SONOCO PRODUCTS COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

Note 1: Basis of Interim Presentation

In the opinion of the management of Sonoco Products Company (the Company or Sonoco), the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring adjustments, unless otherwise stated) necessary to state fairly the consolidated financial position, results of operations and cash flows for the interim periods reported herein. Operating results for the three months ended March 29, 2009, are not necessarily indicative of the results that may be expected for the year ending December 31, 2009. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2008.

On January 1, 2009, the Company adopted Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Financial Statements an amendment of ARB No. 51, the provisions of which, among others, require that minority interests be renamed noncontrolling interests and be presented as a component of equity for all periods presented. Accordingly, \$11,543 of noncontrolling interests that were previously included in Other liabilities on the Company's December 31, 2008 balance sheet have been reclassified to equity.

With respect to the unaudited condensed consolidated financial information of the Company for the three month periods ended March 29, 2009 and March 30, 2008 included in this Form 10-Q, PricewaterhouseCoopers LLP reported that they have applied limited procedures in accordance with professional standards for a review of such information. However, their separate report dated April 28, 2009 appearing herein, states that they did not audit and they do not express an opinion on that unaudited financial information. Accordingly, the degree of reliance on their report on such information should be restricted in light of the limited nature of the review procedures applied. PricewaterhouseCoopers LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933 for their report on the unaudited financial information because that report is not a report or a part of a registration statement prepared or certified by PricewaterhouseCoopers LLP within the meaning of Sections 7 and 11 of the Act.

Note 2: Shareholders' Equity*Earnings Per Share*

The following table sets forth the computation of basic and diluted earnings per share:

	Three Months Ended	
	March 29, 2009	March 30, 2008

Reported net income attributable to Sonoco per common share:		
Basic	\$ 0.23	\$ 0.13
Diluted	\$ 0.23	\$ 0.13

Table of Contents

SONOCO PRODUCTS COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

Stock options to purchase 6,011,600 and 1,934,083 shares at March 29, 2009 and March 30, 2008, respectively, were not dilutive and, therefore, are excluded from the computations of diluted income attributable to Sonoco per common share amounts. No adjustments were made to reported net income attributable to Sonoco in the computations of earnings per share.

Stock Repurchases

The Company's Board of Directors has authorized the repurchase of up to 5,000,000 shares of the Company's common stock. No shares were repurchased under this authorization during the first three months of 2009. Accordingly, at March 29, 2009, a total of 5,000,000 shares remain available for repurchase.

The Company occasionally repurchases shares of its common stock to satisfy employee tax withholding obligations in association with the exercise of stock appreciation rights and performance-based stock awards. These repurchases, which are not part of a publicly announced plan or program, totaled 43,842 shares in the first three months of 2009 at a cost of \$956.

Note 3: Restructuring and Asset Impairment

The Company has engaged in a number of restructuring actions over the past several years. Actions initiated in 2009, 2008 and 2007 are reported as 2009 Actions, 2008 Actions and 2007 Actions, respectively. In addition, the Company has two formal restructuring plans that are still active, although both were substantially complete at March 29, 2009. These are reported as Earlier Actions. Following are the total restructuring and asset impairment charges, net of adjustments, recognized by the Company during the periods presented:

	Three Months Ended	
	March 29, 2009	March 30, 2008
Restructuring/Asset impairment:		
2009 Actions	\$ 8,188	\$
2008 Actions	3,329	4,365
2007 Actions	(4,367)	13,643
Earlier Actions	60	879
Financial Asset Impairment		42,651
Restructuring/Asset impairment charges	\$ 7,210	\$ 61,538
Income tax benefit	(2,657)	(17,351)
Impact of Noncontrolling Interests, net of tax	1,506	(3,395)
Restructuring/Asset impairment charges, net of adjustments (after tax)	\$ 6,059	\$ 40,792

Restructuring and asset impairment charges are included in Restructuring/Asset impairment charges in the Condensed Consolidated Statements of Income, except for restructuring charges applicable to equity method investments, which are included in Net (income)/loss attributable to noncontrolling interests.

The Company expects to recognize future additional costs totaling approximately \$13,080 in connection with previously announced restructuring actions and believes that the majority of these charges will be incurred and paid by the end of 2009. The Company continually evaluates its cost structure, including its manufacturing capacity and additional restructuring actions may be undertaken.

Table of Contents

SONOCO PRODUCTS COMPANY

(unaudited)

2009 Actions

During 2009, the Company initiated closures in its Tubes and Cores/Paper segment including a paper mill in the United States and two tube and core plants, one in Europe and the other in the United States. The Company also initiated the closure of a molded plastics facility in the United States (part of All Other Sonoco). In addition, the Company has also continued to realign its fixed cost structure resulting in the permanent elimination of approximately 24 positions.

Below is a summary of 2009 Actions and related expenses by type incurred and estimated to be incurred through the end of the restructuring initiative.

	First Quarter 2009	Total Incurred to Date	Estimated Total Cost
2009 Actions			
Severance and Termination Benefits			
Tubes and Cores/Paper segment	\$ 1,930	\$ 1,930	\$ 6,700
Consumer Packaging segment	212	212	212
All Other Sonoco	756	756	756
Asset Impairment / Disposal of Assets			
Tubes and Cores/Paper segment	5,114	5,114	5,114
Other Costs			
Tubes and Cores/Paper segment			1,442
All Other Sonoco	176	176	326
Total	\$ 8,188	\$ 8,188	\$ 14,550

The following table sets forth the activity in the 2009 Actions restructuring accrual included in Accrued expenses and other on the Company's Condensed Consolidated Balance Sheets:

2009 Actions Accrual Activity 2009 Year to Date	Severance and Termination Benefits	Asset Impairment/ Disposal of Assets	Other Costs	Total
Liability, December 31, 2008	\$	\$	\$	\$
New charges	2,898	5,114	176	8,188
Cash payments	(505)		(14)	(519)
Asset writedowns/disposals		(5,114)		(5,114)
Foreign currency translation	19			19
Liability, March 29, 2009	\$ 2,412	\$	\$ 162	\$ 2,574

During the three months ended March 29, 2009, the Company also recorded non-cash, after-tax offsets in the amount of \$(58), to reflect the impact of a noncontrolling interest holder's portion of restructuring charges.

The Company expects to pay the majority of the remaining 2009 Actions restructuring costs by the end of 2009 using cash generated from operations.

2008 Actions

During 2008, the Company initiated the following closures in its Tubes and Cores/Paper segment: ten tube and core plants, three in the United States, three in Canada, two in the United Kingdom, one in Spain, and one in China; two paper mills, one in the United States and one in Canada; and a specialty paper machine in the United States. In addition, closures were initiated at four rigid packaging plants in the United States (part of the Consumer Packaging segment) and two fulfillment centers in the United States (part of the Packaging Services segment). The Company also realigned its fixed cost structure resulting in the permanent elimination of approximately 125 salaried positions.

The Company expects to pay the majority of the remaining 2008 Actions restructuring costs by the end of 2009 using cash generated from operations.

2007 Actions

In 2007, the Company initiated the closures of the following operations: a metal ends plant in Brazil (Consumer Packaging segment), a rigid packaging plant in the United States (Consumer Packaging segment), a paper mill in China (Tubes and Cores/Paper segment), a molded plastics plant in Turkey (All Other Sonoco), and a point-of-purchase display manufacturing plant in the United States (Packaging Services segment).

