THE INFORMATION IN THIS PROSPECTUS IS NOT COMPLETE AND MAY BE CHANGED. WE MAY NOT SELL THESE SECURITIES UNTIL THE REGISTRATION STATEMENT FILED WITH THE SECURITIES AND EXCHANGE COMMISSION IS EFFECTIVE. THIS PROSPECTUS IS NOT AN OFFER TO SELL THESE SECURITIES AND IS NOT SOLICITING AN OFFER TO BUY THESE SECURITIES IN ANY STATE WHERE THE OFFER OR SALE IS NOT PERMITTED.

PRELIMINARY PROSPECTUS  
SUBJECT TO COMPLETION, MARCH 12, 2004

PROSPECTUS

\$21,000,000

TREMISIS ENERGY ACQUISITION CORPORATION

3,500,000 UNITS

Tremisis Energy Acquisition Corporation is a newly organized Specified Purpose Acquisition Company(TM), or SPAC(TM). A "Specified Purpose Acquisition Company" or "SPAC" is a blank check company organized for the purpose of effecting a merger, capital stock exchange, asset acquisition or other similar business combination with an operating business. Our objective is to acquire an operating business in either the energy or environmental industry and their related infrastructures.

This is an initial public offering of our securities. Each unit consists of:

- o one share of our common stock; and
- o two warrants.

Each warrant entitles the holder to purchase one share of our common stock at a price of \$5.00. Each warrant will become exercisable on the later of our completion of a business combination or \_\_\_\_\_, 2005 [ONE YEAR FROM THE DATE OF THIS PROSPECTUS], and will expire on \_\_\_\_\_, 2008 [FOUR YEARS FROM THE DATE OF THIS PROSPECTUS], or earlier upon redemption.

We have granted the underwriters a 45-day option to purchase up to 525,000

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

additional units solely to cover over-allotments, if any (over and above the 3,500,000 units referred to above). The over-allotment will be used only to cover the net syndicate short position resulting from the initial distribution. We have also agreed to sell to the representative of the underwriters, for \$100, an option to purchase up to a total of 350,000 units at a per-unit offering price of \$9.90. The units issuable upon exercise of this option are identical to those offered by this prospectus except that the warrants included in the option have an exercise price of \$6.35 (127% of the exercise price of the warrants included in the units sold in the offering). The purchase option and its underlying securities have been registered under the registration statement of which this prospectus forms a part.

There is presently no public market for our units, common stock or warrants. We anticipate that the units will be quoted on the OTC Bulletin Board under the symbol \_\_\_\_\_ on or promptly after the date of this prospectus. Once the securities comprising the units begin separate trading, the common stock and warrants will be traded on the OTC Bulletin Board under the symbols \_\_\_\_\_ and \_\_\_\_\_, respectively.

INVESTING IN OUR SECURITIES INVOLVES A HIGH DEGREE OF RISK. SEE "RISK FACTORS" BEGINNING ON PAGE 8 OF THIS PROSPECTUS FOR A DISCUSSION OF INFORMATION THAT SHOULD BE CONSIDERED IN CONNECTION WITH AN INVESTMENT IN OUR SECURITIES.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	PUBLIC OFFERING PRICE	UNDERWRITING DISCOUNT AND COMMISSIONS (1)	PROCEEDS, BEFORE EXPENSES, TO US
	-----	-----	-----
Per unit .....	\$ 6.00	\$ 0.60	\$ 5.40
Total .....	\$21,000,000	\$2,100,000	\$18,900,000

(1) Includes a non-accountable expense allowance in the amount of 3% of the gross proceeds, or \$0.18 per unit (\$630,000 in total) payable to EarlyBirdCapital, Inc.

Of the net proceeds we receive from this offering, \$17,850,000 (\$5.10 per unit) will be deposited into trust with American Stock Transfer & Trust Company acting as trustee.

We are offering the units for sale on a firm-commitment basis. EarlyBirdCapital, Inc., acting as representative of the underwriters, expects to deliver our securities to investors in the offering on or about \_\_\_\_\_, 2004.

PROSPECTUS SUMMARY

This summary highlights certain information appearing elsewhere in this prospectus. For a more complete understanding of this offering, you should read the entire prospectus carefully, including the risk factors and the financial statements. Unless otherwise stated in this prospectus, references to "we," "us" or "our company" refer to Tremisis Energy Acquisition Corporation. Unless we tell you otherwise, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option. Additionally, unless we tell you otherwise, the information in this prospectus has been adjusted to give retroactive effect to a 1.1666666-to-one forward stock split effected on March 10, 2004.

We are a blank check company known as a Specified Purpose Acquisition Company(TM), or SPAC(TM). We were organized under the laws of the State of Delaware on February 5, 2004. We were formed to effect a merger, capital stock exchange, asset acquisition or other similar business combination with an operating business in either the energy or the environmental industry and their related infrastructures. To date, our efforts have been limited to organizational activities.

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

### ENERGY INDUSTRY AND ITS RELATED INFRASTRUCTURE

The energy industry and its related infrastructure generally includes the production, generation, transmission and distribution of electricity, heat, fuel and other consumable forms of energy and the infrastructure needed to maintain and operate the facilities, services and installations used in the foregoing areas.

Although we may consider a target business in any segment of the energy industry, we currently intend to concentrate our search for an acquisition candidate on companies in the following segments:

- o Electricity generation, distribution and transmission;
- o Natural gas production, distribution and transmission;
- o Energy related services including conservation, metering, operations and maintenance;
- o Steam generation and distribution;
- o Alternative and renewable energy technologies;
- o Infrastructure related to towers, power lines, electric distribution facilities and products and shoring, forming and scaffolding products.

### ENVIRONMENTAL INDUSTRY AND ITS RELATED INFRASTRUCTURE

The environmental industry and its related infrastructure generally includes the technologies and services that protect the natural and human environment from destruction and pollution, and the infrastructure needed to maintain and operate the facilities, services and installations used in the foregoing areas. The environmental industry also seeks to ameliorate the negative effects of industrial production and unhealthy practices and materials on our population as a whole.

Although we may consider a target business in any segment of the environmental industry, we currently intend to concentrate our search for an acquisition candidate on companies in the following segments:

- o Waste management and disposal, including wastewater treatment and management and sewage control;
- o Air treatment and ionization, pollution and emission control;
- o Medical waste disposal;
- o Radon and site cleanup services;
- o Other energy/environmental related technologies; and

- o Infrastructure related to water supply facilities, waste and wastewater treatment facilities, pollution control facilities and transportation facilities, along with their respective products.

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

Although we believe there are many positive trends that make acquisition candidates in both the energy and environmental industries attractive, there are various risks of acquiring a business in such industries, including substantial government regulation. Depending on the industry segment we ultimately operate in, we may be required to spend substantial amounts of time and money in complying with such governmental regulations. For a more complete discussion of the risks relating to operations in the energy and environmental industries, see the section below entitled "Risk Factors."

While we may seek to effect business combinations with more than one target business, our initial business combination must be with a target business whose fair market value is at least equal to 80% of our net assets at the time of such acquisition. Consequently, it is likely that we will have the ability to effect only a single business combination.

Our offices are located at 1775 Broadway, Suite 604, New York, New York 10019 and our telephone number is (212) 947-0094.

4

### THE OFFERING

Securities offered:..... 3,500,000 units, at \$6.00 per unit, each unit consisting of:

- o one share of common stock; and
- o two warrants.

The units will begin trading on or promptly after the date of this prospectus. Each of the common stock and warrants may trade separately on the 90th day after the date of this prospectus unless EarlyBirdCapital determines that an earlier date is acceptable. In no event will EarlyBirdCapital allow separate trading of the common stock and warrants until we file an audited balance sheet reflecting our receipt of the gross proceeds of this offering. We will file a Current Report on Form 8-K, including an audited balance sheet, upon the consummation of this offering, which is anticipated to take place three business days from the date of this prospectus. The audited balance sheet will include proceeds we receive from the exercise of the over-allotment option if the over-allotment option is exercised prior to the filing of the Form 8-K.

### Common stock:

Number outstanding before this offering..... 875,000 shares

Number to be outstanding after

Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

this offering..... 4,375,000 shares

Warrants:

Number outstanding before this offering..... 0

Number to be outstanding after this offering..... 7,000,000 warrants

Exercisability..... Each warrant is exercisable for one share of common stock.

Exercise price..... \$5.00

Exercise period..... The warrants will become exercisable on the later of:

- o the completion of a business combination with a target business, or
- o [ ], 2005 [ONE YEAR FROM THE DATE OF THIS PROSPECTUS].

The warrants will expire at 5:00 p.m., New York City time, on [ ], 2008 [FOUR YEARS FROM THE DATE OF THIS PROSPECTUS] or earlier upon redemption.

5

Redemption..... We may redeem the outstanding warrants:

- o in whole and not in part,
- o at a price of \$.01 per warrant at any time after the warrants become exercisable,
- o upon a minimum of 30 days' prior written notice of redemption, and
- o if, and only if, the last sales price of our common stock equals or exceeds \$8.50 per share for any 20 trading days within a 30 trading day period ending three business days before we send the notice of redemption.

