contribution expense for the year ended December 31, 1998.

10. PARENT EQUITY ARRANGEMENTS

(a) Stock Option Plans--SPSPG employees were granted stock options under Kroll-O'Gara's 1996 stock option plan (the 1996 Plan). Options for 60,500, 220,400 and 82,000 shares were granted during 1998, 1999 and 2000, respectively. Options granted under the 1996 Plan were generally granted at fair market value at the date of grant and are exercisable over periods not exceeding ten years.

In 2000, Kroll-O'Gara adopted a stock option plan (the 2000 Plan) for non-executive employees. Options for 289,850 shares were granted to SPSPG employees during 2000. Options granted under the 2000 Plan were generally

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

granted at fair market value at the date of grant and are exercisable over periods not exceeding ten years.

- (b) Restricted Stock Plan--Effective August 12, 1998, Kroll-O'Gara adopted a stock incentive plan (the 1998 Stock Incentive Plan) for employees. There were no shares granted under the

F-49

THE SECURITY PRODUCTS AND SERVICES GROUP

NOTES TO COMBINED FINANCIAL STATEMENTS

plan during 1998 or 2000, however, during fiscal 1999, 12,500 shares were granted under the plan to SPSG employees. In connection with the shares granted under the Stock Incentive Plan in 1999, SPSG recorded deferred compensation of \$413,595 representing the difference between the fair market value of Kroll-O'Gara common stock on the date of grant and the purchase price of the shares. This amount is presented as a reduction of parent's equity in segment and is being amortized ratably over the vesting periods of the applicable grants. Approximately \$199,000 and \$91,000 was expensed in 1999 and 2000, respectively.

- (c) Stock Based Compensation Disclosure--SFAS 123 requires, at a minimum, pro forma disclosures of expense for stock-based awards based on their fair values. The pro forma amounts below are not necessarily representative of the effects of stock-based awards on future pro forma net income because future plans that include SPSG employees may differ from Kroll-O'Gara stock option plans and accordingly (1) future grants of employee stock options may not be comparable to awards made to employees while SPSG was a part of Kroll-O'Gara, and (2) the assumptions used to compute the fair value of any future stock option awards will be specific to these future plans and therefore, may not be comparable to the Kroll-O'Gara assumptions used. If SPSG had measured compensation cost for the Kroll-O'Gara stock options granted to its employees under the fair value method prescribed by SFAS 123, SPSG's net income (loss) for the years ended December 31, 1998, 1999 and 2000 would have been as follows:

	1998	1999	2000
	-----	-----	-----
Net income (loss):			
As reported	\$9,387,763	\$1,043,109	\$ (10,010,770)
Pro forma	\$8,817,376	\$ 101,957	\$ (10,967,658)

The fair value of each Kroll-O'Gara stock option granted to SPSG employees is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions used by Kroll-O'Gara for grants in 1998, 1999 and 2000:

	YEAR ENDED DECEMBER 31,		
	-----	-----	-----
	1998	1999	2000

Risk-free interest rate	5.4%	5.4%	6.7%
Expected lives	2.5 -- 7.5 years	7.5 years	7.5 years

The 60,500 options granted by Kroll-O'Gara to SPSG employees during 1998 have a weighted-average exercise price of \$18.92, a weighted-average fair value of \$10.02 and remaining contractual lives, on a weighted-average basis, of 7.4 years. The 220,400 options granted by Kroll-O'Gara to SPSG employees during 1999 have a weighted-average exercise price of \$27.66, a weighted-average fair value of \$17.01 and contractual lives, on a weighted-average basis, of 8.2 years. The 371,850 options granted by Kroll-O'Gara to SPSG employees during 2000 have a weighted-average exercise price of \$6.38, a weighted-average fair value of \$3.74 and contractual lives, on a weighted-average basis, of 9.4 years.

A summary of the status of Kroll-O'Gara stock options granted to SPSG employees at December 31, 1998, 1999 and 2000, and the change during the years then ended is presented in the table below:

Of the options outstanding at December 31, 2000, 59,309 options are exercisable at prices per share ranging from \$1.00 to \$9.00 per share, 57,751 options are exercisable at prices per share ranging from \$9.88 to \$12.75 per share and 161,847 options are exercisable at prices per share ranging from \$17.25 to \$26.94 per share.