Foreign currency translation	(2)			(2)
Adjustments	(7)	(4,474)		(4,481)
Liability, March 29, 2009	\$ 68	\$	\$	\$ 68

Sales proceeds of \$14,671, net of commissions, were received in December 2008 related to the sale of the Company's paper mill in China. At the time these proceeds were received, the book value of property, plant and equipment and land use rights (an intangible asset) was written off. Additional sales proceeds of \$4,474 were received during the first quarter of 2009, the full amount of which is reflected as a net gain under Adjustments in the table above. Under the

terms of the sales agreement for this paper mill, the remaining sales proceeds of approximately \$5,500 are due in 2009. The Company is following the cost recovery method of Statement of Financial Accounting Standards No. 66, Accounting for Sales of Real Estate, in recognizing the net gain on this transaction. Accordingly, gains on the sale have been recognized only to the extent that cash has been received. During the three months ended March 29, 2009, the Company also recorded non-cash, after-tax offsets in the amount of \$1,564, to reflect the impact of the noncontrolling interest holder's portion of the gain discussed above. The Company expects to pay the majority of the remaining 2007 Actions restructuring costs during 2009 using cash generated from operations.

Table of Contents

SONOCO PRODUCTS COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

Earlier Actions

Earlier Actions are comprised of two formal restructuring plans, the 2006 Plan and the 2003 Plan, both of which included a number of plant closures and workforce reductions. At March 29, 2009, the remaining restructuring accrual for Earlier Plans totaled \$1,061. The accrual, included in Accrued expenses and other on the Company's Condensed Consolidated Balance Sheet, relates primarily to building lease terminations and unpaid severance and termination benefits. The Company expects to recognize future pre-tax charges of approximately \$310 associated with Earlier Actions, primarily related to costs of exiting two closed facilities in Europe and building lease terminations. The Company expects both the liability and the future costs to be fully paid at the end of 2012, using cash generated from operations.

Financial Asset Impairment

As part of the 2003 sale of its High Density Film business, the Company received a subordinated note receivable (due in 2013) and a preferred equity interest in the buyer as a portion of the selling price. Based on information provided by the buyer late in the first quarter of 2008, the Company concluded that neither the collection of its subordinated note receivable nor redemption of its preferred equity interest was probable, and that their value was likely zero.

Accordingly, the Company fully reserved these items in the first quarter of 2008, recording a charge totaling \$42,651 pretax (\$30,981 after tax). This financial asset impairment charge is included in Restructuring/Asset impairment charges in the Company's Condensed Consolidated Statements of Income. On May 6, 2008, the buyer filed a petition for relief under Chapter 11 with the United States Bankruptcy Court for the District of Delaware that included a plan of reorganization, which was subsequently approved by the court June 26, 2008. As part of the plan of reorganization, the Company's preferred equity interest and its subordinated note receivable were extinguished.

Note 4: Comprehensive Income

The following table reconciles net income to comprehensive income attributable to Sonoco:

	Three Months Ended	
	March 29, 2009	March 30, 2008
Net income	\$ 23,735	\$ 8,916
Other comprehensive income, net of income tax:		
Foreign currency translation adjustments	(18,847)	14,340
Changes in defined benefit plans	23,149	1,407
Changes in derivative financial instruments	(3,724)	6,589
Comprehensive income	\$ 24,313	\$ 31,252
Comprehensive (income)/loss attributable to noncontrolling interests	(613)	4,343
Comprehensive income attributable to Sonoco	\$ 23,700	\$ 35,595

The following table summarizes the components of accumulated other comprehensive loss and the changes in accumulated other comprehensive loss, net of tax as applicable, for the three months ended March 29, 2009:

Table of Contents

SONOCO PRODUCTS COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

	Foreign Currency Translation Adjustments	Defined Benefit Plans	Derivative Financial Instruments	Accumulated Other Comprehensive Loss
Balance at December 31, 2008	\$ (68,737)	\$ (372,807)	\$ (13,135)	\$ (454,679)
Year-to-date change	(18,847)	23,149	(3,724)	578
Balance at March 29, 2009	\$ (87,584)	\$ (349,658)	\$ (16,859)	\$ (454,101)

At March 29, 2009, the Company had commodity swaps outstanding to fix the costs of a portion of raw materials and energy. These swaps, which have maturities ranging from April 2009 to December 2012, qualify as cash flow hedges under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, and related amendments. The amounts included in accumulated other comprehensive loss related to these commodity swaps were an unfavorable position of \$26,679 (\$16,859 after tax) at March 29, 2009, and an unfavorable position of \$20,815 (\$13,135 after tax) at December 31, 2008.

The tax effect on Derivative Financial Instruments in the first quarter of 2009 was \$2,140. The cumulative tax effect of Derivative Financial Instruments was \$9,820 and \$7,680, at March 29, 2009 and December 31, 2008, respectively. The tax effect on Defined Benefit Plans in the first quarter of 2009 was \$(14,817). The cumulative tax benefit of the Defined Benefit Plans was \$210,441 at March 29, 2009, and \$225,258 at December 31, 2008.

Note 5: Goodwill and Other Intangible Assets**Goodwill**

A summary of the changes in goodwill for the three months ended March 29, 2009 is as follows:

	Tubes and Cores	Consumer	Packaging	All Other Sonoco	Total
	/Paper Segment	Packaging Segment	Services Segment		
Balance as of December 31, 2008	\$ 229,239	\$ 336,894	\$ 150,610	\$ 66,240	\$ 782,983
Foreign currency translation	(3,276)	(568)	6	(63)	(3,901)
Balance as of March 29, 2009	\$ 225,963	\$ 336,326	\$ 150,616	\$ 66,177	\$ 779,082

The Company completed its annual goodwill impairment testing during the third quarter of 2008. Based on the results of this evaluation, the Company concluded that there was no impairment of goodwill for any of its reporting units. Based on its ongoing evaluation of relevant facts and circumstances, the Company concluded that there were no significant changes during the first quarter of 2009 that required additional goodwill impairment testing. The annual

evaluation performed in 2008 used forward-looking projections and included significant expected improvements in the future cash flows of two of the Company's reporting units, Matrix Packaging and Sonoco CorrFlex (CorrFlex). As a result of the global economic recession, operating results of the Company's European Tubes and Cores/Paper business have fallen in recent months. The Company expects operating results in this business to improve when general economic conditions improve and recently implemented restructuring actions are completed. If the Company's assessment of the relevant facts and circumstances changes, or if actual performance in these reporting units falls short of expected results, noncash impairment charges may be required. Total goodwill associated with Matrix Packaging, CorrFlex and Tubes and Cores/Paper Europe was approximately \$120,000, \$150,000 and \$102,000, respectively at March 29, 2009.

(unaudited)

Other Intangible Assets

A summary of other intangible assets as of March 29, 2009 and December 31, 2008 is as follows:

	March 29, 2009	December 31, 2008
Amortizable intangibles		
Gross cost Patents	\$ 684	\$ 3,559
Customer lists	155,612	156,883
Land use rights	310	316
Supply agreements	1,000	1,000
Other	6,286	12,047
Total gross cost	\$ 163,892	\$ 173,805
Total accumulated amortization	\$ (47,166)	\$ (53,265)
Net amortizable intangibles	\$ 116,726	\$ 120,540

During the first quarter of 2009, the Company wrote off patents with a gross cost of approximately \$2,870. The patents, which were fully amortized, had no legal or economic life remaining.

Other intangible assets are amortized, usually on a straight-line basis, over their respective useful lives, which generally range from three to twenty years. Aggregate amortization expense was \$2,919 and \$3,452 for the three months ended March 29, 2009 and March 30, 2008, respectively. Amortization expense on other intangible assets is expected to approximate \$12,000 in 2009, \$11,700 in 2010, \$11,300 in 2011, \$11,000 in 2012 and \$10,700 in 2013.

Note 6: Fair Value Measurements

The following table sets forth information regarding the Company's financial assets and financial liabilities that are measured at fair value. The Company does not currently have any nonfinancial assets or liabilities that are recognized or disclosed at fair value on a recurring basis.

