**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Monsanto Company Employee Benefits Plan Committee

We have audited the accompanying statements of net assets available for benefits of Monsanto Savings and Investment Plan (the Plan) as of December 31, 2007 and 2006, and the related statement of changes in net assets available for benefits for the year ended December 31, 2007. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2007 and 2006, and the changes in net assets available for benefits for the year ended December 31, 2007 in conformity with accounting principles generally accepted in the United States of America. Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of (1) Schedule of Assets (Held at End of Year) as of December 31, 2007 and (2) Schedule of Reportable Transactions for the Year Ended December 31, 2007 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These schedules are the responsibility of the Plan's management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic 2007 financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

**MONSANTO SAVINGS AND INVESTMENT PLAN  
NOTES TO FINANCIAL STATEMENTS  
YEAR ENDED DEC. 31, 2007**

**NOTE 1. INFORMATION REGARDING THE PLAN**

**GENERAL**

The following description of the Monsanto Savings and Investment Plan (the **Plan** or the **SIP**) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan was established as of June 11, 2001, as a successor to a portion of the Pharmacia Corporation Savings and Investment Plan ( **Pharmacia Plan** ) for the benefit of certain employees and former employees ( **Transferred Participants** ) of Monsanto Company ( **Monsanto** or the **Company** ). Effective July 1, 2001, the assets of the Pharmacia Plan that were allocated to the accounts of the Transferred Participants were transferred to the trust established under the Plan. Also effective July 1, 2001, a portion of the unallocated assets and liabilities (primarily debt) of the leveraged employee stock ownership plan ( **ESOP** ) component of the Pharmacia Plan were transferred to the Plan. Effective July 1, 2001, through June 30, 2002, the assets of the trust established under the Plan were collectively invested with the assets of the Pharmacia Plan in the Pharmacia Corporation and Monsanto Company Defined Contribution and Employee Stock Ownership Master Trust (the **Master Trust** ). Within the Master Trust, each participating plan was entitled to an interest in the Master Trust's net assets and net earnings. Effective as of July 1, 2002: (i) assets and liabilities from the Master Trust representing the Pharmacia Plan's interest and obligations in and under the Master Trust were transferred to the Pharmacia Savings Plan Master Trust and the Pharmacia Savings Plan ESOP Trust for Pharmacia Common Stock; and (ii) Monsanto and the trustee of the Plan entered into the Monsanto Company Defined Contribution and Employee Stock Ownership Master Trust Agreement which is the trust established pursuant to the Plan to hold all the assets of the Plan.

**ADMINISTRATION**

Monsanto is the sponsor of the Plan. The Monsanto Employee Benefits Plans Committee is responsible for administering plan operations in accordance with the Employee Retirement Income Security Act of 1974 ( **ERISA** ) and Plan documents. Fidelity Investments Institutional Services Company, Inc. serves as the record keeper of the Plan. The Monsanto Pension and Savings Funds Investment Committee is responsible for monitoring Plan investments. The trustee of the Plan is The Northern Trust Company ( **Northern** ).

**PARTICIPANT ACCOUNTS**

The Plan is a contributory defined contribution profit sharing plan with individual accounts for each participant. Regular employees who have attained age 18 are generally eligible to participate in the Plan as soon as administratively possible. As of July 1, 2007, temporary employees are generally eligible to participate in the Plan after 1,000 hours of service. The cost of Plan administration is borne partially by Plan participants and partially by Monsanto, as Plan sponsor.

Each participant's account is credited with the participant's contributions, Company contributions and Plan earnings and reduced by Plan losses and certain administrative expenses. Participants' accounts are valued on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

**EMPLOYEE CONTRIBUTIONS**

The Plan provides for voluntary employee contributions generally ranging from 1 percent to 25 percent of an employee's eligible pay. Employees have an option to make before-tax contributions or after-tax contributions. Subject to annual limits on before-tax contributions and the results of required Internal Revenue Service ( **IRS** ) discrimination testing, contributions may be all before-tax, all after-tax, or a combination of both. Generally, employee contributions to the Plan may be invested in 1 percent increments and allocated in any combination to the following investment fund types: a fixed income fund, a balanced fund consisting of both fixed income and equity securities, a growth and income equity fund, an international equity fund, a growth equity fund, a U.S. equity index fund, a treasury inflation-protected securities (TIPS) fund, a value equity fund, a small cap growth equity fund, a small cap value

