Securities registered pursuant to Section 12(b) of the Act:

**Title of Each Class
Common Stock, par value \$0.01 per share**

**Name of Each Exchange on Which Registered
New York Stock Exchange**

Securities registered pursuant to Section 12(g) of the Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§ 229.405) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The number of shares outstanding of our common stock as of June 25, 2008 was 46,442,981 shares. The aggregate market value of the registrant's voting and non-voting common stock held by non-affiliates of the registrant on October 31, 2007, the last business day of the registrant's most recently completed second fiscal quarter, (assuming that the registrant's only affiliates are its officers, directors and 10% or greater stockholders) was approximately \$24,883,000 based upon the closing market price of \$19.16 on that date of a share of common stock as reported on the New York Stock Exchange.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive Proxy Statement for its 2008 Annual Meeting of Stockholders scheduled to be held on September 23, 2008 are incorporated by reference into Part III of this Form 10-K.

Item 1. *Business*

Business Overview

Korn/Ferry International (referred to herein as the Company, Korn/Ferry, or in the first person notations we, our, and us) is a premier global provider of talent management solutions that help clients to attract, deploy, develop, retain and reward their talent. Since 1969, when we opened our first office in Los Angeles, we have expanded to 73 cities in 38 countries. In 1998, we extended our market reach into middle management with the introduction of Futurestep, our outsourced recruiting subsidiary. As of April 30, 2008, we had approximately 2,584 employees, including 514 executive recruitment and 170 Futurestep consultants who are primarily responsible for client services. Our clients include many of the world's largest and most prestigious public and private companies, middle market and emerging growth companies, as well as government and nonprofit organizations. We have built strong client loyalty; 74% of the executive recruitment assignments we performed during the last fiscal year were on behalf of clients for whom we had conducted assignments in the previous three fiscal years.

We were originally formed as a California corporation in November 1969 and reincorporated as a Delaware corporation in fiscal 2000.

We provide the following talent management solutions:

Executive Recruitment: Executive Recruitment, our largest business, focuses on recruiting board-level, chief executive and other senior executive positions for clients predominantly in the consumer, financial services, industrial, life sciences and technology industries. The relationships that we develop through this business are valuable in introducing our complementary service offerings to clients.

Outsourced and Mid-level Recruitment: Futurestep, our outsourced recruiting subsidiary, draws from Korn/Ferry's nearly 39 years of industry experience to create customized talent acquisition solutions based on each client's individual workforce needs. In addition to being a pioneer in recruitment process outsourcing (RPO), the Company's multi-tiered portfolio of services includes mid-level recruitment, project recruitment, consulting and interim professionals.

Leadership Development Solutions: Our talent management and leadership services assists clients with the ongoing assessment and development of their leadership teams. Services include succession planning, strategic alignment, management & team development, competency modeling, executive coaching, onboarding, cultural change, integrated talent management, and executive compensation consulting through our wholly-owned subsidiary, Executive Compensation Advisors. Each service is supported by the consultative expertise of our team and is powered by Lominger, a Korn/Ferry company and an internationally recognized provider of research-based, experience-tested leadership development tools.

We file annual, quarterly and current reports, proxy statements and other documents with the Securities and Exchange Commission (the SEC), pursuant to the Securities Exchange Act of 1934 (the Exchange Act). You may read and copy any materials that we file with the SEC at the SEC's Public Reference Room at 100 F Street N.E., Washington, D.C. 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1 800 732 0330. Our reports, proxy statements and other documents filed electronically with the SEC are available at the website maintained by the SEC at www.sec.gov.

We also make available, free of charge on our website at www.kornferry.com, our annual, quarterly, and current reports, and, if applicable, amendments to those reports, filed or furnished pursuant to Section 13(a) of the Exchange Act as soon as reasonably practicable after we electronically file such reports with, or furnish them to, the SEC.

Our Corporate Governance Guidelines, Code of Business Conduct and Ethics and the charters of the Audit Committee, Compensation and Personnel Committee, and Nominating and Corporate Governance Committee of our Board of Directors are also posted on our website at www.kornferry.com. Stockholders may request copies of these documents by writing to our Corporate Secretary at 1900 Avenue of the Stars, Suite 2600, Los Angeles, California 90067.

Table of Contents

Financial information regarding our business segments for the last three fiscal years is contained in the Notes to our Consolidated Financial Statements included in this Annual Report on Form 10-K.

Industry Overview

Executive Recruitment: Our executive recruitment segment concentrates on searches for positions with annual compensation of \$150,000 or more, which may involve board-level, chief executive and other senior executive positions. The industry is comprised of retained and contingency search firms. Retained firms, such as Korn/Ferry, typically charge a fee for their services equal to approximately one-third of the annual cash compensation for the position being filled regardless of whether a position has been filled. Contingency firms generally work on a non-exclusive basis and are compensated only upon successfully placing a recommended candidate.

We also provide leadership development solutions, which include succession planning, management & team development, competency modeling, executive coaching, onboarding, merger integration, cultural change, integrated talent management, and executive compensation consulting.

Outsourced and Mid-level Recruitment: The mid-level recruitment market focuses on searches for positions with annual compensation generally in the \$100,000 to \$150,000 range. This market has undergone a fundamental transformation over the past several years towards a technology-based environment, and has also seen the emergence of outsourced recruitment services commonly referred to as RPO. Technology and the Internet have made identifying, targeting and reaching potential candidates much quicker. This market also benefits from the efficiencies of maintaining large databases of qualified candidates, thereby reducing placement times.

Industry Trends

We believe the long-term business prospects for the talent management industry are still good due to a confluence of factors that will continue to fuel job growth and hiring.

Consolidation of Talent Management Solution Providers In choosing recruitment and human resource service providers, we believe:

Companies are actively in search of preferred providers in order to create efficiencies and consolidate vendor relationships;

Companies that can offer a full suite of talent management solutions are becoming increasingly attractive; and

Clients seek trusted advisors who understand their business and unique organizational culture in order to manage the multiple needs of their business on a global scale.

Aging Population In many major economic centers, the workforce population is aging at a rapid pace. It is projected that there will be twice as many people retiring this decade as there were in the previous one. Moreover, the supply of available qualified candidates is limited, making it more difficult for employers to secure qualified executives. We believe that this trend will have a positive impact on our business, as employers increasingly seek service providers who can provide solutions for the impending talent shortage.

Globalization of Business As the world markets continue to integrate into one global economy, many companies are adding strength to their internal talent with experienced executives who can operate effectively in this global environment. Emerging markets such as China, India and Eastern Europe have executive talent demands that exceed the currently available supply of executive talent in these regions. The rapidly changing competitive landscape

challenges multinational and local companies to identify and recruit qualified executives with the right combination of skills, experience and cultural compatibility. We believe clients are turning to firms that combine proven expertise with specialized knowledge of both key industries and local markets, enabling them to address their ongoing global talent needs.

Increased Outsourcing of Recruitment Functions We believe more companies are focusing on core competencies and outsourcing non-core, back-office functions to providers who can provide efficient, high-quality services. A shortage of qualified middle management-level candidates has made identifying and recruiting

Table of Contents

exceptional candidates more difficult. Companies increasingly rely on experienced global executive recruitment firms to address their middle management recruitment needs. By hiring global executive recruitment firms, companies aim to:

Have access to a diverse and highly qualified pool of candidates on an as-needed basis;

Reduce or eliminate the costs required to maintain and train an in-house recruiting department in a rapidly changing industry;

Benefit from the most updated industry and geographic market information;

Access cutting-edge search technology software; and

Maintain management focus on core strategic business issues.

Key role of Advanced Technology At Korn/Ferry we are adding more regimen and scientific research into the recruitment process with emphasis shifting from candidate identification to candidate assessment and placement. Driving this initiative is enhanced technology, as the world of the Internet, search engines and databases makes it possible to efficiently identify greater numbers of qualified candidates. Innovative technology, when combined with world-class intellectual property and thought leadership, creates a compelling set of tools to manage the process of identifying, recruiting and assessing the most desirable candidates.

Expanding our Market Reach and Presence through Technology and Assessment Solutions

Information technology has become a critical element of the recruitment business. We have made significant investments in developing a state-of-the-art technology infrastructure and our proprietary executive recruitment software, *e-Korn/Ferry*. In fiscal 2008, we continued to invest in enhanced tools and information sharing for competitive advantage. We released the technology supporting the *Korn/Ferry Advantage* a comprehensive transformation of our senior executive recruitment process. We launched the new Korn/Ferry website, which embodies the themes, artwork and branding of the *Art and Science of Talent*. And we continued development of the first phase of our next generation applicant tracking platform, *Searcher Express*, designed for speed, ease of use, power and flexibility.

As Futurestep continued its growth in RPO, project recruitment and mid-level search, information technology helped fuel all of these lines of business. Fiscal 2008 saw the launch of a new website emphasizing Futurestep's ascendancy in RPO. We also created a suite of RPO reporting options including Business Activity, Source List, Dashboard, Recruitment Activity, and Cycle metrics.

Leadership Development Solutions (LDS) also developed upgrades to its management assessment technology and its talent management platform, *Executive Center*. Usage of *Search Assessment*, an assessment technology process for our core executive recruitment business, was 40% of all search engagements. We continued to refine our technology, including the integration of Lominger intellectual property into our executive assessment tools, in order to engage with our clients on their broader talent management needs.

Outsourced and Mid-level Recruitment: The mid-level recruitment market focuses on searches for middle management positions with annual compensation generally in the \$100,000 to \$150,000 range. This market has been fundamentally transformed over the past several years through the emergence of RPO services. This transformation has been further driven through database technology and the Internet, which have introduced greatly improved capabilities in identifying, targeting and reaching potential candidates.

Other Industry Trends In addition to the industry trends mentioned above, we believe the following factors will contribute to the growth of the talent management industry:

Increasing demand for managers with broader qualifications;

Increasing desire by candidates to more actively manage their careers;

Increasing demand for senior executives with not just the right technical skills, but also the right leadership characteristics to meet the specific requirements of the position and organizational culture;

Table of Contents

Increasing demand for senior executives who can exceed the high standards of due diligence and public scrutiny as a result of new securities legislation;

Decreasing executive management tenure and more frequent job changes; and

Inadequate succession planning.

Growth Strategy

Our objective is to expand our position as a premier global provider of talent management solutions. The principal elements of our strategy include:

Recruiting and Retaining Key Consultants

We successfully recruited 83 new executive recruitment consultants globally during fiscal 2008. These consultants originated from diverse backgrounds and areas of expertise, and were recruited based on their track records as top performers in their given industry. The number of new consultants in the current year was partially offset by attrition. We believe that we have continued to upgrade our professional staff in the current year, and that the recruitment and retention of key consultants will be an ongoing driver of growth.

Broadening our Product and Service Offerings

In addition to our heritage as a leading provider of executive recruitment, we also offer clients outsourced and mid-level recruitment, strategic management assessment, executive coaching, performance management, succession planning, and compensation consulting through Futurestep and LDS. We will continue to develop and add new products and services that our clients demand and that are consistent with our brand positioning.

Global Account Management

In an effort to better coordinate global recruiting and to gain operational efficiencies, we expect that multinational clients increasingly will turn to strategic partners who can manage their recruitment needs on a centralized basis. This will require vendors with a global network of offices and technological support systems to manage multiple hires across geographical regions. Our Global Strategic Account Program, formerly known as the Integrated Services Program, continues to identify account leaders for multinational clients, provide training and software support to manage such accounts, and develop guidelines and protocols to support and increase the rate of cross-border assignments for these clients.

Expanding our Market Reach and Presence through Technology and Assessment Solutions

Information technology has become a critical element to the recruitment business. We have made significant investments in developing a state-of-the-art technology infrastructure and our proprietary executive recruitment software, *e-Korn/Ferry*. In fiscal 2008, we continued such investments through the deployment of enhanced tools and information sharing for competitive advantage. We rolled out major upgrades of our proprietary candidate database and global engagement management system, while laying the groundwork for the next generation applicant tracking platform, Searcher Express. We embarked on a similar program to upgrade Futurestep's technology, launching a new website emphasizing Futurestep's outsourced recruiting offerings. LDS also upgraded its strategic management assessment technology and its talent management platform, *Executive Center*. Another differentiator is *Search Assessment*, a proprietary assessment tool that uses an online assessment methodology to evaluate candidates against

statistically validated best-in-class profiles. We will continue to refine our technology, including our exclusive candidate assessment tools, in order to strengthen our relationships with our existing clients, attract new clients, expand into new markets and position ourselves to gain a competitive advantage in marketing complementary services.

Leveraging our Leadership and Brand Name in Executive Recruitment

We believe that there are significant opportunities to extend our market share and develop new client relationships by aggressively marketing our global recruitment expertise. Our leadership in executive recruitment

Table of Contents

enables us to grow our business by increasing the number of recruitment assignments we handle for existing clients. We also believe that our strong relationships and well-recognized brand name will enable us to introduce new services to our existing client base and to potential new clients, while allowing us to build communities of candidates to whom we can directly market our services.

Our Services and Organization

We address the global recruitment needs of our clients at all levels of management by offering the following services:

Executive Recruitment Services

Overview. Our executive recruitment services are typically used to fill executive-level positions, such as board directors, chief executive officers, chief financial officers, chief operating officers, chief information officers and other senior executive officers. Once we are retained by a client to conduct a search, we assemble a team comprised of consultants with appropriate geographic, industry and functional expertise. Our search consultants serve as management advisors who work closely with the client in identifying, assessing and placing qualified candidates. In fiscal 2008, we executed more than 10,700 executive recruitment assignments.

We utilize a unique, standardized approach to placing talent that integrates scientific research with our practical experience. Providing a more complete view of the candidate than is otherwise possible, our proprietary tools are statistically proven to generate better results in identifying the right person for the position. We call our executive recruitment methodology *The Korn/Ferry Advantage*.

We emphasize a close working relationship with the client and a comprehensive understanding of the client's business issues, strategy and culture, as well as an in-depth knowledge of the skills necessary to succeed within a client's organization. Initially, the search team consults with the client to better understand its history, culture, structure, expectations, challenges, future direction and operations. In these meetings, the team identifies the specific needs of the client and develops a profile of an ideal candidate for the position using our proprietary Leadership Sort System, which allows clients to select the desired leadership characteristics for specific roles. Early in the process, the team also works with the client to develop the general parameters of a compensation package that will attract highly qualified candidates.

Once the position is defined and outlined via an Enhanced Job Specification that embodies the desired leadership characteristics, a research team identifies—through the use of our proprietary databases and other information resources—companies in related industries facing similar issues and with operating characteristics similar to those of the client. In addition, the team consults with its established network of resources and searches our databases containing profiles of approximately 3.9 million executives to assist in identifying individuals with the right background, cultural fit and abilities. These sources are a critical element in assessing the marketplace.

An original list of candidates is carefully screened through phone interviews, video conferences and in-person meetings, using our proprietary behavioral interviewing approach. Candidates also complete Search Assessment, a behavioral mapping tool that provides clients with insights into how candidates will lead, how they will approach and solve complex problems, what their emotional profile is likely to be and what motivates them to succeed. The client is then presented final qualified candidates to interview. We conduct due diligence and background verification of the candidate throughout the process, at times with the assistance of an independent third party.

The finalist for the position will usually meet with the client for a second and possibly a third round of discussions. At this point, the compensation package will have been discussed in detail, increasing the likelihood that an offer will be accepted. Generally, the search consultants will participate in the negotiations until a final offer is made and accepted.

Throughout the process, ongoing communication with the client is critical to keep client management apprised of progress.

Industry Specialization Consultants in our five global markets and two regional specialty practice groups bring an in-depth understanding of the market conditions and strategic management issues faced by clients within their specific industry and geography. We are continually looking to expand our specialized expertise through internal development and strategic hiring in targeted growth areas.

Table of Contents**Percentage of Fiscal 2008 Assignments by Industry Specialization****Global Markets:**

Industrial	27%
Consumer	17%
Financial Services	20%
Technology	16%
Life Sciences	10%

Regional Specialties:

Healthcare Provider	5%
Education/Not-for-profit	5%

Functional Expertise. We have organized executive recruitment centers of functional expertise, composed of consultants who have extensive backgrounds in placing executives in certain functions, such as board directors, chief executive officers and other senior executive officers. Our Board Services group, for example, was first established in 1972 to help clients assemble an effective, knowledgeable and cohesive board of directors to meet the growing demands of accountability and facilitate more effective board performance. The shortage of experienced directors, the tightening of governance policies and the desire of companies to broaden the expertise of their board are raising the standards by which we identify and recruit qualified directors. We have significant experience in this area and have built a proprietary database with the names and backgrounds of every FORTUNE 1000 director, plus a significant number of middle-market and high-growth company board members to assist in board searches. Members of functional groups are located throughout our regions and across our industry groups.