Proposed OTC Bulletin Board symbols for our:

Units..... [ ]

Common stock..... [ ]

Warrants..... [ ]

Offering proceeds to be held in trust:..... \$17,850,000 of the proceeds of this offering (\$5.10 per unit) will be placed in a trust fund

Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

at JPMorgan Chase NY Bank maintained by American Stock Transfer & Trust Company, pursuant to an agreement to be signed on the date of this prospectus. These proceeds will not be released until the earlier of the completion of a business combination or our liquidation. Therefore, unless and until a business combination is consummated, the proceeds held in the trust fund will not be available for our use for any expenses related to this offering or expenses which we may incur related to the investigation and selection of a target business and the negotiation of an agreement to acquire a target business. These expenses may be paid prior to a business combination only from the net proceeds of this offering not held in the trust fund (initially, approximately \$690,000).

None of the warrants may be exercised until after the consummation of a business combination and, thus, after the proceeds of the trust fund have been disbursed, the warrant exercise price will be paid directly to us.

Stockholders must approve

business combination:.....

We will seek stockholder approval before we effect any business combination, even if the nature of the acquisition would not ordinarily require stockholder approval under applicable state law. In connection with the vote required for any business combination, all of our existing stockholders, including all of our officers and directors, have agreed to vote the shares of common stock owned by them immediately before this offering in accordance with

6

the public stockholders. We will proceed with a business combination only if a majority of the shares of common stock voted by the public stockholders are voted in favor of the business combination and public stockholders owning less than 20% of the shares sold in this offering exercise their conversion rights described below.

Conversion rights for stockholders

voting to reject a business

combination:.....

Public stockholders voting against a business combination will be entitled to convert their stock into a pro rata share of the trust fund, including any interest earned on their portion of the trust fund, if the business combination is approved and completed.

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

Liquidation if no

business combination:..... We will dissolve and promptly distribute only to our public stockholders the amount in our trust fund plus any remaining net assets if we do not effect a business combination within 18 months after consummation of this offering (or within 24 months from the consummation of this offering if a letter of intent, agreement in principle or definitive agreement has been executed within 18 months after consummation of this offering and the business combination has not yet been consummated within such 18 month period).

Escrow of management shares:... On the date of this prospectus, all of our existing stockholders, including all of our officers and directors, will place the shares they owned before this offering into an escrow account maintained by American Stock Transfer & Trust Company, acting as escrow agent. Subject to certain limited exceptions, these shares will not be transferable during the escrow period and will not be released from escrow until [ ], 2007 [THREE YEARS FROM THE DATE OF THIS PROSPECTUS].

### RISKS

In making your decision on whether to invest in our securities, you should take into account not only the backgrounds of our management team, but also the special risks we face as a blank check company, as well as the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act of 1933, as amended, and, therefore, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider all of the risks set forth in the section entitled "Risk Factors" beginning on page 9 of this prospectus.

### SUMMARY FINANCIAL DATA

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data is presented.

	MARCH 10, 2004	
	ACTUAL	AS ADJUSTED
<b>BALANCE SHEET DATA:</b>		
Working capital/(deficiency) .....	\$ (65,735)	18,580,000
Total assets .....	95,000	18,580,000

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

Total liabilities .....	70,000	--
Value of common stock which may be converted to cash (\$5.10 per share).....	--	3,568,215
Stockholders' equity .....	25,000	15,011,785

The "as adjusted" information gives effect to the sale of the units we are offering and the application of the estimated net proceeds from their sale.

The working capital and total assets amounts include the \$17,850,000 being held in the trust fund, which will be available to us only upon the consummation of a business combination within the time period described in this prospectus. If a business combination is not so consummated, we will be dissolved and the proceeds held in the trust fund will be distributed solely to our public stockholders.

We will not proceed with a business combination if public stockholders owning 20% or more of the shares sold in this offering vote against the business combination and exercise their conversion rights. Accordingly, we may effect a business combination if public stockholders owning up to approximately 19.99% of the shares sold in this offering exercise their conversion rights. If this occurred, we would be required to convert to cash up to approximately 19.99% of the 3,500,000 shares sold in this offering, or 699,650 shares of common stock, at an initial per-share conversion price of \$5.10, without taking into account interest earned on the trust fund. The actual per-share conversion price will be equal to:

- o the amount in the trust fund as of the record date for the determination of stockholders entitled to vote on the business combination plus any interest accrued through the record date,
- o divided by the number of shares of common stock sold in the offering.

8

### RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully the risks described below, together with the other information contained in this prospectus before making a decision to invest in our units.

#### RISKS ASSOCIATED WITH OUR BUSINESS

WE ARE A DEVELOPMENT STAGE COMPANY WITH NO OPERATING HISTORY AND VERY LIMITED RESOURCES AND OUR FINANCIAL STATEMENTS CONTAIN A STATEMENT INDICATING THAT OUR ABILITY TO CONTINUE AS A GOING CONCERN IS DEPENDENT ON US RAISING FUNDS IN THIS OFFERING.

We are a recently incorporated development stage company with no operating results to date. Since we do not have an operating history, you will have no basis upon which to evaluate our ability to achieve our business objective, which is to acquire an operating business in either of the energy or environmental industries and their related infrastructures. We have not

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

conducted any discussions and we have no plans, arrangements or understandings with any prospective acquisition candidates. We will not generate any revenues (other than interest income on the proceeds of this offering) until, at the earliest, after the consummation of a business combination. The report of our independent certified public accountants on our financial statements includes an explanatory paragraph, stating that our ability to continue as a going concern, is dependent on the consummation of this offering. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

IF WE ARE FORCED TO LIQUIDATE BEFORE A BUSINESS COMBINATION, OUR PUBLIC STOCKHOLDERS WILL RECEIVE LESS THAN \$6.00 PER SHARE UPON DISTRIBUTION OF THE TRUST FUND AND OUR WARRANTS WILL EXPIRE WORTHLESS.

If we are unable to complete a business combination and are forced to liquidate our assets, the per-share liquidation distribution will be less than \$6.00 because of the expenses of this offering, our general and administrative expenses and the anticipated costs of seeking a business combination. Furthermore, there will be no distribution with respect to our outstanding warrants and, accordingly, the warrants will expire worthless if we liquidate before the completion of a business combination. For a more complete discussion of the effects on our stockholders if we are unable to complete a business combination, see the section below entitled "Effecting a business combination--Liquidation if no business combination."

YOU WILL NOT BE ENTITLED TO PROTECTIONS NORMALLY AFFORDED TO INVESTORS OF BLANK CHECK COMPANIES.

Since the net proceeds of this offering are intended to be used to complete a business combination with a target business that has not been identified, we may be deemed to be a "blank check" company under the United States securities laws. However, since we will have net tangible assets in excess of \$5,000,000 upon the successful consummation of this offering and our units are being offered at an initial price of \$6.00 per unit, we are exempt from rules promulgated by the SEC to protect investors of blank check companies such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Because we are not subject to Rule 419, our units will be immediately tradable and we have a longer period of time to complete a business combination in certain circumstances. For a more detailed comparison of our offering to offerings under Rule 419, see the section entitled "Comparison to offerings of blank check companies" below.

IF THIRD PARTIES BRING CLAIMS AGAINST US, THE PROCEEDS HELD IN TRUST COULD BE REDUCED AND THE PER-SHARE LIQUIDATION PRICE RECEIVED BY STOCKHOLDERS WILL BE LESS THAN \$5.10 PER SHARE.

Our placing of funds in trust may not protect those funds from third party claims against us. The proceeds held in trust could be subject to claims which could take priority over the claims of our public stockholders. We cannot assure you that the per-share liquidation price will not be less than \$5.10, plus interest, due to claims of creditors. If we liquidate before the completion of a business

combination, Lawrence S. Coben, our chairman of the board and chief executive officer, will be personally liable under certain circumstances to ensure that

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

the proceeds in the trust fund are not reduced by the claims of various vendors or other entities that are owed money by us for services rendered or products sold to us. However, we cannot assure you that Mr. Coben will be able to satisfy those obligations.

SINCE WE HAVE NOT CURRENTLY SELECTED ANY TARGET BUSINESS WITH WHICH TO COMPLETE A BUSINESS COMBINATION, WE ARE UNABLE TO CURRENTLY ASCERTAIN THE MERITS OR RISKS OF THE BUSINESS' OPERATIONS.

Since we have not yet identified a prospective target business, investors in this offering have no current basis to evaluate the possible merits or risks of the target business' operations. To the extent we complete a business combination with a financially unstable company or an entity in its development stage, we may be affected by numerous risks inherent in the business operations of those entities. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors. We also cannot assure you that an investment in our units will not ultimately prove to be less favorable to investors in this offering than a direct investment, if an opportunity were available, in a target business. For a more complete discussion of our selection of a target business, see the section below entitled "Effecting a business combination--We have not identified a target business."

WE MAY ISSUE SHARES OF OUR CAPITAL STOCK OR DEBT SECURITIES TO COMPLETE A BUSINESS COMBINATION, WHICH WOULD REDUCE THE EQUITY INTEREST OF OUR STOCKHOLDERS AND LIKELY CAUSE A CHANGE IN CONTROL OF OUR OWNERSHIP.

