ITEM 5. TERMINATION OF AGREEMENT TO SELL LESTER DIVISION

On May 15, 2003, Butler Manufacturing Company announced that it had signed a letter of intent to sell substantially all of the assets of the Lester Building Systems business to a management team headed by John Hill, the current Lester division president.

During the third quarter of 2003, the company and the buyer executed definitive agreements, which called for the transaction to be completed by November 21, 2003. The closing was subject to receipt of consent from the company's senior lenders, which was not received by November 21, 2003. On that date, the buyer and seller executed an agreement terminating the sale.

The company intends to operate the business for the foreseeable future. Nevertheless, the Lester assets will continue to be held for sale as the company and Lester's existing management team are both interested in ultimately consummating a sale transaction.

The Lester division is part of the North American Building Systems Segment, and designs, manufactures, markets, and erects pre-engineered wood-frame buildings for a variety of end uses. Principal offices are located in Lester Prairie, Minnesota, with sales, engineering, and manufacturing facilities in Charleston, Illinois and Clear Brook, Virginia.