Description	Fair Value Measurements at Reporting Date Using			
	March 29, 2009	Quoted Market Prices in Active Market for Identical Assets/Liabilities (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Assets:				
Derivatives	\$ 225	\$	\$ 225	\$
Deferred Compensation Plan Assets	\$ 1,547	\$ 1,547	\$	\$

Liabilities:

Derivatives	\$ 26,847	\$	\$ 26,847	\$
-------------	-----------	----	-----------	----

The Company uses derivatives from time to time to mitigate the effect of raw material and energy cost fluctuations, foreign currency fluctuations and interest rate movements. The Company records qualifying derivatives in accordance with Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities (FAS 133), and related amendments. Fair value measurements for the Company's derivatives, which at March 29, 2009, consisted primarily of natural gas swaps entered into for hedging purposes, and foreign currency swaps for which hedge accounting has not been applied, are classified under Level 2 because such measurements are determined using published market prices or estimated based on observable inputs such as interest rates, yield curves, spot and future commodity prices and spot and future exchange rates.

Table of Contents

SONOCO PRODUCTS COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

Certain deferred compensation plan liabilities are funded and the assets invested in various exchange traded mutual funds. These assets are measured using quoted prices in accessible active markets for identical assets.

None of the Company's financial assets or liabilities currently covered by the disclosure provisions of FAS 157 are measured at fair value using significant unobservable inputs.

Although the impairment model for goodwill is a fair value-based assessment model, goodwill is not periodically remeasured at fair value. In the event an impairment loss is recorded, the required nonrecurring fair value disclosures will be provided.

Note 7: Derivatives

The Company records its derivatives in accordance with Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities (FAS 133), and related amendments. This Statement requires that all derivatives be recognized as assets or liabilities on the balance sheet at fair value and provides guidance on accounting for derivatives entered into as a hedge. The Company uses published market prices or estimated values based on current price quotes and a discounted cash flow model to estimate the fair market value of derivatives. Changes in the fair value of derivatives are recognized either in net income or in other comprehensive income, depending on the designated purpose of the derivative. It is the Company's policy not to speculate in derivative instruments. The Company has determined all hedges to be highly effective and as a result no material ineffectiveness has been recorded.

The Company uses derivatives to mitigate the effect of fluctuations in some of its raw material and energy costs, foreign currency fluctuations and interest rate movements. The Company purchases commodities such as recovered paper, metal and energy generally at market or fixed prices that are established with the vendor as part of the purchase process for quantities expected to be consumed in the ordinary course of business. The Company may enter into commodity futures or swaps to reduce the effect of price fluctuations. The Company may use foreign currency forward contracts and other risk management instruments to manage exposure to foreign currency cash flows, assets, and liabilities. The Company is exposed to interest-rate fluctuations as a result of using debt as a source of financing for its operations. The Company may from time to time use traditional, unleveraged interest rate swaps to adjust its mix of fixed and variable rate debt to manage its exposure to interest rate movements.

Cash Flow Hedges

At March 29, 2009 and December 31, 2008, the Company had derivative financial instruments outstanding to hedge anticipated transactions and certain asset and liability related cash flows. To the extent considered effective, the changes in fair value of these contracts are recorded in other comprehensive income and reclassified to income or expense in the period in which the hedged item impacts earnings.

Commodity Cash Flow Hedges

The Company has entered into certain derivative contracts to manage the cost of anticipated purchases of natural gas and aluminum. At March 29, 2009, natural gas swaps covering approximately 7.3 million MMBTUs were outstanding. These contracts represent approximately 75%, 69%, 44% and 19% of anticipated U.S. and Canadian usage for 2009, 2010, 2011 and 2012, respectively. Additionally, the Company had swap contracts covering 7,065 metric tons of aluminum representing approximately 60% and 8% of anticipated usage for 2009 and 2010. The fair value of commodity cash flow hedges was \$(25,588) and \$(20,491) at March 29, 2009 and December 31, 2008, respectively. The amount of the loss included in Accumulated other comprehensive loss at March 29, 2009, that is expected to be reclassified to the income statement during the next twelve months is \$17,601.

Table of Contents

SONOCO PRODUCTS COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

Foreign Currency Cash Flow Hedges

The Company has entered into forward contracts to hedge certain anticipated foreign currency denominated sales and purchases forecasted to occur in 2009. At March 29, 2009, the net position of these contracts was to purchase approximately 41,900 Canadian dollars, 5,900 euros, and 1,800 British pounds. The fair value of these foreign currency cash flow hedges was \$(1,261) and \$(693) at March 29, 2009 and December 31, 2008, respectively. The amount of the loss included in Accumulated other comprehensive loss at March 29, 2009, that is expected to be reclassified to the income statement during the next twelve months is \$1,261.

Fair Value Hedges

The Company had no fair value hedges at March 29, 2009 or December 31, 2008.

Other Derivatives

The Company routinely enters into forward contracts or swaps to economically hedge the currency exposure of intercompany debt and existing foreign currency denominated receivables and payables. The Company does not apply hedge accounting treatment under FAS 133 for these instruments. As such, changes in fair value are recorded directly to income and expense in the periods that they occur. The total fair value of these hedges, all of which were short-term, was \$225 and \$6,604 at March 29, 2009 and December 31, 2008, respectively.

The following table sets forth location and fair values of the Company's derivative instruments at March 29, 2009:

FAIR VALUE OF DERIVATIVE INSTRUMENTS

Description	Balance Sheet	
	Location	Fair Value
Derivatives designated as hedging instruments under FAS133:		
Commodity Contracts	Other Current Liabilities	\$ 17,665
Commodity Contracts	Other Long Term Liabilities	\$ 7,923
Foreign Exchange Contracts	Other Current Liabilities	\$ 1,261

Derivatives not designated as hedging instruments under FAS133:

Foreign Exchange Contracts	Other Current Assets	\$ 225
----------------------------	----------------------	--------

The following table sets forth the effect of the Company's derivative instruments on financial performance for the quarter ended March 29, 2009:

Description	Amount of Gain or (Loss) Recognized in OCI on Derivative (Effective Portion)	Location of Gain or (Loss) Reclassified from OCI Into Income (Effective Portion)	Amount of Gain or (Loss) Recognized from Accumulated OCI Into Income (Effective Portion)	Location of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion)	Amount of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion)

Note 8: Dividend Declarations

On February 4, 2009, the Board of Directors declared a regular quarterly dividend of \$0.27 per share. This dividend was paid March 10, 2009 to all shareholders of record as of February 20, 2009.

On April 15, 2009, the Board of Directors declared a regular quarterly dividend of \$0.27 per share. This dividend is payable June 10, 2009 to all shareholders of record as of May 15, 2009.

Note 9: Employee Benefit Plans**Retirement Plans and Retiree Health and Life Insurance Plans**

The Company provides non-contributory defined benefit pension plans for a majority of its employees in the United States and certain of its employees in Mexico and Belgium. Effective December 31, 2003, the Company froze participation for newly hired salaried and non-union hourly U.S. employees in its traditional defined benefit plan. The Company adopted a defined contribution plan, the Sonoco Investment and Retirement Plan (SIRP), covering its non-union U.S. employees hired on or after January 1, 2004. The Company also sponsors contributory pension plans covering the majority of its employees in the United Kingdom, Canada, and the Netherlands, as well as postretirement healthcare and life insurance benefits to the majority of its retirees and their eligible dependents in the United States and Canada.

On February 4, 2009, the U.S. qualified defined benefit pension plan was amended to freeze plan benefits for all active participants effective December 31, 2018. Former participants in the U.S. qualified plan would be transferred to the SIRP effective January 1, 2019. Participants have a one-time option to transfer into the SIRP effective January 1, 2010. The choice for this one-time election must be made prior to August 18, 2009.