Our certificate of incorporation authorizes the issuance of up to 20,000,000 shares of common stock, par value \$.0001 per share, and 1,000,000 shares of preferred stock, par value \$.0001 per share. Immediately after this offering (assuming no exercise of the underwriters' over-allotment option), there will be 7,575,000 authorized but unissued shares of our common stock available for issuance (after appropriate reservation for the issuance of shares upon full exercise of our outstanding warrants and the purchase option granted to EarlyBirdCapital, the representative of the underwriters) and all of the 1,000,000 shares of preferred stock available for issuance. Although we have no commitments as of the date of this offering to issue our securities, we will, in all likelihood, issue a substantial number of additional shares of our common stock or preferred stock, or a combination of common and preferred stock, to complete a business combination. The issuance of additional shares of our common stock or any number of shares of our preferred stock:

- o may significantly reduce the equity interest of investors in this offering;
- o will likely cause a change in control if a substantial number of our shares of common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and most likely also result in the resignation or removal of our present officers and directors; and
- o may adversely affect prevailing market prices for our common stock.

Similarly, if we issued debt securities, it could result in:

- o default and foreclosure on our assets if our operating revenues after a business combination were insufficient to pay our debt obligations;
- o acceleration of our obligations to repay the indebtedness even if we have made all principal and interest payments when due if the debt

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

security contained covenants that required the maintenance of certain financial ratios or reserves and any such covenant were breached without a waiver or renegotiation of that covenant;

10

- o our immediate payment of all principal and accrued interest, if any, if the debt security was payable on demand; and
- o our inability to obtain additional financing, if necessary, if the debt security contained covenants restricting our ability to obtain additional financing while such security was outstanding.

For a more complete discussion of the possible structure of a business combination, see the section below entitled "Effecting a business combination--Selection of a target business and structuring of a business combination."

IT IS LIKELY THAT OUR CURRENT OFFICERS AND DIRECTORS WILL RESIGN UPON CONSUMMATION OF A BUSINESS COMBINATION AND WE WILL HAVE ONLY LIMITED ABILITY TO EVALUATE THE MANAGEMENT OF THE TARGET BUSINESS.

Our ability to successfully effect a business combination will be totally dependent upon the efforts of our key personnel. The future role of our key personnel in the target business, however, cannot presently be ascertained. Although it is possible that some of our key personnel will remain associated in various capacities with the target business following a business combination, it is likely that the management of the target business at the time of the business combination will remain in place. Although we intend to closely scrutinize the management of a prospective target business in connection with evaluating the desirability of effecting a business combination, we cannot assure you that our assessment of management will prove to be correct.

OUR OFFICERS AND DIRECTORS MAY ALLOCATE THEIR TIME TO OTHER BUSINESSES WHICH COULD CAUSE A CONFLICT OF INTEREST AS TO WHICH BUSINESS THEY PRESENT A VIABLE ACQUISITION OPPORTUNITY TO.

Our officers and directors are not required to commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and other businesses. Some of these persons may in the future become affiliated with entities, including other "blank check" companies, engaged in business activities similar to those intended to be conducted by us. Our officers and directors may become aware of business opportunities which may be appropriate for presentation to us as well as the other entities with which they are or may be affiliated. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. For a complete discussion of the potential conflicts of interest that you should be aware of, see the section below entitled "Management--Conflicts of Interest." We cannot assure you that these conflicts will be resolved in our favor.

ALL OF OUR OFFICERS AND DIRECTORS OWN SHARES OF OUR SECURITIES WHICH WILL NOT PARTICIPATE IN LIQUIDATION DISTRIBUTIONS AND THEREFORE THEY MAY HAVE A CONFLICT OF INTEREST IN DETERMINING WHETHER A PARTICULAR TARGET BUSINESS IS APPROPRIATE FOR A BUSINESS COMBINATION.

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

All of our officers and directors own stock in our company, but have waived their right to receive distributions upon liquidation. Additionally, Lawrence S. Coben has agreed with the representative of the underwriters that he and certain of his affiliates or designees will purchase warrants in the open market following this offering. The shares and warrants owned by our directors and officers will be worthless if we do not consummate a business combination. The personal and financial interests of our directors and officers may influence their motivation in identifying and selecting a target business and completing a business combination timely. Consequently, our directors' and officers' discretion in identifying and selecting a suitable target business may result in a conflict of interest when determining whether the terms, conditions and timing of a particular business combination are appropriate and in our stockholders' best interest.

IF OUR COMMON STOCK BECOMES SUBJECT TO THE SEC'S PENNY STOCK RULES, BROKER-DEALERS MAY EXPERIENCE DIFFICULTY IN COMPLETING CUSTOMER TRANSACTIONS AND TRADING ACTIVITY IN OUR SECURITIES MAY BE ADVERSELY AFFECTED.

If at any time we have net tangible assets of \$5,000,000 or less and our common stock has a market price per share of less than \$5.00, transactions in our common stock may be subject to the

11

"penny stock" rules promulgated under the Securities Exchange Act of 1934. Under these rules, broker-dealers who recommend such securities to persons other than institutional accredited investors must:

- o make a special written suitability determination for the purchaser;
- o receive the purchaser's written agreement to a transaction prior to sale;
- o provide the purchaser with risk disclosure documents which identify certain risks associated with investing in "penny stocks" and which describe the market for these "penny stocks" as well as a purchaser's legal remedies; and
- o obtain a signed and dated acknowledgment from the purchaser demonstrating that the purchaser has actually received the required risk disclosure document before a transaction in a "penny stock" can be completed.

If our common stock becomes subject to these rules, broker-dealers may find it difficult to effectuate customer transactions and trading activity in our securities may be adversely affected. As a result, the market price of our securities may be depressed, and you may find it more difficult to sell our securities.

IT IS PROBABLE THAT WE WILL ONLY BE ABLE TO COMPLETE ONE BUSINESS COMBINATION, WHICH WILL CAUSE US TO BE SOLELY DEPENDENT ON A SINGLE BUSINESS AND A LIMITED NUMBER OF PRODUCTS OR SERVICES.

The net proceeds from this offering will provide us with only approximately \$18,540,000 which we may use to complete a business combination. Our initial business combination must be with a business with a fair market value of at least 80% of our net assets at the time of such acquisition. Consequently, it is probable that we will have the ability to complete only a

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

single business combination. Accordingly, the prospects for our success may be:

- o solely dependent upon the performance of a single business, or
- o dependent upon the development or market acceptance of a single or limited number of products, processes or services.

In this case, we will not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry.

BECAUSE OF OUR LIMITED RESOURCES AND THE SIGNIFICANT COMPETITION FOR BUSINESS COMBINATION OPPORTUNITIES, WE MAY NOT BE ABLE TO CONSUMMATE AN ATTRACTIVE BUSINESS COMBINATION.

We expect to encounter intense competition from other entities having a business objective similar to ours, including venture capital funds, leveraged buyout funds and operating businesses competing for acquisitions in the energy or environmental industry and their related infrastructures. Many of these entities are well established and have extensive experience in identifying and effecting business combinations directly or through affiliates. Many of these competitors possess greater technical, human and other resources than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe that there are numerous potential target businesses that we could acquire with the net proceeds of this offering, our ability to compete in acquiring certain sizable target businesses will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Further, the obligation we have to seek stockholder approval of a business combination may delay the consummation of a transaction, and our obligation to convert into cash the shares of common stock held by public stockholders in certain instances may reduce the resources available for a business combination. Additionally, our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Any of these obligations may place us at a competitive disadvantage in successfully negotiating a business combination.

12

WE MAY BE UNABLE TO OBTAIN ADDITIONAL FINANCING, IF REQUIRED, TO COMPLETE A BUSINESS COMBINATION OR TO FUND THE OPERATIONS AND GROWTH OF THE TARGET BUSINESS, WHICH COULD COMPEL US TO RESTRUCTURE THE TRANSACTION OR ABANDON A PARTICULAR BUSINESS COMBINATION.

Although we believe that the net proceeds of this offering will be sufficient to allow us to consummate a business combination, in as much as we have not yet identified any prospective target business, we cannot ascertain the capital requirements for any particular transaction. If the net proceeds of this offering prove to be insufficient, either because of the size of the business combination or the depletion of the available net proceeds in search of a target business, or because we become obligated to convert into cash a significant number of shares from dissenting stockholders, we will be required to seek additional financing. We cannot assure you that such financing would be available on acceptable terms, if at all. To the extent that additional financing proves to be unavailable when needed to consummate a particular business combination, we would be compelled to restructure the transaction or abandon that particular business combination and seek an alternative target

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

business candidate. In addition, if we consummate a business combination, we may require additional financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or stockholders is required to provide any financing to us in connection with or after a business combination.

OUR EXISTING STOCKHOLDERS, INCLUDING OUR OFFICERS AND DIRECTORS, CONTROL A SUBSTANTIAL INTEREST IN US AND THUS MAY INFLUENCE CERTAIN ACTIONS REQUIRING STOCKHOLDER VOTE.

Upon consummation of our offering, our existing stockholders (including all of our officers and directors) will collectively own 20% of our issued and outstanding shares of common stock (assuming they do not purchase units in this offering). Our board of directors is divided into three classes, each of which will generally serve for a term of two years with only one class of directors being elected in each year. It is unlikely that there will be an annual meeting of stockholders to elect new directors prior to the consummation of a business combination, in which case all of the current directors will continue in office at least until the consummation of the business combination. If there is an annual meeting, as a consequence of our "staggered" board of directors, only a minority of the board of directors will be considered for election and our existing stockholders, because of their ownership position, will have considerable influence regarding the outcome. Accordingly, our existing stockholders will continue to exert control at least until the consummation of a business combination. In addition, our existing stockholders and their affiliates and relatives are not prohibited from purchasing units in this offering or shares in the aftermarket. If they do, we cannot assure you that our existing stockholders will not have considerable influence upon the vote in connection with a business combination.