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

equity fund, the Monsanto Stock Fund, which invests in Monsanto common stock, and four asset allocation funds consisting of varying pre-set mixes of certain of the aforementioned investment fund types. The four asset allocation funds allow participants varying degrees of risk and

**MONSANTO SAVINGS AND INVESTMENT PLAN  
NOTES TO FINANCIAL STATEMENTS (*continued*)  
YEAR ENDED DEC. 31, 2007**

return. Targeted ( roundtrip ) participant trading restrictions were implemented in 2005. A roundtrip is defined as an exchange in and then out of a fund in less than a 30-day period. Under these restrictions, participants are limited to one roundtrip transaction per fund within any 90-day rolling period and four roundtrip transactions across all funds over a rolling 12-month period. These targeted restrictions apply to all investment options except the Fixed Income Fund.

As a result of the spinoff in 1997 of Solutia Inc. ( Solutia ), a former subsidiary of the former Monsanto Company, certain Transferred Participants accounts received common stock of Solutia. This stock is maintained in the Solutia Non-Employer Stock Fund, and no contributions, either employee or employer, subsequent to the spinoff can be made to this fund. The Company has amended the Plan to terminate the Solutia Non-Employer Stock Fund as an investment option effective as of the close of business on Dec. 10, 2008. All participant investments remaining in the fund as of the close of business on Dec. 10, 2008, will be liquidated and invested in the Moderately Aggressive Portfolio, the default investment fund for the Plan.

Participants may be eligible to make a before-tax catch-up contribution if they are at least age 50 on or before the end of the calendar year and either currently contributing at least 7 percent of their eligible pay per pay period to the SIP or had reached the IRS annual limit on before-tax contributions (\$15,500 in 2007). For 2007, eligible participants could have elected a before-tax catch-up contribution of up to \$5,000. The catch-up contributions are not eligible for Company matching contributions and are subject to the same rules as other before-tax contributions. The annual catch-up contribution limit may increase in future years in accordance with limits prescribed by the IRS.

The before-tax option allows participants to elect to make before-tax contributions from eligible gross pay before most income taxes are deducted. The participants generally cannot withdraw before-tax contributions without income tax penalties until age 59 1/2, disability, death, separation from service on or after age 55, or payments that are part of a series of substantially equal periodic payments made for the life of the employee or the joint lives of the employee and a designated beneficiary. After-tax contributions are made from participants eligible pay after income taxes are deducted. Withdrawal of after-tax employee contributions can be made with no penalty. Participants may change the amounts of their contributions and transfer their contributions among the investment options on a daily basis, subject to the roundtrip trading restrictions described above.

All Monsanto SIP participants can transfer any Company match amounts out of their Monsanto (Employer) Stock Fund and into any of the other investment options available in SIP (except the Solutia Non-Employer Stock Fund option) whether or not they are fully vested.

**COMPANY CONTRIBUTIONS AND VESTING**

Employee contributions to the Plan, up to a maximum of 7 percent of eligible pay, generally are matched 60 percent by Monsanto. The Plan also has a discretionary match employer contribution feature. Generally, Company contributions vest and become non-forfeitable at the rate of 20 percent per year of service, such that Company contributions are 100 percent vested after five years of service.

In December 2007, Monsanto determined that a discretionary matching contribution of an additional 40 percent on the first 10 percent of eligible pay would be made to participants actively employed on Dec. 31, 2007. This contribution was applied to eligible participants accounts in March 2008 through an allocation of previously unallocated Monsanto Company common stock, based on the value of a share of Monsanto stock on Dec. 31, 2007. Additionally, in December 2007, the Company amended the Plan to provide for a non-elective Company contribution feature in the Plan. In December 2007 the Company also determined to make a non-elective Company contribution to the Plan in an amount equal to 3.8 percent of eligible pay of all Plan participants actively employed by the Company or a participating employer in the Plan on Dec. 31, 2007. The non-elective contribution was applied to eligible participants accounts in May 2008 through an allocation of previously unallocated Monsanto Company common stock, based on the value of a share of Monsanto stock on Dec. 31, 2007. Company contributions and related earnings are invested solely in Monsanto common stock held in the Monsanto Employer Stock Fund.