The plan amendment required a remeasurement of the U.S. qualified plan's assets and liabilities as of February 4, 2009. The following table reconciles the U.S. qualified plan's beginning of year obligations and assets to their values on the remeasurement date:

	U.S Qualified Defined Benefit Pension Plan
Change in Benefit Obligation	
Benefit obligation at January 1, 2009	\$ 860,247
Service cost	1,633
Interest cost	4,268
Liability gain due to curtailment	(18,493)
Actuarial gain	(43,800)
Benefits paid	(3,330)
Benefit obligation at February 4, 2009	\$ 800,525
Change in Plan Assets	
Fair value of Plan assets at January 1, 2009	\$ 593,988
Actual return on Plan assets	(30,290)
Benefits paid	(3,330)
Expenses paid	(258)
Fair value of Plan assets at February 4, 2009	\$ 560,110

Funded Status of the Plan \$ (240,415)

The discount rate used to determine the benefit obligation of the U.S. qualified defined benefit plan was 6.52% and 6.10% at February 4, 2009 and December 31, 2008, respectively.

Table of Contents

SONOCO PRODUCTS COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

The components of net periodic benefit cost include the following:

	Three Months Ended	
	March 29, 2009	March 30, 2008
Retirement Plans		
Service cost	\$ 5,687	\$ 6,523
Interest cost	17,248	18,796
Expected return on plan assets	(14,280)	(22,438)
Amortization of net transition obligation	90	65
Amortization of prior service cost	271	563
Amortization of net actuarial loss	9,837	3,649
Effect of curtailment loss	2,344	
Net periodic benefit cost	\$ 21,197	\$ 7,158
Retiree Health and Life Insurance Plans		
Service cost	\$ 338	\$ 512
Interest cost	980	1,117
Expected return on plan assets	(278)	(475)
Amortization of prior service credit	(2,689)	(2,566)
Amortization of net actuarial loss	804	767
Net periodic benefit income	\$ (845)	\$ (645)

As a result of the amendment to the U.S. qualified defined benefit pension plan, the Company recognized a \$2,344 curtailment loss. Approximately 75% of this charge is included in Cost of sales in the Condensed Consolidated Statements of Income; the remainder is included in Selling, general and administrative expenses.

During the three months ended March 29, 2009, the Company made contributions of \$4,119 to its retirement and retiree health and life insurance plans. The Company anticipates that it will make additional contributions of approximately \$13,400 in 2009. The Company also contributed \$4,847 to the SIRP during this same three-month period. No additional contributions are expected during the remainder of 2009. Funding of the Company's U.S. defined benefit pension plan is not required in 2009 because of the ability to utilize funding credits arising from previously funding the plan in excess of minimum requirements. No assurances can be made, however, about funding credits beyond 2009, as they will depend largely on actual investment returns and future actuarial assumptions.

Sonoco Savings Plan

The Company sponsors the Sonoco Savings Plan, a defined contribution retirement plan, for its U.S. employees. The plan provides for participant contributions of 1% to 30% of gross pay. The plan provides 100% Company matching on the first 3% of pre-tax contributions, 50% Company matching on the next 2% of pre-tax contributions and 100% immediate vesting. On April 15, 2009, Sonoco's Board of Directors approved an amendment to the Sonoco Savings Plan temporarily suspending the Company's matching contribution effective as of June 1, 2009. The Board intends to reevaluate matching contributions once business conditions allow.

Note 10: Income Taxes

The Company adopted the provisions of Financial Accounting Standards Board Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48), on January 1, 2007. There have been no significant changes in the Company's liability for uncertain tax positions since December 31, 2008.

Table of Contents

SONOCO PRODUCTS COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

The Company's effective tax rate for the three-month period ending March 29, 2009 was 32.5%. The rate for the first quarter varied from the U.S. statutory rate primarily due to the favorable effect of international operations that are subject to tax rates generally lower than the U.S. rate and the favorable effect of the manufacturer's deduction and other U.S. tax adjustments. The Company's effective tax rate for the first quarter of 2008 was 47.8%. This varied from the statutory rate primarily due to a valuation allowance recorded against the capital loss carryovers created by the impairment of financial assets discussed in Note 3, as well as certain restructuring charges for which tax benefits could not be recognized.

The Company and/or its subsidiaries file federal, state and local income tax returns in the United States and various foreign jurisdictions. The Company is no longer subject to U.S. federal income tax examination by tax authorities for years before 2005. With respect to U.S. state and local and non-U.S. income taxes, the Company is no longer subject to examination prior to 2003, with few exceptions.

The Company's estimate for the potential outcome for any uncertain tax issue is highly judgmental. Management believes that any reasonably foreseeable outcomes related to these matters have been adequately provided for. However, future results may include favorable or unfavorable adjustments to estimated tax liabilities in the period the assessments are made or resolved or when statutes of limitation on potential assessments expire. Additionally, the jurisdictions in which earnings or deductions are realized may differ from current estimates. As a result, the Company's effective tax rate may fluctuate significantly on a quarterly basis.

Note 11: New Accounting Pronouncements

In April 2009, the FASB issued FSP FAS 141(R)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies*. This FASB Staff Position (FSP) modifies FAS 141(R) to provide that contingent assets acquired or liabilities assumed in a business combination be recorded at fair value if the acquisition-date fair value can be determined during the measurement period. If not, such items would be recognized at the acquisition date if they meet the recognition requirements of FAS 5. In periods after the acquisition date, an acquirer shall account for contingent assets and liabilities that were not recognized at the acquisition date in accordance with other applicable GAAP, as appropriate. Items not recognized as part of the acquisition but recognized subsequently would be reflected in that subsequent period's income. This FSP has no immediate impact on the Company's financial statements, but will apply to any future acquisitions.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments* which requires publicly traded companies to provide disclosure about the fair value of financial instruments whenever interim summarized financial information is reported. Previously, disclosures about the fair value of financial instruments was only required on an annual basis. The Company is required to begin including this disclosure with its second quarter 2009 financial statements. Disclosure shall include the method(s) and significant assumptions used to estimate the fair value of financial instruments and shall describe changes in method(s) and significant assumptions, if any, during the period.

In April 2009, the FASB issued FSP FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*. This FSP applies to all assets and liabilities that require or permit fair value measurements, except as discussed in paragraphs 2 and 3 of Statement 157 (e.g., stock-based compensation, inventory, and leases). This FSP does not apply to quoted prices for an identical asset or liability in an active market (that is, a Level 1 input). If the reporting entity concludes there has been a significant decrease in the volume and level of activity for the asset or liability in relation to normal market activity for the asset or liability (or similar assets or liabilities), transactions or quoted prices may not be determinative of fair value. In such cases, further analysis of the transactions or quoted prices is needed, and a significant adjustment to the transactions or quoted prices may be necessary to estimate fair value in accordance with Statement 157. This FASB Staff Position (FSP) is effective for interim and annual reporting periods ending after June 15, 2009, and shall be applied prospectively. This FSP is not expected to have a material impact on the

Company's financial statements.

Note 12: Financial Segment Information

Sonoco reports its results in three segments, Consumer Packaging, Tubes and Cores/Paper and Packaging Services. The remaining operations are reported as All Other Sonoco.

The Consumer Packaging segment includes the following products: round and shaped rigid packaging (both composite and plastic); printed flexible packaging; and metal and peelable membrane ends and closures.

The Tubes and Cores/Paper segment includes the following products: high-performance paper and composite paperboard tubes and cores; fiber-based construction tubes and forms; pallet components; recycled paperboard, linerboard, recovered paper and other recycled materials.

The Packaging Services segment provides the following products and services: designing, manufacturing, assembling, packing and distributing temporary, semipermanent and permanent point-of-purchase displays; brand artwork management; and supply chain management services, including contract packing, fulfillment and scalable service centers.