11. COMMITMENTS AND CONTINGENCIES

- (a) Letters of Credit--Under the terms of the Economic Development Revenue Bonds Agreement, SPSG is required to maintain a letter of credit supporting the debt. As of December 31, 2000, SPSG's lender was committed to providing this letter of credit through May 31, 2001. As of December 31, 2000, SPSG had an outstanding letter of credit in the amount of

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

\$1,356,250.

At December 31, 2000, SPSG had standby and purchase letters of credit, issued on its behalf by its primary lender, in the aggregate amount of \$1,875,562.

- (b) Employment Agreements--Kroll-O'Gara and SPSG have month-to-month employment agreements with SPSG executive officers and management level personnel with annual compensation ranging in value from \$135,000 to \$350,000. The agreements generally provide for salary continuation in the event of termination without cause for the greater of the remainder of the agreement or one year. The agreements also contain certain non-competition clauses and generally provide for one year's salary if the agreement is not renewed.

As of December 31, 2000, the remaining aggregate commitment under these employment agreements if all individuals were terminated without cause was approximately \$785,000.

- (c) Legal Matters--Kroll-O'Gara has been named as a defendant in eight lawsuits alleging that its officers and directors breached their fiduciary duties in connection with the now terminated proposed acquisition of a majority of Kroll-O'Gara's shares by a company formed by Blackstone Capital Partners III Merchant Banking Fund L.P. (Blackstone). The plaintiffs allege that Kroll-O'Gara's officers and directors breached their fiduciary duties by deferring acquisitions, by negotiating an inadequate acquisition price, by failing to engage in arms-length negotiations and by failing to seek redress from Blackstone after Blackstone terminated the proposed transaction. The plaintiffs also allege that Blackstone and American International Group, Inc. and its subsidiaries (AIG) aided and abetted the directors' and officers' alleged breaches of fiduciary duties. The plaintiffs seek to bring their claims derivatively on behalf of Kroll-O'Gara and also seek class certification. The plaintiffs seek a declaration that the individual defendants breached their fiduciary duty and seek damages and attorneys' fees in an unspecified amount. Kroll-O'Gara believes that the allegations in the complaint are meritless and will defend the suits vigorously.

F-51

THE SECURITY PRODUCTS AND SERVICES GROUP

NOTES TO COMBINED FINANCIAL STATEMENTS

In 1999, Kroll-O'Gara learned that an individual had filed a qui tam suit against an SPSG subsidiary under the Civil False Claims Act alleging that the SPSG subsidiary and three of its vendors knowingly violated their contractual requirements with the Army due to the vendors' alleged failure to have certified welders. In October 2000, SPSG settled this litigation with the Department of Justice for approximately \$1.1 million, plus legal costs. SPSG admitted no wrongdoing as part of the settlement. SPSG paid \$0.55 million of the settlement amount in November 2000; the remainder is due on December 30, 2001.

In addition to the matters discussed above, SPSG is involved in litigation from time to time in the ordinary course of its business; however, SPSG does not believe that there is any currently pending or threatened litigation, individually or in the aggregate, that is likely to have a material adverse effect on its financial position, results of operations or its cash flows.

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

12. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of significant current assets, current liabilities and long-term debt approximate their respective historical carrying amounts.

SPSG has entered into six foreign currency exchange contracts to effectively hedge its exposure to certain foreign currency rate fluctuations on intercompany demand loans to one subsidiary which are denominated in a foreign currency. By virtue of these contracts, SPSG has fixed the total dollar amount which it will receive under the aforementioned subsidiary loan through the maturity dates of the contracts regardless of the fluctuations in the exchange rate. As of December 31, 2000, the total notional amount of the contracts, which mature between January 2001 and July 2002, was \$11.5 million. SPSG's cumulative foreign currency translation adjustment component of parent's equity in segment was increased by \$2.0 million in 1999 and decreased by \$0.3 million in 2000 as a result of these contracts.