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

A participant who has less than five years of participation in the Plan or predecessor plan cannot withdraw Company

matching contributions that are not vested or that were received in the last 24 months. Upon completion of five years of participation in the Plan, all Company matched amounts may be withdrawn from the Plan. Company contributions immediately vest upon a change of control of the Company, as defined in the Plan.

In order for the Plan to pass certain IRS discrimination testing requirements, the Company made a Qualified Non-Elective Contribution ( QNEC ) of 5 percent of eligible pay to all non-highly compensated employees of the Company and other employers participating in the Plan whose total Plan eligible pay in 2007 was \$26,250 or less, were at least age 21, and had at least one year of service by Dec. 31, 2007, whether or not the employee was a participant in the Plan. In accordance with the terms of the Plan, the Monsanto Employee Benefits Plans Committee determined that Plan forfeitures as of Dec. 31, 2007, be used to fund the QNEC. The QNEC contribution was allocated to eligible participants accounts in May 2008.

**LEVERAGED ESOP**

During 2001 the Pharmacia Plan's original ESOP debt was restructured and refinanced. Following the spinoff of Monsanto from Pharmacia on Aug. 13, 2002, the unallocated Pharmacia shares held by the Plan's ESOP component were gradually converted to shares of Monsanto common stock through open market transactions and through the exchange of Pharmacia stock for Monsanto stock with certain Pharmacia employee benefit plans at market rates. These Pharmacia shares are now fully converted to Monsanto shares. The unallocated shares of Monsanto common stock, which were converted from Pharmacia shares as described above, held by the Plan's ESOP component are released for allocation to participant accounts in accordance with the terms of the Plan as interest and principal on the promissory note is paid.

The Plan's ESOP debt was again restructured and refinanced in December 2004, (the 2004 refinancing) with a single promissory note to Monsanto, payable in the principal amount of \$19.2 million, bearing interest at the rate of 4.60% per annum, and having a maturity date of Dec. 31, 2012, (the 4.60% Note). The terms of the restructuring were determined pursuant to an arm's length negotiation between Monsanto and an independent trust company as fiduciary for the Plan. In this role, the independent fiduciary determined that the restructuring, including certain financial commitments and enhancements that were or will be made in the future by Monsanto to benefit participants and beneficiaries of the Plan, including the increased diversification rights described above that were provided to certain participants, was completed in accordance with the best interests of plan participants.

Under the terms of the agreement, Monsanto committed to funding an additional \$41 million to the Plan if no additional contributions were made by Dec. 31, 2006, above the number of shares currently scheduled for release under the restructured debt schedule. In December 2006, Monsanto contributed \$2 million related to this commitment. As of Dec. 31, 2007, and 2006, the Plan has recorded an employer contribution receivable of \$42 million and \$39 million, respectively, and a deferred employer contribution of \$42 million and \$39 million, respectively, related to the agreement. The employer contribution receivable and deferred employer contribution have increased because of the accretion as defined in the agreement.

As of Dec. 31, 2007, the 4.60% Note had an outstanding principal balance of \$9.5 million. Scheduled maturities on the 4.60% Note are \$2,711 in 2008, \$2,750 in 2009, \$2,803 in 2010, and \$1,261 in 2011 (all in thousands). Interest on the 4.60% Note is payable annually on December 31 of each year. The borrowing is collateralized by the unallocated shares of stock. The minimum number of shares allocated to participant accounts under the ESOP in a given year is determined by the Plan's net debt service (principal and interest) during that year relative to the total amount of the Plan's remaining debt service as of the beginning of that year. The 2004 refinancing resulted in a decrease in the minimum number of shares to be allocated in 2007 when compared with allocations that would have previously been required. The reduction of shares allocated in 2007 will result in more shares allocated to participants each year from 2008 through 2012.

The Plan obtains the funds to repay the ESOP debt to Monsanto primarily through Company contributions and dividends paid on Monsanto common stock held in the ESOP. In the year ended Dec. 31, 2007, the Plan paid the

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

ESOP debt payments solely through the use of dividends paid on Monsanto common stock held in the ESOP suspense account and the Monsanto Employer Stock Fund. Effective July 1, 2007, Monsanto amended the Plan to provide participants the option to elect to receive dividends in cash (dividend pass-through). While the ESOP debt is repaid annually, shares of

---

**MONSANTO SAVINGS AND INVESTMENT PLAN  
NOTES TO FINANCIAL STATEMENTS (*continued*)  
YEAR ENDED DEC. 31, 2007**

Monsanto stock are released for allocation to participant accounts throughout the year. In the year ended Dec. 31, 2007, the Plan's repayment of ESOP debt resulted in the release of approximately 938,000 equivalent shares of Monsanto stock for allocation to participant accounts. As of Dec. 31, 2007, and 2006, approximately three million shares and four million shares, respectively, of Monsanto stock remained unallocated with an approximate market value of \$339 million and \$208 million, respectively.