All Other Sonoco represents the Company's businesses that do not meet the aggregation criteria outlined in Statement of Financial Accounting Standards No. 131, Disclosures about Segments of an Enterprise and Related Information, and therefore are not included in any of the above reportable segments. All Other Sonoco includes the following products: wooden, metal and composite wire and cable reels; molded and extruded plastics; custom-designed protective packaging; and paper amenities such as coasters and glass covers.

The following table sets forth net sales, intersegment sales and operating profit for the Company's three reportable segments and All Other Sonoco. Operating profit at the segment level is defined as Income before interest and income taxes on the Company's Condensed Consolidated Statements of Income, adjusted for restructuring/asset impairment charges, which are not allocated to the reporting segments.

(unaudited)

Note 13: Commitments and Contingencies

The Company is a party to various legal proceedings incidental to its business and is subject to a variety of environmental and pollution control laws and regulations in all jurisdictions in which it operates. The Company is also currently a defendant in a purported class action by persons who bought Company stock between February 7, 2007 and September 18, 2007. That suit alleges that the market price of the stock had been inflated by allegedly false and misleading earnings projections published by the Company. As is the case with other companies in similar industries, the Company faces exposure from actual or potential claims and legal proceedings. Some of these exposures have the potential to be material. Information with respect to these and other exposures appears in Part I Item 3 Legal Proceedings and Part II Item 8 Financial Statements and Supplementary Data (Note 15 Commitments and Contingencies) in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, and in Part II Item 1 Legal Proceedings of this report. The Company cannot currently estimate the final outcome of many of the items described or the ultimate amount of potential losses.

Pursuant to Statement of Financial Accounting Standards No. 5, Accounting for Contingencies, accruals for estimated losses are recorded at the time information becomes available indicating that losses are probable and that the amounts are reasonably estimable. Amounts so accrued are not discounted. While the ultimate liabilities relating to claims and proceedings may be significant to profitability in the period recognized, it is management's opinion that such liabilities, when finally determined, will not have an adverse material effect on Sonoco's consolidated financial position or liquidity.

Environmental Matters

During the fourth quarter of 2005, the U. S. Environmental Protection Agency (EPA) notified U.S. Paper Mills Corp. (U.S. Mills), a wholly owned subsidiary of the Company, that U.S. Mills and NCR Corporation (NCR), an unrelated party, would be jointly held responsible to undertake a program to remove and dispose of certain PCB-contaminated sediments at a particular site on the lower Fox River in Wisconsin (the Site) which is now labeled by the EPA as Phase 1. U.S. Mills and NCR reached an agreement between themselves that each would fund 50% of the costs of remediation. The Company has expensed a total of \$17,650 for its estimated share of the total cleanup cost. Of the total expensed, \$12,500 was recorded in 2005, and \$5,150 was recorded in 2007. Through March 29, 2009, a total of \$14,885 has been spent on remediation of the Site, including settlement with a contractor who had claimed additional compensation. The Company currently estimates its share of the remaining cost of completing the Site project to be between \$1,200 and \$4,500. The remaining accrual of \$2,765 represents the Company's best estimate of what it is likely to pay to complete the Site project. However, the actual costs associated with cleanup of the Site are dependent upon many factors and it is reasonably possible that remediation costs could be higher than the current estimate of project costs. The Company acquired U.S. Mills in 2001, and the alleged contamination predates the acquisition. In February 2007, the EPA and Wisconsin Department of Natural Resources (WDNR) issued a general notice of potential liability under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and a request to participate in remedial action implementation negotiations relating to a stretch of the lower Fox River, including the bay at Green Bay, (Operating Units 2 - 5) to eight potentially responsible parties, including U.S. Mills. Operating Units 2 - 5 include but also comprise a vastly larger area than the Site. Although it has not accepted any liability, U.S. Mills is reviewing this information and discussing possible remediation scenarios, and the possible allocation of responsibility therefor, with other potentially responsible parties. On April 9, 2007, U.S. Mills, in conjunction with other potentially responsible parties, presented to the EPA and the WDNR a proposed schedule to mediate the allocation issues among eight potentially responsible parties, including U.S. Mills. Non-binding mediation began in May 2007 and continued as bilateral/multilateral negotiations until mid 2008. To date, no agreement among the parties has occurred.

On November 13, 2007, EPA issued a unilateral Administrative Order for Remedial Action pursuant to Section 106 of CERCLA. The order requires U.S. Mills and the seven other respondents to jointly take various actions to clean up

Operating Units 2 5. The order establishes two phases of work. The first phase consists of planning and design work as well as preparation for dredging and other remediation work and initially was required to be completed by December 31, 2008. The second phase consists primarily of dredging and

Table of Contents

SONOCO PRODUCTS COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands except per share data)

(unaudited)

disposing of contaminated sediments and capping of the dredged and less contaminated areas of the river bottom. The second phase is required to begin in 2009 when weather conditions permit and is expected to continue for several years. The order also provides for a \$32.5 per day penalty for failure by a respondent to comply with its terms as well as exposing a non-complying respondent to potential treble damages. Although U.S. Mills has reserved its rights to contest liability for any portion of the work, it is cooperating with the other respondents to comply with the first phase of the order, although its financial contribution will likely be determined by the lawsuit commenced in June 2008. On June 12, 2008, NCR and Appleton Papers, Inc., as plaintiffs, commenced a lawsuit against U.S. Mills, as one of a number of defendants, seeking a declaratory judgment allocating among all the parties the costs and damages associated with the pollution and cleanup of the Lower Fox River. The suit also seeks damages from the defendants for amounts already spent by the plaintiffs, including natural resource damages, and future amounts to be spent by all parties with regard to the pollution and cleanup of the Lower Fox River. The Company believes that this suit will have a minimal, if any, impact on the total of the potential remediation costs associated with Operating Units 2-5. As of March 29, 2009, U.S. Mills had accrued a total of \$60,825 for potential liabilities associated with the Fox River contamination (not including amounts accrued for remediation at the Site). In two separate actions during 2008, U.S. Mills increased its reserve for all Fox River related liabilities (other than the Site) from \$20,000 to \$60,825. Accordingly, U.S. Mills recognized additional pre-tax charges of \$40,825 in 2008 for such potential liabilities. Also during 2008, settlements totaling \$40,825 were reached on certain of the insurance policies covering the Fox River contamination. The recognition of these insurance settlements offset the impact to earnings of the additional charges in 2008. Although the Company lacks a reasonable basis for identifying any amount within the range of possible loss as a better estimate than any other amount, as has previously been disclosed, the upper end of the range may exceed the net worth of U.S. Mills. However, because the discharges of hazardous materials into the environment occurred before the Company acquired U.S. Mills, and U.S. Mills has been operated as a separate subsidiary of the Company, the Company does not believe that it bears financial responsibility for these legacy environmental liabilities of U.S. Mills. Therefore, the Company continues to believe that the maximum additional exposure to its consolidated financial position is limited to the equity position of U.S. Mills, which was approximately \$78,000 million at March 29, 2009.

The Company has been named as a potentially responsible party at several other environmentally contaminated sites. All of the sites are also the responsibility of other parties. The potential remediation liabilities are shared with such other parties, and, in most cases, the Company's share, if any, cannot be reasonably estimated at the current time. As of March 29, 2009 and December 31, 2008, the Company (and its subsidiaries) had accrued \$66,578 and \$70,542, respectively, related to environmental contingencies. Of these, a total of \$63,590 and \$67,411 relate to U.S. Mills at March 29, 2009 and December 31, 2008, respectively. These accruals are included in Accrued expenses and other on the Company's Condensed Consolidated Balance Sheets. As discussed above, U.S. Mills also recognized a \$40,825 benefit from settlements reached on certain insurance policies covering the Fox River contamination. U.S. Mills received all of the cash proceeds from these settlements in 2008. U.S. Mills' two remaining insurance carriers are in liquidation. It is possible that U.S. Mills may recover from these carriers a small portion of the costs it ultimately incurs. U.S. Mills may also be able to reallocate some of the costs it incurs among other parties. There can be no assurance that such claims for recovery would be successful and no amounts have been recognized in the consolidated financial statements of the Company for such potential recovery or reallocation.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Directors of Sonoco Products Company:

We have reviewed the accompanying condensed consolidated balance sheet of Sonoco Products Company as of March 29, 2009, and the related condensed consolidated statements of income and of cash flows for the three-month periods ended March 29, 2009 and March 30, 2008. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole.

Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of December 31, 2008, and the related consolidated statements of income, shareholders' equity and of cash flows for the year then ended (not presented herein), and in our report dated February 27, 2009, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2008, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Statements included in this report that are not historical in nature, are intended to be, and are hereby identified as forward-looking statements for purposes of the safe harbor provided by Section 21E of the Securities Exchange Act of 1934, as amended. The words estimate, project, intend, expect, believe, consider, plan, anticipate, objective, goal, guidance, outlook, forecasts, future, will, would and similar expressions identify forward-looking statements. Forward-looking statements include, but are not limited to, statements regarding offsetting high raw material costs; improved productivity and cost containment; adequacy of income tax provisions; refinancing of debt; adequacy of cash flows; anticipated amounts and uses of cash flows; effects of acquisitions and dispositions; adequacy of provisions for environmental liabilities; financial strategies and the results expected from them; continued payments of dividends; stock repurchases; producing improvements in earnings, financial results for future periods, and creation of long-term value for shareholders. Such forward-looking statements are based on current expectations, estimates and projections about our industry, management's beliefs and certain assumptions made by management. Such information includes, without limitation, discussions as to guidance and other estimates, expectations, beliefs, plans, strategies and objectives concerning our future financial and operating performance. These statements are not guarantees of future performance and are subject to certain risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially from those expressed or forecasted in such forward-looking statements. The risks and uncertainties include, without limitation:

Availability and pricing of raw materials;

Success of new product development and introduction;

Ability to maintain or increase productivity levels and contain or reduce costs;

International, national and local economic and market conditions;

Availability of credit to us, our customers and/or our suppliers in needed amounts and/or on reasonable terms;

Fluctuations in obligations and earnings of pension and postretirement benefit plans;

Ability to maintain market share;

Pricing pressures and demand for products;

Strength of our paperboard-based tubes and cores and composite can operations;

Anticipated results of restructuring activities;

Resolution of income tax contingencies;

Ability to successfully integrate newly acquired businesses into the Company's operations;

Rate of growth in foreign markets;

Foreign currency, interest rate and commodity price risk and the effectiveness of related hedges;

Actions of government agencies and changes in laws and regulations affecting the Company;

Liability for and anticipated costs of environmental remediation actions;

Ability to weather the current economic downturn;

Loss of consumer or investor confidence; and

Economic disruptions resulting from terrorist activities.

The Company undertakes no obligation to publicly update or revise forward-looking statements, whether as a result of new information, future events or otherwise. In light of these risks, uncertainties and assumptions, the forward-looking events discussed in this report might not occur.

Table of Contents**SONOCO PRODUCTS COMPANY*****COMPANY OVERVIEW***

Sonoco is a leading manufacturer of industrial and consumer packaging products and provider of packaging services, with 327 locations in 35 countries.

Sonoco competes in multiple product categories with the majority of its operations organized and reported in three segments: Consumer Packaging, Tubes and Cores/Paper and Packaging Services. Various other operations are reported as All Other Sonoco. The majority of the Company's revenues are from products and services sold to consumer and industrial products companies for use in the packaging of their products for sale or shipment. The Company also manufactures paperboard, primarily from recycled materials, for both internal use and open market sale. Each of the Company's operating units has its own sales staff and maintains direct sales relationships with its customers.

First Quarter 2009 Compared with First Quarter 2008***RESULTS OF OPERATIONS***

The following discussion provides a review of results for the three months ended March 29, 2009 versus the three months ended March 30, 2008.

OVERVIEW

Sales for the first quarter were 23% below last year's levels primarily due to lower volumes companywide. Despite the substantial drop in sales and a significant increase in pension costs, gross profit margins for the first quarter only declined to 17.6% compared to last year's 18.0%. Margins were favorably impacted by certain selling price increases and reduced costs for recovered paper, film and resins, as well as cost containment actions and productivity initiatives. Net income attributable to Sonoco for the first quarter of 2009 was \$23.1 million, up from \$13.3 million reported for the same period of 2008. 2009 earnings include \$9.3 million of higher after-tax pension expenses as well as after-tax restructuring charges of \$6.1 million. First quarter 2008 results were significantly impacted by after-tax charges for the impairment of financial assets and restructuring of \$31 million and \$9.8 million, respectively.

As stated above, the Company has experienced significant volume shortfalls as a result of global economic conditions, primarily in the Tubes and Cores/Paper and Packaging Services segments. In order to manage the impact of these shortfalls until economic conditions improve, the Company has initiated restructuring activities to eliminate excess capacity and taken other cost containment actions to manage fixed costs. It is uncertain when and to what degree volumes will improve. Given its strong cash flow, liquidity position and competitive cost structure, Sonoco is well positioned to manage any further economic weakness and take advantage as markets recover.

OPERATING REVENUE

Net sales for the first quarter of 2009 were \$801 million, compared to \$1,038 million for the first quarter of 2008, a decrease of \$237 million.

The components of the sales change were:

(\$ in millions)

Volume/Mix	(\$158)
Foreign Currency Translation	(75)
Selling Prices	(8)
Other	4
 Total Sales Decrease	 (\$237)

Volume/mix accounted for a 15% decrease in sales from 2008 levels as each of the Company's reporting segments experienced volume declines across all geographic regions, with the greatest volume declines occurring in businesses serving industrial markets, which tend to be more economically sensitive. Although average selling prices were higher in several businesses due to increases initiated in response to higher metal and converting costs, they were more than offset by significantly lower recovered paper prices. The strong dollar, relative to last year's levels, also contributed

significantly to the sales decline.

Table of Contents**SONOCO PRODUCTS COMPANY*****COSTS AND EXPENSES***

Cost of sales in the first quarter of 2009 was lower year over year due to the significant declines in volume discussed above. Total pension and retirement plan costs increased approximately \$15 million, most of which is reflected in cost of sales. This increase resulted primarily from the decline in the value of plan assets during 2008. Lower recovered paper prices had the corresponding effect of lowering costs in our converted paper operations. In addition, manufacturing productivity improvements and cost containment activities offset a portion of these increases. However, other cost components experienced price increases since last year's first quarter including metal, energy, labor and other converting costs.

Selling, general and administrative costs are down primarily due to lower management incentive expenses, the impact of foreign currency translation and lower volumes. These reductions were partially offset by higher pension costs. Restructuring and related asset impairment charges totaled \$7.2 million and \$18.9 million for the first quarters of 2009 and 2008, respectively. The first quarter of 2008 also included charges of \$42.7 million for the impairment of the Company's remaining financial interest in the 2003 sale of its high-density film business. Additional information regarding restructuring and impairment actions is provided in Note 3 to the Consolidated Financial Statements. Net interest expense for the first quarter of 2009 decreased to \$9.6 million, compared with \$13.2 million during the same period in 2008. The decrease was due to lower debt levels and lower interest rates.

This year's first quarter effective tax rate of 32.5% was significantly lower than the 47.8% rate recorded in the 2008 quarter. Last year's rate reflected a valuation reserve against the capital loss carryforward generated by the impairment of financial assets and tax benefits that could not be recognized on certain restructuring charges.