OUR EXISTING STOCKHOLDERS PAID AN AGGREGATE OF \$25,000, OR AN AVERAGE OF \$0.029 PER SHARE, FOR THEIR SHARES AND, ACCORDINGLY, YOU WILL EXPERIENCE IMMEDIATE AND SUBSTANTIAL DILUTION FROM THE PURCHASE OF OUR COMMON STOCK.

The difference between the public offering price per share of our common stock and the pro forma net tangible book value per share of our common stock after this offering constitutes the dilution to you and the other investors in this offering. The fact that our existing stockholders acquired their shares of common stock at a nominal price has significantly contributed to this dilution. Assuming the offering is completed, you and the other new investors will incur an immediate and substantial dilution of approximately 32% or \$1.92 per share (the difference between the pro forma net tangible book value per share of \$4.08, and the initial offering price of \$6.00 per unit).

OUR OUTSTANDING WARRANTS MAY HAVE AN ADVERSE EFFECT ON THE MARKET PRICE OF COMMON STOCK AND MAKE IT MORE DIFFICULT TO EFFECT A BUSINESS COMBINATION.

In connection with this offering, as part of the units, we will be issuing warrants to purchase 7,000,000 shares of common stock. We will also issue an option to purchase 350,000 units to the representative of the underwriters which, if exercised, will result in the issuance of an additional

700,000 warrants. To the extent we issue shares of common stock to effect a business combination, the potential for the issuance of substantial numbers of

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

additional shares upon exercise of these warrants and options could make us a less attractive acquisition vehicle in the eyes of a target business as such securities, when exercised, will increase the number of issued and outstanding shares of our common stock and reduce the value of the shares issued to complete the business combination. Accordingly, our warrants and options may make it more difficult to effectuate a business combination or increase the cost of the target business. Additionally, the sale, or even the possibility of sale, of the shares underlying the warrants and options could have an adverse effect on the market price for our securities or on our ability to obtain future public financing. If and to the extent these warrants and options are exercised, you may experience dilution to your holdings.

IF OUR EXISTING STOCKHOLDERS EXERCISE THEIR REGISTRATION RIGHTS, IT MAY HAVE AN ADVERSE EFFECT ON THE MARKET PRICE OUR COMMON STOCK AND THE EXISTENCE OF THESE RIGHTS MAY MAKE IT MORE DIFFICULT TO EFFECT A BUSINESS COMBINATION.

Our existing stockholders are entitled to demand that we register the resale of their shares of common stock at any time after the date on which their shares are released from escrow. If our existing stockholders exercise their registration rights with respect to all of their shares of common stock, then there will be an additional 875,000 shares of common stock eligible for trading in the public market. The presence of this additional number of shares of common stock eligible for trading in the public market may have an adverse effect on the market price of our common stock. In addition, the existence of these rights may make it more difficult to effectuate a business combination or increase the cost of the target business, as the stockholders of the target business may be discouraged from entering into a business combination with us or will request a higher price for their securities as a result of these registration rights and the potential future effect their exercise may have on the trading market for our common stock.

IF YOU ARE NOT AN INSTITUTIONAL INVESTOR, YOU MAY PURCHASE OUR SECURITIES IN THIS OFFERING ONLY IF YOU RESIDE WITHIN CERTAIN STATES AND MAY ENGAGE IN RESALE TRANSACTIONS ONLY IN THOSE STATES AND A LIMITED NUMBER OF OTHER JURISDICTIONS.

We have applied to register our securities, or have obtained or will seek to obtain an exemption from registration, in Delaware, the District of Columbia, Florida, Hawaii, Illinois, Maryland, New York and Rhode Island. If you are not an "institutional investor," you must be a resident of these jurisdictions to purchase our securities in the offering. The definition of an "institutional investor" varies from state to state but generally includes financial institutions, broker-dealers, banks, insurance companies and other qualified entities. In order to prevent resale transactions in violation of states' securities laws, you may engage in resale transactions only in these states and in a limited number of other jurisdictions in which an applicable exemption is available or a Blue Sky application has been filed and accepted. This restriction on resale may limit your ability to resell the securities purchased in this offering and may impact the price of our securities. For a more complete discussion of the Blue Sky state securities laws and registrations affecting this offering, please see the section entitled "State Blue Sky Information" below.

WE INTEND TO HAVE OUR SECURITIES QUOTED ON THE OTC BULLETIN BOARD, WHICH WILL LIMIT THE LIQUIDITY AND PRICE OF OUR SECURITIES MORE THAN IF OUR SECURITIES WERE QUOTED OR LISTED ON THE NASDAQ STOCK MARKET OR A NATIONAL EXCHANGE.

Our securities will be traded in the over-the-counter market. It is anticipated that they will be quoted on the OTC Bulletin Board, an NASD-sponsored and operated inter-dealer automated quotation system for equity securities not included in the Nasdaq Stock Market. Quotation of our securities on the OTC Bulletin Board will limit the liquidity and price of our securities more than if our securities were quoted or listed on The Nasdaq Stock Market or

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

a national exchange.

THE REPRESENTATIVE OF THE UNDERWRITERS IN THE OFFERING WILL NOT MAKE A MARKET FOR OUR SECURITIES WHICH COULD ADVERSELY AFFECT THE LIQUIDITY AND PRICE OF OUR SECURITIES.

EarlyBirdCapital, the representative of the underwriters in this offering, does not make markets in securities and will not be making a market in our securities. However, we believe certain

14

broker-dealers other than EarlyBirdCapital will be making a market in our securities. EarlyBirdCapital not acting as a market maker for our securities may adversely impact the liquidity of our securities.

IF WE ARE DEEMED TO BE AN INVESTMENT COMPANY, WE MAY BE REQUIRED TO INSTITUTE BURDENSOME COMPLIANCE REQUIREMENTS AND OUR ACTIVITIES MAY BE RESTRICTED, WHICH MAY MAKE IT DIFFICULT FOR US TO COMPLETE A BUSINESS COMBINATION.

If we are deemed to be an investment company under the Investment Company Act of 1940, our activities may be restricted, including:

- o restrictions on the nature of our investments; and
- o restrictions on the issuance of securities,

which may make it difficult for us to complete a business combination.

In addition, we may have imposed upon us burdensome requirements, including:

- o registration as an investment company;
- o adoption of a specific form of corporate structure; and
- o reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act of 1940. To this end, the proceeds held in trust may only be invested by the trust agent in "government securities" with specific maturity dates. By restricting the investment of the proceeds to these instruments, we intend to meet the requirements for the exemption provided in Rule 3a-1 promulgated under the Investment Company Act of 1940. If we were deemed to be subject to the act, compliance with these additional regulatory burdens would require additional expense that we have not allotted for.

BECAUSE WE MAY BE DEEMED TO HAVE NO "INDEPENDENT" DIRECTORS, ACTIONS TAKEN AND EXPENSES INCURRED BY OUR OFFICERS AND DIRECTORS ON OUR BEHALF WILL GENERALLY NOT BE SUBJECT TO "INDEPENDENT" REVIEW.

Each of our directors own shares of our securities and, although no compensation will be paid to them for services rendered prior to or in connection with a business combination, they may receive reimbursement for out-of-pocket expenses incurred by them in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. There is no limit on the amount of

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

these out-of-pocket expenses and there will be no review of the reasonableness of the expenses by anyone other than our board of directors, which includes persons who may seek reimbursement, or a court of competent jurisdiction if such reimbursement is challenged. Because none of our directors will be deemed "independent," we will generally not have the benefit of independent directors examining the propriety of expenses incurred on our behalf and subject to reimbursement. Although we believe that all actions taken by our directors on our behalf will be in our best interests, we cannot assure you that this will actually be the case. If actions are taken, or expenses are incurred that are actually not in our best interests, it could have a material adverse effect on our business and operations.

### RISKS ASSOCIATED WITH THE ENERGY AND ENVIRONMENTAL INDUSTRIES AND THEIR RELATED INFRASTRUCTURES

FLUCTUATIONS IN ENERGY PRICES MAY CAUSE A REDUCTION IN THE DEMAND OR PROFITABILITY OF THE PRODUCTS OR SERVICES WE MAY ULTIMATELY PRODUCE OR OFFER.

Prices for energy sources such as oil and natural gas tend to fluctuate widely based on a variety of political and economic factors. These price fluctuations heavily influence both the energy and environmental industries and their related infrastructures. Lower energy prices for existing products

15

tend to limit the demand for alternate forms of energy services and related products and infrastructure. Factors that impact price fluctuations include the actions of the members of the Organization of Petroleum Exporting Countries (OPEC), the level of production by non-OPEC countries, worldwide demand for oil and natural gas, political tensions involving OPEC and non-OPEC countries and other varying factors. If energy prices fluctuate, there may be a decrease in the demand for the products or services we may ultimately produce or offer. As a result, the operations of any prospective target business we may ultimately complete a business combination with may be adversely affected.