SPSG has estimated the fair value of its foreign exchange contracts based on information obtained from the counterparty. Fair value represents the amount SPSG would have received at December 31, 2000 if the agreements had been terminated. As of December 31, 2000, SPSG would have received approximately \$0.9 million upon cancellation of all contracts. If SFAS 133 had to be applied to all net investment hedge contracts in place at December 31, 2000, the effect would have been to decrease assets by approximately \$0.2 million with an offsetting amount recorded in the accumulated other comprehensive income (loss) component of parent's equity in segment.

NOTES TO COMBINED FINANCIAL STATEMENTS

SPSG is subject to audit and investigation by various agencies which oversee contract performance in connection with SPSG's contracts with the U.S. government. Management believes that potential claims from such audits and investigations will not have a material adverse effect on the combined financial statements. In addition, contracts with the U.S. government may contain cost or performance incentives or both based on stated targets or other criteria. Cost or performance incentives are recorded at the time there is sufficient information to relate actual performance to targets or

other criteria.

SPSG has foreign operations and assets in Brazil, Colombia, France, Italy, Mexico, Russia and the Philippines. In addition, SPSG sells its products and services in other foreign countries and has continued to increase its level of international activity. Accordingly, SPSG is subject to various risks including, among others, foreign currency restrictions, exchange rate fluctuations, government instability and complexities of local laws and regulations.

(b) Major Customers during the years ended December 31, 1998, 1999 and 2000 sales to the U.S. government approximated 45%, 47% and 48% of SPSG's net sales, respectively.

THE SECURITY PRODUCTS AND SERVICES GROUP

NOTES TO COMBINED UNAUDITED FINANCIAL STATEMENTS

(1) GENERAL

The Security Products and Services Group (SPSG or the Company) is a wholly-owned segment of The Kroll-O'Gara Company (Kroll-O'Gara).

On April 20, 2001, the Board of Directors of Kroll-O'Gara approved a definitive agreement, subject to a limited number of closing conditions, to sell the common stock of the active companies that comprise Kroll-O'Gara's SPSG segment, other than SPSG's subsidiaries that provide kidnap and ransom and risk information services, SPSG's Russian subsidiaries and certain other inactive companies, to Armor Holdings, Inc. (Armor) for up to \$56.5 million. The accompanying SPSG combined financial statements and footnotes exclude the subsidiaries that provide kidnap and ransom and risk information services as they will continue to be operated by Kroll-O'Gara after the sale of SPSG. The Russian subsidiaries and certain other inactive companies are included within the accompanying combined financial statements as they have historically been included within the SPSG segment and might not be operated by Kroll-O'Gara after the sale.

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

Of the \$56.5 million sales price, a portion (\$53.0 million subject to adjustment) is to be paid at closing, currently expected to occur in the third quarter of 2001. An escrow of \$1.5 million will be maintained and a deferred payment of up to \$2.0 million may be made based on SPSG's achievement of a gross profit target for the year ending December 31, 2001. At Armor's option, up to \$15.0 million of the purchase price can be paid in registered common stock of Armor. The purchase price will be reduced dollar-for-dollar to the extent tangible net assets, as defined, are less than approximately \$37.4 million. Kroll-O'Gara currently believes the sale of SPSG will approximate the value of parent's equity in segment. In the event the sale to Armor is not consummated, Kroll-O'Gara will continue to evaluate all options available to it, including seeking other buyers or other alternatives.

The accompanying combined financial statements are presented on a carve-out basis and include the historical results of operations and assets and liabilities of the SPSG entities as noted above. These combined financial statements have been prepared from Kroll-O'Gara's historical accounting records.

SPSG was allocated \$0.9 million and \$1.2 million of overhead costs related to Kroll-O'Gara's corporate administrative functions for the three months ended June 30, 2000 and 2001, respectively, and \$2.0 million and \$2.2 million for the six months ended June 30, 2000 and 2001, respectively. The allocations were based on a specific identification of Kroll-O'Gara's administrative costs attributable to SPSG and, to the extent that such identification was not practicable, on the basis of SPSG's sales as a percentage of Kroll-O'Gara's sales. The expenses associated with various corporate initiatives of Kroll-O'Gara were not allocated to SPSG. The allocated costs are included in the various operating expense captions in the accompanying combined statements of operations.