REPORTABLE SEGMENTS

The following table recaps net sales for the first quarters of 2009 and 2008 (\$ in thousands):

	Three Months Ended	
	March 29, 2009	March 30, 2008
Net Sales:		
Consumer Packaging	\$ 351,934	\$ 387,370
Tubes and Cores/ Paper	288,340	436,187
Packaging Services	95,835	124,431
All Other Sonoco	64,520	90,008
Consolidated	\$ 800,629	\$ 1,037,996

Consolidated operating profits, also referred to as Income before income taxes on the Condensed Consolidated Statements of Income, are comprised of the following (\$ in thousands):

	Three Months Ended	
	March 29, 2009	March 30, 2008
Income before income taxes:		
Segment Operating Profit		
Consumer Packaging	\$ 39,397	\$ 36,277
Tubes and Cores/ Paper	6,746	34,564
Packaging Services	635	5,979
All Other Sonoco	5,136	11,433
Restructuring & Impairment Charges	(7,210)	(61,538)
Interest, net	(9,631)	(13,228)

Consolidated \$ 35,073 \$ 13,487

Segment results are used by Company management to evaluate segment performance and do not include restructuring, impairment and net interest charges. Accordingly, the term "segment operating profit" is defined as the segment's portion of "Income before income taxes" excluding those items. All other general corporate expenses have been allocated as operating costs to each of the Company's reportable segments and All Other Sonoco.

Table of Contents

SONOCO PRODUCTS COMPANY

Consumer Packaging

Sonoco's Consumer Packaging segment includes the following products: round and shaped rigid packaging (both composite and plastic); printed flexible packaging; and metal and peelable membrane ends and closures.

Sales in the Consumer Packaging segment during the first quarter of 2009 decreased \$35 million, or 9% compared with the first quarter of 2008. This was primarily due to an overall volume decline of 10%. In addition, an unfavorable \$20.5 million effect of foreign currency translation more than offset the favorable impact of selling price increases. Segment operating profit was up 9% in the first quarter as selling price increases were implemented to offset rising metal and other costs, the negative impact of which was not fully realized in the first quarter. This delay in the flow through of higher metal costs, along with productivity improvements and lower resin and film costs, were the major factors in the increase in operating profit. It is management's expectation that the price/cost benefit seen this quarter will not be sustained in future periods as the full effect of higher metal costs is realized. Higher pension costs partially offset this favorable price/cost relationship.

Tubes and Cores/Paper

The Tubes and Cores/Paper segment includes the following products: high-performance paper and composite paperboard tubes and cores; fiber-based construction tubes and forms; recycled paperboard, linerboard, recovered paper and other recycled materials.

First quarter 2009 sales for the segment dropped \$148 million, or 34%, compared with the same period in 2008, as a result of significantly lower demand around the globe and the \$41 million unfavorable effect of foreign currency translation. Volume accounted for slightly more than half of the total sales decline. In addition, selling prices, particularly those of recovered paper, declined year over year.

Segment operating profit fell over 80% from last year's levels due to lower volume and higher energy, labor and pension costs. The benefit of material cost savings in excess of related sales price declines, and lower fixed costs from recent restructuring actions, offset a portion of the volume decline.

Packaging Services

The Packaging Services segment includes the following products and services: designing, manufacturing, assembling, packing and distributing temporary, semipermanent and permanent point-of-purchase displays; brand artwork management; and supply chain management services, including contract packing, fulfillment and scalable service centers.

First quarter 2009 sales for the segment decreased 23% or \$29 million from first quarter 2008 levels. This decrease was due to the cumulative impact of lower volume throughout the segment, lower selling prices in the pack centers and an \$11.9 million unfavorable effect of foreign currency translation.

Segment operating profit declined 89% in the first quarter, compared with the same period in 2008. Lower volume in point-of-purchase displays, fulfillment and contract packing were the primary reasons for the steep decline in earnings, but lower selling prices in the pack centers also contributed.

All Other Sonoco

All Other Sonoco includes businesses that are not aggregated in a reportable segment and includes the following products: wooden, metal and composite wire and cable reels, molded and extruded plastics, custom-designed protective packaging and paper amenities such as coasters and glass covers.

First quarter 2009 sales in All Other Sonoco dropped nearly 29% from the same period in 2008. Continued slowness in the housing market resulted in lower volumes in wire and cable reels, protective packaging and molded plastics.

Prices were flat compared to last year, but reported sales were negatively impacted by foreign currency translation.

Operating profit was down 55% from last year's first quarter due to lower volumes and higher pension costs, partially offset by productivity improvements.

Table of Contents

SONOCO PRODUCTS COMPANY

Financial Position, Liquidity and Capital Resources

The Company's financial position remained strong during the first quarter of 2009. Cash flows from operations totaled \$75.5 million in the first quarter of 2009, compared with \$64.0 million in the same quarter last year. Increases in long-term accrued expenses together with a decline in the use of cash needed to fund changes in working capital and other items in the first quarter of 2009, compared to last year's first quarter, contributed to the change in operating cash flow.

During the first quarter of 2009, the Company funded capital expenditures of \$34.6 million, paid dividends of \$26.9 million, and reduced its outstanding debt by a net \$22.5 million to \$667.3 million at March 29, 2009. These activities utilized cash generated from operations as well as existing cash on hand, which decreased from \$101.7 million at December 31, 2008, to \$78.6 million at March 29, 2009.

During the latter part of 2008, the Internal Revenue Service issued a temporary rule extending to 60 days the period that U.S. Corporations may borrow funds from foreign subsidiaries without unfavorable tax consequences. The Company utilized this rule during the final two months of 2008 to access approximately \$72 million of offshore cash on hand, which was used to reduce outstanding commercial paper. These short-term lending arrangements were settled early in 2009. In March, the Company again utilized this rule to access approximately \$65 million of offshore cash on hand, which was used to reduce outstanding commercial paper. This short-term lending arrangement will be settled during the second quarter resulting in equivalent increases in commercial paper and cash on hand. Depending on its immediate offshore cash needs, the Company may choose to again access such funds in the future as allowed by the temporary rule. Commercial paper, a component of the Company's long-term debt, had a balance of \$74.0 million at March 29, 2009.

Certain of the Company's debt agreements impose restrictions with respect to the maintenance of financial ratios and the disposition of assets. The most restrictive covenant currently requires the Company to maintain a minimum level of net worth, as defined. As of March 29, 2009, the Company's defined net worth was approximately \$410 million above the minimum level required under this covenant.

Certain assets and liabilities are reported in the Company's financial statements at fair value, the fluctuation of which can impact the Company's financial position and results of operations. Items reported by the Company on a recurring basis at fair value include derivative contracts and pension and deferred compensation related assets. The valuation of the vast majority of these items is based either on quoted prices in active and accessible markets or on other observable inputs. Approximately five percent of the fair value of the Company's pension plan assets is measured using unobservable inputs.

At March 29, 2009, the Company had commodity swaps outstanding to fix the cost of a portion of anticipated raw materials and natural gas purchases. The total net fair market value of these instruments was an unfavorable position of \$26.8 million at March 29, 2009, and an unfavorable position of \$20.5 million at December 31, 2008. Natural gas and aluminum contracts covering an equivalent of 7.3 million MMBtu and 7,065 metric tons, respectively, were outstanding at March 29, 2009. Additionally, the Company had various currency swaps outstanding to fix the exchange rate on certain anticipated foreign currency cash flows. These swaps, which have maturities ranging from April 2009 to June 2012, qualify as cash flow hedges under FAS 133.

In addition, at March 29, 2009, the Company had various currency swaps outstanding to fix the exchange rate on certain foreign currency cash flows. Although placed as an economic hedge, the Company has chosen not to apply hedge accounting to these swaps. The fair value of these currency swaps, all of which mature in 2009, was a net favorable position of \$0.2 million at the end of the quarter.