Percentage of Fiscal 2008 Assignments by Functional Expertise

Board Level/CEO/CFO/Senior Executive and General Management	61%
Marketing and Sales	14%
Human Resources and Administration	8%
Manufacturing/Engineering/Research and Development/Technology	7%

Information Systems	2%

Regions

North America We opened our first office in Los Angeles in 1969, and currently have 29 offices throughout the United States and Canada. In fiscal 2008, the region generated fee revenue of \$374.9 million from more than 4,300 assignments billed, with an average of 256 consultants.

Europe, the Middle East and Africa (EMEA) We opened our first European office in London in 1972, and currently have 23 offices in 20 countries throughout the region. In fiscal 2008, the region generated fee revenue of \$183.0 million from more than 3,450 assignments billed, with an average of 145 consultants.

Asia Pacific We opened our first Asia Pacific office in Tokyo in 1973, and currently have 17 offices in 10 countries throughout the region. In fiscal 2008, the region generated fee revenue of \$95.9 million from more than 2,000 assignments billed, with an average of 88 consultants.

Latin America We opened our first Latin American office in Brazil in 1974. We expanded our practice to Mexico through the 1977 acquisition of a less than 50% interest in a Mexico City company, and currently conduct operations in Mexico through subsidiaries in which we hold a minority interest. As of April 30, 2008, we operate a network of seven offices in six countries covering the entire South American region and two offices in Mexico. The region, excluding operations in Mexico, generated fee revenue of \$25.6 million in fiscal 2008 from more than 850 assignments billed, with an average of 23 consultants. Our share of the earnings from our Mexico subsidiaries was \$3.3 million and \$3.2 million for the years ended April 30, 2008 and 2007, respectively, and is included in equity in earnings of unconsolidated subsidiaries on the consolidated statements of income.

Table of Contents

Client Base. Our 5,120 clients include many of the world's largest and most prestigious public and private companies, including 49% of the FORTUNE 500 companies in the current fiscal year. In fiscal 2008, no single client represented more than 1% of fee revenue. We have established strong client loyalty. 74% of the executive recruitment assignments we performed during the last fiscal year were on behalf of clients for whom we had conducted assignments in the previous three fiscal years.

Competition. We are a premier global provider of talent management solutions. Other multinational executive recruitment firms include Egon Zehnder International, Heidrick & Struggles International, Inc., Russell Reynolds Associates and Spencer Stuart. Although these firms are our largest competitors, we also compete with smaller boutique firms that specialize in specific regional, industry or functional searches. We believe our brand name, multi-product offerings, cutting-edge technology, global network, prestigious clientele, strong specialty practices and quality of services are recognized worldwide. We also believe that our long-term incentive compensation arrangements, as well as other executive benefits, distinguish us from most of our competitors and are important in attracting and retaining our key consultants.

Leadership Development Solutions. In fiscal 2004, we consolidated our strategic management assessment and executive coaching and development services under the name Leadership Development Solutions, with services in EMEA, North and South America, Australia and Japan. In fiscal 2007, we continued our investment in this service area with the acquisitions of Lominger Limited, Inc. and Lominger Consulting (the Lominger Entities) and LeaderSource. This comprehensive blend of leadership services helps corporate leaders to evaluate the individual and collective performance of their teams. These solutions further extend the range of talent management solutions available to our clients, and are tools for the chief executive, board of directors and other senior officers in pursuing organizational transformation and alignment with their company's strategic goals and internal values.

Our management assessment offering was introduced in response to our clients' demand for a tool to address the challenges of changing company relationships and global restructuring and, for venture capital and private equity firms, to evaluate the leadership team in existing or prospective portfolio companies. This process is performed by consultants with experience in interviewing and evaluating senior executives, who understand local cultural differences and the relevant business and industry challenges. The assessment process is backed by a statistically validated and proprietary assessment instrument developed by leading assessment experts and supported by a proprietary systems platform.

Another crucial component of our LDS is executive coaching and development. Our coaches in our global network are trained to develop future leaders through individual and team-based coaching. Additionally, we offer clients a Web-based, highly customizable talent management platform, called *Executive Center*, which automates and streamlines the process of setting objectives and tracking and evaluating performance. Through *Executive Center*'s individual and team-based analysis and reporting capabilities, talent assessment and management can be greatly simplified, allowing for skills and experience gaps as well as succession planning to be more efficiently addressed.

Mid-level Recruitment Service – Futurestep

Overview. Futurestep offers clients a portfolio of talent acquisition solutions, including RPO, mid-level recruitment, project recruitment, consulting and interim professionals. Each Futurestep service benefits from the industry and functional expertise of our global consultant network, ensuring that clients work with professionals who understand their business and have the relevant knowledge to qualify candidates effectively.

Futurestep combines traditional recruitment expertise with a multi-tiered portfolio of talent acquisition solutions. Futurestep consultants, based in 16 countries, have access to our databases of pre-screened, mid-level professionals. Our global candidate pool complements our international presence and multi-channel sourcing strategy to aid speed,

efficiency and quality service for clients worldwide.

A fully integrated, single-source strategic RPO solution leverages Futurestep's recruitment capabilities, innovative technology and international brand to reduce clients' recruitment costs while also improving quality and

Table of Contents

attracting the best talent. Futurestep manages part or all of the client's recruitment function, at times including on-site consultants from Futurestep.

Futurestep's mid-level recruitment service uses multiple sourcing channels, validated cultural assessments and our global database of more than one million pre-screened professionals to offer a low overhead approach that accelerates the recruitment process and provides a diverse, qualified set of mid-level candidates matched with specific cultural and strategic requirements.

For projects requiring multiple hiring, Futurestep project-based recruitment solutions augment and optimize the client's talent acquisition organization to manage multiple hires within a specific timeframe. Futurestep consultants utilize proprietary Enterprise Recruitment Methodology to deliver workflow-driven talent acquisition strategies to organizations. Prior to deployment, Futurestep diagnoses the client's internal HR capabilities to develop a co-sourcing platform emphasizing shared ownership of the recruitment process. Once engaged, the project team adheres to a timeline and metrics to deliver high-volume, concurrent hiring.

Futurestep also provides consulting services addressing all facets of talent acquisition and management, including Strategy Services; Implementation Services; Optimization; Technical Services; and Recruiting Operations Support.

Regions. We opened our first Futurestep office in Los Angeles in May 1998. In January 2000, we acquired the ESS business of PA Consulting with operations in Europe and Asia Pacific. As of April 30, 2008, we had Futurestep operations in 11 cities in North America, 10 in Europe and 12 in Asia Pacific.

Competition. Futurestep primarily competes for assignments with contingency staffing firms, temporary staffing firms and recruitment process outsourcers.

To a lesser extent, Futurestep competes with firms such as Monster Worldwide in the technology-based middle-management recruitment industry.

Organization

The Company operates in two global business segments in the retained recruitment industry, executive recruitment and Futurestep. Our executive recruitment business is managed on a geographic basis throughout our four regions: North America; South America; EMEA; and Asia Pacific. Futurestep is managed on a worldwide basis with operations in North America, Europe and Asia Pacific. We face risks associated with political instability, legal requirements and currency fluctuations in these international operations. Examples of such risks include difficulties in staffing and managing global operations, social and political instability, fluctuation in currency exchange rates and potential adverse tax consequences.

Professional Staff and Employees

As of April 30, 2008, we had approximately 1,894 executive recruitment employees consisting of 514 consultants and 1,380 associates, researchers, administrative and support staff. In addition, we had 15 consultants in our two unconsolidated Mexico offices. Futurestep had 636 employees as of April 30, 2008, consisting of 170 consultants and 466 administrative and support staff. Corporate had 54 professionals at April 30, 2008. We have not been a party to a collective bargaining agreement and consider our relations with our employees to be good. Korn/Ferry is an equal opportunity employer.

In Executive Recruitment, senior associates, associates and researchers support the efforts of our consultants with candidate sourcing and identification, but do not generally lead assignments. We have training and professional

development programs. Promotion to senior client partner is based on a variety of factors, including demonstrated superior execution and business development skills, the ability to identify solutions to complex issues, personal and professional ethics, a thorough understanding of the market and the ability to develop and help build effective teams. In addition, we have a program for recruiting experienced professionals into our firm.

Table of Contents

The following table provides information relating to each of our business segments for fiscal 2008:

	Fee Revenue (Dollars in thousands)	Operating Income (Loss)	Number of Offices as of April 30, 2008	Number of Consultants as of April 30, 2008
Executive Recruitment:				
North America	\$ 374,891	\$ 70,628	29	259
EMEA	183,042	29,820	23	143

Total	\$ 790,570	\$ 653,422	\$ 522,882

Item 1A. Risk Factors

The risks described below are the material risks facing our Company. Additional risks not presently known to us or that we currently deem immaterial may also impair our business operations. Our business, financial condition or

results of operations could be materially adversely affected by any of these risks.

Competition in our industry could result in our losing market share and charging lower prices for services, which could reduce our revenue.

We compete for executive search business with numerous executive search firms and businesses that provide job placement services. Traditional executive search competitors include Egon Zehnder International, Heidrick & Struggles International, Inc., Russell Reynolds Associates and Spencer Stuart. In each of our markets, our competitors may possess greater resources, greater name recognition and longer operating histories than we do, which may give them an advantage in obtaining future clients and attracting qualified professionals in these markets. There are no extensive barriers to entry into the executive search industry, and new recruiting firms continue to enter the market. We believe the continuing development and increased availability of information technology will continue to attract new competitors. Increased competition may lead to pricing pressures that could negatively impact our business. For example, increased competition could require us to charge lower prices, or lose market share, each of which could reduce our revenue.

Table of Contents

If we fail to attract and retain qualified and experienced consultants, our revenue could decline and our business could be harmed.

We compete with other executive search firms for qualified consultants. Attracting and retaining consultants in our industry is particularly important because, generally, a small number of consultants have primary responsibility for a client relationship. Because client responsibility is so concentrated, the loss of key consultants may lead to the loss of client relationships. This risk is heightened due to the general portability of a consultant's business. Any decrease in the quality of our reputation, reduction in our compensation levels or restructuring of our compensation program, whether as a result of insufficient revenue, a decline in the market price of our common stock or for any other reason, could impair our ability to retain existing consultants or attract additional qualified consultants with the requisite experience, skills and established client relationships. Our failure to retain our most productive consultants or maintain the quality of service to which our clients are accustomed and the ability of a departing consultant to move business to his or her new employer could result in a loss of clients, which could in turn cause our revenue to decline and our business to be harmed.

Economic conditions in the geographic regions and the industries from which we derive a significant portion of our fee revenue could undermine our future profitability.

Demand for our services is affected by the general level of economic activity in the geographic regions and industries in which we operate. When economic activity slows, many companies hire fewer permanent employees. Any significant economic downturn, on a global basis, in North America (our largest region), or in other regions or industries where our operations are heavily concentrated, could harm our business, results of operations and financial condition.

If we are unable to retain our executive officers and key personnel, or integrate new members of our senior management who are critical to our business, we may not be able to successfully manage our business in the future.

Our future success depends upon the continued service of our executive officers and other key management personnel. If we lose the services of one or more of our executives or key employees, or if one or more of them decides to join a competitor or otherwise compete directly or indirectly with us, or if we are unable to integrate new members of our senior management who are critical to our business, we may not be able to successfully manage our business or achieve our business objectives.

If we are unable to maintain our professional reputation and brand name, our business will be harmed.

We depend on our overall reputation and brand name recognition to secure new engagements and to hire qualified professionals. Our success also depends on the individual reputations of our professionals. We obtain a majority of our new engagements from existing clients or from referral by those clients. Any client who is dissatisfied with our assignments can adversely affect our ability to secure new engagements.

If any factor, including poor performance, hurts our reputation, we may experience difficulties in competing successfully for both new engagements and qualified consultants. Failing to maintain our professional reputation and the goodwill associated with our brand name could seriously harm our business.

We are subject to potential legal liability from clients, employees and candidates for employment. Insurance coverage may not be available to cover all of our potential liability and available coverage may not be sufficient to cover all claims that we may incur.

Our ability to obtain liability insurance, its coverage levels, deductibles and premiums are all dependent on market factors, our loss history and insurers' perception of our overall risk profile. We are exposed to potential claims with respect to the executive search process. For example, a client could assert a claim for matters such as breach of an off-limit agreement or recommending a candidate who subsequently proves to be unsuitable for the position filled. Further, the current employer of a candidate whom we placed could file a claim against us alleging interference with an employment contract. In addition, a candidate could assert an action against us for failure to maintain the confidentiality of the candidate's employment search or for alleged discrimination, violations of

Table of Contents

employment law or other matters. We cannot ensure that our insurance will cover all claims or that insurance coverage will be available at economically acceptable rates.

We rely heavily on our information systems and if we lose that technology, or fail to further develop our technology, our business could be harmed.

Our success depends in large part upon our ability to store, retrieve, process and manage substantial amounts of information. To achieve our strategic objectives and to remain competitive, we must continue to develop and enhance our information systems. This may require the acquisition of equipment and software and the development of new proprietary software, either internally or through independent consultants. If we are unable to design, develop, implement and utilize, in a cost-effective manner, information systems that provide the capabilities necessary for us to compete effectively, or for any reason any interruption or loss of our information processing capabilities occurs, this could harm our business, results of operations and financial condition.

We face risks associated with political instability, legal requirements and currency fluctuations in our international operations.

We operate in 38 countries and, during the year ended April 30, 2008, generated nearly half our fee revenue from operations outside of North America. We are exposed to the risk of changes in social, political, legal and economic conditions inherent in international operations. Examples of risks inherent in transacting business worldwide that we are exposed to include:

changes in and compliance with applicable laws and regulatory requirements;

difficulties in staffing and managing global operations;

social and political instability;

fluctuations in currency exchange rates;

statutory equity requirements;

repatriation controls; and

potential adverse tax consequences.

We have no hedging or similar foreign currency contracts, and therefore fluctuations in the value of foreign currencies could impact our global operations. We cannot ensure that one or more of these factors will not harm our business, financial condition or results of operations.

We may be limited in our ability to recruit employees from our clients and we could lose those opportunities to our competition, which could harm our business.

Either by agreement with clients, or for client relations or marketing purposes, we sometimes refrain from, for a specified period of time, recruiting candidates from a client when conducting searches on behalf of other clients. These off-limit agreements can generally remain in effect for up to two years following completion of an assignment. The duration and scope of the off-limit agreement, including whether it covers all operations of the client and its affiliates or only certain divisions of a client, generally are subject to negotiation or internal policies and may depend on factors such as the scope, size and complexity of the client's business, the length of the client relationship and the

frequency with which we have been engaged to perform executive searches for the client. Our inability to recruit candidates from these clients may make it difficult for us to obtain search assignments from, or to fulfill search assignments for, other companies in that client's industry. We cannot ensure that off-limit agreements will not impede our growth or our ability to attract and serve new clients, or otherwise harm our business.

Table of Contents

We have provisions that make an acquisition of us more difficult and expensive.

Antitakeover provisions in our Certificate of Incorporation, our Bylaws and under Delaware law make it more difficult and expensive for us to be acquired in a transaction that is not approved by our Board of Directors. Some of the provisions in our Certificate of Incorporation and Bylaws include:

a classified Board of Directors;

limitations on the removal of directors;

limitation on stockholder actions;

advance notification requirements for director nominations and actions to be taken at stockholder meetings; and

the ability to issue one or more series of preferred stock by action of our Board of Directors.

These provisions could discourage an acquisition attempt or other transaction in which stockholders could receive a premium over the current market price for the common stock.

Item 1B. *Unresolved Staff Comments*

Not applicable.

Item 2. *Properties*

Our corporate office is located in Los Angeles, California. We lease all 89 of our executive recruitment and Futurestep offices located in North America, EMEA, Asia Pacific and South America. As of April 30, 2008, we leased an aggregate of approximately 754,000 square feet of office space. The leases generally are for terms of one to 12 years and contain customary terms and conditions. We believe that our facilities are adequate for our current needs and we do not anticipate any difficulty replacing such facilities or locating additional facilities to accommodate any future growth.

Item 3. *Legal Proceedings*

From time to time, we are involved in litigation both as a plaintiff and a defendant, relating to claims arising out of our operations. As of the date of this report, we are not engaged in any legal proceedings that are expected, individually or in the aggregate, to have a material adverse effect on our business, financial condition or results of operations.

Item 4. *Submission of Matters to a Vote of Security Holders*

No matters were submitted to a vote of security holders during the fourth quarter of fiscal 2008.

Executive Officers of the Registrant

Name	Age	Position
Paul C. Reilly	54	Chairman of the Board

Gary D. Burnison	47	Chief Executive Officer
Stephen J. Giusto	45	Executive Vice President and Chief Financial Officer
Gary C. Hourihan	59	Chairman, Leadership Development Solutions
Robert H. McNabb	61	Chief Executive Officer, Futurestep, and Executive Vice President, Korn/Ferry
Ana Dutra	44	Executive Vice President and Chief Executive Officer of Leadership Development Solutions

Table of Contents

Our executive officers serve at the discretion of our Board of Directors. There is no family relationship between any executive officer or director. The following information sets forth the business experience for at least the past five years for each of our executive officers as of April 30, 2008.