**VOTING RIGHTS**

Participants have the right to instruct the Plan's trustee how to vote the shares of Monsanto stock in their accounts. The Trustee will vote the unallocated shares in the same proportion as the allocated shares on which they receive voting instructions from participants.

**PARTICIPANT LOANS**

Most Plan participants can obtain loans from their accounts. A participant with a Plan account balance of over \$2,000 may borrow up to the lesser of 50 percent of the total vested account balance less any outstanding loan balances at the time of the loan, \$50,000 minus the participant's highest outstanding loan balances during the last year, or 100 percent of his or her employee account value excluding the employer portion and any outstanding loan balances at the time of the loan. The minimum loan is \$1,000, and the maximum number of outstanding loans at any one time is two.

In 2005, the Monsanto SIP was amended to allow eligible participants affected by Hurricane Katrina to obtain a loan with certain features. In the event an eligible affected participant elected to receive a loan at any time between the effective date and Dec. 31, 2006, and such loan met certain required parameters, the participant could have established a repayment schedule for a period not to exceed 180 months.

**PAYMENT OF BENEFITS**

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a certain number of years. If employment is terminated before age 70 1/2, participants can elect to defer receiving benefits if their vested account balance is greater than \$5,000.

**FORFEITED ACCOUNTS**

At Dec. 31, 2007, and 2006, forfeited nonvested accounts totaled \$5 million and \$2.8 million, respectively. These accounts will be used to reduce future employer contributions and administrative expenses. During the year ended Dec. 31, 2007, administrative expenses were reduced by \$986 thousand from forfeited nonvested accounts. As described above, the Monsanto Employee Benefits Plans Committee determined that the forfeited nonvested accounts as of Dec. 31, 2007, were used to fund the 2007 QNEC in May 2008.

**OTHER**

Monsanto acquired Delta and Pine Land Company in June 2007. Effective August 2007, eligible employees of Delta and Pine Land Company became eligible to participate in the Plan. The assets of the Delta and Pine Land Company Savings Plan were transferred into the Plan on Dec. 31, 2007.

Monsanto acquired Seminis, Inc. (Seminis) in March 2005. Effective Jan. 1, 2006, eligible employees of Seminis became eligible to participate in the Plan. The Company has not yet determined when the assets of the Seminis Vegetable Seeds Retirement Plan that were allocated to the transferred individuals will be transferred to the Plan.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and

**MONSANTO SAVINGS AND INVESTMENT PLAN  
NOTES TO FINANCIAL STATEMENTS (*continued*)  
YEAR ENDED DEC. 31, 2007**

liabilities, disclosure of contingent liabilities at the date of the financial statements and reported amounts of increases and decreases during the reporting period. Actual results could differ from those estimates.

**INVESTMENT VALUATION AND INCOME RECOGNITION**

The Plan's investments are stated at fair value. Common stock is valued at quoted market prices. The common collective investment trust funds are stated at fair value as determined by the issuer based on the fair market value of the underlying investments. When available, fair value is determined by quoted market prices. Amounts for securities that have no quoted market price represent estimated fair value. Debt securities are generally valued based on yields currently available on comparable securities of issuers with similar credit ratings. Participant loans are valued at the outstanding loan balances.

The fixed income fund is invested in synthetic guaranteed investment contracts, as described in Note 4. In accordance with Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and Statement of Position 94-4-1, *Reporting of Fully Benefit-Responsive Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the "FSP"), the statements of net assets available for benefits present the synthetic investment contracts at fair value, as well as an additional line item showing an adjustment of fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis and is not affected by the FSP.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. In the Statement of Changes in Net Assets Available for Benefits, the Plan presents the net appreciation in the fair value of its investments, which consists of the realized gains and losses and the unrealized appreciation on these investments.