Table of Contents

**SONOCO PRODUCTS COMPANY
Restructuring and Impairment**

Information regarding restructuring charges and restructuring-related asset impairment charges is provided in Note 3 to the Company's Condensed Consolidated Financial Statements.

New Accounting Pronouncements

Information regarding new accounting pronouncements is provided in Note 11 to the Company's Condensed Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Information about the Company's exposure to market risk is discussed under Part I, Item 2 in this report and was disclosed in its Annual Report on Form 10-K for the year ended December 31, 2008, which was filed with the Securities and Exchange Commission on February 27, 2009. There have been no other material quantitative or qualitative changes in market risk exposure since the date of that filing.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Under the supervision, and with the participation, of our management, including our principal executive officer and principal financial officer, we conducted an evaluation pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934). Based on this evaluation, our principal executive officer and principal financial officer concluded that such controls and procedures, as of the end of the period covered by this Quarterly Report on Form 10-Q, were effective.

Changes in Internal Controls

The Company is continuously seeking to improve the efficiency and effectiveness of its operations and of its internal controls. This results in refinements to processes throughout the Company. However, there has been no change in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

Information with respect to legal proceedings and other exposures appears in Part I Item 3 Legal Proceedings and Part II Item 8 Financial Statements and Supplementary Data (Note 15 Commitments and Contingencies) in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, and in Part I Item 1 Financial Statements (Note 13 Commitments and Contingencies) of this report. In April 2006, the United States and the State of Wisconsin (plaintiffs) sued U.S. Paper Mills Corp. (U.S. Mills), a wholly owned subsidiary of the Company, and NCR Corporation (NCR), an unrelated company, to recover certain costs incurred for response activities undertaken regarding the release and threatened release of hazardous substances and specific areas of elevated concentrations of polychlorinated biphenyls (PCBs) in sediments in the Lower Fox River and Green Bay in northeastern Wisconsin (hereinafter the Site). Pursuant to a Consent Decree agreed to by NCR and U.S. Mills as a consequence of the litigation, the Site is to be cleaned up on an expedited basis and NCR and U.S. Mills started removing contaminated sediment in May 2007. The remediation involves removal of sediment from the riverbed, dewatering of the sediment and storage at an offsite landfill. U.S. Mills and NCR reached an agreement between themselves that each would fund 50% of the costs of remediation, which the Company currently estimates to be between \$32.1 million and \$38.9 million for the project as a whole. The actual costs associated with cleanup of this particular site are dependent upon many factors and it is reasonably possible that remediation costs could be higher than

Table of Contents**SONOCO PRODUCTS COMPANY**

the current estimate of project costs. Under the terms of the agreement, the parties reserved their rights to make claims against each other, as well as third parties, to reallocate the costs of remediating the Site. Accordingly, the Company's ultimate share of the liability for remediating the Site could be greater or less than 50% of the total cost.

In addition to the Site discussed above, as previously disclosed in its Annual Report on Form 10-K for the year ended December 31, 2008, U.S. Mills faces additional exposure related to potential natural resource damage and environmental remediation costs for a larger stretch of the lower Fox River, including the bay at Green Bay, which includes the Site discussed above (Operating Units 2-5). On April 9, 2007, U.S. Mills, in conjunction with other potentially responsible parties (PRPs), presented to the U.S. Environmental Protection Agency and the Wisconsin Department of Natural Resources a proposed schedule to mediate the allocation issues among eight PRPs, including U.S. Mills. Non-binding mediation began in May 2007 and continued as bilateral/multilateral negotiations although no agreement among the parties occurred. On June 12, 2008, NCR and Appleton Papers, Inc., as plaintiffs, commenced suit in the United States District Court for the Eastern District of Wisconsin (No. 08-CV-0016-WCG) against U.S. Mills, as one of a number of defendants, seeking a declaratory judgment allocating among all the parties the costs and damages associated with the pollution and clean up of the Lower Fox River. The suit also seeks damages from the defendants for amounts already spent by the plaintiffs, including natural resource damages, and future amounts to be spent by all parties with regard to the pollution and cleanup of the Lower Fox River. The court has initially limited discovery to information regarding when each party knew, or should have known, that recycling NCR-brand carbonless paper would result in the discharge of PCBs to a water body and what action, if any, each party took to avoid the risk of further contamination. The court has set a trial date for those issues only for December 1, 2009. U.S. Mills plans to vigorously defend the suit.

As of March 29, 2009, U.S. Mills had accrued a total of \$60.8 million for potential liabilities associated with the Fox River contamination (not including amounts accrued for remediation at the Site). In two separate actions during 2008, U.S. Mills increased its reserve for all Fox River related liabilities (other than the Site) from \$20.0 million to \$60.8 million. Accordingly, U.S. Mills recognized additional pre-tax charges of \$40.8 million in 2008 for such potential liabilities. Also during 2008, settlements totaling \$40.8 million were reached on certain of the insurance policies covering the Fox River contamination. The recognition of these insurance settlements effectively offset the impact to earnings of the additional charges in 2008. Although the Company lacks a reasonable basis for identifying any amount within the range of possible loss as a better estimate than any other amount, as has previously been disclosed, the upper end of the range may exceed the net worth of U.S. Mills. However, because the discharges of hazardous materials into the environment occurred before the Company acquired U.S. Mills, and U.S. Mills has been operated as a separate subsidiary of the Company, the Company does not believe that it bears financial responsibility for these legacy environmental liabilities of U.S. Mills. Therefore, the Company continues to believe that the maximum additional exposure to its consolidated financial position is limited to the equity position of U.S. Mills, which was approximately \$78 million at March 29, 2009.

On July 7, 2008, the Company was served with a complaint filed in the United States District Court for South Carolina by the City of Ann Arbor Employees' Retirement System, individually and on behalf of others similarly situated. The suit purports to be a class action on behalf of those who purchased the Company's common stock between February 7, 2007 and September 18, 2007, except officers and directors of the Company. The complaint alleges that the Company issued press releases and made public statements during the class period that were materially false and misleading because the Company allegedly had no reasonable basis for the earnings projections contained in the press releases and statements, and that such information caused the market price of the Company's common stock to be artificially inflated. The Complaint also names certain Company officers as defendants and seeks an unspecified amount of damages plus interest and attorneys' fees. The Company believes that the claims are without merit and intends to vigorously defend itself against the suit.

Table of Contents**SONOCO PRODUCTS COMPANY****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds****ISSUER PURCHASES OF EQUITY SECURITIES**

Period	(a) Total Number of Shares Purchased¹	(b) Average Price Paid per Share	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs²	(d) Maximum Number of Shares that May Yet be Purchased under the Plans or Programs²
1/01/09 - 2/01/09	2,349	\$ 24.07		5,000,000
2/02/09 - 3/01/09	41,493	\$ 21.68		5,000,000
3/02/09 - 3/29/09				5,000,000
Total	43,842	\$ 21.81		5,000,000

¹ All of the share purchases in the first quarter of 2009 relate to shares withheld to satisfy employee tax withholding obligations in association with the exercise of performance-based stock awards, deferred compensation and restricted stock. These shares were not repurchased as part of a publicly announced plan or program.

² On April 19, 2006, the Company's Board of Directors authorized the repurchase of up to 5,000,000 shares of the Company's common stock.. This authorization

rescinded all previous existing authorizations and does not have a specific expiration date. No shares were repurchased under this authorization during 2009. At March 29, 2009, a total of 5,000,000 shares remain available for repurchase.

Item 4. Submission of Matters to a Vote of Security Holders.

The Company's annual meeting of shareholders was held on April 15, 2009. The following matters, as described more fully in the Company's Proxy Statement, were approved by the shareholders at this meeting:

(1) The following directors were elected:

		VOTES	
	Term	For	Withheld
Dr. Pamela L. Davies	3 years	69,220,871	18,877,230