CHANGES IN TECHNOLOGY MAY RENDER OUR PRODUCTS OR SERVICES OBSOLETE FOLLOWING A BUSINESS COMBINATION.

Both the energy and environmental industries and their related infrastructures are substantially affected by rapid and significant changes in technology. These changes may render certain existing services and technologies currently used obsolete. We cannot assure you that the technologies used by or relied upon by a target business with which we effect a business combination will not be subject to such obsolescence. While we may attempt to adapt and apply the services provided by the target business to newer technologies, we cannot assure you that we will have sufficient resources to fund these changes or that these changes will ultimately prove successful.

IF WE ARE UNABLE TO ACQUIRE OR RENEW PERMITS AND APPROVALS REQUIRED FOR OUR OPERATIONS FOLLOWING A BUSINESS COMBINATION, WE MAY BE FORCED TO SUSPEND OR CEASE OUR OPERATIONS ALTOGETHER.

The construction and operation of energy projects require numerous permits and approvals from governmental agencies, as well as compliance with environmental laws and other regulations. We cannot assure you that we will be able to obtain all necessary permits and approvals following a business

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

combination. Additionally, we cannot assure you that new laws or amendments to existing laws which would have a materially adverse effect will not be adopted, nor can we assure you that we will be able to obtain all necessary permits and approvals for proposed projects or that completed facilities will comply with all applicable permit conditions, statutes and regulations. If we are unable to obtain or renew permits or approvals necessary for the operation of our business following a business combination, our operations would be adversely affected. In addition, obtaining all necessary permits and approvals may necessitate substantial expenditures and may create a significant risk of expensive delays or loss of value if a project is unable to function as planned due to changing requirements or local opposition.

IF, FOLLOWING A BUSINESS COMBINATION, THE PRODUCTS OR SERVICES THAT WE MARKET OR SELL ARE NOT ACCEPTED BY THE PUBLIC, IT COULD RESULT IN A LOSS OF ACTUAL OR POTENTIAL MARKET SHARE AND A DECREASE IN OUR REVENUES.

Economic, political and other factors lead to the desire and demand for new forms of energy. Accordingly, new alternative forms of safe, environmentally sound energy are constantly being developed and tested. If we acquire a company with a new, alternative form of energy, we cannot assure you that its products and services will be successful or gain market acceptance. Any significant delay or failure in developing new or enhanced technology, including new product and service offerings, could result in a loss of actual or potential market share and a decrease in revenues. Additionally, if products of a target business with which we ultimately complete a business combination with are found to be environmentally unsound, it may adversely affect our future operations.

FAILURE TO COMPLY WITH GOVERNMENTAL REGULATIONS COULD RESULT IN THE IMPOSITION OF PENALTIES, FINES OR RESTRICTIONS ON OPERATIONS AND REMEDIAL LIABILITIES.

Both the energy and environmental industries are subject to extensive federal, state and local laws and regulations related to our population's health and safety and those associated with compliance and permitting obligations (including those related to the use, storage, handling, discharge, emission and disposal of municipal solid waste and other waste, pollutants or hazardous substances or wastes, or discharges and air and other emissions) as well as land use and development. Existing laws

16

also impose obligations to clean up contaminated properties or to pay for the cost of such remediation, often upon parties that did not actually cause the contamination. Compliance with these laws, regulations and obligations could require substantial capital expenditures. Failure to comply could result in the imposition of penalties, fines or restrictions on operations and remedial liabilities. The costs and liabilities of any of these results could adversely affect our operations following a business combination. These laws, regulations and obligations could change with the promulgation of new laws and regulations or a change in the interpretation of existing laws and regulations, which could result in substantially similar risks. We cannot assure you that we will be able to comply with existing or new regulations.

REGULATION WITHIN THE ENERGY INDUSTRY COULD REDUCE OUR PROFITABILITY FOLLOWING A BUSINESS COMBINATION.

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

Essentially all of the energy sectors including electric generation, transmission and distribution, natural gas transmission and distribution, and oil transportation are subject to highly technical Federal and state regulatory regimes. Rates, terms of service, facility sites, financing, dividend payments, wages, divestitures, changes in control and business dealings with affiliates are all subject to ongoing regulatory disclosure and approval on the merits. The failure or refusal of any jurisdictional regulator to grant approval as to any particular rate, service or transaction could prove harmful to us, as could the occurrence of any dispute with a regulator.

WE MAY NOT BE ABLE TO SUCCESSFULLY COMPETE IN OUR DESIRED INDUSTRY AND SEGMENTS, WHICH ARE CHARACTERIZED BY THE EXISTENCE OF LARGE COMPETITORS AND RAPIDLY CHANGING TECHNOLOGY.

There is substantial competition in all aspects and segments of the energy and environmental industries and their related infrastructures. Numerous companies, most of which have substantially greater financial resources available to them than we will, are already engaged in the various segments in which we may seek to engage. We cannot assure you that we will be able to compete successfully with others in the relevant market upon the successful acquisition of a target business.

17

### USE OF PROCEEDS

We estimate that the net proceeds of this offering will be as set forth in the following table:

	WITHOUT OVER-ALLOTMENT OPTION	OVER-ALLOTMENT OPTION EXERCISE
	-----	-----
GROSS PROCEEDS .....	\$ 21,000,000.00	\$ 24,150,000.00
OFFERING EXPENSES		
Underwriting discount (7% of gross proceeds) .....	1,470,000.00	1,690,500.00
Underwriting non-accountable expense allowance (3% of gross proceeds) .....	630,000.00	724,500.00
Legal fees and expenses (including blue sky services and expenses) .....	260,000.00	260,000.00
Miscellaneous expenses .....	38,107.30	38,107.30
Printing and engraving expenses .....	25,000.00	25,000.00
Accounting fees and expenses .....	20,000.00	20,000.00
SEC registration fee .....	9,161.69	9,161.69
NASD registration fee .....	7,731.01	7,731.01
NET PROCEEDS		
Held in trust .....	17,850,000.00	20,606,250.00
Not held in trust .....	690,000.00	768,750.00
	-----	-----
Total net proceeds .....	\$ 18,540,000.00	\$ 21,375,000.00
	=====	=====

Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

USE OF NET PROCEEDS NOT HELD IN TRUST

Legal, accounting and other expenses attendant to the due diligence investigations, structuring and negotiation of a business combination .....	\$180,000	(26.1%)	\$180,000
Payment of administrative fee to Coqui Capital Partners (\$3,500 per month for two years).....	84,000	(12.2%)	84,000
Due diligence of prospective target businesses .....	50,000	(7.2%)	50,000
Legal and accounting fees relating to SEC reporting obligations .....	40,000	(5.8%)	40,000
Working capital to cover miscellaneous expenses, D&O insurance and reserves .....	336,000	(48.7%)	414,750
	-----	-----	-----
Total .....	\$690,000	(100.0%)	\$768,750
	=====	=====	=====

\$17,850,000, or \$20,606,250 if the underwriters' over-allotment option is exercised in full, of net proceeds will be placed in a trust fund maintained by American Stock Transfer & Trust Company, New York, New York, as trustee. The proceeds will not be released from the trust fund until the earlier of the completion of a business combination or our liquidation. The proceeds held in the trust fund may be used as consideration to pay the sellers of a target business with which we ultimately complete a business combination. Any amounts not paid as consideration to the sellers of the target business may be used to finance operations of the target business or to effect other acquisitions, as determined by our board of directors at that time.

The payment to Coqui Capital Partners, L.P., an affiliate of Isaac Kier, our secretary, treasurer and a member of our board of directors, of a monthly fee of \$3,500 is for general and administrative services including office space, utilities and secretarial support. We believe, based on rents and fees for similar services in the New York, New York metropolitan area, that the fee charged by Coqui Capital Partners is at least as favorable as we could have obtained from an unaffiliated person.

We intend to use the excess working capital (approximately \$336,000) for director and officer liability insurance premiums (approximately \$115,000), with the balance being held in reserve in the event due diligence, legal, accounting and other expenses of structuring and negotiating business

combinations exceed our estimates, as well as for reimbursement of any out-of-pocket expenses incurred by our existing stockholders in connection with activities on our behalf as described below.

To the extent that our capital stock is used in whole or in part as consideration to effect a business combination, the proceeds held in the trust fund as well as any other net proceeds not expended will be used to finance the operations of the target business.

Lawrence S. Coben, our chairman and chief executive officer, has advanced to us a total of \$70,000 which was used to pay a portion of the expenses of this offering referenced in the line items above for SEC registration fee, NASD

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

registration fee and legal fees and expenses. The loan will be payable without interest on the earlier of February 17, 2005 or the consummation of this offering. The loan will be repaid out of the gross proceeds of this offering.

The net proceeds of this offering not held in the trust fund and not immediately required for the purposes set forth above will only be invested in United States "government securities," defined as any Treasury Bill issued by the United States having a maturity of one hundred and eighty days or less so that we are not deemed to be an investment company under the Investment Company Act. The interest income derived from investment of these net proceeds during this period will be used to defray our general and administrative expenses, as well as costs relating to compliance with securities laws and regulations, including associated professional fees, until a business combination is completed.

We believe that, upon consummation of this offering, we will have sufficient available funds to operate for at least the next 24 months, assuming that a business combination is not consummated during that time.