The Plan uses certain financial derivative instruments to hedge, acquire or change equity, currency or fixed income positions/durations in the portfolio. However, the Plan's guidelines do not allow for derivatives to be used to leverage portfolio exposure. All derivatives are recognized in the statement of net assets available for benefits at fair value.

Changes in fair value of a derivative are recorded currently in the statement of changes in net assets as net appreciation in fair value of investments.

The Plan invests in various types of mortgage-backed fixed income securities, the market values of which are based upon a variety of factors. These include, but are not limited to: the amount and timing of cash flows from interest and principal payments, underlying property collateral values and levels, expected principal prepayments, delinquency/default rates, and issuer credit ratings. As with any fixed income security, mortgage-backed security market values are sensitive to fluctuations in prevailing interest rates.

The Plan pays certain outside service provider expenses (e.g. recordkeeping and trustee fees) incurred in the operation of the Plan. Certain investment manager fees are paid by the Plan and are included in Administrative Expenses.

Certain other expenses are paid by Monsanto.

**NEW ACCOUNTING STANDARDS**

In March 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) Statement No. 161, *Disclosures About Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133* (SFAS 161). Statement 161 amends certain existing disclosure requirements in Statement 133 and requires new qualitative and quantitative disclosure about an entity's derivative instruments and hedging activities to be provided for every reporting period (both interim and annual). It is effective for financial statements issued for fiscal years and interim periods beginning after Nov. 15, 2008, with early application encouraged. The Plan is currently evaluating the impact of SFAS 161 on the financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to

Edgar Filing: MONSANTO CO /NEW/ - Form 11-K

mitigate volatility in reported earnings caused by measuring related assets and liabilities using different measurement techniques. SFAS 159 requires additional disclosures related to the fair value measurements included in the entity's financial statements. This statement is effective for financial statements issued for fiscal years beginning after Nov. 15, 2007.

---

**MONSANTO SAVINGS AND INVESTMENT PLAN  
NOTES TO FINANCIAL STATEMENTS (*continued*)  
YEAR ENDED DEC. 31, 2007**

Accordingly, the Plan will adopt SFAS 159 in 2008. The Plan is currently evaluating the impact of SFAS 159 on the financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. To the extent required, this statement will be prospectively adopted by the Plan effective Jan. 1, 2008. SFAS 157 is not presently expected to have a material impact on the Plan's net assets available for benefits or changes therein.

**NOTE 3. NONPARTICIPANT-DIRECTED INVESTMENTS**

All funds in the Plan are participant-directed except as noted below. Common stock Monsanto Company includes both participant and nonparticipant-directed investments and only the non-participant-directed portion is shown below. Additionally, the Plan's ESOP debt and related principal and interest payments are nonparticipant-directed. Information about the net assets and the significant components of the changes in net assets relating to the nonparticipant-directed investment amounts in the Plan (as of Dec. 31, 2007, and Dec. 31, 2006, and the year ended Dec. 31, 2007,) is outlined in the table below.

	<b>As of Dec. 31,</b>

**NOTE 4. GUARANTEED INVESTMENT CONTRACTS**

The Fixed Income Fund invests in synthetic guaranteed investment contracts ( synthetic GICs ). A single uniform synthetic GIC was in place on Dec. 31, 2007, and Dec. 31, 2006, with Commonwealth General Corporation, J.P. Morgan Chase Bank and State Street Bank. A synthetic GIC includes underlying fixed income assets which are held by the trustee and owned by the plan, utilizing a benefit-responsive wrapper contract issued by financial services companies. The contract provides that participants execute plan transactions at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The interest rates are reset quarterly based on the current yield of the underlying investments, the duration of the underlying investments and the spread between the market value and contract value, but the rate cannot be less than zero percent. Certain events such as a plan merger could limit

**MONSANTO SAVINGS AND INVESTMENT PLAN  
NOTES TO FINANCIAL STATEMENTS (*continued*)  
YEAR ENDED DEC. 31, 2007**

the ability of the plan to transact at contract value. Certain events such as plan termination may under certain circumstances allow for the termination of the wrapper contract at less than contract value. The plan sponsor does not believe that any events that may limit the ability of the plan to transact at contract value are probable. The following summarizes the contract value of the synthetic GICs as of Dec. 31, 2007, and Dec. 31, 2006.

