Report of Independent Registered Public Accounting Firm

United Bankshares, Inc. Plan Sponsor

We have audited the accompanying statements of net assets available for benefits (modified cash basis) of the United Bankshares, Inc. Savings and Stock Investment Plan (the Plan) as of December 31, 2003 and 2002, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2003. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 1, the financial statements and supplemental schedules were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles.

In our opinion, the financial statements referred to above present fairly, in all material respects, the Plan's net assets available for benefits as of December 31, 2003 and 2002, and the changes in its net assets available for benefits for the year ended December 31, 2003, on the basis of accounting described in Note 1.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedules (modified cash basis) of assets held at end of year as of December 31, 2003, and reportable transactions for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules (modified cash basis) have been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole.

**1. Significant Accounting Policies**

**Accounting Method**

The accounting records of the United Bankshares, Inc. (United) Savings and Stock Investment Plan (the Plan) are maintained on a modified cash basis of accounting, a basis of accounting permitted by the Department of Labor. Such accounting method includes recording investments at fair value and the recording of contributions receivable. Other additions and deductions are recognized as received or paid rather than as earned or incurred. Accordingly, the accompanying financial statements are not intended to be presented in accordance with accounting principles generally accepted in the United States.

The preparation of financial statements requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Cash Equivalents**

Cash equivalents are investments in the Federated Government Obligations Fund, the underlying assets of which are highly liquid United States government obligations. The market value of cash equivalents approximates cost.

**Investments**

Investments are recorded at estimated fair value based upon published quoted prices, determined primarily by the last reported sales price on the last business day of the year.

**2. Description of the Plan**

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description for a complete description of the Plan's provisions.

deferral and one year of service for employer match. The Plan was established December 29, 1989, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Contributions**

Active participants may defer up to 100% of their annual pre-tax compensation subject to Internal Revenue Code (the Code) limitations. United contributes an amount equal to 100% of the first 2% of the participant's deferral and 25% of the next 2% of the participant's deferral. These matching contributions are made by United on a semi-monthly basis and consist of cash, which is used by the Plan to purchase shares of United common stock.

Participants may choose to have their deferral contributions directed to any of ten investment options including United Bankshares, Inc common stock, U.S. Government Securities Funds, various common stock funds, and an international equity fund. Investment elections must be made in multiples of 1%.

**Participant Accounts**

Plan earnings are allocated to each participant's account based upon the respective account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

**Vesting**

Participating employees are immediately fully vested as to employee and employer contributions to the Plan.

**Payment of Benefits**

On termination of service, a participant may receive a lump-sum amount or keep funds invested in the plan until reaching the age of 59 1/2.

In the event of termination, partial termination, or complete discontinuance of contributions to the Plan, the assets of the Plan will remain in trust and will be distributed in accordance with the Plan Agreement.

**3. Investments**

Each investment is subject to market risk. The degree of market risk varies by investment type based upon the nature of the applicable underlying net assets. The Plan's maximum exposure to accounting loss from such investments is represented by the amounts appearing in the statements of net assets available for benefits.
