Role of the Compensation Committee; Philosophy

The Compensation Committee is a committee of the Board of Directors to which authority has been delegated to approve and monitor the executive compensation and benefits programs of Trinsic, Inc. and its subsidiaries (collectively the Company), to administer and make awards under the company's equity participation plans and to monitor and supervise the administration of the Trinsic, Inc. 401-K Plan (the 401-K Plan).

The primary objectives of the Compensation Committee as set forth in the Compensation Committee Charter are

- (1) To assure that the Company's executive compensation and benefits programs and awards under its equity plans
 - Are competitive with other growing companies in the Company's industry;
 - Safeguard the interests of the Company and its stockholders;
 - Are effective in driving performance to achieve financial goals and create stockholder value;
 - Foster teamwork on the part of management and non-management employees;
 - Are cost effective and fair to employees, management and stockholders; and
 - Are well communicated and understood by the participants;
- (2) To assure investor confidence in the integrity of the Company's process for determining executive compensation; and

(3) To assure the Company fulfills its fiduciary obligations in its administration of the 401-K Plan.

The Committee's philosophy with respect to executive compensation is to establish comparatively low base salaries and place substantial emphasis on stock-based compensation, which we view to be very effective at correlating executive compensation with corporate performance and increases in stockholder value. In setting the compensation levels for the chief executive officer and other executive officers, we use our own judgment considering many factors, including comparisons to the levels of compensation paid to similarly situated executives in other companies and a variety of quantitative performance measures such as revenue, earnings and cash flow, all with due regard to management's projections and the competitive and regulatory environment in which the company operates. In 2004, we retained a compensation consulting firm, Hewitt Associates LLC, to assist us. Hewitt provided us with an executive compensation study.

Equity Participation Plans

The company has three equity participation plans: the 1998 Equity Participation Plan, the 2000 Equity Participation Plan and the 2004 Stock Incentive Plan. The 1998 Equity Participation Plan was terminated in 2000, although options remain outstanding under that plan. The 2000 Equity Participation Plan and the 2004 Stock Incentive Plan authorize us to award, among other things, non-qualified and incentive stock options, restricted stock, deferred stock and stock appreciation rights to employees and consultants, while the full Board administers stock-based awards to independent directors. Under the 2000 Equity Participation Plan and the 2004 Stock Incentive Plan, we select the employees and consultants to whom awards are to be made, determine the number of shares to be subject to awards and the terms and conditions of the awards, and make all other determinations and take all other actions necessary or advisable for the administration of the plan with respect to employees or consultants.

As of May 1, 2006, 269,107 shares of common stock were available for issuance under the 2000 Equity Participation Plan. The 2000 Equity Plan is an evergreen plan. On the first day of each fiscal year a number of shares equal to the lesser of 60,000 or 6% of the outstanding shares of common stock are added to the plan, unless the Board of Directors sets a smaller number. The exercise price of stock options awarded under the 2000 Equity Participation Plan is generally made at no less than fair market value on the date of the award. During 2005, we awarded options to purchase 226 shares and we awarded 24,000 shares of restricted stock under the 2000 Equity Plan.

As of May 1, 2006, 828,850 shares were available for issuance under the 2004 Stock Incentive Plan. During 2005, we did not award any options to purchase stock and we granted 301,533 shares of restricted stock under the 2004 Stock Incentive Plan

2005 Compensation for the Chief Executive Officer

The general policies described above for the compensation of the executive officers also apply to the compensation approved by Compensation Committee during 2005 for the company's chief executive officer. After the resignation of D. Gregory Smith in July 2004, Horace J. Davis III, the company's chief financial officer, assumed the additional role of chief executive officer, eventually relinquishing the role of chief financial officer. We subsequently increased Mr. Davis' base annual salary from \$200,000 to \$300,000. We also awarded Mr. Davis a bonus of \$30,000. Based upon the executive compensation study provided to us by Hewitt Associates LLC, our compensation consulting firm, and our own observations we believe Mr. Davis' annual salary is relatively lower than the salaries of other chief executive officers in comparable situations. Mr. Davis has an employment agreement with the company, the initial term of which will expire in August 2008. The agreement currently provides for (i) a base salary of \$300,000, (ii) automatic renewal for subsequent one year terms (subject to nonrenewal by either party 90 days prior to the end of the term), (iii) the payment of his base salary and benefits for one year in the event of termination without cause, (iv) the payment of 2.9 times his base salary and any incentive or bonus paid in the prior year if termination of employment occurs within six months before or two years after a change in control, and (v) deemed termination of employment without cause (at his election) if certain specified events occur within six months of a change in control. Under the agreement, Mr. Davis also agreed to certain non-competition and nonsolicitation covenants.

Table of Contents**DIRECTOR COMPENSATION**

Each independent director, except Messrs. Tucker and Cowen, received \$20,000 in cash compensation for their services during 2005. Pursuant to the terms of the 2000 Equity Participation Plan, upon initial election to the Board of Directors each independent director (that is, a director not employed by the company) automatically receives options to purchase 220 shares of our common stock. Thereafter, each independent director also receives automatically options to purchase an additional 220 shares of our common stock at the time of each annual meeting of stockholders at which such director is reelected. Options received by independent directors under the 2000 Equity Participation Plan have exercise prices not less than the fair market value of the company's common shares at the date of the grant, expire ten years after the date of the grant and vest over four years. The 2000 Equity Participation Plan and the 2004 Stock Incentive Plan also permit discretionary grants of stock options to independent directors.