Guaranteed Investment Contracts (Dollars in thousands)	As of Dec. 31,	
	2007	2006
Commonwealth General Corporation	\$ 187,614	\$ 183,950
J.P. Morgan Chase Bank	140,710	137,961
State Street Bank	140,710	137,961
Total	\$ 469,034	\$ 459,872

The rate of return for the synthetic GICs currently in place generally fluctuates with the return on the underlying assets. The 12-month average yield for such contracts, net of all applicable administrative and investment fees, was 5.06 percent for the period from Jan. 1, 2007, to Dec. 31, 2007. Participant accounts are credited with an interest rate which is determined quarterly by the issuers of the benefit responsive contracts based on the investments in the underlying fixed income portfolio. The annual crediting interest rates as of Dec. 31, 2007, and Dec. 31, 2006 were 5.49 percent and 5.60 percent, respectively.

**NOTE 5. INVESTMENTS**

Investments that represent more than 5% of the net assets available for benefits as of either Dec. 31, 2007, or Dec. 31, 2006, were as follows:

(Dollars in thousands)	As of Dec. 31,	
	2007	2006
Monsanto common stock	\$ 1,508,727	\$ 740,997
Mellon Daily Liquidity Stock Index Fund	146,807	142,339
Capital Guardian International Equity Fund	162,113	129,086

The Plan participates in a securities lending program through Northern, the Plan's trustee, whereby the Plan's investment securities are loaned to broker-dealers for a fee. Securities so loaned are fully collateralized primarily by cash and U.S. government securities. U.S. securities are loaned and collateralized by securities valued at 102 percent of the market value of the securities plus any accrued interest (105 percent for non-U.S. securities). As the market value of the securities loaned changes, the borrower must adjust the collateral accordingly. Northern pools all collateral received from securities lending transactions and invests any cash collateral. The Plan holds a prorated share of the collateral provided to Northern by the borrowers of the securities. Monsanto or the borrower has the right to close the loan at any time. When the loan closes, the borrower returns the securities to Northern who returns the associated collateral to the borrower. The Plan cannot pledge or sell the collateral unless Northern fails to return the securities borrowed. At Dec. 31, 2007, and 2006, approximately \$165 million and \$169 million, respectively, of the Plan's securities were on loan under these programs, and collateral held was \$170 million and \$173 million, respectively. Income from this program was \$0.6 million for the year ended Dec. 31, 2007.

**NOTE 6. INFORMATION REGARDING TAX STATUS**

On Oct. 17, 2003, the IRS issued Monsanto a favorable determination letter stating that the Plan as then designed, was qualified for federal income tax purposes in compliance with section 401(a) of the Internal Revenue Code (IRC). As required by the IRS procedures, on Jan. 28, 2008, Monsanto filed an application for a new determination letter for the amended and restated Plan. That application is still pending review by the IRS. The Plan administrator and the Plan's tax

counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**NOTE 7. PRIORITIES UPON TERMINATION OF THE PLAN**

If the Plan is terminated, all participants' account balances will be fully vested, and all participants would then be entitled to a full distribution of their account balances as more fully described and set forth in the Plan document.

**NOTE 8. PARTY-IN-INTEREST INVESTMENTS AND TRANSACTIONS**

There were no nonexempt prohibited transactions with parties-in-interest during the period from Jan. 1, 2007, to Dec. 31, 2007. As of Dec. 31, 2007, and 2006, the Plan holds \$1,509 million and \$741 million, respectively, of common stock of Monsanto Company, the sponsoring employer.

Monsanto Company is the holder of the Plan's ESOP debt.

Certain Plan investments are units of Collective Investment Funds managed by Northern specifically for employee benefit trusts. Northern is also the Plan trustee as defined by the Plan and, therefore, these Collective Investment Funds qualify as exempt party-in-interest investments. Fees for Northern's investment management services are paid by the Plan as described in Note 2.

**NOTE 9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500**

The following is a reconciliation of fully benefit-responsive investment contracts stated at fair value per the financial statements to the fully benefit-responsive investment contracts stated at contract value on the Form 5500 as of Dec. 31, 2007, and 2006.

	As of Dec. 31,	
	2007	2006
(Dollars in thousands)		
Net assets available for benefits:		
Investments, at fair value per financial statements	\$3,006,285	\$2,166,088
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	(7,348)	(1,689)
Total investments per Form 5500 Schedule of Assets (Held at End of Year)	\$2,998,937	\$2,164,399

**NOTE 10. RISKS AND UNCERTAINTIES**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