SPSG's operations have been financed through its operating cash flows and advances from Kroll-O'Gara. SPSG's interest expense includes an allocation of Kroll-O'Gara's interest expense based on Kroll-O'Gara's weighted average interest rate applied to intercompany advances. Interest expense allocated from Kroll O'Gara was \$0.9 million and \$1.0 million at weighted average interest rates of 3.8% and 6.0% for the six months ended June 30, 2000 and 2001, respectively. Income tax was calculated as if SPSG had filed separate income tax returns. SPSG's current income taxes receivable or payable at any point in time are included in the advances from Kroll-O'Gara in parent's equity in segment. The advances from Kroll-O'Gara balance in parent's equity in segment also includes the equity accounts of specific legal entities included in SPSG, the net assets or liabilities of divisions included in SPSG and the net intercompany balances of all entities and divisions with Kroll-O'Gara.

Management believes that its allocation methodologies are reasonable.

The accompanying unaudited combined financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information. Accordingly, they do not include all of the information and footnotes required by accounting

F-58

THE SECURITY PRODUCTS AND SERVICES GROUP

NOTES TO COMBINED UNAUDITED FINANCIAL STATEMENTS--(CONTINUED)

principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for fair presentation have been

included. Operating results for the three months and six months ended June 30, 2001 are not necessarily indicative of the results that may be expected for the year ended December 31, 2001. The accompanying combined financial statements should be read in conjunction with the combined financial statements and notes thereto in SPSG's audited financial statements for the year ended December 31, 2000.

(2) PARENT'S DEBT NOT SPECIFICALLY ALLOCATED TO SPSG

On March 30, 2001, Kroll-O'Gara entered into an amended and restated loan agreement to provide for a revolving credit facility that initially amounts to \$40.0 million. The agreement was further amended on April 20, 2001 and expires on May 31, 2002. Additionally, the agreement provides for a letter of credit facility of \$1,356,250 supporting the Company's Economic Development Revenue Bonds and up to \$6.0 million of transactional letters of credit. Letters of credit cannot be issued or renewed with a maturity date beyond May 31, 2002. Advances under the revolving credit facility bear interest at prime plus 1.5% at June 30, 2001 and, based on the amendments on March 30, 2001 and April 20, 2001, bear interest at the greater of (a) 8.56% or (b) the prime rate plus 1.5%, plus 0.5% (monthly interest factor which was negotiated with the lender to receive advanced waiver to release pledged collateral for the sale of SPSG to Armor) times the number of 30-day periods which have expired since April 20, 2001 (or, if less, the highest rate allowed by law). At June 30, 2001, the interest rate on the revolving credit facility was 9.25%. Kroll-O'Gara had approximately \$36.1 million borrowed under the revolving credit facility at June 30, 2001.

Kroll-O'Gara had \$35.0 million of senior notes payable outstanding at June 30, 2001. These agreements were also amended on March 30, 2001 and April 20, 2001. Based on the amendments, the senior notes bear interest at the greater of (a) 8.56% or (b) the prime rate plus 1.5%, plus 0.5% (monthly interest factor which was negotiated with the lender to receive advanced waiver to release pledged collateral for the sale of SPSG to Armor) times the number of 30-day periods which have expired since April 20, 2001 (or, if less, the highest rate allowed by law). At June 30, 2001, the interest rate on the senior notes was 9.25%.

The loan agreement and the senior notes (together, the financing agreements) are secured by substantially all assets of Kroll-O'Gara and its subsidiaries and a pledge of the stock of essentially all the subsidiaries, all of which jointly and severally guarantee obligations under the financing agreements. These financing agreements include financial covenants which, among other restrictions, require the maintenance of certain financial ratios and other financial requirements, including an interest coverage ratio, net worth minimums and minimum quarterly EBITDA, that requires Kroll-O'Gara to effectively break even before taxes and to generate EBITDA of \$6.0 million per quarter. The financing agreements also impose limitations on mergers, acquisitions, stock redemptions, additional indebtedness and capital expenditures. The financing agreements do not permit the declaration or payment of any dividends, other than stock dividends. The net proceeds from any lender-approved asset sales in excess of \$1.0 million per transaction or \$2.0 million per fiscal year must be paid proportionately to the revolving credit facility lender and the holders of the senior notes, with a corresponding reduction in the total permitted borrowings under the revolving credit facility. A material adverse change in the business of Kroll-O'Gara, including a significant sale of net assets, would result in the acceleration of all amounts due to the revolving credit facility lender and the holders of the senior notes. In accordance with the April 20, 2001 amendment to the loan agreement, Kroll-O'Gara's agreement to sell SPSG would result in an acceleration of all amounts due under the loan agreement 60 days after the closing of the sale. Kroll-O'Gara was not in compliance with certain covenants of the financing agreements as of December 31, 2000 and June 30, 2001. Had the