Paul C. Reilly has been Chairman of the Board since June 2001. Mr. Reilly served as our Chief Executive Officer from June 2001 until June 2007. Prior to joining Korn/Ferry, Mr. Reilly was Chief Executive Officer of KPMG International from October 1998 until 2001. Prior to being named to that position, Mr. Reilly served as Vice Chairman Financial Services of KPMG L.L.P, the United States member firm of KPMG International. Mr. Reilly joined KPMG International as a partner in 1987. Mr. Reilly is a director and chair of the audit committee of Raymond James Financial, Inc.

Gary D. Burnison has been Chief Executive Officer since July 2007. He was the Executive Vice President and Chief Financial Officer from March 2002 until June 30, 2007. He was appointed Chief Operating Officer from November 2003 until June 30, 2007. Prior to joining Korn/Ferry, Mr. Burnison was Principal and Chief Financial Officer of Guidance Solutions, a privately held consulting firm, from 1999 to 2001. Prior to that, he served as an executive officer and a member of the board of directors of Jefferies and Company, an investment bank and brokerage firm, from 1995 to 1999. Earlier, Mr. Burnison was a partner at KPMG Peat Marwick.

Stephen J. Giusto has been Executive Vice President and Chief Financial Officer since November 2007. Prior to that, he served as Chief Financial Officer and Executive Vice President of Corporate Development and a member of the Board of Directors of Resources Connection, Inc. Prior to co-founding Resources Global Professionals in 1996 as a subsidiary of Deloitte & Touche, Mr. Giusto held various positions in Deloitte & Touche's Real Estate practice. Mr. Giusto was admitted to the Deloitte & Touche partnership in 1996. Mr. Giusto graduated with a Bachelor in Science degree in Business Administration from Cal Poly San Luis Obispo in 1985, and is a Certified Public Accountant.

Robert H. McNabb has been Executive Vice President of Korn/Ferry since November 2003 and was appointed Chief Executive Officer for Futurestep in July 2002. Prior to becoming the Chief Executive Officer for Futurestep, he was President of the Futurestep Americas and Asia Pacific regions. Before joining Futurestep in December 2001, he was the President and Chief Executive Officer of Corestaff from 1998 to 2001 and President and Chief Operating Officer at Republic Industries in 1997.

Gary C. Hourihan was appointed Chairman of Leadership Development Solutions on May 1, 2008. Previously, Mr. Hourihan served as our Executive Vice President (a position he held since January 1999) and President of Leadership Development Solutions from November 2002 to May 2008. As Chairman of Leadership Development Solutions, Mr. Hourihan is responsible for business generation, major account relationships and supporting the Company's intellectual property development. Prior to joining Korn/Ferry, he was the co-founder, Chairman and Chief Executive Officer of SCA Consulting, one of the world's leading executive compensation consulting firms, where he was employed from 1984 until joining Korn/Ferry.

Ana Dutra has been Executive Vice President of Korn/Ferry and Chief Executive Officer of Leadership Development Solutions since February 2008. She is responsible for driving the global growth of our Leadership Development Solutions group, including our Lominger, LeaderSource and Executive Compensation Advisors companies. Prior to joining Korn/Ferry, Ms. Dutra led the global organization and change strategy practice at Accenture from 2005 to 2008. Before this role, she led the organizational transformation practice at Mercer Management Consulting from 2001 to 2005. Earlier, Ms. Dutra was with Marakon Associates, CSC Index, Booz Allen Hamilton and IBM Consulting Group.

Table of Contents**PART II.****Item 5. *Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities*****Common Stock**

Our common stock is listed on the New York Stock Exchange under the symbol KFY. The following table sets forth the high and low sales price per share of the common stock for the periods indicated, as reported on the New York Stock Exchange:

	High	Low
Fiscal Year Ended April 30, 2008		
First Quarter	\$ 27.13	\$ 22.62
Second Quarter	\$ 24.62	\$ 16.27
Third Quarter	\$ 20.75	\$ 13.10
Fourth Quarter	\$ 18.95	\$ 14.42
Fiscal Year Ended April 30, 2007		
First Quarter	\$ 21.59	\$ 17.73
Second Quarter	\$ 23.18	\$ 17.83
Third Quarter	\$ 24.18	\$ 21.51
Fourth Quarter	\$ 24.86	\$ 22.42

On June 25, 2008 the last reported sales price on the New York Stock Exchange for the common stock was \$16.64 per share and there were approximately 5,600 beneficial holders of the common stock.

Table of Contents

Performance Graph

We have presented below a graph comparing the cumulative total stockholder return on the Company's shares with the cumulative total stockholder return on (1) the Standard & Poor's 500 Stock Index and (2) a company-established peer group. The following graph compares the monthly percentage change in the Company's cumulative total stockholder return with the cumulative total return of the companies in the Standard & Poor's 500 Stock Index and a peer group constructed by us. Cumulative total return for each of the periods shown in the performance graph is measured assuming an initial investment of \$100 on April 30, 2003, and the reinvestment of any dividends paid by any company in the peer group on the date the dividends were declared.

The peer group is comprised of publicly traded companies, which are engaged principally or in significant part in professional staffing and consulting. The returns of each company have been weighted according to their respective stock market capitalization at the beginning of each measurement period for purposes of arriving at a peer group average. The members of the peer group are Caldwell Partners International Inc. (CWL/A CN), Heidrick & Struggles International, Inc. (HSII) and Hudson Highland Group (HHGP).

The stock price performance depicted in this graph is not necessarily indicative of future price performance. This graph will not be deemed to be incorporated by reference by any general statement incorporating this Form 10-K into any filing by us under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent we specifically incorporate this information by reference, and shall not otherwise be deemed soliciting material or deemed filed under those Acts.

Dividends and Stock Repurchases

We have not paid any cash dividends on our common stock since April 30, 1996 and do not currently intend to pay any cash dividends on our common stock in the foreseeable future. The Board of Directors has authorized the Company to repurchase up to \$175.0 million of the Company's outstanding shares of common stock pursuant to issuer repurchase programs. We have repurchased approximately \$131.5 million of the Company's common stock

Table of Contents

as of April 30, 2008 under these programs. Future dividend policy as well as decisions to execute our currently outstanding issuer repurchase programs will depend on our earnings, capital requirements, financial condition and other factors considered relevant by our Board of Directors. Our credit facility does not restrict our ability to pay dividends.

Recent Sales of Unregistered Securities

On March 7, 2007, the Company issued notice for the redemption (the Redemption Notice) of its 7.5% Convertible Subordinated Notes (the Convertible Notes) in an aggregate principal amount of \$40 million and its 7.5% Convertible Series A Preferred Stock (the Convertible Preferred Stock) in an aggregate principle price of \$10 million. As of March 7, 2007, \$45.6 million of the Convertible Notes and \$11.4 million of the Convertible Preferred Stock were outstanding. In response to the Redemption Notice, the beneficial owner of the Convertible Notes and the Convertible Preferred Stock exercised its option to convert (the Conversion) the Convertible Notes and the Convertible Preferred Stock, pursuant to the terms thereof, which were convertible into shares of the Company's common stock at \$10.19 per share. The Conversion resulted in (i) 5,586,187 shares of the Company's common stock being delivered to the holder of the convertible securities in April 2007 and (ii) the cancellation of the Convertible Notes and Convertible Preferred Stock in April 2007.

The issuance of the shares of the Company's common stock into which the Convertible Notes and the Convertible Preferred Stock were converted was exempt from the registration provisions of the Securities Act of 1933, as amended, by virtue of the exemption afforded by Section 3(a)(9) thereof. Such determination was based upon the fact that the securities exchanged in connection with the Conversion were made by the Company with its existing security holder exclusively, the then beneficial owners of the Convertible Notes and Convertible Preferred Stock, and no commission or other remuneration was paid or given directly or indirectly for soliciting such exchange.

Issuer Purchases of Equity Securities

During the twelve months ended April 30, 2008, the Company repurchased common stock under the common stock repurchase programs approved by the Board of Directors in December 2005, June 2006, March 2007 and November 2007. Pursuant to these programs, shares can be repurchased in open market transactions or privately negotiated transactions at the Company's discretion.

The following table summarizes common stocks repurchased during the last quarter of fiscal 2008:

	Shares	Average Price Paid	Shares Purchased as Part of Publicly-Announced Programs (1), (2), (3) and (4)	Approximate Dollar Value of Shares that May Yet be Purchased under the Programs (1), (2), (3) and (4)
	Purchased	per Share		
February 1, 2008-February 29, 2008		\$		\$ 43.5 million
March 1, 2008-March 31, 2008	2,466	\$ 18.01		\$ 43.5 million
April 1, 2008-April 30, 2008	3,576	\$ 18.01		\$ 43.5 million

Total 6,042

- (1) On December 7, 2005, the Board of Directors approved the repurchase of up to \$50 million of the Company's common stock in a common stock repurchase program (the 2005 program). The shares can be repurchased in open market transactions or privately negotiated transactions at the Company's discretion.
- (2) On June 8, 2006 the Board of Directors approved the repurchase of a further \$25 million of the Company's common stock in a common stock repurchase program (the 2006 program). The shares can be repurchased in open market transactions or privately negotiated transactions at the Company's discretion.

Table of Contents

- (3) On March 6, 2007, the Board of Directors approved the repurchase of an additional \$50 million of the Company's common stock in a common stock repurchase program (the 2007 program). The shares can be repurchased in open market transactions or privately negotiated transactions at the Company's discretion.
- (4) On November 2, 2007, the Board of Directors approved the repurchase of an additional \$50 million of the Company's common stock in a common stock repurchase program (the 2008 program). The shares can be repurchased in open market transactions or privately negotiated transactions at the Company's discretion.

Item 6. Selected Financial Data

The following selected financial data are qualified by reference to, and should be read together with, our Audited Consolidated Financial Statements and Notes to Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing elsewhere in this Annual Report on Form 10-K. The selected statement of income data set forth below for the fiscal years ended April 30, 2008, 2007 and 2006 and the selected balance sheet data as of April 30, 2008 and 2007 are derived from our consolidated financial statements, audited by Ernst & Young LLP appearing elsewhere in this Form 10-K. The selected balance sheet data as of April 30, 2006, 2005 and 2004 and the selected statement of income data set forth below for the fiscal years ended April 30, 2005 and 2004 are derived from consolidated financial statements and notes thereto which are not included in this Form 10-K report and were audited by Ernst & Young LLP.

Total stockholders equity	496,134	432,955	323,751	252,902	181,252

- (1) In response to deteriorating economic conditions encountered in fiscal 2004, we recognized \$8.5 million of restructuring charges comprised of (a) severance restructuring charges of \$6.7 million and (b) facilities restructuring charges of \$1.8 million.
- (2) In the fourth quarter of fiscal 2007, we issued notice for the redemption of our 7.5% Convertible Series Subordinated Notes and 7.5% Convertible Series A Preferred Stock. In response, the holder of the notes and preferred stock exercised its option to convert the debt and preferred stock pursuant to the terms of the original agreements. The conversion resulted in approximately 5.6 million shares of our common stock being delivered to the debt and preferred stock holder in April 2007. As of April 30, 2008, we had no outstanding amounts related to these convertible securities. Conversion of debt is discussed in Item 7, *Long-Term Debt*.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations**Forward-looking Statements**

This Annual Report on Form 10-K may contain certain statements that we believe are, or may be considered to be, forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally can be identified by use of statements that include phrases such as believe, expect, anticipate, intend, plan, foresee, may, will, estimates, or other similar words or phrases. Similarly, statements that describe our objectives, plans or goals also are forward-looking statements. All of these forward-looking statements are subject to risks and uncertainties that could cause our actual results to differ materially from those contemplated by the relevant forward-looking statement. The principal risk factors that could cause actual performance and future actions to differ materially from the forward-looking statements include, but are not limited to, those set forth above under the caption, Risk Factors, including dependence on attracting and retaining qualified and experienced consultants, portability of client relationships, local political or economic developments in or affecting countries where we have operations, ability to manage growth, restrictions imposed by off-limits agreements, competition, reliance on information processing systems, and employment liability risk. Readers are urged to consider these factors carefully in evaluating the forward-looking statements. The forward-looking statements included in this Annual Report on Form 10-K are made only as of the date of this Annual Report on Form 10-K and we undertake no obligation to publicly update these forward-looking statements to reflect subsequent events or circumstances.

The following presentation of management's discussion and analysis of our financial condition and results of operations should be read together with our consolidated financial statements and related notes included in this

Annual Report on Form 10-K.

Executive Summary

Korn/Ferry is a premier provider of talent management solutions. We are the largest global provider of executive search, outsourced recruiting and leadership development solutions with the broadest global presence in the recruitment industry. Our services include executive recruitment, middle-management recruitment (through Futurestep), outsourced recruitment, leadership development solutions and executive coaching. Over half of the executive recruitment searches we performed in fiscal 2008 were for board level, chief executive and other senior executive and general management positions. Our 5,120 clients in fiscal 2008 included approximately 49% of the FORTUNE 500 companies. We have established strong client loyalty; 74% of the executive recruitment

20

Table of Contents

assignments we performed during the last fiscal year were on behalf of clients for whom we had conducted assignments in the previous three fiscal years.

In an effort to achieve our long-term vision of being the leading provider of executive search, outsourced recruiting and leadership development solutions, our strategic focus for fiscal 2009 will center upon increasing market share and further enhancing the cross-selling of our multi-product strategy. We will continue to address areas of increasing client demand, including RPO and LDS. We will explore new products and services, continue to pursue a disciplined acquisition strategy, enhance our technology and processes and aggressively leverage our brand through thought leadership and intellectual capital projects as a means of delivering world-class service to our clients.

Fee revenue increased 21% in fiscal year 2008 to \$790.6 million with increases in all regions. The North American region experienced the largest dollar increase in fee revenue. In fiscal 2008, we earned an operating profit of \$91.9 million with operating income from executive recruitment of \$122.0 million and \$8.5 million from Futurestep, offset by corporate expenses of \$38.6 million. This represents an increase of 12% over operating income of \$82.3 million in fiscal 2007.

We had no long-term debt or outstanding balance under our credit facility at April 30, 2008. Our working capital increased \$18.5 million during fiscal 2008 to \$253.8 million at April 30, 2008.

Critical Accounting Policies

The following discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements. Preparation of this Annual Report on Form 10-K requires us to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of our financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results may differ from those estimates and assumptions. In preparing our consolidated financial statements and accounting for the underlying transactions and balances, we apply our accounting policies as disclosed in our notes to consolidated financial statements. We consider the policies discussed below as critical to an understanding of our consolidated financial statements because their application places the most significant demands on management's judgment. Specific risks for these critical accounting policies are described in the following paragraphs. Senior management has discussed the development and selection of the critical accounting estimates with the Audit Committee of the Board of Directors.

Revenue Recognition. Management is required to establish policies and procedures to ensure that revenue is recorded over the performance period for valid engagements and related costs are matched against such revenue. We provide recruitment services on a retained basis and generally bill clients in three monthly installments. Since the fees are generally not contingent upon placement of a candidate, our assumptions primarily relate to establishing the period over which such service is performed. These assumptions determine the timing of revenue recognition and profitability for the reported period. If these assumptions do not accurately reflect the period over which revenue is earned, revenue and profit could differ. Any services that are provided on a contingent basis are recognized once the contingency is fulfilled.

Deferred Compensation. Estimating deferred compensation requires assumptions regarding the timing and probability of payments of benefits to participants and the discount rate. Changes in these assumptions would significantly impact the liability and related cost on our balance sheet and statement of operations. Management engages an independent actuary to periodically review these assumptions in order to ensure that they reflect the population and economics of our deferred compensation plans in all material respects and to assist us in estimating our deferred compensation liability and the related cost. The actuarial assumptions we use may differ from actual results due to changing market conditions or changes in the participant population. These differences could have a significant impact on our deferred

compensation liability and the related cost.

Carrying Values. Valuations are required under U.S. generally accepted accounting principles to determine the carrying value of various assets. Our most significant assets for which management is required to prepare valuations are goodwill, intangible assets and deferred income taxes. Management must identify whether events have occurred that may impact the carrying value of these assets and make assumptions regarding future events,

Table of Contents

such as cash flows and profitability. Differences between the assumptions used to prepare these valuations and actual results could materially impact the carrying amount of these assets and our operating results.

Results of Operations

The following table summarizes the results of our operations as a percentage of fee revenue:

	Fiscal Year Ended April 30,		
	2008	2007	2006
Fee revenue	100.0%	100.0%	100.0%
Reimbursed out-of-pocket engagement expenses	5.7	5.5	5.5
Revenue	105.7	105.5	105.5
Compensation and benefits	68.3	68.5	65.3
General and administrative expenses	17.0	16.1	17.9

(1) Margin calculated as a percentage of fee revenue by business segment.