Commencing on the effective date of this prospectus through the consummation of the acquisition of the target business, we will pay Coqui Capital Partners the fee described above. Other than this \$3,500 per month administrative fee, no compensation of any kind (including finder's and consulting fees) will be paid to any of our existing stockholders, or any of their affiliates, for services rendered to us prior to or in connection with the consummation of the business combination. However, our existing stockholders will receive reimbursement for any out-of-pocket expenses incurred by them in connection with activities on our behalf, such as identifying potential target businesses and performing due diligence on suitable business combinations. Since the role of present management after a business combination is uncertain, we have no ability to determine what remuneration, if any, will be paid to those persons after a business combination.

A public stockholder will be entitled to receive funds from the trust fund (including interest earned on his, her or its portion of the trust fund) only in the event of our liquidation or if that public stockholder were to seek to convert such shares into cash in connection with a business combination which the public stockholder voted against and which we actually consummate. In no other circumstances will a public stockholder have any right or interest of any kind to or in the trust fund.

19

### DILUTION

The difference between the public offering price per share of common stock, assuming no value is attributed to the warrants included in the units, and the pro forma net tangible book value per share of our common stock after this offering constitutes the dilution to investors in this offering. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of common stock which may be converted into cash), by the number of outstanding shares of our common stock.

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

At March 10, 2004, our net tangible book value was \$(65,735), or approximately \$(0.08) per share of common stock. After giving effect to the sale of 3,500,000 shares of common stock included in the units, and the deduction of underwriting discounts and estimated expenses of this offering, our pro forma net tangible book value (as decreased by the value of 699,650 shares of common stock which may be converted into cash) at March 10, 2004 would have been \$15,011,785 or \$4.08 per share, representing an immediate increase in net tangible book value of \$4.16 per share to the existing stockholders and an immediate dilution of \$1.92 per share or 32% to new investors not exercising their conversion rights.

The following table illustrates the dilution to the new investors on a per-share basis, assuming no value is attributed to the warrants included in the units:

Public offering price .....		\$ 6.00
Net tangible book value before this offering .....	(.08)	
Increase attributable to new investors .....	4.16	
	-----	
Pro forma net tangible book value after this offering .....		4.08
		-----
Dilution to new investors .....		1.92
		=====

Our pro forma net tangible book value after this offering has been reduced by approximately \$3,568,215 because if we effect a business combination, the conversion rights to the public stockholders may result in the conversion into cash of up to approximately 19.99% of the aggregate number of the shares sold in this offering at a per-share conversion price equal to the amount in the trust fund as of the record date for the determination of stockholders entitled to vote on the business combination, inclusive of any interest, divided by the number of shares sold in this offering.

The following table sets forth information with respect to our existing stockholders and the new investors:

	SHARES PURCHASED		TOTAL CONSIDERATION	
	NUMBER	PERCENTAGE	AMOUNT	PERCENTAGE
Existing stockholders .....	875,000	20.0%	\$ 25,000	0.1%
New investors .....	3,500,000	80.0%	\$21,000,000	99.9%
	-----	-----	-----	-----
	4,375,000	100.0%	\$21,025,000	100.0%
	=====	=====	=====	=====

# Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

## CAPITALIZATION

The following table sets forth our capitalization at March 10, 2004 and as adjusted to give effect to the sale of our units and the application of the estimated net proceeds derived from the sale of our units:

	MARCH 10, 2004	
	ACTUAL	ADJUSTED
Common stock, \$.0001 par value, -0- and 699,650 shares which are subject to possible conversion, shares at conversion value .....	\$ --	\$ 3,560
	=====	=====
Stockholders' equity:		
Preferred stock, \$.0001 par value, 1,000,000 shares authorized; none issued or outstanding .....	\$ --	\$ --
	=====	=====
Common stock, \$.0001 par value, 20,000,000 shares authorized; 875,000 shares issued and outstanding; 3,675,350 shares issued and outstanding (excluding 699,650 shares subject to possible conversion), as adjusted	87	
Additional paid-in capital .....	24,913	15,010
	-----	-----
Total stockholders' equity: .....	\$25,000	15,010
	=====	=====
Total capitalization .....	\$25,000	18,580
	=====	=====

If we consummate a business combination, the conversion rights afforded to our public stockholders may result in the conversion into cash of up to approximately 19.99% of the aggregate number of shares sold in this offering at a per-share conversion price equal to the amount in the trust fund as of the record date for determination of stockholders entitled to vote on the business combination, inclusive of any interest thereon, divided by the number of shares sold in this offering.

21

## MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We were formed on February 5, 2004, to serve as a vehicle to effect a merger, capital stock exchange, asset acquisition or other similar business combination with a company in either of the energy or environmental industries and their related infrastructures. We intend to utilize cash derived from the proceeds of this offering, our capital stock, debt or a combination of cash, capital stock and debt, in effecting a business combination. The issuance of additional shares of our capital stock:

- o may significantly reduce the equity interest of our stockholders;

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

- o will likely cause a change in control if a substantial number of our shares of common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and most likely will also result in the resignation or removal of our present officers and directors; and
- o may adversely affect prevailing market prices for our common stock.

Similarly, if we issued debt securities, it could result in:

- o default and foreclosure on our assets if our operating revenues after a business combination were insufficient to pay our debt obligations;
- o acceleration of our obligations to repay the indebtedness even if we have made all principal and interest payments when due if the debt security contained covenants that required the maintenance of certain financial ratios or reserves and any such covenant were breached without a waiver or renegotiation of that covenant;
- o our immediate payment of all principal and accrued interest, if any, if the debt security was payable on demand; and
- o our inability to obtain additional financing, if necessary, if the debt security contained covenants restricting our ability to obtain additional financing while such security was outstanding.

We have neither engaged in any operations nor generated any revenues to date. Our entire activity since inception has been to prepare for our proposed fundraising through an offering of our equity securities.

We estimate that the net proceeds from the sale of the units, after deducting offering expenses of approximately \$975,000, including \$630,000 evidencing the underwriters' non-accountable expense allowance of 3% of the gross proceeds, and underwriting discounts of approximately \$1,470,000, will be approximately \$18,540,000, or \$21,390,500 if the underwriters' over-allotment option is exercised in full. Of this amount, \$17,850,000, or \$20,606,250 if the underwriters' over-allotment option is exercised in full, will be held in trust and the remaining \$690,000, or \$768,750 if the underwriters' over-allotment option is exercised in full, will not be held in trust. We will use substantially all of the net proceeds of this offering to acquire a target business, including identifying and evaluating prospective acquisition candidates, selecting the target business, and structuring, negotiating and consummating the business combination. To the extent that our capital stock is used in whole or in part as consideration to effect a business combination, the proceeds held in the trust fund as well as any other net proceeds not expended will be used to finance the operations of the target business. We believe that, upon consummation of this offering, the funds available to us outside of the trust fund will be sufficient to allow us to operate for at least the next 24 months, assuming that a business combination is not consummated during that time. Over this time period, we anticipate approximately \$180,000 of expenses for legal, accounting and other expenses attendant to the due diligence investigations, structuring and negotiating of a business combination, \$84,000 for the administrative fee payable to Coqui Capital Partners (\$3,500 per month for two years), \$50,000 of expenses for the due diligence and investigation of a target business, \$40,000 of expenses in legal and accounting fees relating to our SEC reporting obligations and \$336,000 for general working capital that will be used for miscellaneous expenses and reserves, including approximately \$115,000 for director and officer liability insurance

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

premiums. We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business. However, we may need to raise additional funds through a private offering of debt or equity securities if such funds are required to consummate a business combination that is presented to us. We would only consummate such a fund raising simultaneously with the consummation of a business combination.

We are obligated, commencing on the date of this prospectus, to pay to Coqui Capital Partners, an affiliate of Isaac Kier, a monthly fee of \$3,500 for general and administrative services. In addition, on February 17, 2004, Lawrence S. Coben advanced \$70,000 to us, on a non-interest bearing basis, for payment of offering expenses on our behalf. The loan will be payable without interest on the earlier of February 17, 2005 or the consummation of this offering. The loan will be repaid out of the gross proceeds of this offering.

23

### PROPOSED BUSINESS

#### INTRODUCTION

We are a recently organized Delaware corporation known as a SPAC(TM) which is a blank check company formed to serve as a vehicle for the acquisition of an operating business. Our objective is to acquire an operating business in either the energy or the environmental industries and their related infrastructures.

#### ENERGY INDUSTRY AND ITS RELATED INFRASTRUCTURE

The energy industry and its related infrastructure generally includes the production, generation, transmission and distribution of electricity, heat, fuel and other consumable forms of energy and the infrastructure needed to maintain and operate the facilities, services and installations used in the foregoing areas. The shortage of natural gas, rising oil prices and blackouts that have occurred as a result of over-usage in current energy forms have brought renewed focus on a variety of energy forms and the infrastructure related to the transmission of such energy.

Although we may consider a target business in any segment of the energy industry, we currently intend to concentrate our search for an acquisition candidate on companies in the following segments:

- o Electricity generation, distribution and transmission;
- o Natural gas production, distribution and transmission;
- o Energy related services including conservation, metering, operations and maintenance;
- o Steam generation and distribution;
- o Alternative and renewable energy technologies;
- o Infrastructure related to towers, power lines, electric distribution facilities and products and shoring, forming and scaffolding products.

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

### ENVIRONMENTAL INDUSTRY AND ITS RELATED INFRASTRUCTURE

The environmental industry and its related infrastructure generally includes the technologies and services that protect the natural and human environment from destruction and pollution, and the infrastructure needed to maintain and operate the facilities, services and installations used in the foregoing areas. The environmental industry also seeks to ameliorate the negative effects of industrial production and unhealthy practices and materials on our population as a whole.

Landfill closures and the difficulty of positioning new facilities in certain parts of the country have required that waste be transported long distances for environmentally sound disposal. New landfills require additional remediation measures to ensure that waste does not contaminate the surrounding ground or nearby water supplies. New technologies and expenditures are increasingly required with respect to air emissions and water cleanup, as pollution from power and industrial plants merit increasing examination and concern. Searches for new energy and water sources must meet stringent environmental standards, while existing and alternative forms of energy that are being used, developed and tested must adhere to an expanding body of practices and procedures to ensure that our environment is protected.

Although we may consider a target business in any segment of the environmental industry, we currently intend to concentrate our search for an acquisition candidate on companies in the following segments:

- o Waste management and disposal, including wastewater treatment and management and sewage control;
- o Air treatment and ionization, pollution and emission control;
- o Medical waste disposal;

24

- o Radon and site cleanup services;
- o Other energy/environmental related technologies; and
- o Infrastructure related to water supply facilities, waste and wastewater treatment facilities, pollution control facilities and transportation facilities, along with their respective products.

### EFFECTING A BUSINESS COMBINATION

#### General

We are not presently engaged in, and we will not engage in, any substantive commercial business for an indefinite period of time following this offering. We intend to utilize cash derived from the proceeds of this offering, our capital stock, debt or a combination of these in effecting a business combination. Although substantially all of the net proceeds of this offering are intended to be generally applied toward effecting a business combination as described in this prospectus, the proceeds are not otherwise being designated for any more specific purposes. Accordingly, prospective investors will invest in us without an opportunity to evaluate the specific merits or risks of any one or more business combinations. A business combination may involve the acquisition of, or merger with, a company which does not need substantial additional capital but which desires to establish a public trading market for its shares, while avoiding what it may deem to be adverse consequences of

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

undertaking a public offering itself. These include time delays, significant expense, loss of voting control and compliance with various Federal and state securities laws. In the alternative, we may seek to consummate a business combination with a company that may be financially unstable or in its early stages of development or growth. While we may seek to effect business combinations with more than one target business, we will probably have the ability, as a result of our limited resources, to effect only a single business combination.

We have not identified a target business

To date, we have not selected any target business on which to concentrate our search for a business combination. Subject to the limitations that a target business be within the energy or environmental industry and their related infrastructures and has a fair market value of at least 80% of our net assets at the time of the acquisition, as described below in more detail, we will have virtually unrestricted flexibility in identifying and selecting a prospective acquisition candidate. Accordingly, there is no basis for investors in this offering to evaluate the possible merits or risks of the target business with which we may ultimately complete a business combination. To the extent we effect a business combination with a financially unstable company or an entity in its early stage of development or growth, including entities without established records of sales or earnings, we may be affected by numerous risks inherent in the business and operations of financially unstable and early stage or potential emerging growth companies. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all significant risk factors.

Sources of target businesses

We anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment bankers, venture capital funds, private equity funds, leveraged buyout funds, management buyout funds and other members of the financial community, who may present solicited or unsolicited proposals. Our officers and directors as well as their affiliates may also bring to our attention target business candidates. While we do not presently anticipate engaging the services of professional firms that specialize in business acquisitions on any formal basis, we may engage these firms in the future, in which event we may pay a finder's fee or other compensation. In no event, however, will we pay any of our existing officers, directors or stockholders or any entity with which they are affiliated any finder's fee or other compensation for services rendered to us prior to or in connection with the consummation of a business combination.

Selection of a target business and structuring of a business combination

Subject to the requirement that our initial business combination must be with a target business with a fair market value that is at least 80% of our net assets at the time of such acquisition, our

25

management will have virtually unrestricted flexibility in identifying and selecting a prospective target business. In evaluating a prospective target business, our management will consider, among other factors, the following:

- o financial condition and results of operation;
- o growth potential;

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

- o experience and skill of management and availability of additional personnel;
- o capital requirements;
- o competitive position;
- o stage of development of the products, processes or services;
- o degree of current or potential market acceptance of the products, processes or services;
- o proprietary features and degree of intellectual property or other protection of the products, processes or services;
- o regulatory environment of the industry; and
- o costs associated with effecting the business combination.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular business combination will be based, to the extent relevant, on the above factors as well as other considerations deemed relevant by our management in effecting a business combination consistent with our business objective. In evaluating a prospective target business, we will conduct an extensive due diligence review which will encompass, among other things, meetings with incumbent management and inspection of facilities, as well as review of financial and other information which will be made available to us.

The time and costs required to select and evaluate a target business and to structure and complete the business combination cannot presently be ascertained with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which a business combination is not ultimately completed will result in a loss to us and reduce the amount of capital available to otherwise complete a business combination. However, we will not pay any finders or consulting fees to our existing stockholders, or any of their respective affiliates, for services rendered to or in connection with a business combination.

### Fair Market Value of Target Business

The initial target business that we acquire must have a fair market value equal to at least 80% of our net assets at the time of such acquisition. The fair market value of such business will be determined by our board of directors based upon standards generally accepted by the financial community, such as actual and potential sales, earnings and cash flow and book value. If our board is not able to independently determine that the target business has a sufficient fair market value, we will obtain an opinion from an unaffiliated, independent investment banking firm which is a member of the National Association of Securities Dealers, Inc. with respect to the satisfaction of such criteria. Since any opinion, if obtained, would merely state that fair market value meets the 80% of net assets threshold, it is not anticipated that copies of such opinion would be distributed to our stockholders, although copies will be provided to stockholders who request it. We will not be required to obtain an opinion from an investment banking firm as to the fair market value if our board of directors independently determines that the target business has sufficient fair market value.

### Probable lack of business diversification

While we may seek to effect business combinations with more than one

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

target business, our initial business combination must be with a target business which satisfies the minimum valuation standard at the time of such acquisition, as discussed above. Consequently, it is probable that we will have the ability to effect only a single business combination. Accordingly, the prospects for our success may be entirely dependent upon the future performance of a single business. Unlike other entities which may

26

have the resources to complete several business combinations of entities operating in multiple industries or multiple areas of a single industry, it is probable that we will not have the resources to diversify our operations or benefit from the possible spreading of risks or offsetting of losses. By consummating a business combination with only a single entity, our lack of diversification may:

- o subject us to numerous economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to a business combination, and
- o result in our dependency upon the development or market acceptance of a single or limited number of products, processes or services.

### Limited ability to evaluate the target business' management

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting a business combination, we cannot assure you that our assessment of the target business' management will prove to be correct. In addition, we cannot assure you that the future management will have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of our officers and directors, if any, in the target business cannot presently be stated with any certainty. While it is possible that one or more of our directors will remain associated in some capacity with us following a business combination, it is unlikely that any of them will devote their full efforts to our affairs subsequent to a business combination. Moreover, we cannot assure you that our officers and directors will have significant experience or knowledge relating to the operations of the particular target business.

Following a business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

### Opportunity for stockholder approval of business combination

Prior to the completion of a business combination, we will submit the transaction to our stockholders for approval, even if the nature of the acquisition is such as would not ordinarily require stockholder approval under applicable state law. In connection with seeking stockholder approval of a business combination, we will furnish our stockholders with proxy solicitation materials prepared in accordance with the Securities Exchange Act of 1934, which, among other matters, will include a description of the operations of the target business and audited historical financial statements of the business.

In connection with the vote required for any business combination, all of

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

our existing stockholders, including all of our officers and directors, have agreed to vote their respective shares of common stock owned by them immediately prior to this offering in accordance with the public stockholders. This voting arrangement shall not apply to shares included in units purchased in this offering or purchased following this offering in the open market by any of our existing stockholders, officers and directors. We will proceed with the business combination only if a majority of the shares of common stock voted by the public stockholders are voted in favor of the business combination and public stockholders owning less than 20% of the shares sold in this offering exercise their conversion rights.

### Conversion rights

At the time we seek stockholder approval of any business combination, we will offer each public stockholder the right to have such stockholder's shares of common stock converted to cash if the stockholder votes against the business combination and the business combination is approved and completed. The actual per-share conversion price will be equal to the amount in the trust fund, inclusive of any interest, as of the record date for determination of stockholders entitled to vote on the business combination, divided by the number of shares sold in this offering. Without taking into any account interest earned on the trust fund, the initial per-share conversion price would be \$5.10, or

27

\$0.90 less than the per-unit offering price of \$6.00. An eligible stockholder may request conversion at any time after the mailing to our stockholders of the proxy statement and prior to the vote taken with respect to a proposed business combination at a meeting held for that purpose, but the request will not be granted unless the stockholder votes against the business combination and the business combination is approved and completed. Any request for conversion, once made, may be withdrawn at any time up to the date of the meeting. It is anticipated that the funds to be distributed to stockholders entitled to convert their shares who elect conversion will be distributed promptly after completion of a business combination. Public stockholders who convert their stock into their share of the trust fund still have the right to exercise the warrants that they received as part of the units. We will not complete any business combination if public stockholders, owning 20% or more of the shares sold in this offering, exercise their conversion rights.

### Liquidation if no business combination

If we do not complete a business combination within 18 months after the consummation of this offering, or within 24 months if the extension criteria described below have been satisfied, we will be dissolved and will distribute to all of our public stockholders, in proportion to their respective equity interests, an aggregate sum equal to the amount in the trust fund, inclusive of any interest, plus any remaining net assets. Our existing stockholders have waived their rights to participate in any liquidation distribution with respect to shares of common stock owned by them immediately prior to this offering. There will be no distribution from the trust fund with respect to our warrants.

If we were to expend all of the net proceeds of this offering, other than the proceeds deposited in the trust fund, and without taking into account interest, if any, earned on the trust fund, the initial per-share liquidation price would be \$5.10, or \$0.90 less than the per-unit offering price of \$6.00. The proceeds deposited in the trust fund could, however, become subject to the

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

claims of our creditors which could be prior to the claims of our public stockholders. We cannot assure you that the actual per-share liquidation price will not be less than \$5.10, plus interest, due to claims of creditors. Lawrence S. Coben, our chairman of the board and chief executive officer, has agreed pursuant to an agreement with us and EarlyBirdCapital that, if we liquidate prior to the consummation of a business combination, he will be personally liable to pay debts and obligations to vendors or other entities that are owed money by us for services rendered or products sold to us in excess of the net proceeds of this offering not held in the trust account. We cannot assure you, however, that Mr. Coben would be able to satisfy those obligations.

If we enter into either a letter of intent, an agreement in principle or a definitive agreement to complete a business combination prior to the expiration of 18 months after the consummation of this offering, but are unable to complete the business combination within the 18-month period, then we will have an additional six months in which to complete the business combination contemplated by the letter of intent, agreement in principle or definitive agreement. If we are unable to do so by the expiration of the 24-month period from the consummation of this offering, we will then liquidate. Upon notice from us, the trustee of the trust fund will commence liquidating the investments constituting the trust fund and will turn over the proceeds to our transfer agent for distribution to our stockholders. We anticipate that our instruction to the trustee would be given promptly after the expiration of the applicable 18-month or 24-month period.

Our public stockholders shall be entitled to receive funds from the trust fund only in the event of our liquidation or if the stockholders seek to convert their respective shares into cash upon a business combination which the stockholder voted against and which is actually completed by us. In no other circumstances shall a stockholder have any right or interest of any kind to or in the trust fund.

### COMPETITION

In identifying, evaluating and selecting a target business, we expect to encounter intense competition from other entities having a business objective similar to ours. Many of these entities are well established and have extensive experience identifying and effecting business combinations directly or through affiliates. Many of these competitors possess greater technical, human and other resources than us and our financial resources will be relatively limited when contrasted with those of many of

28

these competitors. While we believe there are numerous potential target businesses that we could acquire with the net proceeds of this offering, our ability to compete in acquiring certain sizable target businesses will be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of a target business. Further:

- o our obligation to seek stockholder approval of a business combination may delay the completion of a transaction;
- o our obligation to convert into cash shares of common stock held by our public stockholders in certain instances may reduce the resources available to us for a business combination; and

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

o our outstanding warrants and options, and the future dilution they potentially represent, may not be viewed favorably by certain target businesses.

Any of these obligations may place us at a competitive disadvantage in successfully negotiating a business combination. Our management believes, however, that our status as a public entity and potential access to the United States public equity markets may give us a competitive advantage over privately-held entities having a similar business objective as us in acquiring a target business with significant growth potential on favorable terms.

If we succeed in effecting a business combination, there will be, in all likelihood, intense competition from competitors of the target business in the energy and environmental industries and their related infrastructures and elsewhere. Such a business combination may also be subject to regulatory approval. There is substantial competition in all aspects and segments of our industry focus. Numerous companies, most of which have substantially greater financial resources available to them than we do, are already engaged in the industry segments we intend to focus on. We cannot assure you that, subsequent to a business combination, we will have the resources or ability to compete effectively.

### FACILITIES

We maintain our executive offices at 1775 Broadway, Suite 604, New York, New York. The cost for this space is included in the \$3,500 per-month fee Coqui Capital Partners charges us for general and administrative services pursuant to a letter agreement between us and Coqui Capital Partners. We believe, based on rents and fees for similar services in the New York, New York metropolitan area, that the fee charged by Coqui Capital Partners is at least as favorable as we could have obtained from an unaffiliated person. We consider our current office space adequate for our current operations.

### EMPLOYEES

Lawrence S. Coben, our chairman of the board and chief executive officer, is our only executive officer. Mr. Coben is not obligated to contribute any specific number of hours per week and intends to devote only as much time as he deems necessary to our affairs. The amount of time he will devote in any time period will vary based on the availability of suitable target businesses to investigate, although we expect Mr. Coben will devote an average of approximately ten hours per week to our business. We do not intend to have any full time employees prior to the consummation of a business combination.

### PERIODIC REPORTING AND AUDITED FINANCIAL STATEMENTS

We have registered our units, common stock and warrants under the Securities Exchange Act of 1934, as amended, and have reporting obligations, including the requirement that we file annual and quarterly reports with the SEC. In accordance with the requirements of the Securities Exchange Act of 1934, our annual reports will contain financial statements audited and reported on by our independent accountants.

We will not acquire a target business if audited financial statements based on United States generally accepted accounting principles cannot be obtained for the target business. Additionally, our management will provide stockholders with audited financial statements, prepared in accordance with generally accepted accounting principles, of the prospective target business as part of the proxy

solicitation materials sent to stockholders to assist them in assessing the target business. Our management believes that the requirement of having available audited financial statements for the target business will not materially limit the pool of potential target businesses available for acquisition.

COMPARISON TO OFFERINGS OF BLANK CHECK COMPANIES

The following table compares and contrasts the terms of our offering and the terms of an offering of blank check companies under Rule 419 promulgated by the SEC assuming that the gross proceeds, underwriting discounts and underwriting expenses for the Rule 419 offering are the same as this offering and that the underwriters will not exercise their over-allotment option. None of the terms of a Rule 419 offering will apply to this offering.

BUSINESS COMBINATION DEADLINE ..... A business combination must occur within 18 months after the consummation of this offering or within 24 months after the consummation of this offering if a letter of intent or definitive agreement relating to a prospective business combination was entered into prior to the end of the 18-month period.

If an acquisition has been consummated within 18 months after the effective date of the initial registration statement, the funds held in the trust or escrow account would be released to investors.

RELEASE OF FUNDS ..... The proceeds held in the trust account will not be released until the earlier of the completion of a business combination or our liquidation upon failure to effect a business combination within the allotted time.

The proceeds held in the trust account would not be released until the earlier of the completion of a business combination or the effect a business combination within the allotted time.

MANAGEMENT

DIRECTORS AND EXECUTIVE OFFICERS

Our current directors and executive officers are as follows:

NAME	AGE	POSITION
Lawrence S. Coben	45	Chairman of the Board of Directors and Chief Executive Officer
Isaac Kier	51	Secretary, Treasurer and Director
David A. Preiser	46	Director
Jon Schotz	48	Director

LAWRENCE S. COBEN has been our chairman of the board and chief executive

## Edgar Filing: TREMISIS ENERGY ACQUISITION CORP - Form S-1

officer since our inception. From January 2001 until December 2003, Mr. Coben served as senior principal of Sunrise Capital Partners L.P., a private equity firm established by Houlihan Lokey Howard & Zukin, an international investment banking firm that invests capital in middle market companies. From January 1997 to December 2000, Mr. Coben was an independent consultant. From October 1994 to December 1996, Mr. Coben was chief executive officer of Bolivian Power Company, Ltd., a New York Stock Exchange-listed company that was one of Bolivia's largest private electric generator and distributor until its sale to an American-Swedish utility consortium. He was also a managing director of Liberty Power Latin America, L.P., a private developer and owner of power facilities, from January 1993 to December 1996. He has served as a director of Prisma Energy, one of the successor Enron companies, since September 2003. Mr. Coben has also been a director of NRG Energy, Inc. since December 2003, when he was appointed in connection with its plan of reorganization following its emergence from Chapter 11 bankruptcy. Mr. Coben is a member of the board of directors of the Bolivian-American Chamber of Commerce and was the co-chairman of the Lieberman 2004 National Energy Policy Committee which has devised a plan (the Declaration of Energy Independence) to reduce American dependence on politically unstable sources of energy. Mr. Coben is also an archaeologist affiliated with the University of Pennsylvania and is completing a doctorate in Anthropology. Mr. Coben received a B.A. in economics from Yale University, an M.A. in Anthropology (Archaeology) from the University of Pennsylvania and a J.D. from Harvard School of Law.

ISAAC KIER has been a member of our board of directors and our secretary and treasurer since our inception. Since February 2000, Mr. Kier has served as a general partner of Coqui Capital Partners L.P., a venture capital firm, which invests primarily in early stage companies. Mr. Kier has been a director of eDiets.com, Inc., a Nasdaq-listed leading provider of online diet and fitness programs and related products and services