revolving credit facility lender and the holders of the senior notes not amended and restated the financing

agreements on March 30, 2001 and April 20, 2001, or waived the events of non-compliance as of June 30, 2001, all amounts outstanding under the financing agreements would have been immediately payable. Kroll-O'Gara anticipates compliance with all covenants and believes it has the capability to continue to finance its operations and the operations of its segments throughout the remainder of 2001.

	=====	=====

(5) RESTRUCTURING OF OPERATIONS

In the third quarter of 2000, SPSP implemented and completed a plan to reduce costs and improve operating efficiencies (the 2000 Plan) with a total pre-tax restructuring charge of approximately \$0.7 million. Total payments pursuant to the 2000 Plan through June 30, 2001 were \$0.6 million. SPSP does not expect to incur any other significant restructuring charges in future

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

periods related to the 2000 Plan. The principal element of the restructuring plan was the elimination of approximately 25 employees. The only component of the restructuring charge was severance related to the termination of employees. At June 30, 2001, approximately \$0.1 million remained as an accrual relating to the 2000 Plan.

(6) NEW ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 141, "Business Combinations" (SFAS No. 141), which addresses financial accounting and reporting for business combinations. SFAS No. 141 requires all business combinations in the scope of the statement to be accounted for using one method, the purchase method. The provisions of this statement apply to all business combinations initiated after June 30, 2001. Due to the recent issuance of the standard, the Company is still assessing the potential impact to its combined financial statements.

In June 2001, the FASB issued Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" (SFAS No. 142), which establishes accounting and reporting standards for goodwill and other intangible assets that are acquired individually or with a group of other assets. The provisions of this statement are effective for fiscal years beginning after December 15, 2001. For

F-60

THE SECURITY PRODUCTS AND SERVICES GROUP

NOTES TO COMBINED UNAUDITED FINANCIAL STATEMENTS--(CONTINUED)

example, the Company had amortization expense related to goodwill and other intangible assets of approximately \$0.5 million for the six months ended June 30, 2001. Due to the recent issuance of the standard, the Company is still assessing the potential impact to its combined financial statements.

UNAUDITED PRO FORMA CONDENSED CONSOLIDATED STATEMENTS OF OPERATIONS

The following unaudited pro forma condensed consolidated statements of operations for the year ended December 31, 2000 and the six months ended June 30, 2001 are presented for informational purposes only and are not necessarily indicative of actual results that would have been achieved had the transaction been consummated at the beginning of, or for, the periods indicated. These pro forma condensed consolidated statements of operations do not purport to indicate results of operations as of any future period. The pro forma condensed consolidated statement of operations for the year ended December 31, 2000 and the six months ended June 30, 2001 reflect only anticipated cost savings directly attributable to the acquisition of O'Gara which we believe would have resulted had the acquisition occurred on January 1, 2000 and reflects the implementation of Statement of Financial Accounting Standard No. 142, Goodwill and Other Intangible Assets, as if it had been applied to the acquisition of O'Gara. The unaudited pro forma condensed consolidated statements of operations should be read in conjunction with our Consolidated Financial Statements and the related notes thereto filed with our Form 10-K for the year ended December 31, 2000, and the Combined Financial Statements of SPSG included herein.

In preparing the unaudited pro forma condensed consolidated statement of operations for the year ended December 31, 2000 and the six months ended June 30, 2001, we used a purchase price of \$52.3 million (which excludes the \$2

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

million contingent earnout) and a net tangible book value of \$35.2 million.