Fiscal 2008 Compared to Fiscal 2007**Fee Revenue.**

Fee revenue increased \$137.2 million, or 21%, to \$790.6 million in fiscal 2008 compared to \$653.4 million in fiscal 2007. The improvement in fee revenue is attributable mainly to an 8% increase in the number of engagements billed within executive recruitment and an increase of 13% in average fees in all regions. Exchange rates favorably impacted fee revenues by \$35.4 million in fiscal 2008.

Executive Recruitment Executive recruitment fee revenue increased \$111.8 million, or 20%, to \$679.4 million in fiscal 2008 due to an increase in the number of engagements billed, an increase in average fees and \$10.4 million from the Lominger Entities in fiscal 2007. On a year-to-date basis, the number of executive recruitment engagements billed increased 11% in fiscal 2008 as compared to fiscal 2007.

North America fee revenue increased \$45.8 million, or 14%, to \$374.9 million in fiscal 2008 primarily due to a 10% increase in the number of engagements billed as well as a 4% increase in average fees as compared to fiscal 2007. The industrial, education, life sciences and healthcare sectors were the primary contributors to the increase in fee revenues offset by a slight decline within the financial services sector. Increased demand for the LDS products and services also resulted in a \$23.7 million increase in fee revenues.

EMEA reported fee revenue of \$183.0 million in fiscal 2008, an increase of \$36.8 million, or 25%, compared to \$146.2 million in fiscal 2007, which was driven by a 15% increase in the number of engagements billed and an increase in average fees of 9%. Fee revenue growth was experienced throughout the region in fiscal 2008 with the strongest performance from offices located in Germany, United Arab Emirates, France and Sweden. The industrial, technology and consumer goods sectors experienced strong growth in fiscal 2008 over fiscal 2007. Exchange rates favorably impacted EMEA fee revenue by \$15.4 million in fiscal 2008.

Asia Pacific fee revenue increased \$20.9 million, or 28%, to \$95.9 million in fiscal 2008, compared to fiscal 2007 due to a 9% increase in the number of engagements billed and an increase in average fees of 18%. The offices of Greater China (Hong Kong, Shanghai and Beijing), Australia, India and Singapore contributed 23%, 26%, 22% and 15%, respectively, the increase in fee revenue. All sectors experienced strong growth during fiscal 2008, with the industrial and financial services sectors providing the largest contributions to the increase in fee revenue compared to fiscal 2007. Exchange rates favorably impacted fee revenue for Asia Pacific by \$5.3 million in fiscal 2008.

Table of Contents

South America fee revenue was \$25.6 million in fiscal 2008, an increase of \$8.1 million, or 47%, of which \$2.9 million related to the favorable impact of exchange rates. Overall number of engagements billed within the region were comparable to fiscal 2007 while average fees increased by 32%. Every country in the region experienced growth during fiscal 2008, except for Ecuador and Peru which had fee revenues comparable to fiscal 2007, with Brazil and Columbia contributing approximately 78% and 12%, respectively, of the increase in fee revenues.

Futurestep Fee revenue increased \$25.4 million, or 30%, to \$111.2 million in fiscal 2008 compared to \$85.8 million in fiscal 2007. The improvement in fee revenue, reflected across all regions, is due to an increase in average fees resulting from our emphasis on larger outsourced recruiting solutions. Of the total increase in fee revenue, North America experienced the largest increase in fee revenue of \$11.0 million, or 36%, to \$41.8 million in fiscal 2008 due to the acquisition of The Newman Group in June 2007 and growth in Canada. Asia Pacific fee revenue increased to \$28.6 million in fiscal 2008, an increase of \$7.5 million, or 36%, reflecting increased revenue from RPO. Europe fee revenue increased \$6.9 million, or 20%, to \$40.8 million in fiscal 2008, arising from increased business across the region and a migration to larger engagements. Exchange rates favorably impacted fee revenue by \$8.0 million in fiscal 2008.

Compensation and Benefits.

Compensation and benefits expense increased \$92.4 million, or 21%, to \$540.1 million in fiscal 2008 from \$447.7 million in fiscal 2007. The increase in compensation and benefits expense is primarily due to increased global headcount of 323, or 14%, at April 30, 2008 compared to prior year, including an 18% increase in the average number of consultants, coupled with increased productivity and retention awards. Exchange rates unfavorably impacted compensation and benefits expense by \$22.4 million in fiscal 2008.

Executive recruitment compensation and benefits costs of \$440.7 million increased \$75.7 million in fiscal 2008, or 21%, compared to \$365.0 million in fiscal 2007 primarily due to the number of consultants hired in fiscal 2008. In fiscal 2008, the number of consultants increased by 24, or 5%, compared to fiscal 2007. Exchange rates impacted executive recruitment compensation and benefits expense unfavorably by \$17.4 million in fiscal 2008. Executive recruitment compensation and benefits expense, as a percentage of fee revenue, increased to 65% in fiscal 2008 compared to 64% in fiscal 2007.

Futurestep compensation and benefits expense increased \$17.9 million, or 31%, to \$76.3 million in fiscal 2008 from \$58.4 million in fiscal 2007 due to significant investments in new employees which increased Futurestep average consultant headcount by 71% during fiscal 2008. Exchange rates unfavorably impacted Futurestep compensation and benefits expense by \$5.0 million. Futurestep compensation and benefits expense, as a percentage of fee revenue, increased to 69% in fiscal 2008 from 68% in fiscal 2007.

Corporate compensation and benefits expense decreased \$1.2 million, or 5%, to \$23.1 million in fiscal 2008, primarily from a \$5.2 million charge for executive contract changes recorded in the fourth quarter of fiscal 2007 that was not present in fiscal 2008 offset by increases in salary and stock-based compensation expenses in fiscal 2008.

General and Administrative Expenses.

General and administrative expenses increased \$29.2 million, or 28%, to \$134.5 million in fiscal 2008 compared to \$105.3 million in fiscal 2007. Exchange rates unfavorably impacted general and administrative expenses by \$7.1 million in fiscal 2008.

Executive recruitment general and administrative expenses increased \$20.9 million, or 27%, from \$76.7 million in fiscal 2007 to \$97.6 million in fiscal 2008. The increase was driven by increases of \$8.5 million in premise and office

expenses, \$5.0 million in business development expenses, \$3.7 million in other types of general expenses including meetings and travel expense and \$3.1 million in bad debt expense. Increased premise and office expense was attributable to all regions due to increased rent expense, total space leased and associated utility costs. Business development increased primarily due to growth in the business and increased advertising and promotion costs to elevate our brand. Executive recruitment general and administrative expenses, as a percentage of fee revenue, was 14% in both fiscal 2008 and 2007.

Table of Contents

Futurestep general and administrative expenses increased \$6.4 million, or 40%, to \$22.6 million, in fiscal 2008 compared to fiscal 2007, primarily due to a net increase in premise and office expense of \$2.8 million resulting from increases in rent expense across all regions, the opening of new offices in Europe and Asia and \$0.9 million reversal of a previously recorded lease reserve in fiscal 2007 that was not present in fiscal 2008. Other administrative expenses increased \$1.3 million in fiscal 2008 resulting from an increase in travel and meeting expenses. Bad debt expense increased \$0.6 million in fiscal 2008 as a result of an increase in revenues and accounts receivable balances. Futurestep general and administrative expenses, as a percentage of fee revenue, increased to 20% in fiscal 2008 from 19% in fiscal 2007.

Corporate general and administrative expenses increased \$1.9 million, or 15%, to \$14.3 million in fiscal 2008 primarily due to increased professional fees and premise and office expenses related to additional office space leased in fiscal 2007.

Out-of-Pocket Engagement Expenses. Out-of-pocket engagement expenses consist of expenses incurred by candidates and our consultants that are generally billed to clients. Out-of-pocket engagement expenses of \$58.8 million increased \$14.1 million, or 32%, in fiscal 2008 compared to fiscal 2007. As a percentage of fee revenue, out-of-pocket engagement expenses increased less than 1% in fiscal 2008 compared to 7% in fiscal 2007.

Depreciation and Amortization Expenses. Depreciation and amortization expense of \$10.4 million in fiscal 2008 increased \$1.1 million, or 12%, from fiscal 2007. Depreciation expense relates mainly to computer equipment, software, furniture and leasehold improvements. The increase in such expenses in fiscal 2008 is attributable to an increase in fixed asset balances primarily associated with furniture and fixtures and leasehold improvements related to business expansion and office buildout and amortization of software costs that add new functionality in our corporate and executive search segments.

Operating Income.

Operating income increased \$9.6 million, or 12%, to \$91.9 million in fiscal 2008 compared to \$82.3 million in fiscal 2007, resulting from increased revenue of \$146.4 million offset by a \$136.8 million increase to operating expenses, primarily compensation and benefits and general and administrative expenses.

Executive recruitment operating income increased \$10.1 million, or 9%, to \$122.0 million in fiscal 2008 compared to \$111.9 million in fiscal 2007. The improvement in executive recruitment operating income is attributable to increased revenues offset by additional compensation expense relating to increased headcount and variable payouts as discussed previously, as well as increased professional fees, premise and other general administrative expense. Executive recruitment operating income, as a percentage of fee revenue, decreased to 18% from 20%, due to our continued investment in LDS and increases in productivity based compensation during fiscal 2008.

Futurestep operating income increased by \$0.6 million to \$8.5 million in fiscal 2008 as compared to operating income of \$7.9 million in fiscal 2007. The increase in Futurestep operating income is primarily due to higher average fees in engagements billed, offset by a \$0.9 million reversal of a previously recorded lease reserve recorded in fiscal 2007 and not present in fiscal 2008 and an increase in compensation and benefits and general and administrative expenses as a percentage of fee revenue in fiscal 2008. Futurestep operating income, as a percentage of fee revenue, declined to 8% in fiscal 2008 from 9% in fiscal 2007.

Interest Income and Other Income, Net. Interest income and other income, net, increased by \$1.5 million to \$11.9 million in fiscal 2008 from \$10.4 million in fiscal 2007. Interest and dividend income increased as a result of higher yields on larger balances of funds available for investment compared to fiscal 2007.

Interest Expense. Interest expense was \$4.8 million in fiscal 2008, a decrease of \$5.4 million compared to fiscal 2007. Interest expense in fiscal 2008 primarily related to borrowings under Company Owned Life Insurance Policies (COLI). The decrease in interest expense is primarily due to the conversion of the Company's convertible preferred stock and subordinated notes to common shares in the fourth quarter of fiscal 2007.

Table of Contents

Provision for Income Taxes. The provision for income taxes was \$36.1 million in fiscal 2008 compared to \$30.2 million in fiscal 2007. The provision for income taxes in fiscal 2008 reflects a 36.4% effective tax rate. The provision for income taxes for fiscal 2007 reflects a 36.6% tax rate.

Equity in Earnings of Unconsolidated Subsidiaries. Equity in earnings of unconsolidated subsidiaries is comprised of our less than 50% interest in our Mexican subsidiaries. We report our interest in earnings or loss of our Mexican subsidiaries on the equity basis as a one line adjustment to net income, net of taxes. Equity in earnings was \$3.3 million in fiscal 2008 compared to \$3.2 million in fiscal 2007, resulting from increased profitability in the Mexican subsidiaries. Dividends received from the Company's unconsolidated subsidiaries equaled \$2.9 million in fiscal 2008, and are reflected as a reduction in the carrying value of our investment.

Fiscal 2007 Compared to Fiscal 2006

Fee Revenue.

Fee revenue increased \$130.5 million, or 25%, to \$653.4 million in fiscal 2007 compared to \$522.9 million in fiscal 2006. The improvement in fee revenue is attributable mainly to an 8% increase in the number of engagements billed within executive recruitment and an increase in average fees from all regions. The Lominger Entities contributed \$11.9 million in revenues during fiscal 2007. Exchange rates favorably impacted fee revenues by \$14.7 million in the current year.

Executive Recruitment Executive recruitment fee revenue increased \$114.9 million, or 25%, due to an increase in the number of engagements billed, an increase in average fee and the Lominger acquisition. On a year-to-date basis, the number of executive recruitment engagements billed have increased by 8% as compared to last year.

North America fee revenue increased \$70.0 million, or 27%, to \$329.1 million primarily due to a 7% increase in the number of engagements billed as well as a 19% increase in average fees as compared to last year. The financial services, technology and industrial sectors were the primary contributors to the increase in fee revenues. An increased demand for the LDS products also resulted in a \$6.3 million increase in fee revenues.

EMEA reported fee revenue of \$146.2 million, an increase of \$26.1 million, or 22%, compared to \$120.1 million last year, which was driven by an 11% increase in the number of engagements billed and an increase in average fees of 10%. The performance in new offices in Denmark, Turkey and the Czech Republic and improved performance in existing offices in Germany, Belgium, Netherlands and the Middle East were the primary contributors to the increase in fee revenues. The financial services, industrial and technology sectors experienced strong growth over the prior year. Exchange rates favorably impacted EMEA fee revenue by \$10.8 million in the current year.

Asia Pacific fee revenue increased \$17.1 million, or 30%, to \$75.0 million, compared to last year due to a 12% increase in the number of engagements billed and an increase in average fees of 16%. The offices of Greater China (Hong Kong, Shanghai and Beijing) and Australasia (Australia and New Zealand) contributed 47% and 22%, respectively of the increase in fee revenue. The financial services, industrial and technology sectors experienced strong growth over the prior year. Exchange rates favorably impacted fee revenue for Asia Pacific by \$1.0 million in the current year.

South America reported fee revenue of \$17.4 million, an increase of \$1.8 million, or 11%, of which \$0.4 million related to the favorable impact of exchange rates. Overall engagements billed within the region were comparable to prior year while average fees increased by 16%. Every country in the region experienced growth over the prior year with Brazil contributing approximately one-third of the increase in fee revenues.

Futurestep Fee revenue increased \$15.6 million, or 22%, to \$85.8 million in fiscal 2007 compared to \$70.2 million in fiscal 2006. The improvement in fee revenue, reflected across all regions, is due to an increase in average fees resulting from our continued strategic emphasis on larger outsourced recruiting solutions. Of the total increase in fee revenue, Asia Pacific experienced the largest increase in fee revenue of \$6.6 million, or 45%, to \$21.1 million reflecting increased revenue from areas including RPO and Interim Solutions. Europe fee revenue increased \$6.6 million, or 24%, to \$33.9 million, arising from increased business in France, the United Kingdom,

Table of Contents

Spain and Australia and a migration to larger engagements. Exchange rates favorably impacted fee revenue by \$2.5 million in the current year.

Compensation and Benefits.

Compensation and benefits expense increased \$106.5 million, or 31%, to \$447.7 million in fiscal 2007 from \$341.2 million in fiscal 2006. The increase in compensation and benefits expense is primarily due to increased global headcount of 421, or 23%, compared to prior year, including an 16% increase in the average number of consultants, coupled with increased productivity and retention awards. Increased compensation and benefits also resulted from a \$5.2 million charge for executive employment contract changes recorded in the fourth quarter of fiscal 2007 and \$4.6 million of compensation and benefits from the Lominger Entities that wasn't present last year. Exchange rates unfavorably impacted compensation and benefits expense by \$9.3 million in the current year.

Executive recruitment compensation and benefits costs of \$365.0 million increased \$88.5 million, or 32%, compared to \$276.5 million in the prior year primarily due to consultants hired over the past year. In the current year, the number of consultants increased by 50, or 11%, compared to last year. Exchange rates impacted executive recruitment compensation and benefits expense unfavorably by \$7.7 million. Executive recruitment compensation and benefits expense, as a percentage of fee revenue, increased to 64% in fiscal year 2007 compared to 61% in fiscal 2006.

Futurestep compensation and benefits expense increased \$9.8 million, or 20%, to \$58.4 million from \$48.6 million in the prior year due to significant investments in our employees which increased Futurestep average consultant headcount by 50% over the past year. Exchange rates unfavorably impacted Futurestep compensation and benefits expense by \$1.6 million. Futurestep compensation and benefits expense, as a percentage of fee revenue, declined to 68% from 69% in the prior year.

Corporate compensation and benefits expense increased \$8.3 million, or 52%, to \$24.3 million, primarily from a \$5.2 million charge for executive contract changes recorded in the fourth quarter of fiscal 2007 and stock-based compensation expense that wasn't present in the prior year.

General and Administrative Expenses.

General and administrative expenses increased \$11.8 million, or 13%, to \$105.3 million in fiscal 2007 compared to \$93.5 million in 2006. The Lominger Entities contributed \$1.3 million to the increase. Exchange rates unfavorably impacted general and administrative expenses by \$2.6 million in the current year.

Executive recruitment general and administrative expenses increased \$9.4 million, or 14%, from \$67.3 million in the prior year to \$76.7 million in the current year. The increase was driven by other administrative expenses of \$2.1 million, including travel and meeting expenses, an increase in premise and office expense of \$4.9 million and a \$2.6 million increase in business development expenses. Increased premise and office expense was attributable to all regions due to increased rent expense and total space leased. Executive recruitment general and administrative expenses, as a percentage of fee revenue, decreased to 14% from 15% in the prior year.