NOTES TO UNAUDITED PRO FORMA CONDENSED CONSOLIDATED STATEMENT OF OPERATIONS

- (1) SPSG's combined results of operations are presented for the year ended December 31, 2000.
- (2) Reflects a change from O'Gara's revenue recognition policy on long-term contracts from percentage of completion based on the cost incurred basis to percentage of completion based on the units completed basis. For the year ended December 31, 2000, this change in revenue recognition would have resulted in an increase in revenues of approximately \$9.3 million and an increase in cost of sales of approximately \$5.6 million.
- (3) Represents an adjustment to operating expenses to reflect the reduction in information technology consulting and data circuit costs of \$262,000, and reduced insurance fees of \$100,000 pursuant to our existing contracts.

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

- (4) Reflects the elimination of amortization expense for the SPSG companies being acquired pursuant to this acquisition. According to Statement of Financial Accounting Standard No. 142, Goodwill and Other Intangible Assets, goodwill arising from business combinations completed after July 1, 2001 will no longer require annual amortization but rather be tested for impairment.
- (5) Reflects the elimination of the Russian operations with revenues of \$1.9 million, cost of sales of \$1.6 million, operating expenses of \$487,000, amortization expense of \$450,000 and other income of \$109,000. These operations are not being purchased as part of the O'Gara acquisition.
- (6) Reflects the adjustment to the provision for taxes by applying our estimated effective tax rate to the pretax pro forma income derived from the pro forma adjustments described above.
- (7) Reflects interest expense of \$2.7 million related to the acquisition debt incurred as a result of this transaction, net of the elimination of SPSG's allocated interest expense of \$2.4 million.
- (8) Reflects the issuance of 1,009,422 shares of our \$0.01 par value per share common stock valued at \$15 million issued as part of the consideration for the acquisition of O'Gara.

CONSOLIDATED STATEMENT OF OPERATIONS

- (1) SPSPG's combined results of operations are presented for the six months ended June 30, 2001.
- (2) Reflects a change from O'Gara's revenue recognition policy on long-term contracts from percentage of completion based on the cost incurred basis to percentage of completion based on the units completed basis. For the six months ended June 30, 2001, this change in revenue recognition would have resulted in an decrease in revenues of approximately \$1.5 million and an decrease in cost of sales of approximately \$1.0 million.
- (3) Represents an adjustment to operating expenses to reflect reduced information technology consulting and data circuit costs of \$52,000 and reduced insurance fees of \$75,000 pursuant to our existing contracts.
- (4) Reflects the elimination of the historical amortization expense associated with pre-existing goodwill on the SPSPG companies being acquired pursuant to this acquisition. In addition, no adjustment has been made to recognize amortization of goodwill associated with this acquisition as the expected acquisition will occur subsequent to June 30, 2001. According to Statement of Financial Accounting Standard No. 142, Goodwill and Other Intangible Assets, goodwill arising from business combinations completed after July 1, 2001 will no longer require annual amortization but rather be tested for impairment.
- (5) Reflects the elimination of the Russian operations with revenues of \$1.2 million, cost of sales of \$917,000, operating expenses of \$186,000, amortization expense of \$146,000 and other income of \$13,000. These operations are not being purchased as part of the O'Gara acquisition.
- (6) Reflects an adjustment to the provision for taxes by applying our estimated effective tax rate to the pretax pro forma income derived from the pro forma adjustments described above.
- (7) Reflects interest expense of \$1.3 million related to the acquisition debt incurred as a result of this transaction, net of the elimination of SPSPG's allocated interest expense of \$1.2 million.

UNAUDITED PRO FORMA CONDENSED CONSOLIDATED BALANCE SHEET

The following unaudited pro forma condensed consolidated balance sheet as of June 30, 2001 is presented for informational purposes only and is not necessarily indicative of our financial position had the acquisition of O'Gara been consummated on June 30, 2001. This pro forma condensed balance sheet does not purport to indicate our financial position as of any future period. The pro forma condensed consolidated balance sheet as of June 30, 2001 reflects those adjustments directly attributable to the acquisition of O'Gara that we believe would have resulted had the acquisition occurred on June 30, 2001. This unaudited pro forma condensed balance sheet should be read in conjunction with