Futurestep general and administrative expenses increased \$1.7 million, or 12%, to \$16.2 million, primarily due to a net increase in premise and office expense of \$1.3 million resulting from a \$2.2 million increase in rent expense, noted across all regions, and the opening of new offices in Europe and Asia offset by a \$0.9 million reversal of a previously recorded lease reserve. Bad debt expense increased \$0.3 million resulting from an increase in the level of business and corresponding increase in accounts receivable. Futurestep general and administrative expenses, as a percentage of fee revenue, decreased to 19% from 21% in the prior year.

Corporate general and administrative expenses increased \$0.8 million, or 7%, to \$12.4 million primarily due to increased professional fees and premise and office expenses related to additional office space leased in fiscal 2007.

Out-of-Pocket Engagement Expenses. Out-of-pocket engagement expenses consist of expenses incurred by candidates and our consultants that are generally billed to clients. Out-of-pocket engagement expenses of \$44.7 million increased \$12.7 million, or 40%, over the prior year. As a percentage of fee revenue, out-of-pocket engagement expenses increased to 7% in current year compared to 6% in prior year.

Table of Contents

Depreciation and Amortization Expenses. Depreciation and amortization expense of \$9.3 million in fiscal 2007 increased \$0.3 million, or 3%, from prior year. Depreciation expense relates mainly to computer equipment, software, furniture and leasehold improvements. Increase in expense for the current year is attributable to an increase in fixed asset balances primarily associated with furniture and fixtures and leasehold improvements related to business expansion and office buildout and amortization of software costs that add new functionality in our corporate and executive search segments.

Operating Income.

Operating income increased \$6.1 million, or 8%, to \$82.3 million in the current year compared to \$76.2 million in the prior year, resulting from increased revenue of \$137.4 million offset by a \$131.3 million increase to operating expenses, primarily compensation and benefits and general and administrative expenses in the current year. The Lominger Entities contributed \$2.6 million for the year ended April 30, 2007.

Executive recruitment operating income increased \$11.2 million, or 11%, to \$111.9 million in fiscal 2007 compared to \$100.7 million in fiscal 2006. The improvement in executive recruitment operating income is attributable to increased revenues offset by additional compensation expense relating to increased headcount and variable payouts as discussed previously, as well as increased professional fees, premise and other general administrative expense. Executive recruitment operating income, as a percentage of fee revenue, decreased to 20% from 22%, due to certain executive employment contract changes, our continued investment in Leadership Development Solutions and increases in productivity based compensation during the current year.

Futurestep operating income increased by \$4.5 million to \$7.9 million in fiscal 2007 as compared to operating income of \$3.4 million in fiscal 2006. The increase in Futurestep operating income is primarily due to higher average fees in engagements billed, a \$0.9 million reversal of a previously recorded lease reserve and improvements in compensation and benefits and general and administrative expenses as a percentage of fee revenue in the current year. Futurestep operating income, as a percentage of fee revenue, improved to 9% from 5% last year.

Interest Income and Other Income, Net. Interest income and other income, net decreased by \$0.7 million in fiscal 2007 from \$11.1 million in fiscal 2006. Interest and dividend income increased as a result of higher yields on larger balances of funds available for investment compared to prior year; however, this increase was not large enough to offset the \$4.5 million realization of a loss recovery on a previously impaired investment in fiscal 2006.

Interest Expense. Interest expense, primarily related to convertible securities and borrowings under Company Owned Life Insurance Policies (COLI) policies, was \$10.2 million in fiscal year 2007 and 2006. Interest expense related to the convertible securities was \$4.9 million in fiscal 2007; as these securities were converted to shares of the Company's common stock in April 2007 there will not be any interest expense in fiscal 2008 related to the securities. See Note 10 of the Notes to our Consolidated Financial Statements for more detailed information on the conversion of these securities.

Provision for Income Taxes. The provision for income taxes was \$30.2 million in fiscal 2007 compared to \$19.6 million in fiscal 2006. The provision for income taxes in the current year reflects a 36.6% effective tax rate. The provision for income taxes for the prior year reflects a 25.4% tax rate. Excluding the \$4.5 million realization of a loss recovery on a previously impaired investment and a net one-time tax benefit of \$6.5 million the effective tax rate for the fiscal year 2006 would have been 36.0%, which is comparable to the year ended April 30, 2007.

Equity in Earnings of Unconsolidated Subsidiaries. Equity in earnings of unconsolidated subsidiaries is comprised of our less than 50% interest in our Mexican subsidiaries. We report our interest in earnings or loss of our Mexican subsidiaries on the equity basis as a one line adjustment to net income, net of taxes. Equity in earnings was

\$3.2 million compared to \$2.0 million last year, resulting from increased profitability in both subsidiaries. Dividends received from the Company's unconsolidated subsidiaries equaled \$2.4 million in the current year, and is reflected as a reduction in the carrying value of our investment.

Table of Contents

Liquidity and Capital Resources

We believe that cash on hand, borrowings available under our credit facility and funds from operations will be sufficient to meet our anticipated working capital, capital expenditures and general corporate requirements. However, adverse changes in our revenue could require us to cut costs or obtain financing to meet our cash needs.

We are not aware of any trends or demands or commitments that would materially affect liquidity or those that relate to our resources.

The net increase in our working capital of \$18.5 million in fiscal 2008 compared to fiscal 2007 is primarily attributable to increases in accounts receivable balances related to overall growth in the number of engagements billed plus higher average fees per engagement in all regions and consistent accounts receivable collection.

Cash and cash equivalents and marketable securities were approximately \$389.3 million and \$324.3 million as of April 30, 2008 and 2007, respectively. Cash and cash equivalents consisted of cash and highly liquid investments purchased with original maturities of three months or less. Marketable securities consist of auction rate municipal securities, equity securities and fixed income mutual funds. The primary objectives for these investments are liquidity.

As of April 30, 2008 we had \$20.5 million of auction rate securities. Frequent auctions have historically provided a liquid market for our auction rate securities. However, in February 2008, liquidity issues in the global credit markets caused auctions representing some of the auction rate securities we hold to fail because the amount of securities offered for sale exceeded the amount of bids. As a result, the liquidity of our auction rate securities has diminished, and we expect that this decreased liquidity for our auction rate securities will continue as long as the present depressed global credit market environment persists, or until issuers refinance and replace these securities with other instruments. Despite the current auction market, we believe the credit quality of our auction rate securities remains high due to the credit worthiness of the issuers. We have continued to collect the interest when due and at this time we expect to continue to do so going forward. Additionally, we expect we will receive the entire outstanding principal through either future successful auctions, sales of these securities outside the auction process, the issuers establishment of different form of financing to replace these securities, or the maturing of the securities. We have classified auction rate securities as long-term marketable securities in our Consolidated Balance Sheet as of April 30, 2008. See Note 5 of our Notes to Consolidated Financial Statements for additional details about our investments in auction rate securities and other marketable securities.

Cash provided by operating activities was \$109.5 million in fiscal 2008, an increase of \$7.2 million, from \$102.3 million in fiscal 2007. The increase in cash provided by operating activities is primarily due to a \$10.7 million increase in net income, which was partially offset by the following changes: an increase in deferred income taxes of \$6.6 million and an increase in accounts payable and accrued liabilities of \$3.5 million related to productivity based compensation. The productivity based compensation increases are a direct result of substantial increases in revenues across business segments compared to the prior year. Offsetting these increases is a decrease in income taxes payable of \$10.5 million resulting from utilization of tax net operating loss carry-forwards and tax credits related to foreign and alternative minimum taxes, and \$5.2 million of deferred compensation plan accruals associated to contributions by the Company in various deferred compensations plans on behalf of employees compared to the prior year.

Cash provided by investing activities was \$1.8 million for fiscal 2008, compared to \$59.3 million used in the prior year. For the year ended April 30, 2008, the increase in cash provided was primarily attributable to \$21.3 million of marketable securities sold in fiscal 2008 compared to purchases of \$21.7 million in fiscal 2007. Capital expenditures during the year were \$17.0 million, an increase of \$2.9 million over prior year, primarily related to continuing expansion of our business and increased systems hardware and software costs. These expenditures primarily related to leasehold improvements from office expansion and internally-developed software projects including *Executive Center*

and *Searcher* as well as the upgrade of financial reporting software.

Cash used in financing activities was \$41.4 million in fiscal 2008, a \$15.4 million increase from 2007. In the current fiscal year, we repurchased \$64.2 million of common stock, of which the Company used the remaining \$50.4 million of the \$75.0 million of share repurchase funds authorized in June 2006 and March 2007 in addition to using \$6.5 million of the \$50 million authorization in November 2007 to buy back approximately 2.9 million shares.

Table of Contents

These repurchases were offset by proceeds received from the exercise of stock options of \$17.4 million and the related tax benefits of \$4.6 million from stock option exercises in the current fiscal year due in part to an increase in vested shares.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements and have not entered into any transactions involving unconsolidated, limited purpose entities.

Contractual Obligations

Contractual obligations represent future cash commitments and liabilities under agreements with third parties, and exclude contingent liabilities for which we cannot reasonably predict future payment. The following table represents our contractual obligations as of April 30, 2008 (in thousands):

	Total	Payments Due in:			
		Less Than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
Operating lease commitments(1)	\$ 140,169	\$ 30,014	\$ 47,470	\$ 28,049	\$ 34,636
Accrued restructuring charges(2)	2,264	757	1,507		
Total	\$ 142,433	\$ 30,771	\$ 48,977	\$ 28,049	\$ 34,636

- (1) See Note 16, Commitments and Contingencies, in the Notes to Consolidated Financial Statements for additional information.
- (2) See Note 6, Restructuring Liability, in the Notes to Consolidated Financial Statements for additional information. Note that the above amounts represent rent payments, net of sublease income, on an undiscounted basis.

In addition to the contractual obligations above, we have liabilities related to certain employee benefit plans. These liabilities are recorded in our Consolidated Balance Sheets. The obligations related to these employee benefit plans are described in Note 8, Deferred Compensation and Retirement Plans.

We also make interest payments on our COLI loans. These loans are described in Note 12 to the Notes to Consolidated Financial Statements, Long-Term Debt. As the timing of these loan repayments are uncertain, we have not included these obligations in the table above.

Lastly, we have contingent commitments under certain employment agreements that are payable upon termination of employment.

Long-Term Debt.

Total outstanding borrowings under our COLI policies were \$60.7 million, \$60.0 million and \$58.4 million as of April 30, 2008, 2007 and 2006, respectively. Generally, we borrow under our COLI policies to pay related premiums.

Such borrowings do not require annual principal repayments, bear interest primarily at variable rates and are secured by the cash surrender value of the life insurance policies of \$142.1 million, \$136.5 million and \$129.0 million as of April 30, 2008, 2007 and 2006, respectively. At April 30, 2008, the net cash value of these policies was \$81.4 million of which \$66.6 million was held in a trust.

As of April 30, 2008, we had no outstanding Convertible Notes or Convertible Preferred Stock. On March 7, 2007, the Company issued notice for the redemption of its Convertible Notes in an aggregate principal amount of \$40 million and its Convertible Preferred Stock in an aggregate principal price of \$10 million. As of March 7, 2007, \$45.6 million of the Convertible Notes and \$11.4 million of the Convertible Preferred Stock was outstanding. The Convertible Notes and Convertible Preferred Stock were convertible into shares of the Company's common stock at \$10.19 per share. In response to the Redemption Notice, the holder of the Convertible Notes and Convertible Preferred Stock exercised the Conversion of the Convertible Notes and Convertible Preferred Stock pursuant to the terms thereof. The Conversion resulted in 5,586,187 shares of the Company's common stock being delivered to the holder of the convertible securities in April 2007.

Table of Contents

In March 2008, we amended our Senior Secured Revolving Credit Facility (the Facility). The Facility has a \$50 million borrowing capacity with no borrowing base restrictions. The credit facility is secured by substantially all of our assets including certain accounts receivable balances and guarantees by and pledges of a portion of the capital stock of our significant subsidiaries. We are required to meet certain financial condition covenants on a quarterly basis. As of April 30, 2008, we had no outstanding borrowings on our Facility.

Quarterly Results

The following table sets forth certain unaudited statement of income data for the quarters in fiscal 2008 and 2007. The unaudited quarterly information has been prepared on the same basis as the annual financial statements and, in management's opinion, includes all adjustments necessary to present fairly the information for the quarters presented (dollars in thousands, except per share amounts).

	Quarters Ended							
	Fiscal 2008					Fiscal 2007		
	April 30	Jan. 31	Oct. 31	July 31	April 30	Jan. 31	Oct. 31	July 31
Fee revenue	\$ 208,204	\$ 201,156	\$ 195,857	\$ 185,353	\$ 179,702	\$ 165,239	\$ 155,718	\$ 152,763
Operating income	20,178	21,180	25,382	25,113	19,351	21,408	21,148	20,348
Net income	15,746	16,256	17,109	17,100	13,539	14,730	13,566	13,663
Net income per share								
Basic	0.36	0.38	0.38	0.38	0.33	0.37	0.35	0.35
Diluted	0.36	0.37	0.37	0.36	0.30	0.33	0.31	0.31

Recently Issued Accounting Standards

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). The Company adopted FIN 48 as of May 1, 2007. FIN 48 clarifies the accounting for income taxes by prescribing a minimum threshold for benefit recognition of a tax position for financial reporting purposes. FIN 48 also establishes tax accounting rules for measurement, classification, interest and penalties, disclosure and interim period accounting. As a result of the adoption of FIN 48, the Company recorded a cumulative effect adjustment which reduced retained earnings by \$3.5 million.

In September 2006, the Emerging Issues Task Force (EITF) of the FASB ratified EITF Issue No. 06-4 (EITF 06-4), Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements. The scope of EITF 06-4 is limited to the recognition of a liability and related compensation costs for endorsement split-dollar life insurance policies that provide a benefit to an employee that extends to postretirement periods. Therefore, EITF 06-4 would not apply to a split-dollar life insurance arrangement that provides a specified benefit to an employee that is limited to the employee's active service period with an employer. EITF 06-4 should be applied to fiscal years beginning after December 15, 2007, with earlier adoption permitted. We adopted EITF 06-4 effective May 1, 2008 and it did not have a material impact on our financial position or results of operations.

In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements (SFAS No. 157). The statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The statement emphasizes that fair value is a market-based measurement, not an entity-specific measurement and establishes a fair value hierarchy. This statement also clarifies

how the assumptions of risk and the effect of restrictions on sales or use of an asset effect the valuation. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years, however, the FASB staff has approved a one year deferral for the implementation of SFAS No. 157 for other non-financial assets and liabilities. We adopted this statement effective May 1, 2008 and it did not have a material impact on our financial position or results of operations.

In February, 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS No. 159) including an amendment of SFAS No. 115. This statement provides companies with

Table of Contents

an option to report selected financial assets and liabilities at fair value. This statement is effective for fiscal years beginning after November 15, 2007 with early adoption permitted. We adopted this statement effective May 1, 2008 and it did not have a material impact on our financial position or results of operations.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), Business Combinations (SFAS No. 141R). SFAS No. 141R will significantly change the accounting for business combinations. Under SFAS No. 141R, an acquiring entity will be required to recognize all the assets and liabilities assumed in a transaction at the acquisition date fair value with limited exceptions. SFAS No. 141R will change the accounting treatment for certain specific items, including:

Acquisition costs will generally be expensed as incurred;

Noncontrolling interests (formerly known as minority interests see SFAS No. 160 discussion below) will be valued at fair value at the acquisition date;

Acquired contingent liabilities will be recorded at fair value at the acquisition date and subsequently measured at either the higher of such amount or the amount determined under existing guidance for non-acquired contingencies;

In-process research and development will be recorded at fair value as an indefinite-lived intangible asset at the acquisition date;

Restructuring costs associated with a business combination will generally be expensed subsequent to the acquisition date; and

Changes in deferred tax asset valuation allowances and income tax uncertainties after the acquisition date generally will affect income tax expense.

SFAS No. 141R also includes a substantial number of new disclosure requirements. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Earlier adoption is prohibited. As our fiscal year-end is April 30 we will continue to record and disclose business combinations following existing GAAP until May 1, 2009. We expect SFAS No. 141R will have an impact on accounting for business combinations once adopted but the effect is dependent upon acquisitions at that time.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements An Amendment of ARB No. 51 (SFAS No. 160). SFAS No. 160 establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. Specifically, this statement requires the recognition of a noncontrolling interest (minority interest) as equity in the consolidated financial statements and separate from the parent's equity. The amount of net income attributable to the noncontrolling interest will be included in consolidated net income on the face of the income statement. SFAS No. 160 clarifies that changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation are equity transactions if the parent retains its controlling financial interest. In addition, this statement requires that a parent recognize a gain or loss in net income when a subsidiary is deconsolidated. Such gain or loss will be measured using the fair value of the noncontrolling equity investment on the deconsolidation date. SFAS No. 160 also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Like SFAS No. 141R discussed above, earlier adoption is prohibited. We have not completed our evaluation of the potential impact, if any, of the adoption of SFAS No. 160 on our consolidated financial position, results of operations and cash flows.

Item 7A. *Quantitative and Qualitative Disclosures About Market Risk*

As a result of our global operating activities, we are exposed to certain market risks, including foreign currency exchange fluctuations and fluctuations in interest rates. We manage our exposure to these risks in the normal course of our business as described below. We have not utilized financial instruments for trading, hedging or other speculative purposes nor do we trade in derivative financial instruments.

Table of Contents

Foreign Currency Risk.

Substantially all our foreign subsidiaries' operations are measured in their local currencies. Assets and liabilities are translated into U.S. dollars at the rates of exchange in effect at the end of each reporting period and revenue and expenses are translated at average rates of exchange during the reporting period. Resulting translation adjustments are reported as a component of comprehensive income on our consolidated Statement of Stockholders' Equity.

Transactions denominated in a currency other than the reporting entity's functional currency may give rise to transaction gains and losses that impact our results of operations. Historically, we have not realized significant foreign currency gains or losses on such transactions. In the year ended April 30, 2008, we recognized foreign currency gains, after income taxes, of \$0.6 million primarily related to our EMEA and Asia Pacific operations.

Our primary exposure to exchange losses is based on outstanding intercompany loan balances denominated in U.S. dollars. If the U.S. dollar strengthened 15%, 25% and 35% against the Pound Sterling, the Euro, the Canadian dollar, the Australian dollar and the Yen, the Company's exchange loss would have been \$3.5 million, \$5.9 million and \$8.2 million, respectively, based on outstanding balances at April 30, 2008. If the U.S. dollar weakened by the same increments against Pound Sterling, the Euro, the Canadian dollar, the Australian dollar and the Yen, the Company's exchange gain would have been \$3.5 million, \$5.9 million and \$8.2 million, respectively, based on outstanding balances at April 30, 2008.

Interest Rate Risk.

We primarily manage our exposure to fluctuations in interest rates through our regular financing activities, which generally are short term and provide for variable market rates. As of April 30, 2008, we had no outstanding balance on our credit facility. We have \$60.7 million of borrowings against the cash surrender value of COLI contracts as of April 30, 2008 bearing interest primarily at variable rates. The risk of fluctuations in these variable rates is minimized by the fact that we receive a corresponding adjustment to our borrowed funds crediting rate on the cash surrender value on our COLI contracts.

As of May 31, 2008, we held approximately \$20.5 million of marketable securities investments, classified as noncurrent assets, with an auction reset feature (auction rate securities) whose underlying assets are generally municipal notes or student loans which are substantially backed by the federal government. In mid-February 2008 liquidity issues in the global credit markets caused auctions for some of our auction rate securities to fail, and there is no assurance that currently successful auctions on the other auction rate securities in our investment portfolio will continue to succeed. As a result of the current situation in the auction markets, our ability to liquidate our investment in auction rate securities and fully recover the carrying value of our investment in the near term may be limited or impossible. An auction failure means that the parties wishing to sell securities cannot. If in the future the issuers are unable to successfully close future auctions and their credit ratings deteriorate, we may be required to record an impairment charge on these investments. We believe we will be able to liquidate our investment without loss within the next year, however, it could take until the final maturity of the underlying notes (up to 30 years) to realize our investments' recorded value. Based on our expected operating cash flows, and our other sources of cash, we do not anticipate the potential lack of liquidity on these investments will affect our ability to execute our current business plan.

Item 8. *Financial Statements and Supplementary Data*

See Consolidated Financial Statements beginning on page F-1 of this Annual Report on Form 10-K.

Supplemental Financial Information regarding quarterly results is contained in Item 7 under the heading Quarterly Results.

Item 9. *Changes in and Disagreements with Accountants on Accounting and Financial Disclosure*

No changes or disagreements were noted in the current fiscal year.

Table of Contents

Item 9A. *Controls and Procedures*

(a) Evaluation of Disclosure Controls and Procedures.

Based on their evaluation of our disclosure controls and procedures conducted as of the end of the period covered by this Annual Report on Form 10-K, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act) are effective.

(b) Changes in Internal Control over Financial Reporting.

There were no changes in our internal control over financial reporting during the fourth fiscal quarter or that have materially affected or are reasonably likely to materially affect our internal control over financial reporting, including any corrective actions with regard to significant deficiencies and material weaknesses. See Management's Report on Internal Control Over Financial Reporting and Report of Independent Registered Public Accounting Firm on Internal Control Over Financial Reporting on pages F-2 and F-3, respectively.

Annual Certifications

The Company submitted an Annual CEO Certification to the New York Stock Exchange with respect to fiscal 2007 pursuant to Section 303A.12(a) of the New York Stock Exchange Listed Company Manual.

The Company filed the CEO and CFO Certifications required by Section 302 of the Sarbanes-Oxley Act as exhibits to its Annual Report on Form 10-K for the year ended April 30, 2008.

Item 9B. *Other Information*

Not applicable.

**MANAGEMENT'S REPORT ON
INTERNAL CONTROL OVER FINANCIAL REPORTING**

Management of Korn/Ferry International (the Company) is responsible for establishing and maintaining adequate internal control over financial reporting and for the assessment of the effectiveness of internal control over financial reporting. As defined by the Securities and Exchange Commission, internal control over financial reporting is a process designed by, or supervised by, the Company's principal executive and principal financial officers, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with U.S. generally accepted accounting principles.

The Company's internal control over financial reporting is supported by written policies and procedures, that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the Company's assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of the Company's management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In connection with the preparation of the Company's annual financial statements, management of the Company has undertaken an assessment of the effectiveness of the Company's internal control over financial reporting as of April 30, 2008 based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO Framework). Management's assessment included an evaluation of the design of the Company's internal control over financial reporting and testing of the operational effectiveness of the Company's internal control over financial reporting.

Based on this assessment, management did not identify any material weakness in the Company's internal control over financial reporting, and management has concluded that the Company's internal control over financial reporting was effective as of April 30, 2008.

Ernst & Young, LLP, the independent registered public accounting firm that audited the Company's financial statements for the year ended April 30, 2008 included in this annual report, has issued an audit report on the effectiveness of the Company's internal control over financial reporting as of April 30, 2008, a copy of which is included in this Annual Report on Form 10-K.

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM
ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Stockholders and Board of Directors
Korn/Ferry International

We have audited Korn/Ferry International and subsidiaries (the Company) internal control over financial reporting as of April 30, 2008, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (the COSO criteria). The Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Korn/Ferry International and subsidiaries maintained, in all material respects, effective internal control over financial reporting as of April 30, 2008, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Korn/Ferry International and subsidiaries as of April 30, 2008 and 2007, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended April 30, 2008 and our report dated June 26, 2008 expressed an unqualified opinion thereon.

**REPORT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM**

Stockholders and Board of Directors
Korn/Ferry International

We have audited the accompanying consolidated balance sheets of Korn/Ferry International and subsidiaries (the Company) as of April 30, 2008 and 2007, and the related consolidated statements of income, stockholders' equity, and cash flows for each of the three years in the period ended April 30, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Korn/Ferry International and subsidiaries at April 30, 2008 and 2007, and the consolidated results of their operations and their cash flows for each of the three years in the period ended April 30, 2008, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the consolidated financial statements, the Company adopted the provisions of FASB Interpretation No. 48 on May 1, 2007. Also as discussed in Note 1, the Company changed its method of accounting for defined benefit pension and other post retirement plans in accordance with Statement of Financial Accounting Standards No. 158 on April 30, 2007, and effective May 1, 2006, the Company changed its method of accounting for Share-Based Payments in accordance with Statement of Financial Accounting Standards No. 123 (revised 2004).

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the Company's internal control over financial reporting as of April 30, 2008, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated June 26, 2008, expressed an unqualified opinion thereon.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

April 30, 2008

(Dollars in thousands, except per share amounts)

1. Organization and Summary of Significant Accounting Policies

Nature of Business

Korn/Ferry International, a Delaware corporation (the Company), and its subsidiaries are engaged in the business of providing executive search, outsourced recruiting and leadership development solutions on a retained basis.

Basis of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

Investments in affiliated companies which are 50% or less owned and where the Company exercises significant influence over operations are accounted for using the equity method. Investments in companies in which the Company does not have a controlling interest, or an ownership and voting interest so large as to exert significant influence, are accounted for at market value if the investment is publicly traded or at cost if the investment is not publicly traded. Dividends and other distributions of earnings from both market-value and cost-method investments are included in other income when declared. Dividends received from our two unconsolidated subsidiaries in Mexico were approximately \$2,900, \$2,400 and \$2,700 for fiscal 2008, 2007 and 2006, respectively.

Basis of Presentation

The accounting and reporting policies of the Company conform with U.S. generally accepted accounting principles (U.S. GAAP) and prevailing practice within the industry.

Use of Estimates and Uncertainties

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. As a result, actual results could differ from these estimates. The most significant areas that require management judgment are revenue recognition (discussed in *Revenue Recognition* below), deferred compensation (see Note 8), marketable securities (see Note 5) and evaluation of the carrying value of goodwill and intangible assets (discussed in *Goodwill and Intangible Assets* below) and deferred income taxes (see Note 9).

Revenue Recognition

Substantially all professional fee revenue is derived from fees for professional services related to executive recruitment, middle-management recruitment and related services performed on a retained basis. Fee revenue from recruitment activities is generally one-third of the estimated first year compensation plus a percentage of the fee to cover indirect expenses. Fee revenue is recognized as earned. The Company generally bills clients in three monthly installments commencing the month of client acceptance. Fees earned in excess of the initial contract amount are billed upon completion of the engagement. Any services that are provided on a contingent basis are recognized once

the contingency is fulfilled.

Allowance for Doubtful Accounts

A provision is established for doubtful accounts through a charge to general and administrative expense based on historical experience. After all collection efforts have been exhausted, the Company reduces the allowance for

F-9

Table of Contents

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

doubtful accounts for balances identified as uncollectible. Total write-offs of accounts receivable were \$8,080, \$5,653 and \$4,818 for fiscal 2008, 2007 and 2006, respectively.

Cash and Cash Equivalents

The Company considers cash equivalents to be only those investments which are highly liquid, readily convertible and mature within three months from the date of purchase.

Available-for-Sale Securities

The Company considers its marketable securities as available-for-sale as defined in Statement of Financial Accounting Standards (SFAS) No. 115, Accounting for Certain Investments in Debt and Equity Securities (SFAS No. 115). These investments are recorded at fair value and are classified as marketable securities in the accompanying consolidated balance sheets as of April 30, 2008 and 2007. The changes in fair values, net of applicable taxes, are recorded as unrealized gains (losses) as a component of accumulated other comprehensive income in stockholders' equity until the investment is sold or an unrealized loss is no longer considered temporary, at which time the realized or recognized gain or (loss) is included in operations. Realized capital gains and losses on investments are determined on a specific-identification basis.

Goodwill and Intangible Assets

Goodwill arising from acquisitions (see Notes 14 and 15) is recorded as the excess of the purchase price over the fair value of assets acquired. Purchased intangible assets are recorded at the estimated fair value of customer lists, intellectual property and trademarks acquired. Purchased intangible assets are amortized using the straight-line method over the estimated useful lives of 10 to 24 years (see Note 15).

In accordance with SFAS No. 142, Goodwill and Other Intangible Assets (SFAS No. 142), the Company's annual goodwill impairment test was performed as of January 31, 2008. The goodwill impairment test compares the fair value of a reporting unit with its carrying amount, including goodwill. If the carrying amount of a reporting unit exceeds its fair value, goodwill of the reporting unit would be considered impaired. To measure the amount of the impairment loss, the implied fair value of a reporting unit's goodwill is compared to the carrying amount of that goodwill. The implied fair value of goodwill shall be determined in the same manner as the amount of goodwill recognized in a business combination. If the carrying amount of a reporting unit's goodwill exceeds the implied fair value of that goodwill, an impairment loss shall be recognized in an amount equal to that excess. For each of these tests, the fair value of each of the Company's reporting units was determined using a combination of valuation techniques, including a discounted cash flow methodology. These impairment tests indicated that the fair value of each reporting unit exceeded its carrying amount. As a result, no impairment charge was recognized. There was also no indication of impairment in the fourth quarter of fiscal 2008.

As of April 30 2008, there were no indicators of impairment with respect to the Company's intangible assets.

Stock-Based Compensation

The Company has employee compensation plans under which various types of stock-based instruments are granted. These instruments, as more fully described below, principally include stock options, stock appreciation rights (SARs), restricted stock, and an Employee Stock Purchase Plan (ESPP).

Prior to May 1, 2006, the Company accounted for employee stock-based compensation under the recognition and measurement principles of Accounting Principles Board Opinion (APB) No. 25, Accounting for Stock Issued to Employees, (APB No. 25), and related Interpretations, as permitted by SFAS No. 123, Accounting for Stock-Based Compensation (SFAS No. 123). Under the recognition principles of APB No. 25, compensation expense related to restricted stock and SARs was recognized in the Company's consolidated financial statements. However, APB No. 25 generally did not require the recognition of compensation expense for stock options because

Table of Contents**KORN/FERRY INTERNATIONAL AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

the exercise price of these instruments was generally equal to the market value of the underlying common stock on the date of grant, and the related number of shares granted were fixed at that point in time. Compensation expense for the ESPP was not recognized since the ESPP was considered non-compensatory under APB No. 25.

Effective May 1, 2006, the Company adopted the fair value recognition provisions of SFAS No. 123(R), Share-Based Payments (SFAS No. 123(R)). In addition to recognizing compensation expense related to restricted stock and SARs, SFAS No. 123(R) also requires the Company to recognize compensation expense related to the estimated fair value of stock options and for purchases under the ESPP. The Company adopted SFAS No. 123(R) using the modified-prospective-transition method. Under that transition method, compensation expense recognized subsequent to adoption includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of May 1, 2006, based on the values estimated in accordance with the original provisions of SFAS No. 123, and (b) compensation cost for all share-based payments granted or modified subsequent to May 1, 2006, based on the grant-date fair values estimated in accordance with the provisions of SFAS No. 123(R). Consistent with the modified-prospective-transition method, the Company's results of operations for prior periods have not been adjusted to reflect the adoption of SFAS No. 123(R).

As a result of recognizing compensation expense for stock options and the ESPP pursuant to the provisions of SFAS No. 123(R), the Company's income before income taxes and net income in fiscal 2008 were \$2,615 and \$1,661 lower, respectively, than if the Company had continued to account for the stock-based compensation under APB No. 25. Basic and diluted earnings per share (EPS) for fiscal 2008 were both \$0.04 lower than if the Company had continued to account for the stock-based compensation under APB No. 25. For fiscal 2007, the Company's income before income taxes and net income in fiscal 2007, were \$5,894 and \$3,743 lower, respectively, than if the Company had continued to account for the stock-based compensation under APB No. 25. Basic and diluted EPS for fiscal 2007 were \$0.09 and \$0.08 lower, respectively, than if the Company had continued to account for the stock-based compensation under APB No. 25.

The following table reflects the components of stock-based compensation expense recognized in the Company's consolidated statements of income for fiscal 2008, 2007, and 2006:

	Fiscal Year Ended April 30,		
	2008	2007	2006
Stock options and SARs	\$ 1,806	\$ 4,974	\$ 1,525
Restricted stock	13,590	10,086	4,135
Employee Stock Purchase Plan	553	496	
Total stock-based compensation expense, pre-tax	15,949	15,556	5,660
Tax benefit from stock-based compensation expense	(5,821)	(5,875)	(2,017)
Total stock-based compensation expense, net of tax	\$ 10,128	\$ 9,681	\$ 3,643

The above table does not reflect any stock option or ESPP compensation for fiscal 2006 under APB No. 25 as the Company generally did not record stock option or ESPP expense, as previously discussed.

F-11

Table of Contents**KORN/FERRY INTERNATIONAL AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table illustrates the effect on net income and EPS for the year ended April 30, 2006 if the Company had applied the fair value recognition provisions of SFAS No. 123(R) to stock-based compensation:

Net income, as reported	\$ 59,430
Stock-based employee compensation charges, net of related tax effects:	
Employee stock compensation expense included in net income, as reported, net	3,643
Employee stock compensation expense determined under the fair-value based method, net	(9,483)
Net income, as adjusted	\$ 53,590
Interest expense on convertible securities, net of related tax effects	3,113
Net income for diluted EPS, as adjusted	\$ 56,703
Basic EPS	
As reported	\$ 1.49
Pro forma	\$ 1.38
Dilutive EPS	
As reported	\$ 1.32
Pro forma	\$ 1.20

The Company uses the Black-Scholes option valuation model to estimate the grant date fair value of employee stock options. The expected volatility reflects the consideration of the historical volatility in the Company's publicly traded instruments during the period the option is granted. The Company believes historical volatility in these instruments is more indicative of expected future volatility than the implied volatility in the price of the Company's common stock. The expected life of the options is estimated using historical data. The risk-free interest rate is based on the U.S. Treasury zero-coupon issue with a remaining term approximating the expected term of the options. Upon adoption of SFAS No. 123(R), the Company began using historical data to estimate forfeiture rates applied to the gross amount of expense determined using the option valuation model. Prior to adoption of SFAS No. 123(R), the Company recognized forfeitures as they occurred. There was no material impact upon adoption of SFAS No. 123(R) between these methods of accounting for forfeitures. The following assumptions were used by the Company for options granted in the respective periods:

	Fiscal Year Ended April 30,		
	2008	2007	2006
Expected stock volatility	44.42%	48.05%	50.0%
Risk-free interest rate	4.60%	4.95%	3.83%
Expected option life (in years)	4.00	4.00	4.50
Expected dividend yield	0.0%	0.0%	0.0%

The Black-Scholes option pricing model was developed for use in estimating the fair value of traded options. The assumptions used in option valuation models are highly subjective, particularly the expected stock price volatility of the underlying stock. For purposes of pro forma disclosures, the estimated fair values of the options are amortized over the options vesting periods.

Translation of Foreign Currencies

Generally, financial results of the Company's foreign subsidiaries are measured in their local currencies. Assets and liabilities are translated into U.S. dollars at the rates of exchange in effect at the end of each fiscal year and revenue and expenses are translated at average rates of exchange during the fiscal year. Resulting translation adjustments are reported as a component of comprehensive income. Gains and losses from foreign currency

Table of Contents

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

transactions of these subsidiaries and the translation of the financial results of subsidiaries operating in highly inflationary economies are included in general and administrative expense. Foreign currency losses, on an after tax basis, included in net income, were \$558, \$148 and \$374 in fiscal 2008, 2007 and 2006, respectively.

Fair Value of Financial Instruments

The carrying amount of cash, cash equivalents and accounts receivable approximates fair value due to the short maturity of these instruments. The fair values of marketable securities, other than auction rate securities (ARS), are obtained from quoted market prices. ARS typically were stated at par value due to the frequent resets through the auction process. While the Company continues to earn interest on auction rate securities at the maximum contractual rate, these investments are not currently trading and therefore do not currently have a readily determinable market value. Accordingly, par value no longer approximates the estimated fair value of auction rate securities. A discounted cash flow model was used to determine the estimated fair value of the Company's investment in auction rate securities as of April 30, 2008.

Concentration of Credit Risk

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of receivables due from clients. Concentrations of credit risk with respect to receivables are limited due to the Company's large number of clients and their dispersion across many different industries and countries worldwide. At April 30, 2008, the Company had no significant credit concentrations.

Cash Surrender Value of Life Insurance

The change in the cash surrender value (CSV) of company owned life insurance (COLI) contracts, net of insurance premiums paid and gains realized, is reported in compensation and benefits expense (see Note 8).

Reclassifications

Certain prior year reported amounts have been reclassified to conform to the current year presentation.

Recently Issued Accounting Standards

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* — an amendment of FASB Statements No. 87, 88, 106, and 132(R) (SFAS No. 158). SFAS No. 158 retains the previous measurement and disclosure requirements of prior accounting guidance, but now requires the recognition of the funded status of pension and other postretirement benefit plans on the balance sheet (recognition provisions). Furthermore, for fiscal years ending after December 15, 2008, SFAS No. 158 requires fiscal-year-end measurements of plan assets and benefit obligations, eliminating the use of earlier measurement dates currently permissible. The recognition provisions of SFAS No. 158 were effective for the Company on April 30, 2007. Previously unrecognized actuarial gains or losses, prior service cost, and any remaining unamortized transition obligation will be recognized on the balance sheet with an offset to accumulated other comprehensive income, net of any resulting deferred tax balances. The Company adopted SFAS No. 158 on April 30, 2007. The adoption did not have a material impact on the consolidated financial statements (see Note 8).

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). The Company adopted FIN 48 as of May 1, 2007. FIN 48 clarifies the accounting for income taxes by prescribing a minimum threshold for benefit recognition of a tax position for financial reporting purposes. FIN 48 also establishes tax accounting rules for measurement, classification, interest and penalties, disclosure and interim period accounting. As a result of the adoption of FIN 48, the Company recorded a cumulative effect adjustment which reduced retained earnings by \$3,541 on May 1, 2007.

F-13

Table of Contents

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

In September 2006, the Emerging Issues Task Force (EITF) of the FASB ratified EITF Issue No. 06-4 (EITF 06-4), Accounting for Deferred Compensation and Postretirement Benefit Aspects of Endorsement Split-Dollar Life Insurance Arrangements. The scope of EITF 06-4 is limited to the recognition of a liability and related compensation costs for endorsement split-dollar life insurance policies that provide a benefit to an employee that extends to postretirement periods. Therefore, EITF 06-4 would not apply to a split-dollar life insurance arrangement that provides a specified benefit to an employee that is limited to the employee's active service period with an employer. EITF 06-4 should be applied to fiscal years beginning after December 15, 2007, with earlier adoption permitted. We adopted EITF 06-4 effective May 1, 2008 and it did not have a material impact on our financial position or results of operations.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS No. 157). The statement defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The statement emphasizes that fair value is a market-based measurement, not an entity-specific measurement and establishes a fair value hierarchy. This statement also clarifies how the assumptions of risk and the effect of restrictions on sales or use of an asset effect the valuation. SFAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years, however, the FASB staff has approved a one year deferral for the implementation of SFAS No. 157 for other non-financial assets and liabilities. The Company adopted this statement effective May 1, 2008 and it did not have a material impact on its financial position or results of operations.

In February, 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS No. 159) including an amendment of SFAS No. 115. This statement provides companies with an option to report selected financial assets and liabilities at fair value. This statement is effective for fiscal years beginning after November 15, 2007 with early adoption permitted. The Company adopted this statement effective May 1, 2008 and it did not have a material impact on its financial position or results of operations.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), Business Combinations (SFAS No. 141R). SFAS No. 141R will significantly change the accounting for business combinations. Under SFAS No. 141R, an acquiring entity will be required to recognize all the assets and liabilities assumed in a transaction at the acquisition date fair value with limited exceptions. SFAS No. 141R will change the accounting treatment for certain specific items, including:

Acquisition costs will generally be expensed as incurred;

Noncontrolling interests (formerly known as minority interests see SFAS No. 160 discussion below) will be valued at fair value at the acquisition date;

Acquired contingent liabilities will be recorded at fair value at the acquisition date and subsequently measured at either the higher of such amount or the amount determined under existing guidance for non-acquired contingencies;

In-process research and development will be recorded at fair value as an indefinite-lived intangible asset at the acquisition date;

Restructuring costs associated with a business combination will generally be expensed subsequent to the acquisition date; and

Changes in deferred tax asset valuation allowances and income tax uncertainties after the acquisition date generally will affect income tax expense.

SFAS No. 141R also includes a substantial number of new disclosure requirements. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. Earlier adoption is prohibited. As the Company's fiscal year-end is April 30 it will continue to record and disclose business combinations following existing U.S. GAAP

Table of Contents**KORN/FERRY INTERNATIONAL AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

until May 1, 2009. The Company expects SFAS No. 141R will have an impact on accounting for business combinations once adopted but the effect is dependent upon acquisitions at that time.

In December 2007, the FASB issued SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements An Amendment of ARB No. 51 (SFAS No. 160). SFAS No. 160 establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. Specifically, this statement requires the recognition of a noncontrolling interest (minority interest) as equity in the consolidated financial statements and separate from the parent's equity. The amount of net income attributable to the noncontrolling interest will be included in consolidated net income on the face of the income statement. SFAS No. 160 clarifies that changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation are equity transactions if the parent retains its controlling financial interest. In addition, this statement requires that a parent recognize a gain or loss in net income when a subsidiary is deconsolidated. Such gain or loss will be measured using the fair value of the noncontrolling equity investment on the deconsolidation date. SFAS No. 160 also includes expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. SFAS No. 160 is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. Like SFAS No. 141R discussed above, earlier adoption is prohibited. The Company has not completed its evaluation of the potential impact, if any, of the adoption of SFAS No. 160 on its consolidated financial position, results of operations and cash flows.

2. Basic and Diluted Earnings Per Share

Basic earnings per common share (basic EPS) was computed by dividing net income by the weighted average number of common shares outstanding. Diluted earnings per common share (diluted EPS) reflects the potential dilution that would occur if all in-the-money outstanding options or other contracts to issue common stock were exercised or converted and was computed by dividing adjusted net income, after assumed conversion of subordinated notes and preferred stock, by the weighted average number of common shares outstanding plus dilutive common equivalent shares. The following is a reconciliation of the numerator and denominator (shares in thousands) used in the computation of basic EPS and diluted EPS:

	Fiscal Year Ended April 30,		
	2008	2007	2006
Net income (Numerator):			
Net income	\$ 66,211	\$ 55,498	\$ 59,430
Interest expense on convertible securities, net of related tax effects	145	2,863	3,113
Net income for diluted EPS	\$ 66,356	\$ 58,361	\$ 62,543
Shares (Denominator):			
Weighted average shares for basic EPS	44,012	39,774	39,890
Effect of:			
Convertible subordinated notes		4,083	4,470
Convertible preferred stock		1,016	1,117
Warrants	109	123	95

Edgar Filing: KORN FERRY INTERNATIONAL - Form 10-K

Restricted stock	319	274	273
Stock options	1,078	1,665	1,412
Employee stock purchase plan	10	3	13
Adjusted weighted average shares for diluted EPS	45,528	46,938	47,270
Basic earnings per share	\$ 1.50	\$ 1.40	\$ 1.49
Diluted earnings per share	\$ 1.46	\$ 1.24	\$ 1.32

F-15

Table of Contents**KORN/FERRY INTERNATIONAL AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Assumed exercises or conversions have been excluded in computing the diluted earnings per share when their inclusion would be anti-dilutive.

3. Comprehensive Income

Comprehensive income is comprised of net income and all changes to stockholders' equity, except those changes resulting from investments by owners (changes in paid in capital) and distributions to owners (dividends).

Total comprehensive income is as follows:

	Fiscal Year Ended April 30,		
	2008	2007	2006
Net income	\$ 66,211	\$ 55,498	\$ 59,430
Reclassification adjustment for gains included in net income	(1,626)	(782)	(573)
Defined benefit plans	1,114		
Unrealized (loss) gain on marketable securities, net of taxes	(1,890)	1,626	872
Foreign currency translation adjustments	24,894	9,186	932
Comprehensive income	\$ 88,703	\$ 65,528	\$ 60,661

The accumulated other comprehensive income at April 30, 2008 is comprised of foreign currency translation adjustments, unrealized losses and the effect of SFAS No. 158 of \$44,208, (\$1,890) and \$779, respectively. The accumulated other comprehensive income at April 30, 2007 included foreign currency translation adjustments and unrealized gains of \$19,314 and \$1,626, respectively. Comprehensive income includes income tax adjustments of (\$2,031) and \$594 as of April 30, 2008 and 2007, respectively.

4. Employee Stock Plans***Stock Option Plans***

The maximum number of shares of common stock reserved for stock option issuance is 16,000, subject to adjustment for certain changes in the Company's capital structure and other extraordinary events.

The Company's employee stock option plans provide for option grants designated as either nonqualified, incentive stock options or SARs. Options granted to officers, non-employee directors and other key employees generally vest over a three to five year period and generally expire ten years from the date of grant. Stock options are granted at a price equal to the fair market value of the common stock on the date of grant. Key employees are eligible to receive a grant of stock options annually with the number of options determined by the employee's performance level. In addition, certain key management members typically receives stock option grants upon commencement of employment.

Table of Contents**KORN/FERRY INTERNATIONAL AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The status of stock options and SARs issued under the Company's performance award plans are summarized below:

	Number of Shares (In thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (In Years)	Aggregate Intrinsic Value
Outstanding at May 1, 2005	7,829	\$ 12.14		
Granted	837	\$ 17.99		
Exercised	(1,783)	\$ 9.81		
Canceled/forfeited	(141)	\$ 15.13		
Outstanding at April 30, 2006	6,742	\$ 13.42		
Granted	113	\$ 21.09		
Exercised	(1,945)	\$ 10.88		
Canceled/forfeited	(172)	\$ 16.74		
Outstanding at April 30, 2007	4,738	\$ 14.52		
Granted	6	\$ 21.11		
Exercised	(1,095)	\$ 13.29		
Canceled/forfeited	(85)	\$ 19.71		
Outstanding at April 30, 2008	3,564	\$ 14.79	4.7	\$ 16,906
Exercisable at April 30, 2008	3,257	\$ 14.41	4.5	\$ 16,765

Included in the table above are 61 SARs outstanding as of April 30, 2008 with a weighted average exercise price of \$12.42. As of April 30, 2008, there was \$952 of total unrecognized compensation cost related to nonvested awards of stock options and SARs. That cost is expected to be recognized over a weighted-average period of one year. For stock option awards subject to graded vesting that were issued after May 1, 2006, the Company recognizes the total compensation cost on a straight-line basis over the service period for the entire award.

Summary information about the Company's stock options and SARs outstanding at April 30, 2008 is presented in the following table (shares in thousands):

Options Outstanding**Options Exercisable**

Range of Exercise Price	Outstanding as of April 30, 2008	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price	Exercisable as of April 30, 2008	Weighted Average Remaining Contractual Life	Weighted Average Exercise Price
\$ 6.16 - \$ 7.38	534	3.8	\$ 7.35	534	3.8	\$ 7.35
\$ 7.39 - \$11.00	797	5.1	\$ 8.23	797	5.1	\$ 8.23

Additional information pertaining to stock options:

	Fiscal Year Ended April 30,		
	2008	2007	2006
Weighted average fair value of stock options granted	\$ 8.54	\$ 9.12	\$ 8.70
Total fair value of stock options and SARs vested	4,103	10,245	10,324
Total intrinsic value of stock options exercised	12,552	20,422	16,256
Total intrinsic value of SARs paid		319	240

Restricted Stock Plan

The Company grants restricted stock to executive officers and other senior employees generally vesting over a three to four year period. Restricted stock is granted at a price equal to the fair market value of the common stock on the date of grant. Employees may receive restricted stock annually in conjunction with the Company's performance review as well as during the year upon commencement of employment. The fair values of restricted stock are determined based on the closing price of the Company's common stock on the grant dates.

The status of the Company's unvested restricted common stock is summarized below:

	Number of Shares (In thousands)	Weighted Average Fair Value
Outstanding at May 1, 2006	687	\$ 16.63
Issuances	1,187	\$ 19.64
Vested	(444)	\$ 16.35
Forfeited	(74)	\$ 18.38
Outstanding at April 30, 2007	1,356	\$ 19.26
Issuances	1,216	\$ 24.16
Vested	(506)	\$ 19.88
Forfeited	(114)	\$ 22.49
Outstanding at April 30, 2008	1,952	\$ 22.01

As of April 30, 2008, there was \$31,276 of total unrecognized compensation cost related to nonvested awards of shares of restricted stock. That cost is expected to be recognized over a period of 2.7 years. For restricted stock awards subject to graded vesting that were issued after May 1, 2006, the Company recognizes the total compensation cost on a straight-line basis over the service period for the entire award.

Employee Stock Purchase Plan

In October 2003, the Company implemented an ESPP that, in accordance with Section 423 of the Internal Revenue Code of 1986, allows eligible employees to authorize payroll deductions of up to 15% of their salary to purchase shares of the Company's common stock at 85% of the fair market price of the common stock on the last day of the enrollment period. The maximum number of shares of common stock reserved for ESPP issuance is 1,500, subject to adjustment for certain changes in the Company's capital structure and other extraordinary events. In fiscal years 2008, 2007, and 2006, employees purchased 151 shares at \$19.06 per share, 142 shares at \$17.81 per share, and 183 shares at \$15.06 per share, respectively. At April 30, 2008, the ESPP had approximately 800 shares available for future issuance.

Total	\$ 88,757	\$ 4,310	\$ (1,331)	\$ 91,736

(1) Classified as noncurrent in the Consolidated Balance Sheet as of April 30, 2008.

Investments in marketable securities are made based on the Company's investment policy which restricts the types of investments that can be made.

As of April 30, 2008 and April 30, 2007, the Company's marketable securities included \$41,600 and \$35,200, respectively, held in trust for settlement of the Company's obligations under its Executive Capital Accumulation Plan (ECAP). See additional discussion in Note 8, Deferred Compensation and Retirement Plans.

As of April 30, 2008, approximately \$20,475 of the Company's marketable securities consisted of auction rate securities, which are variable rate debt instruments, having long-term maturities, but whose interest rates are reset through an auction process, most commonly at intervals ranging from 7 to 35 days. Substantially all of the Company's auction rate securities are high quality municipal notes or pools of students loans of which substantially all have AAA

ratings or otherwise are backed by AAA rated insurance agencies or federal government agencies as of April 30, 2008. Securities with a par value of \$4.6 million are backed by insurance companies whose ratings were recently down graded; however, the ratings remain investment grade. In February 2008, liquidity issues in the global credit markets caused auctions representing some of the auction rate securities the Company holds to fail because the amount of securities offered for sale exceeded the amount of bids. As a result, the liquidity of our auction rate securities has diminished, and the Company expects that this decreased liquidity for its auction rate securities will continue as long as the present depressed global credit market environment persists, or until issuers refinance and replace these securities with other instruments. Furthermore, if this situation were to persist, despite its ability to hold such investments until maturity, the Company may be required to record an impairment charge at a future date.

The Company will continue to monitor and evaluate these investments as there is no assurance as to when the market for these securities will return to its previous liquid nature. Accordingly, these securities have been reclassified from current to noncurrent in the accompanying balance sheet as of April 30, 2008 as the Company believes that the anticipated liquidation of these investments may take longer than twelve months.

Table of Contents**KORN/FERRY INTERNATIONAL AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company's gross unrealized losses of \$3,434 related to its ARS and equity securities as of April 30, 2008 have been in a loss position for less than twelve months. Based on review of its securities included in the tables above, the Company determined that the unrealized losses were primarily a result of the liquidity issues in the global credit markets. Therefore, as of April 30, 2008, none of the Company's ARS or equity securities investments whose fair value was less than amortized cost were considered to be other-than-temporarily impaired given the severity and duration of the impairment, the credit quality of the issuers, and the Company's intent and ability to hold the securities until fair value recovers above cost, or to maturity.

As of October 31, 2007, the Company concluded that it was appropriate to classify certain of its investments previously classified as cash and cash equivalents as marketable securities. To conform to the current period presentation, the Company has reclassified \$56,575 from cash and cash equivalents to marketable securities as of April 30, 2007.

6. Restructuring Liability

A roll-forward of the restructuring liability at April 30, 2008 is as follows:

	Severance	Facilities	Total
Liability as of April 30, 2006	\$ 60	\$ 5,405	\$ 5,465
Charged to expense		(1,223)	(1,223)
Payments		(1,219)	(1,219)
Liability as of April 30, 2007	60	2,963	3,023
Payments	(60)	(699)	(759)
Liability as of April 30, 2008	\$	\$ 2,264	\$ 2,264

The accrued liability for facilities costs primarily relates to commitments under operating leases, net of sublease income, of which \$1,507 is included in other long-term liabilities, which will be paid over the next four years.

In the fourth quarter of fiscal 2007 the Company adjusted its facilities reserves by \$1,223 primarily resulting from its Futurestep operations assuming occupancy of a portion of a facility in April 2007 that was previously reserved for as part of the previously approved restructuring initiatives.

7. Employee Tax Deferred Savings Plan

The Company has an Employee Tax Deferred Savings Plan that covers eligible employees in the United States. The discretionary accrued contribution to this plan was \$1,544, \$1,213 and \$544 for fiscal 2008, 2007 and 2006, respectively.

Table of Contents**KORN/FERRY INTERNATIONAL AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****8. Deferred Compensation and Retirement Plans**

The Company maintains several employee benefit plans. The total long-term benefit liability for the deferred compensation, retirement, pension plans and ECAP were as follows:

	Fiscal Year Ended April 30,	
	2008	2007
Deferred compensation plans	\$ 51,465	\$ 51,804
Pension plans	2,986	3,160
Retirement plans	3,701	2,664
ECAP	47,567	33,732
Total long-term benefit obligation	\$ 105,719	\$ 91,360

Deferred Compensation Plans

The Enhanced Wealth Accumulation Plan (EWAP) was established in fiscal 1994. Certain vice presidents elected to participate in a deferral unit that required the participant to contribute a portion of their compensation for an eight year period, or in some cases, make an after tax contribution, in return for defined benefit payments from the Company over a fifteen year period generally at retirement age of 65 or later. Participants were able to acquire additional deferral units every five years. The EWAP replaced the Wealth Accumulation Plan (WAP) in fiscal 1994 and vice presidents who did not choose to roll over their WAP units into the EWAP continue to be covered under the earlier version in which participants generally vest and commence receipt of benefit payments at retirement age of 65. In June 2003, the Company amended the EWAP and WAP plans, so as not to allow new participants or the purchase of additional deferral units by existing participants.

The Company also maintains a Senior Executive Incentive Plan (SEIP) for participants approved by the Board. Generally, to be eligible, the vice president must be participating in the EWAP. Participation in the SEIP required the participant to contribute a portion of their compensation during a four-year period, or in some cases make an after tax contribution, in return for a defined benefit paid by the Company generally over a fifteen year period after ten years of participation in the plan or such later date as elected by the participant. In June 2003, the Company amended the SEIP plan, so as not to allow new participants or the purchase of additional deferral units by existing participants.

The Company also established several deferred compensation plans for vice-presidents that provide defined benefit payments to participants based on the deferral of compensation subject to vesting and retirement or termination provisions.

Certain current and former employees also have individual deferred compensation arrangements with the Company which provide for payment of defined amounts over certain periods commencing at specified dates or events.

Pension Plan

The Company has a defined benefit pension plan, referred to as the Worldwide Executive Benefit Plans (WEB), covering certain executives in the United States and foreign countries. The WEB is designed to integrate with government sponsored and local benefits and provide a monthly benefit to vice presidents upon retirement from the Company. Each year a plan participant accrued and was fully vested in one-twentieth of the targeted benefits expressed as a percentage set by the Company for that year. Upon retirement, a participant receives a monthly benefit payment equal to the sum of the percentages accrued over such participant's term of employment, up to a maximum of 20 years, multiplied by the participant's highest average monthly salary during the 36 consecutive months in the final 72 months of active full-time employment through June 2003. In June 2003, the Company froze the WEB, so as to not allow new participants, future accruals and future salary increases.

F-21

Table of Contents

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Accounting for Deferred Compensation and Pension Plans

For financial accounting purposes, the Company estimates the present value of the future benefits payable under these plans as of the estimated payment commencement date. The Company also estimates the remaining number of years a participant will be employed by the Company. Then, each year during the period of estimated employment, the Company accrues a liability and recognizes expense for a portion of the future benefit using the benefit/years of service attribution method for SEIP, WAP and EWAP and the projected unit credit method for the WEB.

In calculating the accrual for future benefit payments, management has made assumptions regarding employee turnover, participant vesting, violation of non-competition provisions and the discount rate. Management periodically reevaluates all assumptions. If assumptions change in future reporting periods, the changes may impact the measurement and recognition of benefit liabilities and related compensation expense.

The Company adopted SFAS No. 158 on April 30, 2007 which resulted in an increase in deferred compensation and pension plan liabilities of \$713, a decrease in accumulated other comprehensive income of \$335 and a net increase of \$378 in deferred taxes.

As of April 30, 2008, the Company has recorded a decrease in deferred compensation and pension plan liabilities of \$1,139, an increase in accumulated other comprehensive income of \$844 and a net decrease of \$295 in deferred taxes.

International Retirement Plans

The Company also maintains various retirement plans statutorily required in seven foreign jurisdictions. The aggregate of the long-term benefit obligation accrued at April 30, 2008 and 2007 is \$3,701 for 101 participants and \$2,664 for 92 participants, respectively. The Company's contribution to these plans was \$840 and \$651 in fiscal 2008 and 2007, respectively.

Executive Capital Accumulation Plan

In January 2004, the Company implemented the ECAP. The ECAP is intended to provide certain employees an opportunity to defer salary and/or bonus on a pre-tax basis. Company contributions into this plan are discretionary and are granted to key employees annually based on the employee's performance. In addition, certain key management may receive Company ECAP contributions upon commencement of employment. Participants generally vest in Company contributions over a three to four year period. Participants have the ability to allocate their deferrals among a number of investment options and may receive their benefits at termination, retirement or in service either in a lump sum or in quarterly installments over five, ten or fifteen years. The Company operates two similar plans in the Company's Asia Pacific and Canadian regions.

Employer ECAP contributions were \$18,448, \$7,694, and \$8,409 in fiscal 2008, 2007, and 2006, respectively. The Company expects to make an ECAP contribution of approximately \$14,000 in fiscal year 2009. In addition, the Company may make additional ECAP contributions in fiscal 2009 if key employees are hired.

Table of Contents**KORN/FERRY INTERNATIONAL AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The roll-forward of the ECAP liability is as follows:

	Total

Estimated Future Benefit Payments

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid April 30:

Pension	Deferred Compensation
----------------	----------------------------------

	Benefits	Plans
2009	\$ 196	\$ 3,807
2010	206	4,229
2011	235	5,115
2012	241	4,393
2013	250	4,522
Years 2014-2018	1,230	23,787

Company Owned Life Insurance (COLI)

The Company purchased COLI contracts insuring employees eligible to participate in the deferred compensation and pension plans. The gross CSV of these contracts of \$142,077 and \$136,462 is offset by outstanding policy loans of \$60,700 and \$59,984 in the accompanying consolidated balance sheets as of April 30, 2008 and 2007, respectively. Total death benefits payable, net of loans under COLI contracts, were \$226,980 and \$221,943 at

F-24

Table of Contents**KORN/FERRY INTERNATIONAL AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

April 30, 2008 and 2007, respectively. Management intends to use the future death benefits from these insurance contracts to fund the deferred compensation and pension arrangements; however, there may not be a direct correlation between the timing of the future cash receipts and disbursements under these arrangements. In addition, certain policies are held in trusts to provide additional benefit security for the deferred compensation and pension plans. As of April 30, 2008, COLI contracts with a net cash surrender value of \$66,644 and death benefits payable, net of loans, of \$138,926 were held in trust for these purposes.

9. Income Taxes

The provision for income taxes is based on reported income before income taxes. Deferred income tax assets and liabilities reflect the impact of temporary differences between the amounts of assets and liabilities recognized for financial reporting purposes and the amounts recognized for tax purposes, as measured by applying the currently enacted tax laws.

The provision for domestic and foreign income taxes consists of the following:

	Fiscal Year Ended April 30,		
	2008	2007	2006
Current income taxes:			
Federal	\$ 14,788	\$ 18,353	\$ 7,346
State	5,658	6,543	1,636
Foreign	21,627	14,869	12,795
Total	42,073	39,765	21,777
Deferred income taxes:			
Federal	(1,699)	(5,525)	(86)
State	(1,805)	(1,543)	(1,285)
Foreign	(2,488)	(2,533)	(812)
Total	(5,992)	(9,601)	(2,183)
Provision for income taxes	\$ 36,081	\$ 30,164	\$ 19,594

The domestic and foreign components of income from continuing operations before domestic and foreign income and other taxes and equity in earnings of unconsolidated subsidiaries were as follows:

	Fiscal Year Ended April 30,		
	2008	2007	2006
Domestic	\$ 38,865	\$ 38,008	\$ 38,749

Edgar Filing: KORN FERRY INTERNATIONAL - Form 10-K

Foreign	60,125	44,491	38,275
Income before provision for income taxes and equity in earnings of unconsolidated subsidiaries	\$ 98,990	\$ 82,499	\$ 77,024

F-25

Table of Contents**KORN/FERRY INTERNATIONAL AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The difference between the effective tax rate in the consolidated financial statements and the statutory federal income tax rate is attributed to the following:

	Fiscal Year Ended April 30,		
	2008	2007	2006
U.S. federal statutory tax rate	35.0%	35.0%	35.0%
Foreign source income, net of credits used	2.1	3.1	2.3
Income subject to net lower foreign tax rates	(1.9)	(3.9)	(1.8)
COLI increase, net	(1.7)	(2.6)	(2.6)
Repatriation of foreign earnings	0.3	1.9	2.8
Loss recovery			(2.1)
Effect of IRS audit			(11.2)
State income taxes, net of federal benefit	3.9	5.9	3.0
Non-deductible interest expense		0.4	0.5
Adjustments for contingencies and valuation allowance	(1.5)	(2.5)	
Other	0.2	(0.7)	(0.5)
Effective tax rate	36.4%	36.6%	25.4%

The effective tax rate of 25.4% in fiscal 2006 was impacted by two items not present in the other fiscal years presented. In the fourth quarter of fiscal 2006, the Company finalized an audit with the IRS, pertaining to the fiscal years 1997 to 2003. As a result of the audit, the Company booked a tax benefit of \$8,636. This benefit was offset by an accrual that the Company made in accordance with Accounting Principles Board Opinion No. 23 Accounting for Income Taxes in Special Areas (APB 23). The Company decided to repatriate a certain portion of its previously undistributed foreign earnings. This resulted in tax expense of \$2,150. The other item that impacted the effective tax rate was a loss recovery of \$4,536 that occurred in the Company's third quarter of fiscal 2006. The Company realized a recovery on an investment that had previously been impaired. For tax purposes, the Company had a 100% valuation allowance on this item as it has been determined to be unlikely that the Company would be able to use the resulting capital loss. The income of \$4,536 generated by the loss recovery resulted in no related tax expense, which lowered the effective tax rate for fiscal 2006.

In fiscal 2007 and fiscal 2008, the Company also made an accrual in accordance with APB 23 to reflect the Company's decision to repatriate an additional portion of its previously undistributed foreign earnings. This resulted in tax expense of \$1,600 in each fiscal year.

The significant components of deferred tax assets and liabilities are as follows:

	As of April 30,	
	2008	2007
Deferred income tax assets attributable to:		
Deferred compensation	\$ 46,762	\$ 39,316
Allowance for doubtful accounts	1,450	1,450
Accrued liabilities and other	5,569	4,360
Property and equipment	1,961	2,589
Loss and credit carryforwards	2,422	4,327
Other	12,627	12,164
Deferred tax assets before valuation allowances	70,791	64,206
Deferred tax liabilities attributable to:		
Property and equipment		(63)
Accrued liabilities and other	(692)	(663)
Other	(10,548)	(8,609)
Deferred tax liabilities before valuation allowances	(11,240)	(9,335)
Valuation allowances	(2,022)	(3,334)
Net deferred income tax assets	\$ 57,529	\$ 51,537

Certain deferred tax amounts and valuation allowances were adjusted in fiscal 2008 based on differences between fiscal 2007's provision and related tax return filings. Changes to the valuation allowance balances are recorded through the provision for income taxes in the respective year.

The deferred tax amounts have been classified in the consolidated balance sheets as of April 30:

	2008	2007
Current deferred tax assets	\$ 11,197	\$ 10,438
Current deferred tax liabilities	(796)	(914)
Current deferred tax asset, net	10,401	9,524
Non-current deferred tax asset	59,594	53,768
Non-current deferred tax liabilities	(10,444)	(8,421)
Valuation allowance	(2,022)	(3,334)
Non-current deferred tax asset, net	47,128	42,013

Net deferred tax assets	\$ 57,529	\$ 51,537
-------------------------	-----------	-----------

SFAS No. 109, *Accounting for Income Taxes*, requires that deferred tax assets be reduced by a valuation allowance if it is more likely than not that some portion or all of the deferred tax asset will not be realized. Management believes uncertainty exists regarding the realizability of certain foreign tax credit carry-forwards and has therefore established a valuation allowance for this portion of the deferred tax asset. Realization of the deferred income tax asset is dependent on the Company generating sufficient taxable income in future years as the deferred income tax charges become currently deductible for tax reporting purposes. Although realization is not assured, management believes that it is more likely than not that the net deferred income tax asset will be realized.

At April 30, 2008, the Company had state net operating loss carryforwards of approximately \$4,235 to offset future tax liabilities. The losses attributable to the various states may be carried forward 5 to 20 years.

KORN/FERRY INTERNATIONAL AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The Company has not provided for U.S. deferred income taxes on approximately \$97,573 of undistributed earnings and associated withholding taxes of the foreign subsidiaries as the Company has taken the position under APB 23, that its foreign earnings will be permanently reinvested offshore. If a distribution of these earnings were to be made, the Company might be subject to both foreign withholding taxes and U.S. income taxes, net of any allowable foreign tax credits or deductions. However, an estimate of these taxes is not practicable.

The Company's income tax returns are routinely audited by the IRS and various state and foreign tax authorities. Significant disputes may arise with these tax authorities involving issues of the timing and amount of deductions and allocations of income among various tax jurisdictions because of differing interpretations of tax laws and regulations. The Company periodically evaluates its exposures associated with tax filing positions. While management believes its positions comply with applicable laws, the Company records liabilities based upon estimates of the ultimate outcomes of these matters.

As a result of the adoption of FIN 48, the Company recorded a cumulative effect adjustment for unrecognized uncertain tax positions which reduced retained earnings by \$3,541 as of May 1, 2007. As of the adoption date, the Company had gross unrecognized tax benefits of \$10,700 which are included in the Income Taxes Payable liability. This amount, if recognized, would have a favorable impact on the Company's effective tax rate. A reconciliation of the beginning and ending amount of unrecognized tax benefits, including interest and penalties, is as follows for the year ended April 30, 2008:

Unrecognized tax benefits at April 30, 2007	\$ 10,700
Estimated interest for the year ended April 30, 2008	600