NOTES TO UNAUDITED PRO FORMA CONSOLIDATED BALANCE SHEET

- (1) SPSG's combined balance sheet as of June 30, 2001.
- (2) Reflects the elimination of the Russian operations as well as certain other assets and liabilities of SPSG that will not be purchased by us. The elimination of the Russian operations results in a reduction in cash of \$125,000, a reduction in accounts receivable of \$37,000, a reduction of inventory of \$442,000, a reduction of other current assets of \$20,000 a reduction in land, buildings and equipment of \$679,000, a reduction in intangible assets of \$1.4 million, a reduction in other assets of \$352,000, a reduction in accounts payable, accrued expenses and other current liabilities of \$483,000, a reduction in long-term debt, capitalized lease obligations and other long-term liabilities of \$132,000, and a reduction in Parent's equity in segment of \$2.4 million.
- (3) Reflects the adjustment of SPSG's historical costs in excess of billings and inventory resulting from a change in O'Gara's revenue recognition policy on long-term contracts from percentage of completion based on the cost incurred basis to percentage of completion on the units completed basis. This change in revenue recognition results in a decrease in costs in excess of billings of \$12.7 million and an increase in inventory of \$9.6 million.
- (4) Reflects the excess of purchase price over the fair value of the net assets acquired of approximately \$25.1 million, net of O'Gara's existing goodwill of \$13.4 million.
- (5) Reflects borrowings of approximately \$37.3 million necessary to consummate the O'Gara acquisition.
- (6) The adjustment to prepaid expenses and other current assets, accounts payable, accrued expenses and other current liabilities includes the accrual of direct costs in the amount of \$5.0 million, net of \$4.0 million incurred by us through June 30, 2001.
- (7) Reflects the issuance of 1,009,422 shares of our common stock with \$0.01 par value per share for the acquisition of the O'Gara. The number of shares was determined by using the average closing price of the ten trading days up to and including August 8, 2001.
- (8) Represents additional paid in capital associated with the issuance of 1,009,422 shares of our common stock at an assumed price of \$14.86 per share issued as consideration of the O'Gara acquisition.

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS

Section 145 of the General Corporation Law of the State of Delaware (the

Edgar Filing: ARMOR HOLDINGS INC - Form S-3

"DGCL") makes provision for the indemnification of officers and directors of corporations in terms sufficiently broad to indemnify our officers and directors under certain circumstances from liabilities (including reimbursement of expenses incurred) arising under the Securities Act.

As permitted by the DGCL, our Charter provides that, to the fullest extent permitted by the DGCL, no director shall be liable to the Company or to its stockholders for monetary damages for breach of his fiduciary duty as a director. Delaware law does not permit the elimination of liability (i) for any breach of the director's duty of loyalty to the Company or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) in respect of certain unlawful dividend payments or stock redemptions or repurchases or (iv) for any transaction from which the director derives an improper personal benefit. The effect of this provision in the Charter is to eliminate the rights of the Company and its stockholders (through stockholders' derivative suits on behalf of the Company) to recover monetary damages against a director for breach of fiduciary duty as a director thereof (including breaches resulting from negligent or grossly negligent behavior) except in the situations described in clauses (i)-(iv), inclusive, above. These provisions will not alter the liability of directors under federal securities laws.

Our Charter provides that we may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the Company) by reason of the fact that he is or was a director, officer, employee or agent of the Company or is or was serving at the request of the Company as a director, officer, employee or agent of another corporation or enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding if such person acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the Company, and, with respect to any criminal action or proceeding, had no reasonable cause to believe such person's conduct was unlawful.

Our Charter also provides that we may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the Company to procure a judgment in its favor by reason of the fact that such person acted in any of the capacities set forth above, against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection with the defense or settlement of such action or suit if such person acted under similar standards, except that no indemnification may be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the

Company unless and only to the extent that the Court of Chancery of the State of Delaware or the court in which such action or suit was brought shall determine upon application that despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Our Charter also provides that to the extent a director or officer of the Company has been successful in the defense of any action, suit or proceeding referred to in the previous paragraphs or in the defense of any claim, issue, or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection

therewith; that indemnification provided for in the Charter shall not be deemed exclusive of any other rights to which the indemnified party may be entitled; and that the Company may purchase and maintain insurance on behalf of a director or officer of the Company against any liability asserted against him or incurred by him in any such capacity or arising out of his status as such whether or not the Company would have the power to indemnify him against such liabilities under the provisions of Section 145 of the DGCL.

ITEM 17. UNDERTAKINGS

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

II-2

The undersigned registrant hereby undertakes that:
